Course Content

This 3-credit Microeconomics course focuses on the behavior of <u>individual</u> economic units (individual markets, individual consumers, and individual firms). It examines the choices that consumers and firms face, how different market structures respond to these choices, and when/how/why government intervention may or may not be desirable for society as a whole.

At each stage you will do some theory and then use it for a variety of applications.

Do the readings in a timely manner as the lectures progress. Economic reasoning builds upon itself, so <u>you need to understand each part as we go along</u>. If you must miss a lecture or conference, arrange a 'buddy system' so you can use the notes of someone who does attend. Some examinable material covered in lectures will not be in the text. Lecture notes will <u>not</u> be posted on the *myCourses* web site.

Course evaluation

Midterm examination: 30% (1 hour) Final examination: 70% (3 hours) I anticipate that the exams will be multiple-choice, though I reserve the right to include some short-answer questions at my discretion. If your individual performance on the final is better than on the midterm the weights will be changed from 30% / 70% to 20% / 80%. They are **closed book** examinations - no texts, notes, cell phones or electronic memory devices allowed.

If you miss the mid-term, for <u>justifiable</u> reasons, (subject to a written note of excuse emailed to the instructor), you can have the *final count as 100% of the course*.

Students missing the mid-term without a note of excuse emailed to the instructor, will receive a grade of 'zero' on the midterm.

Critical dates

January 6th: beginning of course. February 24th: midterm examination (no lecture on this date) March 3rd – 7th: reading-break April 11th: end of course

Teaching assistants

Office Hours

Teaching assistants (TAs) will have regular office hours (online on Zoom) during which they will answer questions on the course material.

Conferences

T.A.s will hold weekly **conferences** (small-group seminars) to help you understand assigned questions on the 'assignments. The questions in the assignments and basic answer guides are posted each week on *MyCourses*. The conferences are voluntary, – but you are **strongly** advised to attend. *Conference times and locations, as well as* your T.A.'s office hours, will be posted on MyCourses shortly after the onset of semester.

Course material

Microeconomics, 17th Canadian Edition Christopher T.S. Ragan Publisher: Pearson Education Canada ISBN-13: 9780137324644 The e-text to be purchased from the website for Pearson Canada, comes with access to an online site MyEconLab, at <u>www.myeconlab.com</u> where you will find practice questions. *A student registration handout has been uploaded on MyCourses to help you register yourself.*

[A *Study Guide* to the <u>14th edition</u> of the text (by Dickinson & Indart) is on reserve in the library. It contains useful study hints and lots of practice questions and answers (with explanations). It includes multiple-choice questions, short-answer questions and longer exercises to help understand the material. Note that the page numbers and chapter numbers do not necessarily mirror those of the text's 17th edition]

A very important learning tool is the Econ 208-004 site on *MyCourses*. You should check it **regularly** for course announcements, additional readings and non-text lecture content, conference sheets and other items to assist you in the course.
