

Counselling Psychology Doctoral Students (PhD 2)

Please note that this trajectory is for students who are graduating from McGill's MA Counselling Psychology non-thesis (project) program only.

In order to meet accreditation requirements from the OPQ, students who are admitted with an MA degree from another University will have a different individual course of study from the one illustrated on this page. For these students, their trajectory will be determined by the Supervisor in conjunction with the Program Director at the point of admission.

YEAR 1

FALL

***EDPC 780D1 - 001**

Supervision

EDPC 720 - 001

Consultation & Program
Evaluation

EDPE 684-001 + 002

Applied Multivariate Stat.
(Lecture + Lab)
