

Madeleine Henderson
PhD Candidate
Department of Sociology
McGill University, Montreal, QC
1 (514) 264-9569
madeleine.henderson@mail.mcgill.ca

Education

Sept. 2013 – Present McGill, PhD (Sociology)
June 2012 University of British Columbia, Bachelor of Arts (Psychology Honours)
Aug. 2009 Okanagan College, Associate of Arts (Psychology Emphasis)

Research Interests

Sexuality, Sexual Behaviour, Adolescence, Sub-Sahara Africa, HIV/AIDS, Social Epidemiology, Religiosity, Social Control, Family, Peer Influences

Research Experience

Sept. 2013 – Present **Research Assistant**, Life Histories, Health, and HIV/AIDS Data Lab, McGill
Supervisor: Dr. Shelley Clark (Associate Professor of Sociology, McGill)

- Designed and programmed first and second waves of quantitative survey for a longitudinal study occurring in rural Ghana
- Designed intervention materials, namely program modules for adolescent weekly meetings

Apr. 2011 – Nov. 2011 **Undergraduate Researcher**, Irving K. Barber School of Arts and Sciences Research Award, University of British Columbia
Project supervisor: Dr. Nancy Netting (Associate Professor of Sociology, UBC)

- Designed and carried out original sociological research, specifically;
- Conducted a content analysis of local print media to quantify and track the volume patterns of HIV/AIDS coverage from 1980-2010
- Compiled 30 year's worth of Dr. Netting's data regarding the sexual behaviours and attitudes of local students between 1980 and 2010
- Ran statistical analyses within SPSS to quantify the relationship between HIV/AIDS in the media and students' sexual behaviours over the past 30 years

Jun. 2010 – Apr. 2011 **Undergraduate Researcher**, Irving K. Barber School of Arts and Sciences, Psychology Honours Program, University of British Columbia
Project supervisor: Dr. Liane Gabora (Associate Professor of Psychology, UBC)

- Designed and conducted a psychological experiment within the field of creativity, specifically to test the concept of an authentically creative product within the creative arts
- Recruited and administered questionnaires to 200+ participants, questionnaires that were both quantitative and qualitative in nature
- Ran statistical analyses on quantitative data within SPSS
- Analyzed qualitative data to detect patterns within participant responses
