This document illustrates various steps and processes (internal, external) that are required to ensure the successful development and approval of new graduate programs at McGill. The internal approval process for a new program proposal can take 6 to 12 months. The table below highlights steps that are often carried out simultaneously as proposers prepare the required documents for obtaining internal and external approval from relevant units at McGill and from the Ministry. Proposers should aim to finalize their new program dossier by the time the program proposal is approved by the McGill Senate.

<tr>
<td>Proposers should schedule meetings with the GPS Programs Team early in the process of developing their new program. They will assist proposers with the following:</td>
<td>Proposers interested in developing a new Master's or PhD program need to complete a new program proposal form. This form requires the signatures of multiple parties (see p. 3 of the form). Proposers should research the Department/Faculty/other units’ meeting dates early on to avoid delays in the approval process.</td>
<td>If the program affects other departments, proposers must acquire completed consultation forms from the relevant unit(s), or supply evidence of comments received (with names and titles of those consulted). <em>See Guidelines for New Program Proposals</em></td>
<td>A new course proposal form needs to be completed for each new course in the program. Course outlines should be developed and presented concurrently.</td>
<td>The full dossier requirements are available online.</td>
</tr>
<tr>
<td>- Navigating the internal and external approval processes.</td>
<td>Meeting dates (enter here)</td>
<td>While consultation forms from all involved colleagues (e.g. teaching faculty in the proposers' department) are not required, proposers should nevertheless ensure that they have their support.</td>
<td>Proposers should check with GPS that their forms are complete before presenting them.</td>
<td>The dossier for the new program must be started as soon as possible. GPS encourages proposers to be ready to submit their final, translated dossier (in French) to the CEP by the time Senate approves the new program, and the budget plan is approved by the Provost.</td>
</tr>
<tr>
<td>- Developing the academic aspects of the program proposal and the dossier.</td>
<td>- Curriculum/Acad. Committee: ____________________</td>
<td>Proposers should also consult the department finance officer for assistance with the business plan and budget.</td>
<td>New course proposals require the approval from the department or offering Faculty, the administering Faculty, and SCTP. However, GPS encourages proposers to also submit their new course proposals and outlines to CGPS, APC, and Senate with the new program forms (for their reference only).</td>
<td>Important: In addition to writing the required sections of the dossier, proposers should consider the additional documentation they will need to complete the dossier (see Appendices).</td>
</tr>
<tr>
<td>- Ensuring that there is ongoing communication between proposers, GPS, and the Analysis, Planning and Budget Office (APB) throughout the approval process.</td>
<td>- Faculty: ____________________</td>

New Graduate Program Proposal and Dossier (2019-2020 version)

CGPS
➢ Once the department, curriculum/academic committee, and Faculty (ies) signatures are obtained, proposers must submit a copy of the program proposal form and consultation forms to CGPS for approval.
➢ Outlines and proposal forms for new courses should be submitted. Proposers should also append their 3-page summary of the Graduate Program Framework.
➢ Proposers have 15 min. to present their framework at the CGPS meeting (guidelines provided by GPS).

Any changes requested by CGPS must be addressed before submitting to SCTP

Upcoming meetings (2019-2020):
- October 7th (submit to CGPS by mid-Sept.)
- November 4th (submit to CGPS by mid-Oct.)
- December 2nd (submit to CGPS by mid-Nov.)
- January 13th (submit to CGPS by mid-Dec.)
- February 10th (submit to CGPS by mid-Jan.)

SCTP
➢ SCTP will review a copy of the program proposal form, consultation forms, and the 3-page summary of the Graduate Program Framework.
➢ If additional resources are required, the APB-approved budget must also be submitted.
➢ Any new course proposal forms and outlines are submitted for approval.
➢ Proposers have 5 minutes to present their program.

Any changes requested by SCTP must be addressed before submitting to APC (for program proposals) and ES (for course proposals)

Upcoming meetings (2019-2020):
- October 24th (submit to SCTP early Oct.)
- November 21st (submit to SCTP early Nov.)
- January 9th (submit to SCTP early Dec.)
- February 6th (submit to SCTP early Jan.)
- March 12th (submit to SCTP early Feb.)

APC
➢ APC will review the program proposal form, consultation forms, and summary of the Graduate Program Framework.
➢ The new course proposal forms and outlines are submitted for approval.

Any changes requested by APC must be addressed before submitting to Senate.

Upcoming meetings (2019-2020):
- October 31st (submit to APC immediately after SCTP)
- December 12th (submit to APC by early December)
- February 13th (submit to APC by late Jan.)
- March 19th (submit to APC by late Feb.)
- April 19th (submit to APC by late March)

Senate
Items to submit to Senate:
- A copy of the program proposal form and consultation forms, with all signatures for approval.
- New course proposal forms and outlines (for their reference only)
- Summary of Graduate Program Framework

Any changes requested by Senate must be addressed before beginning the external process for approval.

Upcoming meetings (2019-2020):
- November 20th
- January 15th
- March 25th
- April 21st
- May 13th

The full copy of the dossier should be ready to begin the external process the day after Senate approves the new program proposal. The external process can take 12-24 months.

Bureau de coopération interuniversitaire (BCI)
Commission d'évaluation des projets de programme (CEP)
The full dossier is submitted to the CEP for quality evaluation. They will have additional questions that must be addressed in French by the University. The site visit follows. External reviewers will submit their report. The CEP will produce an Avis.

If the outcome is negative, the University can address stated concerns and resubmit the dossier. The process (submission, site visit) begins again from step 1.

If positive, the dossier can move forward to the Ministry. It has to be revised to integrate the suggestions and conditions imposed by the CEP. The University must explain how they have been integrated in the dossier in a separate document.

Ministère de l’éducation et de l’enseignement supérieur (MEES)
Comité des programmes universitaires (CPU)
The CPU will be sent the following:
➢ Revised Dossier
➢ Document detailing how the CEP’s comments and conditions were integrated in the dossier
➢ Updated budget (with 10-year enrolment forecast, attrition rate, etc.)

The CPU will issue recommendations in an Avis.

If the outcome is negative, the program does not move forward.

If positive, the Ministry will send an approval letter to the Provost and PVPA. Once the approval letter is received, the University can begin recruitment and advertising for the program.
