The DEPT. of BUILDING, CIVIL & ENVIRONMENTAL ENGINEERING at CONCORDIA

AEESP Distinguished Lecturer

Dr. Joan B. Rose

Homer Nowlin Chair in Water Research at Michigan State University
and

Director of the Center for Water Sciences

“ADVANCING THE ART OF MICROBIAL RISK ASSESSMENT”

Dr. Rose's professional experience includes environmental virology, environmental parasitology, drinking water treatment and disinfection, microbial risk assessment, wastewater treatment and reuse, water pollution microbiology, mycology and food microbiology. She has been involved in the investigation of numerous waterborne outbreaks world-wide. She was named as one of the 21 most influential people in Water in the 21st Century by Water Technology Magazine and won the Clarke Water Prize. She has served on numerous advisory committees and boards including the Science Advisory Board of the International Commission of the Great Lakes, the Research Advisory Board of the National Water Research Institute, the AEESP board, and Chairs the Drinking Water Committee for the Science Advisory Board for the U.S. Environmental Protection Agency.

Wednesday, February 7, 2007 at 4:30 p.m.

Trottier Building, Room 0100
