**14. Rationale for revised course**

The Honours Committee and the Department have decided to expand the Honours program to accept a few more highly qualified students. This course was the second of two required U3 Honours seminars. Because the course could not be easily expanded and because its content was not suitable for all Honours students, the Honours Committee and the Department decided to continue the course outside of the Honours program with a more appropriate title. As such, the course will be open to both Honours and non-Honours students interested in learning about experimental psychopathology.

**15. New Course Description**
- (as it will appear in the Calendar [maximum 50 words]):
- (N.B. Faculty of Medicine must append complete course outline)
- Design of experiments in psychopathology, interviewing techniques and clinical diagnosis.

**16. Old Course Description**
- (may be found in the Calendar or Banner)
- Design of clinical research studies, interviewing techniques and clinical diagnosis.
17. Supplementary information to appear in the Calendar in addition to the course description. Such as: equivalent course(s), contact hours, enrolment limitations, language of instruction etc. Please enter the information as it should appear in the calendar notes.

Students will be admitted based on written application. Forms available from the Department (Room N7/9). Applications must be submitted by August 15th.
