

CHANGES TO SOFTWARE ENGINEERING CURRICULUM

The Software Engineering Program has had very few revisions to the curriculum:

- ECSE 420, Parallel Computing has been added to the list of required courses.
- ECSE 306, Fundamentals of Signals and Systems, replaces the course ECSE 303, Signals and Systems 1. In addition, ECSE 304, Signals and Systems 2, has been removed from the list of technical complementaries.
