**II. APPROVED IN THE NAME OF SENATE**

**(A) Student Exchange Agreements (approved by APPC)**

**1) Co-operation Agreement between McGill University and the Sauvé Scholars Foundation**

At a meeting on 15<sup>th</sup> March 2007 APPC approved an Agreement that serves to formalize the relationship between the Sauvé Scholars Foundation and McGill University. The Sauvé Scholars Foundation was established by the Jeanne Sauvé Foundation to implement its mission of developing the leadership potential of promising youth from around the world "... to be used towards making a difference and building a better future for the societies of tomorrow." The Foundation gathers in Montreal a highly-talented and motivated group of post-graduate emerging leaders in order for them to share an experience of inquiry, debate and reflection, and help advance their careers, intellectual capacity and leadership potential (from [www.sauvescholars.org](http://www.sauvescholars.org)). McGill and the Sauvé Foundation collaborate to provide the Sauvé Scholars access to a university environment. The terms specific to McGill are detailed in the Agreement. Under the provisions of the "Sauvé Scholars at McGill" program, the Sauvé Scholars (who hold the status of "stagiaire / academic trainee" and currently number about fourteen) are assigned Mentors, are permitted to attend teaching activities with certain conditions, and are given access to McGill's libraries and other specific facilities. The Agreement has an initial term of three years and may be renewed on the same terms and conditions for an additional three years upon mutual written agreement executed six months prior to the end of the present term.

**2) Bilateral Student Exchange Agreement between McGill University and Université de Montréal**

At a meeting on 15<sup>th</sup> March 2007 APPC approved an Agreement for a Student Exchange Program between the Université de Montréal and McGill University. This agreement differs from McGill's other student exchanges in that it will operate under the umbrella of the Quebec Inter-University Transfer (IUT) Agreement: the IUT agreement allows regular degree students who are registered in one Quebec university to take courses at another Quebec university with academic credits transferred between the two institutions (all requests are routed through a CREPUQ intranet site). Currently, McGill does not authorize more than three credits per session. This agreement is a significant departure in that students would be expected to take no less than a full credit load and spend one term or two at the partner institution. The proposed agreement sets the number of undergraduate students to be exchanged in a given year at 50, which is considerably higher than any other agreement. Given the unique circumstances of this exchange, it is hoped that a substantial cohort of undergraduate students will be willing to participate.
