THE HEALTH AND SOCIAL SERVICES COMMUNITY LEADERSHIP BURSARY PROGRAM1

OBJECTIVE

The purpose of the Health and Social Services Community Leadership Bursary Program is to respond to priorities for access to health and social services in the English language in selected Quebec regions2. The bursaries support students who pursue studies in health and social services and who commit to work in their home region upon completion of their studies. The Bursary Program is part of the Retention Program as described on the Dialogue McGill Website.

DESCRIPTION

Created by the McGill University Training and Retention of Health Professionals Project3, these bursaries provide financial support to students from selected Quebec regions with English and French language skills pursuing full-time studies in the area of health and social services in a government recognized educational institution. [https://prod.mels.gouv.qc.ca/afepl01/html/dai_20042005_liste_etablissement_aide_angl.html](https://prod.mels.gouv.qc.ca/afepl01/html/dai_20042005_liste_etablissement_aide_angl.html)

For each bursary awarded, recipients commit to working in their home region (Pg. 9) following the successful completion of their studies for a minimum of one year in a public health and social services institution or related organization.

Under the leadership of the English-speaking community networks from the selected regions (Pg. 9) these return of service bursaries are designed to respond to regional and local needs for access to services in English. These needs are identified by community networks in conjunction with the health and social service institution in their region. Bursaries will be awarded to community-oriented students whose field of study will lead them to a career in health and social services that will help address the priority areas for English-language services identified by the community network and the Centre intégré de santé et de services sociaux (CISSS) or the Centre intégré universitaire de santé et de services sociaux (CIUSSS) serving the region.

The sponsoring community networks collaborate with bursary recipients requiring support to obtain a clinical practicum in their home region and in their job search post-graduation. Organizations such as Place aux jeunes en région: [https://www.placeauxjeunes.qc.ca/emplois](https://www.placeauxjeunes.qc.ca/emplois) are also good places for students to get support.

---

1 The Health and Social Services Community Leadership Bursary Program is also referred to as the Bursary Program in this document.

2 For the purposes of the Bursary Program, region refers to the socio-sanitary regions of Quebec. [https://www.msss.gouv.qc.ca/reseau/regions-sociosanitaires-du-quebec/](https://www.msss.gouv.qc.ca/reseau/regions-sociosanitaires-du-quebec/)

3 The McGill University Training and Retention of Health Professionals Project will hereafter be referred to as Dialogue McGill.
As a means of introducing the recipient to the working environment at the CISSS or CIUSSS and paving the way for an eventual successful workplace integration, community networks are encouraged to collaborate with the CISSS or CIUSSS to set up a job-shadowing opportunity for the recipient at a time convenient for both parties during the academic year covered by the bursary.

The Bursary Program targets students who have a demonstrated knowledge of or involvement in the English-speaking community. Students are required to provide references from two individuals who can attest to their knowledge of or involvement in the English-speaking community and who can evaluate their potential to work in their region in the field of health and social services upon completion of studies.

Students wishing to apply for the Bursary Program must submit their application to the contact person at the participating community network in their region. Please refer to the Directory of Participating Community Networks on Pgs. 13 to 15.

These bursaries are tax exempt. Community networks paying bursaries should contact federal and provincial authorities (Canada Revenue Agency and Revenu Québec) to get appropriate information on issuing of tax slips.

There is no maximum number of bursaries a student can receive under the Program. However, the participating community networks can create their own guidelines in this regard in response to local and regional dynamics.

APPLICATION GUIDE FOR CATEGORY 1 AND CATEGORY 2 BURSARIES

SELECTION CRITERIA FOR CATEGORY 1 AND CATEGORY 2 BURSARIES

Bursary applications will be recommended for approval based on the following criteria:

- The compatibility of the student’s field of study with the identified regional priority service areas;
- The student’s demonstrated knowledge of or involvement in the English-speaking community of his or her region;
- The student’s commitment to work in his or her home region following completion of studies in a public health and social services institution or related organization for a minimum of one year per bursary awarded;
- The quality of the student’s academic standing;
- The quality, content and presentation of the application.

SELECTION AND APPROVAL PROCESS

The selection of bursary recipients is a three-step process. The first step takes place at the community network level, the second at the regional level and the third at the Dialogue McGill level.

Community Network Verification Process
The first step of the process is the validation by the sponsoring community network of the admissibility of the application. This involves ensuring that it was submitted by the announced deadline, that the application is complete and that the student meets the eligibility criteria previously listed. The community network will submit all eligible applications to the Regional Bursary Selection Committee.

Regional Bursary Selection Process
The second step takes place at the regional level by a selection committee set up by the sponsoring community network. Regional Bursary Selection Committees will involve community and public health sector representation whose responsibility is to review all eligible bursary applications submitted to the community network, ensuring that they respond to regional priorities and to recommend up to three candidates per category, in ranked order within each category, to Dialogue McGill to receive a bursary.

Dialogue McGill Recommendation Process
The Dialogue McGill Bursary Recommendation Committee will evaluate the bursary applications submitted by the Regional Bursary Selection Committees using an evaluation grid based on the selection criteria mentioned on the previous page. A separate review process will take place for Category 1 and Category 2 applications.

For each of the categories, the Dialogue McGill Bursary Recommendation Committee will allocate bursaries in order of the priority ranking accorded by the Regional Bursary Selection Committee. All Priority 1 applications will be reviewed first and bursaries will be allocated to candidates who meet the selection criteria. Next, Priority 2 applications will be reviewed and bursaries allocated to Priority 2 candidates who meet the selection criteria. If funds remain, Priority 3 applications will be reviewed and bursaries will be allocated to candidates who meet the selection criteria by means of a draw until the remaining funds are depleted.
CONFLICT OF INTEREST FOR COMMITTEE MEMBERS

• Committee members must declare any real, apparent or perceived conflict of interest stemming from an affiliation with a specific applicant and any other area of potential conflict of interest;
