

Health Canada

Health Canada is the Federal department responsible for helping Canadians maintain and improve their health, while respecting individual choices and circumstances.

<http://www.hc-sc.gc.ca/ahc-asc/branch-dirgen/index-eng.php>

Healthy Environments and Consumer Safety Branch is responsible for:

- regulating radiation emitting devices
- regulating consumer products, cosmetics, and workplace hazardous materials
- regulating tobacco and controlled substances, and providing drug analytical services
- defining and communicating requirements for the manufacture, labelling, distribution and sale of cosmetics, and evaluating compliance
- assessing new substances and products of biotechnology for regulations
- assessing and reducing health risks posed by environmental factors including noise
- promoting consumer awareness of actual and potential product-related hazards
- promoting healthy work environments and delivering occupational health and safety services
- promoting initiatives to reduce and prevent the harm caused by tobacco and the abuse of alcohol and other controlled substances
- encouraging the design of safer products for the Canadian market
