This two-day program will provide useful educational tools for clinicians and research scientists and will support them in their role as teachers in the Faculty of Medicine at McGill.

<table>
<thead>
<tr>
<th>Wednesday, May 15, 2019</th>
</tr>
</thead>
</table>
| **08h30 - 12h00** | **Feedback: Your Educational Compass**  
  • Refine your understanding of the principles and strategies for giving and receiving constructive feedback, and practice strategies for dealing with common problems in giving feedback |
| **13h00 - 16h30** | **Working Together to Improve the Clinical Learning Environment**  
  • Identify strategies to foster an optimal learning environment |
| **13h00 - 16h30** | **Using Assessment to Promote Learning in the Classroom**  
  • Examine a variety of assignments that assess deep learning and critical thinking; analyze how to integrate them into large classroom settings; and practice new assessment strategies |

</thead>
</table>
| **08h30 - 12h00** | **Learning is More than a Spectator Sport: Engaging Learners in Small or Large Groups**  
  • Describe and practice active learning strategies to promote learner engagement |
| **13h00 - 16h30** | **Assessment as a Part of the Clinical Learning Experience**  
  • Discuss how to improve the accuracy and quality of assessment of clinical performance in health professions students and residents |
| **13h00 - 16h30** | **Graduate Supervision in Biomedical Research**  
  • Learn to develop mutually agreed upon expectations; discuss an approach to assessing graduate students' progress; and analyze the different stages of the supervisor-trainee relationship |

This workshop will be held at:

**New Residence Hall - Ballroom A**  
3625 avenue du Parc  
**Steinberg Centre for Simulation & Interactive Learning**  
3575 avenue du Parc, Suite 5640

Comme toujours, nous espérons que tous se sentent à l’aise de parler en anglais ou en français.
