

The following curriculum changes apply to students currently registered in the **Electrical Engineering Program**.

MATH 270, Applied Linear Algebra

Effective September 2010, MATH 271, Linear Algebra and applied PDE, will be replaced by MATH 270, Applied Linear Algebra. If you have not already completed MATH 271, take MATH 270 instead.

ECSE 492, Optical Communications Laboratory

ECSE 492 has been added to the list of laboratory electives to provide students with greater flexibility/choice.

If you have any concerns or questions regarding these changes, please contact the Undergraduate Program Office, Trottier 2060 (Tel: 398-1547 or 1218), email undergrad.ece@mcgill.ca), for an appointment to meet with an advisor.
