5.0 Rationale for revised program

The current wording in the calendar regarding the program requirements for the Major Concentration in Psychology in the B.A. as well as in the B.A. & Sc. is ambiguous. The Department has always required students to complete 12 credits at the 300 level or above with at least 6 credits at the 400 or 500 level. However, recently, with the creation of PSYC 180 that Psychology students can only take as an elective, students have tried to use it towards those 12 credits even though the program doesn’t allow it. Therefore, the Department wishes to re-word the requirements for the Major Concentration to include 6 credits in Psychology at the 300 level or above and 6 credits in Psychology at the 400 level or above.
