Welcome to McGill, an internationally renowned university with a historic tradition of excellence in research and academics. McGill is Canada's leading teaching and research-intensive university, and has long attracted the best and the brightest faculty and students from around the world.

There are more than 170,000 McGill graduates worldwide, a virtual city, whose residents include Nobel laureates, Rhodes scholars, astronauts, Olympic athletes, and global leaders in science, politics, the arts, and business. Our dedicated administrative staff are working hard to ensure that your time here at McGill is not only academically challenging, but an opportunity to develop as a person.

Today's social, technological and medical challenges continue to push the envelope of research, teaching and learning. At McGill, we welcome these challenges as we enter an unprecedented period of growth and renewal. New cutting-edge facilities will not only benefit students and faculty directly with state-of-the-art classrooms and laboratories, but will also serve to secure McGill's place at the forefront of global innovation. Our investment in our infrastructure is matched by a major academic rejuvenation. This decade will see the hiring of 100 new faculty members per year. Academic programs are growing and evolving too. New programs in engineering, science, and education have been added to the already more than 300 areas of study offered by the University.

McGill's strengths lie not only in our reputation, facilities, faculty and administrative staff, but in the quality of our students. We are committed to attracting students of the highest calibre from across Canada and around the world. Our rigorous admission standards ensure the overall excellence of the students accepted to McGill, while the scholarships, awards, and bursaries described in this Calendar help us attract them here. We are grateful for the generosity of our many donors who make this possible.

I wish you all the best as you embark on your University degree and hope you enjoy your time at McGill.

All efforts have been made to ensure the accuracy of information in this Calendar. However, it is ultimately the responsibility of fellowship and award seekers themselves to verify program deadlines and requirements with the source agencies.

The Graduate and Postdoctoral Studies Office, Fellowships and Awards Section cannot be held responsible for any errors or omissions, but would appreciate being informed of these, for correction or addition in the next edition.

Dear Graduate Students and Postdocs,

Let me begin by welcoming you to McGill University and by letting you know how pleased we are that you have chosen McGill to pursue your graduate studies or postdoctoral training. We hope that your time here is both productive and enjoyable and we will do whatever we can to ensure your success.

These are exciting times; not only for you as you take on new endeavours, but for the University as well. McGill again has been named as Canada’s most intensive research university and among the world’s top 25 universities. We recognize that these successes come not only from our talented faculty members, but also from the quality of our graduate students and postdoctoral scholars - a community into which we are happy to welcome you.

As you begin this period of intense study, I’d like to remind you to take time to relax and enjoy yourselves. Take advantage of our new athletic facilities, relax and socialize with fellow students at Thomson House, attend a lecture in a field completely unrelated to your own - just because you want to, and remember to take care of yourselves. I also urge you to get involved in your university. Graduate students and postdocs have a tremendous opportunity to shape McGill’s policies and procedures with representation on governing boards and committees at all levels. Your voice is important and we want to hear it.

Along with the outstanding staff of the Graduate and Postdoctoral Studies Office, my office is here to help you. I welcome your comments suggestions on how we can improve the experience of graduate students and postdocs at McGill. Again, I wish you the best.

1.3 A Message from the Dean

1) win a fellowship from an external granting agency;
2) win an internal McGill Graduate Fellowship;
3) win a McGill departmental or faculty award;
4) obtain a stipend from their supervisor’s research grant or contract;
5) receive funding in the form of loans and bursaries from the federal or provincial government;
6) receive a differential fee waiver for the international fee supplement.

In 2003-04, graduate students received over $6 million in McGill fellowships and $5 million in salaries. They also attracted approximately $14 million in fellowship funding from Canadian and Quebec Government sources, as well as $1.4 million in differential fee waivers for international students from the Quebec government. Over $23 million from research grants and contracts was devoted to graduate student support. Preliminary estimates indicate that over $4 million in fellowships was obtained through other external sources.

1) External fellowships are available from various sources, mainly through government departments and agencies, foundations and companies. Section 3 “External Fellowships” lists a number of agencies offering graduate student funding opportunities. Currently, the value of awards offered by these agencies (including those supported by the Canadian and Quebec governments) varies from approximately $15,000 to $35,000 per year, and up to $50,000 for health professionals. Many may be renewed. Application deadlines for the majority of external granting agency fellowships fall during October and November, for fellowships tenable in the following year. Fellowships offered by external granting agencies for postdoctoral level study and research are described in “Postdoctoral Fellowships” (section 7). Opportunities for funding to pursue graduate study and research outside of Canada are listed in “Exchange and Travelling Fellowships” (section 8).

2) McGill Graduate Fellowships are described in detail in section 4, “McGill Graduate Fellowships”. McGill Major Fellowships (valued at $10,000 - $15,000 per year, for one or more years) are offered only to students already enrolled in a Master’s or Doctoral program at McGill, who meet the specific eligibility requirements of the year’s competition. Details regarding eligibility and specific deadlines for McGill Major Fellowships are available in early September from departments and the GPSO Fellowships and Awards Section website. For McGill students in the social science and humanities disciplines, the McGill Major Fellowship application deadline coincides with that of the Social Sciences and Humanities Research Council (SSHRC) doctoral fellowships competition (generally during the month of October). For McGill students in the natural science and engineering, and medical science disciplines the deadline coincides with that of the Natural Sciences and Engineering Research Council (NSERC) Postgraduate Scholarships competition (generally during the month of October). All students are advised to check deadlines with their departments during the summer.

Students need not be eligible for funding through external agencies in order to apply for a McGill Major Fellowship. However, all applicants for McGill Major funding must, if eligible, have applied to CIHR, SSHRC or NSERC and, if eligible, to the Quebec funding agencies: Fonds Québécois de la Recherche sur la Nature et les Technologies (FQRNT), Fonds Québécois de la Recherche sur la Société et la Culture (FQRSC) or Fonds de la recherche en santé du Québec (FRSQ).

Application forms for the McGill Major Fellowships are available to students currently enrolled at McGill from the GPSO Fellowships and Awards Section website at: www.mcgill.ca/gps/fellowships under the Graduate Competitions page. Completed application forms and all supporting documents should be returned directly to the academic department. No documentation should be sent to the GPSO Fellowships and Awards Section. Applications for McGill Graduate Fellowships tenable beginning in September 2007 must

2 Financing Graduate Education

There are different ways to finance graduate studies at McGill University. A graduate student can:
be received by McGill departments during the Fall semester of 2006 (check with departments for specific deadlines).

In addition to the McGill Major Fellowships for continuing graduate students, McGill University provides a number of Recruitment Fellowships. There are two types of Recruitment Fellowships. Some are awarded through a specific competition, such as the “Richard H. Tomlinson Fellowships” (section 4.1.1), and the “Max Stern McCord Museum Fellowships” (section 4.1.4, “Discipline-specific Recruitment Fellowships”). Others, such as the “Max Stern Recruitment Fellowships” (section 4.1.2), and the MGSF Fellowships, see “Multidisciplinary” (section 5.1) are allocated to selected academic departments for outstanding applicants seeking first admission to graduate studies at McGill during the following academic year. All applicants for first-time graduate admission are automatically considered by departments for a recruitment fellowship for the following academic year. 2.1 General Fellowships Information

When an external fellowship announcement received by the GPSO Fellowships and Awards Section is of particular interest to a specific department or academic unit, the information is forwarded to that unit for posting and/or circulation. In addition, announcements of general interest are posted on the bulletin board outside the GPSO Fellowships and Awards Section, James Administration Building, Room 400. The GPSO Fellowships and Awards Section maintains a small collection of reference books on funding for graduate study. These may be consulted at the reception desk.

2.2 Reference Books

In addition to the resources offered by the GPSO Fellowships and Awards Section, those seeking support for graduate study are encouraged to consult one or more of the many reference books and directories on the subject. Many major libraries, including McGill's McLennan Library, have publications listing fellowships and awards for graduate study, including the following: The Awards Almanac; Annual Register of Grant Support; Awards for Postgraduate Study at Commonwealth Universities; Directory of Financial Aids for Women; Directory of Research Grants; The Foundation Grants Index; The Grants Register; Study Abroad; Scholarships, Fellowships, and Loans.

2.3 Funding Information on the Web

The Fellowships and Awards calendar is accessible on the web at www.mcgill.ca gps fellowships under Publications. The GPSO site also contains specific information on competitions and links to the sites of various funding agencies as well as forms for several McGill fellowships and awards that may be downloaded.

The Graduate and Postdoctoral Studies Office also publishes a general guide on funding strategies entitled Making Ends Meet, which can also be found at www.mcgill.ca gps fellowships under Publications.

McGill University subscribes to the SPIN database for sources of research funding. The database is accessible free of charge to the end user from any computer on the McGill domain (or in any other participating university/ institution). The database now carries a number of graduate and postdoctoral fellowships, scholarships, awards, prizes, etc. Access to the SPIN database as well as search tips can be found at www.mcgill.ca gps fellowships on the Publications page. While a large database of research funding opportunities, SPIN is not complete or exhaustive. Prospective applicants or students looking to secure funding should use other means as well (this calendar and the McGill Graduate and Postdoctoral Studies Office website are two other places to start).

Information for international students and fellows wishing to study in Canada is available from the Canadian Bureau for International Education (CBIE) website at www.destineducation.ca.

2.4 Information for International Students and Fellows

Funding opportunities for international students are not as plentiful as they are for Canadians. This is because many forms of assistance provided by the federal and provincial governments are offered to Canadian citizens or Permanent Residents of Canada only. Opportunities for supplementing fellowship income by employment are also scarcer since international students and their dependants are not normally permitted by Canadian immigration authorities to work outside the university. Immigration officials also require all international students entering Canada to provide proof that they possess sufficient funds to cover at least one academic
year’s stay in Canada as well as return fare home. McGill’s International Student Advisor suggests that single students have a minimum of $22,000 for living expenses, in addition to tuition and ancillary fees, for every twelve months of study in Canada.

Non-Canadian students can, nonetheless, draw on a considerable variety of fellowships and other forms of assistance. There are several large, multi-disciplinary programs specifically aimed at funding students from abroad who are studying in Canada. These include: the Canadian Commonwealth Scholarship and Fellowship Program, the Government of Canada Awards to Foreign Nationals, the Technical Assistance Scholarships and Fellowships and the Canadian Fellowship Program for French-Speaking Countries, funded by the Canadian International Development Agency (CIDA). Applications for all these programs must be made through the government of the applicant’s home country, usually via the Ministry of Education. Applications sent by individuals directly to Canada cannot be considered.

In addition, many of McGill’s Graduate Fellowships, as well as many of the fellowships and prizes offered by various McGill departments and faculties, are offered without any restrictions concerning nationality. Unless otherwise specified in the description, fellowships listed in this brochure are open to students from all countries. International students should also note that the Graduate and Postdoctoral Studies Office grants some differential fee waivers making it possible for some non-Canadian students to pay reduced foreign fees. Some students may also qualify for differential fee waivers accorded as a result of bilateral agreements between Canada and their home country. See section 4.6, “Differential Fee Waivers”, as well as section 8, “Exchange and Traveling Fellowships”.

Additional information on opportunities for financial assistance available to international graduate students and fellows can be found in the UNESCO publication Study Abroad, available for consultation at the GPSO Fellowships and Awards Section, McLennan Library, as well as many national libraries around the world. Study Abroad can also be purchased directly from UNESCO distributors in member countries. The Canadian Bureau for International Education (CBIE) produces a free brochure entitled Destination Education Canada, available on the web at www.des-tineducation.ca.

3 External Fellowships

External Fellowships are a major component of graduate student funding at McGill. The primary sources of external fellowships are the Federal Research Councils and the Quebec Provincial Research Funds which provided approximately $10 million. The three Quebec agencies are: the Fonds Québécois de la Recherche sur la Nature et les Technologies (FQRNT), the Fonds Québécois de la Recherche sur la Société et la Culture (FQRSC) and the Fonds de la recherche en santé du Québec (FRSQ). The Federal Councils are: the Canadian Institutes of Health Research (CIHR), the Natural Sciences and Engineering Research Council of Canada (NSERC), and the Social Sciences and Humanities Research Council of Canada (SSHRC). The balance of external fellowships comes from a variety of award programs sponsored by private companies, agencies, foundations, other provincial and federal government agencies, as well as foreign governments and organizations. For every dollar that McGill graduate students received through the Graduate and Postdoctoral Studies Office, approximately eight dollars was received from external fellowships.

Students who wish to be considered for graduate level funding from external sources should contact the specific funding agency directly, as well as the McGill department where they intend to undertake graduate study and/or the GPSO Fellowships and Awards Section in order to ascertain their individual eligibility and specific program application or nomination procedures. Competitions often take place one full year ahead of award tenure, therefore it is advisable to make inquiries well in advance of the date when funding is required. The GPSO Fellowships and Awards Section maintains up-to-date information and application forms for many externally funded award programs and will provide this when possible to interested individuals. It is, however, the responsibility of the applicant to verify directly with the agency all application procedures and deadlines, since these are subject to change each year.

Almost all funding agencies now have websites which provide detailed information about funding opportunities, eligibility and the application process. Here is a brief list of some of the largest funding sources. This is by no means a complete list and students are encouraged to consult the rest of the calendar in detail as well as to make use of the SPIN Database by InfoEd International to which McGill University subscribes. SPIN is available under the Publications menu of the Graduate and Postdoctoral Studies website (www.mcgill.ca/gps).

Students need not be eligible for funding through an external agency named above in order to apply for a McGill Major Fellowship. However, all applicants for McGill Major funding must, if eligible, have applied to CIHR, SSHRC or NSERC and, if eligible to the Quebec funding agency Fonds Québécois de la Recherche sur la Nature et les Technologies (FQRNT), Fonds Québécois de la Recherche sur la Société et la Culture (FQRSC) or Fonds de la recherche en santé du Québec (FRSQ).

EXTERIOR FELLOWSHIPS AND MCGILL FELLOWSHIPS

Students need not be eligible for funding through an external agency named above in order to apply for a McGill Major Fellowship. However, all applicants for McGill Major funding must, if eligible, have applied to CIHR, SSHRC or NSERC and, if eligible to the Quebec funding agency Fonds Québécois de la Recherche sur la Nature et les Technologies (FQRNT), Fonds Québécois de la Recherche sur la Société et la Culture (FQRSC) or Fonds de la recherche en santé du Québec (FRSQ).

TRANSCRIPTS AND DEADLINES

To obtain transcripts for larger external award competitions including FQRNT (formerly FCAR), FQRS, FRSP, NSERC and SSHRC, students must apply to their departmental graduate office several weeks prior to the application deadline. Students should check with their department or the Fellowships and Awards Section about all transcript ordering procedures and deadlines.

Deadlines for graduate and postdoctoral scholarships, fellowships and awards competitions from the Natural Sciences and Engineering Research Council (NSERC), Social Sciences and Humanities Research Council (SSHRC), Canadian Institutes of Health Research (CIHR), Fonds Québécois de la Recherche sur la Nature et les Technologies (FQRNT), Fonds Québécois de la Recherche sur la Société et la Culture (FQRSC), and the Fonds de la recherche en santé du Québec (FRSQ) generally fall in early October. Students should therefore begin planning their external applications as early as August. The applicant is responsible for fulfilling the application requirement and using the forms for the
current year. If the application form for the current year is not available in August, the student should nevertheless proceed to draft a proposed plan of study and research and discuss it with two faculty members, who can later serve as referees.

The following alphabetical listing of external fellowships indicates deadlines, application requirements and values as known to the GPSO Fellowships and Awards Section at the time of publication of this Calendar. It is the responsibility of the applicant to verify directly with the agency all application procedures and deadlines. In cases where the GPSO Fellowships and Awards Section maintains an information file on a particular external fellowship, an “OFA” file number has been given. Please refer to this number when requesting information from the Office.

4.6 Differential Fee Waivers

Internal DFWS

The Graduate and Postdoctoral Studies Office awards approximately 130 Differential Fee Waivers per term to international students, approximate value: $3,705 in a Ph.D., $4,200 in a Masters.

Eligibility and Nomination Procedures

These differential fee waivers are restricted to international graduate students at McGill whose visa status requires them to pay full international tuition fees. Recipients must be registered full-time. (See explanation of residency in the Program Requirements section of the Graduate and Postdoctoral Studies Calendar.) Students in a qualifying year or additional session are not eligible. Students in “privatized” programs are not eligible. All eligible international students are automatically considered by departments for differential fee waivers, if the unit has them to offer. Since these differential fee waivers are awarded based exclusively on departmental nomination, there are no application forms. Interested students who cannot otherwise qualify for an external differential fee waiver (see below) should contact the department to which they are applying.

External DFWS

Differential fee waivers are also available from a number of external sources, including the Ministère de l'Éducation, du Loisir et du Sport du Québec. Please note that the Quebec government grants differential fee waivers to staff and dependants of consulates, foreign government offices, international governmental organizations, non-governmental organizations, refugees, immigrants with a work permit containing the case type 07, 08, 22, 23 or 26 with the name of an employer and location that is necessarily situated in Quebec, and to those students in MELS-approved inter-university exchanges. For more information on how to qualify for differential fee waivers under these provisions, please see this document: Politique relative aux droits de scolarité exigés des étudiantes et étudiants étrangers par les universités du Québec, available in PDF at the MEL website: www.mels.gouv.qc.ca/ens-sup/ens-univ/droits_scolarite-A.asp.

To promote the French language and Québec culture outside Canada, the Ministère de l'Éducation du Québec exempts all international students admitted to certain programs in Québec from the payment of supplemental tuition fees. To be eligible for the exemption, a student must be registered on a full-time basis (except for the last semester before obtaining a degree, in which case the student may be registered part-time) in a university program recognized by the Ministère de l'Éducation that leads to a degree in French (Language and Literature), Quebec Literature, French or Québec Studies, or Teaching French as a First Language, a Second Language or a Foreign Language. For a list of eligible programs and the institutions that offer them, please see www.mels.gouv.qc.ca/ens-sup/ens-univ/droits_scolarite-A.asp.

A certain number of citizens from countries whose governments have entered into agreements on tuition fees with Québec may be exempted from the supplemental tuition fees normally required of international students.

The exemption is granted in accordance with the applicable agreement on tuition fees and subject to its terms and conditions, which vary depending on each agreement. The exemption is valid for the normal length of the program of studies concerned (for instance, a Master's degree in Environmental Studies) at a post-secondary institution in Québec, and is granted one semester at a time. From the first semester for which an exemption is granted at a designated institution until the program is completed, the exemption is renewable on a trimester-by-trimester basis as long as a student earns no fewer than 30 credits per year, complies with the applicable regulations, registers on a full-time basis at least for the fall and winter trimesters and pays the tuition fees on the prescribed registration dates. All French citizens and a limited number of citizens of a country in the list which can be found at www.mels.gouv.qc.ca/ens-sup/ens-univ/droits_scolarite-A-pays-organisations.pdf are eligible for such exemptions.

To apply for an exemption of this type, a student must meet the following conditions: be a citizen of one of the aforementioned countries or governments; be admitted to a program of studies at a post-secondary institution in Québec; be registered on a full-time basis according to the applicable rules at that institution; like any international student, be the holder of a valid passport and residence permit as prescribed by the applicable immigration rules; and, except for French citizens, be recommended for an exemption by the relevant authorities in his or her country-usually the department of education-according to the official procedure described in the next paragraph.

Differential fee waivers, if the unit has them to offer, are granted based exclusively on departmental nomination, there are no application forms. Interested students who cannot otherwise qualify for an external differential fee waiver (see below) should contact the department to which they are applying. For more information and the necessary application materials, see this MELS website: www.mels.gouv.qc.ca/ens-sup/ens-univ/droits_scolarite-A.asp.

6 Student Financial Assistance

6.1 Government Student Aid

6.1.1 Citizens and Permanent Residents of Canada

Need-based student financial aid programs are offered by the federal/provincial governments. Applications should be directed directly to the province (or territory) of residence. Application forms are available from the governmental authorities as well as the Student Aid Office. In formation on governmental student aid and links can be found on McGill’s Financial Aid website at www.mcgill.ca/studentaid.

6.1.2 Citizens and Permanent Residents of the United States

McGill University participates in the Federal Family Education Loan Program (FFELP). American students in need of financial assistance may apply for Stafford loans.

All students applying for loans must file a Free Application for Federal Student Aid (FAFSA) to determine financial need. This can be done on-line at www.fafsa.ed.gov. Our school code is 006677. Applicants will need to obtain the necessary PIN number to validate their signature before electronically sending the application to be processed. Follow the steps on the FAFSA website to obtain the PIN.

The report generated from the FAFSA is called a Student Aid Report (SAR). The SAR is not sent to our school as indicated on the FAFSA website. However, if you have designated McGill University as a school you may attend, we will be able to retrieve your SAR.

Stafford Loans

Graduate students and students in professional programs may borrow up to the cost of attendance, to a maximum of $18,500 US. $8500 of this amount may be a subsidized loan.

Information from the SAR and any financial aid received from your department and other sources is used to determine how much of the loan will be subsidized (interest free during full time studies) or not subsidized (interest is charged during full time studies).

Students who qualify for the subsidized loan will begin repayment of the principal and interest six months after they cease to be enrolled at least half time. Students receiving unsubsidized loan funds may pay the interest charges while they are in school, with principal deferred, until they cease to be enrolled at least half time; or they can choose to have both the interest and principal deferred until after they cease to be enrolled at least half time.

You must report any financial aid you are receiving (including funding from your department) when you apply for Stafford loans. This information should be submitted in writing to our office.

How to Apply for Stafford Loans

Each year, in addition to filing a FAFSA, a student must sign a Stafford Master Promissory Note (Stafford MPN). The MPN documents a student’s choice of guarantor and lender as well as the obligation to repay the loan.

Please note that at the time of printing, the application process for submission of the Stafford and PLUS MPNs is being revised. New information regarding the use of e-signatures for these documents will be updated on our website at www.mcgill.ca/studentaid in early spring. E-sign will be available for students who use our preferred guarantor, American Student Assistance (ASA), and Northwest Education Loan Association (NELA).

Students who are residents of Vermont should apply using Vermont Student Assistance Corporation (VSAC) as a guarantor. Students may order an application package at www.vsac.org. Mail the original MPN to VSAC and the school copy of the MPN to our office. It is not yet possible to apply using e-signatures. If you require further information, you may contact Marcia Vance at:

8 Exchange and Travelling Fellowships

Information on funding opportunities for graduate study and research outside of Canada is contained in many of the reference books and directories listed in section 2.2, “Reference Books”. One of the most comprehensive publications is UNESCO’s “Study Abroad”, available for consultation at the Graduate and Postdoctoral Studies Office, Fellowships and Awards Section, the McLennan Library and many national libraries around the world. Embassies, consulates and commissions of foreign countries located in Canada also are excellent sources of information on funding opportunities for students intending to study abroad. Addresses and telephone numbers of all diplomatic representatives in Canada can be obtained from the Department of External Affairs in Ottawa at (613) 996-4376. For McGill students seeking funding for graduate study outside Canada, the graduate awards offices of foreign universities themselves are often the best source of information. The McLennan Library has a vast collection of foreign university catalogues. The French embassy in Ottawa has a complete website on France-Canada exchange programs at http://ambafrance-ca.org/HYPERLAB/FFCR under “l’aide-mémoire des échanges scientifiques franco-canadiens”.

McGill University has signed a number of agreements with universities in other countries, many of which include a student exchange component. As a member of the Conference of Rectors and Principals of Quebec Universities (CREPUQ), McGill also participates in a number of student exchange programs with designated universities in the United States and Europe. Further information on such programs may be obtained from the Student Exchange Officer, Admissions, Recruitment and Registrar’s Office, James Building Annex, McGill University. Tel: (514) 398-3542.
