Lufa Farms

At Lufa Farms, we're on a mission to change the way people eat by growing food where people live and growing it more sustainably. With each new urban farm, we hold ourselves to an ever higher standard of sustainability and technical ingenuity, growing dozens of vegetables, greens, and herbs hydroponically. As we grow we aim to continue developing an economically and ecologically sustainable model of food production.

Bayer CropScience & Impres

Through the Bayer powered by Impres initiative, students and recent graduates gain valuable hands-on experience and the chance to make a meaningful impact. We offer comprehensive industry training, competitive pay, recognition programs, and a vibrant, inclusive culture rooted in our mission: Health for All, Hunger for None.

Union des Producteurs Agricoles du Québec

L'Union des producteurs agricoles a pour mission principale de promouvoir, de défendre et de développer les intérêts professionnels, économiques, sociaux et moraux des 42 000 productrices et des producteurs agricoles et forestiers du Québec.

Agricultural Banking Solutions

As a commercial banker, you'll work with mid-market businesses, helping them achieve their goals by providing tailored financial solutions. Commercial banking is more than lending—it's about building long-term relationships with clients and understanding their unique business needs. This career is ideal for graduates who are analytical, client-focused, and eager to solve complex problems.

TD Bank

Lassonde

Lassonde is a family business. And this family includes all the dedicated, innovative people who invest their time, energy, creativity and commitment in crafting delicious, high-quality products. Together, we all play a part in making Lassonde a leader in the food processing industry.

Agropomme

Agropomme est une entreprise à taille humaine centrée sur l'accompagnement des entreprises pomicoles de la région afin de les aider à optimiser leurs pratiques et la qualité de leurs productions (régie et suivi phytosanitaire), tout au long du processus, de la plantation à la récolte et même en post-récolte! Nous regardons la culture dans tout son ensemble pour aider les pomiculteurs dans la mise en œuvre de pratiques agricoles responsables, écologiques et viables économiquement.

Ferme les Petites Écores

Join our dynamic team at Ferme les Petites Écores! We are constantly looking for new talent to help us grow our business. Whether you are passionate about gardening, beekeeping or agritourism, we have a job for you. Come and discuss your career ambitions with us and find out how you can contribute to our project and be part of the big Ferme les Petites Écores family.

International Rural Exchange Canada

Want to work abroad but have no idea where to begin? We can help! International Rural Exchange Canada (IRE) is a non-profit specializing in helping you with visas, employment, and accommodations while working abroad. We have opportunities all over the world, in agriculture, horticulture, viticulture, and the hospitality industry. You will be supported as you plan, travel, and even once you return.

Cree Board of Health and Social Services of James-Bay.

Founded in 1978, the Cree Board of Health and Social Services of James Bay (CBHSSJB) is responsible for the administration of health and social services for all persons residing permanently or temporarily in Region 18, the administrative region of the Ministry of Health and Social Services of Quebec corresponding to the Cree territory of James Bay.

Cree values and traditions were envisaged as key to the development of health and social services delivery systems in Section 14 of the 1975 James Bay and Northern Québec Agreement (JBNQA), which was the basis for the creation of the Cree Health Board.

Lactanet

Lactanet is a farmer-run organization serving Canadian dairy producers from coast-to-coast. We provide Canadian dairy farmers with the tools necessary to help them succeed, overcome challenges and sustain global leadership for the future. Our team is comprised of 450 people dedicated to providing products and services to more than 8,000 dairy farms across Canada.

Trouw Nutrition

Un leader mondial en matière d'alimentation, d'élevage et en santé. Depuis plus de 90 ans, nous développons des produits alimentaires innovants et des méthodes plus durables en production animale et pour les animaux de compagnie. Présents dans 105 pays et comprenant 22 usines de fabrication, nous sommes un guichet unique pour les spécialités en alimentation, les additifs alimentaires, les prémélanges, les modèles nutritionnels et les services intégrés personnalisés.

Stantec Experts- conseils Itée

Chef de file mondial dans le domaine du développement durable, Stantec offre des services-conseils en ingénierie, en architecture et en environnement. Les différents points de vue de nos partenaires et des parties prenantes nous motivent à faire preuve de créativité et d'innovation, surtout lorsqu'il s'agit d'enjeux importants comme les changements climatiques, la transformation numérique et la résilience des villes et des infrastructures. Nous sommes des concepteurs, des ingénieurs, des scientifiques, des chargés de projet et des conseillers stratégiques.

Groupe Agrocentre

Our corporate mission is to provide custom solutions to crop production businesses to optimize their performance. We do so by advising and distributing inputs required to crop production businesses, and by getting involved in the transportation and marketing of grain produced by our clients.

Agrocentre Fertibec serves farming businesses in Montérégie-Ouest, that is, west of the Richelieu River and south of the Ottawa River. This region accounts for nearly a quarter of corn and soybean production in Quebec.

Nortera

Dedicated to the processing and marketing of canned and frozen vegetables and fruits, Nortera operates plants in Canada and the United States. Our deep-rooted agility and know-how allow us to offer vegetable products that are always available in abundance. Our mission? To contribute to the well-being of society through access to the richness of vegetables.

Logiag

Logiag supports farmers and major agri-food multinationals in reducing their greenhouse gas emissions. We also offer a comprehensive range of services in agrology, agricultural engineering, and fertilizing residuals. Our pioneering spirit is rooted in the scientific rigour of all our services. With teams dedicated to science, research and development, as well as information technology, we push the boundaries of technology, notably with our instrument, LaserAg.

New-Life Mills

As part of the Parrish & Heimbecker family, New-Life Mills provides animal nutrition solutions to Canadian livestock producers. Our nutrition programs promote animal health, optimize genetic potential and aspire to increase producer profitability. Efficient feed conversions, improved production and healthier livestock promotes more profitable and sustainable future.

As a company we offer competitive compensation, ongoing educational opportunities, and a history of long term employees who we call family.

Olier Grisé

Since 1917, Olier Grisé & Cie Ltée has established itself as a key player in the animal feed sector in Quebec and Eastern Ontario. A family SME rooted in Saint-Pie, near Saint-Hyacinthe, our company combines more than a century of expertise with a vision focused on the future of agriculture.

Our mission? Support dairy, pork, poultry, sheep and cattle producers in achieving their business objectives through personalized and innovative solutions.

Centre d'insémination artificielle du Québec (CIAQ)

Le Ciaq est un leader mondial en génétique et reproduction bovine et emploie 275 personnes à travers le Québec. Il offre aux éleveurs des solutions génétiques, un service d'insémination ainsi que des produits de la ferme leur permettant d'améliorer la rentabilité de leurs troupeaux dans les secteurs laitiers et de boucherie.

BASF Canada Inc.

At BASF, we create chemistry for a sustainable future. We combine economic success with environmental protection and social responsibility. Through science and innovation, we enable our customers in nearly every industry to meet society's current and future needs.

Institut québécois du développement de l'horticulture ornementale (IQDHO)

Institut québécois du développement de l'horticulture ornementale

The Institut québécois du développement de l'horticulture ornementale has been THE center of expertise in ornamental horticulture in Quebec for over 30 years. Its multidisciplinary team fosters innovation and the transfer of knowledge necessary for the development of this industry.

IQDHO advisors provide R&D and technical consulting services to greenhouse, nursery, garden center and cannabis companies throughout Quebec. IQDHO also conducts pest surveillance and research projects as an officially recognized applied research center. In 2024, the institute opened a soil laboratory, designed to support Quebec horticultural producers and suppliers.
