The perspective of a Canadian Health IT provider: Challenges and opportunities

Stéphane Couture

Director, Product Management
TELUS | HEALTH

Abstract

Although relatively unknown to most, TELUS|HEALTH is the leading Health IT provider in Canada. With a unique set of applications and services that span the care continuum, TELUS has captivating insights into healthcare from a supplier point of view. I will be presenting an overview of the Canadian health IT market and the TELUS|HEALTH product portfolio. I will also provide operational examples, opportunities and challenges around specific products and services, mergers, acquisitions and investments.

Mr. Stéphane Couture has over 15 years of experience in the software and high technology sectors. He is currently Director, Product Management for TELUS|HEALTH, where he leads product management and strategy. Mr. Couture holds a B.Sc. (Hons., Athletic Therapy) from Concordia University, a M.Sc. (Exercise Physiology) from the University of Montreal and an MBA from the John Molson School of Business of the Concordia University.

A light lunch will be served
