Recognition of INNOVATION & COMMERCIALIZATION efforts by faculty members

1. This initiative in the Faculty of Science, started in 2007, aims to recognize the effort made by faculty to consider the commercialization potential of their research.

2. The plaques are presented at the conclusion of each academic year to recognize two types of achievement:
   a. The first filing of a patent application further to the submission of a report of invention, with the principal inventor from the Faculty of Science;
   b. The signature of a License agreement for a technology for which the principal inventor is from the Faculty of Science.

The following individuals have earned this recognition for the 2007-2008 academic year:

FOR first filing of a patent application further to the submission of a report of invention:

    Paul Wiseman
    Hanadi Sleiman
    James Gleason
    David Burns

FOR signature of a License agreement:

    Isztar Zawadski I
    Isztar Zawadski II
    Nicolas Moitessier
    Gregory Dudek
    Masad Damha
    David Burns
