VOICE DISORDERS
SCSD 639
Number of Credits: 3 Credits
Course Time: Monday 8:30am - 10:30am; Lab: 10:30am-11:30am
Location: SCSD, Room 869

Instructor: Nicole LI-JESSEN, Ph.D

Office: Rm 815
Office Phone: 514-398-5933
Office Hours: By appointment (set up by phone or by email)
Email: nicole.li@mcgill.ca

COURSE OVERVIEW:

Voice Disorders is a 3-credit graduate course that provides an overview of voice disorders, including causes, assessment, and treatment across the life span. The course also addresses the role of the speech-language pathologist in the multidisciplinary handling of patients with voice problems.

The general purpose is to provide *rudimentary knowledge and skills* in assessment and treatment of voice problems. The course is designed to provide professional students in speech-language pathology with basic information about (1) the personal and societal relevance of voice problems; (2) pathologies affecting voice; (3) basic approaches to evaluation of voice problems; (4) basic science foundations of voice therapy; (5) models of behavioral, pharmaceutical, and surgical treatment of voice problems.

LEARNING OBJECTIVES

ROLE 1: CENTRAL ROLE/CONTENT EXPERT

Foundational Principles	
Demonstrate a basic knowledge of biomedical and physical sciences relevant to voice anatomy, physiology and disorders.	
Apply the knowledge of anatomy, neuroanatomy, and physiology of the larynx and of normal and disordered voice production and application of this knowledge to clinical practice.	Clinical case study; Wikipedia assignment; Voice workshop; Final exam
Identify factors and processes which may impact on voice production (e.g., removal of larynx, hearing loss, neuromuscular involvement, musculoskeletal tension, vocal fold pathology,	Clinical case study; Wikipedia assignment; Voice workshop; Final exam

systemic conditions, affective states, environmental factors).	
Identify psychosocial, educational and vocational impact of voice disorders.	Clinical case study; Wikipedia assignment; Voice workshop; Final exam
Understand the physiological basis, the perceptual and acoustical characteristics of alaryngeal speech and speech produced via esophageal means, tracheoesophageal prostheses, and/or mechanical devices.	Wikipedia assignment; Voice lab; Final exam

Assessment	
Develop an assessment plan to evaluate voice disorders.	
Implement appropriate perceptual and acoustic measures for assessing voice production and for making a differential diagnosis.	Voice lab
Evaluates options for alaryngeal sound production when appropriate.	Final exam
Formulate a diagnostic and prognostic statement based on the medical diagnosis, voice assessment and the impact of physical, emotional, vocational, and environmental factors that influence the client's voice production.	Clinical case study; Final exam

Intervention Planning	
Develop a treatment plan for voice disorders.	
Demonstrate common voice therapy techniques, e.g., resonant voice, straw phonation and laryngeal massage.	Clinical case study; Voice lab; Voice workshop
Demonstrate knowledge of different approaches to voice intervention, and alaryngeal voice production, their theoretical bases, advantages, disadvantages, and limitations.	Voice workshop; Final exam
Select and apply an appropriate approach for treatment of the client's voice disorder.	Clinical case study; Final exam
Formulate an appropriate service delivery model (e.g., regular review assessments, direct individual therapy, direct group therapy, referral to a multidisciplinary program) for treatment of the client's voice disorder	Clinical case study; Voice workshop; Final exam

ROLE 2: COMMUNICATOR

Oral and Written Communication	
Deliver effective and evidence-based information on the topic of voice disorders to public readers.	Wikipedia assignment
Present effective client-centered therapeutic communication through effective dynamic interactions with clients and other	Voice workshop

individuals in the public community.	
--------------------------------------	--

ROLE 3: COLLABORATOR

Collaboration with Other Professionals	
Interact according to different responsibilities of team members.	
Collaborate effectively with other team members, participate equally in the work, and support positive team dynamics.	Clinical case study; Wikipedia assignment; Voice workshop

ROLE 5: SCHOLAR

Evidence Informed Practice	
Integration of Research and Other Evidence Critically into Service Provision	
Generate a Wikipedia article related to voice science and disorders to the public community.	Wikipedia assignment

ROLE 7: PROFESSIONAL

Professional Integrity	
Embrace Appropriate Attitudes and Behaviours, Integrity, and to the Promotion of the Public Good	
Demonstrate professional standards of behavior during the interaction with clients.	Voice workshop

Note: ROLE 4: ADVOCATE and ROLE 6: MANAGER are not specifically targeted in this class.

INSTRUCTIONAL METHOD

Lectures, laboratory, demonstrations, assignments, and student participation

REQUIRED COURSE MATERIALS

Colton, R. H., Casper, J. K., & Leonard, R. (2011). Understanding Voice Problems: A Physiological Perspective for Diagnosis and Treatment (4th ed). Baltimore, MD: Lippincott Williams & Wilkins. ISBN-10: 1609138740. ISBN-13: 978-1609138745

OPTIONAL COURSE MATERIALS

Additional readings: will be available on myCourses and can be obtained electronically through the McGill libraries.

Tentative Course Outline and Schedule
 (Subject to change depending on student response and needs)

Date	Week	Topic	Reading*	Labs	Assignment Due**
Sept 10	1	Overview of Voice Problems - starts at 10:30 a.m.	Ch 12-13	Overview of Course, Lab, Assignment (Masuda) – starts at 9:30 a.m.	Anatomy Online 1-2 Quiz 1
Sept 17	2	<u>Extended 2-hr Voice Lab (Maia Masuda)</u> 1. Perceptual Voice Evaluation 2. Clinical Case Study Group Discussion * Bring your voice samples from the Super Lab*		Wiki Lab by McGill Librarian (Jill Boruff)	Anatomy Online 3-4 Quiz 2
Sept 24	3	Voice Physiology Voice Evaluation	Ch 12-13 Ch 8	3-hr lecture	Anatomy Online 5-6 Quiz 3-4
Oct 1	4	No Class – Election Day			VF Pathologies Online 1-4
Oct 8	5	No Class - Thanksgiving			
Oct 15	6	Voice Evaluation	Ch 3-4	Acoustic Voice Evaluation (Masuda) *Bring your voice samples from the Super Lab*	
Oct 22	7	<u>Extended 3-hr Voice Lab (Masuda)</u> Trip to RVH Voice Clinic with Dr. Karen Kost, Ms. Maia Masuda and Ms Glenna Waters (** time to be confirmed**)			Case Study Intervention Plan
Oct 29 11 a.m. – 2 p.m	8	Voice Disorders: functional voice disorders, neurologically-based voice disorders	Ch 4, 5, 14	Clinical Case Study Jigsaw Classroom (Li-Jessen)	Workshop Proposal
Nov 5	9	<u>Extended 3-hr Voice Lab (Masuda)</u> 1. Review Perceptual Voice Ratings 2. Voice Therapy Techniques			
Nov 12	10	Voice Therapy	Ch 10	Workshop Materials Review (Masuda and Li-Jessen)	Workshop Presentation Slides
Nov 19	11	Surgical and Medical Management of Voice Disorders	Ch 9	Professional Voice Users: Case Studies (Masuda)	
Nov 26	12	Laryngectomy by Ms. Gina Mills	Ch 11	Voice Lab (Mills)	
Dec 3	13	Laryngectomy by Ms. Gina Mills	Ch 11	Voice Lab (Mills)	
TBD		Final Written Exam (Cumulative)			

* Additional readings will be assigned before the class.

** Refer to the Wikipedia course page for Wikipedia article assignment deadline.

EVALUATION

Grades will be determined from the following assignments. Assignment instructions will be given during the course. Please refer to the course outline and Wikipedia course page for assignment deadlines.

Assignment	Competency(ies) Targeted	Expected Performance Level
Mycourse quizzes (15%)	<ul style="list-style-type: none">• Basic knowledge of anatomy and physiology of normal and disordered voice production.	Advanced beginner
Clinical case study (15%)	<ul style="list-style-type: none">• Apply fundamental principles of assessment and treatment of voice disorders in special populations.	Advanced beginner
Voice workshop (20%)	<ul style="list-style-type: none">• Develop and implement a group voice therapy workshop for targeted populations.	Advanced beginner
Wikipedia article (20%)	<ul style="list-style-type: none">• Demonstrate information and digital literacy skills.• Evaluate research evidence critically.	Advanced beginner
Voice lab (10%)	<ul style="list-style-type: none">• Implement appropriate perceptual and acoustic measures for assessing voice production.• Demonstrate common voice therapy techniques, e.g., resonant voice, straw phonation and laryngeal massage.	Advanced beginner
Final exam (20%)	<ul style="list-style-type: none">• Formulate a diagnostic and prognostic statement based on the medical diagnosis, voice assessment and the impact of physical, emotional, vocational, and environmental factors that influence the client's voice production.• Formulate an appropriate treatment plan of the client's voice disorder.	Competent

McGILL POLICY STATEMENTS

Academic Integrity

McGill University values academic integrity. Therefore all students must understand the meaning and consequences of cheating, plagiarism and other academic offences under the Code of Student Conduct and Disciplinary Procedures (see www.mcgill.ca/students/srr/honest/) for more information).

Language of Submission

In accord with McGill University's Charter of Students' Rights, students in this course have the right to submit in English or in French any written work that is to be graded.

Additional Statements

- The [University Student Assessment Policy](#) exists to ensure fair and equitable academic assessment for all students and to protect students from excessive workloads. All students and instructors are encouraged to review this Policy, which addresses multiple aspects and methods of student assessment, e.g. the timing of evaluation due dates and weighting of final examinations.
- Instructor-generated course materials (e.g., handouts, notes, summaries, exam questions, etc.) are protected by law and may not be copied or distributed in any form or in any medium without explicit permission of the instructor. Note that infringements of copyright can be subject to follow up by the University under the Code of Student Conduct and Disciplinary Procedures.
- As the instructor of this course I endeavor to provide an inclusive learning environment. However, if you experience barriers to learning in this course, do not hesitate to discuss them with me and the [Office for Students with Disabilities](#), 514-398-6009.
- [End-of-course evaluations](#) are one of the ways that McGill works towards maintaining and improving the quality of courses and the student's learning experience. You will be notified by e-mail when the evaluations are available. Please note that a minimum number of responses must be received for results to be available to students.
- In the event of extraordinary circumstances beyond the University's control, the content and/or evaluation scheme in this course is subject to change.

LATE ASSIGNMENTS

Students are expected to complete assignments, exams, and presentations at times assigned by instructors. In the event that a student is unable to complete work on time, s/he should contact the instructor and provide a reason for requesting an extension prior to the deadline.

Instructors will indicate to the student whether their reason is sufficient to warrant an extension. All medical excuses must be followed by a letter from a doctor specific to that particular absence. Unexcused incomplete work (assignment, exams, and presentations) will result in failure or reduction in grade points.

ABSENCE FROM EXAMINATION

Supplemental examination will only be given to students who have a medical certificate, or are absent for religious holidays.
