Assistant/Associate Professor (Clinical)

Faculty of Medicine – Department of Neurology and Neurosurgery

Position description

The Department of Neurology and Neurosurgery is inviting applications for a full-time position as a member of the Contract Academic Staff at the rank of Assistant or Associate Professor (Clinical). The professorial rank will be according to the candidate’s qualifications and experience. This will be a three-year, renewable appointment.

The candidate will be appointed to clinical practice at the Montreal Neurological Hospital, within the McGill University Health Centre.

The McGill University Health Centre includes major McGill University-affiliated teaching hospitals at several sites in downtown Montreal. Seventeen neurosurgeons and neurosurgeon-scientists, and two interventional neuroradiologists provide tertiary in-patient and out-patient care, engage in a wide range of clinical and basic neuroscience research, and lead strong clinical neuroscience teaching programs in undergraduate and postgraduate medicine.

The Montreal Neurological Institute has embarked on a journey to set a global precedent as the first academic institute to fully embrace the principles of Open Science. In that context, the Institute highly encourages its researchers to work under these principles.

Job Duties

The successful candidate will contribute to a strong interdisciplinary clinical and research program in cerebrovascular pathologies, complement existing strengths in open cerebrovascular and endovascular research and clinical care at McGill.

The successful applicant will be expected to be actively involved in all aspects of McGill’s academic mission (teaching, supervision of graduate students, and involvement in academic and administrative committees), provide excellent clinical teaching and supervision to diverse residents and medical students, and to pursue scholarly activities in advancing clinical care or clinical research in the area of cerebrovascular and endovascular neurosurgery.
Protected research time and laboratory resources within the Montreal Neurological Institute will be available to candidates with exceptional research potential.

**Qualifications and Education requirements**

Applicants will have sub-specialty training in open cerebrovascular and endovascular neurosurgery and the demonstrated capacity to excel in a premier academic neurosurgery setting, including specialized clinical expertise, strong medical education skills, and well-defined clinical or basic research training and interests.

Applicants must hold or be eligible for licensure as a neurosurgeon in the province of Quebec. Clinician-scientists with MD-PhD or equivalent research-intensive training are strongly encouraged to apply.

**JOB DETAILS**

- **Job Type:** Contract Academic Staff (Clinical)
- **Rank:** Assistant/Associate Professor
- **Job status:** Full-time
- **Salary:** Remuneration will be according to Quebec health care fee schedule
- **Posting period:** 30 days from date of posting

**APPLICATION PROCESS**

Applications must be submitted on-line at: [http://www.mcgill.ca/medicine-academic/positionsavailable](http://www.mcgill.ca/medicine-academic/positionsavailable)

The following supporting documents are required:

- a cover letter & curriculum vitae (as 1 pdf document)
- statement of research (if including other documents, combine to make 1 pdf)
- the names and contact information of three referees

*McGill University hires on the basis of merit and is strongly committed to equity and diversity within its community. We welcome and encourage applications from racialized persons/visible minorities, women, Indigenous persons, persons with disabilities, ethnic minorities, and persons of minority sexual*
orientations and gender identities, as well as from all qualified candidates with the skills and knowledge to productively engage with diverse communities.

McGill further recognizes and fairly considers the impact of leaves (e.g., family care or health-related) that may contribute to career interruptions or slowdowns. Candidates are encouraged to signal any leave that affected productivity, may have had an effect on their career path. This information will be considered to ensure the equitable assessment of the candidate’s record.

McGill implements an employment equity program and encourages members of designated equity groups to self-identify. It further seeks to ensure the equitable treatment and full inclusion of persons with disabilities by striving for the implementation of universal design principles transversally, across all facets of the University community, and through accommodation policies and procedures. Persons with disabilities who anticipate needing accommodations for any part of the application process may contact, in confidence, Professor Angela Campbell, Associate Provost (Equity and Academic Policies) by email or phone at 514-398-1660.

All qualified applicants are encouraged to apply; however, in accordance with Canadian immigration requirements, Canadians and permanent residents will be given priority.
