

Cowansville Medical Clinic

A McGill University Rural Training
Center

101 Albert Street Suite 1001
Cowansville, Quebec
J2K 2W4

Tel: (450) 266-4060
Fax: (450) 266-5335

Dr. Daniel Lalla, MDCM, FCFP
Dr. Adrian Macek, MDCM, CCFP
Dr. Allen Phillips, MDCM, FCFP
Dre. Véronique Bonneau, MD, CCFP
Murielle Samuel, dt.p.
Linda Mutzke, B.Sc(N)

To: All medical residents and students at the clinic

To avoid any confusion regarding expectations during the rotation:

- ☐ You do not necessarily need to stop at the BMP hospital on your first day just to hand in your information to the CMDP office.
- ☐ **Please contact us prior to starting if you have particular schedule requests or need more information:**
 - ☐ daniel_lalla@hotmail.com or allenhphillips@aol.com
- ☐ You are expected to arrive on time everyday, **whether or not you stay at the accommodations provided by McGill**. If you choose to commute, you must leave early to get here on time
- ☐ If there is a particular case of interest, you might be asked to do a 15-30 minute presentation to the staff during your stay
- ☐ You will usually do walk in clinic in the morning and then pair up with a doctor for afternoon appointments
- ☐ Your rotation may include clinic work, visits on the hospitalized patients with Dr. Lalla, house calls, visits to the Centre d'Accueil de Cowansville, and emergency shifts with Dre. Bonneau.
- ☐ We wish to encourage professionalism at all times, especially in matters of personal appearance and also in communications with patients and staff during the rotation.
- ☐ While we encourage you to seek out types of cases of interest to you, **we do not like to hear residents and students preferring NOT to see certain types of cases** (e.g. no geriatrics or no gynecology etc...). Part of Family Medicine is the 'polyvalence' of our craft.
- ☐ You may be expected to do at least one weekend call (Saturday **and** Sunday) with your supervisor in the hospital which consists of rounding on the hospitalized patients in the morning. **This is NOT overnight call. At the present time, staff takes the calls after hours**. Availability of hospital work will depend on the schedule. ER shifts can be arranged with Dre. Bonneau.

Please note that at all times, we are aware that your resident contract is in force, and we will respect it. In the event of any dispute, you must advise us as soon as you feel any condition is in violation and we will submit the question to the department of family medicine for adjudication. **Also keep in mind that there are a minimum number of days you must complete to finish the rotation. As some take vacation during rural months, this leaves only a slim margin where sick days, conference days, or personal days are concerned. You must advise us as soon as possible if you have any conference or personal days you will need.**

You should sit down in the first week with your supervisors and establish the schedule as early as possible. We will try as much as possible to provide feedback at the midway point of your rotation.

Dr. Daniel Lalla, MDCM, FCFP
Associate, Cowansville Medical Clinic
Faculty Lecturer, McGill Family Medicine
Rural Site Coordinator, Cowansville Medical Clinic

STAGIAIRE - RÉSIDENT
