Rationale

The Department was asked by the University to make these changes in order to receive funding from the government which is contingent on courses having "immunology" (as opposed to "microbiology and immunology") in the course title. Immunology is considered a medical discipline.

Responsible Instructor

Course Description

This course cannot be taken under the S/U option. Departmental permission required. Students cannot be supervised by the same instructor for two 397 Science courses. (Open to students in programs offered by the Faculty of Science). (Note: Enrolment may be limited. Students are advised to start the application process well before the start of the term and to plan for an alternative course in the case that no suitable project is available. Individual projects will be suggested each term which may have project-specific prerequisites. Some projects may be accessible to students in other disciplines. See http://www.mcgill.ca/science/ours for more information.)
about available projects and application forms and procedures.) Independent research project with a final written report.
