Dean’s Welcome
To Graduate Students and Postdoctoral Fellows:
I am extremely pleased to welcome you to McGill University. With over 250 Doctoral and Master's graduate degree programs, McGill is committed to providing excellence in graduate education and postdoctoral training in a full range of academic disciplines and professions. The Graduate and Postdoctoral Studies Office (GPSO) works in collaboration with the Faculties and other administrative and academic units to ensure that the very highest intellectual, teaching, and research standards are maintained across the university. The GPSO oversees the admission and registration of graduate students, graduate fellowships, postdoctoral affairs, the graduation process, including the examination of theses and, along with other units, conducts regular program reviews in all disciplines.

As a student-centered research institution, McGill places singular importance upon graduate education and postdoctoral training. This abiding commitment to the university's most advanced educational and research initiatives has resulted in the creation of a new position, Associate Provost (Graduate Education), designed to offer leadership, administration, and coordination of graduate and postdoctoral activities across the university. I am delighted to undertake this unique responsibility and strive to work closely with the central administration, Faculties, graduate students, professors, researchers, postdoctoral fellows, and staff to enhance the graduate and postdoctoral experience and provide a supportive, stimulating, and enriching academic environment.

McGill again has been named as Canada's most intensive research university and among the world's top 25. We recognize that these successes come not only from our outstanding faculty members, but also from the quality of our graduate students and postdoctoral fellows - a community into which we are very happy to welcome you.

I invite you to join us in advancing this heritage of excellence at McGill.

Martin Kreiswirth, Ph.D.  
Associate Provost (Graduate Education)  
Dean, Graduate and Postdoctoral Studies

2 Financing Graduate Education

There are different ways to finance graduate studies at McGill University. A graduate student can:
1) win a fellowship from an external granting agency;
2) win an internal McGill Graduate Fellowship;
3) win a McGill departmental or faculty award;
4) obtain a stipend from their supervisor’s research grant or contract;
5) receive funding in the form of loans and bursaries from the federal or provincial government;
6) receive an exemption from the international fee supplement.

In 2003-04, graduate students received over $6 million in McGill fellowships and $5 million in salaries. They also attracted approximately $14 million in fellowship funding from Canadian and Quebec Government sources, as well as $1.4 million in differential fee waivers for international students from the Quebec government. Over $23 million from research grants and contracts was devoted to graduate student support. Preliminary estimates indicate that over $4 million in fellowships was obtained through other external sources.

1) External fellowships are available from various sources, mainly through government departments and agencies, foundations and companies. Section 3 "External Fellowships" lists a number of agencies offering graduate student funding opportunities. Currently, the value of awards offered by these agencies (including those supported by the Canadian and Quebec governments) varies from approximately $15,000 to $35,000 per year, and up to $50,000 for health professionals. Many may be renewed. Application deadlines for the majority of external granting agencies’ fellowships fall during October and November, for fellowships tenable in September of the following year. Fellowships offered by external granting agencies for postdoctoral level study and research are described in “Postdoctoral Fellowships” (section 7).

Opportunities for funding to pursue graduate study and research outside of Canada are listed in "Exchange and Travelling Fellowships" (section 8).

2) McGill Graduate Fellowships are described in detail in section 4, "McGill Graduate Fellowships". McGill Major Fellowships (valued at $10,000 - $25,000 per year, for one or more years) are offered only to students already enrolled in a Master's or Doctoral program at McGill, who meet the specific eligibility requirements of the year's competition. Details regarding eligibility and specific deadlines for McGill Major Fellowships are available in early September from departments and the GPSO Fellowships and Awards Section Website. For McGill students in the social science and humanities disciplines, the McGill Major Fellowship application deadline coincides with that of the Social Sciences and Humanities Research Council (SSHRC) doctoral fellowships competition (generally during the month of October). For McGill students in the natural science and engineering, and medical science disciplines the deadline coincides with that of the Natural Sciences and Engineering Research Council (NSERC) Postgraduate Scholarships competition (generally during the month of October). All students are advised to check deadlines with their departments during the summer.

Students need not be eligible for funding through external agencies in order to apply for a McGill Major Fellowship. However, all applicants for McGill Major funding must, if eligible, have applied to CIHR, SSHRC or NSERC and, if eligible, to the Quebec funding agencies: Fonds Québécois de la Recherche sur la Nature et les Technologies (FQRNT), Fonds Québécois de la Recherche sur la Société et la Culture (FQRSC) or Fonds de la recherche en santé du Québec (FRSQ).

Application forms for the McGill Major Fellowships are available to students currently enrolled at McGill from the GPSO Fellowships and Awards Website at: www.mcgill.ca/gps/fellowships under the Graduate Competitions page. Completed application forms for McGill Major Fellowships must be submitted along with other application materials by the official deadline.

FINANCING GRADUATE EDUCATION
forms and all supporting documents should be returned directly to the academic department. No documentation should be sent to the GPSO Fellowships and Awards Section. Applications for McGill Graduate Fellowships tenable beginning in September 2007 must be received by McGill departments during the Fall semester of 2006 (check with departments for specific deadlines).

In addition to the McGill Major Fellowships for continuing graduate students, McGill University provides a number of Recruitment Fellowships. There are two types of Recruitment Fellowships. Some are awarded through a specific competition, such as the "Richard H. Tomlinson Fellowships" (section 4.1.1), and the "Max Stern McCord Museum Fellowships" (section 4.1.4, "Discipline-specific Recruitment Fellowships"). Others, such as the "Max Stern Recruitment Fellowships" (section 4.1.2), and the MGSF Fellowships, see "Multidisciplinary" (section 5.1) are allocated to selected academic departments for outstanding applicants seeking first admission to graduate studies at McGill during the following academic year. All applicants for first-time graduate admission are automatically considered by departments for a recruitment fellowship, if the unit has one to offer. In most cases, there are no application forms as awards are based exclusively on departmental nomination. However, students are strongly advised to consult the Recruitment Fellowships section below, as nomination for some fellowships (such as the Tomlinson) can involve an earlier application deadline. For additional information, students should also consult the academic unit from which they request admission.

3) McGill Departmental and Faculty Awards are listed in section 5, "Fellowships awarded by Departments and Faculties". It is the responsibility of the department, academic unit or faculty administering these awards to determine deadlines and values. Consequently, they vary greatly. For more information regarding departmental and faculty awards, the student should contact the Graduate Studies Coordinator or Director of the academic unit in which he/she intends to study.

4) Stipends from Research Grants or Contracts provide an important source of support for graduate students in research programs. A faculty member can, when they apply for research grants, budget for support of graduate students to work on their thesis or project research. Several granting agencies allow the support to be treated as scholarship income for the student. Granting agencies usually specify either a minimum or maximum value for a stipend. Students should, at the time of admission, enquire with their proposed supervisor or department on the availability of stipends.

5) Loans and Bursaries are administered by the province in which the student is deemed to be a resident. Basic qualifications are that the applicant is a full-time student and a Canadian citizen; certain categories of Permanent Residents may also be eligible. The Quebec Student Loan and Canada Student Loan programs operate exclusively on the basis of financial need. Several provinces augment their loan programs with a loan forgiveness programs to help students reduce their debt loads. The McGill Student Aid Office provides information regarding application procedures of these government loan programs. The Student Aid Office also administers institutional need-based funding including short-term loans to cover emergency situations, limited bursary assistance, and a Work/Study program. Further information is provided in section 6, "Student Financial Assistance".

6) Exemptions from the international tuition fee supplements are available through different programs.
(a) MIDAs: As of September 2007, international Doctoral students registered full-time at McGill will pay the same tuition fees as Quebec Doctoral students. International students whose international tuition supplement is paid by an external source (e.g. fellowships that include direct payment of tuition and third party billing contracts) will not be eligible for these awards.
(b) McGill University is allocated a number of Differential Fee Waivers (DFWs) that it allocates through the departments. International students should enquire with their department for information regarding how to apply for these waivers. Summer DFWs are allocated to eligible Master’s degree students; Fall and Winter DFWs are allocated to eligible doctoral students as part of the MIDAs program.
(c) International degree students in a program where fees are assessed per credit and who register in eligible French language and literature courses are exempt from the international supplement for those courses. Please note that the exemption of differential fees for students registered in French language and literature programs has been abolished.
(d) All students from France and a limited number of students from countries that entered bilateral agreements with Quebec have access to exemptions of the differential fees. Except for French citizens, students from such countries (see Section 4.6 "Exemptions from the International Tuition Supplement") must apply to their home country for an exemption during the application process for admission.

2.1 General Fellowships Information
When an external fellowship announcement received by the GPSO Fellowships and Awards Section is of particular interest to a specific department or academic unit, the information is forwarded to that unit for posting and/or circulation. In addition, announcements of general interest are posted on the bulletin board outside the GPSO Fellowships and Awards Section, James Administration Building, Room 400. The GPSO Fellowships and Awards Section maintains a small collection of reference books on funding for graduate study. These may be consulted at the reception desk.

2.2 Reference Books
In addition to the resources offered by the GPSO Fellowships and Awards Section, those seeking support for graduate study are encouraged to consult one or more of the many reference books and directories on the subject. Many major libraries, including McGill’s McLennan Library, have publications listing fellowships and awards for graduate study, including the following;
- The Awards Almanac;
- Annual Register of Grant Support;
- Awards for Postgraduate Study at Commonwealth Universities;
- Directory of Financial Aids for Women;
- Directory of Research Grants;
- The Foundation Grants Index;
- The Grants Register;
- Study Abroad;
- Scholarships, Fellowships, and Loans.

2.3 Funding Information on the Web
The Fellowships and Awards calendar is accessible on the Web at www.mcgill.ca/gps/fellowships under Publications. The GPSO site also contains specific information on competitions and links to the sites of various funding agencies as well as forms for several McGill fellowships and awards that may be downloaded.

The Graduate and Postdoctoral Studies Office also publishes a general guide on funding strategies entitled Making Ends Meet, which can also be found at www.mcgill.ca/gps/fellowships under Publications.

McGill University subscribes to the SPIN database for sources of research funding. The database is accessible free of charge to the end user from any computer on the McGill domain (or in any other participating university/institution). The database now carries a number of graduate and postdoctoral fellowships, scholarships, awards, prizes, etc. Access to the SPIN database as well as search tips can be found at www.mcgill.ca/gps/fellowships on the Publications page. While a large database of research funding opportunities, SPIN is not complete or exhaustive. Prospective applicants or students looking to secure funding should use other means as well (this calendar and the McGill Graduate and Postdoctoral Studies Office Website are two other places to start).
Information for international students and fellows wishing to study in Canada is available from the Canadian Bureau for International Education (CBIE) Website at www.destineducation.ca.

2.4 Information for International Students and Fellows

Funding opportunities for international students are not as plentiful as they are for Canadians. This is because many forms of assistance provided by the federal and provincial governments are offered to Canadian citizens or Permanent Residents of Canada only. Opportunities for supplementing fellowship income by employment are now more plentiful, as immigration authorities will now issue work permits for off-campus employment under certain circumstances (please consult the International Student Services Website at www.mcgill.ca/internationalstudents/workopportunities for details about eligibility and procedures). Immigration officials also require all international students entering Canada to provide proof that they possess sufficient funds to cover at least one academic year's stay in Canada as well as return fare home. McGill's International Student Advisor suggests that single students have a minimum of $22,000 for living expenses, in addition to tuition and ancillary fees, for every twelve months of study in Canada.

Non-Canadian students can, nonetheless, draw on a considerable variety of fellowships and other forms of assistance. There are several large, multi-disciplinary programs specifically aimed at funding students from abroad who are studying in Canada. These include: the Quebec Merit Fellowships for International Doctoral Students (Programme de bourses d’excellence pour étudiants étrangers - PBEEE), the Canadian Commonwealth Scholarship and Fellowship Program, the Government of Canada Awards to Foreign Nationals, the Technical Assistance Scholarships and Fellowships and the Canadian Fellowship Program for French-Speaking Countries, funded by the Canadian International Development Agency (CIDA). Applications for all these programs must be made through the government of the applicant's home country, usually via the Ministry of Education. Applications sent by individuals directly to Canada cannot be considered.

In addition, many of McGill's Graduate Fellowships, as well as many of the fellowships and prizes offered by various McGill departments and faculties, are offered without any restrictions concerning nationality. Unless otherwise specified in the description, fellowships listed in this brochure are open to students from all countries. International students should also note that the Graduate and Postdoctoral Studies Office grants some differential fee waivers making it possible for some non-Canadian students to pay reduced foreign fees. Some students may also qualify for differential fee waivers accorded as a result of bilateral agreements between Canada and their home country. See section 4.6, "Exemptions from the International Tuition Supplement", as well as section 8, "Exchange and Travelling Fellowships".

Additional information on opportunities for financial assistance available to international graduate students and fellows can be found in the UNESCO publication Study Abroad, available for consultation at the GPSO Fellowships and Awards Section, McNemar Library, as well as many national libraries around the world. Study Abroad can also be purchased directly from UNESCO distributors in member countries. The Canadian Bureau for International Education (CBIE) produces a free brochure entitled Destination Education Canada, available on the Web at www.destineducation.ca.

3 External Fellowships

External Fellowships are a major component of graduate student funding at McGill. The primary sources of external fellowships are the Federal Research Councils and the Quebec Provincial Research Funds which provided approximately $10 million. The three Quebec agencies are: the Fonds Québécois de la Recherche sur la Nature et les Technologies (FQRNT), the Fonds Québécois de la Recherche sur la Société et la Culture (FQRSC) and the Fonds de la recherche en santé du Québec (FRSQ). The Federal Councils are: the Canadian Institutes of Health Research (CIHR), the Natural Sciences and Engineering Research Council of Canada (NSERC), and the Social Sciences and Humanities Research Council of Canada (SSHRC). The balance of external fellowships comes from a variety of award programs sponsored by private companies, agencies, foundations, other provincial and federal government agencies, as well as foreign governments and organizations. For every dollar that McGill graduate students received through the Graduate and Postdoctoral Studies Office, approximately eight dollars was received from external fellowships.

Students who wish to be considered for graduate level funding from external sources should contact the specific funding agency directly, as well as the McGill department where they intend to undertake graduate study and/or the GPSO Fellowships and Awards Section in order to ascertain their individual eligibility and specific program application or nomination procedures. Competitions often take place one full year ahead of award tenure, therefore it is advisable to make inquiries well in advance of the date when funding is required. The GPSO Fellowships and Awards Section maintains up-to-date information and application forms for many externally funded award programs and will provide this when possible to interested individuals. It is, however, the responsibility of the applicant to verify directly with the agency all application procedures and deadlines, since these are subject to change each year.

Almost all funding agencies now have Websites which provide detailed information about funding opportunities, eligibility and the application process. Here is a brief list of some of the largest funding sources. This is by no means a complete list and students are encouraged to consult the rest of the calendar in detail as well as to make use of the SPIN Database by InfoEd International to which McGill University subscribes. SPIN is available under the Publications menu of the Graduate and Postdoctoral Studies Website (www.mcgill.ca gps).

EXTERNAL FELLOWSHIPS AND MCGILL FELLOWSHIPS

Students need not be eligible for funding through an external agency named above in order to apply for a McGill Major Fellowship. However, all applicants for McGill Major funding must, if eligible, have applied to CIHR, SSHRC or NSERC and, if eligible to the Quebec funding agency Fonds Québécois de la Recherche sur la Nature et les Technologies (FQRNT), Fonds Québécois de la
Recherche sur la Société et la Culture (FQRSC) or Fonds de la recherche en santé du Québec (FRSQ).

TRANSCRIPTS AND DEADLINES
To obtain transcripts for larger external award competitions including FQRNT (formerly FCAR), FQRC, FRQSC, NSERC and SSHRC, students must apply to their departmental graduate office several weeks prior to the application deadline. Students should check with their department or the Fellowships and Awards Section about all transcript ordering procedures and deadlines.

Deadlines for graduate and postdoctoral scholarships, fellowships and awards competitions from the Natural Sciences and Engineering Research Council (NSERC), Social Sciences and Humanities Research Council (SSHRC), Canadian Institutes of Health Research (CIHR), Fonds Québécois de la Recherche sur la Nature et les Technologies (FQRNT), Fonds Québécois de la Recherche sur la Société et la Culture (FQRSC), and the Fonds de la recherche en santé du Québec (FRSQ) generally fall in early October. Students should therefore begin planning their external applications as early as August. The applicant is responsible for fulfilling the application requirement and using the forms for the current year. If the application form for the current year is not available in August, the student should nevertheless proceed to draft a proposed plan of study and research and discuss it with two faculty members, who can later serve as referees.

The following alphabetical listing of external fellowships indicates deadlines, application requirements and values as known to the GPSO Fellowships and Awards Section at the time of publication of this Calendar. It is the responsibility of the applicant to contact directly with the agency all application procedures and deadlines. In cases where the GPSO Fellowships and Awards Section maintains an information file on a particular external fellowship, an “OFA” file number has been given. Please refer to this number when requesting information from the Office.

### 4.2 McGill Major Fellowships (for continuing students only)

Each year the Graduate and Postdoctoral Studies Office of McGill University awards McGill Major Fellowships valued at $10,000 to $15,000 per year. Applications for most such fellowships are reviewed by the Graduate Fellowships Committee, while a small number are granted on the basis of departmental and/or faculty nominations. Students who wish to be considered for graduate level funding offered by McGill, should immediately contact the department where they intend to undertake graduate study and/or the GPSO Fellowships and Awards Section in order to ascertain the sources of McGill funding for which they are eligible. Competitions often take place one full year ahead of award tenure, therefore it is advisable to make inquiries well in advance of the date when funding is required. It should be noted that virtually all McGill Graduate awards tenable in a given year are restricted to students who were enrolled in a McGill graduate program during the preceding year.

**Value and Eligibility**

Students already enrolled in Master's or doctoral study at McGill, may apply for a McGill Major Fellowship (valued at $10,000 - $15,000 per year, renewable in some cases), provided they meet the specific eligibility requirements of the year's competition. Details regarding eligibility and specific deadlines and application forms for McGill Major Fellowships are available on the Web at www.mcgill.ca/gps/fellowships and the GPSO Fellowships and Awards Section. Tenure of Major fellowships is restricted to students registered full-time in the Ph.D.2 through to the Ph.D. 5 year.

**Application Deadlines and Forms**

All applications for McGill Major fellowships must be ranked by departments; applications should not be sent directly to the GPSO Fellowships and Awards Section.

For students in the social science and humanities disciplines, the McGill Major Fellowship application deadline coincides with that of the Social Sciences and Humanities Research Council (SSHRC) doctoral fellowships competition (generally early during the month of October). For students in natural science, engineering and medical science disciplines, the deadline usually precedes that of the Canadian Institutes of Health Research (CIHR) Doctoral Awards competition (generally early during the month of October). Forms and instructions are available on the Web at www.mcgill.ca/gps.

**External Fellowships and McGill Major Fellowships**

All applicants for McGill Major funding must, if eligible, have applied to CIHR, SSHRC or NSERC and, if eligible to the Quebec funding agency Fonds Québécois de la Recherche sur la Nature et les technologies (FQRNT), Fonds Québécois de la Recherche sur la Société et la Culture (FQRSC) or Fonds de la recherche en santé du Québec (FRSQ).

Students who are offered both a McGill Major Fellowship and any other external or internal fellowship worth $10,000 or more...
(including fee subsidies) must accept the latter and decline the Major. However, in some cases, students may be eligible for “topping-up” with a partial McGill Major Fellowship.

Announcement of Results
The final results of the McGill Major Fellowships competitions are announced in May by letter. The GPSO Fellowships and Awards Section will not give results over the telephone.

4.6 Exemptions from the International Tuition Supplement

McGill International Doctoral Awards (MIDAs)
As of September 2007, all international Doctoral students registered full-time at McGill will pay the same tuition fees as Quebec Doctoral students. With the new McGill International Doctoral Awards (MIDAs), McGill eliminates a major obstacle in the recruitment and retention of high-quality international Doctoral students.

The Office of the Associate Provost (Graduate Education) is delighted to announce a new award that will eliminate the tuition supplement for all international Doctoral students (PhD/DMus/DCL), effective September 2007. The McGill International Doctoral Award will work along with the existing provincial McGill differential fee waivers and MELS bilateral and special international supplement waivers to exempt all international PhD/DMus/DCL students registered full-time in years 1 to 4 (i.e. PhD1 to PhD4) from the international tuition supplement. (As of PhD5, students are in additional session and not assessed the international supplement.)

International students whose international tuition supplement is paid by an external source (e.g. fellowships that include direct payment of tuition and third party billing contracts) will not be eligible for these awards. Fall and Winter DFWs will work in tandem with this program; summer DFWs will be used for eligible Master’s students.

Internal DFWs
McGill University is allocated a number of Differential Fee Waivers (DFWs) that it allocates through the departments. Summer DFWs are allocated by nomination to eligible Master’s degree students and students newly admitted into a Ph.D. program in the Summer term; Fall and Winter DFWs are automatically allocated to eligible doctoral students as part of the MIDAs program. Eligible students should enquire with their department for information regarding how to apply for these waivers in the Summer term.

External DFWs
Differential fee waivers are also available from a number of external sources, including the Ministère de l’Éducation, du Loisir et du Sport du Québec. Please note that the Quebec government grants differential fee waivers to staff and dependants of consulates, foreign government offices, international governmental organizations, non-governmental organizations, refugees, immigrants with a work permit containing the case type 07, 08, 20, 22, 23 or 26 with the name of an employer and location that is necessarily situated in Quebec, and to those students in MELS-approved inter-university exchanges. For more information on how to qualify for differential fee waivers under these provisions, please see this document: Politique relative aux droits de scolarité exigés des étudiantes et étudiants étrangers par les universités du Québec, available at the MEL Website: www.mels.gouv.qc.ca/ens-sup/ens-univ/droits_scolarite-A.asp.

International degree students in a program where fees are assessed per credit and who register in eligible French language and literature courses are exempt from the international supplement for those courses. Please note that the exemption of differential fees for students registered in French language and literature programs has been abolished.

A certain number of citizens from countries whose governments have entered into agreements on tuition fees with Quebec may be exempted from the supplemental tuition fees normally required of international students.

The exemption is granted in accordance with the applicable agreement on tuition fees and subject to its terms and conditions, which vary depending on each agreement. The exemption is valid for the normal length of the program of studies concerned (for instance, a Master’s degree in Environmental Studies) at a post-secondary institution in Quebec, and is granted one semester at a time. From the first semester for which an exemption is granted at a designated institution until the program is completed, the exemption is renewable on a trimester-by-trimester basis as long as a student earns no fewer than 30 credits per year, complies with the

6 Student Financial Assistance

6.1 Government Student Aid

6.1.1 Citizens and Permanent Residents of Canada
Need-based student financial aid programs are offered by the federal/provincial governments. Applications should be directed directly to the province (or territory) of residence. Application forms are available from the governmental authorities as well as the Student Aid Office. In formation on governmental student aid and links can be found on McGill's Financial Aid Website at www.mcgill.ca/studentaid.

6.1.2 Citizens and Permanent Residents of the United States
McGill University participates in the Federal Family Education Loan Program (FFELP). American students in need of financial assistance may apply for Stafford loans.

All students applying for loans must file a Free Application for Federal Student Aid (FAFSA) to determine financial need. This can be done on-line at www.fafsa.ed.gov. Our school code is G06677. Applicants will need to obtain the necessary PIN number to validate their signature before electronically sending the application to be processed. Follow the steps on the FAFSA Website to obtain the PIN.

The report generated from the FAFSA is called a Student Aid Report (SAR). The SAR is not sent to our school as indicated on the FAFSA Website. However, if you have designated McGill University as a school you may attend, we will be able to retrieve your SAR.

Stafford Loans
Graduate students and students in professional programs may borrow up to the cost of attendance, to a maximum of $18,500 US. $8500 of this amount may be a subsidized loan.

Information from the SAR and any financial aid received from your department and other sources is used to determine how much of the loan will be subsidized (interest free during full time studies) or not subsidized (interest is charged during full time studies).

Students who qualify for the subsidized loan will begin repayment of the principal and interest six months after they cease to be enrolled at least half time. Students receiving unsubsidized loan funds may pay the interest charges while they are in school, with principal deferred, until they cease to be enrolled at least half time; or they can choose to have both the interest and principal deferred until after they cease to be enrolled at least half time.

You must report any financial aid you are receiving (including funding from your department) when you apply for Stafford loans. This information should be submitted in writing to our office.

How to Apply for Stafford Loans
Each year, in addition to filing a FAFSA, a student must sign a Stafford Master Promissory Note (Stafford MPN). The MPN documents a student's choice of guarantor and lender as well as the obligation to repay the loan.

Please note that at the time of printing, the application process for submission of the Stafford and PLUS MPNs is being revised.

New information regarding the use of e-signatures for these documents will be updated on our Website at www.mcgill.ca/studentaid in early spring. E-sign will be available for students who use our preferred guarantor, American Student Assistance (ASA), and Northwest Education Loan Association (NELA).

Students who are residents of Vermont should apply using Vermont Student Assistance Corporation (VSAC) as a guarantor.
Students may order an application package at www.vsac.org. Mail the original MPN to VSAC and the school copy of the MPN to our office. It is not yet possible to apply using e-signatures. If you require further information, you may contact Marcia Vance at:

**8 Exchange and Travelling Fellowships**

Information on funding opportunities for graduate study and research outside of Canada is contained in many of the reference books and directories listed in section 2.2, “Reference Books”.

One of the most comprehensive publications is UNESCO’s “Study Abroad”, available for consultation at the Graduate and Postdoctoral Studies Office, Fellowships and Awards Section, the McLennan Library and many national libraries around the world.

Embassies, consulates and missions of foreign countries located in Canada also are excellent sources of information on funding opportunities for students intending to study abroad. Addresses and telephone numbers of all diplomatic representatives in Canada can be obtained from the Department of External Affairs in Ottawa at (613) 996-4376. For McGill students seeking funding for graduate study outside Canada, the graduate awards offices of foreign universities themselves are often the best source of information. The McLennan Library has a vast collection of foreign university catalogues. The French embassy in Ottawa has a complete Website on France-Canada exchange programs at http://ambafrance-ca.org/HYPERLAB/FFCR under “l'aide-mémoire des échanges scientifiques franco-canadiens”.

McGill University has signed a number of agreements with universities in other countries, many of which include a student exchange component. As a member of the Conference of Rectors and Principals of Quebec Universities (CREPUQ), McGill also participates in a number of student exchange programs with designated universities in the United States and Europe. Further information on such programs may be obtained from the Student Exchange Officer, Admissions, Recruitment and Registrar's Office, James Building Annex, McGill University. Tel: (514) 398-8342.
