

Brace Centre / IWRM Program Talk

Never Far from Water

Mr. William Cosgrove

Senior Research Scholar - International Institute for Applied Systems Analysis

Former Vice President - World Bank

Past President - World Water Council

Mr. Cosgrove will begin his presentation by describing the evolution of his career and his thinking from his entry to McGill Engineering studies in 1950 to the present. He will continue with a description of the major research initiative for which he is responsible at the International Institute for Applied Systems Analysis - *World Water Futures and Solutions: Developing a new generation of world water scenarios*. He is looking forward to answering questions and exchanging views with the audience.

Monday, March 11, 2013

1000 - 1300

Macdonald Campus Faculty Lounge (MS2-022)
