Welcome to McGill!
For more than 185 years, McGill has distinguished itself as one of the world’s great public universities, renowned for outstanding students, professors and alumni, for achievement in teaching and research, and for its distinctive international character.

As one of the top 12 universities in the world, McGill’s defining strengths include its unwavering commitment to excellence, and a willingness to be judged by the highest standards. And by these standards, McGill has excelled far beyond any reasonable expectations. We have produced a disproportionate number of Nobel laureates and Rhodes scholars. Olympians, award-winning authors and musicians, astronauts, medical pioneers and world-famous leaders in all walks of life are counted among our alumni — remarkable individuals who have shaped our society and the course of history itself in profound ways.

As students you are at the core of all that we do. Your time at McGill offers more than an excellent education. It is a critical period of personal and intellectual discovery and growth, and one that will help shape your understanding of the world.

By choosing McGill, you are following in the footsteps of almost 200,000 living McGill alumni across the globe and making a commitment to excellence, as they did. And, while a lot is expected of you, McGill gives you the means to succeed. All of McGill’s 21 faculties and professional schools strive to offer the best education possible. By joining the McGill community of scholars, you will experience the University’s vibrant learning environment and active and diverse campus life, which support both academic progress and personal development. You will form lasting friendships with people from around the world.

Today’s social, technological and medical challenges continue to inspire innovative approaches to research, teaching and learning. New cutting-edge facilities provide you with many state-of-the-art classrooms and laboratories. Likewise, McGill’s professors thrive in this environment as they enjoy some of the highest research successes per fulltime professor in Canada, while dedicating themselves as well, to enrich your education with research. Our dedicated administrative and support staff’s primary focus is to ensure that you have the necessary resources to respond effectively to academic challenges and to develop lifelong skills.

McGill University has been synonymous with first-class education and research since it was founded in 1821. We remain committed to your success.

To Graduate Students and Postdoctoral Fellows:

I am extremely pleased to welcome you to McGill University. With over 250 Doctoral and Master's degree programs, McGill is committed to providing world-class graduate education and postdoctoral training in a full range of academic disciplines and professions. The Graduate and Postdoctoral Studies Office (GPSO) works in collaboration with the Faculties and other administrative and academic units to deliver the very highest level of teaching and research across the University. The GPSO is responsible for the admission and registration of graduate students, disbursing graduate fellowships, supporting postdoctoral fellows, and facilitating the graduation process, including the examination of theses.

As a student-centered research institution, McGill places singular importance upon the quality of graduate education and postdoctoral training. As Associate Provost (Graduate Education), as well as Dean of Graduate and Postdoctoral Studies, I work closely with the central administration, Faculties, graduate students, professors, researchers, postdoctoral fellows, and staff to enhance the graduate and postdoctoral experience and provide a supportive, stimulating, and enriching academic environment. We welcome your input in further improving the graduate student experience and encourage you to bring your ideas forward (write to feedback.gps@mcgill.ca).

McGill is ranked as one of Canada’s most intensive research universities and among the world’s top 25. We recognize that these successes come not only from our outstanding faculty members, but also from the quality of our graduate students and postdoctoral fellows - a community into which we are very happy to welcome you.

I invite you to join us in advancing this heritage of excellence at McGill.

2 Graduate Student Financial Support

McGill University is committed to helping graduate students finance their education and offers research students the most competitive and generous funding levels in Quebec. We are doing our utmost to provide you with a dependable income for the duration of your graduate studies, through both fellowships and bursaries. Upon admission to McGill, research students are automatically considered for funding and the details of your personalized support package will be confirmed once you have accepted our offer of admission. This funding comes from a number of sources, which may include McGill graduate fellowships, departmental and faculty awards, stipends from research grants or contracts, teaching and research employment, and, in certain cases, exemptions from tuition and ancillary fees. Course-based and professional Master’s students are eligible for need-based financial support and some internal fellowships and bursaries.

The following information is intended to help you understand and provide detailed information on the various forms of graduate student support available at McGill. If you have any questions regarding graduate student support, the staff of the Fellowships and Awards unit of the Graduate and Postdoctoral Studies Office will be more than happy to help you find the answers.

External Fellowships
Funding from external sources may form an important complement to the funding package offered to you by McGill. In the 2007 funding year, Federal and Quebec government agencies granted over 20 million dollars in direct awards to students pursuing graduate studies at McGill. External Fellowships are available from various sources, including government departments and agencies, foundations and private companies. The value of awards offered by these agencies varies from $15,000 to $35,000 per year, and up to $50,000 for health professionals. These awards are often renewable. The deadlines to apply for the majority of external fellowships fall between October and November for fellowships tenable in September of the following year. To view a list of the agencies offering graduate student funding opportunities and individual application deadlines, please see section 3, “External Fellowships”.

For information on funding opportunities to support graduate study and research outside of Canada, please see section 8, “Exchange and Travelling Fellowships”.

Loans and Bursaries
Loans and/or bursaries are administered by the province in which you are legally resident, and are usually restricted to full-time, Canadian students (although certain categories of Permanent Residents may also be eligible). Most loans are granted exclusively on the basis of financial need. To find out more about the application procedures for government loan programs please see section 6, “Student Financial Assistance” or contact the McGill Student Aid Office at 514-398-6013 or by e-mail at student.aid@mcgill.ca.

2.1 Information for International Students and Fellows

International students on study permits comprise up to twenty-five percent of the graduate student population at McGill University and are integral to maintaining McGill’s standing as a world-class, research intensive institution. McGill is committed to supporting its international students and addressing the unique financial concerns of this group. As an international student you may find yourself in a more difficult financial situation than your domestic peers, given that you are ineligible for certain awards and bursaries available only to Canadian students. To help offset this imbalance, McGill offers a number of tuition differential awards and international fee waivers to certain groups of students. These are available through several different programs.

1. MIDAs: In September 2007 McGill devoted over $2 million in new funding directed at international doctoral students. Through the McGill International Doctoral Awards (MIDAs) program, McGill undertakes to pay the international tuition supplementation on the student’s behalf, so that eligible international students will pay tuition equal to that of Quebec students. All international doctoral students whose tuition is not paid by an external source (such as through a fellowship involving the direct payment of tuition or a third party billing contract) are eligible for this program. No application is necessary and each full-time, eligible student is automatically granted an award that makes up the difference between international and Quebec tuition.

2. McGill is allotted a number of Differential Fee Waivers (DFWs) from the Quebec Government which are allocated by individual departments to Master’s students in the summer term.

3. If you are in a program where your fees are assessed per credit, you may be exempt from the international tuition supplement for certain French language and literature courses.

4. All students from France and a limited number of students from countries party to bilateral agreements with Quebec may be granted exemptions from differential fees. With the exception of French citizens, students must apply to their home country for an exemption concurrent with their application for admission. Please consult section 4.6, “Exemp-
There are a number of funding programs aimed specifically at international students embarking on study in Canada. These include: the Quebec Merit Fellowships for International Doctoral Students (Programme de bourses d'excellence pour étudiants étranger - PBEÉE); the Canadian Commonwealth Scholarship and Fellowship Program; the Government of Canada Awards to Foreign Nationals; the Organization of American States; the Canada-US Fulbright program; and the German Academic Exchange Program (DAAD). Applications for some of these programs must be made through the government of your home country, usually via the Ministry of Education.

Opportunities for employment for international students are now more plentiful than in past years, as immigration officials are authorized to issue work permits for off-campus employment under certain circumstances. For details concerning eligibility and procedure, please consult the International Student Services Website at www.mcgill.ca/internationalstudents/workopportunities. You can find additional information on opportunities for financial assistance available to international graduate students and fellows in the UNESCO publication Study Abroad, available on the Web at www.unesco.org/education/studyingabroad/networking/study.pdf. The Canadian Bureau for International Education (CBIE) also produces a free brochure entitled Destination Education Canada, available at www.destinationeducation.ca. As an international student you will also be pleased to learn that the new Post-Graduation Work Permit Program makes it easier than ever to gain employment in Canada following the completion of your degree. Through this program you can obtain a work permit tenable for three years, with no restriction on the type of employment and no requirement for a job offer or company sponsorship.

2.2 Further Information

There are a number of Web and reference sources available to complement the information contained in this guide:

On the Web
Graduate and Postdoctoral Studies (GPS) at McGill University regularly posts new information concerning graduate funding on our Website at www.mcgill.ca/gps/fellowships. We encourage you to visit this site to find detailed information on fellowship competitions, links to the sites of various funding agencies, and application forms for several McGill fellowships and awards. The Graduate and Postdoctoral Studies Office also publishes a general guide on funding strategies entitled Making Ends Meet, which you can download from www.mcgill.ca/gps/fellowships, under Publications.

McGill University also subscribes to the SPIN database for sources of research funding, which you can access free of charge from any computer on the McGill domain. This database compiles a list of graduate and postdoctoral fellowships, scholarships, awards and prizes. You will find a link to the SPIN database at www.mcgill.ca/gps/fellowships, under Information and Publications.

Reference Sources
We encourage you to consult one or more of the many reference books, materials, Websites and directories on the subject of graduate funding. Many major libraries, including McGill's McLennan Library, house publications listing fellowships and awards for graduate study, including:

The McGill International Doctoral Award will work along with the existing provincial McGill differential fee waivers and MELS bilateral and special international supplement waivers to exempt all international PhD/DMus/DCL students registered full-time in years 1 to 4 (i.e. PhD1 to PhD4) from the international tuition supplement waiver. (Note: The exemption is not given in the third and fourth years if the student is completing a dissertation/nomination procedures: www.mcgill.ca/grad/dissertation.

applicable regulations, registers on a full time basis at least for the fall and winter trimesters and pays the tuition fees on the pre-scribed registration dates.

All French citizens and a limited number of citizens of a country in the list which can be found at www.mels.gouv.qc.ca/ens-sup/ens-univ/droits_scolarite_A_pays-organisations.pdf are eligible for such exemptions.

To apply for an exemption of this type, a student must meet the following conditions: be a citizen of one of the aforementioned countries or governments; be admitted to a program of studies at a post-secondary institution in Québec; be registered on a full-time basis according to the applicable rules at that institution; like any international student, be the holder of a valid passport and residence permit as prescribed by the applicable immigration rules; and, except for French citizens, be recommended for an exemption by the relevant authorities in his or her country-usually the department of education-according to the official procedure described in the next paragraph.

Foreign governments or the bodies that represent them must send, usually through their consulate in Québec or their embassy in Ottawa, to the Direction des affaires étudiantes et de la coopération du Ministère de l'Éducation du Québec, before June the 15 of each year for the next autumn registrations and before November the 15th for the next winter registrations, a list of the candidates that they recommend be exempted from the requirement to pay supplemental tuition fees, joining with it the proof of admission or registration for each new exemption proposed. The Ministère de l'Éducation then establishes, according to the provisions of the agreement, the final list of the persons to benefit from the exemption during the future trimester concerned. At least 4/5 of the exemptions that are really attributed must be for registrations in French speaking institutions.

6 Student Financial Assistance

6.1 Government Student Aid

6.1.1 Citizens and Permanent Residents of Canada

Need-based student financial aid programs are offered by the federal/provincial governments. Applications should be directed directly to the province (or territory) of residence. Application forms are available from the governmental authorities as well as the Student Aid Office. Information on governmental student aid and links can be found on McGill’s Financial Aid Website at www.mcgill.ca/studentaid.

6.1.2 Citizens and Permanent Residents of the United States

McGill University participates in the Federal Family Education Loan Program (FFELP). American students in need of financial assistance may apply for Stafford loans.

All students applying for loans must file a Free Application for Federal Student Aid (FAFSA) to determine financial need. This can be done on-line at www.fafsa.ed.gov. Our school code is G06677. Applicants will need to obtain the necessary PIN number to validate their signature before electronically sending the application to be processed. Follow the steps on the FAFSA Website to obtain the PIN.

The report generated from the FAFSA is called a Student Aid Report (SAR). The SAR is not sent to our school as indicated on the FAFSA Website. However, if you have designated McGill University as a school you may attend, we will be able to retrieve your SAR.

Stafford Loans

Graduate students and students in professional programs may borrow up to the cost of attendance, to a maximum of $18,500 US. $8500 of this amount may be a subsidized loan.

Students who qualify for the subsidized loan will begin repayment of the principal and interest six months after they cease to be enrolled at least half time. Students receiving unsubsidized loan funds may pay the interest charges while they are in school, with principal deferred, until they cease to be enrolled at least half time; or they can choose to have both the interest and principal deferred until after they cease to be enrolled at least half time.

You must report any financial aid you are receiving (including funding from your department) when you apply for Stafford loans. This information should be submitted in writing to our office.

How to Apply for Stafford Loans

Each year, in addition to filing a FAFSA, a student must sign a Stafford Master Promissory Note (Stafford MPN). The MPN documents a student’s choice of guarantor and lender as well as the obligation to repay the loan.

Please note that at the time of printing, the application process for submission of the Stafford and PLUS MPNs is being revised. New information regarding the use of e-signatures for these documents will be updated on our Website at www.mcgill.ca/studentaid in early spring. E-sign will be available for students who use our preferred guarantor, American Student Assistance (ASA), and Northwest Education Loan Association (NELA).

Students who are residents of Vermont should apply using Vermont Student Assistance Corporation (VSAC) as a guarantor. Students may order an application package at www.vsac.org. Mail the original MPN to VSAC and the school copy of the MPN to our office. It is not yet possible to apply using e-signatures. If you require further information, you may contact Marcia Vance at:

8 Exchange and Travelling Fellowships

Information on funding opportunities for graduate study and research outside of Canada is contained in many of the reference books and directories listed in section 2.2, “Further Information”. One of the most comprehensive publications is UNESCO’s “Study Abroad”, available for consultation at the Graduate and Postdoctoral Studies Office, Fellowships and Awards Section, the McLennan Library and many national libraries around the world.

Embassies, consulates and commissions of foreign countries located in Canada also are excellent sources of information on funding opportunities for students intending to study abroad. Addresses and telephone numbers of all diplomatic representatives in Canada can be obtained from the Department of External Affairs in Ottawa at (613) 996-4376. For McGill students seeking funding for graduate study outside Canada, the graduate awards office and many national libraries themselves are often the best source of information. The McLennan Library has a vast collection of foreign university catalogues.
