The core curriculum of the AFSS (African Field Studies Semester) has lately been reorganized via the creation of the two new unifying context courses, ANTH/GEOG 451 Research in Social Determinants of Development in Africa and NRSC/BIOL 451 Research in Ecology and Development in Africa, which are obligatory for all students in the program and which run concurrently throughout the semester in Africa. These courses replace two 300-level courses, GEOG 300 and NRSC 300, as the program’s core curriculum. At the same time, the intellectual rigour of the program is being enhanced such that AFSS courses are more appropriately listed at the 400-level.

Although NRSC 300 “Natural History of East Africa” has been removed from its place in the AFSS core curriculum, there remains great utility in teaching integrative natural history in the African context at the 400-level. In particular, subjects such as geology and climatology that are of importance in understanding the East African landscape would not otherwise be taught explicitly.

Seminars and discussions

<table>
<thead>
<tr>
<th>Hours per Week</th>
</tr>
</thead>
<tbody>
<tr>
<td>3</td>
</tr>
</tbody>
</table>

Total Hours per Week: 21
Total Number of Weeks: 3

19. Projected Enrolment: 18

20. Revised Prerequisite(s) (Courses or Tests) (in full)
Specify course number(s) or name(s) of test(s):

If the student does not have a prerequisite should web registration be blocked?

Yes  No

If “Yes” complete A and B:

A. Indicate minimum grade or test score(s) the student must attain in prerequisite course(s) or test(s):

B. Can the prerequisite course(s) or test(s) be taken in the same term as this course?

Yes  No

Old prerequisite course number(s) or test score title(s) (if applicable)

21. Revised Corequisite(s) Course Number(s) (in full):
Specify course number(s):

ANTH/GEOG 451
NRSC/BIOL 452

If the student does not register for the corequisite in the same term should web registration be blocked?

Yes  No

Old corequisite(s) course numbers (if applicable):

ANTH 315

22. Revised Restriction(s):

Not open to students who have taken NRSC 300 or GEOG 300. Not open to students taking REDM 405.

Old Restriction(s):

23. Additional Course Charges (must be approved by the Fee Policy Committee)
Description of Fee
(e.g. screening fee)  Amount

24. Requires Teaching, Physical, or Financial Resources
Not Currently Available (attach explanation)

Yes  No

25. Consultation Reports Attached

Yes  N/A
14. Rationale for revised course (cont’d)

The transdisciplinary nature of Natural History, variously incorporating principles of geology, geography, physical anthropology, hydrology, climate and biodiversity cuts across departmentally-based disciplines in the sciences. As a Natural History museum, the Redpath Museum is linked to many of these areas. The major educational resources in East Africa for teaching Natural History are likewise museums. These include the National Museums of Kenya in Nairobi, the Tanzanian Natural History Museum in Arusha and the Zoology and Geology Museums of Makerere University in Kampala, Uganda. An MOU between McGill and the National Museums of Kenya that will ease the sharing of materials and personnel is being negotiated.

It is thus appropriate to code-share this course between NRSC (Faculty of Agriculture and Environmental Sciences) and REDM (Faculty of Science) and teach it at the 400-level as one of the intensive three-week sessional courses that are offered by the AFSS program.
