Reference #: C-180830

Assistant/Associate Professor (Clinical)

Faculty of Medicine – Department of Neurology and Neurosurgery

Position description

The McGill University Department of Neurology and Neurosurgery and the Division of Neurosurgery of the Integrated Health and Social Services University Network for West-Central Montreal (Jewish General Hospital site), in Montreal, Quebec are currently inviting applications for a full-time position as a member of the Contract Academic Staff at the rank of Assistant/Associate Professor (Clinical). The professorial rank will be according to the candidate’s qualifications and experience. This will be a three-year, renewable appointment.

The Jewish General Hospital is a major McGill University affiliated teaching hospital with 635 beds and a dedicated Neurosciences Program including 11 neurologists and 3 neurosurgeons. The Division of Neurosurgery currently provides tertiary patient care with quaternary expertise in spine and skull base pathologies. There is clinical collaboration with neurosurgeons, otolaryngologists, and orthopedic surgeons based at other McGill University affiliated teaching hospitals.

The successful applicant will demonstrate clinical expertise in general neurosurgery with the capacity to excel in an academic neurosurgery setting and will possess strong medical education skills and well-defined clinical or basic research training and interests. The successful applicant will also be comfortable in the treatment and management of general neurosurgical conditions, including metastatic brain and skull base tumors, intracranial hemorrhages, and spine.

The successful candidate will contribute to a strong interdisciplinary clinical and research program across the McGill University affiliated teaching hospitals, complement existing strengths in Neurological research and provide clinical care at the Jewish General Hospital. The position is 50% clinical and 50% research with 1:4 on-call responsibilities.

Job Duties

The successful applicant will be expected to be actively involved in all aspects of McGill’s academic mission (ie: teaching, supervision of graduate students and involvement in academic and administrative committees), and provide excellent clinical teaching and supervision to
residents and medical students, and to pursue scholarly activities in advancing clinical care or clinical research in the area mentioned above.

Qualifications and Education requirements

Applicants will have advanced training and the demonstrated capacity to excel in academic neurosurgery. This includes specialized clinical expertise, strong medical education skills, and well-defined clinical or basic research interests in the area listed below. Clinician innovators who are developing novel clinical approaches or methods are also encouraged to apply.

Applicants must hold or be eligible for licensure as a neurosurgeon in the province of Quebec. Clinician scientists with MD/PhD or equivalent research-intensive training are strongly encouraged to apply. A good working knowledge of French or a commitment to become fluent in French is necessary.

JOB DETAILS

Job Type: Contract Academic Staff (Clinical)
Rank: Assistant/Associate Professor
Job status: Full-time
Salary: Remuneration will be according to Quebec health care fee schedule
Posting period: 30 days
