Position Title: Research Associate (part-time)

Hiring Unit: De Villers-Sidani Laboratory, Montreal Neurological Institute (MNI)

Supervisor: Dr. Etienne de Villers-Sidani

Work Location: MNI – 7th Floor

Hours/Week & Schedule: 21 hours/week – (9 am to 5 pm Mon-Tues-Wed)

Hourly Wage: $30,21

Planned Start Date & End Date: One year (renewable)

Date of Posting: (post for 5 working days minimum) May 16, 2017

Deadline to Apply: May 24, 2017

**PRIMARY DUTIES**

The De Villers-Sidani lab is seeking a qualified candidate to work independently with the design and writing of experimental protocols aimed at studying the role of age-related hearing loss and hearing aid use on the cognitive profiles and brain function as assessed by magneto-encephalography and functional MRI in human subjects.

Troubleshoot technical issues arising from the aforementioned experiments and is expected to develop the analyses routines necessary for the data generated.

Prepare reports and manuscripts based on the findings obtained and present them at scientific meetings and in peer-reviewed journals.

Participate with grant writing for both salary and operating support for the lab.

Co-supervise graduate and undergraduate students currently completing their studies in the laboratory.

**EDUCATION/EXPERIENCE**

PhD in psychology or cognitive neurosciences, relevant postdoctoral experience.

**OTHER QUALIFYING SKILLS & ABILITIES**

Preference will be given to candidates with excellent record of publications in internationally recognized journals. Previous experience in auditory psychophysics is essential. Experience with grant writing, coordinating lab operations and supervisory experience with students/postdoctoral fellows is an asset.

**HOW TO APPLY**

Please submit your application to: Dr. Etienne De Villers-Sidani
Submit a cover letter and CV to etienne.de-villers-sidani@mcgill.ca
