There is currently quite a long pre-requisite chain: COMP-250, COMP-206, COMP-273, and COMP-310. Furthermore COMP-310 is a pre-requisite for many upper-level courses. This long pre-requisite chain reduces the flexibility of the students to decide on their study schedule. The material taught in COMP-206 is not explicitly needed for COMP-273 but it is very useful for making the material easier to understand. Hence, in order to reduce the length of the pre-requisite chain, we suggest making COMP-206 a co-instead of pre-requisite of COMP-273.
