

Principal's Message

2008-09

Welcome to McGill!

For more than 185 years, McGill has distinguished itself as one of the world's great public universities, renowned for outstanding students, professors and alumni, for achievement in teaching and research, and for its distinctive international character.

As one of the top 12 universities in the world, McGill's defining strengths include its unwavering commitment to excellence, and a willingness to be judged by the highest standards. And by these standards, McGill has excelled far beyond any reasonable expectations. We have produced a disproportionate number of Nobel laureates and Rhodes scholars. Olympians, award-winning authors and musicians, astronauts, medical pioneers and world-famous leaders in all walks of life are counted among our alumni — remarkable individuals who have shaped our society and the course of history itself in profound ways.

As students you are at the core of all that we do. Your time at McGill offers more than an excellent education. It is a critical period of personal and intellectual discovery and growth, and one that will help shape your understanding of the world.

By choosing McGill, you are following in the footsteps of almost 200,000 living McGill alumni across the globe and making a commitment to excellence, as they did. And, while a lot is expected of you, McGill gives you the means to succeed. All of McGill's 21 faculties and professional schools strive to offer the best education possible. By joining the McGill community of scholars, you will experience the University's vibrant learning environment and active and diverse campus life, which support both academic progress and personal development. You will form lasting friendships with people from around the world.

Today's social, technological and medical challenges continue to inspire innovative approaches to research, teaching and learning. New cutting-edge facilities provide you with many state-of-the-art classrooms and laboratories. Likewise, McGill's professors thrive in this environment as they enjoy some of the highest research successes per fulltime professor in Canada, while dedicating themselves as well, to enrich your education with research. Our dedicated administrative and support staff's primary focus is to ensure that you have the necessary resources to respond effectively to academic challenges and to develop lifelong skills.

McGill University has been synonymous with first-class education and research since it was founded in 1821. We remain committed to your success.

A handwritten signature in black ink, which appears to read "H. Blum". The signature is fluid and cursive, written over a white background.

Professor Heather Munroe-Blum
Principal and Vice-Chancellor

How to Read This Calendar

This calendar is comprised of the following sections:

- **Calendar of Dates** - Official university calendar of key dates, such as registration, start of lectures, exam periods and various other deadlines.
- **General University Information and Regulations** - University regulations and policies, applicable to all students.
- **Advising and Support** - Information about Advising, Student Services, Residential Facilities, Athletics, Information Technology Resources, and Resources for Study and Research.
- **Program Information** - Generally organized by faculty, and by departments within each faculty, these sections contain faculty-specific regulations, as well as program and degree requirements.
- **Field Studies and Study Abroad Opportunities** - Information about various opportunities for studying outside of McGill, while registered at McGill.
- **Course Information (Appendix, yellow-coloured pages)** - Organized alphabetically within each faculty and containing course numbers, titles, credit weights, descriptions, prerequisites and additional course information.

For prospective students, counsellors, and academic advisers, this calendar highlights the myriad of programs and courses offered at McGill.

If you are a newly admitted or current McGill student, this calendar is your official guide to program and degree information, along with faculty-specific and university-wide rules and regulations that you will need to consult throughout your academic career at McGill.

YOUR ACADEMIC CAREER AT MCGILL

Regulations

This calendar contains the regulations about your undergraduate academic career at McGill.

Regulations concerning when to register, when you can add or drop courses, the consequences of missing deadlines, how grading appears on your transcript, and other important pieces of information can be found in the [section 3 "General University Information and Regulations"](#).

You should also consult the appropriate section of the calendar for faculty-specific regulations that may not be covered in the [section 3 "General University Information and Regulations"](#).

When you are admitted to McGill, your offer letter indicates the degree and program to which you have been accepted, and the number of credits you need to complete for your degree. McGill has 11 faculties, and every student usually belongs to one of these faculties. For some degrees, such as the B.A. & Sc., you belong to two faculties and will need to consult the section on the Bachelor of Arts and Science as well as the sections on each of the two faculties. This calendar applies to undergraduate programs in the following faculties: Agricultural and Environmental Sciences, Arts, Education, Engineering, Desautels Faculty of Management, Religious Studies, Schulich School of Music, and Science.

For Medicine (including Nursing, and Physical and Occupational Therapy), please consult the Health Science calendar.

Your Academic Program

You are registered in a **degree**, but for many degrees there are associated programs (a major, minor, major concentration, etc.). For some degrees, such as the Bachelor of Engineering, you will typically follow one program (such as Computer Engineering). For others, such as the Bachelor of Arts, you will typically follow more than one program (such as a major concentration in English, with a minor concentration in History).

A typical undergraduate degree at McGill is 120-140 credits (four years of study).

- Quebec CEGEP students typically receive 30 credits of advanced standing, so they will usually only have a further 90-110 credits (three years of study) to complete. This can vary by faculty, so consult your faculty section. In your first year, you will be placed in **U1** (undergraduate year 1).
- Most other students typically have 120-140 credits to complete. This can vary by faculty, so consult your faculty section. In your first year, you will be placed in U0 (undergraduate year 0), which is often referred to in documentation, in this calendar and in other places on campus, as your **freshman** year.
- Many students at McGill come with other forms of advanced standing (International Baccalaureate, French Baccalaureate, advanced placement exams, or students admitted from other universities as transfer students). You will receive information during the admissions process.

You will find **program requirements** in your faculty section or in departmental sections within your faculty. In some cases, you may pursue one of your programs in a department that is outside the faculty to which you belong. For example, if you are enrolled in the Bachelor of Commerce degree, but are pursuing a minor concentration in Italian Civilization, you would consult the Desautels Faculty of Management section for the BCom requirements and the Italian Studies department section, under the Faculty of Arts, for the Italian Civilization program requirements.

Things you need to know about your academic program:

- The number of credits needed to complete your degree. Typically, three credits correspond to a one-term course, but there are many variations.
- **Required courses:** courses that must be completed to fulfill the requirements of a major, minor, etc., unless the student receives exemptions. Students have no choices among required courses.
- **Complementary courses:** A set of alternative courses that can be taken to fulfill the requirements of a major, minor, etc. Students choose a specified number of courses from the set.
- **Elective courses:** Courses that do not count toward the fulfillment of the requirements of a major, minor, etc. They are often, but need not be, selected from outside a student's program of study. Some restrictions may apply, but students have the most choice in selecting elective courses. Some faculties also permit students to take elective courses using the satisfactory/unsatisfactory option. Consult your faculty regulations concerning elective courses.
- Often, the department will also provide you with a **recommended list** of courses (or streams), so that you know the typical term-by-term course pattern.

For more assistance in understanding program requirements, and for a list of advisers on campus, please see the Undergraduate Advising, [section 4.1.4 "Contact Information for Advising"](#).

INDEX OF UNDERGRADUATE PROGRAMS

A

Aboriginal Education for Certified Teachers (Certificate in Education)	219
Aboriginal Literacy Education (Certificate in Education)	217
Accounting (B.Com.)	270
African Studies (B.A.)	87
Agricultural Economics	
Agribusiness (B.Sc. (Ag.Env.Sc.))	406
Agricultural Economics (B.Sc. (Ag.Env.Sc.))	406
Agricultural Production (B.Sc. (Ag.Env.Sc.) - Minor)	411
Agricultural Sciences	
Agricultural Biotechnology (B.Sc. (Ag.Env.Sc.))	413
Ecological Agriculture (B.Sc. (Ag.Env.Sc.))	414
General Option (B.Sc.(Ag.Env.Sc.))	412
International Agriculture (B.Sc. (Ag.Env.Sc.))	414
Soil Science (B.Sc. (Ag.Env.Sc.))	414
Agricultural Sciences Internship	
Agricultural Biotechnology (B.Sc. (Ag.Env.Sc.))	413
Ecological Agriculture (B.Sc. (Ag.Env.Sc.))	413
General Option (B.Sc. (Ag.Env.Sc.))	413
International Agriculture (B.Sc. (Ag.Env.Sc.))	414
Soil Sciences (B.Sc. (Ag.Env.Sc.))	415
Agricultural, Ecological (B.Sc. (Ag.Env.Sc.))	412
Animal Biology (B.Sc. (Ag.Env.Sc.))	400
Animal Science (B.Sc. (Ag.Env.Sc.))	400
Anthropology (B.A.)	88
Architecture (B.Sc. (Arch.))	233
Art History (B.A.)	91
Arts (B. Eng. Minor)	249
Atmospheric Science (B.Sc.)	339
Atmospheric Science and Physics (B.Sc.)	339

B

Behavioural Science (B.A. - Minor)	158
Biochemistry (B.Sc.)	341
Biology	
Cell/Molecular (B.A. & Sc.)	191
Organismal (B.A. & Sc.)	192
Biology (B.Sc.)	343
Biology (Cell/Molecular Option) with Chemistry for Teachers (B.Sc./B.Ed.)	390
Biology (Cell/Molecular Option) with Physics for Teachers (B.Sc./B.Ed.)	390
Biology (Organismal Option) with Chemistry for Teachers (B.Sc./B.Ed.)	390
Biology (Organismal Option) with Physics for Teachers (B.Sc./B.Ed.)	390
Biology, Environmental (B.Sc. (Ag.Env.Sc.))	408
Biology, Wildlife (B.Sc. (Ag.Env.Sc.))	409
Biomedical Engineering (B.Eng. - Minor)	249
Biomedical Sciences (B.A. & Sc.)	193
Bioresource Engineering (B.Eng.(Bioresource))	401
Biotechnology (Agricultural and Environmental Sciences) (B.Sc.(Ag.Env.Sc.))	413
Biotechnology (B.Eng. - Minor)	250
Biotechnology (B.Sc.- Minor)	348
Botanical Science	
Ecology (B.Sc. (Ag.Env.Sc.))	410
Molecular (B.Sc. (Ag.Env.Sc.))	410

C

Canadian Ethnic Studies (B.A. - Minor)	93
Canadian Studies (B.A.)	94
Catholic Studies (B.A.- Minor)	96
Chemical Engineering (B.Sc. - Minor)	352
Chemistry	
Atmosphere and Environment (B.Sc.)	351
Bio-organic Option (B.Sc.)	351
Materials Option (B.Sc.)	351
Chemistry (B.A. & Sc.)	193
Chemistry (B.Eng - Minor)	251
Chemistry (B.Sc.)	348
Chemistry with Biology for Teachers (B.Sc./B.Ed.)	390
Chemistry with Physics for Teachers (B.Sc./B.Ed.)	390
Classics (B.A.)	97

Cognitive Science (B.A. & Sc.)	194, 195
Cognitive Science (B.Sc. - Minor)	352
Composition (B.Mus.)	293
Computational Molecular Biology (B.Sc. - Minor)	354
Computer Science (B.A. - Minor)	99
Computer Science (B.Eng - Minor)	251
Computer Science (B.Sc.)	353

D

Dietetics (B.Sc.(Nutr.Sc.))	402
---------------------------------------	-----

E

Earth and Planetary Sciences (B.Sc.)	356
Earth Sciences (B.Sc.)	359
Earth Sciences and Economics (B.Sc.)	440
Earth, Atmosphere and Ocean Sciences (B.A. & Sc.)	195
East Asian Cultural Studies (B.A. - Minor)	101
East Asian Language And Literature (B.A. - Minor)	100
East Asian Studies (B.A.)	100
East Asian Studies, Advanced (B.A. - Minor)	102
Ecological Agriculture (B.Sc.(Ag.Env.Sc.) - Minor)	411
Economics (B.A.)	105
Economics (B.Com.)	270
Economics (B.Eng. - Minor)	252
Economics and Accounting (B.Com.)	273
Economics and Finance (B.Com.)	274
Education (Concurrent B.Ed./B.Mus.)	210
Education (Concurrent B.Sc./B.Ed.)	212
Education for Arts Students (B.A - Minor)	107
Education for Science Students (B.Sc. - Minor)	389
Education, Kindergarten and Elementary (B.Ed.)	212
Education, Physical and Health (B.Ed.)	220
Education, Secondary (B.Ed.)	210
Education, Teaching English as a Second Language (B.Ed.)	215
Education, Teaching French as a Second Language (B.Ed.)	214
Educational Psychology (B.A - Minor)	107
Electrical Engineering (B.Sc. - Minor)	382
Engineering, Bioresource (B.Eng.(Bioresource))	401
Engineering, Chemical (B.Eng.)	234
Engineering, Civil (B.Eng.)	237
Engineering, Computer (B.Eng.)	241
Engineering, Construction and Management - (B.Eng. - Minor)	252
Engineering, Electrical (B.Eng.)	238
Engineering, Environmental (B.Sc.(Ag.Env.Sc.))	402
Engineering, Mechanical	
Aeronautical Engineering (B.Eng.)	245
Design (B.Eng.)	246
Mechatronics (B.Eng.)	246
Engineering, Mechanical (B.Eng.)	243
Engineering, Mining (B.Eng.)	247
Engineering, Software (B.S.E.)	242
Engineering, Software (B.Sc.)	355
English	
Cultural Studies (B.A.)	109
Drama and Theatre (B.A.)	109
Literature (B.A.)	109
Entrepreneurship (B.Sc.(Ag.Env.Sc.) - Minor)	407
Environment (B.A. & Sc.)	428
Environment (B.A.)	424
Ecological Determinants of Health in Society (B.A.)	425
Economics and the Earth's Environment (B.A.)	426
Environment and Development (B.A.)	427
Environment (B.Sc.(Ag.Env.Sc.))	428
Biodiversity and Conservation (B.Sc.(Ag.Env.Sc.))	430
Ecological Determinants of Health - Cellular (B.Sc.(Ag.Env.Sc.)	431
Ecological Determinants of Health - Population (B.Sc.(Ag.Env.Sc.)	432
Environmetrics (B.Sc.(Ag.Env.Sc.))	433
Food Production and Environment (B.Sc.(Ag.Env.Sc.))	434
Land Surface Processes and Environmental Change	

(B.Sc.(Ag.Env.Sc.)) 435
 Renewable Resource Management (B.Sc.(Ag.Env.Sc.))
 436
 Water Environments and Ecosystems - Biological
 (B.Sc.(Ag.Env.Sc.)) 438
 Water Environments and Ecosystems - Physical
 (B.Sc.(Ag.Env.Sc.)) 438
 Environment (B.Sc.) 428
 Atmospheric Environment and Air Quality (B.Sc.) . . 439
 Biodiversity and Conservation (B.Sc.) 430
 Earth Sciences and Economics (B.Sc.) 440
 Ecological Determinants of Health - Cellular (B.Sc.) . .
 431
 Ecological Determinants of Health - Population (B.Sc.)
 432
 Environmetrics (B.Sc.) 433
 Food Production and Environment (B.Sc.) 434
 Land Surface Processes and Environmental Change
 (B.Sc.) 435
 Renewable Resource Management (B.Sc.) 436
 Water Environments and Ecosystems - Biological
 (B.Sc.) 438
 Water Environments and Ecosystems - Physical (B.Sc.)
 438
 Environment (Minor) 423
 Environmental Engineering (B.Sc.(Ag.Env.Sc.) - Minor) . 402

F
 Finance (B.Com.) 271
 First Nations and Inuit (Certificate in Education) . . . 216
 First Nations and Inuit (Elementary Education) B.Ed. for
 Certified Teachers 218
 First Nations and Inuit Educational Leadership (Certificate in
 Education) 218
 Food Science (B.Sc.(F.Sc.)) 405
 Food Chemistry (B.Sc.(F.Sc.)) 405
 Food Industry (B.Sc.(F.Sc.)) 405
 Food Science (B.Sc.(F.Sc.)) 405
 French (see Langue et littérature françaises) (B.A.) . . . 112

G
 Geochemistry (B.Sc. - Minor) 357
 Geographic Information Systems (B.A. - Minor) 116
 Geographical Information Systems (B.Sc. - Minor) 361
 Geography
 Physical Geography (B.A. & Sc.) 196
 Urban Systems (B.A.) 116
 Geography (B.A.) 116
 Geography (B.Sc.) 362
 Geography (Minor) [Science] 361
 German Language and Literature (B.A.) 120
 German Literature and Culture (B.A.) 121
 German Literature and Culture in Translation (B.A. - Minor).
 119
 German Studies (B.A.) 119
 German Studies, Contemporary (B.A.) 120

H
 Hispanic Languages (B.A.) 123
 Hispanic Literature and Culture (B.A.) 123
 Hispanic Studies (B.A.) 122
 History (B.A.) 124
 History and Philosophy of Science (B.A. - Minor) 126
 Human Nutrition (B.Sc.(Ag.Env.Sc.) - Minor) 404
 Humanistic Studies (B.A.) 127

I
 Immunology (B.Sc.) 363
 Industrial Relations (B.A.) 127
 Information Systems (B.Com.) 271
 International Development Studies (B.A.) 128
 International Relations (B.A. - Minor) 154
 Italian Civilization (B.A.) 131
 Italian Language and Literature (B.A.) 131
 Italian Studies (B.A.) 130

J
 Jewish Law (B.A. - Minor) 132
 Jewish Studies (B.A.) 132

K
 Kinesiology (B.Sc.(Kinesiology)) 221
 Kinesiology for Science Students (B.Sc. - Minor) 365

Erratum: Calendar of Dates

Holiday schedule changes

The normal Tuesday schedule of course activities is cancelled for December 2, 2008. In its place, all lectures, labs, conferences and other course-related activities that are normally held on Mondays will be held on Tuesday, December 2, 2008 as well. This change in schedule is to make up for activities that are cancelled on Monday, October 13 due to Thanksgiving Day.

The normal Tuesday schedule of course activities is cancelled for April 14, 2009. In its place, all lectures, labs, conferences and other course-related activities that are normally held on Fridays will be held on Tuesday April 14, 2009 as well. This change in schedule is to make up for activities that are cancelled on Friday April 10, 2009 due to the Easter holiday.

1 Calendar of Dates 2008-09

The complete Calendar of Dates is available on the Web at www.mcgill.ca/student-records. The excerpt published herein was accurate as of February 2008. The information is subject to change and users are advised to verify important dates by checking the Web. Key dates for the faculties and schools included in this Calendar are given below. Unless otherwise specified, dates given for faculties apply to any schools therein.

- Agricultural and Environmental Sciences, including School of Dietetics and Human Nutrition and McGill School of Environment students registered in A&ES
- Arts, including School of Social Work, and McGill School of Environment students registered in Arts
- Education
- Engineering, including School of Architecture
- Desautels Faculty of Management
- Schulich School of Music
- Religious Studies
- Science, including School of Computer Science and McGill School of Environment students registered in Science

FACULTY / SCHOOL LEGENDS			
A&ES	Agricultural and Environmental Sciences	MSW	Master in Social Work
ARCH	Architecture	MUS	Schulich School of Music
ART	Arts	NURS	Nursing
BSW	Bachelor of Social Work	P&OT	Physical and Occupational Therapy
CE	Continuing Education	PHD	Doctor of Philosophy
DENT	Dentistry	POSTDOC	Postdoctoral Scholars
D & HN	Dietetics and Human Nutrition	REL	Religious Studies
EDUC	Education	SCI	Science
ENG	Engineering	ALL	All students
FMT	Farm Management Technology	NEW	New students
GRAD	Graduate Studies	RET	Returning students
LAW	Law	SPECIAL	Special Students (Summer Term only)
MED	Medicine	VISITING	Visiting Students (Summer Term only)
MGMT	Desautels Faculty of Management	→	Read Activity column for details

ACTIVITY CODE LEGENDS			
ADV	Academic Advising	LEC	Lecture
APP	Application	MTG	Meeting
APPGRAD	Apply to graduate on Minerva	NOTE	Note to students
AUD	Audition	ORIENT	Orientation
AWRD	Awards (including scholarships)	PLEXAM	Placement exam—application and examination
CONV	Convocation	PREXAM	Practical exam—application and examination
DEF	Deferred—application and examination	READ	Readmission
EXAMS	Examinations	REG	Registration
EXCH	Exchange and Study Abroad Deadlines	STAGE	Field practice, etc.
EVENT	Event—reunion, carnival, presentation, etc.	SUPP	Supplemental—application and examination
FORM	Forms	THES	Thesis
HOLIDAY	Holiday	VERIF	Verification Period
IFT	Inter-faculty transfer	W	Course withdrawal
INFO	Information	W--	University withdrawal

CALENDAR OF DATES

DATE	ACTIVITY CODE	FACULTY/SCHOOL	ACTIVITY
March 2008			
Mar. 1, Sat.	APP	ALL	Deadline for application for all applicants studying, or who last studied, in a CEGEP in Quebec (except applicants to Music).
Mar. 1, Sat.	APP	GRAD	Deadline for application for September admission to most departments in the GPSO. (Many departments have earlier deadlines. Please verify with the individual department or on the Web at www.mcgill.ca/applying/graduate).
Mar. 1, Sat.	APP	MED	Deadline for application to Med-P Program for Quebec residents.
Mar. 1, Sat.	APP	DENT	Deadline for application to Dentistry for all CEGEP applicants.
Mar. 1, Sat.	APP	REL	Deadline for application for Summer admission to Faculty of Religious Studies B.Th. program.
Mar. 1, Sat.	READ	MUS	Deadline for application for readmission to the Schulich School of Music for Fall term 2008.
Mar. 1, Sat.	EXCH	GRAD	Deadline for incoming exchange applications at the graduate level Fall term (September) start and Winter term (January) start. (Many departments have earlier deadlines. Please verify with individual department or at www.mcgill.ca/applying/graduate).
Mar. 1, Sat.	SUPP	—→	Application deadline for supplemental examinations in Fall term courses and N1/N2 courses from the Fall term 2007 for Arts, Education, Law, Nursing, Religious Studies, Science and Social Work (not available for Agricultural and Environmental Sciences, Engineering [except freshman U0 courses] or Management courses).
Mar. 3, Mon.	APP	LAW	Deadline for application for admission to Law for students applying from a Quebec CEGEP, from French Baccalaureate Programmes and for Law Visiting Applicants.
Mar. 5, Wed.	APPGRAD	—→	Deadline to apply to graduate on Minerva for all Undergraduate students and Graduate students in all non-thesis programs (certificates, diplomas, master's non-thesis) who expect to complete their program requirements at the end of the Winter 2008 term (Spring 2008 convocation).
Mar. 6, Thurs.	REG	—→	Summer Term registration opens for Undergraduate students entering U3/U4 year; Continuing Education returning students; and Graduate students. Undergraduate students should refer to the Summer course calendar for all Management course priority registration dates. Graduate students should confirm dates with individual departments.
Mar. 6, Thurs.	REG	LAW	Summer Term registration opens for Law Undergraduate students.
Mar. 11, Tues. to Mar. 13, Thurs.	ADV	MUS	Distribution of registration information for returning students in the lobby of the Strathcona Music Building.
Mar. 11, Tues.	REG	—→	Summer Term registration opens for all Undergraduate students and Continuing Education newly-admitted and Special Students. Undergraduate students should refer to the Summer course calendar for all Management course priority registration dates.
Mar. 13, Thurs.	REG	—→	Summer Undergraduate Management courses open to all McGill students and Special and Visiting Students.
TBA	ADV	P&OT	Registration counselling in Physical and Occupational Therapy for returning students.
TBA	ADV	NURS	Academic advising for U2 Bachelor of Science (Nursing) students entering U3. Academic advising for B.N. Integrated Program for new students and for U3 students.
Mar. 14, Fri.	EXAM	A&ES	Deadline to report all exam conflicts to the Student Affairs Office (Laird Hall, Room 106) for Winter term exams.
Mar. 15, Sat.	REG	NURS	Registration deadline for Summer NUR1 clinical courses to guarantee placement.
Mar. 17, Mon.	NOTE	—→	Class schedule on Minerva is available for Fall 2008 and Winter 2009 registration.
Mar. 17, Mon.	ADV	ART/SCI/BSW	Departmental academic advising begins for returning students in Arts, B.A. & Sc., Science and Social Work.
Mar. 17, Mon.	ADV	A&ES/FMT	Academic advising begins for all returning undergraduate and Farm Management and Technology students in the Faculty of Agricultural and Environmental Sciences.
Mar. 17, Mon. & Mar. 18, Tues.	ADV	ENG	Distribution of all registration information for returning Engineering students in the Student Affairs Office, Engineering Student Centre, Frank Dawson Adams Building, Suite 22.
Mar. 17, Mon. to Mar. 20, Fri.	ADV	MGMT	Distribution of all registration information for returning Management students.
Mar. 17, Mon. to Mar. 20, Thurs.	ADV	EDUC	Academic advising and distribution of material for returning students in Education. Please consult the Student Affairs Website at www.mcgill.ca/edu-sao for details.
Mar. 17, Mon. to Apr. 11, Fri.	ADV	MUS	Academic advising for returning students in Music. Appointments to be arranged by individual departments.
Mar. 17, Mon. to Apr. 13, Sun.	INFO	—→	Online course evaluation period for Winter term: Evaluations available for completion on Mercury through Minerva.

DATE	ACTIVITY CODE	FACULTY/SCHOOL	ACTIVITY
Mar. 20, Thurs.	NOTE	—→	The normal Thursday schedule of course activities is cancelled for March 20. In its place, all lectures, labs, conferences and other course-related activities that are cancelled on Monday, March 24 because of Easter Monday will be held on Thursday, March 20.
Mar. 21, Fri. to Mar. 24, Mon.	HOLIDAY	—→	EASTER. No classes or exams. Administrative offices closed. Library hours to be announced.

2.1 History

The Hon. James McGill, a leading merchant and prominent citizen of Montreal, who died in 1813, bequeathed an estate of 46 acres called Burnside Place together with £10,000 to the "Royal Institution for the Advancement of Learning" upon condition that the latter erect "upon the said tract or parcel of land, an University or College, for the purpose of education and the advancement of learning in this Province"; and further upon condition that "one of the Colleges to be comprised in the said University shall be named and perpetually be known and distinguished by the appellation of 'McGill College'."

At the time of James McGill's death, the Royal Institution, although authorized by law in 1801, had not been created, but was duly instituted in 1819. In 1821 it obtained a Royal Charter for a university to be called McGill College. Further delay was occasioned by litigation, and the Burnside estate was not acquired until March 1829. The Montreal Medical Institution, which had begun medical lectures at the Montreal General Hospital in 1822, was accepted by the College as its Faculty of Medicine in June 1829. After further litigation, the College received the financial endowment in 1835 and the Arts Building and Dawson Hall were erected. The Faculty of Arts opened its doors in 1843.

Progress, however, was slow until the 1821 Charter was amended in 1852 to constitute the members of the Royal Institution as the Governors of McGill College. Since that time the two bodies have been one. It was first called "The University of McGill College" but in 1885 the Governors adopted the name "McGill University." Even after the amended charter was granted, little advance was made until 1855 when William Dawson was appointed Principal. When he retired 38 years later, McGill had over 1,000 students and Molson Hall (at the west end of the Arts Building), the Redpath Museum, the Redpath Library, the Macdonald Buildings for Engineering and Physics, and a fine suite of medical buildings had been erected.

Since then the University has continued to grow vigorously. In 1884 the first women students were admitted and in 1899 the Royal Victoria College was opened, a gift of Lord Strathcona, to provide separate teaching and residential facilities for women students. Gradually, however, classes for men and women were merged.

In 1905 Sir William Macdonald established Macdonald College at Sainte-Anne-de-Bellevue, as a residential college for Agriculture, Household Science, and the School for Teachers. Those components have since become the Faculty of Agricultural and Environmental Sciences, which includes the School of Dietetics and Human Nutrition, on the Macdonald Campus, and the Faculty of Education, located on the downtown campus. The University's general development has been greatly facilitated by the generosity of many benefactors, and particularly by the support of its graduates, as regular public funding for general and capital expenditures did not become available until the early 1950s. Since that

time government grants have become a major factor in the University's financial operations, but it still relies on private support and private donors in its pursuit of excellence in teaching and research.

The University now comprises 11 faculties and 10 schools. At present over 32,000 students are taking credit courses; one in four is registered in Graduate Studies.

The University is also active in providing courses and programs to the community through the Centre for Continuing Education.

2.2 Incorporated and Affiliated Colleges

INCORPORATED COLLEGE

Royal Victoria College

3425 University Street, Montreal, QC H3A 2A8

The Royal Victoria College, a non-teaching college of McGill University, provides residential accommodation for women students.

AFFILIATED THEOLOGICAL COLLEGES

Montreal Diocesan Theological College

3473 University Street, Montreal, QC H3A 2A8

Principal: J. M. Simons; B.A.(Bishop's), S.T.B.
(Trinity, Toronto), Ph.D.(Georgetown)

Presbyterian College of Montreal

3495 University Street, Montreal, QC H3A 2A8

Principal: J. Vissers; B.A.(Tor.), M.Div.(Knox, Toronto),
Th.M.(Princeton), Th.D.(Knox, Toronto)

United Theological College of Montreal

3521 University Street, Montreal, QC H3A 2A9

Principal: P. Joudrey; B.A., M.Div.(Acadia),
D.Min.(Andover Newton)

The above three colleges train students for the ministry and grant certificates for ordination but they have remitted their degree-granting powers, except with respect to the M.Div. and honorary doctorates, to the University.

2.3 University Government

McGill University is a corporation created by a Royal Charter granted by the Crown of the United Kingdom, a general supervisory power being retained by the Crown and exercised through the Governor General as Visitor.

The Governors of the University constitute the Royal Institution for the Advancement of Learning, a corporation existing under the laws of the Province of Quebec. In them is vested the management of finances, the appointment of professors, and other duties. Twelve of the governors are elected by the Board from amongst those nominated by its membership committee; three are elected by the Alumni Association; two are elected by Senate from amongst its members; two elected by the full-time administrative and support staff from amongst its members; two elected by the full-time academic staff; and two elected by students from amongst the student body. The Board elects the Chancellor of the University and also, from amongst its members, a chair to preside at its meetings, who may also be the Chancellor. The Chancellor and the Principal are ex officio members.

The Chancellor is presiding officer of Convocation and of joint sessions of the Board of Governors and the Senate.

The Chair of the Board of Governors is President of the Royal Institution for the Advancement of Learning.

The Principal and Vice-Chancellor is the chief executive officer of the University, appointed by the Board of Governors after consultation with a Statutory Committee to Nominate a Principal. The Principal is, ex officio, Chair of Senate.

The Senate is the highest academic authority of the University and has control over admission, courses of study, discipline, and degrees. The regulations of Senate are executed

by the various faculties and schools, which also carry primary responsibility for the educational work of the University.

2.4 Recognition of Degrees

The Royal Institution for the Advancement of Learning (McGill University) is a publicly funded institution and holds a Royal Charter dated 1821 (amended in 1852) as well as being incorporated under the laws of the Province of Quebec.

McGill University was a founding member of the organization which evolved into the current Association of Universities and Colleges of Canada (A.U.C.C.) in which it remains very active. In addition, McGill University is a member of the American Association of Universities (A.A.U.). It is also a member of the Association of Commonwealth Universities and the International Association of Universities. Its undergraduate, professional and graduate degrees, including doctorates in a full range of disciplines, have been recognized by educational, government and private organizations worldwide for decades.

All of McGill's degree programs are approved by the Quebec Ministère de l'Éducation, du Loisir et du Sport (MELS) and the Conférence des recteurs et des principaux des universités du Québec (CREPUQ).

2.5 Governance

2.5.1 Board of Governors

(As of January 2008)

VISITOR

The Governor General of Canada

Her Excellency The Right Honourable Michaëlle Jean

BOARD OF GOVERNORS

Robert Rabinovitch; B.Com.(McG.), M.A., Ph.D.(Penn.)
Chair of the Board of Governors

Richard W. Pound; O.C., O.Q., Q.C., C.A., B.Com.(McG.),
B.A.(Sir G.Wms.), B.C.L.(McG.)
Chancellor

Heather Munroe-Blum; O.C., B.A., B.S.W.(McM.), M.S.W.
(W. Laur.), Ph.D.(N. Carolina)
Principal and Vice-Chancellor

Members

Roshi Chadha
Stuart (Kip) Cobbett; B.A., B.C.L.(McG.)
Lili de Grandpré; B.A.(Western), M.B.A.(McG.)

Libraries

2.7 Student Governance

All students registered in an undergraduate program on the downtown (McGill) campus are registered members of the accredited Students' Society of McGill University, affectionately known as SSMU (Sm OOO). SSMU acts as your representation on key issues inside and outside of the campus. There are six elected members of the SSMU who represent all 18,000 plus students on the downtown campus. There is a legislative council which meets twice a month that is comprised of a councillor from all faculty associations. This council of thirty-five members meets to discuss SSMU business.

Each faculty and each department also have organizations dedicated to providing extra curricular involvement for their students.

The SSMU runs over 150 clubs and fourteen services and provides a great deal of extra curricular opportunities for students to balance a life of study with a life of play and also an opportunity to meet other students.

Situated on the downtown campus, the SSMU operates a five-floor building including an international lounge, cafeteria, reading room, club office space and a campus multipurpose venue.

The SSMU offices are located at 3600 McTavish Street, suite 1200 and operate between the hours of 9:00 a.m. to 5:00 p.m. during the year and 10:00 a.m. to 4:00 p.m. in the summer.

3.1 General Policies and Information

3.1.1 Authorization, Acknowledgement and Consent

When applying for admission to the University, all students acknowledge that they are bound by and undertake to observe the statutes, rules, regulations, and policies in place from time to time at McGill University and the faculty or faculties in which they are registered, including those policies contained in the University Calendars and related fee documents. Their obligation as a student commences with their registration and terminates in accordance with the University's statutes, regulations, and policies.

Students should verify any information or statement provided as part of their application, realizing that an admission granted based on information in their application or supporting documents that is incorrect or untrue may be revoked at the sole discretion of the University.

3.1.2 Student Rights and Responsibilities

The *Handbook on Student Rights and Responsibilities* is published jointly by the Office of the Dean of Students and the University Secretariat. A compendium of regulations and policies governing student rights and responsibilities at McGill, it is distributed to new students at the Dean of Students' Orientation Sessions on both downtown and Macdonald campuses.

The Handbook is also available on the Web at www.mcgill.ca/deanofstudents/rights.

3.1.3 Language Policy

The main language of instruction at McGill is English. Every student has a right to write essays, examinations, and theses in English or in French except in courses where knowledge of a language is one of the objectives of the course.

It is recommended that students who lack proficiency in English avail themselves of the opportunity to take an intensive English as a second language course prior to, or early in, their program of studies. Information concerning second language course offerings can be found in the Faculty of Arts section of this Calendar and in the Summer Studies and Continuing Education Calendars. There are special language requirements for Faculty of Education students; please see Faculty of Education [section 7.2.1, "Undergraduate Education Programs"](#).

3.1.4 Policy Concerning Access to Records

Statements of account and all other correspondence are sent directly to students who retain full control as to who has access to their records or accounts. (Officers and members of the University staff may also have access to relevant parts of such records for recognized and legitimate use.) No progress report or any other information is sent to parents and/or sponsors unless specifically requested by the student in writing.

In accordance with the Act Respecting Access to Documents held by Public Bodies and the Protection of Personal Information (the "Access Act") personal information, including transcripts of academic records, may be released only with the authorization of the student. When a student applies to McGill, he/she authorizes the University to release certain personal information (name, address, telephone number, e-mail address, date of birth, program and student status) to the persons and bodies listed below.

The following persons and bodies are included in the authorization:

- libraries of other Quebec universities with which McGill established reciprocal borrowing agreement (ID number and bar code may also be disclosed to such libraries)
- the Quebec Ministère de l'Éducation, du Loisir et du Sport (MELS), in order to create, validate and/or modify the student's Permanent Code

- the appropriate authorities involved with the external or internal funding of the student's fees (financial records may also be disclosed to such authorities)
- the Association of Universities and Colleges of Canada
- the Association of Registrars of Universities and Colleges of Canada and the Conférence des recteurs et des principaux des universités du Québec, or the member institutions of these organizations, for the purpose of admissions operations and the production of statistics
- the school(s) or college(s) which the student attended
- students and alumni who have volunteered to speak with admitted students
- the Student Associations recognized by McGill University for the category(ies) of students to which the student belongs
- the McGill Alumni Association
- professional bodies or corporations (e.g., engineers, dentists)
- McGill Network and Communications Services for the purposes of listing the student's McGill e-mail address in an online e-mail directory.

Students who choose not to authorize the University to disclose personal information to the organizations mentioned above in h, i, j and k must complete and submit an Opposition Form. The Opposition Form is available at Enrolment Services.

3.1.5 E-mail Communication

E-mail is an official means of communication between McGill University and its students. All students are assigned a McGill e-mail address. They should view and verify their McGill e-mail address on Minerva, under the Personal menu. As with all official University communications, it is the student's responsibility to ensure that time-critical e-mail is accessed, read, and acted upon in a timely fashion. If a student chooses to forward University e-mail to another e-mail mailbox, it is that student's responsibility to ensure that the alternate account is viable.

It is a violation for any user of official McGill e-mail addresses to impersonate a University officer, a member of the faculty, staff or student body, in line with the McGill University "Code of Conduct for Users of McGill Computing Facilities" and relevant federal and provincial legislation.

The E-mail policy is available at www.mcgill.ca/email-policy. Find more information on E-mail at www.mcgill.ca/it under "Email and Calendaring". Please see [section 4.5 "For your Information Technology \(IT\) needs"](#).

3.1.6 Academic Integrity

Communicating about academic integrity is an essential way to foster it. In submitting work in their courses, students must understand the meaning and consequences of plagiarism and cheating; these are considered to be extremely serious academic offences. Students who have any doubt as to what might be considered plagiarism in preparing an essay or term paper should consult the instructor of the course to obtain appropriate guidelines. There is a student guide to the meaning of plagiarism; students should consult the academic integrity Website at www.mcgill.ca/integrity. Links to instructional tutorials are also provided on this Website. Strategies to prevent cheating are also provided on the Integrity Website. The possession or use of unauthorized materials in any test or examination constitutes cheating. Responses on multiple-choice examinations are normally checked by the exam security computer monitoring program. The program detects pairs of students with unusually similar answer patterns on multiple choice exams. Data generated by the exam security computer monitoring program can be used as admissible evidence either to initiate or corroborate an investigation or a charge of cheating under Section 16 of the Code of Student Conduct and Disciplinary Procedures.

The Code of Student Conduct and Disciplinary Procedures includes sections on plagiarism and cheating. The Code is included in the *Handbook on Student Rights and Responsibilities*, which is available through the academic integrity Website or at www.mcgill.ca/secretariat/handbooks/student.

3.1.7 Proper Use of Computing Facilities

Students are required to comply with the Code of Conduct for Users of McGill Computing Facilities as approved by the University Senate. The Code is published in the *Handbook on Student Rights and Responsibilities*.

This policy (or code) is also posted on the CIO Website at www.mcgill.ca/cio/e-policies.

3.1.8 Non-smoking Policy

Quebec law prohibits smoking in public buildings.

3.1.9 Health Professions – Immunization Requirement

A compulsory immunization program exists at McGill for students in the health professions, including Dietetics. New students in those programs must complete the immunization program well before classes begin. Further information is available from the Student Health Service, (514) 398-6017.

3.1.10 Health Insurance – International Students

By Senate regulation, all students (full-time, part-time, special, exchange and visiting) and their accompanying dependants who do not have Canadian citizenship or Permanent Resident status must participate in the University's compulsory sickness and accident plan. For enrolment procedures and details on the health insurance plan, students should consult the International Student Services Website. For information concerning rates, see [section 3.4.5, "Administrative Charges"](#).

All inquiries related to this University policy must be directed to International Student Services.

International Health Insurance

Telephone: (514) 398-6012

E-mail: international.health@mcgill.ca

Website: www.mcgill.ca/internationalstudents/health

3.1.11 Health Insurance – Canadian Residents

Canadian students from outside the province of Quebec should check with their own provincial Medicare office to ensure the validity of their health coverage while studying at McGill.

Canadian students who have been living abroad may not be eligible for provincial health insurance coverage. To ensure adequate health insurance coverage, you may enrol in the group plan offered through International Student Services. Please note that this option is ONLY available during the first month of your first semester at McGill.

All undergraduate students who pay tuition fees at either the Canadian or Quebec rates and who are members of the Students' Society of McGill University (SSMU) or the Macdonald Campus Students' Society (MCSS) are automatically covered by the Students' Society's Health and Dental Plans. For details on fees, Change-of-Coverage dates and on what is covered by the plans, please refer to the information contained on the Web at www.aseq.com. If you're not sure of your eligibility, please contact ASEQ, at (514) 789-8775.

3.1.12 Special Medical Needs

Students who have particular medical needs are requested to have their physician submit appropriate information on a confidential basis to the Student Health Service; see [section 4.2.3 "Student Services – Downtown Campus"](#) for contact information on the downtown campus and [section 4.2.4 "Student Services – Macdonald Campus"](#) for Macdonald campus contact information.

3.1.13 Minerva

Minerva is McGill's Web-based information system serving students, staff and faculty. To access Minerva students should go to www.mcgill.ca/minerva and click on the login icon. Once logged in to Minerva, students can view class schedules, including course descriptions and spaces available in course sections; register and make course changes; view their unofficial transcript and degree evaluation reports; view their Permanent Code, citizenship and Quebec residency status and fee information; update their personal information such as address, telephone number and emergency contacts; apply to graduate; view their graduation status and convocation details; view their McGill log-in information to access the Internet and e-mail; order official transcripts; retrieve tax receipts; submit an on-line course evaluation; apply to McGill and view their application status. In addition, students in some faculties can change their major or minor programs; and apply for an Exchange program using Minerva.

3.1.14 myMcGill

Launched in April 2006, myMcGill is McGill's own Web portal, giving students and staff a personalized interface to McGill's information systems.

myMcGill offers an integrated McGill Web experience by offering Single-Sign-On (SSO) to several McGill Web systems. This translates into users accessing these systems without being prompted for additional or subsequent logins. It also provides direct (one click) access to functions within the back end systems without having to go to the front screen of these systems and navigate through multiple menus. To log into myMcGill go to: <http://my.mcgill.ca> or from the McGill homepage (www.mcgill.ca), click on the myMcGill tab at the top right hand corner of the page.

3.2 Personal Information

3.2.1 Updating Personal Information

It is important that all students keep their official records up to date, especially their mailing or student billing address as these are used by the University year round. If address information on file is invalid, incomplete or missing, a student's mail will be held. Once a valid address has been updated, future mail will be sent to the student.

Students must update their addresses and/or telephone number and emergency contact information on Minerva in the Personal Menu tab.

Students who are away from campus and do not have access to the Internet may request changes by writing to their Student Affairs Office or to Enrolment Services. A written request must include the student's signature.

Changes to personal information requiring verification of official documents, e.g., change of name or citizenship or correction of birth date, must be reported to Enrolment Services as soon as possible. Such changes can only be made in person at Enrolment Services, James Administration Building, Room 205. Macdonald campus students can request changes in person at the Student Affairs Office, Laird Hall, Room 106.

3.2.2 Legal Documents

3.2.2.1 Why Do We Collect Legal Documents from You?

Your **tuition fees** at McGill will vary according to whether you are a Quebec student, a Canadian out-of-province student, or an international student, as per [section 3.2.2.2, "What Documents Do We Need from You?"](#) Fee schedules are listed in [section 3.4, "Fees"](#).

Some of the documents we ask from you help us obtain your **Permanent Code** from the Government of Québec. This unique

12-character code, issued by the Ministry of Education, is obligatory for all students registered in a Quebec Institution. If you have previously attended school in Québec, you already possess a Permanent Code - you can find it on your school report card or your CEGEP or university transcript. Students can also check if McGill has received their Permanent Code after they have accepted the University's offer of admission on Minerva under the Personal menu.

Students can consult their tuition and legal status (including their Permanent Code) on Minerva. Select **Student Menu -> Student Accounts Menu -> View your Tuition and Legal Status**.

3.2.2.2 What Documents Do We Need from You?

Follow instructions in the **first** row of this table that applies to you. **Send clear, legible copies of documents (not originals)**.

Quebec and Canadian-Out-Of-Province Students

You have applied to McGill from CEGEP or you already have a student record at McGill	<ul style="list-style-type: none"> Usually no documents are required for your Canadian and/or Quebec status, as per our records or as ascertained from the Quebec Ministry of Education (MELS).
You have applied to McGill from another Quebec University	<ul style="list-style-type: none"> Canadian birth certificate; or Canadian citizenship card (both sides); or Certificate of Indian status card; or Makivik Society card; or Record of Permanent Resident status (note 3) For your Quebec residency status, usually no documents are required, unless we cannot ascertain this from the Quebec Ministry of Education (MELS)
You were born in Quebec	<ul style="list-style-type: none"> Quebec birth certificate (note 1 & 5) Permanent Code Data Form (note 2 & 6)
You were born (or became a Landed Immigrant) in a Canadian province other than Quebec	<ul style="list-style-type: none"> Canadian birth certificate; or Canadian citizenship card (both sides); or Certificate of Indian status card; or Makivik Society card; or Record of Permanent Resident status (note 3) Permanent Code Data Form (note 2 & 6)
You are a Quebec resident through one of the other situations outlined by the Ministry of Education	<ul style="list-style-type: none"> Canadian birth certificate; or Canadian citizenship card (both sides); or Certificate of Indian status card; or Makivik Society card; or Record of Permanent Resident status (note 3) Permanent Code Data Form (note 2 & 6) Attestation of Residency in Quebec Form (note 6) Other supporting documents, depending on which situation you checked on the above Attestation of Residency form

International Students

You will be in Canada for less than 6 months (i.e. for only one academic semester)	<ul style="list-style-type: none"> Visitors Permit issued by Citizenship and Immigration Canada at your port of entry into Canada Photo page of your passport and the page stamped by Citizenship and Immigration Canada at your port of entry Permanent Code Data Form (note 2 & 6)
You will be in Canada for more than 6 months (i.e. for two or more consecutive academic semesters)	<ul style="list-style-type: none"> Certificate of Acceptance of Quebec (CAQ) Permanent Code Data Form (note 2 & 6) Study Permit issued by Immigration Canada (note 4)

Note 1: You may alternatively supply your Quebec baptismal certificate if it was issued **prior to January 1, 1994** and clearly shows where you were born and that your baptism occurred no more than 4 months after your birth.

Note 2: Permanent Code Data Form (signed) is usually required. If the names of your parents appear on your birth certificate, or if

you have already provided us with your Permanent Code, you do not need to supply this form.

Note 3: Proof of Permanent Resident status can be proved by an IMM 5292 document together with the Permanent Resident card (copy of both sides required). Alternatively, you may provide the IMM 1000 document along with the PR card (copy of both sides required).

Note 4: If you are a refugee, you should instead provide your Convention Refugee status document.

Note 5: Usually we need your birth certificate to prove your place of birth in Quebec. If you already have a valid MELS Permanent Code, but we are still showing you as being charged Canadian fees, we will accept a Canadian passport that shows your birth place in Quebec as proof that you qualify for Quebec residency.

Note 6: The links to download and print the **Permanent Code Data** and **Attestation of Quebec Residency** forms can be found at www.mcgill.ca/legaldocuments/forms.

Fee Exemptions

Exemptions from international tuition fees may be claimed by students in certain categories. As well, both international and non-Quebec Canadian students or Canadian Permanent Residents in certain language courses (in some cases programs) leading to a degree in French may be eligible for a fee exemption from international or the non-Quebec Canadian rate. Please note that the list of language course (in some cases, programs) is limited and subject to change by the Ministère de l'Éducation, du Loisir et du Sport. Students, if eligible for one of the exemption categories, are then assessed at the Quebec student rate. A list of categories and the required application forms are available at www.mcgill.ca/student-records/fees/exemption and also at Enrolment Services where the application forms must be submitted. An exemption will not be granted unless the application form is submitted.

3.2.2.3 Have We Received Your Documents?

Quebec/Canadian/International Fees

Once received, it usually takes us about a week to record your documents and update your file accordingly.

- Check your tuition status on **Minerva** student accounts menu: **Student Menu->Student Accounts Menu->View your Tuition and Legal Status**.
- Check the phrase: *Fees currently calculated according to rules for...* This will tell you if you are assessed as: International student, Canadian student, or a Quebec student.
- The University has implemented e-billing as of the 2005-2006 academic year. A paper fee statement will no longer be mailed via Canada Post. For more information please refer to the following Website: www.mcgill.ca/student-accounts/e-bill.

If you do not agree with the assessment, notify us right away. We cannot accept changes or offer you a lower tuition rate after the last day of classes at the end of the term, as the government does not allow us to amend our files at that point.

Permanent Code

It can take anywhere from one week to four weeks for the Ministry to verify or issue your Permanent Code.

- Check your Permanent Code on Minerva: **Personal Menu ->Name Change** or alternately via **Student Menu->Student Accounts Menu->View Tuition Fee and Legal Status**. If your 12-character Permanent Code appears there, your documents are in order. If not, you have not yet provided us with your documents listed above or we have not yet received confirmation from the Ministry that your documents are sufficient for creation of a Permanent Code.

3.2.2.4 What Are the Consequences of Not Providing Your Documents?

All proofs of citizenship, requests for Quebec residency, international fee exemption, and immigration status changes must be received by the end of the last day of classes of a current term to take effect for that term. **All documents received after that date will be updated and lower your fees for the following term only.**

We cannot issue you an ID card without having received your documents. Your ID card is essential to use many services on campus, and to sit for your final exams.

If your Permanent Code has not been issued by October 15 (Fall term) or February 15 (Winter term) we will put a hold on your record, which will prevent you from registering or dropping any courses, and will prevent you from obtaining your official transcript, until our record has been put in order. For students in short programs, this action may be taken earlier in the term.

Should your tuition status be reduced as a result of the document review process, any late payment or interest charges accumulated on the difference will also be waived.

3.2.2.5 Where Do I Send my Documents?

Send in all your documents after you have been accepted to McGill and before you arrive on campus. **Do not send us originals.** Please fax or mail a clear and legible photocopy. Write your McGill ID on the documents so that we can match them to your record. The sooner you submit your documents, the sooner we can update your status and ensure that your record is in order.

By E-mail:

You may submit your legal documents electronically by following these steps:

1. **Save the attached file in an accepted format:**
 - Standard PDF (.pdf) - encrypted PDF's will not be accepted
 - Tagged image format (.tif, .tiff; for scans)

(Due to the possibility of malicious content, Microsoft Word Documents (.doc), Hypertext files (.htm, .html) or any other format will not be accepted. Do save in an accepted format and do not just rename the file extension.)

2. **Ensure that the resolution used is no less than 300 dpi** for an electronic replica (scan) of documentation (e.g., scan of your birth certificate). Preferred file size is 100Kb per image.
3. **Address your e-mail to legaldocumentation@mcgill.ca and attach your relevant scanned document(s).** Files should be sent as attachments to your e-mail and not as part of the e-mail body.
4. **Put your First Name, Last Name, and McGill ID number in the subject line of your e-mail.**
Note: Individual e-mail size (including your attachments) should not exceed 5 MB (5120 KB).

3.2.3 Identification (ID) Cards

Students registered at McGill are required to present an ID card when writing examinations and when using libraries, Student Services, certain laboratories, and many residences.

An ID card cannot be issued until at least 3 hours after the student has registered. When requesting the card, new students must present Permanent Code information and proof of legal status in Canada (for a list of documents please see [section 3.2.2, "Legal Documents"](#)).

ID cards will not be issued if any of the legal documents are missing.

Registered students may obtain an ID card at these times and locations:

Quebec CEGEP students: Thursday, June 10 to Friday, August 29th, 2008, Open 9:00 a.m. to 5:00 p.m. (note that we are closed on: Monday June 23rd & Tuesday June 24th, Monday, June 30th & Tuesday, July 1st and week- ends). You are encouraged to come during this period to avoid line-ups later in August. No international students can be carded before August 20.	Enrolment Services, James Administration Building, Room 205
Canadian and Quebec students: Tuesday, July 29th to Monday, August 20th, 2008, Open 9:00 a.m. to 5:00 p.m. (except week- ends). You are encouraged to come during this period to avoid line-ups later in August. No international students can be carded before August 20.	Enrolment Services, James Administration Building, Room 205
All students, including international students: Monday, August 20 to Friday, August 29th, 2008. Open 9:00 a.m. to 5:00 p.m. including Saturday and Sunday, August 23-24.	Lorne M. Trotter Building 3630 University Street
Starting Tuesday, September 2, 2008, Normal office hours.	Enrolment Services, James Administration Building, Room 205

ID Card Schedule for the Macdonald Campus:

Quebec CEGEP students (newly registered), may obtain an ID card from the Student Affairs Office, Room 106, Laird Hall. Office hours are from 9:00 a.m. to 4:00 p.m., Monday through Thursday and 9:00 a.m. to 3:00 p.m. on Friday throughout the Summer. (Please note that the Student Affairs Office will be closed for the statutory holidays of Monday, June 23rd and Tuesday June 24th as well as Monday, June 30th and Tuesday July 1st).

Canadian and Quebec Students, may obtain an ID card during the weeks of August 4 to 8, 11 to 15, 18 to 22, 25 to 29, from the Student Affairs Office, Room 106, Laird Hall. Those students missing any of the dates noted will be able to obtain their ID cards during Orientation activities.

International Students, may obtain their ID cards as of August 20, 2008 from the Student Affairs Office, Room 106, Laird Hall.

As of Tuesday, September 2nd, 2008, ID cards may be obtained from the Macdonald Campus Student Affairs Office during normal office hours.

Notes:

- students who do not register for consecutive terms should retain their ID card to avoid having to replace it when they re-register.
- if your card has expired there is no charge for a replacement as long as you hand in the ID card.

- if you change programs or faculties there is no charge as long as you hand in the ID card.
- if your card has been lost, stolen or damaged, there is a \$20 replacement fee.
- students who need security access to labs or other facilities should refer to www.mcgill.ca/security/services/access.

The Student Identification Card is the property of the University, is to be used by the cardholder only, and is not transferable. Students withdrawing from all of their courses must attach their ID card to the withdrawal form or return their ID card to Enrolment Services (or the Faculty of Agricultural and Environmental Sciences, Student Affairs Office, Macdonald Campus).

3.2.4 Name

3.2.4.1 Legal Name

All students are registered under their legal name as shown in one of the following documents:

1. Canadian birth certificate.
2. Canadian Immigration Record of Landing (IMM1000 or IMM5292 and Permanent Residence card, both sides).
3. Canadian Immigration Study or Work Permit document.
4. Certificate of Acceptance of Quebec (CAQ).
5. International passport (for Canadians, a Canadian citizenship card is required. Note that a Canadian passport is not acceptable).
6. Letter from international student's consulate or embassy in Canada.
7. Marriage certificate issued outside of Quebec* (translated into English or French by a sworn officer if in another language).

In the case of a variation in the spelling of the name among these documents, the University will use the name on the document that appears first on the above list.

Note: This is the name that will appear on the student's degree, diploma or certificate on graduation, and on the student's transcript, and used by the Ministère de l'Éducation, du Loisir et du Sport (MELS) to create a Permanent Code.

* Quebec marriage certificates are only acceptable if issued prior to 1984.

3.2.4.2 Preferred First Name

Students can provide a preferred first name at the time of admission on their web application and following that by sending a signed request to Enrolment Services, James Administration Building, Room 205, for the name to be updated on their file.

The preferred first name is included on class lists (in brackets alongside the legal name) for use by instructors. Students should note that their legal name will be the name that will appear on their transcript and diploma.

3.2.5 Verification of Name

Students should verify the accuracy of their name on McGill's student records via Minerva. Any necessary corrections to formatting, e.g., changing case (upper/lower), adding accents and spacing, can be made on Minerva under the **Personal Menu -> Name Change Form**.

Students **cannot** change the name on their record via Minerva. Requests for such changes must be made by presenting official documents (see section 3.2.4 "Name") in person at Enrolment Services, James Administration Building, Room 205.

3.3 Registration

Once students have confirmed their intention to attend McGill on Minerva, they must register during the registration periods listed below by using Minerva, McGill's Web-based information system, to add courses to their record. They may continue to register throughout the registration period by adding and dropping courses

until they have finalized their schedule. Registration is performed on-line at www.mcgill.ca/minerva.

Refer also to Registration information in each faculty section. All course descriptions are available at www.mcgill.ca/courses. New students in particular should refer to "Course Information, Regulations and Descriptions (Appendix)" to familiarize themselves with McGill's course numbering system, multi-term course rules, and course terminology.

For fee policies related to registration and withdrawal from courses or withdrawal from the University, please refer to all parts of section 3.4, "Fees".

3.3.1 Registration Periods

The dates given below were accurate when this Calendar was published. Although changes are not anticipated, students are advised to confirm the dates on the Web at www.mcgill.ca/student-records.

Returning Students

Registration will take place between Thursday, March 27 and Monday, July 28, 2008.

Registration will be phased in, opening in the following order:

Year 3 and Year 4 students:	Thursday, March 27
Year 2 students:	Tuesday, April 1
All other returning students:	Thursday, April 3

Some faculties and departments set their own schedules for advising and registration within these dates. Further information is distributed from the faculty Student Affairs Offices and Websites.

Successful completion of registration is contingent upon acceptable academic standing in the previous session and payment of any previous outstanding fees and fines.

Newly Admitted Students Entering in September 2007

Registration will take place between Tuesday, June 10 and Tuesday, September 2.

Registration will be phased in, opening in the following order:

Tuesday, June 10, registration opens for students admitted from Quebec CEGEPs.

Tuesday, July 29, registration opens for students whose highest level of education prior to registering at McGill is a French Baccalaureate, International Baccalaureate or at least one year of university.

Wednesday, July 30, registration opens for students whose highest level of education prior to registering at McGill is high school, and who have been admitted to the following faculties/schools/degrees: Arts, B.A. & Sc. degree, Education, Management, Music, Religious Studies and Social Work.

Thursday, July 31, registration opens for students whose highest level of education prior to registering at McGill is high school, and who have been admitted to the following faculties/schools: Agricultural and Environmental Sciences, Engineering including Architecture, Nursing, Physical and Occupational Therapy, and Science.

A newly admitted student entering in September 2008 who wishes to register for courses in the Summer of 2007 may do so on Minerva. Please check the Summer Studies calendar for further information or refer to www.mcgill.ca/summer.

Newly Admitted Students Entering in January 2009

Registration will take place between Tuesday, December 2, 2008 and Monday, January 5, 2009.

Some faculties and departments require that students be advised before registration and set specific dates for advising and registration within these dates. Please refer to the Faculty sections of this Calendar, as well as to the *Welcome to McGill* booklet or the

Essential Guide for New Students, Macdonald Campus, which are included with the acceptance package.

3.3.1.1 Late Registration

Students who fail to register during the normal registration period may do so within the period designated by the University for late registration. They will be assessed a late registration fee as listed below:

Returning Students: May register late from Tuesday, July 29 until and including Tuesday, September 2 with the payment of a late registration fee of \$50 (\$20 for Special Students).

New and Returning Students (Fall): Students may register late via Minerva from Wednesday, September 3 until Tuesday, September 16 with the payment of a late registration fee of \$100 (\$40 for Special Students).

New and Readmitted Students (Winter): May register late via Minerva from Friday, January 6 until Tuesday, January 20 with the payment of a late registration fee of \$100 (\$40 for Special Students).

Special Late Registration: Students whose records are not available for registration on-line during the late registration period, usually due to late admission, may receive special permission to register in person. This information is included with their letter of acceptance.

3.3.2 Class Schedule

The Class Schedule for the upcoming Fall and Winter terms normally becomes available in mid-March at www.mcgill.ca/courses. (The Summer term schedule is normally made available in January). This schedule includes the days and times when courses are offered, class locations, names of instructors, and informational remarks and comments. The calendar entries of scheduled courses can be accessed by clicking on the CRN (course reference number) that appears with each course section shown.

Students should make special note of any pre-registration requirements for a course, such as placement tests, or departmental approval/permission required.

Class Schedule information is subject to change and is updated as courses are added, cancelled, rescheduled or relocated. It is the responsibility of all students to consult the Class Schedule at the time of registration, and again before classes begin, to ensure that changes have not resulted in conflicts in their schedule.

3.3.3 Course Load

It is the student's responsibility to follow the faculty regulations listed below. When registering on Minerva, students *must not* exceed the maximum credits permitted by their faculty.

For information on course load requirements for entrance scholarships renewal and in-course awards refer to [section 3.8.1, "Entrance Awards for McGill Students"](#).

The normal course load in most undergraduate faculties is 15 credits per term. For students in the Faculty of Engineering, Faculty of Education, and Schulich School of Music, however, the normal course load is 15 to 18 credits per term.

Students in Arts, Management, Religious Studies, or Science whose CGPA is above 3.00 may take 18 credits per term. Such students who wish to do so are strongly urged to consult an adviser.

Students in satisfactory standing may take up to 17 credits per term (18, in Music and Engineering).

Students in probationary standing take a maximum of 12 credits per term, with the following exceptions:

- Agricultural and Environmental Sciences: 14 credits.
- Arts and Science: up to 14 credits, with special approval of the Associate Dean.
- Engineering: 13 credits, including repeated courses.
- Music: 14 credits.
- Management: 12 credits maximum of new material.

In some cases a student in probationary standing may add a repeated course in which a grade of D or F was obtained.

Note:

Students who carry fewer than 12 credits per term are considered to be part-time in that term.

3.3.3.1 Course Information and Regulations

For information regarding course information and regulations, students are advised to refer to "[Course Information, Regulations and Descriptions \(Appendix\)](#)".

3.3.4 Changing Programs within Selected Faculties

Students admitted to programs in Arts, Science, Arts and Science, and to certain programs in Management, Education and Engineering may add or change programs within their faculty using Minerva. Certain restrictions apply. In all cases students should consult the appropriate adviser for approval before making any changes and for faculty specific regulations concerning program changes.

Students in the faculties of Arts, Science and the Bachelor of Arts and Science degree may change major/major concentrations, minor/minor concentrations or faculty programs using Minerva. These students may also change into, or out of, an honours program. Some restrictions apply.

Note that students in the Arts, Science or B.A. & Sc. freshman programs (97 or more credits) cannot change programs, but may change options within their freshman program.

Students in the Desautels Faculty of Management may add or change majors and concentrations within certain programs using Minerva. Students may not add an honours program or change a major or concentration within an honours program. Other restrictions may be verified with the faculty.

Students in the Faculty of Education, registered in the B.Ed. Secondary program, may change subjects or options on Minerva and students in the B.Sc. Kinesiology program may add, drop or change minors.

In the Faculty of Engineering, students who have confirmed their admission to the B.Eng. Electrical/Computer/BSE program may select their specific program option using Minerva. These students cannot use Minerva to change programs once their initial selection is made. To make a further change, students must consult an adviser in the Department of Electrical and Computer Engineering. Students in other programs in the Faculty of Engineering cannot make any program changes using Minerva.

Students are not permitted to use Minerva to change degree (with the exception of Engineering, as above) or to select a program in another faculty or school.

3.3.5 Quebec Inter-University Transfer Agreement (IUT)

The IUT Agreement permits concurrent registration at McGill and another Quebec institution.

3.3.5.1 McGill Students

Regular undergraduate and graduate degree, diploma or certificate students registered at McGill may, with the permission of their faculty, register at any university in the province of Quebec for three (3), or exceptionally six (6), **credits** per term in addition to their registration at McGill. These courses, subject to faculty regulations, will be recognized by McGill for the purpose of the degree for which the student is registered up to the limit imposed by the residency requirements of the program. (Normally, a minimum residency requirement of 60 credits must be completed at McGill in order to qualify for a McGill degree — students should check with their faculty.) This privilege will be granted if there are valid academic reasons.

Students wishing to take advantage of this agreement should consult their Student Affairs Office for details, and are informed that this agreement is subject to the following conditions:

- The other universities concerned may, at their discretion, refuse the registration of a student for any of their courses.

- Students must complete their faculty and program requirement.
- The student is responsible for ensuring that the McGill Class Schedule permits these courses to be taken without conflict.
- The universities concerned are not responsible for special arrangements in cases of examination or class schedule conflicts.
- Marks earned at the host university will not appear on McGill transcripts or be included in McGill grade point averages.
- Students who are attending McGill as exchange students from outside Quebec are not eligible to take courses at another Quebec institution through the IUT agreement.
- Students should be aware that late results received from host universities may delay their graduation.

Scholarship holders should consult with their Student Affairs Office and the Scholarships Coordinator concerning eligibility for continuation or renewal of their awards.

Students must initiate an on-line Inter-University Transfer (IUT) application to request the required authorizations at www.mcgill.ca/student-records/iut. Students may also find additional information posted at their faculty Website.

Note: Once the IUT application is approved by both the home and host universities, the student remains responsible for registering in the same course for which they have obtained electronic approval. The method of registration of the host university will vary (e.g., Web, in-person, phone, etc.). **The student is advised to initiate the electronic application allowing enough time to meet the host university's registration deadlines. Furthermore, the student is responsible for adhering to all registration deadlines of the host institution.** Students who later wish to drop or withdraw from the course(s) for which approval has been granted, will need to drop or withdraw from the course as per the method of registration at the host university AND submit this change on the online IUT application.

For courses that are completed the grade will be automatically submitted to the home university by the host institution.

3.3.5.2 Visiting IUT Students

Students from other Quebec universities wishing to come to McGill using the Inter-University Transfer (IUT) agreement must initiate an on-line application to request the required authorizations at www.mcgill.ca/student-records/iut. Visiting students should also refer to their home university website for regulations on the number of credits allowed as well the policies for transferring the credits.

Note: Once the IUT application is approved by both the home and host universities, the student remains responsible for registering in the same course for which they have obtained electronic approval. At McGill, the visiting student whose application has been approved will have to register on Minerva (www.mcgill.ca/minerva). Visiting students will be informed via e-mail of the steps involved in registering once their application has been approved.

The student is advised to initiate the electronic application allowing enough time to meet the host university's registration deadlines. Furthermore, the student is responsible for adhering to all registration deadlines of the host institution. Students who later wish to drop or withdraw from the course(s) for which approval has been granted will need to drop or withdraw from the course as per the method of registration at the host university AND submit this change on the online IUT application.

For courses that are completed the grade will be automatically submitted to the home university by the host institution.

3.3.6 Courses Taken under the Satisfactory/Unsatisfactory (S/U) Option

Where permitted by faculty and program regulations, students may take one elective course per term to be graded under the Satisfactory/Unsatisfactory option, to a maximum of 10% of the student's credits taken at McGill to fulfil the degree requirements.

The decision to have an elective course graded as S/U must be made by the student before the Course Change deadline on

Minerva as part of the course add/drop menu. **No change can be made thereafter** even if the student selected the option in error. If the course is a multi-term course, the S/U option must be selected by the course change deadline of the first part of the course.

Grades will be reported in the normal fashion by the instructor. Grades of A through C will be converted to "Satisfactory" (S), and grades of D and F will become "Unsatisfactory" (U). The courses taken under the S/U option will be excluded from the grade point average calculations, but they will be included in the attempted credits total. Credits for courses with a final grade of S will also be included in the number of credits earned.

Notes:

1. **Desautels Faculty of Management students:** The S/U option is not available on Minerva for Management students. Please contact the BCom Office for details on the conditions that apply.
2. **Faculty of Engineering students:** If the S/U option is selected for a core course and not removed by the Course Change deadline, the Student Affairs Office will remove the option and notify the student of the change.
3. **Schulich School of Music students:** The S/U Option is only applicable to non-music electives.
4. To be considered for in-course awards, including Dean's Honour List designations, and/or the renewal of entrance scholarships, students must complete at least 27 graded credits in the regular academic session, exclusive of courses completed under the S/U option.
5. The S/U option is not available via Minerva to Visiting, Exchange and Quebec Inter-University Transfer Agreement (IUT) students. These students must consult with their faculty Student Affairs Office for approval. Also, visiting students are responsible for ensuring that a course taken under the S/U option is acceptable by their home university and that the credits are transferable.
6. Special Students are not eligible to use the S/U grade mode.

For further information, students should contact their Departmental Adviser or Student Affairs Office, as appropriate.

3.3.7 Course Change Period

During the initial Registration Periods, **see section 3.3.1 "Registration Periods"**, students may make changes to their course registrations (add or drop courses), subject to the requirements and restrictions of their program and of individual courses.

The Course Change deadline coincides with the deadline for late registration. Please refer to the Calendar of Dates, **section 1, "Calendar of Dates 2008-09"**.

Students who drop their last Fall course **after** the end of August or drop their last Winter course **after** the end of December are considered to be withdrawn from the University. They must follow the procedures for readmission.

Students who are registered in the Fall term may continue to add and drop courses that will begin in the Winter term throughout the Fall term until the deadline for course change/late registration in the Winter term.

After the Course Change deadline, courses may be added according to each faculty's regulations and only with written permission of the instructor and the Office of the Associate Dean of the student's faculty (or Director, BCom Program, in the Desautels Faculty of Management). A fee will be charged for each course added.

3.3.8 Regulations Concerning Course Withdrawal

Following the Course Change deadline there is a period of a few days during which students may withdraw, with a grade of W and full refund of course fees, from courses that start in that term.

After the Withdrawal (with refund) deadline, there is a period during which withdrawal from a course will also result in a grade of W but no course fees will be refunded.

Courses that begin in the Fall Term

Deadline for withdrawal (grade of 'W') with refund:
Sunday, September 21, 2008

Deadlines for withdrawal (grade of 'W') without refund:

- Single-term courses: Sunday, October 19, 2008
- Multi-term courses that began in Fall term: Tuesday, January 20, 2009

Courses that begin in the Winter Term

Deadline for withdrawal (grade of 'W') with refund: Sunday,
January 25, 2009

Deadline for withdrawal (grade of 'W') without refund:

- Single-term courses: Sunday, February 15, 2009
- Multi-term courses that began in Winter term: Friday, May 15, 2009*

*Please note that students in multi-term courses with course numbers ending in N1 and N2 (begin in the winter, skip the summer, are completed in the subsequent Fall term) may withdraw after May 15 and until the end of the Fall term course change period by contacting their faculty Student Affairs Office.

After the withdrawal (without refund) deadline, but before the end of term, the student may, under exceptional circumstances, be granted permission to withdraw from a course. (Permission will not be granted merely because a student is doing unsatisfactory work.) A grade of W or WF, as appropriate, will appear on the transcript but will not be calculated in the GPA. For further information students should consult their faculty Student Affairs Office.

Note:

1. Students who wish to withdraw from required or complementary courses should also secure permission from their adviser. A course withdrawal form is available from the faculty Student Affairs Office. (Additional restrictions for Music courses are indicated in the Schulich School of Music section.)
2. The responsibility for initiating withdrawal rests solely with the student. Neither notification of the course instructor nor discontinuance of class attendance will suffice. The date on which a student's withdrawal is entered on Minerva is the official date of withdrawal, even if the student stopped attending lectures earlier.
3. Fee refunds, if any, will be in accordance with [section 3.4.8, "Fees and Withdrawal from the University"](#).

3.3.9 Regulations Concerning University Withdrawal

Students considering University withdrawal are strongly urged to consult with their adviser and Student Affairs Office before making a final decision.

Student's responsibility

The responsibility for initiating University withdrawal rests solely with the student. Neither notification of the course instructor nor discontinuance of class attendance will suffice. The date on which a student drops or withdraws from all courses on Minerva or the date the request for withdrawal is submitted to the Student Affairs Office is the official date of withdrawal, even if the student stopped attending lectures earlier.

3.3.9.1 Deadlines for University Withdrawal

All students who have accessed Minerva to register must officially withdraw within deadlines if they decide not to attend the term(s) for which they have registered. See Withdrawal (W) deadline dates in the Calendar of Dates. Students who drop their last Fall or Winter course by the end of the add/drop period of that term are considered withdrawn from the University. They must follow the procedures for readmission.

Students who wish to withdraw from the University by the deadlines indicated below must drop or withdraw from all courses on Minerva.

Fall Term:

Deadline for University withdrawal with refund (minus \$100 for returning and \$200 for new students):

Sunday, September 21, 2008

Deadline for University withdrawal without refund:

Sunday, October 19, 2008

Winter Term:

Deadline for University withdrawal with refund (minus \$100 for returning and \$200 for new students):

Sunday, January 25, 2009

Deadline for University withdrawal without refund:

Sunday, February 15, 2009

Students who are blocked from dropping or withdrawing from their last course on Minerva are required to contact their Student Affairs Office. The Student Affairs Office will supply any forms necessary to complete the University withdrawal where the deadline for University **withdrawal has not been passed**.

Special Note for Faculties of Arts, Engineering, Management, and Science: Students who wish to withdraw after the deadlines indicated above may under exceptional circumstances be granted permission to withdraw from the University. Such students should contact the Student Affairs Office for further information.

Special Note for Faculty of Agricultural and Environmental Sciences: In addition to the above procedures, all students in the Faculty of Agricultural and Environmental Sciences must contact their Student Affairs Office for further information on University withdrawal procedures.

3.3.9.2 Consequences of University Withdrawal

Fee refunds, if any, for the term in which the student withdraws will be in accordance with [section 3.4.8, "Fees and Withdrawal from the University"](#).

Upon withdrawal, students are required to return their ID card to the University as stated in [section 3.2.3, "Identification \(ID\) Cards"](#).

Students who withdraw from the University and wish to re-register in a subsequent term must follow the procedures for re-admission, [section 3.3.13, "Readmission"](#).

Students who withdraw during the Fall term are considered withdrawn from the entire academic year, regardless of whether Winter term courses are dropped. If they wish to return for the Winter term, they must follow the procedures for readmission.

3.3.10 Deferred Admission

Students wishing to defer admission to McGill must make an official request no later than **August 31** for the Fall term, and **December 31** for the Winter term to:

Deferral Coordinator

Enrolment Services

James Administration Bldg.

Fax: 398-4193

E-mail: deferral@mcgill.ca

Please note that several conditions apply for deferral. These conditions and deadlines will be communicated to the student once the official request for deferral has been received.

If you have accepted the offer of admission and registered for courses and now wish to defer your admission, you must withdraw from McGill by dropping those courses via Minerva **by the above deadlines** and before submitting a deferral request. If your request for deferral is granted, your deposit of \$200 will be transferred to the Deferred Session.

If students do not request a deferral by the deadline, they will be required to re-apply for the next available admission cycle. Registered students who withdraw after the deadline must request re-admission through their Faculty. See [section 3.3.13, "Readmission"](#) for more details.

Note: Applicants to the Schulich School of Music are not eligible to apply for deferred admission.

3.3.11 Summer Term/Summer Studies

The Summer term at McGill covers the months of May to August. During that period a wide array of credit courses from McGill degree programs is offered. Most are month-long courses with lectures every day. These courses are usually accepted for transfer credit by other universities. For more details, consult the Summer Studies Calendar or Website at www.mcgill.ca/summer or the Summer Studies Office at (514) 398-5212.

Students taking Summer Studies courses to complete their graduation requirements at McGill will receive their degrees at the Fall Convocation (normally held in November).

It is the student's responsibility to follow the University and faculty regulations. When registering, students must not exceed the maximum credits permitted by their faculty.

Students may register in no more than 12 credits (Management or Music students, 18 credits) during the summer, at McGill or at other universities, except by special permission of their Associate Dean (or Director, BCom Program, Desautels Faculty of Management).

Students registering under the "Quebec Inter-University Transfer Agreement (IUT)", see section 3.3.5, are limited to 6 credits.

3.3.12 Inter-Faculty Transfer

McGill students who have not graduated and wish to transfer into another undergraduate faculty may now apply using the **Minerva** Faculty Transfer/Readmission Menu, unless otherwise indicated in the table below.

Students must also refer to the Faculty Website for faculty-specific rules and to determine what supporting documents must be submitted for their application. To access the Faculty Websites and find more information on Faculty Transfers please refer to www.mcgill.ca/student-records/inter-faculty-transfers.

Faculty/School	Notes	Fall Term Application Deadline	Winter Term Application Deadline
Agricultural and Environmental Sciences, Dietetics and Human Nutrition		June 1	December 1
Architecture	Interested students must contact the Student Affairs Adviser of Architecture at 398-6702 or e-mail mary.lanni@mcgill.ca	May 1	
Arts, B.A. & Sc.	There are no Winter term transfers into Arts, or the B.A. & Sc. program.	June 1	(May 1 Social Work)
Education	There are no Winter term transfers into Education.	June 1	
Engineering (except Architecture)		June 1	November 1
Management	There is no admission to Management for the Winter term.	June 1	

Music	There is no admission to Music for the Winter term.	January 15	
Nursing		August 15	December 15
Religious Studies	Students must apply through the B.Th. Program Coordinator, Faculty of Religious Studies.	June 15	November 1
Science		June 1	November 1

3.3.13 Readmission

Students wishing to return after an absence of a portion of an academic year can now submit an application for readmission using the Minerva Faculty Transfer/Readmission menu. In their application they would state the reasons for their absence from the University and give a summary of their activities during that period.

Students who withdrew because of illness should provide their Faculty Student Affairs Office with a medical note stating that they are ready to resume studies as a supporting document to their application.

Students should also note time limits for the completion of degrees.

Students wishing to return to a different faculty after an absence can apply for readmission using the Minerva Faculty Transfer/Readmission menu.

For more details on the readmission process you can refer to the following Website: www.mcgill.ca/student-records/inter-faculty-transfers.

Faculty/School	Fall Term Application Deadline	Winter Term Application Deadline
Agricultural and Environmental Sciences, Dietetics and Human Nutrition	August 15	December 15
Architecture	June 1	November 1
Arts, Science, and B.A. & Sc.	July 15	November 15
Education	August 1	Not open for Winter term
Engineering	June 1	November 1
Management	July 15	November 15
Music	March 1	November 15
Nursing	August 15	January 9
Religious Studies*	June 15	November 1

* Students in Religious Studies must apply through the Religious Studies Student Affairs Office.

3.3.14 Auditing of Courses

No auditing of courses is permitted at McGill.

3.4 Fees

The University reserves the right to make changes without notice in the published scale of fees. (Note: The information in this section was prepared in early February 2008. Fees for the 2008-09 year will only be finalized in the late spring.)

Further information regarding fees can be found on the Student Accounts Website: www.mcgill.ca/student-accounts.

For information on financial support, see section 3.8, "Scholarships and Student Aid".

3.4.1 Fee Information Booklet (electronic)

The *Fee Information Booklet* will be available on the Student Accounts Website www.mcgill.ca/student-accounts/documents in early June. This link will also be sent via the McGill e-mail address shortly after students have confirmed their acceptance of the offer of admission. It contains additional information as well as any fee adjustments that may have been made after the publication of this Calendar. Students are bound by the policies and procedures contained therein. In the event of any discrepancy, the *Fee Information Booklet* supersedes the Calendar.

3.4.2 Access to Fee Information

Students can view their Account Summary by Term on Minerva. The Fall 2008 term fees will be accessible as of August 1.

3.4.3 Tuition Fees

Tuition fees vary according to the residence and citizenship status of the student. The rates described below only refer to credit activities.

Quebec Students

Tuition fees for Quebec students who are Canadian citizens or Permanent Residents are \$62.27 per credit or \$1,868.10 for 30 credits.

In accordance with provincial government requirements, students must provide proof that they qualify for assessment of fees at the Quebec rate; see section 3.2.2.2 "What Documents Do We Need from You?" for details.

Note: Students who do not submit appropriate documentation by the stipulated deadline are billed at the non-Quebec Canadian or the international rate, depending on the documentation submitted.

If proof of status is submitted after a student has been billed, but before the document submission deadline, the tuition supplement will be waived. Should your tuition status be reduced during the evaluation period, any late payment and/or interest charges accumulated on the difference will also be waived.

Non-Quebec Students (Canadian or Permanent Resident)

Tuition fees for non-Quebec students who are Canadian citizens or Permanent Residents are \$179.28 per credit (\$62.27 Quebec rate plus \$117.01 Out of Province supplement) or \$5,378.40 for 30 credits.

In accordance with provincial government requirements, students must provide proof that they qualify for assessment of fees at the non-Quebec Canadian rate; see section 3.2.2.2 "What Documents Do We Need from You?" for details.

Note: Students who do not submit appropriate documentation by the stipulated deadline will be billed at the international rate.

If proof of status is submitted after a student has been billed, but before the document submission deadline, the tuition supplement will be waived. Should your tuition status be reduced during the evaluation period, any late payment and/or interest charges accumulated on the difference will also be waived.

International Students (2007-2008 rates)

At the time of publishing, any increases to tuition fees for international students had not been announced. Students should check

on the Student Accounts Website (www.mcgill.ca/student-accounts) where any announcements will be immediately posted as soon as information is received.

Tuition fees for undergraduate international students ranged from \$465.50 to \$514 per credit (\$13,965 - \$15,420) in 2007-2008.

The international fees listed in section 3.4.11, "Yearly Fees and Charges by Faculty (Estimated for 2008-09)" are representative of fees that students could expect to be charged in each degree program.

Exemption from International Tuition Fees may be claimed by students in certain categories. Such students, if eligible, are then assessed at the Quebec student rate.

A list of these categories and the required application forms can be obtained from Enrolment Services. Information is also available on the Web at www.mcgill.ca/students.

3.4.4 Compulsory Fees (2007-2008 rates)

3.4.4.1 Student Services Fees

Student Services fees are governed by the Senate Committee on the Coordination of Student Services, a parity committee composed equally of students and University staff.

The fee, complemented by revenue from the Quebec government, the University, and the generosity of donors, supports Student Health (including Dental), Mental Health, Counselling and Tutorial, Chaplaincy, Career and Placement, Student Aid and International Student Services, the Office for Students with Disabilities, First-Year Office (including the Francophone Assistant), Off-Campus Housing, and the First Peoples' House. The Office of the Dean of Students also administers the academic integrity process as described in the *Handbook on Student Rights and Responsibilities*.

3.4.4.2 Athletics Fee

The Athletics fee covers athletics facilities, campus recreation (intramurals, fitness & recreation courses, drop-in recreation, etc.), and intercollegiate sports at both the Downtown and Macdonald campuses.

3.4.4.3 Student Society Fees

Student Society fees are compulsory fees collected on behalf of student organizations. Fees must be approved by the student body through fee referenda according to the constitutional rules of the association or society.

Changes to Student Society fees are voted upon by the students during the Spring referendum period.

For Canadian students, the Student Society fees includes Health and Dental Insurance of \$184.60 (SSMU - Downtown campus) or \$144.60 (MCSS - Macdonald campus).

Note: For international students, the Student Society fee includes a Dental Insurance Plan of \$98.20 (SSMU - Downtown campus) or \$76.92 (MCSS - Macdonald campus). International students will be obliged to participate in the University's compulsory International Health Insurance Plan, which, at the 2007-08 rate, costs \$639 for single coverage. For more information, please contact International Student Services: (514) 398-6012.

3.4.5 Administrative Charges

(Fees that follow are an estimate based on the expected cost of living index as calculated by Statistics Canada. These figures will be updated and available on the Student Accounts Website, www.mcgill.ca/student-accounts, based on the index at the end of January 2008.)

3.4.5.1 Registration Charge

The University charges a per-credit registration charge to all students in courses and programs. This is assessed as follows: \$7.02 per credit to a maximum of \$105.30 per term.

3.4.5.2 Information Technology Charge

The purpose of the information technology charge is to enhance certain technology services provided to students as well as to provide training and support to students in the use of new technology. The fee is assessed as follows: \$6.86 per credit to a maximum of \$102.90 per term.

3.4.5.3 Transcripts and Diploma Charge

The University charges a per credit transcript charge to all students. This entitles students to order transcripts free of charge and is assessed as follows: \$1.22 per credit to a maximum of \$18.60 per term.

3.4.5.4 Copyright Fee

All Quebec universities pay a per credit fee to Copibec (a consortium that protects the interests of authors and editors) for the right to photocopy material protected by copyright. The fee is assessed as follows: \$.78 per credit to a maximum of \$11.70 per term.

3.4.6 Other Fees

International Student Health and Accident Plan (compulsory) (based on 2007-08 rates)	
Single	\$639
Dependant (one student with one dependant)	\$1,794
Family (one student with two or more dependants)	\$3,408
Application for Admission	
All programs except MBA - non CEGEP applicants	\$80
Students applying from Quebec CEGEP	\$60
MBA	\$100
Admission appeals charge	\$100
Late Registration	
<i>After regular registration deadline:</i>	
• All eligible returning students, except Special students and Graduate part-time and additional session students.	\$50
• Special students and Graduate part-time and additional session students.	\$20
<i>As of the second day of classes:</i>	
• All students except Special students and Graduate part-time and additional session students.	\$100
• Special students and Graduate part-time and additional session students.	\$40
Late Course Change Fee	\$25
Minimum charge upon withdrawal	\$100
Rereading Examination Paper (refundable if the letter grade is increased)	\$35
Supplemental Examinations, each written paper	\$35
Duplicate ID Card	\$20
Late Payment	\$25
charged on balances >\$50 as of the end of October (end of February for the Winter term)	
Interest on outstanding balances (rate determined in February, to be applicable on June 1 – was 14.9% annually in 2007-08)	
Returned cheque charge	\$20
Schulich School of Music Fees:	
Audition Fee	\$60
Late Music Placement Examination Fee	\$50
Late application fee for Music Performance examination (requires permission from Chair, Performance Dept.)	\$25
Supplemental Practical Examination in Music.	\$150
Music Private Lessons Fee (MUIN, MUPG subject code courses)	\$500

3.4.7 Billings and Due Dates

3.4.7.1 Confirmation of Acceptance Deposit

Students admitted to the University will be required to confirm their acceptance of the offer of admission on www.mcgill.ca/minerva/applicants and pay the required \$200 deposit by credit card (Visa or MasterCard) at that time.

3.4.7.2 Invoicing of Fees

Fees are assessed on a term by term basis.

Electronic billing is the official means of delivering fee statements to all McGill University students. All charges to the student's account, including tuition, fees, health insurance and other miscellaneous charges are on your e-bill. E-bills are generally produced in the first few days of the month and an e-mail notification that the e-bill is ready to be viewed on Minerva is sent to the student's official McGill e-mail address. Charges or payments that occur after the statement date will appear on the next month's statement, but may be immediately viewed on the Account Summary by Term on Minerva (this is the on-line dynamic account balance view).

Interest *will not* be cancelled due to non-receipt of fee invoices. Students should access the Student Accounts Website at www.mcgill.ca/student-accounts for information on payment due dates.

Term	Payment Due Date
Fall term	
Returning students	August 29, 2008
Students new to the University in Fall	September 29, 2008
Winter Term	
Returning students	January 6, 2009
Students new to the University in Winter	January 30, 2009

Late Payment Fees: Students who still have an outstanding balance greater than \$100 on their account as of October 30th (February 28th for the Winter term) will be charged a late payment fee of \$25 over and above interest.

3.4.7.3 Guest Access on Minerva

Students may choose to give access privileges to a guest within Minerva. These privileges include viewing e-Bills/Account Summaries, Tax Receipts and e-payment.

A Web page at www.mcgill.ca/student-accounts/guest describes how students can set up this access. Students are asked to provide certain information about the individual for whom they wish to provide access to their fee-related information. The guest will be contacted by e-mail and provided with a link which they must use within a designated time period.

Students may revoke these access privileges at any time. At the same time, note that Student Accounts staff may respond to questions from your authorized guests regarding the information to which you have given them access.

If students do not wish to give a guest access privileges to Minerva, they may still enter alternative student billing e-mail addresses to which Student Accounts will send a copy of the monthly e-bill notification. However if someone has been granted access as a guest and their guest e-mail is the same as a student billing e-mail address, the University will de-activate the student billing e-mail address in order to only notify your guest about the billings once.

Students are cautioned NOT to share their own PINS with anyone, and guest access allows information about your fee account to be passed to a guest without giving away your PIN.

3.4.8 Fees and Withdrawal from the University

All students who have accessed Minerva to register must officially withdraw in accordance with [section 3.3.9, "Regulations Concerning University Withdrawal"](#) if they decide not to attend the term(s)

for which they have registered. **Otherwise they will be liable for all applicable tuition and other fees.**

Students who have accessed Minerva and who drop their last course from September 1 through to the withdrawal period with full refund will be deemed to have withdrawn from the University. They will be automatically charged a minimum charge of \$100 (or their registration deposit fee, whichever is higher) to cover administrative costs of registration.

Students who discontinue their classes without taking steps to drop their courses will be liable for all applicable tuition and other fees.

3.4.8.1 Fee Refund Deadlines

The deadline dates for course refunds are independent of the deadline dates given for withdrawal from courses.

Fall Term – up to and including September 21:

Returning students – 100%* refund (less minimum charge of \$100 in the case of complete withdrawal)

New students – 100%* refund (less registration deposit or \$100, whichever is higher)

Fall Term – after September 21: No refund.

Winter Term – up to and including January 25:

Returning students – 100%* refund (less minimum charge of \$100 in the case of complete withdrawal)

New students – 100%* refund (less registration deposit or \$100, whichever is higher)

Winter Term – after January 25: No refund.

* Includes tuition fees, society and other fees, student services, registration and transcripts charges, and information technology charge.

If students wish to discuss the refund policy applicable to a special case, they must contact their Faculty Student Affairs Office (Associate Dean or Director).

Music students who, in special circumstances such as illness or injury, are given permission to withdraw from practical instruction after the end of the Course Change period will be charged \$65 per week for 1-hour lessons (\$97.50 for 1½ hours) up to a maximum equivalent to the total fees charged for the course.

Full refunds for practical instruction will be given up to the last Friday of the Course Change period.

3.4.9 Other Policies Related to Fees

3.4.9.1 Overdue Accounts

All tuition and fees assessed by the University must be paid in full or arrangements must be made to settle the debt.

Students' accounts are considered **delinquent** if they are not paid in full within 60 days after the bill is issued. A financial hold will be placed on such accounts, preventing students from obtaining official academic transcripts and from accessing Minerva for any registration functions.

Interest: Interest is charged on overdue balances at the monthly rate of 1.24% multiplied by the balance outstanding at the end of the month (14.9% annually). The rate is evaluated each Spring, at which time it is set for the following academic year.

Students are advised to regularly verify their account balance via Minerva.

The University has no obligation to issue any transcript of record, award any diploma, or re-register a student in the case of non-payment of tuition fees, library fees, residence fees or loans on their due date.

Information for Registered Students

Students who have registered in a given term and who have amounts owing from previous terms must either pay their accounts or make payment arrangements with the Student Accounts Office before the end of the course add/drop period. Students in financial difficulty should first consult the Student Aid Office (Brown Student Services Building, Room 3200; 398-6013) to discuss the possibility of obtaining financial aid.

Failure to pay the previous term's fees or to make arrangements to settle the debt prior to the add/drop deadline will lead to cancellation of registration in the current and subsequent terms.

Information for Students Who Are No Longer Registered

The delinquent accounts of students who fail to settle their debt or reach a suitable arrangement and of students who fail to provide the Student Accounts Office with up-to-date contact information, will be referred to a collection agency. **Where neither the University nor the collection agency is able to collect on the account, the University reserves the right to have the student reported to a credit bureau.** Students should be aware that the University is entitled to use all legal means to obtain payment and that students will be responsible for all costs associated with such actions.

CANCELLING REGISTRATION FOR NON-PAYMENT

In accordance with the fee policy as stated in [section 3.4.9.1](#), **"Overdue Accounts"**:

The Student Accounts Office will make all reasonable efforts to notify students with a delinquent student account, and who have more than \$100 outstanding from the previous term, that their registration will be cancelled for non-payment. The cancellation will be made effective the last day of the drop/add period unless the account has been settled or payment arrangements have been made with the University by then. After the add/drop deadline, students who pay or make payment arrangements with the Student Accounts Office and who want to confirm that their registration for the current or subsequent term(s) should be re-instated must complete the www.mcgill.ca/files/student-accounts/RequestforReinstatementForm.pdf and submit it to the Student Accounts Office, which will forward it to Enrolment Services for approval and processing.

3.4.9.2 Acceptance of Fees vs Academic Standing

Acceptance of fees by the University in no way guarantees that students will receive academic permission to pursue their studies. If it is subsequently determined that the academic standing does not permit the student to continue, all fees paid in advance will be refunded on application to the Student Accounts Office.

3.4.9.3 Fees for Students in Two Programs

Students in two programs normally are billed additional fees for their second program. Depending on the level of the two programs, e.g., one at the undergraduate vs one at the graduate level, students may incur both society and faculty fees and/or additional tuition fees. Consult the Student Accounts Website for further details.

Students in two programs may consult the Fee Coordinator in Enrolment Services for information on tuition fees. Adjustments to bills will be made throughout the term when fees cannot be automatically calculated.

3.4.9.4 Québec Exchange (Inter-University Agreements)

Students taking courses as part of the Inter-University Agreement are required to pay the fees at their home university. The Agreement, therefore, relates solely to the transfer of academic credits. International students in undergraduate programs will not normally be permitted to take IUT courses. Students taking courses as part of the Inter-University Agreement are required to pay additional course charges that are compulsory upon registration in a particular course. Such additional course charges may represent special activity charges or course materials. The University reserves the right to refuse course registrations in non government-funded activities.

3.4.9.5 Senior Citizens

Senior citizens aged 65 and over who require financial aid should be aware that such aid will be available for students enrolled full-time in degree programs. Students in need may contact the Scholarship and Student Aid Office for more information at (514) 398-6013.

3.4.10 Deferred Fee Payment

Students with Sponsors

Students whose fees will be paid by an outside agency such as the Department of Veterans Affairs, CIDA, a foreign government, or their University department (i.e., teaching assistants or demonstrators), must have written evidence to that effect. Sponsors and students alike must inform the University that a sponsorship is taking place so that the contract may be initiated and the student's fee account affected. Notification to the University should occur at least one month prior to the beginning of the term in which the contract is to take effect. Full documentation on the procedure as well as the forms required to be completed are found at

www.mcgill.ca/student-accounts/third.

When a third party has agreed to pay fees on behalf of a student, payment will be recorded on the fee account, thereby reducing the balance the student must pay. The University reserves the right to insist upon payment. **If the third party does not pay the promised fees within 90 days of invoicing, the student will be responsible for paying the fees plus the late payment fee and accrued interest.**

Students Receiving McGill Scholarships/Awards

Fall Term: McGill scholarships or awards normally are credited to the recipient's fee account by mid-August. These awards have the effect of reducing the student's outstanding balance.

Winter Term: Students can view upcoming Winter term scholarships or awards on Minerva once processed by the Student Aid Office. These awards are future-dated and will be released to the student's fee account by January 2.

Students Receiving Government Aid

Students are encouraged to pay their tuition promptly upon receipt of their government assistance. Interest on outstanding tuition is charged monthly beginning in August for returning students and in September for new students. Students who have applied for government assistance by June 30th (June 1st for US students) will be entitled to an exemption of interest and/or late payment charges effective upon receipt of their government aid award at either the Student Aid Office or the Macdonald Campus Student Services.

Students are reminded that tuition and student housing fees have first call upon financial aid received from any source.

3.4.11 Yearly Fees and Charges by Faculty (Estimated for 2008-09)

Tuition fees at the undergraduate level are based on the number of credits taken. The following tables reflect the 2008-09 tuition fees for Quebec and non-Quebec Canadians. In the case of International students, tuition fees are quoted at the 2007-08 rates, as they have not been finalized at the time of publication. Student Society and Student Services/Athletics fees reflect the 2007-08 rates. Society fees are subject to increases as a result of student fee referendums held in the Spring. Administrative charges incorporate an estimate of the increase which will be due to the cost of living index, to be fixed in late February 2008.

Part-time students will be charged tuition fees at the per-credit rate and will be subject to student society fees, student services fees, registration and transcripts charges, and information technology charges.

Any changes to these charges will be updated as they become known via the Student Accounts Website: www.mcgill.ca/student-accounts.

3.4.12 Faculty of Agricultural and Environmental Sciences and School of Dietetics and Human Nutrition

B.Sc.(Ag.Env.Sc.), B.Eng.(Bioresource), B.Sc.(F.Sc.), B.Sc.(Nutr.Sc.)

Fees / Charges	Quebec Students	Non-Quebec Canadians	International Students
Tuition	1,868.10	5,378.40	15,420.00
Society* and Other Fees	259.60	259.60	191.91
Student Services/Athletics	445.00	445.00	445.00
Registration/Transcripts and Diploma Charges	247.80	247.80	247.80
Copyright Fee	23.40	23.40	23.40
Information Technology Charge	205.80	205.80	205.80
TOTAL FEES	\$3,049.70	\$6,560.00	\$16,533.91

*Students in the departments of Food Science & Agr-Chemistry and Dietetics & Human Nutrition pay an additional \$1 in Student Society fees.

3.4.13 Faculty of Arts – B.A.

Fees / Charges	Quebec Students	Non-Quebec Canadians	International Students
Tuition	1,868.10	5,378.40	13,965.00

3.5 Student Records**3.5.1 Academic Standing**

Students enter the University in satisfactory standing and their academic standing is determined soon after the end of a term in accordance with the regulations of their faculty. Standing codes are generated in January for the Fall term, in May for the Winter term, and in September for the Summer term. Students who are placed in unsatisfactory standing must apply to the faculty for re-admission. Consult the appropriate section of this Calendar for the Regulations on Academic Standing that apply to a particular faculty.

3.5.2 Credit System

The faculties listed in this Calendar use the credit system, where each course is assigned a credit rating reflecting the number of weekly contact hours. In general, a three-credit course indicates three hours of lectures per week for one term but this does not apply to all faculties. Laboratory contact hours usually count for fewer credits. Credits also reflect the amount of effort required of students and generally assume two hours of personal study for each contact hour.

The credit weight of each course is indicated in parentheses beside the course title.

Note: Credit for multi-term courses (courses with the suffix sets: D1, D2; N1, N2; J1, J2, J3) is granted only after successful completion of all components in the specified time frame. For example, a student would have to take D1 and D2 components in

consecutive terms and successfully complete them both in order to obtain credit.

Some faculties have specific policies on course credit, so students should consult the faculties' sections of the Calendar for more information (e.g., Agricultural and Environmental Sciences: see section 13.5.7 "Credit System", Engineering: see section 8.3.5.4 "Course Credits"; Science: see section 12.3.6.6 "Course Credit Weight").

3.5.3 Grading and Grade Point Averages (GPA)

Courses can be graded either by letter grades or in percentages, but the official grade in each course is the letter grade. Effective with the Fall term of 2002, all verification forms, transcripts and other documents show only letter grades for all subsequent terms. Where appropriate, a class average will be calculated and appear on transcripts expressed as the letter grade most representative of the class performance.

Grades A through C are termed satisfactory passes, D a conditional (non-continuation) pass, and F a failure. Certain courses have been approved for Pass/Fail (P/F) grading. Students may also designate elective courses to be graded under the S/U option; see section 3.3.6 "Courses Taken under the Satisfactory/ Unsatisfactory (S/U) Option".

Students must obtain grades of C or better in courses used to fulfil program requirements. Students may not register in a course for which they have not passed all the prerequisite courses with a grade of C or better, except by written permission of the Department Chair concerned.

Grades	Grade Points	Numerical Scale of Marks
A	4.0	85 - 100%
A-	3.7	80 - 84%
B+	3.3	75 - 79%
B	3.0	70 - 74%
B-	2.7	65 - 69%
C+	2.3	60 - 64%
C	2.0	55 - 59%
D	1.0	50 - 54%
F (Fail)	0	0 - 49%

Letter grades are assigned grade points according to the table shown above. A student's academic standing will be determined on the basis of a grade point average (GPA), which is calculated by dividing the sum of the course credit times the grade points by the total course GPA credits.

GPA credits are the credits of courses with grades that are assigned grade points.

$$\text{GPA} = \frac{\sum (\text{course credit} \times \text{grade points})}{\sum (\text{GPA course credits})}$$

The term grade point average (TGPA) will be the GPA for a given term calculated using all the applicable courses at the same level in that term. The cumulative grade point average (CGPA) will be the GPA calculated using the student's entire record of applicable courses at McGill at the same level; if the level is changed, e.g., from undergraduate to graduate, the CGPA starts again. This policy took effect January 2003. Prior to January 2003, if a student's degree program had changed, e.g., from B.Sc. to B.A., the CGPA started again. For students with academic information prior to Fall 2002, who are registered in a different program or in a different level post-Fall 2002, the transcript displays a special message regarding the CGPA restarting. If courses are repeated, all results are included in the GPA calculation. Therefore, grades of D or F continue to be used in the CGPA calculation even after the course is repeated or if a supplemental examination is taken. Students should note that credits are only granted once for a repeated course regardless of the passing grade.

3.5.3.1 Other Grades

- J** – unexcused absence (failed): the student is registered for a course but does not write the final examination or do other required work; calculated as a failure in the TGPA and CGPA (see note below).
- K** – incomplete; deadline extended for submission of work in a course (see section 3.5.4 “Incomplete Courses”).
- KE or K*** – further extension granted (see section 3.5.4 “Incomplete Courses”).
- KF** – failed to meet the extended deadline for submission of work in a course; calculated as a failure in TGPA and CGPA.
- KK** – completion requirement waived. Not calculated in TGPA or CGPA.
- L** – deferred examination.
- LE or L*** – permitted to defer examination for more than the normal period.
- NR** – no grade reported by the instructor (recorded by the Registrar).
- P** – pass; not calculated in TGPA or CGPA.
- Q** – course continued in next term (applicable only to courses taken pre-Fall 2002).
- S** – satisfactory; equivalent to C or better in an elective course; not calculated in TGPA or CGPA. (See section 3.3.6, “Courses Taken under the Satisfactory/ Unsatisfactory (S/U) Option”).
- U** – unsatisfactory; equivalent to D or F in an elective course; not calculated in TGPA or CGPA. (See section 3.3.6, “Courses Taken under the Satisfactory/ Unsatisfactory (S/U) Option”).
- W** – withdrew; a course dropped, with permission, after the Course Change deadline; not calculated in TGPA or CGPA.
- WF** – withdrew failing; a course dropped, with special permission in an exceptional case, after faculty deadline for withdrawal from course, the student's performance in the course at that stage being on the level of an F; not calculated in TGPA or CGPA. (Not used in Music.)
- WL** – faculty permission to withdraw from a deferred examination; not calculated in TGPA or CGPA.
- NA or &&** – grade not yet available.
- W-- or --** – no grade: student withdrew from the University, not calculated in TGPA or CGPA.

Note re J grade: All students who miss a final exam will be given a grade of J. The student will then have the following options:

- ask to be assigned a grade based only on the grades earned for the work submitted up to, but not including, the final exam. The grade earned will be calculated by adding the grades obtained on the individual pieces of work and a grade of 0 for the portion of the final grade allocated to the final exam. This option is not available if the professor has stipulated in the course outline that the final exam is a required part of the evaluation;
- request a deferred exam, if the student has the appropriate reasons and documentation.

Students must make their request for option a) no later than four months after the end of the examination period of the original course. Requests for deferred exams (option b) must be made by the faculty deadlines as indicated in the faculty sections of this Calendar. Students wishing to appeal a J grade should write to the Associate Dean of their faculty (or Director, BCom Program, the Desautels Faculty of Management).

3.5.4 Incomplete Courses

If, in the instructor's opinion, there is sufficient reason to permit a delay in the submission of required term work, an extension of the deadline after the end of the course may be granted to the student. In this case, the instructor will submit a grade of K (incomplete).

If a grade of K is submitted, the instructor will also indicate the date by which the student must complete the work. Consult the faculty sections for maximum extensions.

If the instructor submits a new grade within the deadline, both the new grade and the grade of K will appear on the student's faculty reports and verification forms. However, on the student's official transcript the new grade will replace the K.

If the required work is not completed before the deadline, a grade of KF will be updated on the student's record. A KF denotes a failed course and is calculated in the TGPA and CGPA the same as an F.

In exceptional circumstances, and with the approval of the Associate Dean (or Director, BCom Program, Desautels Faculty of Management), the deadline may be extended further, in which case the grade of KE (further extension granted) will appear. If the extended deadline is not met, a grade of KF will replace the KE. Music students who have marks of K not cleared by mid-May are ineligible for scholarships.

Students who have not, without a valid excuse, participated in or written a final examination or submitted required term work for any courses they were registered in shall be assigned a final grade of J (unexcused absence). For more information, see note regarding J grade above.

3.5.5 Transfer Credits

Students may be granted credit for courses passed with a grade of C or better at other universities, as long as they are within the number of credits imposed by McGill's residency requirements and program requirements in some faculties. In general, a maximum of 30 transfer credits may be granted. Students must be in satisfactory standing in order to be granted the transfer credits. Courses with grades of C-, P, and S will not be considered for transfer credits. The letter grades applied by the host institution take precedence over the numerical grades if both are provided. Students should note that a minimum of 60 credits must be completed at McGill in order to qualify for a McGill degree.

Students must obtain approval from their Student Affairs Office. In some faculties approval must be obtained from the Student Affairs Office as well as the academic adviser prior to taking the course, especially if the course is taken as part of a student's program requirements.

Grades earned at the host university for transfer courses are not entered on the student's McGill transcript and are not included in the calculation of the TGPA or CGPA.

For universities outside Quebec, it is the student's responsibility to ensure that an official transcript is sent from the host institution to the Student Affairs Office (Agric. & Envir. Sc., Arts, Education, Engineering, Management, Music, and Science). It is the student's responsibility to process the request for transfer of credits with their home faculty at McGill **within six months of return from the exchange program or study away**. Students studying at another Quebec university on an Inter-University Transfer Agreement (IUT) will have their grade(s) sent to McGill University automatically by the host university. For additional information, please refer to section 3.3.5, “Quebec Inter-University Transfer Agreement (IUT)”.

Transcripts for transfer courses must meet the following deadlines:

- April 30, if term of graduation is to be Winter (Convocation in Spring)
- September 15, if term of graduation is to be Summer (Convocation in Fall)
- January 15, if term of graduation is to be Fall (degree granted February, Convocation in Spring)

Transcripts not received by the appropriate date will be considered for the next graduation period only.

3.5.6 Verification of Student Record

3.5.6.1 Unofficial Transcripts

Subject to [section 3.5.7, "Changes to Student Records after Normal Deadlines"](#), students are responsible for verifying their academic record on Minerva using the unofficial transcript to ensure that they are registered in the proper courses, and that the correct program information and expected term of graduation is appearing on their record.

Graduating students must make sure to verify their record on Minerva prior to the end of term in which they are graduating to ensure that the correct expected term of graduation is indicated on their unofficial transcript; if not, the student may be overlooked for graduation. Any questions or problems with their record should be directed to the Student Affairs Office.

3.5.6.2 Degree Evaluation

Degree Evaluation is a Minerva tool to help students and advisers compare the student's academic record with the requirements of a specific program. Students with access to Degree Evaluation on Minerva can review their progress within their current program. Also, if considering a change in program, students can generate a "what-if" comparison of their academic record with the requirements of another program.

The presentation in the degree evaluation report may have a different appearance than the requirements set out in the calendar. For example, a long listing of courses in the calendar may be grouped into one course "attribute" on the report.

Degree Evaluation also provides a central record of adviser/faculty-approved adjustments to a student's program of study, e.g., the replacement of one specified course with another or acceptance of a non-McGill course for credit.

Students using Degree Evaluation are reminded that it is an advising tool only. A Degree Evaluation Report that indicates program requirements have been satisfied does NOT constitute approval to graduate.

For details regarding Degree Evaluation including "reading a degree evaluation report," please consult the Registration, student records and exams Website at: www.mcgill.ca/student-records/degree-evaluation.

3.5.7 Changes to Student Records after Normal Deadlines

3.5.7.1 Student Record Changes

Student record changes include the following: course add or course drop, course withdrawal, university withdrawal, program change (including changing minors or concentrations).

3.5.7.2 Registrar Deadlines

Fall term - January 31

Winter term - June 1

Summer term - October 1

3.5.7.3 Before Registrar Deadlines

For record changes after the normal deadlines published in the calendar, but before the Registrar deadlines above, the student must make a request in writing to the Associate Dean of their faculty (or Director, BCom Program, Desautels Faculty of Management), clearly explaining the reasons why the change could not have been requested prior to these dates. The Associate Dean will then review the request and render a decision. If permitted, the change will then be processed according to existing faculty and Enrolment Services student record procedures.

3.5.7.4 After Registrar Deadlines

A change that is requested after the Registrar deadlines above will not normally be considered. In situations where there are "extraordinary personal" or "extraordinary academic" circumstances that could not have been foreseen prior to these deadlines, students may formally request a student record change from the Associate

Dean of the faculty (or Director, BCom Program, Desautels Faculty of Management). If the Associate Dean of the faculty approves the request, the change will then be processed according to faculty and Enrolment Services student record procedures. For all changes other than grade changes, full documentation supporting extraordinary circumstances will be filed by the faculty with Enrolment Services.

3.5.7.5 Fee Assessment Consequences

When a change to the student record is made, the revised fee assessment will be reflected on the next fee statement.

If a student wishes to contest the fee assessment, he or she must make a request in writing to Enrolment Services. ES, upon reviewing the extraordinary circumstances described in the supporting documentation provided by the faculty, and upon consultation with the Student Accounts Office if necessary, will decide whether or not to consider the request and will advise the student in writing of the outcome.

3.5.7.6 Student's Citizenship and/or Immigration or Fee Exemption Status

Changes related to student's citizenship and/or immigration or fee exemption status are not handled by the Faculty and are dealt with in [section 3.2.2, "Legal Documents"](#).

3.5.8 Transcript of Academic Record

3.5.8.1 Unofficial Transcripts

Students who require a copy of their student record can view and print their own unofficial transcript by accessing Minerva. This applies to records from 1976 to present. For pre-1976 records, an official transcript must be ordered.

3.5.8.2 Official Transcripts

Official transcripts can be ordered on-line via **Minerva** by going to Student Menu->Student Records Menu->Request Printed/Official Transcript. Students who cannot access Minerva should fill out the "Request for Release of Official Document" form available on-line at www.mcgill.ca/student-records/transcripts or in person at Enrolment Services at the address below. Transcript requests may be submitted by mail, by fax, or in person but must be signed by the student. To protect privacy, we do not accept telephone or e-mail requests.

Enrolment Services
James Administration Building
845 Sherbrooke Street West, Room 205
Montreal, Quebec H3A 2T5
Fax: (514) 398-8939

3.5.8.3 General Information

Transcripts are free of charge.

Official transcripts are sent directly to the addresses provided by the student. Official transcripts in sealed envelopes can be given to those requesting them.

Requests are processed in 3 to 5 working days, somewhat longer for pre-1976 records and at peak times.

Enrolment Services is not responsible for transcripts that are lost or delayed in the mail.

The University will issue only complete transcripts recording all work attempted and results obtained in any and all programs. In no circumstances will partial transcripts be issued.

Official transcripts will NOT be issued for students registered on or after September 2001 who have failed to provide the information and/or documents necessary to obtain or verify their Permanent Code.

Transcripts will not be issued if you owe fees or fines over \$30.

Official transcripts are produced on secure paper that cannot be copied.

3.5.8.4 Course Numbering on the Transcript

Prior to September 2002, course numbers had a seven-character designation beginning with the three-number code for the teaching unit/department. The next three digits specified the course, with the first of these indicating its level. The final character was a letter indicating the term, or terms, during which the course was offered. For example:

107-200A = Philosophy (107) course (200) in Fall term (A);
301-202B = Architecture (301) course (202) in Winter term (B);
154-230D = Economics (154) course (230) extending for two terms, Fall and Winter (D).

A list of the former Teaching Unit Codes and their Subject Code equivalents is available on the Web at

www.mcgill.ca/student-records/transcripts.

3.6 Examinations

3.6.1 Examinations – General Information

In addition to the general policies listed here, students should consult the faculty sections of this Calendar for particular regulations. Students will be informed by the end of the change of course period of the evaluation method to be used in each course.

Every student has a right to write term papers, examinations and theses in English or in French except in courses where knowledge of a language is one of the objectives of the course.

Students will not be permitted to write an examination in any course unless they have fulfilled the requirements of the course to the satisfaction of the instructor and the Associate Dean (or Director, BCom Program, Desautels Faculty of Management). Once students have presented themselves for an examination or test, they must submit all written work to the invigilator before leaving.

Students writing examinations must have with them their valid McGill student ID card. Forgetfulness cannot be considered an acceptable excuse.

Students are reminded that cheating in any examination is considered a serious offence which could lead to expulsion from the University. Students are not permitted to have in their possession, or to use, any unauthorized materials during an examination. This includes electronic devices such as cellphones, iPods, MP3 players, PDA's and other web-access devices. Unauthorized items found on the student or desk area during an exam will be confiscated and turned over to the Disciplinary Officer.

Responses on multiple choice examinations are normally checked by the Exam Security Computer Monitoring Program. The program detects pairs of students with unusually similar answer patterns on multiple-choice examinations. Data generated by the program can be used as admissible evidence either to initiate or corroborate an investigation or a charge of cheating under Section 16 of the Code of Student Conduct and Disciplinary Procedures.

All students are responsible for knowing the University Examination Regulations and the Code of Student Conduct and Disciplinary Procedures. The former are normally posted during the examination period and are available at the following Website: www.mcgill.ca/student-records/exam/regulations. Both may be obtained from the Office of the Associate Dean (or Student Affairs Office, BCom Program, Desautels Faculty of Management).

Information about issues related to academic integrity can be found at www.mcgill.ca/integrity.

Class Tests

Members of the teaching staff may from time to time give interim class tests if they think them necessary.

Special Facilities

Students with visual or other disabilities should consult the Coordinator, Office for Students with Disabilities, Brown Building, about the possibility of special examination facilities.

Credit by Examination

In certain exceptional cases and in certain faculties, students may apply to the Associate Dean (or Director, BCom Program, Desautels Faculty of Management) to write a final examination in order to obtain credit in a course for which they were not registered. This is possible only in those courses where there is no other assessment except the final examination.

3.6.2 Final Examinations

Formal final examinations are held during an examination period following the term in which the course is given. The dates of the examination periods are listed in the Calendar of Dates. **Students are warned not to make travel arrangements to leave Montreal prior to the scheduled end of any examination period.** In some courses there is no final examination; standing in these courses is determined on the basis of term work and class tests.

3.6.2.1 University Regulations Concerning Final Examinations

Preamble

The objectives of these regulations are as follows:

- 1) to protect students from excessive workloads;
- 2) to use the full 15-week term to maximum advantage.

Regulations

1. These regulations shall apply to undergraduate courses up to and including the 500 level that are evaluated by the use of written examinations. They shall not apply to clinical, field, laboratory, performance, and seminar courses, or to other courses that are evaluated solely by means of a design, paper, program, or project.
2. Written examinations (including take-home examinations) shall not be held during the last two weeks of scheduled classes during the Fall and Winter terms, except where a pattern of continuous evaluation has been established, in which case the total value of examinations given in this period shall comprise no more than 10% of the final mark.
3. If the written examinations in a course constitute 50% or more of the final mark, one of these shall be given as a final written examination; and it shall take place during the examination period after the last day of scheduled lectures in December or April.
4. A final examination given during the examination period shall be worth at least 25% of the final mark.
5. Students shall be informed of all course requirements by the end of the course change period. All term work shall be assigned early enough in the term for students to complete the assignment(s) by the last day of class.
6. The due date for term work in courses to which these regulations apply shall be no later than the last day of classes.
7. In courses that span the Fall and Winter terms (course pairs with numbers ending D1 and D2), instructors who wish to give a mid-year examination in December must schedule it in the formal examination period.
8. The principles enunciated in these regulations shall be applied, appropriately modified, to courses given during the summer, to other courses of less than a 13-week duration, and to courses in the Faculties of Law, Medicine, Dentistry, and Education that do not follow the normal University Timetable.
9. Individual faculties may propose variations in these regulations to the Academic Policy and Planning Committee in order to meet their special needs.
10. These regulations, and any variations to them, shall be made known to students by each faculty.

Instructors are not permitted to grant any special treatment regarding examinations to any student. Students who believe there are circumstances which might justify making special examination arrangements for them or which might legitimately be taken

into account in evaluating their performance should apply to the Associate Dean of their faculty (or Director, BCom Program, Desautels Faculty of Management).

It is the responsibility of the student to confirm the date, time and place of the examination by checking examination schedules posted on notice boards on campus and on the Web at www.mcgill.ca/students. This information is not available by telephone. No student will be allowed to enter an examination later than one hour after it has started.

3.6.2.2 Deferred Examinations

Students who, for serious reasons such as illness or family affliction, have not written one or more examinations, may receive the permission of their own faculty Student Affairs Office to defer the examination to the next supplemental examination period, except in the Faculty of Engineering (where students write the examination the next time the course is given). Students should be aware that deferred examinations are granted only for compelling reasons, verified and accepted by the Student Affairs Office. Supporting evidence such as an appropriate medical report is required. The Student Affairs Office must be informed as soon as possible after the examination of the reason for their absence from the examination.

Students in the following faculties must apply for deferred exams on Minerva: Agricultural and Environmental Sciences, Arts, Education, Engineering, Religious Studies, Science, School of Physical and Occupational Therapy, School of Social Work, and the Centre for Continuing Education. Students belonging to faculties not mentioned in the above list should consult their own Faculty for application procedures.

Final application deadline in Arts, Science, Education, Engineering, and Management for deferred examinations is January 15, for Fall term courses, and May 15, for Winter term courses and courses that span the Fall and Winter terms. The Faculty of Agricultural and Environmental Science (FAES) also offers deferred exams for the Fall and Winter period. FAES students should verify dates in the Calendar of Dates and consult their Student Affairs Office for procedures.

If the request is approved, an L will appear in place of a grade in such courses. The grade obtained in the deferred examination after it has been written will replace the grade of L on the student's official transcript.

No supplemental examinations are available for students who receive a grade of D, F, J, or U in a course after a deferred examination. Such students must either re-register in the same course the following term or in an approved course substitute.

A Music student who has a mark of L not cleared by mid-May is ineligible for scholarships.

If deferred status is not granted, the student will receive a grade of J in the course, which will count as a failure in the GPA and CGPA. The student may, however, be allowed to write a supplemental examination. **Please note there are no supplemental exams in Agricultural and Environmental Sciences or Management courses. For the Faculty of Engineering, supplemental exams are exceptionally offered for some Science, Humanities and Social Sciences courses - for a list of available courses, please visit the Faculty of Engineering's Website (www.mcgill.ca/engineering).**

Students in Summer term courses should check with their Student Affairs Office on the availability and restrictions on deferred and supplementary examinations in such courses.

In the event of illness, it is recommended that students consult the McGill Health Service. A medical note is required in support of a request to the Associate Dean of a faculty or a Program Director of a school, as appropriate, for deferred examinations.

Students who have already written an examination may not subsequently request that the exam be deferred. Such students should consult their faculty office regarding the availability of supplemental examinations.

3.6.2.3 Reassessments and Rereads

In accordance with the Charter of Student Rights, and subject to the conditions stated therein, students have the right to consult any written submission for which they have received a mark and the right to discuss this submission with the examiner. If, after such discussion, students want to have a formal final examination reread, they must apply in writing to the Student Affairs Office (the Department Chair in Music and the Associate Dean Students Affairs in the Faculty of Agricultural and Environmental Sciences). Students should check with that office regarding application deadlines for formal rereads.

For more detailed regulations concerning reassessments and rereads, students should consult their faculty section in the appropriate University Calendar.

3.6.3 Invigilation (Exams from Other Universities)

Upon request, McGill will offer an invigilation service enabling students to write exams given by other universities. Exams must be scheduled on weekdays at 9:30 a.m., and cannot be scheduled on evenings, weekends, statutory holidays, McGill holidays, or Fridays during the months of July and August.

The Cost

The cost for invigilation and administration is \$50 per student per exam plus \$10 for courier charges to Canada and \$20 to the USA and \$30 courier charges to overseas.

The home university should confirm in advance of the exam date if it is paying; otherwise, the student will be charged.

Setting Up

Please confirm the exam date and time well in advance of the scheduled exam and also provide your phone number and e-mail address.

Exams and examination booklets, along with full instructions, should be sent to this address well in advance of the scheduled exam:

Enrolment Services
James Administration Building, Room 205
McGill University
845 Sherbrooke St. West
Montreal, Quebec H3A 2T5
Telephone: (514) 398-2207
Fax: (514) 398-5544
E-mail: proctor.arr@mcgill.ca

3.7 Internships, Exchanges and Co-op Programs

3.7.1 Internships and Co-op Programs

Several faculties at McGill offer undergraduate students the opportunity to participate in an internship or co-op program.

Faculty of Agricultural and Environmental Sciences students, see [section 13.1.3.1, "Internship Opportunities and Co-op Experience"](#).

Desautels Faculty of Management students, see [section 9.3.6, "Career Services"](#).

Faculty of Engineering students, see [section 8.2.8, "EIP: Engineering Internship Program and IP – Industrial Practicum"](#). The Department of Mining and Materials Engineering also offers Co-op programs in Metallurgical and Mining Engineering.

Students in the Faculty of Science should refer to [section 12.11.9, "Internship Programs – Industrial Practicum \(IP\) and Internship Year in Science \(IYS\)"](#).

Students in the Faculty of Arts should refer to the Arts Internships Website: www.mcgill.ca/arts-internships.

3.7.2 Exchange Programs

For information on Exchange Programs, see [section 15.3, "Exchange Programs"](#).

For Desautels Faculty of Management students, see also [section 9.3.4, "International Student Exchange Program"](#).

3.7.3 Field Studies

For information on Field Studies, see [section 15.1.3, "Field Study Semesters and Off-Campus Courses"](#).

3.7.4 Quebec Government Ministère de l'Éducation, du Loisir et du Sport (MELS) Travel Awards for Quebec Residents

For information on Quebec Government Ministère de l'Éducation, du Loisir et du Sport (MELS) Travel Awards for Quebec Residents, see [section 15.3.3.2, "Quebec Ministère de l'Éducation, du Loisir et du Sport \(MELS\) Travel Awards for Quebec Residents"](#).

3.8 Scholarships and Student Aid

The Scholarships and Student Aid Office offers a complete range of merit and need-based awards for entering and in-course undergraduate students. As well, the office administers all federal, provincial and US government student aid programs. For information and links to government Web sites, please consult www.mcgill.ca/studentaid. Comprehensive information concerning all undergraduate awards is also contained in the Undergraduate Scholarships and Awards Calendar available on the Web at www.mcgill.ca/courses or from the Scholarships and Student Aid Office.

3.8.1 Entrance Awards for McGill Students

Undergraduate Entrance Scholarships are available to students entering McGill University in the first year of their first undergraduate degree program. Students should consult www.mcgill.ca/studentaid/scholarships/entrance for details, the highlights of which include:

- Entrance Scholarships are entirely merit-based and financial need is not considered
- Value ranges from \$3,000 to \$10,000
- There are two types: the One-Year **Basic**, whereby eligibility is based solely on academic achievement, and the renewable **Major**, based on academic achievement as well as leadership qualities in school and/or community activities
- Application Procedures:
 - **Basic:** by applying to McGill, all eligible applicants are automatically considered. No separate application is required.
 - **Major:** candidates will be able to apply for a Major Scholarship on the Web after their application for admission has been submitted and they have received an e-mail acknowledgment
- Students must ensure that they have sent in all required supporting documentation
- Applicants to Dentistry, Law, Medicine and Music must inquire at their respective faculty's admissions office regarding availability of awards
- For complete information and regulations for Entrance Scholarship recipients, please visit www.mcgill.ca/studentaid/scholarships/recipients.

Need Based Entrance Financial Aid: This program offers financial aid to students from families of modest means who require assistance to enable them to attend McGill. Upon acceptance to the University, first year, first degree students may apply for an

entrance bursary on Minerva. The value of the entrance bursary depends on the degree of need of the student. Since financial need is the primary criterion in the selection of award recipients, it is expected that applicants of this program will apply to the government student aid programs for which they may be eligible.

3.8.2 In-Course Awards for McGill Students

Faculty scholarships and awards are decided by the individual Faculty Scholarships Committees, and students should consult the appropriate section of this Calendar for regulations and information concerning these awards, or the Undergraduate Scholarships and Awards Calendar, or the following Website: www.mcgill.ca/studentaid/scholarships/in-course.

- Most undergraduate scholarships and awards are granted on the basis of the combined GPA for the Fall and Winter terms, or a ranking in the top 5% of the Faculty. Applications are not required unless specifically indicated in the terms of an award.
- To be considered for in-course awards and/or the renewal of entrance scholarships, students must complete at least 27 graded credits in the regular academic year exclusive of courses completed under the Satisfactory/Unsatisfactory option. Summer courses are not considered.
- Courses taken at other Quebec universities through the Inter-University Transfer (IUT) Agreement, to a maximum of 6 credits, may be counted towards the requirements for scholarship renewal or for consideration for other academic awards. Eligibility will be based on all courses taken during the regular academic year and on both the McGill GPA as well as the global GPA, which will include the IUT credits.
- Students should inform themselves of all regulations regarding in-course awards by consulting www.mcgill.ca/studentaid/scholarships/in-course/regulations.
- A maximum of the top 10% of the students in each faculty based on the combined GPA for the fall and winter terms are named to the Dean's Honour List. This designation, while carrying no monetary reward, is an official University recognition of the student's achievements and is recorded on the transcript.
- Outstanding students, who rank in a maximum of the top 5% of their faculties, may also be considered for the J.W. McConnell and James McGill Awards, which are made by the University Committee on Scholarships and Student Aid to top students as ranked and recommended by each faculty.
- All awards, with the exception of prizes, are credited to the tuition fee accounts of students for the following academic year
- Students holding renewable scholarships granted by the University Committee on Scholarships and Student Aid will be eligible for renewal only if they meet the McGill standards for renewal.

Need Based Student Aid: The University offers a program of In-Course Financial Aid to full-time undergraduate degree students on the basis of demonstrated financial need. Need-based financial aid for in-course students includes bursaries, short and long term loans, a Work Study Program, and a Travel Award Program for exchanges/study abroad. In order to be considered for McGill Financial Aid, it is recommended that all applicants apply for the maximum government student assistance program for which they are eligible. The Scholarships & Student Aid Office oversees all provincial, federal and US student aid programs and disburses government funds.

Student Aid Counsellors are available for consultation on an individual basis to provide advice on budgeting and debt management, and to award financial assistance to needy and deserving students.

3.8.3 Work Study Program

The Work Study Program provides students with financial assistance through part-time employment on campus. Acceptance to

the program is based primarily on financial need. Academic standing is also considered. Work Study positions are varied ranging from clerical work in an administrative office to research with a professor. In addition to helping students cope with their financial obligations, Work Study also provides practical work experience which may enhance future employment opportunities.

Further information is available on McGill's Work Study Website at: www.is.mcgill.ca/studentaid/workstudy.

3.9 Graduation

In order to graduate, a student must complete faculty and program requirements. **It is the student's responsibility to ensure that all faculty requirements are met before graduation.** All students should contact their advisers (Senior Student Adviser, in Music) early in the graduating year with any questions as to whether they will meet the necessary program requirements by graduation time.

3.9.1 Apply to Graduate

Most undergraduate students and non-thesis graduate students (master's, certificates, diplomas) must use Minerva to apply to graduate. It is your responsibility to inform us of your intention to graduate. A student must complete a minimum residency requirement of 60 credits at McGill in order to qualify for a McGill degree. The minimum CGPA required to graduate is 2.00.
Deadlines:

- Students who intend to graduate at the end of the fall term (courses completed December for June convocation) must apply on Minerva by the end of November.
- Students who intend to graduate at the end of the winter term (courses completed April for June convocation) must apply on Minerva by February.
- Students who intend to graduate at the end of the summer term (courses completed by August for October convocation) must apply on Minerva by March.

Students who have missed these deadlines must contact their Faculty Student Affairs Office immediately.

The Application for Graduation is available on Minerva for students who have registered for their final year, **except** for students in the Faculties of Medicine and Dentistry who are automatically flagged for graduation in their final year. For more information on how to apply on Minerva, go to www.mcgill.ca/minerva-students/records/graduation.

3.9.2 Graduation Approval Query

Graduating students may view the status of their graduation record on Minerva as part of the Faculty review and approval process. The menu option called "Student Graduation Query" is accessed via the Student Records menu option on Minerva, and becomes available to graduating students approximately 3-4 weeks before the "degree granted" notation is updated on their records.

If all requirements for graduation are met, the student's record on Minerva will be updated with the "degree granted" notation at the appropriate time:

- late February, if term of graduation is Fall (Convocation in Spring)
- late May, if term of graduation is Winter (Convocation in Spring)
- late October, if term of graduation is Summer (Convocation in Fall)

Note: Information regarding the Convocation ceremonies can be obtained on the McGill Website at www.mcgill.ca/convocations.

3.9.3 Replacement Diploma

There are several instances when students might request a replacement diploma: if your diploma was lost, damaged, or if the name on the diploma should be changed. Students must make a request in writing and should also include a certified cheque or money order for the amount of CDN \$60 made payable to McGill University. Students should refer to the sections below to determine which situation applies to them. All requests should be sent to:

Enrolment Services
Duplicate Diploma Request
McGill University
James Administration Building, Room 205
Montreal QC H3A 2T5
E-mail: registration@mcgill.ca

Please note that requests made on behalf of a student must be accompanied by a signed letter of authorization from the student.

To replace a lost diploma: Students must provide a sworn affidavit from a notary, a lawyer or a commissioner of oaths certifying that the diploma is lost. The affidavit should include: full name; student number; address; phone number; date of birth; degree granted/year granted; reason for a replacement diploma.

To replace a damaged diploma or change the name on the diploma: Students must send or deliver the original diploma. Include clear and complete photocopies of legal documents supporting the name change. Please refer to [section 3.2.4, "Name"](#) for the list of acceptable documents. Please note that the name change must be processed in the system before a duplicate diploma can be issued. Students must enclose a letter containing the following important information: full name; student number; address; phone number; date of birth; reason for a replacement diploma; new spelling/grammar changes.

3.10 Professional and Graduate Studies

Students intending to proceed into Dentistry, Law or Medicine should consult the faculties concerned about their prerequisites for admission.

3.10.1 Language Requirements for Professions

Quebec law requires that candidates seeking admission to provincially recognized professional corporations* must possess a working knowledge of the French language, that is, be able to communicate verbally and in writing in that language.

To demonstrate this capability, candidates will be required to pass an examination set by the Office de la langue française, unless they can show that three years of full-time instruction in a French post-primary school have been completed. Candidates who have completed their secondary education in Quebec in 1986 or later and have received their certificate from secondary school are exempt from writing the examination. The professional corporation will require this certificate, proof of attendance or of successful completion of the Office examination.

The examination may be attempted by registered students during the two years prior to the date they receive a degree giving

access to a professional corporation. Application forms for sitting the exam while still a student may be obtained from Enrolment Services. Priority will be given to those closest to graduation. Examinations take place every three months and may be attempted an unlimited number of times.

More information may be obtained from the Office de la langue française, 125 Sherbrooke Street West, Montréal, Québec, H2X 1X4. Telephone: (514) 873-6565.

Students who need to acquire a functional level of proficiency in French may take courses from either the English and French Language Centre, Faculty of Arts, or the Centre for Continuing Education, 688 Sherbrooke Street West, telephone (514) 398-6200.

Students already proficient in French but who wish to keep up practice might consider courses in the Department of French Language and Literature, Faculty of Arts.

Note: Non-credit language courses, and in some cases credit language courses, completed at the Centre for Continuing Education may not be applied to program/degree requirements. Consult your Faculty for clarification.

* McGill degrees and diplomas currently give access to corporations regulating the activities of the following professional groups:

Agrologists	Lawyers
Architects	Licensed General Accountants
Chartered Accountants	Occupational Therapists
Chartered Appraisers	Physicians
Chemists	Physiotherapists
Dentists	Psychologists
Dietitians	Social Workers
Engineers	Speech Therapists and Audiologists
Geologists	Urbanists
Industrial Administration Accountants	Vocational Guidance Counsellors
Industrial Relations Counsellors	

3.10.2 Graduate Studies

Please note that students who intend to pursue graduate studies at McGill are not automatically admitted. Further information is available at www.mcgill.ca/applying/graduate, and in the Graduate and Postdoctoral Studies Calendar also available on the Web at www.mcgill.ca/courses.

Additional information regarding postgraduate awards is available at www.mcgill.ca/gps, or from the Graduate and Postdoctoral Studies Office, James Administration Building, Room 400, 845 Sherbrooke Street West, Montreal, QC H3A 2T5.

Inquiries about graduate assistantships should be directed to the individual departments.

4.1 Undergraduate Advising

4.1.1 Advising and the University Mission

The Mission Statement of the University expresses the commitment to offer students “the best education available”. An essential component of this is the advising process. Because advising takes place in many ways and locations at McGill, it is important that students learn about the different types of advisers (see below) and how each of them can provide students with assistance in reaching their goals.

4.1.2 The Role of the Student in Advising

The active participation of students in the advising process is essential in order for them to access the full range of academic opportunities during their studies. They must be proactive in seeking meetings with various advisers, professors, counsellors, and such to ensure that they receive the advice they need to formulate a personal plan of study and to meet their academic goals. It should be noted that, while advisers are there to provide students with guidance, students are ultimately responsible for meeting the requirements of their degree or diploma. It is their responsibility to inform themselves about the rules and regulations of the University, their faculty, and their program. With the students' cooperation, all advisers and counsellors will work together to help students throughout their undergraduate studies.

4.1.3 Types of Advising and Advisers

While at McGill, students have access to a variety of advisers, mentors, and counsellors who have different skills, expertise, and levels of authority. Students should ensure that they seek academic and personal advice from the adviser most closely attuned to their academic needs or personal situations. All advisers provide an atmosphere of trust where students can talk about their situation in complete confidentiality. Typical types of advisers are described below. Students should refer to their faculty's section of the University Undergraduate Programs Calendar for additional advising information specific to their degree program. It should be noted that some academic matters require approval of more than one adviser, e.g., the faculty adviser and the department/school academic adviser. **Faculty Advisers** are normally located in the Student Affairs Office of each faculty and are available throughout the calendar year.

Faculty Advisers:

- are experts in the rules, regulations, and requirements pertaining to specific degree programs;
- will provide ongoing advice and guidance on program selection, course registration, credit load, deadlines, and majors and minors;
- will offer help managing academic situations during periods of personal, financial, or medical problems, by working with students to identify various possibilities and strategies for making informed decisions;
- will communicate with other advisers within the University and, with a student's permission, serve as a direct link to other University resources.

Department/School Academic Advisers are normally located closer to the offices of professors in a student's particular area of study and may only be available during specific times of year (e.g., prior to registration for the next session or during the drop/add period) or during regularly scheduled office hours. Students who are completing a major or minor in more than one unit will often have an adviser in each unit. The academic adviser may be either a professor or member of the administrative staff. Students should contact their department administrative offices to determine the identity and availability of their academic adviser. Students

should ensure that they check their progress with their academic adviser from time to time — and certainly before their final year. The academic adviser:

- will guide students through course selection to meet the subject matter requirements of the major or minor;
- will consider requests for course equivalencies, recommend prior approval for inter-university transfer credits, or explain the rationale for the design of a department/school program;
- may assist in planning for, and applying to, university exchange programs, and may also provide, or direct students to, information about scholarships, awards, research fellowships, and opportunities within a given field;
- is a valuable source of information about the various resources available at McGill;
- can provide support, guidance, and appropriate referrals for students experiencing academic or personal difficulties while studying at McGill;
- will often be responsible for confirming that students have met major or minor program requirements for graduation.

Professors/Lecturers may act in a voluntary capacity to mentor students as they progress through their program. The faculty adviser or department/school academic adviser may be able to help students identify a good resource person in their area of study.

Professors/lecturers:

- may provide advice on the latest trends in a specific field of study and make recommendations on related advanced readings;
- may discuss opportunities for a student research experience and help students connect with a professor or lecturer who best suits their interests or learning style;
- will refer a student back to the faculty adviser or academic adviser for signatures and permission related to program requirements.

Peer Advisers are student volunteers who have been trained by faculty advisers or department/school academic advisers. They often offer drop-in hours for advice on University life and will help students find the information they need in the University Undergraduate Calendar or through other University resources. Peer advisers are only available in some faculties or departments.

Related Services

The First-Year Office (FYO) (Brown Student Services Building; firstyear@mcgill.ca) can help new students navigate their way through the Undergraduate Course Calendar and the information contained in the *Welcome to McGill* book. They will help students prepare for the course registration period when the Minerva registration system opens for newly admitted students. To maximize this help, it is strongly recommended that students first read the sections in the *Welcome to McGill* book specific to their faculty. The FYO staff are always available to provide advice and referrals to the many support mechanisms at McGill.

Student Services Counselling Service (Brown Student Services Building; counselling.service@mcgill.ca) has professional counsellors who are available to discuss personal, academic and career goals or problems. They can provide individual or group study skills sessions or guide students through financial, or other, crises by means of interventions or referrals.

Career and Placement Service (Brown Student Services Building; careers.caps@mcgill.ca) provides career education, guidance, and individual advising to students in their search for permanent, part-time, or summer jobs and internships.

Enrolment Services (James Administration Building; (514) 398-3910; www.mcgill.ca/student-records) is the place to start for questions related to credits on entrance or advanced standing based on previous studies.

On the Macdonald Campus, information will be provided by the Student Affairs Office, Laird Hall, Room 106.

4.1.4 Contact Information for Advising

In general, newly admitted and returning students contact their faculty student affairs office with any questions on programs.

4.1.4.1 Faculty Student Affairs Offices

Faculty of Agricultural and Environmental Sciences

Tel.: (514) 398-7925

E-mail: studentinfo.macdonald@mcgill.ca

4.1.4.3 Contact Information for Departments, Schools and Programs for Students in the Faculty of Engineering

All students in the Faculty of Engineering are required to meet with an Academic Adviser prior to the start of classes. Students admitted to U0 and who are seeking transfer credits are initially advised by the Faculty Student Affairs Office followed by advising in their respective departments. Students admitted to U0 who are not seeking transfer credits, as well as students admitted to U1 should contact the department/school directly. Additional contact information can be found in the relevant sections of the calendar.

4.2 Student Services

4.2.1 Office of the Dean of Students

William and Mary Brown Student Services Building
3600 McTavish Street, Suite 4100
Montreal, QC H3A 1Y2

Telephone:

Dean/Associate Dean: (514) 398-4990

E-mail: deanofstudents@mcgill.caWebsite: www.mcgill.ca/deanofstudents

The Dean and the Associate Dean of Students coordinate and promote initiatives concerned with important aspects of the student experience, such as advising, academic integrity, student discipline, student recognition programs, and outreach to families, the McGill community and the broader local community.

4.2.2 Office of the Executive Director, Services for Students

William and Mary Brown Student Services Building
3600 McTavish Street, Suite 4100
Montreal, QC H3A 1Y2

Telephone:

General Information: (514) 398-3825

Website: www.mcgill.ca/student-services

The Executive Director, Services for Students (EDSS), coordinates all student services at McGill to help promote student success and well-being. The EDSS is available to provide assistance and/or information on almost all aspects of non-academic student life. Concerns of an academic nature will be directed to the proper individual, office or department.

4.2.3 Student Services – Downtown Campus

Unless otherwise indicated, all Student Services on the Downtown Campus are located in the William and Mary Brown Student Services Building, 3600 McTavish Street, Montreal, Quebec H3A 1Y2.

A list of services available is given below. For further information refer to the Student Services Website:

www.mcgill.ca/student-services or the address indicated above.

Student Services

General Information: (514) 398-8238

Website: www.mcgill.ca/student-services

Career and Placement Service (CAPS): provides a range of services to McGill students, and recent graduates, in the field of student and graduate employment.

Brown Student Services Building, Suite 2200 (514) 398-3304

E-mail: careers.caps@mcgill.caWebsite: www.caps.mcgill.ca

Chaplaincy Service: concerned with the spiritual and mental well-being of all students.

Brown Student Services Building, Suite 4400 (514) 398-4104

E-mail: chaplaincy@mcgill.caWebsite: www.mcgill.ca/chaplaincy

Counselling Service: assists with personal, social, and emotional problems as well as vocational and academic concerns.

Brown Student Services Building, Suite 4200 (514) 398-3601

E-mail: counselling.service@mcgill.caWebsite: www.mcgill.ca/counselling

First Peoples' House: fosters a sense of community for Aboriginal students studying at McGill.

3505 Peel Street

(514) 398-3217

E-mail: firstpeopleshouse@mcgill.caWebsite: www.mcgill.ca/fph

First-Year Office: helps ease the transition of all students new to McGill. Coordinates "Discover McGill", a one-day, campus-wide University and faculty orientation.

Brown Student Services Building, Suite 2100 (514) 398-6913

E-mail: firstyear@mcgill.caWebsite: www.mcgill.ca/firstyear

Health Services and Dental Clinic: provides access to experienced physicians, nurses and health educators who offer health services and information in a confidential atmosphere. Also operates a laboratory offering a wide array of testing, and a dental clinic.

Brown Student Services Building, Suite 3300 (514) 398-6017

Website: www.mcgill.ca/studenthealth

International Student Services: offers support to international students on non-academic matters (immigration, health insurance, etc.), runs a Buddy Program and an orientation program.

Brown Student Services Building, Suite 3215 (514) 398-4349

E-mail: international.students@mcgill.caWebsite: www.mcgill.ca/internationalstudents

Mental Health Service: a psychiatric clinic which offers easily accessible treatment for mental health problems.

Brown Student Services Building, Suite 5500 (514) 398-6019

Website: www.mcgill.ca/mentalhealth

Scholarships and Student (Financial) Aid Office: provides assistance in the form of loans, bursaries, and work study programs to students requiring financial aid.

Brown Student Services Building,
Suite 3200 (514) 398-6013/6014
(514) 398-4807 (Scholarships)

E-mail: student.aid@mcgill.ca
Website: www.mcgill.ca/studentaid

Student Housing (Off-Campus): maintains computerized lists of available off-campus student housing.

Student Housing Office, 3641 University Street (514) 398-6010
E-mail: offcampus.housing@mcgill.ca
Website: www.mcgill.ca/offcampus

Residences: offers accommodation for approximately 2,400 students. See **Residential Facilities, section 4.3**, for more information.

Student Housing Office (514) 398-6368
E-mail: housing.residences@mcgill.ca
Website: www.mcgill.ca/residences

Office for Students with Disabilities: coordinates services to meet the special needs of students with disabilities.

Brown Student Services Building, Suite 3100 (514) 398-6009
E-mail: disabilities.students@mcgill.ca TDD: (514) 398-8198
Website: www.mcgill.ca/osd

Tutorial Service: sponsors an extensive tutorial program for students.

Brown Student Services Building, Suite 4200 (514) 398-6011
E-mail: tutoring.service@mcgill.ca
Website: www.mcgill.ca/tutoring

4.2.4 Student Services – Macdonald Campus

While students who study on the Macdonald Campus may make full use of all Student Services available at McGill, the Office of the Executive Director of Services for Students offers students direct access to the services listed below.

Further information can be found on the Web at www.mcgill.ca/macdonald-studentservices and the Student Services Website, www.mcgill.ca/student-services.

Unless otherwise indicated, Macdonald Campus services are located in the Centennial Centre, Room CC1-124, 21,111 Lakeshore Road.

Telephone: (514) 398-7992 Fax: (514) 398-7610
E-mail: stuserv.macdonald@mcgill.ca

Career and Placement Service (CAPS): provides a range of services to McGill students, and recent graduates, in the field of student and graduate employment.

Telephone: (514) 398-7582
Website: www.caps.mcgill.ca/macdonald

Counselling Services: A professional counsellor is available three times a week offering counselling for personal, social and emotional concerns as well as for academic and vocational concerns. Appointments are required.

Telephone: (514) 398-7992

Health Service: A referral service is available Monday through Friday. A nurse/health educator is on campus Mondays, Tuesdays and Wednesdays and a physician may be seen by appointment on specified dates.

Telephone: (514) 398-7565

Off-Campus Housing: maintains computerized lists of available off-campus student housing.

Website: www.mcgill.ca/offcampus
Telephone: (514) 398-7992

Student (Financial) Aid Office: Information about government aid, McGill loans and bursaries, and the Work Study Program can be obtained at the Centennial Centre. During the academic year

(September to April) an Administrator visits the campus every Wednesday to help students with financial problems.

Telephone: (514) 398-7992

4.2.5 Ombudsperson for Students

The position of Ombudsperson for Students is filled on a half-time basis by an academic staff member. The Ombudsperson receives complaints from students and assists in the resolution of those complaints through informal means including information, advice, intervention, and referrals with a view to avoiding the more formal grievance procedures that already exist in the University.

The Office of the Ombudsperson is a confidential, independent, and neutral dispute resolution service for all members of the student community. Please call (514) 398-7059 for an appointment. Office of the Ombudsperson, Brown Building, Room 5202
Website: www.mcgill.ca/ombudsperson.

4.2.6 Extra-Curricular Activities

There are over 250 activities and clubs which students may join. These include international clubs; religious groups; political clubs; fraternities; communications groups such as Radio McGill, the *McGill Tribune*, and the *McGill Daily*; and some 50 miscellaneous groups (e.g., science clubs; literary, theatrical and musical societies; a chess club; and the McGill Outing Club).

The University Centre, 3480 McTavish Street, provides club rooms for these activities in a four-storey building with cafeterias, a ballroom, lounges and an experimental theatre. Activities for graduate students are centred in David Thompson House at 3650 McTavish Street. On the Macdonald Campus facilities are located in the Centennial Centre (refer to FAES section).

4.2.7 Bookstore

The McGill University Bookstore stocks new and used textbooks, a full range of books for the academic and professional community, stationery supplies, and McGill insignia clothing and gift items.

3420 McTavish Street Telephone: (514) 398-7444
Website: www.mcgill.ca/bookstore

Macdonald Bookstore
Centennial Centre Telephone: (514) 398-8300
Website: www.mcss.mcgill.ca/bookstore.html

4.2.8 Computer Store

The McGill Computer Store, located on the second floor of the University Bookstore, sells a full range of PC, Macintosh and Unix hardware, computer software and consumer electronics at educational prices.

3420 McTavish Street Telephone: (514) 398-5025
Website: www.mcs.mcgill.ca sales.mcs@mcgill.ca

4.2.9 Day Care

The McGill Childcare Centre is an independently run centre which can accommodate approximately 100 children, ranging in age from 4 months to 5 years. As placements are limited, especially for certain age groups, early application is suggested.

The Centre is located at:

3491 Peel Street, Montreal, QC H3A 1W7

Telephone: (514) 398-6943

A Campus Day Care Centre, located adjacent to the Macdonald Campus, is an independently run centre which can accommodate approximately 60 children, ranging in age from 4 months to 5 years. In addition, 50 children can be accommodated in Home Day Care within the neighbourhood. Preference is given to the Campus

community. Early application is recommended. The Centre is located at:

1 Maple Avenue, Ste. Anne de Bellevue H9X 2E3
Telephone: (514) 398-7951

For Home Day Care information:
Telephone: (514) 457-7953

4.3 Residential Facilities

4.3.1 University Residences – Downtown

Residence Admissions Office
3641 University Street
Montreal, QC H3A 2B3

Telephone: (514) 398-6368

Fax: (514) 398-2305

E-mail: housing.residences@mcgill.ca

Website: www.mcgill.ca/residences

McGill Residences collectively house approximately 2,300 undergraduate students in dorms, apartments and shared-facilities houses. McGill offers six dormitory-style residences with full meal service. These more traditional residences house, almost exclusively, first-year students. McGill's apartment-style residences and shared-facilities houses are popular with first-year students seeking a different style of residence living. Student Animators (Floor Fellows) and Academic Staff (Directors) provide support to all undergraduate residents and live in all McGill Residences. An elected Residence Council serves as the voice of students. All residence rooms have telephone and high-speed network access jacks, which are available at extra cost.

4.3.1.1 Dormitory-style Residences

McGill offers six dormitory-style residences with full meal service. The Bishop Mountain Residences (Gardner, McConnell, Molson and Douglas Halls) are located on the slope of Mount Royal, overlooking the campus, and house both male and female students. Royal Victoria College (RVC), the all-women's residence, is located one block from the McGill gates. McGill's newest residence hall is fully co-ed and is located a short walk from the main campus. The New Residence Hall is located 5 easy blocks from campus.

Rooms at RVC and the Bishop Mountain Residences are mostly single occupancy. The New Residence Hall offers mostly double rooms. Each student is provided a bed, a desk, chair, chest of drawers, closet and small fridge (one fridge per double room). In all halls residents are responsible for the cleanliness of their rooms. Common bathrooms and showers are located on each floor, except in the New Residence Hall where there are private bathrooms in each room. Each hall has card-operated automatic washers and dryers, as well as ironing facilities. Pay telephones are located in each building. In addition, all rooms are wired for a private telephone and Internet service. There is limited storage space for ski equipment, trunks, and suitcases in every hall. All halls have TV and recreation rooms.

There are on-site cafeterias and the meal plan is compulsory for students living in the dormitory-style residences.

4.3.1.2 Apartment-style Residences

Solin Hall is a modern award-winning apartment-style residence that has two-, three- and four-bedroom apartments. Located four short Metro stops west of the main campus, Solin features large common areas (TV and games rooms) and a computer lab and houses entirely first-year students. Each apartment has its own living room, dining room, kitchen and bathroom(s), with basic furniture such as stove, fridge, table, chairs, sofa, lamps and drapes. Bedrooms are furnished with bed, desk, chair and chest of drawers. All apartments and public area floors are carpeted. Shopping areas are within walking distance from the Hall. Limited indoor parking is available.

The Greenbriar Apartments residence building is located one block from the main campus. It houses mostly first-year and a small number of upper-year undergraduate students in self-contained studio and double-occupancy, one-bedroom apartments. Apartments have fully equipped kitchens (stove, fridge, sink) and are furnished with bed, desk, table, chairs, drawers and blinds.

Although these residences do not offer meal plans, residents may purchase one at the residence cafeterias.

4.3.1.3 Shared-facilities Houses

McGill Residences also offers a number of beautifully renovated older buildings, each housing between 13 and 30 first-year students. These shared-facilities houses are all located within a few blocks of the main campus and have single- and double-occupancy bedrooms with shared kitchens, bathrooms and common areas. Bedrooms are furnished with desks and chairs, beds (many are loft beds), chest of drawers, closet and blinds. Common areas are also fully furnished. Although these residences do not offer meal plans, residents may purchase one at the residence cafeterias.

4.3.1.4 Residence Fees

Residence fees for the 2008-2009 session had not been set at the time this Calendar went to print. Fees for the 2007-2008 session were as follows:

Rates for Gardner, McConnell, Molson and Douglas Halls ranged from \$9,372 to \$10,224 for a single room. Rates include the mandatory 5-day per week meal plan. The rates at Royal Victoria College include a mandatory 7-day per week meal plan and range from \$11,018 to 11,196 for single rooms and \$10,400 for double rooms. These rates are for the regular session, September 1 to April 30.

At the New Residence Hall room rates, including mandatory meal plan, were \$10,762, per person for double rooms and \$11,770 for a single room. These rates are for the regular session, September 1 to April 30.

The rooms in Solin Hall and the Greenbriar apartments are leased on an 11-month basis (September 1 to July 31). The room rates were \$7,647 for a single room and \$5,929 for a double room in a multi-bedroom apartment at Solin Hall. Single-occupancy studio apartments at Greenbriar were \$8,838 and double-occupancy one-bedroom apartments were \$6,074 per person. Rates do not include meal plan.

Shared facilities houses are also leased on an 11-month basis (September 1 to July 31). Room rates ranged from \$7,738 to \$8,332 for a single room and from \$5,357 to \$5,929 for a double room, depending on the dimensions of the room. Rates do not include meal plan.

4.3.1.5 Meal Plans

Residents at Molson, McConnell and Gardner Halls take their meals together in a large centrally located dining hall. Douglas Hall and RVC have their own dining areas. RVC offers 19 meals per week (7 days per week), while the Bishop Mountain Residences offer 15 meals per week (Monday to Friday). Bag lunches and bag dinners are available. There are kitchenettes in all the Halls where residents may keep food and prepare snacks or meals at any time.

Residents of the New Residence Hall have access to the on-site cafeteria with extended hours, 7 days per week. The meal plan allows them to eat at certain on-campus cafeterias as well. There are kitchenettes on each floor where residents may prepare hot or cold snacks at any time.

Solin Hall, the Greenbriar Apartments and the shared-facilities houses do not offer meal plans. The apartments and houses have fully equipped kitchens where students prepare their own meals. However, residents are welcome to purchase a meal plan at the residence cafeterias.

4.3.1.6 Student Government

Each hall has a Residence Council, elected at the start of the academic year. It is the job of Council to gather hall opinions, supervise financial affairs, and organize sporting and recreational activities within the residences. McGill's residences are run for the convenience and advantage of the students living in them. Rules

and regulations are decided upon and administered by the students themselves.

Note: All fees include an activity fee of \$20 collected by the University on behalf of the Residence Council of each hall, and is included in the residence fees.

4.3.2 University Residences – Macdonald Campus

Campus Housing Office

P.O. Box 188,

Macdonald Campus of McGill University

Sainte-Anne-de-Bellevue, QC H9X 3V9

Telephone: (514) 398-7716

Fax: (514) 398-7953

E-mail: residences.macdonald@mcgill.ca

Website: www.mcgill.ca/macdonald-residences

Residence life is an integral part of Macdonald Campus activities. Laird Hall, with a capacity 250 students, is arranged on a co-educational basis and provides accommodation for undergraduate, graduate, and Farm Management Technology students. Residents enjoy comfortable rooms, modern kitchens, cozy lounge facilities, and other amenities that help make their residence life a complete and meaningful part of their university experience. All dorm rooms have telephone and high-speed network access jacks, which are available at extra cost.

The EcoResidence, Canada's first ecologically friendly student residence and winner of the Prix d'excellence from the Ordre des architectes du Québec, accommodates 100 students. The EcoResidence is a unique initiative that recycled two buildings and incorporated ecological construction technology. This type of accommodation will appeal to students who enjoy independent living in self-contained apartments of two or six single-bedroom units. Each unit is built on a split-level concept with large, airy common living areas and fully equipped kitchens.

4.3.2.1 Residence Fees – Macdonald Campus

Residence fees are paid separately from tuition in accordance with regulations of the Fee Payment Option selected at the time of signing a Residence Lease.

The residence fees for the 2008-09 session had not been set at the time this Calendar went to print. The 2007-08 session rates for Laird Hall are (double occupancy) \$2,480 and (single occupancy) \$2,760. Rates for the EcoResidence vary from \$400 to \$412 per month. An updated fee sheet will be available with the residence application forms when an offer of accommodation is made.

There is no meal plan offered on the Macdonald Campus. Meals are available on a cash basis from the Centennial Centre cafeteria. The cafeteria is open for breakfast and lunch only, 5 days per week, exclusive of Saturday, Sunday, and holidays designated by the University. For budgeting purposes, the cost of meals per session is approximately \$3,000.

4.3.2.2 Residence Occupancy – Macdonald Campus

The residence fees cover the period (August 24, 2008 to May 2, 2009). Students must vacate their rooms at the end of the lease term. Only under exceptional circumstances will a student be granted permission to arrive prior to beginning date of the lease or remain in residence during the summer months. In these cases, students must apply to the Campus Housing Office and an additional fee will be charged if permission is granted.

Students may request permission to extend their stay in residence (at the normal weekly charge) if they are taking extended courses after the regular session, employed on the Campus, or registered for summer courses.

International students or those coming from a distance may be admitted early in exceptional circumstances. Permission from the Campus Housing Office must be obtained prior to the student leaving home. Student Officers may be admitted before the opening date of courses, if permission is granted by the Campus Housing Office.

4.3.2.3 Facilities for Non-Resident Students – Macdonald Campus

Common rooms for studying are provided in the Centennial Centre. Lockers are available in the Macdonald-Stewart Building. These may be rented at the Students' Society Office in Centennial Centre. Meals may be obtained from the Snack Bar facility of the Centennial Centre and the Link Café located on the ground floor between the Macdonald-Stewart Building and Barton Library. The Snack Bar is open for breakfast and lunch only, Monday through Friday. The Link Café is open Monday through Thursday 8:00 a.m. to 8:00 p.m. and Friday 8:00 a.m. to 3:30 p.m., exclusive of Saturday, Sunday, and holidays designated by the University.

Note: Non-resident students may not stay overnight in any residence without permission of the Campus Housing Office.

4.3.2.4 Student Parking – Macdonald Campus

Students who hold parking permits will be allowed to park automobiles on Macdonald Campus provided they observe the parking regulations and other applicable rules. Permits must be obtained from the Campus Security Office, Laird Hall, Room 101, during regular office hours.

4.4 Athletics

Downtown Campus

Athletics: offers programs in recreational, intercollegiate, instructional, intramural and sports clubs.

Athletics Complex, 475 Pine Avenue West

(514) 398-7000

E-mail: athletics@mcgill.ca

Website: www.athletics.mcgill.ca

Macdonald Campus

Athletics: Athletics offices are located in the Stewart Athletic Complex, just west of the Centennial Centre. Available at no charge to Macdonald students is a wide selection of activities, as well as the use of an excellent array of equipment. Facilities include a gymnasium, pool, weight room (with monitors on hand four evenings per week), arena, tennis courts, playing fields and large expanses of green space.

In addition to providing many open times for your enjoyment, there are also instructional, recreational, intramural and intercollegiate activities. There are nominal fees for instructional courses.

Stewart Athletic Complex

(514) 398-7789

Website: www.agrenv.mcgill.ca/society/athletic

4.5 For your Information Technology (IT) needs

The **IT at McGill** website, www.mcgill.ca/it, is your one-stop access point for Information Technology resources at McGill.

Visit the **IT at McGill** website to:

- Get resources, references and links to central IT services at McGill,
- Search the McGill IT Knowledge Base,
- View online video presentations,
- Contact the ICS Service Desk for IT help,
- View IT announcements,
- Find useful tips on keeping your equipment secure and running smoothly.

The following are some of the basic IT services, to get you started.

4.5.1 Logging In

You need to use your **McGill Username** (usually in the form of `firstname.lastname@mail.mcgill.ca`) and **McGill Password** to access many central IT services including: the myMcGill portal, myCourses, E-mail, wireless, Virtual Private Network (VPN), and McGill's dialup access service (DAS).

To find out your McGill Username and set your McGill Password:

- 1) Log in to Minerva (using your 9-digit McGill ID number and your PIN).
- 2) Go to the Personal Menu and click "Password for McGill Username".
- 3) Follow the onscreen instructions.

4.5.2 myMcGill

The myMcGill web portal is the central access point, where you will go to:

- Read your E-mail,
- Check myCourses,
- View and update your student records and account information, with direct links to Minerva,
- Search the McGill Library Catalogue,
- Keep abreast of the latest McGill news,
- And more.

Click **myMcGill** at the top right of any McGill Website (www.mcgill.ca) and sign in using your McGill Username and McGill Password.

4.5.2.1 Browser compatibility

The myMcGill portal currently supports the latest versions of following browsers:

- IE (Windows)
- Firefox (Mozilla) (Windows/Mac)
- Netscape (Windows)

4.5.3 myCourses

Many of your courses will have online materials or activities such as assignments and readings, the syllabus, project guidelines, discussion forums, calendars, etc.

Access your online course content via myCourses at www.mcgill.ca/mycourses or through the myMcGill web portal.

- Sign in using your McGill Username and McGill Password.
- Click myCourses (WebCT Vista) to enter the site.
- Verify your browser settings using the Check Browser utility at the top right corner of the page.

Find more information on myCourses at www.mcgill.ca/it under "Teaching and Learning".

4.5.4 E-mail

Your McGill E-mail Address (usually in the form of `firstname.lastname@mail.mcgill.ca`) is the official way the University communicates with you by E-mail. Please read the Student E-mail Policy at www.mcgill.ca/email-policy. Access your E-mail at <http://exchange.mcgill.ca> or through the myMcGill portal. Verify your McGill E-mail Address on the Minerva Personal Menu.

4.5.5 Online Student Directory

Opt in to the student directory and make it easier for your fellow classmates to contact you. Find more on this service at www.mcgill.ca/directory/students.

4.5.6 Getting Connected

You can find more details on the following services at www.mcgill.ca/it, under "Telephone, Network and Wireless":

Wireless - Access the Internet using your laptop or other mobile device from virtually anywhere on campus, through the McGill Wireless Network.

Virtual Private Network (VPN) - You need to establish a VPN connection to access McGill restricted sites and resources (e.g., Library databases) if you connect to the Internet with an Internet Service Provider (ISP) other than McGill's DAS.

Dialup access (DAS) - Access the Internet using your telephone line and a modem, instead of using a high speed ISP.

McGill Residences Telecommunications - For students living in McGill Residences and MORE buildings, there is a Voice and Data (wired and wireless) service.

Computer labs are provided by many faculties and departments for students in their programs. For lab locations, computer availability, software/peripheral availability and more, visit <http://vhd.mcgill.ca/labs>.

"Connectivity@McGill" iCare clinic - Attend this free, hands-on clinic and learn how to configure your computer to connect to the Internet via wireless or modem, and how to set up a VPN connection. Find out how to register at www.mcgill.ca/it, under "IT Service Desk and Training".

4.5.7 Safe Computing

"Computing Safety" iCare clinic - Attend this free clinic and learn how to prevent being infected by viruses, spyware, adware and other malicious programs. Find out how to register at www.mcgill.ca/it under "IT Service Desk and Training".

Antivirus software from Symantec is free to download from McGill's Software Licensing site at <http://elms04.e-academy.com/mcgill>. Find out how at www.mcgill.ca/it under "IT Security Best Practices". Note: Please uninstall any previous antivirus software from your computer before installing Symantec.

4.5.8 Need Help?

Welcome New Students - Take an interactive guided tour of IT services at www.mcgill.ca/it, under "ICS Service Desk and Training".

McGill IT Knowledge Base - Search the Knowledge Base at <http://vhd.mcgill.ca/knowledgebase> for answers to commonly asked questions about IT.

4.5.8.1 Getting Help

Contact the ICS Service Desk by submitting your request via a web form at <http://webforms.mcgill.ca>, or go to the Service Desk at www.mcgill.ca/it, under "ICS Service Desk and Training".

4.6 Resources for Study and Research

4.6.1 Libraries

The Library consists of 13 branch libraries, special collections and specialized services located across the University's downtown campus and Macdonald campus, on the shores of Lac St. Louis. Numbering over 6 million items, the Library's vast holdings include 2.5 million books, 250,000 cartographic items and thousands of sound and video recordings. The Library's e-resources are extensive, and include almost 50,000 e-journals, and over 1 million e-books on subjects ranging from early English texts to nutrition.

A comprehensive Website (www.mcgill.ca/library), and a wide range of services link the Library's resources to those who need them for teaching, learning, research and scholarship and is key to finding all the information you need. The online catalogue lists most items held in the Library's collections. Hundreds of databases on topics from art history to zoology guide users to relevant journal articles and research materials, while subject guides on

topics like chemistry and social work provide comprehensive and clear direction for users undertaking research. From past examination papers and McGill theses to foreign newspapers, there's an amazing range of online information you can find using the Library's Website.

The expert and friendly staff in each branch library will help you locate information for course work, assignments or research topics. Training is provided at all levels to ensure users are able to find, locate and use information, and information skills programs are undertaken as part of mandatory course curricula. Furthermore, Liaison Librarians proficient in specific disciplinary areas and are on hand to assist students and staff. Should you have any queries, assistance is always close by, whether in person, on the phone, or online, via E-mail and online chat.

Opening hours vary for each library but most are open up to 84 hours per week. All branch libraries extend their opening hours during examination periods: to 24hr access in the case of the Humanities and Social Sciences Library. Hundreds of computers are available for e-mail, word-processing, accessing online courses, reading library materials, preparing assignments and internet searching. Designed to enhance the learning experiences of a diverse range of users, the Library's facilities offer a variety of comfortable and attractive spaces. There are places for quiet individual study, dynamic e-zones, and group study rooms which can be booked for use. Wireless access is available across the library, and printing and copying facilities, operated by a card system, are conveniently located in all libraries. Special facilities are available for the vision and hearing impaired.

Users have access to specialized services such as the Electronic Data Resources Service, which supports empirical and statistical research, and a digitization program highlighting unique scholarly materials. You can borrow from any library, and should be sure to check out the Course Reserve collection in your branch library, where you can find copies of textbooks and high-demand items on course reading lists.

4.6.2 University Archives

The McGill University Archives (MUA) acquires, preserves and makes available to researchers (including students) of all disciplines more than 5,000 metres of records dating from 1797 to the present. These records document the history of McGill University faculty research, alumni and student organizations, and select Montreal-based organizations, all in a variety of media (including textual records, photographs, slides, audio-tapes, film, video, University publications, and artifacts). The MUA acquires private records to support University research goals and manages the University's corporate memory and information assets through its Records Management Program. The Records Management Program regulates the flow of administrative records and protects vital evidence of University functions and activities according to Quebec archives and records legislation.

The MUA Reading Room is open to the public Monday-Friday, 9:00-12:30 and 1:45 to 4:45; however, appointments are recommended. The MUA Website includes virtual exhibitions, on-line searching of the MUA holdings, digital collections including the largest campus database of digitized images, and access to the McGill History Portal (focusing on historical information about McGill University and its community).

McGill University Archives
 McLennan Library - Ground Floor
 Telephone: (514) 398-3772
 Fax: (514) 398-8456
 Website: www.archives.mcgill.ca

4.6.3 Museums

4.6.3.1 Redpath Museum

The Redpath Museum exists to foster the study of the history and diversity of the natural world. Its mandate includes geological, biological and cultural diversity. Its collections have been growing for

over a century, and provide resources for research and for graduate and undergraduate education in biology, geology, anthropology and other fields. Among the largest collections are fossils from the ancient sea floor of eastern Quebec, the oldest land plants, a vast range of minerals, molluscs from around the world, Egyptian and classical antiquities, and artifacts from Central Africa. The Museum also houses research laboratories and classrooms.

The Museum welcomes McGill students and staff to visit its new permanent exhibit, which presents the history of life through the ages illustrated by material from Quebec and neighbouring regions, besides displays that feature the mineral and mollusc collections. A new ethnology gallery devoted to cultures throughout the world, including ancient Egypt, classical Greece and Rome, Asia, and Africa, has recently been installed.

859 Sherbrooke Street West
 Telephone: (514) 398-4086
 E-mail: redpath.museum@mcgill.ca
 Website: www.mcgill.ca/redpath

4.6.3.2 McCord Museum of Canadian History

The McCord Museum is home to one of the finest historical collections in North America. It possesses some of Canada's most significant cultural treasures, including the most comprehensive collection of clothing - comprised of over 16,000 garments or accessories - made or worn in Canada; an extensive collection of First Nations artifacts - the most important of its kind in Quebec with a corpus of over 13,000 objects from across Canada; and the renowned Notman Photographic Archives, which contain over 1,000,000 historical photographs and offer a unique pictorial record of Canada from pre-Confederation to the present. The McCord also houses paintings by renowned artists such as Théophile Hamel, Cornelius Krieghoff, James Pattison Cockburn and George Heriot. The Museum's Textual Archives include some 185 linear metres of documents relating to Canadian history. Finally, the McCord's Website (www.mccord-museum.qc.ca) features award-winning virtual exhibitions, innovative learning resources and a vast, searchable database of information on the Museum's collections.

Exhibitions at the McCord provide inspirational and innovative interpretations of the social and cultural history of Montréal, Quebec and Canada. In addition to guided tours, school programs, cultural activities and lectures, the McCord offers a range of services including the Museum Café and the boutique.

Researchers welcome by appointment.
 690 Sherbrooke Street West
 Telephone: (514) 398-7100
 E-mail: info@mccord.mcgill.ca
 Website: www.mccord-museum.qc.ca

4.6.3.3 Lyman Entomological Museum and Research Laboratory

Located on the Macdonald Campus, this institution has the largest insect collection of any Canadian university, and is second in both numbers of species and specimens only to the Canadian National Collection of Insects, Ottawa. As its main function is research and teaching, and not exhibition, it is not generally open to the public, but tours are available, by appointment, to interested parties.
 Telephone: (514) 398-7914.

4.6.3.4 Other Historical Collections

In addition to the above, there are other collections and exhibits of a specialized nature, ordinarily open only to students but to which access may be gained by application to the department concerned. These include the Anatomical and Pathological Museums.

The Physics Department has two specialized collections which may be viewed by appointment. The Rutherford Museum contains original apparatus and other items used by Professor Ernest Rutherford in his Nobel Prize-winning research on radioactivity at McGill University, 1898-1907. The McPherson Collection comprises a wide range of historical apparatus and instruments used for measurements and investigations, with special emphasis on 19th-century physics.

5.1 The Faculty

5.1.1 Location

Dawson Hall
853 Sherbrooke Street West
Montreal, QC H3A 2T6
Canada

Telephone: (514) 398-4210

Faculty Website: www.mcgill.ca/arts

Student Affairs Office Website: www.mcgill.ca/artscisao

The Student Affairs Office and the Office of the Associate Dean (Student Affairs) of the Faculty of Arts are located in Dawson Hall, Rooms 110 and 115. The Student Affairs Office serves students in the Faculties of Arts and of Science.

5.1.2 Administrative Officers

Christopher Manfredi; B.A., M.A.(Calg.), M.A., Ph.D.(Claremont)
Dean

M.N. Cooke; B.A.(Qu.), M.A.(C'nell), M.A., Ph.D.(Tor.) **Associate Dean (Research and Graduate Studies)**

Mary E. MacKinnon; B.A.(Qu.), M.Phil, D.Phil.(Oxf.) **Associate Dean (Academic)**

Enrica Quaroni; B.A., Ph.D.(McG.) **Associate Dean (Student Affairs)**

Susan Sharpe **Assistant to the Dean**

Sharon Bezeau; B.A.(Tor.), M.A.(C'dia) **Recorder**

Donald Sedgwick; B.Sc., M.Sc.(McG.) **Senior Adviser**

5.1.3 Programs and Teaching in Arts

Established in 1843, the Faculty of Arts is one of the oldest in Canada and remains the largest at McGill. With over 6,000 full-time students and over 250 full-time professors, the Faculty offers several hundred courses in many disciplines.

The Faculty of Arts permits students great program flexibility. Students may concentrate on one Arts discipline while obtaining Minor Concentrations in different Arts disciplines as well as in other faculties, such as, for example, Science. McGill's historic Arts building is the centrepiece of the University's downtown campus. It houses classrooms, offices and Moyse Hall – an elegant and well-equipped performance theatre. The Faculty maintains bilateral exchange programs with many universities around the world and encourages students to spend a term or two studying abroad.

McGill Arts graduates are valued for their ability to think critically and communicate effectively, often in more than one language. Their skills in research and analysis are applicable in a wide spectrum of professional fields, such as law, education, business, government, and public service.

The Faculty of Arts offers programs leading to the degrees of B.A. and B.S.W. Admission is selective; fulfilment of the minimum requirements does not guarantee acceptance. Admission criteria are described in the *Undergraduate Admissions Guide*, found at www.mcgill.ca/applying/undergrad.

The Faculty of Arts also offers a Diploma in Environment under the McGill School of Environment, a 30-credit program available to holders of a B.Sc. or B.A. or equivalent. All credits for the Diploma must be completed at McGill. For more information on the "**Diploma in Environment**", see section 14.11.

Finally, the Faculties of Arts and of Science jointly offer the Bachelor of Arts and Science (B.A. & Sc.), which is described in the Arts & Science section of the Calendar.

5.1.4 Student Affairs Office

The Student Affairs Office provides ongoing advice and guidance on programs, degree requirements, registration, course change, course and university withdrawal, deferred exams, supplemental exams, rereads, academic standing, inter-faculty transfer, year or term away, transfer credits, second programs, second degrees, and graduation.

Faculty advisers in the Student Affairs Office offer help managing academic situations during periods of personal, financial or medical problems, by working with students to identify various possibilities and strategies for making informed decisions.

Special requests can be made, in writing, to the Associate Dean (Student Affairs). For more information, please refer to our Website at www.mcgill.ca/artscisao.

5.2 Faculty Admission Requirements

For information about admission requirements to the B.A. or B.S.W., please refer to the *Undergraduate Admissions Guide*, found at www.mcgill.ca/applying/undergrad.

For information about inter-faculty transfers, please refer to section 3.3.12, "**Inter-Faculty Transfer**", as well as to the relevant information posted on the Students Affairs Office Website at www.mcgill.ca/artscisao and in the Student Affairs Office.

5.3 Faculty Degree Requirements

Each student in the Faculty of Arts must be aware of the Faculty regulations as stated in this Calendar and on the McGill, Arts, and ARTSCI Websites. While departmental and Faculty advisers and staff are always available to give advice and guidance, the ultimate responsibility for completeness and correctness of course selection and registration, for compliance with, and completion of, program and degree requirements, and for the observance of regulations and deadlines *rests with the student*. It is the student's responsibility to seek guidance from the Student Affairs Office if in any doubt; misunderstanding or misapprehension will not be accepted as cause for dispensation from any regulation, deadline, program or degree requirement.

To be eligible for a B.A. degree, students must fulfil all Faculty and program requirements as indicated below:

"Minimum Credit Requirement", see section 5.3.1

"Residency", see section 5.3.2

"Cumulative Grade Point Average (CGPA)", see section 5.3.3

"Time and Credit Limit for Completion of the Degree", see section 5.3.4

"Program Requirements", see section 5.3.5

"Course Requirements", see section 5.3.6

5.3.1 Minimum Credit Requirement

Students must complete the minimum credit requirement for the degree as specified in the letter of admission.

Students are normally admitted to a four-year degree requiring the completion of 120 credits, but advanced standing of up to 30 credits may be granted to students who obtain satisfactory results in the Diploma of Collegial Studies, International Baccalaureate, French Baccalaureate, Advanced Levels, and Advanced Placement tests.

Students who are readmitted after interrupting their studies for a period of five consecutive years or more may be required to complete a minimum of 60 credits and satisfy the requirements of a program. In this case, a new GPA will be calculated. The Associate Dean (Student Affairs), in consultation with the appropriate department, may approve a lower minimum for students who had completed 60 credits or more before interrupting their studies.

Students who are readmitted after a period of absence are normally subject to the program and degree requirements in effect at the time of readmission.

5.3.2 Residency

To obtain a B.A. degree, students must complete satisfactorily a minimum of 60 credits at McGill University towards the fulfilment of the B.A. degree requirements. At least two-thirds of all program requirements (Multi-track, Honours, Faculty) must normally be completed at McGill. In addition, some departments may require that their students complete specific components of their program at McGill.

Exceptionally, and subject to departmental approval, students in a Minor Concentration who pursue an approved exchange or study away program may complete up to half of the Minor Concentration requirements elsewhere.

The residency requirement for the Diploma in Environment is 30 credits completed at McGill.

5.3.3 Cumulative Grade Point Average (CGPA)

Each candidate for a degree must achieve a minimum cumulative grade point average (CGPA) of 2.00.

5.3.4 Time and Credit Limit for Completion of the Degree

Students who need 96 or fewer credits to complete their degree requirements are expected to complete their degree in no more than eight terms after their initial registration for the degree. Students in the Freshman Program become subject to these regulations one year after their initial registration. Students who need or wish to exceed this time limit must apply to the Associate Dean (Student Affairs) for permission to continue their studies.

Students who wish to exceed the minimum credit requirement for their degree must also seek permission of the Associate Dean (Student Affairs) to continue their studies.

Permission for exceeding the time and/or credit limit will normally be granted only for valid academic reasons, such as a change of program (subject to departmental approval) and part-time status. Elective credits over the credit limit will be flagged for no credit and the grades will not count in the CGPA.

5.3.5 Program Requirements

5.3.5.1 Freshman Program

Students who need to complete 97-120 credits to complete their degree requirements must complete the Freshman program, which is designed to provide a basic foundation prior to selecting a departmental program. Students may select one of the following Freshman program options on Minerva:

General Option

- 6 credits in each of three of the following areas: social sciences, languages, humanities, or mathematics and science, with a maximum of 18 credits per area and 12 credits per department.

Arts Legacy (Freshman) Option: Making Modernities

- 24 credits of prescribed courses that will be taught in four consecutive units of six and a half weeks. Courses will be thematically linked and deal in an interdisciplinary way with the Ancient Worlds of China and Greece/Rome, Medieval Mediterranean Worlds, Early Modern Atlantic Worlds, and Global Modern Worlds. Each course features lectures, seminars, tutorials and performances. Enrolment is on a first-come first-served basis. Students should register for six additional credits, preferably from the areas of language or of mathematics and science. For more information, please contact Professor G. Vankeerberghen (Department of History).

French Option

- 18 credits of courses conducted in French. Depending on degree of language proficiency attained, this could include a maximum of 12 credits of intensive French language courses.

For further details, refer to the Arts Freshman information on the Web at www.mcgill.ca/artscisao.

5.3.5.2 Departmental Programs

Arts students, other than those registered in the Freshman Program, are required to have an approved program (Multi-track, Honours, Faculty), and to select their courses in each term with a view to timely completion of their degree and program requirements. No course may fulfil the requirements for more than one program or Concentration requirement. Students must complete one of the following program streams:

MULTI-TRACK SYSTEM

To recognize the diversity of student backgrounds and interests and the multiple routes to understanding provided by a modern university, the Faculty of Arts offers a 90-credit multi-track system that includes a Major Concentration complemented by at least a Minor Concentration and that may be completed in one of the following ways:

Options

- A: Major Concentration (36) + Minor Concentration (18)
+ 36 credits of electives
- B: Major Concentration (36) + Major Concentration (36)
+ 18 credits of electives
- C: Major Concentration (36) + Minor Concentration (18)
+ Minor Concentration (18) + 18 credits of electives

Regulations:

- Within option A and option B, all Concentrations must be in different academic units. (For students completing a second degree in the Faculty of Arts, this regulation is waived.)
- Within option C, one of the Minor Concentrations may be in the same unit as the Major Concentration. Students who pursue a same-unit Minor Concentration will substitute additional complementary (non-required) courses to a total of 18 credits for any courses completed as a part of their Major Concentration within that unit.
- Students will include within the 36 or 18 credits of their Major or Minor Concentration any university-level (200 or above) prerequisites to required courses within their Concentrations.

Definitions:

Units: academic departments or administrative equivalents.

Programs: lists of required and complementary courses (including prerequisites for required courses) prepared and maintained by units.

Major Concentration: a program of 36 credits taken from a unit's course offerings.

Minor Concentration: a program of 18 credits taken from a unit's course offerings. Expandable Minor Concentrations are those which can, on the completion of 18 additional approved credits, be expanded into a Major Concentration within the appropriate unit.

HONOURS PROGRAM

Honours programs demand a high degree of specialisation, and require students to satisfy specific departmental and Faculty Honours requirements while maintaining a good academic standing. They are designed to prepare students for graduate study.

Regulations:

- To be registered in an Honours program after the first year, students must have attained a GPA and CGPA of at least 3.00 in the previous year, unless they have special permission from the department and the Associate Dean (Student Affairs).
- To complete an Honours degree, a student must achieve a minimum CGPA of 3.00. The program GPA (the GPA of all required

and complementary courses taken at McGill which constitute the Honours program) must be a minimum of 3.00, although academic units may set higher requirements for their program GPA.

- In addition to the completion of the Honours requirements, students must complete at least a Minor Concentration in an academic unit other than the one in which the Honours requirements are satisfied. (For students completing a second degree in the Faculty of Arts, this regulation is waived.)

JOINT HONOURS PROGRAM

Students who wish to study at the Honours level in two disciplines can combine Joint Honours program components from any two Arts disciplines; see section 5.11.4 "Joint Honours Programs" for a list of available programs. Each Joint Honours component consists of a maximum of 36 required and complementary credits (not including program prerequisites). In cases where a minimum of 24 credits are in courses normally restricted to Honours students, the total of required and complementary credits may be as few as 30.

To complete a Joint Honours degree, a student must achieve a minimum CGPA of 3.00. The program GPA (the GPA of all required and complementary courses taken at McGill which constitute the Joint Honours program) must be a minimum of 3.00, although academic units may set higher requirements for their component of the program GPA.

FACULTY PROGRAM

A Faculty program is an approved selection of courses constituting a concentration in an intellectually coherent and inter-faculty field of studies. These courses must include approved selections from one of the following:

- The Faculties of Arts and of Science, and at least one other faculty
- The Faculty of Arts, and at least one faculty other than the Faculty of Science
- The Faculty of Arts currently recognizes the following Faculty Programs:
 - Industrial Relations
 - McGill School of Environment

SCIENCE MINOR PROGRAMS

Students wishing to register for a Minor program offered by the Faculty of Science must satisfy the Arts program requirements as indicated above, as well as any prerequisites for the additional program. Students so interested must write to the Associate Dean (Student Affairs), including with their request written approval from the Science Minor adviser.

5.3.6 Course Requirements

All required and complementary courses used to fulfil program requirements must be completed with a grade of C or better. Students who fail to obtain a satisfactory grade in a required course must either pass the supplemental examination in the course or do additional work for a supplemental grade if these options are available, or repeat the course. Course substitution will be allowed only in special cases; students should consult their academic adviser.

Normally, students are permitted to repeat a failed course only once. (Failure is considered to be a grade of less than C or the administrative failures of J and KF.) If a required course is failed a second time, a student must appeal to the Associate Dean (Student Affairs) for permission to take the course a third time. If permission is denied by the Associate Dean and/or by the Committee on Student Standing, on appeal, the student must withdraw from the program. If the failed course is a complementary course required by the program, a student may choose to replace it with another appropriate complementary course. If a student chooses to substitute another complementary course for a complementary course in which a D was received, credit for the first course will still be given, but as an elective. If a student repeats a required course in which a D was received, credit will be given only once.

Full details of the course requirements for all programs offered are given in each unit's section together with the locations of departmental advisory offices, program directors and telephone numbers should further information be required.

5.3.6.1 Course Overlap

Students will not receive additional credit towards their degree for any course that overlaps in content with a course for which the student has already received credit at McGill, CEGEP, at another university, or Advanced Placement exams, Advanced Level results, International Baccalaureate Diploma, or French Baccalaureate. It is the student's responsibility to consult the Student Affairs Office or the department offering the course as to whether or not credit can be obtained and to be aware of exclusion clauses specified in the course description in the Calendar. Please refer to the following Website for specific information about advanced standing credits and McGill course exemptions: www.mcgill.ca/student-records/transferecredits.

Credit for statistics courses will be given with the following stipulations:

- Credit will be given for ONLY ONE of the following introductory statistics courses: AEMA 310, BIOL 373, ECON 227D1/D2, ECON 257D1/D2, EPSC 215, GEOG 202, MATH 203, MGCR 271, PSYC 204, SOCI 350.
- Credit will be given for ONLY ONE of the following intermediate statistics courses: AEMA 411, ECON 227D1/D2, ECON 257D1/D2, GEOG 351, MATH 204, MGCR 272, PSYC 305, SOCI 461. Only when ECON 227D1/D2 is combined with PSYC 305, credit will be given for both courses.
- Students who have already received credit for MATH 324 or MATH 357 will NOT receive credit for any of the following: AEMA 310, AEMA 411, BIOL 373, ECON 227D1/D2, ECON 257D1/D2, EPSC 215, GEOG 202, GEOG 351, MATH 203, MATH 204, MGCR 271, MGCR 272, PSYC 204, PSYC 305, SOCI 350.
- For 500-level statistics courses not listed above, students must consult a program adviser to ensure that no significant overlap exists. Where such overlap exists with a course for which the student has already received credit, credit for the 500-level course will not be allowed.
- PSYC 204 may not be taken if a grade of 75% was received in an equivalent course completed at CEGEP.

Credit for computer courses will be subject to the following restrictions:

- Credit for courses offered by the School of Computer Science is governed by rules specified in its individual course descriptions.

5.3.6.2 Courses Outside the Faculties of Arts and of Science

The following regulations apply to students in the Faculty of Arts who wish to take courses outside the Faculties of Arts and of Science:

- Regardless of their minimum credit requirement towards their B.A. degree, students are allowed a maximum of 12 credits in ELECTIVE and/or COMPLEMENTARY courses taken in faculties other than the Faculties of Arts and of Science.
- Students in certain designated programs that include a number of required and complementary courses in other faculties are permitted a maximum of 30 credits outside the Faculty of Arts and Science. These programs are as follows:

Faculty programs:

- Environment
- Industrial Relations

Minors:

- Education for Arts students
- Finance for non-Management students
- Management for non-Management students
- Marketing for non-Management students
- Operations Management for non-Management students

Minor Concentrations:

- Educational Psychology
- Environment
- Geography Urban Systems
- Music

Major Concentrations:

- Geography Urban Systems
- Music

Honours:

- Environment
- Urban Systems

Joint Honours:

- Economics and Accounting
- Economics and Finance

- Students who combine any two or more of the programs listed above may not exceed 40 credits outside the Faculty of Arts and of Science.
- Any courses taught at McGill University may be used towards the maximum allowed with the following exceptions:
 - Continuing Education: Continuing Education courses with a teaching unit that starts with C are not for credit (except for CHEM).
 - Distance Education: Refer to the "[Policy on Distance Education Courses](#)", see [section 5.3.6.5](#).
- For the purpose of this policy, courses taught in other faculties and specifically listed in the Arts or Science section of the Calendar are considered as courses taught in the Faculties of Arts and of Science.
- For the purpose of this policy, all courses taken to fulfil the requirements for an approved field semester will be considered as courses in Arts or Science.
- The maximum number of credits allowed will be strictly enforced.

5.3.6.3 Inter-University Transfer Credit Policy for Courses Taken Outside the Faculties of Arts and of Science

Students who transfer from faculties outside the Faculties of Arts and of Science at another institution may transfer up to a maximum of 30 credits under the following conditions:

- Only courses passed with a grade of C or better will be transferred. Grades of C-, P or S are not acceptable. The letter grades applied by the former home institution take precedence over the numerical grades if provided.
- Decisions on whether a course is outside the Faculties of Arts and of Science will be based on the original faculty in which the course was taken.
- Refer to the "[Policy on Distance Education Courses](#)" in [section 5.3.6.5](#).
- Transfer credits for Continuing Education courses will be granted only if the courses can be used towards a degree program in a faculty other than Continuing Education at the original university.
- Transfer students will be allowed to take courses outside the Faculties of Arts and of Science at McGill only if they have transferred fewer than 12 credits, and then only up to a maximum of 12 credits.
- Transfer students who register for a Faculty of Arts program that requires additional credits outside the Faculties of Arts and of Science will be allowed to take only the number of credits outside the Faculties of Arts and of Science required to complete the program. These programs are listed under [section 5.3.6.2](#), "[Courses Outside the Faculties of Arts and of Science](#)".

5.3.6.4 Inter-Faculty Transfer Credit Policy for Courses Taken Outside the Faculties of Arts and of Science

Students will normally have counted for credit (for grades of D or better) and/or GPA (regardless of the grade) all courses in Arts and Science, and up to a maximum of 30 credits of courses outside of Arts and of Science.

- Transfer students will be allowed to take courses outside the Faculties of Arts and of Science at McGill only if they have transferred fewer than 12 credits, and then only up to a maximum of 12 credits.
- Transfer students who register for a Faculty of Arts program that requires additional credits outside the Faculties of Arts and of Science will be allowed to take only the number of credits outside the Faculties of Arts and of Science required to complete the program. These programs are listed under [section 5.3.6.2](#), "[Courses Outside the Faculties of Arts and of Science](#)".

5.3.6.5 Policy on Distance Education Courses

A maximum of 6 credits of elective courses taught through distance education may be used towards the B.A. degree at McGill. Courses taught through distance education from institutions other than McGill will be approved as transfer credits under the following conditions:

- the course is given by a government-accredited, degree-granting institution acceptable to McGill;
- the course counts for credit towards degrees granted at the institution giving the course;
- prior approval for the course is obtained from the Student Affairs Office of the Faculty of Arts.

The combined total of regular course credits and distance education course credits may not exceed the permitted maximum number of credits per term according to Faculty regulations. Courses taught through distance education may not be used to complete program requirements, except on an individual basis when serious, documented circumstances warrant it. In such cases, prior approval must be obtained from the student's program adviser and the Associate Dean (Student Affairs).

5.3.6.6 Internship Courses

The Faculty of Arts offers internship courses for credit. For more information, refer to [section 5.12.2](#), "[Faculty of Arts Internship Program](#)".

5.3.6.7 Courses Taken Under the Satisfactory/Unsatisfactory Option

For more information and restrictions, please consult "[Courses Taken under the Satisfactory/Unsatisfactory \(S/U\) Option](#)" in [section 3.3.6](#).

5.3.6.8 Courses in English as a Second Language

ESL courses are only open to students whose primary language is not English and who have studied for fewer than five years in English-language secondary institutions. Students in the Faculty of Arts may take a maximum of 12 credits, including academic writing courses for non-anglophones.

5.4 Advising

Students who need 96 or fewer credits to complete their degree requirements must consult an academic adviser in their proposed department of study to obtain advice and approval of their course selection. To facilitate program planning, they must present their transcript and letter of admission. For a detailed description of advising and registration procedures, students should refer to *Welcome to McGill*, which they receive from Enrolment Services upon their acceptance, as well as the Student Affairs Website, www.mcgill.ca/artscisao and departmental websites.

Students who need 97-120 credits to complete their degree requirements will normally be registered in a Freshman Program

until they complete their first year. They must consult an adviser in the Student Affairs Office to obtain advice and approval of their course selection. For a detailed description of advising and registration procedures, Freshman students should refer to "[Registration](#)", in [section 3.3](#) and "[Advising and Support](#)", in [section 4](#), *Welcome to McGill*, which they receive upon acceptance from the Enrolment Services, as well as the Student Affairs Website, www.mcgill.ca/artscisao.

Academic advising for all returning students takes place in March for the upcoming academic year. For more information, students should refer to the Student Affairs Website, www.mcgill.ca/artscisao.

5.5 Registration

All students register by Minerva, McGill's Web-based registration system.

For detailed information about registration, please refer to "[Registration](#)" in [section 3.3](#), *Welcome to McGill*, the Student Affairs Website, www.mcgill.ca/artscisao, and to the Student Records Website, www.mcgill.ca/student-records.

Students who fall into unsatisfactory standing at the end of the academic year will have their registration cancelled. They may not re-register in the Faculty. However, students who can provide proof of extenuating circumstances that affected their academic performance may appeal to the Associate Dean (Student Affairs) for readmission. For more information, students should [see section 3.3.13 "Readmission"](#).

Students who have an outstanding fee balance from a previous term or outstanding fines will not be permitted to register. In addition, students who have registered for the upcoming academic year, but who subsequently take summer courses without paying the fees, will have their registration cancelled. Registration will be denied until these debts are paid in full. Students must pay all debts before the end of the registration period to be permitted to register. Students with financial problems should consult the Student Aid Office, Brown Student Services Building.

Students who decide not to return to McGill after initiating registration must withdraw from all of their courses on Minerva or inform the Student Affairs Office in writing. The deadline for withdrawal from the University is the same deadline as for a course withdrawal; [see section 3.3.8 "Regulations Concerning Course Withdrawal"](#) and [section 3.3.9, "Regulations Concerning University Withdrawal"](#). After the deadline, students may, under exceptional circumstances, be granted permission to withdraw from the University. Such students should contact the Student Affairs Office for further information.

5.5.1 Program Registration

Students should refer to *Welcome to McGill* or to the Arts and Science Registration information on how to register for programs on the Student Affairs Website, www.mcgill.ca/artscisao, and to the Student Records Website, www.mcgill.ca/student-records. [See section 5.11, "Programs in the Faculty"](#) for a list of programs that can be taken by Arts students.

5.5.2 Course Registration

All courses have limited enrolment. Students in the Faculty of Arts may register for and take for credit any course, unless otherwise indicated, in the sections of the Calendar applicable to the Faculties of Arts and of Science, subject to the course restrictions listed in this section.

Since the registration system is unable to verify whether or not Faculty regulations are respected, it is technically possible to register for courses that may not be credited towards the B.A. When students' records are manually verified, however, any courses taken that violate the Faculty regulations will be flagged after the end of course change period as "not for credit towards the B.A." As

a result, the students' expected date of graduation may be delayed.

Some courses may require special permission. Students should consult this Calendar and/or the Class Schedule at www.mcgill.ca/courses well in advance of the Course Change period to determine if permission is required of the instructor, the department, or the Faculty for any course they wish to take.

Students who believe they have valid reasons to take a course that may not be credited towards the B.A. must obtain the permission of the Associate Dean (Student Affairs).

5.5.2.1 Registration for First-Year Seminars

Registration for First-Year Seminars is limited to students in their first year of study at McGill, i.e., newly admitted students in U0 or U1. These courses are designed to provide a closer interaction with professors and better working relations with peers than is available in large introductory courses. These seminars endeavour to teach the latest scholarly developments and expose participants to advanced research methods. Registration is on a first-come, first-served basis. The maximum number of students in any seminar is 25, although some are limited to even fewer than that.

Students may take only one First-Year Seminar. Students who register for more than one will be obliged to withdraw from all but one of them. For a complete listing, please see "[First-Year Seminars](#)" in [section 5.12.1](#).

The First-Year Seminars offered by the Faculty of Science are also open to Arts students. For a complete listing, please see "[Registration for First-Year Seminars](#)" in [section 12.5.2.1](#).

5.5.2.2 Registration in Multi-Term Courses

Students who select a multi-term course are making a commitment to that course for its entirety. Students **MUST** register in the same section in all terms of a multi-term course. Credit will be jeopardized if students deliberately register in different sections of a multi-term course. A drop of the Winter term portion of a multi-term course in order to change sections is considered a withdrawal from the course. In exceptional cases, when circumstances are beyond the student's control, the Student Affairs Office may grant permission to change sections mid-way through a multi-term course. Students must make their request in writing to the Associate Dean (Student Affairs), citing their reason for the request. The request must also have the written support of the instructors of the sections involved and of the coordinator of the course (if applicable).

5.5.3 Apply to Graduate

For more information, see [section 3.9.1, "Apply to Graduate"](#).

5.6 Grading and Credit

During the first week of lectures, each instructor will provide students with a written course outline. This information should include, where appropriate:

- whether there will be a final examination in the course;
- how term work will affect the final mark in the course;
- how term work will be distributed through the term;
- whether there will be a supplemental examination in the course, and if so, whether the supplemental exam will be worth 100% of the supplemental grade, or whether term work will be included in the supplemental grade (courses with formal final examinations *must* have supplementals).

5.6.1 Incomplete Grades

An instructor who believes that there is justification for a student to delay submitting term work may extend the deadline until after the end of the course. In this case, the instructor will submit a grade of "K" (incomplete), indicating the date by which the work is to be

completed. The maximum extensions for the submission of grades to the Student Affairs Office are as follows:

- students graduating in June:

Fall, Winter, and multi-term courses	April 30
--------------------------------------	----------
- non-graduating students

Fall courses	April 30
Winter and multi-term courses	July 30
Summer courses	November 30

Students' deadlines for submitting their work must be sufficient in advance of these dates to ensure that the work can be graded and the mark submitted on time.

It is important to note that instructors may impose earlier deadlines than those listed above.

If marks to clear K's have not been submitted to the Student Affairs Office by the deadlines specified above for non-graduating students, the K is automatically changed to a KF and counts as an F in the GPA.

Students with a grade of K who have serious extenuating circumstances may request an extension of the K deadline (KE) from the Associate Dean (Student Affairs).

Please see "[Grading and Grade Point Averages \(GPA\)](#)" in [section 3.5.3](#) for more information.

5.7 Examinations

Students should refer to "[Examinations](#)" in [section 3.6](#) for information about final examinations and deferred examinations.

The exam schedules are posted on the McGill Website, www.mcgill.ca, normally one month after the start of classes for the Tentative Exam Schedule, and two months after the start of classes for the Final Examination Schedule. Students should also refer to the Student Affairs Website at www.mcgill.ca/artscisao for more information.

Students are warned not to make travel arrangements to leave Montreal prior to the scheduled end of any examination period.

5.8 Supplemental Assessments

5.8.1 Supplemental Examinations

Students who wish to write supplemental examinations for certain courses must apply to the Student Affairs Office for permission. The following conditions apply:

- students must be in satisfactory or probationary standing;
- students must have received a final grade of D, J, F, or U in the course;
- special permission is required if students wish to write supplemental exams totalling more than 8 credits in any supplemental exam period;
- only one supplemental examination is allowed in a course;
- the supplemental result may count for 100% of the final grade or may include the same proportion of class work as did the original grade; the instructor will announce the arrangements to be used for the course by the end of the course change period;
- the format and content of the supplemental examination will not necessarily be the same as for the final examination, so students should consult the instructor;
- the supplemental result will not erase the grade originally obtained; both the original mark and the supplemental result will be calculated in the CGPA;
- in courses in which both a supplemental examination and additional work are available, students may choose the additional work or the examination or both; where both are written, only one supplemental mark will be submitted, reflecting marks for both the supplemental examination and the additional work;

- additional credit will not be given for a supplemental exam where the original grade for the course was a D and the student already received credit for the course;
- students must apply to write a supplemental exam; the deadline for submission of applications is March 1 for Fall courses and July 30 for Winter courses and courses spanning Fall/Winter; a non-refundable fee for each supplemental paper is payable at the time of application; supplemental examination applications are available on Minerva; the module is available as of January 29, 2008;
- students must write supplemental exams at the time of the next supplemental examination period (for Fall courses during the month of May, and for Winter courses and courses spanning Fall/Winter during the last week of August for the Faculties of Arts and of Science);
- supplemental examinations in courses outside the Faculty of Arts are subject to the deadlines, rules, and regulations of the relevant faculty;
- no supplemental examinations are available for students who fail to achieve satisfactory grades in deferred examinations.

Students who register for a supplemental examination and subsequently find themselves unprepared for it should not write it; except for the loss of the registration fee, there is no penalty for not writing a supplemental examination. Students should consult the Student Affairs Office for further information.

5.8.2 Reassessments and Rereads

In accordance with the Charter of Student Rights, and subject to the conditions stated therein, students have the right to consult any written submission for which they have received a mark and the right to discuss this submission with the examiner.

The Faculty of Arts recognizes two types of reassessments or rereads:

- reassessment of coursework (term papers, mid-terms, assignments, quizzes, etc.);
- reread of a final exam.

In both cases, rather than re-correct the work and then grade it as they would have done themselves, reviewers assess the appropriateness of the original grade based, for example, on the application of the grading key to the student's work. If a grade is deemed unfair, it is changed, whether the new grade is higher or lower than the original - i.e. the reviewer's grade takes precedence over the original grade.

Reassessment of Coursework

These reassessments are administered and conducted solely by the units involved according to procedures specified by the units and made available to staff and students. Requests for such reassessments must be made within 10 working days of the date of return of the graded materials. Reassessments should normally be completed within 20 working days of the request.

Rereads of Final Exams

These rereads are administered by the Student Affairs Office, but conducted by the units involved. Students must apply in writing to the Student Affairs Office by March 31 for courses in the Fall term and by September 30 for courses in the Winter or Summer terms (these deadlines are strictly enforced and no requests will be accepted past them). Students are assessed a fee of \$35.00 for such rereads. It is strongly recommended, but not required, that students consult with the instructor of the course before requesting a reread of a final exam.

Reassessments and rereads in courses not in the Faculty of Arts are subject to the deadlines, rules, and regulations of the relevant faculty.

5.9 Academic Standing

Academic standing is based primarily on students' cumulative grade point average (CGPA), but may also be affected by their term grade point average (TGPA). Academic standing is assessed in January for the Fall term, in May for the Winter term, and in September for the Summer term. Academic standing in each term determines if students will be allowed to continue their studies in the next term and if any conditions will be attached to their registration.

Decisions about academic standing in the Fall term are based only on grades that are available in January. Grades for courses in which students have deferred examinations and Fall-term grades for courses that span the Fall and Winter terms do not affect academic standing for the Fall term, even though they will ultimately affect students' Fall TGPA. Therefore, academic standings for the Fall term that are designated as "interim" should be interpreted as advisory. Note that interim standings will not appear on external transcripts. **Interim standing decisions are mentioned below only if the rules for them differ from those for regular standing decisions.**

Interim Satisfactory/Satisfactory Standing

Students in interim satisfactory or satisfactory standing:

- may continue in their program;
- have a CGPA of 2.00 or greater.

Interim Probationary/Probationary Standing

Students in interim probationary standing (at the end of the Fall term):

- may continue in their program;
- should evaluate their course load and reduce it as appropriate;
- are strongly advised to consult a departmental adviser about their course selection, and their Faculty adviser to discuss degree planning.

Students in probationary standing:

- may continue in their program;
- must carry a reduced load (maximum 14 credits per term);
- must raise their CGPA to return to satisfactory standing (see above);
- should see their departmental adviser about their course selection, and their Faculty adviser to discuss degree planning.

Students will be placed in probationary standing:

- if their CGPA falls between 1.50 and 1.99 and if they were previously in satisfactory standing;
- if their CGPA falls between 1.50 and 1.99 and their TGPA in Fall or Winter is 2.50 or higher, and if they were previously in probationary or interim unsatisfactory standing;
- if their CGPA is less than 2.00, and if they were previously in unsatisfactory readmitted standing and have satisfied the relevant conditions specified in their letter of readmission.

Unsatisfactory Readmitted Standing

Students in unsatisfactory readmitted standing:

- were previously in unsatisfactory standing and were readmitted by the Associate Dean (Student Affairs) or the Committee on Student Standing;
- must meet the conditions specified in their letter of readmission to be allowed to continue in their program;
- should see their departmental adviser to discuss their course selection, and their Faculty adviser to discuss degree planning.

Interim Unsatisfactory/Unsatisfactory Standing

Students in interim unsatisfactory standing (at the end of the Fall term):

- may continue in their program;
- should evaluate their course load and reduce it as appropriate;
- are strongly advised to consult an academic adviser about their course selection and their Faculty adviser to discuss degree planning.

Students in unsatisfactory standing:

- have failed to meet the minimum standards set by the faculties;
- may not continue in their program, and their registration will be cancelled.

Students will be placed in unsatisfactory standing:

- if their CGPA falls or remains below 1.50.
- if their TGPA in the Fall or Winter falls below 2.50 and their CGPA is below 2.00 and if they were previously in probationary, unsatisfactory readmitted, or interim unsatisfactory standing;
- if they were previously in unsatisfactory standing and were readmitted to the Faculty by the Associate Dean (Student Affairs) or the Committee on Student Standing but have not satisfied the conditions specified in the letter of readmission.

Appeals for readmission by students in unsatisfactory standing should be addressed to the Associate Dean (Student Affairs) no later than July 15 for readmission to the Fall term and November 15 for the Winter term. Readmission will be considered only when proof of extenuating circumstances that affected academic performance can be provided (e.g., medical or other documentation). Students in unsatisfactory standing for the second time must withdraw permanently.

Normally, supplemental examinations are not permitted; however, students in unsatisfactory standing may appeal to the Associate Dean (Student Affairs) for permission to write a supplemental examination, clearly stating the reasons for special consideration and providing proof as appropriate.

Incomplete Standings

- Standing awaits deferred exam.
- Must clear K's, L's or Supplementals.
- Standing Incomplete.

Students with incomplete standings (in the Winter or Summer term):

- may register for the Fall term, but their standing must be resolved by the end of the course change period for that term;
- may continue in the program if incomplete standing changes to satisfactory, probationary, or interim unsatisfactory standing;
- may not continue in their program and their registration will be cancelled if standing changes to unsatisfactory standing.

Students whose standing changes to unsatisfactory:

- may ask for permission to continue in their program;
- must make a request for readmission to the Associate Dean (Student Affairs) as soon as they are placed in unsatisfactory standing;
- must provide proof of extenuating circumstances that affected academic performance (e.g., medical or other documentation).

Students whose standing is still incomplete by the end of course change period should immediately consult with the Student Affairs Office.

At the end of the Winter term, students with a mark of K or L will be placed in the appropriate standing in June, if the outstanding mark in the course will not affect their standing. Otherwise, standing decisions will be made only once incomplete marks have been

cleared. For more information about incomplete grades, please refer to “[Incomplete Grades](#)” in [section 5.6.1](#).

5.10 Awards and Honorary Designations

5.10.1 Honours and First-Class Honours

Departments may recommend to the Faculty that graduating students registered in an Honours program be awarded *Honours* or *First-Class Honours* under the following conditions:

- students must complete all requirements imposed by the department;
- for *Honours*, the CGPA at graduation must be at least 3.00;
- for *First-Class Honours*, the CGPA at graduation must be 3.50 or better;
- some departments have additional requirements which must be met before students are recommended for *Honours* or *First-Class Honours* (see the departmental entries).

Students in an Honours program whose program GPA or CGPA is below 3.00, or who did not satisfy certain additional program requirements, must consult their adviser to determine if they are eligible to graduate in a program other than Honours.

5.10.2 Distinction and Great Distinction

Students in the Faculty or the Multi-track programs may be awarded their degrees with *Distinction* or *Great Distinction* under the following conditions:

- students must have completed a minimum of 60 McGill credits towards the same degree to be considered;
- for *Distinction*, the CGPA at graduation must be 3.30 to 3.49;
- for *Great Distinction*, the CGPA at graduation must be at least 3.50;
- these designations may be withdrawn in the case of transfer students, if their CGPA in another faculty or at another university is not comparable to the CGPA earned in the Faculty of Arts.

5.10.3 Dean’s Honour List

The designation *Dean’s Honour List* may be awarded to a graduating student under the following conditions:

- students must have completed a minimum of 60 McGill credits towards the same degree to be considered;
- students must be among the top 10% of the Faculty’s graduating class of students; this calculation is based on the CGPA;
- this designation may be withdrawn in the case of transfer students, if their CGPA in another faculty or at another university is not comparable to the CGPA earned in the Faculty of Arts.

The designation *Dean’s Honour List* may be awarded at the end of each academic year to continuing students under the following conditions:

- students must have completed at least 27 graded credits during the academic year to be considered;
- students must be among the top 10% of the Faculty. This calculation is based on the sessional GPA (i.e. the combined GPA for the Fall and Winter terms).

5.10.4 Medals and Prizes

Various medals, scholarships, and prizes are open to continuing and graduating students. Full details of these are set out in the *Undergraduate Scholarships and Awards Calendar*, available from Enrolment Services or on the Web, www.mcgill.ca. Application may be required for some scholarships.

5.11.4 Joint Honours Programs

There are two types of Joint Honours Programs available in the Faculty of Arts:

- fully integrated programs such as Mathematics and Computer Science.
- programs that are created by combining the Joint Honours program components from two Arts disciplines. Students must register for both Joint Honours program components. Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Students can choose Joint Honours program components from **any two** of the following disciplines:

Accounting (can only be combined with Economics), – [page 107](#)

5.12 Academic Programs

5.12.1 First-Year Seminars

See Course section for descriptions.

FREN 199 FYS: Littérature française
 HIST 197 FYS: Race in Latin America
 HIST 198 FYS: Nation Building and Nationalism
 SOCI 199 FYS: Transition from School to Work
 SSMD 199 FYS: Mind-Body Medicine

5.12.2 Faculty of Arts Internship Program

Several departments in the Faculty of Arts offer undergraduate students the opportunity to earn university credit while gaining experience in areas relevant to their fields of study. Open to U2 and U3 students, normally after completing 30 credits of a 90 credit program or 45 credits of a 96 to 120 credit program, normally with a minimum CGPA of 2.7, and permission of the departmental Internship Advisor. Arts internships involve a minimum of 150 hours of work with an approved host institution or organization. Students are required to submit a major topical paper that discusses an aspect of the internship from an academic perspective.

For more information about the Faculty of Arts Internship Program, please refer to www.mcgill.ca/arts-internships.

5.12.3 Field Studies and Study Abroad Programs

The Faculty of Arts offers students many field studies and study abroad opportunities. For more information, please refer to [section 15, "Field Studies and Study Abroad Opportunities"](#) of this calendar.

MINOR CONCENTRATION IN AFRICAN STUDIES

(Expandable) (18 credits)

A Minor Concentration in African Studies is available for those students majoring in a discipline of the Faculty of Arts who wish to acquire interdisciplinary knowledge of Africa.

Required Course (3 credits)

AFRI 598 Research Seminar in African Studies

Complementary Courses (15 credits)

To be selected from the courses listed below. Priority should be given to key African courses, designated with an asterisk (*), whenever they are offered.

MAJOR CONCENTRATION IN AFRICAN STUDIES (36 credits)

The Major Concentration in African Studies provides students with an interdisciplinary approach to the study of the African continent.

Students wishing to major in African Studies should consult the Program Coordinator at the beginning of their first academic year. In the African Studies Major Concentration, students will be encouraged to identify an area within a discipline of the Faculty, taking as many relevant courses as possible in that field.

Required Course (3 credits)

AFRI 598 Research Seminar in African Studies

Complementary Courses (33 credits)

To be selected from the courses listed below. Priority should be given to key African courses, designated with an asterisk (*), whenever they are offered.

COMPLEMENTARY COURSE LIST

These courses are either on African subjects or have significant African content.

If courses listed below are not available in any particular year, modifications to the Programs may be made with the approval of the Program Coordinator.

Students who wish program credit for other courses with African content, or in which they have pursued individual research or written papers on African topics, should seek approval from the Program Coordinator. African content may be found in certain courses offered in Islamic Studies and Religious Studies.

African Studies

Chair — Michael S. Bisson

Professors

Donald W. Attwood; B.A.(Calif.), Ph.D.(McG.)
 Laurel Bossen; B.A.(Barnard), M.A., Ph.D.(SUNY, Albany) (*on leave Fall 2008*)
 Colin Chapman; B.Sc., M.A., Ph.D.(Alta.) (*joint appoint. with McGill School of Environment*)
 Ronald W. Niezen; B.A.(Br. Col.), M.Phil., Ph.D.(Camb.)
 Jérôme Rousseau; B.Sc., M.A.(Montr.), Ph.D.(Cant.) (*on sabbatical 2008-09*)
 Philip Carl Salzman; B.A.(Antioch), M.A., Ph.D.(Chic.)
 Allan Young; B.A.(Penn.), M.A.(Wash.), Ph.D.(Penn.) (*joint appoint. with Social Studies of Medicine*)

Associate Professors

Michael S. Bisson; B.A., Ph.D.(Calif.)
 John G. Galaty; B.A.(Trin. Coll., Tor.), M.A., Ph.D.(Chic.)
 Sandra T. Hyde; B.A.(Calif., Santa Cruz), M.P.H.(Hawaii, Pac.), Ph.D.(Calif., Berk.) (*on sabbatical Winter 2009*)
 Carmen Lambert; B.A.(Montr.), M.A., Ph.D.(McG.)
 Kristin Norget; B.A.(Vic. (BC)), M.Phil., D.Phil.(Camb.)
 James M. Savelle; B.Sc., M.Sc.(Ott.), M.A.(Ark.), Ph.D.(Alta.) (*on sabbatical 2008-09*)
 Colin H. Scott; B.A.(Regina), M.A., Ph.D.(McG.)

Assistant Professors

André Costopoulos; B.A.(McG.), M.A.(Montr.), Ph.D.(Oulu)
 Nicole C. Couture; B.A.(Trent), M.A., Ph.D.(Chic.)
 Eduardo Kohn; B.A.(Oberlin), M.A., Ph.D.(Wis.)
 Setrag Manoukian; B.A.(Venice), M.A., Ph.D.(Mich.) (*joint appoint. with Islamic Studies*)

Margaret E. Stevenson; B.A.(N. Carolina), Ph.D.(Calif., Berk.)
 Ismael Vaccaro; M.A., Ph.D.(Wash.) (*joint appoint. with MSE*)

Associate Member

Ellen Corin; Ph.D.(Louvain)

Adjunct Member

Vinh-Kim Nguyen; B.Sc.(McG.), M.D.(Montr.), M.A., Ph.D.(McG.)
 Nadia Ferrara; B.A.(C'dia), M.A.(Vermont College), M.Sc.(McG.), Ph.D.(Montr.)

The Honours Program and Major Concentration in Anthropology emphasize the similarity and diversity of human behaviour, understanding of social and cultural systems, and the processes of socio-cultural change from human origins to the present day. Within Anthropology, the Department concentrates on the fields of Archaeology and Socio-Cultural Anthropology.

Our programs serve as a useful background for those who are planning a career in law, foreign service, community organization, public administration, journalism, and teaching and research in social sciences and humanities. The Multi-track Major and Minor Concentrations provide students with a solid grounding in anthropology as a whole, or in selected topical or sub-disciplinary areas, while allowing students to follow programs in other departments that suit their needs and interests. The Honours program provides a greater focus on Anthropology with substantial breadth and depth. The completion of an Honours program is an asset when applying to graduate or professional schools.

Students should have a CGPA of at least 3.30 to register in an Honours or Joint Honours Program after their first year, and maintain it to graduate with an Honours Degree. Graduation with a First Class Honours or Joint Honours Degree requires a CGPA of 3.50 or better.

CORE COURSES

Core courses in Anthropology (350 level) provide students with essential knowledge of method and theory. They are more intensive than other 300-level courses, and are **restricted to Anthropology program students in U2 standing or above.**

ANTHROPOLOGY MINOR CONCENTRATIONS

The Minor Concentration in Anthropology consists of 18 credits (six 3-credit courses) in the discipline and is designed to complement students' study in related disciplines or in interdisciplinary programs. The degree may enhance the employment profile of graduating students wishing to work in social services, in multicultural or multiethnic settings, in international development, aboriginal history, museum work, or in educational or media related professions.

Students should register in the Minor Concentration prior to their second year of study at McGill. No credits taken in a Minor may overlap with another degree program. The Minor Concentration may be expanded into the single Anthropology Major Concentration.

The **Minor Concentration in Anthropological Archaeology** and the **Minor Concentration in Socio-Cultural Anthropology** were retired at the end of 2004. Students enrolled in either one at that time should consult with a Departmental adviser.

MINOR CONCENTRATION IN ANTHROPOLOGY (Expandable) (18 credits)

The Minor Concentration in Anthropology permits students to explore the development and diversity of human beings and human society and culture through courses in human evolution, prehistoric archaeology and socio-cultural anthropology. Students may include courses in all of these fields, or may focus on one or two.

Complementary Courses (18 credits)

6 to 9 credits from the following list:

ANTH 201 (3) Prehistoric Archaeology
 ANTH 202 (3) Comparative Cultures
 ANTH 203 (3) Human Evolution
 ANTH 204 (3) Anthropology of Meaning
 ANTH 205 (3) Cultures of the World

ANTH 206	(3)	Environment and Culture
ANTH 207	(3)	Ethnography through Film
ANTH 208	(3)	Evolutionary Anthropology
ANTH 209	(3)	Anthropology of Religion
ANTH 212	(3)	Anthropology of Development
ANTH 214	(3)	Violence, Warfare, Culture
ANTH 221	(3)	Introduction to Urban Anthropology
ANTH 222	(3)	Legal Anthropology
ANTH 227	(3)	Medical Anthropology

3 credits from either one of the following area groups:

Ethnography

ANTH 306	(3)	Native Peoples' History in Canada
ANTH 315	(3)	Society/Culture: East Africa
ANTH 321	(3)	Peoples and Cultures of Africa
ANTH 322	(3)	Social Change in Modern Africa
ANTH 326	(3)	Peoples of Central and South America
ANTH 327	(3)	Peoples of South Asia
ANTH 329	(3)	Modern Chinese Society and Change
ANTH 337	(3)	Mediterranean Society and Culture
ANTH 338	(3)	Native Peoples of North America
ANTH 340	(3)	Middle Eastern Society and Culture
ANTH 415	(3)	Problems in African Anthropology
ANTH 416	(3)	Environment/Development: Africa
ANTH 422	(3)	Contemporary Latin American Culture & Society
ANTH 427	(3)	Social Change in South Asia
ANTH 436	(3)	North American Native Peoples
ANTH 500	(3)	Chinese Diversity & Diaspora

Archaeology

ANTH 305	(3)	Arctic Prehistory
ANTH 309	(3)	Prehistory of Northern Europe
ANTH 317	(3)	Prehistory of North America
ANTH 319	(3)	Inka Arch. & Ethnohistory
ANTH 331	(3)	Prehistory of East Asia
ANTH 335	(3)	Ancient Egyptian Civilization
ANTH 345	(3)	Prehistory of Africa
ANTH 347	(3)	Paleolithic Cultures
ANTH 348	(3)	Early Prehistory: New World

6 to 9 credits from any 300-, 400-, or 500-level Anthropology courses.

MAJOR CONCENTRATION

The Major Concentration is especially appropriate for students who aim to take courses across several sub-disciplinary or topical concentrations, and for whom specialization is premature. There are no prerequisites for admission to the Major Concentration in Anthropology. Students are encouraged to take a course in quantitative methods (listed under the Honours program below), but this course cannot count as part of this Concentration.

MAJOR CONCENTRATION IN ANTHROPOLOGY (36 credits)

Complementary Courses (36 credits)

6 credits selected from the 200-level courses in Anthropology

6 credits, two Core courses (350-level) selected from:

ANTH 352	(3)	History of Anthropological Theory
ANTH 355	(3)	Theories of Culture and Society
ANTH 357	(3)	Archaeological Methods
ANTH 358	(3)	The Process of Anthropological Research
ANTH 359	(3)	History of Archaeological Theory

6 credits, two Area courses selected from:

Ethnography

ANTH 306	(3)	Native Peoples' History in Canada
ANTH 315	(3)	Society/Culture: East Africa
ANTH 321	(3)	Peoples and Cultures of Africa
ANTH 322	(3)	Social Change in Modern Africa
ANTH 326	(3)	Peoples of Central and South America
ANTH 327	(3)	Peoples of South Asia
ANTH 329	(3)	Modern Chinese Society and Change

ANTH 337	(3)	Mediterranean Society and Culture
ANTH 338	(3)	Native Peoples of North America
ANTH 340	(3)	Middle Eastern Society and Culture
ANTH 415	(3)	Problems in African Anthropology
ANTH 416	(3)	Environment/Development: Africa
ANTH 422	(3)	Contemporary Latin American Culture & Society
ANTH 427	(3)	Social Change in South Asia
ANTH 436	(3)	North American Native Peoples
ANTH 500	(3)	Chinese Diversity & Diaspora

Archaeology

ANTH 305	(3)	Arctic Prehistory
ANTH 309	(3)	Prehistory of Northern Europe
ANTH 317	(3)	Prehistory of North America
ANTH 319	(3)	Inka Arch. & Ethnohistory
ANTH 331	(3)	Prehistory of East Asia
ANTH 335	(3)	Ancient Egyptian Civilization
ANTH 345	(3)	Prehistory of Africa
ANTH 347	(3)	Paleolithic Cultures
ANTH 348	(3)	Early Prehistory: New World
ANTH 552	(3)	Problems: Prehistory North Eastern America

6 credits, two 400-level Anthropology courses

12 credits of additional Anthropology courses of which no more than 6 credits may be at the 200 level

HONOURS IN ANTHROPOLOGY (60 credits)

The course selection for the program must satisfy the following requirements:	
300- and 400-level courses in other departments (subject to departmental approval)	max. 9 credits
Complementary courses (max. 21 credits at the 200-level)	max. 36 credits
Core courses (350-level)	min. 9 credits
400-level courses in Anthropology	min. 9 credits
Honours thesis	6 credits

Students can take a maximum of 9 credits at the 300 level or above given by other departments, if they are directly related to their focus of study within Anthropology and are approved by their adviser in the Anthropology Department.

Honours students must maintain a GPA of 3.30 in their program courses and, according to Faculty regulations, a minimum CGPA of 3.00 in general.

Complementary Courses (60 credits)

a. 300- and 400-LEVEL in up to 2 other departments - maximum 9 credits with departmental approval

b. 200/300 LEVEL - maximum of 36 credits (of which a maximum of 21 credits can be at the 200-level) from the following:

ANTH 201	(3)	Prehistoric Archaeology
ANTH 202	(3)	Comparative Cultures
ANTH 203	(3)	Human Evolution
ANTH 204	(3)	Anthropology of Meaning
ANTH 205	(3)	Cultures of the World
ANTH 206	(3)	Environment and Culture
ANTH 207	(3)	Ethnography through Film
ANTH 208	(3)	Evolutionary Anthropology
ANTH 209	(3)	Anthropology of Religion
ANTH 212	(3)	Anthropology of Development
ANTH 214	(3)	Violence, Warfare, Culture
ANTH 221	(3)	Introduction to Urban Anthropology
ANTH 222	(3)	Legal Anthropology
ANTH 227	(3)	Medical Anthropology
ANTH 301	(3)	Nomadic Pastoralists
ANTH 302	(3)	New Horizons in Medical Anthropology
ANTH 303	(3)	Ethnographies of Post-socialism
ANTH 305	(3)	Arctic Prehistory
ANTH 306	(3)	Native Peoples' History in Canada

- ANTH 308 (3) Political Anthropology 01
- ANTH 309 (3) Prehistory of Northern Europe
- ANTH 310 (3) Anthropology of the Arts
- ANTH 311 (3) Primate Behaviour and Ecology
- ANTH 312 (3) Zooarchaeology
- ANTH 313 (3) Early Civilizations
- ANTH 314 (3) Psychological Anthropology 01
- ANTH 315 (3) Society/Culture: East Africa

- ANTH 380 (3) Special Topic 1
- ANTH 381 (3) Special Topic 2
- ANTH 382 (3) Special Topic 3
- ANTH 383 (3) Special Topic 4

c. CORE COURSES - minimum 9 credits from the following:

- ANTH 352 (3) History of Anthropological Theory
- ANTH 355 (3) Theories of Culture and Society
- ANTH 357 (3) Archaeological Methods
- ANTH 358 (3) The Process of Anthropological Research
- ANTH 359 (3) History of Archaeological Theory

d. 400/500-LEVEL - minimum 9 credits from the following:

- ANTH 401 (3) Comparative Anthropology
- ANTH 402 (3) Topics in Ethnography 1
- ANTH 403 (3) Current Issues in Archaeology
- ANTH 404 (3) Topics in Psychological Anthropology
- ANTH 405 (3) Topics in Ethnography 2
- ANTH 407 (3) Anthropology of the Body
- ANTH 412 (3) Topics: Anthropological Theory
- ANTH 413 (3) Gender in Archaeology
- ANTH 416 (3) Environment/Development: Africa
- ANTH 418 (3) Environment and Development
- ANTH 419 (3) Archaeology of Hunter-Gatherers
- ANTH 420 (3) Lithic Technology and Analysis
- ANTH 422 (3) Contemporary Latin American Culture & Society
- ANTH 430 (3) Symbolic Anthropology 01
- ANTH 431 (3) Problems in East Asian Archaeology
- ANTH 436 (3) North American Native Peoples
- ANTH 438 (3) Topics in Medical Anthropology
- ANTH 439 (3) Theories of Development
- ANTH 440 (3) Cognitive Anthropology
- ANTH 443 (3) Medical Anthropological Theory
- ANTH 445 (3) Property and Land Tenure
- ANTH 461 (3) Research Techniques

- ANTH 480 (3) Special Topic 5

- ANTH 490 (6) Honours Thesis 1
- ANTH 491 (6) Honours Thesis 2
- ANTH 492 (6) Honours Thesis
- ANTH 492D1(3) Honours Thesis
- ANTH 492D2(3) Honours Thesis
- ANTH 492N1(3) Honours Thesis
- ANTH 492N2(3) Honours Thesis

JOINT HONOURS – ANTHROPOLOGY COMPONENT (36 credits)

Joint Honours program (Anthropology portion)	36 credits
200-level courses in Anthropology	max. 12 credits
300-level courses in Anthropology	min. 6 credits
Core courses in Anthropology (350-level)	min. 9 credits
400- and 500-level courses in Anthropology	min. 6 credits
Honours project	6 *credits
* of which 3 credits are normally in the other Joint Honours program	

Students interested in Joint Honours should consult an adviser in the other department for specific course requirements. A form will be supplied by the Anthropology Department to keep track of courses required by both departments for the program selected.

Students who wish to study at the Honours level in two disciplines can combine the Joint Honours Program component in Anthropology with one in any other Arts discipline; [see section 5.11.4 "Joint Honours Programs"](#) for a list of available programs.

The Joint Honours thesis topic should be arranged by consultation with an adviser in Anthropology and the other discipline and supervisors be appointed in each department who will work together to guide the student.

Joint Honours students must maintain a GPA of 3.30 in their program courses and, according to Faculty regulations, a minimum CGPA of 3.00 in general.

Complementary Courses (36 credits)

a. 200-LEVEL - maximum 12 credits from the following:

- ANTH 201 (3) Prehistoric Archaeology
- ANTH 202 (3) Comparative Cultures
- ANTH 203 (3) Human Evolution
- ANTH 204 (3) Anthropology of Meaning
- ANTH 205 (3) Cultures of the World
- ANTH 206 (3) Environment and Culture
- ANTH 207 (3) Ethnography through Film
- ANTH 208 (3) Evolutionary Anthropology
- ANTH 209 (3) Anthropology of Religion
- ANTH 212 (3) Anthropology of Development
- ANTH 222 (3) Legal Anthropology
- ANTH 227 (3) Medical Anthropology

b. 300-LEVEL - minimum 6 credits from the following:

- ANTH 301 (3) Nomadic Pastoralists
- ANTH 302 (3) New Horizons in Medical Anthropology
- ANTH 303 (3) Ethnographies of Post-socialism
- ANTH 305 (3) Arctic Prehistory
- ANTH 306 (3) Native Peoples' History in Canada
- ANTH 308 (3) Political Anthropology 01

ANTH 309	(3)	Prehistory of Northern Europe
ANTH 310	(3)	Anthropology of the Arts

Johanne Lamoureux; B.A., M.A.(Montr.), Ph.D.(E.H.E.S.S., Paris)

Louis De Moura Sobral; M.A., Ph.D.(Louvain)
Constance Naubert-Riser; B.A., M.A.(Ott.), Ph.D.(Lyon III)

In the field of Art History, the Department offers comprehensive programs of courses and seminars on the history of the visual arts, material culture, and architecture from antiquity to the present, focusing primarily on Europe and North America. The works of art and architecture are discussed within their cultural, political, historical, religious, philosophical and social context.

Major and Minor Concentrations, and Honours, Joint Honours and graduate programs are available in Art History. For the most up-to-date information on Department requirements and detailed course descriptions, please visit our Department's website or consult an appropriate Undergraduate adviser through the Departmental Office, Arts Building, Room W-225, (514) 398-6541.

The Department offers a new Minor Concentration in Communication Studies, as well as programs at the graduate level as described in the *Graduate and Postdoctoral Studies Calendar*.

Orientation Session for New Students

All new students entering the Art History and Communication Studies undergraduate programs are required to attend an information session prior to registration. In 2008, this session will be held on Wednesday August 27th at 1:30 p.m. in Arts W-220.

At the meeting, the Academic Adviser will explain the requirements of the Department's programs. Incoming students will have an opportunity to ask questions and receive advice on how to plan their courses. Afterwards, students will meet individually with an adviser in order to fill out their Minerva Course Selection Form for registration. Students should sign up for advising appointments after the orientation session.

MINOR CONCENTRATION IN ART HISTORY (Expandable) (18 credits)

Required Course (3 credits)

ARTH 305 (3) Methods in Art History 01

Complementary Courses (15 credits)

3 credits in Art History at the 200 level

12 credits in Art History at the 300 level or above, selected in consultation with the departmental adviser.

Note: courses in studio practice cannot be counted towards the Minor Concentration.

MAJOR CONCENTRATION IN ART HISTORY (36 credits)

Required Course (3 credits)

ARTH 305 (3) Methods in Art History 01

Complementary Courses (33 credits)

a maximum of 12 credits can be at the 200 level

a minimum of 3 credits must be at the 400 level or above (except ARTH 490)

The complementary credits must be selected from at least six of the eight Art History course fields:

- Theories and Methods (I)
- Ancient to Medieval (II)
- 1400 - 1700 (Early Modern) (III)
- 1700 - 1945 (IV)
- Contemporary Art (1945 to present) (V)
- Sites of Visual Culture (VI)
- Medium and Media (VII)
- Selected Topics (VIII)

Note: courses in studio practice cannot be counted towards the Major Concentration.

HONOURS IN ART HISTORY (60 credits)

Students are encouraged to apply for this program after their first year of study at the University and after completion of no less than 12 credits in Art History. Admission is on a competitive basis. While the Faculty of Arts regulations require a minimum CGPA of 3.0 for Honours programs, the department requires in addition a

program GPA of 3.30 for admission into the program and the awarding of Honours.

Required Courses (9 credits)

ARTH 305 (3) Methods in Art History 01
ARTH 400 (3) Selected Methods in Art History
ARTH 401 (3) Honours Research Paper

Complementary Courses (51 credits)

a maximum of 15 credits can be at the 200 level

a minimum of 6 credits must be at the 400 level or above

45 credits selected from at least six of the eight Art History course fields listed below.

- Theories and Methods (I)
- Ancient to Medieval (II)
- 1400 - 1700 (Early Modern) (III)
- 1700 - 1945 (IV)
- Contemporary Art (1945 to present) (V)
- Sites of Visual Culture (VI)
- Medium and Media (VII)
- Selected Topics (VIII)

6 credits in a language other than English or in courses in one or two related disciplines and selected with written approval of the academic adviser.

In addition to the completion of the Honours requirements, students must complete at least a Minor Concentration in an academic unit other than the one in which the Honours requirements are satisfied. (For students completing a second degree in the Faculty of Arts, this regulation is waived.)

JOINT HONOURS – ART HISTORY COMPONENT (36 credits)

Students who wish to study at the Honours level in two disciplines can combine Joint Honours Program components from any two Arts disciplines: [see section 5.11.4 "Joint Honours Programs"](#).

Prior to registering for each Joint Honours component, students should consult an adviser in each department for approval of their course selection.

Students are encouraged to apply for admission to the Joint Honours program after their first year of study at the University and after completion of no less than 12 credits in Art History. Admission is on a competitive basis. While the Faculty of Arts regulations require a minimum CGPA of 3.0 for Honours programs, the department requires in addition a program GPA of 3.30 for admission into the program and the awarding of Honours.

Required Courses (9 credits)

ARTH 305 (3) Methods in Art History 01
ARTH 400 (3) Selected Methods in Art History
ARTH 401 (3) Honours Research Paper

Complementary Courses (27 credits)

a maximum of 9 credits can be at the 200 level

a minimum of 3 credits must be at the 400 level or above

27 credits selected from at least six of the eight Art History course fields listed below.

- Theories and Methods (I)
- Ancient to Medieval (II)
- 1400 - 1700 (Early Modern) (III)
- 1700 - 1945 (IV)
- Contemporary Art (1945 to present) (V)
- Sites of Visual Culture (VI)
- Medium and Media (VII)
- Selected Topics (VIII)

ART HISTORY COURSE FIELDS

Art History courses are divided into eight fields:

- I Theories and Methods
- II Ancient to Medieval
- III 1400 - 1700 (Early Modern)
- IV 1700 - 1945
- V Contemporary Art (1945 to present)

- VI Sites of Visual Culture
- VII Medium and Media
- VIII Selected Topics

I. Theories and Methods

- ARTH 305 (3) Methods in Art History 01
- ARTH 310 (3) Postcolonialism
- ARTH 351 (3) Vision and Visuality in Art History
- ARTH 352 (3) Feminism in Art and Art History
- ARTH 400 (3) Selected Methods in Art History
- ARTH 401 (3) Honours Research Paper

II. Ancient to Medieval

- ARTH 204 (3) Introduction to Medieval Art and Architecture
- ARTH 209 (3) Introduction to Ancient Art and Architecture
- ARTH 215 (3) Introduction to East Asian Art
- ARTH 312 (3) Medieval Art
- ARTH 314 (3) The Medieval City
- ARTH 340 (3) The Gothic Cathedral
- ARTH 341 (3) Romanesque Architecture
- ARTH 415 (3) Late Medieval & Renaissance Architecture in Northern Europe
- ARTH 416 (3) English Architecture

III. 1400 - 1700 (Early Modern)

- ARTH 207 (3) Early Modern Art (1400-1700)
- ARTH 223 (3) Introduction to Italian Renaissance Art
- ARTH 320 (3) Seventeenth-Century Art of Court and Church
- ARTH 324 (3) Sixteenth-Century Art in Italy
- ARTH 332 (3) Italian Renaissance Architecture
- ARTH 333 (3) Italian Baroque Architecture
- ARTH 343 (3) Northern Renaissance Art 01
- ARTH 435 (3) Early Modern Visual Culture
- ARTH 473 (3) Studies in 17th and Early 18th Century Art 04

IV. 1700 - 1945

- ARTH 205 (3) Introduction to Modern Art
- ARTH 323 (3) Realism and Impressionism
- ARTH 334 (3) Eighteenth Century European Art
- ARTH 335 (3) Art in the Age of Revolution
- ARTH 337 (3) Modern Painting and Sculpture, Post-Impress to WWI
- ARTH 338 (3) Modern Art and Theory: WWI - WWII
- ARTH 347 (3) 19th Century Architecture
- ARTH 348 (3) 20th Century Architecture
- ARTH 374 (3) Studies in Later 18th and 19th Century Art
- ARTH 379 (3) Studies: Modern Art and Theoretical Problems 02
- ARTH 474 (3) Studies in Later 18th and 19th Century Art
- ARTH 479 (3) Studies: Modern Art and Theoretical Problems 04

V. Contemporary Art (1945 to Present)

- ARTH 336 (3) Art Now
- ARTH 339 (3) Critical Issues - Contemporary Art
- ARTH 356 (3) Modern & Contemporary Chinese Art
- ARTH 510 (3) The Body and Visual Culture

VI. Sites of Visual Culture

- ARTH 300 (3) Canadian Art to 1914
- ARTH 301 (3) Canadian Art 1914 - Present
- ARTH 302 (3) Aspects of Canadian Art
- ARTH 321 (3) Visual Culture of the Dutch Republic
- ARTH 325 (3) Visual Culture Renaissance Venice
- ARTH 406 (3) German Architecture

VII. Medium and Media

- ARTH 326 (3) Print Culture and the City
- ARTH 360 (3) Photography and Art
- ARTH 457 (3) Brushwork in Chinese Painting

VIII. Selected Topics

- ARTH 353 (3) Selected Topics in Art History 1
- ARTH 354 (3) Selected Topics in Art History 2
- ARTH 420 (3) Selected Topics in Art and Architecture 1
- ARTH 421 (3) Selected Topics in Art and Architecture 2
- ARTH 422 (3) Selected Topics in Art and Architecture 3

- ARTH 447 (3) Independent Research Course
- ARTH 460 (3) Studies in Architectural History 1
- ARTH 461 (3) Studies in Architectural History 2
- ARTH 490 (3) Museum Internship

Note: In addition to architectural courses given by the Department, Program students are encouraged to consider courses given in the School of Architecture and the Departments of East Asian Studies and Philosophy which may, upon consultation with the Department, be regarded as fulfilling part of the requirements.

- ARCH 250 Architectural History 1
- ARCH 251 Architectural History 2
- EAST 303 Current Topics: Chinese Studies 1
- PHIL 336 Aesthetics
- PHIL 436 Aesthetics 2

MINOR CONCENTRATION IN COMMUNICATION STUDIES

(18 credits)

The Minor Concentration in Communication Studies will provide undergraduate students with a critical understanding of the role that communications media and communication technologies plays in a society. Specifically, the Minor Concentration will provide students with intellectually challenging and innovative instruction in key traditions of Communications and Media Studies and new theoretical and methodological practices being developed in the field. The courses offered in the Concentration will pay special attention to issues of the relationship between communication, democracy and urban life, the social life of communication technologies, the historical development and transformation of media and communication forms, institutions, practices and technologies, and the mass media representation and mobilization of social difference. The Minor Concentration draws from a small, revised core of undergraduate courses taught in Communication Studies ("History of Communication" and Introduction to Communication Studies") in addition to eleven new undergraduate course offerings.

Required Course (3 credits)

- COMS 210 (3) Introduction to Communication Studies

Complementary Courses (15 credits)

5 courses in Communication Studies from the list below:

- COMS 200 (3) History of Communication
- COMS 230 (3) Communication and Democracy
- COMS 300 (3) Media and Modernity in the 20th Century
- COMS 310 (3) Media and Feminist Studies
- COMS 320 (3) Media and Empire
- COMS 330 (3) Media in Cultural Life
- COMS 340 (3) New Media
- COMS 350 (3) Sound Culture
- COMS 400 (3) Critical Theory Seminar
- COMS 410 (3) Cultures of Visualization
- COMS 490 (3) History and Theory of Media
- COMS 491 (3) Media, Communication & Culture
- COMS 492 (3) Power, Difference and Justice
- COMS 510 (3) Canadian Broadcasting Policy

5.12.7 Canadian Ethnic and Racial Studies Minor Concentration

Department of Sociology
Leacock 714

Telephone: (514) 398-6853
E-mail: morton.weinfeld@mcgill.ca

Chair — Morton Weinfeld

Advisory Committee

G. Burgos (*Sociology*), Ian H. Henderson (*Religious Studies*), A. Hsia (*German Studies*), S. T. Saideman (*Political Science*), J. Torczyner (*Social Work*), U. Turgay (*Islamic Studies*)

The Minor Concentration in Canadian Ethnic and Racial Studies is an interdisciplinary program administered by the Faculty of Arts. It

is affiliated with the McGill Institute for the Study of Canada. The Concentration can be taken in conjunction with any primary program in Arts or Science. It offers to undergraduate students a structured framework in which to appreciate the range of social scientific approaches to the study of ethnic diversity in Canada.

The terms “ethnic” and “racial” are used in a very broad sense, to include the full spectrum of ethnic, cultural, aboriginal, linguistic, and racial groups in Canada.

The disciplines featured in the program are Sociology, Anthropology, Geography, History, and Political Science. In special cases, courses taken from other Arts departments, and other units at McGill, may be considered (e.g., Social Work, Education), with the consent of the Chair. The same is true of new relevant courses not yet listed below.

Apart from the intrinsic interest and importance of the subject, the Concentration may be of practical use. Students pursuing further graduate and professional training or employment in a variety of areas will find familiarity with issues relating to cultural diversity to be an asset. These include the fields of health, social services, education, law, law enforcement, human resources and personnel; occupations in government agencies, in ethnocultural and other non-governmental organizations; and graduate work in all the social sciences.

The Canadian Ethnic and Racial Studies Concentration will also sponsor programs of interest for the McGill Community during the course of the year. Students interested in registering in this program should contact the Chair.

MINOR CONCENTRATION IN CANADIAN ETHNIC AND RACIAL STUDIES (18 credits)

Required Courses (9 credits)

SOCI 210	(3)	Sociological Perspectives
SOCI 230	(3)	Sociology of Ethnic Relations
SOCI 475	(3)	Canadian Ethnic Studies Seminar

Of the 18 credits, selected with due regard to Faculty guidelines and course prerequisites, at least 9 must be above the 200 level.

Complementary Courses (9 credits)

9 credits, at least 6 of which must be 300-level or higher, selected from two of the following departmental lists:.

Anthropology

ANTH 202	(3)	Comparative Cultures
ANTH 205	(3)	Cultures of the World
ANTH 306	(3)	Native Peoples' History in Canada
ANTH 320	(3)	Social Evolution
ANTH 333	(3)	Class and Ethnicity
ANTH 338	(3)	Native Peoples of North America
ANTH 436	(3)	North American Native Peoples

Geography

GEOG 301	(3)	Geography of Nunavut
GEOG 331	(3)	Urban Social Geography
GEOG 424	(3)	Europe: Places and Peoples

History

HIST 203	(3)	Survey: Canada since 1867
HIST 371	(3)	American Civil Rights 1877-1940
HIST 408	(3)	Colonialism and Native Peoples
HIST 423	(3)	Topics: Migration and Ethnicity
HIST 424	(3)	Asian Diaspora: Chinese Overseas
HIST 471D1	(3)	Canadian Immigration History
HIST 471D2	(3)	Canadian Immigration History

Political Science

POLI 226	(3)	La vie politique québécoise
POLI 321	(3)	Issues: Canadian Public Policy
POLI 336	(3)	Le Québec et le Canada
POLI 411	(3)	Immigration and Multiculturalism in Canada
POLI 412	(3)	Canadian Voting/Public Opinion
POLI 431	(3)	Nations and States/Developed World
POLI 478	(3)	The Canadian Constitution

Sociology

SOCI 234	(3)	Population and Society
SOCI 327	(3)	Jews in North America
SOCI 333	(3)	Social Stratification
SOCI 353	(3)	Inequality and Social Conflict
SOCI 519	(3)	Sociology of Ethnic Conflict
SOCI 520	(3)	Migration and Immigrant Groups
SOCI 529	(3)	Social Inequality and Public Policy

Social Work

SWRK 400	(3)	Policy and Practice for Refugees

Student Adviser — Ian Rae

Canadian Studies will be of value to any student considering a career in education, law, business, government, social service, human resources, journalism and the media, and graduate work in the social sciences and humanities.

The Canadian Studies Major and Minor Concentrations seek to provide students with a comprehensive multidisciplinary view of the nature and growth of Canada. Students completing a Major Concentration in Canadian Studies are encouraged to complete a second Major Concentration in a discipline such as Anthropology, Economics, English Literature, History, Political Science or Sociology as a complement to their Canadian Studies requirements. The Minor Concentration may be taken in conjunction with any primary program in Arts or Science.

Students interested in pursuing Canadian Studies at the graduate level should consider the Joint Honours Concentration, which includes the Canadian Studies Component or the Honours Concentration.

MINOR CONCENTRATION IN CANADIAN STUDIES (Expandable) (18 credits)

Required Course (3 credits)

CANS 200	(3)	Introduction to the Study of Canada
----------	-----	-------------------------------------

Complementary Courses (15 credits)

6 credits chosen from Canadian Studies (CANS) courses

9 credits to be chosen from two disciplines (see the Canadian Studies Complementary Course List) other than the ones of the student's other Major or Minor Concentrations. A minimum of 3 credits must be above the 200 level. A maximum of 3 credits may be chosen from French as a Second Language.

MAJOR CONCENTRATION IN CANADIAN STUDIES

(36 credits)

Required Course (3 credits)

CANS 200 (3) Introduction to the Study of Canada

Complementary Courses (33 credits*)

3 credits, one of the following courses:

POLI 221 (3) Government of Canada

POLI 222 (3) Political Process and Behaviour in Canada

9 credits chosen from Canadian Studies (CANS) courses

3 credits taught in French, including language courses (see Canadian Studies Complementary Course List)

12 credits chosen from the Canadian Studies Complementary Course List, in the following manner:

3 credits in English or French-Canadian Literature

3 credits in History

6 credits in Anthropology, Economics, Geography, Political Science or Sociology

6 additional credits from the Canadian Studies Complementary Course List at the 300 level or above

* at least 3 of the 33 credits must be at the 400 level

HONOURS IN CANADIAN STUDIES (57 credits)

Students planning to pursue an Honours Program option are reminded that they must complete a Minor Concentration (18 credits) in another Arts discipline to graduate.

Students with a GPA of 3.30 in their program courses and, in keeping with Faculty regulations, a minimum CGPA of 3.00 in general, are eligible to apply to the Honours Program in Canadian Studies; application deadlines are December 15 and May 15. Forms are available from the MISC Office.

Required Courses (18 credits)

CANS 200 (3) Introduction to the Study of Canada

CANS 480 (3) Honours Thesis 1

CANS 481 (3) Honours Thesis 2

CANS 501 (3) Interdisciplinarity & Canadian Studies

HIST 202 (3) Survey: Canada to 1867

HIST 203 (3) Survey: Canada since 1867

Complementary Courses (39 credits)

6 credits in Political Science, including one of the following courses:

POLI 221 (3) Government of Canada

POLI 222 (3) Political Process and Behaviour in Canada

3 credits in Canadian History

3 credits: French as a Second Language or courses given in French

3 credits: French-Canadian Literature or Quebec Literature in French

3 credits: English-Canadian Literature

3 credits: Canadian Geography

12 credits: Canadian Studies (CANS) courses, with a minimum of 6 credits at the 400 level or above

6 credits from the Canadian Studies Complementary Course List, with a minimum of 3 credits at the 400 level or above

JOINT HONOURS – CANADIAN STUDIES COMPONENT

(36 credits)

Students with a minimum program GPA of 3.30 in Canadian Studies Required and Complementary courses may apply to the Joint Honours Program in Canadian Studies. Forms are available from the MISC. There are two application deadlines, January 31 and the last day of classes for the Winter term.

Required Courses (9 credits)

CANS 200 (3) Introduction to the Study of Canada

CANS 492 (3) Joint Honours Thesis

CANS 501 (3) Interdisciplinarity & Canadian Studies

Complementary Courses (27 credits)

3 credits, one of the following:

POLI 221 (3) Government of Canada

POLI 222 (3) Political Process and Behaviour in Canada

9 credits: Canadian Studies (CANS) courses

3 credits: French as a Second Language or courses given in French

3 credits: French-Canadian or English-Canadian Literature

3 credits: History

6 credits at the 400-level or above, chosen from the Canadian Studies Complementary Courses List

Joint Honours students must maintain a GPA of 3.30 in their program courses and, according to Faculty regulations, a minimum CGPA of 3.00 in general.

Students who wish to study at the Honours level in two disciplines can combine Joint Honours Program components from any two Arts disciplines; see section 5.11.4 "Joint Honours Programs" for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Program Committee

D. Farrow (*Faculty of Religious Studies*), J. Fumo (*English*),
J. Hellman (*History*), T. Kirby (*Faculty of Religious Studies*),
P. Kirkpatrick (*Religious Studies*), F. Sabetti (*Political Science*)

The Minor Concentration in Catholic Studies seeks to enrich the intellectual experience and academic options available to students, to broaden the course offerings across the disciplines, and to complement the visibility given to other programs such as Jewish Studies, Islamic Studies, and North American Studies.

The Minor Concentration consists of 18 credits. Core and complementary courses provide students an opportunity to deepen their understanding of Catholicism in an increasingly pluralistic world. The program offers a systematic and critical exploration of the diverse ways in which the Catholic tradition informs culture, institutions, and identity.

MINOR CONCENTRATION IN CATHOLIC STUDIES (18 credits)

Required Course (3 credits)

CATH 200 (3) Introduction to Catholicism

Complementary Courses (15 credits)

Professors

Hans Beck; Ph.D.(Erlangen) (*John MacNaughton Professor of Classics*)

T. Wade Richardson; B.A.(McG.), M.A., Ph.D.(Harv.)

Assistant Professors

Michael Fronda; B.A.(C'neil), M.A., Ph.D.(Ohio St.)

Renaud Gagné; B.A., M.A.(Montr.), Ph.D.(Harv.)

Faculty Lecturer

Donald W. Baronowski, B.A.(McG.), M.A.(Br. Col.), Ph.D.(Tor.)

The Classics Program offers courses and the full range of degree concentrations and programs (Minor Concentration, Major Concentration, Joint Honours Component and Honours) in the study of the language, literature, history and culture of Ancient Greece and Rome. In general the Minor and Major concentrations provide an intellectual background in humanist perspectives for the

enrichment of the undergraduate degree, while the Joint Honours and Honours programs in addition offer students in highest standing the prospect of favourable consideration for graduate and professional schools (such as Law), and other relevant career training. All the Classics concentrations and programs require regular advising for course selection and degree audit. Modern Greek Language and Literature courses bear the CLAS designation and are included in the listings for Classics (Group C).

Complementary courses in Classics are divided into four groups and are listed in the CLAS Complementary Course List.

Group A: Ancient Greek Language

Group B: Latin Language

Group C: Classical Civilization, Modern Greek, Ancient History

Group D: Related Courses in Other Departments

The following outlines represent Classics Program requirements only. Each student's program must also satisfy the regulations imposed by the Faculty of Arts. Please consult the Faculty General Information section.

MINOR CONCENTRATION IN CLASSICS (Expandable)

(18 credits)

Complementary Courses (18 credits)

6 - 18 credits from Ancient Greek Language (Group A) and/or Latin Language (Group B)

0 - 12 credits from Classical Civilization, Modern Greek, Ancient History (Group C)

0 - 6 credits from Related Courses in Other Departments (Group D)

Maximum of 12 credits at the 200-level.

MAJOR CONCENTRATION IN CLASSICS (36 credits)

Complementary Courses (36 credits)

15 credits from Ancient Greek Language (Group A) and/or Latin Language (Group B)

21 credits chosen from the four groups (A, B, C, & D)

Maximum of 21 credits in any one group.

Maximum of 12 credits at the 200-level.

Minimum of 3 credits at the 400-level.

HONOURS IN CLASSICS (60 credits)

Complementary Courses (60 credits)

Either: 21 credits in Ancient Greek Language (Group A) and 12 - 21 credits in Latin Language (Group B)

Or: 21 credits in Latin Language (Group B) and

12 - 21 credits in Ancient Greek Language (Group A)

12 - 21 credits in Classical Civilization, Modern Greek, Ancient History (Group C)

0 - 9 credits in Related Courses in Other Departments (Group D)

Maximum of 18 credits at the 200-level

Minimum of 3 credits at the 400-level

One of the following 6-credit courses:

CLAS 515D1/D2 (6) Latin Authors and Texts

CLAS 525D1/D2 (6) Ancient Greek Authors & Texts

According to Faculty regulations, Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

JOINT HONOURS – CLASSICS COMPONENT (36 credits)

Complementary Courses (36 credits)

18 credits in either Ancient Greek Language (Group A) or Latin Language (Group B)

12 credits chosen from the four groups (A, B, C, or D)

Maximum of 18 credits in any one group (A, B, C, or D)

Maximum of 18 credits at the 200-level

One of the following 6-credit courses:

CLAS 515D1/D2 (6) Latin Authors and Texts

CLAS 525D1/D2 (6) Ancient Greek Authors & Texts

Minimum of 3 credits at the 400-level

According to Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

Students who wish to study at the Honours level in two disciplines can combine Joint Honours Program components from any two Arts disciplines; see section 5.11.4 "Joint Honours Programs" for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable). For Classics, see the Undergraduate Adviser, L821, (514) 398-6206.

Notes:

1. Students who intend to pursue graduate studies in Classics are advised to follow an Honours or Joint Honours program.
2. Honours students must maintain a CGPA of 3.00 or higher.
3. Courses considered to be related to Classics are those given by the Departments of Art History, English, French, Philosophy, and Political Science.

Complementary Course Lists:

5.12.11 Minor in Cognitive Science

Students with an interest in cognition may want to consider the Minor in [“Cognitive Science”](#) in [section 12.13.8](#), under Science.

5.12.12 Computer Science (COMP)

McConnell Engineering Building, Room 318

Telephone: (514) 398-7071

Fax: (514) 398-3883

E-mail: liette.chin@mcgill.ca

Website: www.cs.mcgill.ca

Students must have completed MATH 133, MATH 140, MATH 141 or equivalents in order to begin taking courses in this program.

For a list of teaching staff, an outline of the nature of computer science and the opportunities for study in this discipline, see the Science entry [“Computer Science \(COMP\)”](#) in [section 12.13.9](#). The School also offers programs in the Faculties of Engineering, Management and Music.

MINOR CONCENTRATION IN COMPUTER SCIENCE

(18 credits)

This Minor Concentration may be taken in conjunction with any program in the Faculty of Arts with the approval of the adviser of the student's main program and the School of Computer Science. At the time of registration in the penultimate year, students must declare their intent to receive the Minor. Students are strongly encouraged to talk to an adviser of the School before choosing the complementary courses. Approval must be given by the School for the particular sequence of courses the student wishes to use for the Minor Concentration.

Required Courses (9 credits)

COMP 202*	(3)	Introduction to Computing 1
COMP 203	(3)	Introduction to Computing 2
or COMP 250	(3)	Introduction to Computer Science
COMP 206	(3)	Introduction to Software Systems

*Students who have sufficient knowledge in a programming language do not need to take COMP 202 but can replace it with an additional computer science complementary course.

Complementary Courses (9 credits)

Selected from:

COMP 230	(3)	Logic and Computability
COMP 251	(3)	Data Structures and Algorithms
COMP 273	(3)	Introduction to Computer Systems
COMP 280	(3)	History and Philosophy of Computing
MATH 222	(3)	Calculus 3
MATH 240	(3)	Discrete Structures 1

and computer science courses at the 300-level or above (except COMP 364, COMP 396, COMP 400, COMP 431).

SUPPLEMENTARY MINOR CONCENTRATION IN COMPUTER SCIENCE (18 credits)

(Pending University Approval)

This Supplementary Minor Concentration may be taken only by students registered in the Major Concentration in Computer Science. There may be no overlap in credits taken for this Supplementary Minor Concentration and the Major Concentration in Computer Science. Taken together, these constitute a program very close to the Major in Computer Science offered by the Faculty of Science.

Students with two programs in the same department must have a third in a different discipline to be eligible to graduate. Please refer to the Faculty of Arts Degree Requirements, [see section 5.3.5.2 “Departmental Programs”](#).

Complementary Courses (18 credits)

Selected from Computer Science courses at the 300-level or above (except COMP 364, COMP 396, COMP 400, COMP 431) and ECSE 508.

At most 3 credits can be selected from:

MATH 223	(3)	Linear Algebra
MATH 318	(3)	Mathematical Logic
MATH 323	(3)	Probability
MATH 324	(3)	Statistics
MATH 340	(3)	Discrete Structures 2

MAJOR CONCENTRATION IN COMPUTER SCIENCE

(36 credits)

This major concentration represents an in-depth introduction to computer science and its sub-areas.

For students interested in further study in Computer Science, a new minor concentration is under University review that can be combined with the Major Concentration in Computer Science to constitute a program very close to the Major in Computer Science offered by the Faculty of Science. For further information, please consult the program adviser.

Students with two programs in the same department must have a third in a different discipline to be eligible to graduate. Please refer to the Faculty of Arts Degree Requirements, departmental programs.

Required Courses (21 credits)

COMP 202*	(3)	Introduction to Computing 1
COMP 203	(3)	Introduction to Computing 2
or COMP 250	(3)	Introduction to Computer Science
COMP 206	(3)	Introduction to Software Systems
COMP 251	(3)	Data Structures and Algorithms
COMP 273	(3)	Introduction to Computer Systems
MATH 222	(3)	Calculus 3
MATH 240	(3)	Discrete Structures 1

*Students who have sufficient knowledge in a programming language do not need to take COMP 202 but can replace it with an additional computer science complementary course.

Complementary Courses (15 credits)

3 - 6 credits from:

- MATH 223 (3) Linear Algebra
- MATH 318 (3) Mathematical Logic
- MATH 323 (3) Probability
- MATH 324 (3) Statistics
- MATH 340 (3) Discrete Structures 2

At least 3 credits from:

- COMP 330 (3) Theoretical Aspects: Computer Science
- COMP 350 (3) Numerical Computing
- COMP 360 (3) Algorithm Design Techniques

At least 3 credits from:

- COMP 302 (3) Programming Languages and Paradigms
- COMP 303 (3) Software Development

The remaining credits selected from:

- COMP 230 (3) Logic and Computability

and computer science courses at the 300-level or above (except

- COMP 364, COMP 396, COMP 400, COMP 431) and ECSE 508.

JOINT HONOURS IN MATHEMATICS AND COMPUTER

SCIENCE, see "Mathematics and Statistics (MATH)" in section 12.13.21, Faculty of Science. Admission to the program is based on a strong performance in CEGEP-level mathematics courses. Students must consult an Honours adviser in both departments.

According to Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

Chair — Griet Vankeerberghen

Professors

- Kenneth Dean; B.A.(Brown), M.A., Ph.D.(Stan.)
- Thomas LaMarre; B.A.(G'town), M.A., Ph.D.(Chic.), D.Sc.(d'Aix-Marseille II)
- Robin D.S. Yates; B.A., M.A.(Oxf.), M.A.(Calif.), Ph.D.(Harv.)

Associate Professors

- Grace S. Fong; B.A., M.A.(Tor.), Ph.D.(Br. Col.)
- Griet Vankeerberghen; Licence(Louvain), Ph.D.(Prin.)

Assistant Professors

- Peter Button; B.A.(Col.), M.A., Ph.D.(C'nell)
- Hajime Nakatani; B.L.A.(Univ Tokyo), M.A.(Lond.), Ph.D.(Chic.)

Lecturers

- Jennie Chang; B.A.(Taiwan), M.A.(Harv.)
- Sumi Hasegawa; M.A.(Montr.)
- Myung Hee Kim; B.A., M.A.(Montr.)
- Miwako Uesaka; B.Sc.(Kyoto Univ); M.A.(McG.)
- B. Wang; B.A.(Heilongjiang), M.A.(Calg.)

Associate Members

- Laurel Bossen (*Anthropology*)
- Lara Braitstein (*Religious Studies*)
- Christopher Green (*Economics*)
- Sandra Hyde (*Anthropology*)
- Victor Hori (*Religious Studies*)
- Erik Kuhonta (*Political Science*)
- John Kurien (*Economics*)

- Margaret Lock (*Anthropology and Social Studies of Medicine*)
- Catherine Lu (*Political Science*)
- Lorenz Lüthi (*History*)
- Mark Manger (*Political Science*)
- Junko Shimoyama (*Linguistics*)
- Yuzo Ota (*History*)
- Sarah Turner (*Geography*)

Heirs to ancient cultures and traditions that are rich and complex, East Asian societies are among the most dynamic and rapidly developing in the world today and are having an increasing impact on the global scene, economically, politically and culturally. The study of the languages and cultures of East Asia, whether at the Major or Minor Concentration or Honours level, offers the student an intellectually challenging and personally stimulating educational experience. While offering a different perspective on the human condition, East Asian Studies provides excellent preparation for a future career in the professions, international business management, education, law, journalism and communications, in addition to the necessary training for advanced study at the graduate level.

For complementary courses in the East Asian field, please refer to the Departmental listing and the list of courses offered by other departments and in other faculties.

MINOR CONCENTRATION IN EAST ASIAN LANGUAGE AND LITERATURE (Expandable) (18 credits)

Complementary Courses (18 credits)

3 credits, one of the following introductory culture courses:

- EAST 211 (3) Introduction: East Asian Culture: China
- EAST 212 (3) Introduction: East Asian Culture: Japan
- EAST 213 (3) Introduction: East Asian Culture: Korea

9 credit Language Component:

Students may meet this requirement by passing with a grade of "C" the First level language (EAST 220D1/EAST 220D2, EAST 230D1/EAST 230D2, EAST 240D1/EAST 240D2); students with prior knowledge of an Asian language may substitute a Second level language (EAST 320D1/EAST 320D2, EAST 330D1/EAST 330D2, EAST 340D1/EAST 340D2);

or with 6 credits of either Classical Chinese (EAST 533; EAST 534), or Classical Japanese (EAST 543; EAST 544); or with Third or Fourth level language (EAST 420, EAST 421; EAST 430D1/EAST 430D2; EAST 440D1/EAST 440D2; EAST 520, EAST 521; EAST 530D1/EAST 530D2; EAST 540D1/EAST 540D2); or with 6 credits of Chinese for Business (EAST 535; EAST 536) or China Today through Translation (EAST 537D1/EAST 537D2) and an additional 3-credit course in East Asian Area Studies. (Admission to language courses is subject to placement tests.)

6 credits at the 300-level or above in the Department of East Asian Studies course offerings:

- EAST 303 (3) Current Topics: Chinese Studies 1
- EAST 304 (3) Current Topics: Chinese Studies 2
- EAST 305 (3) Current Topics: Japanese Studies 1
- EAST 306 (3) Current Topics: Japanese Studies 2
- EAST 307 (3) Topics: Chinese Language and Literature 1
- EAST 308 (3) Topics: Chinese Language and Literature 2
- EAST 313 (3) Current Topics: Korean Studies 1
- EAST 314 (3) Current Topics: Korean Studies 2
- EAST 315 (3) Survey: Modern Korean Literature in Translation
- EAST 350 (3) Gender and Sexuality in Chinese Literature
- EAST 351 (3) Women Writers of China
- EAST 352 (3) Critical Approaches to Chinese Literature
- EAST 353 (3) Approaches to Chinese Cinema
- EAST 354 (3) Taoist and Buddhist Apocalypses
- EAST 356 (3) Modern & Contemporary Chinese Art
- EAST 362 (3) Japanese Cinema
- EAST 363 (3) Aesthetics and Politics of Vision Premodern Japan
- EAST 364 (3) Mass Culture and Postwar Japan

- EAST 370 (3) History of Sexuality in Japan
 EAST 385 (3) Society and Community in Korea
 EAST 390 (3) The Chinese Family in History
 EAST 453 (3) Topics: Chinese Literature
 EAST 454 (3) Topics: Chinese Cinema
 EAST 456 (3) Chinese Drama and Popular Culture
 EAST 457 (3) Brushwork in Chinese Painting
 EAST 461 (3) Inventing Modern Japanese Novel
 EAST 462 (3) Japan in Asia
 EAST 464 (3) Image, Text, Performance
 EAST 466 (3) Feminism and Japan
 EAST 467 (3) Topics: Japanese Cinema
 EAST 490 (3) Confucius and the Classics
 EAST 491 (3) Tutorial: East Asian Languages and Literatures 1
 EAST 492 (3) Tutorial: East Asian Languages and Literatures 2
 EAST 493 (3) Special Topics: East Asian Studies 1
 EAST 494 (3) Special Topics: East Asian Studies 2
 EAST 501 (3) Advanced Topics in Japanese Studies 1
 EAST 502 (3) Advanced Topics in Japanese Studies 2
 EAST 503 (3) Advanced Topics in Chinese Studies 1
 EAST 504 (3) Advanced Topics in Chinese Studies 2
 EAST 515 (3) Seminar: Beyond Orientalism
 EAST 550 (3) Classical Chinese Poetry Themes and Genres
 EAST 551 (3) Technologies of Self in Early China
 EAST 552 (3) The *Yijing* (Book of Changes)
 EAST 559 (3) Advanced Topics: Chinese Literature
 EAST 562 (3) Japanese Literary Theory and Practice
 EAST 563 (3) Images, Ideograms, Aesthetics
 EAST 564 (3) Structures of Modernity: Japan
 EAST 569 (3) Advanced Topics: Japanese Literature
 EAST 582 (3) Japanese Culture and Society
- MINOR CONCENTRATION IN EAST ASIAN CULTURAL STUDIES** (Expandable) (18 credits)
- Complementary Courses** (18 credits)
 6 credits in Introduction to East Asian Culture courses:
 EAST 211 (3) Introduction: East Asian Culture: China
 EAST 212 (3) Introduction: East Asian Culture: Japan
 EAST 213 (3) Introduction: East Asian Culture: Korea
 12 credits chosen from the following East Asian Literature, Culture and Society courses.
 EAST 214 (3) Japanese Animation and New Media
 EAST 215 (3) Introduction to East Asian Art
 EAST 303 (3) Current Topics: Chinese Studies 1
 EAST 304 (3) Current Topics: Chinese Studies 2
 EAST 305 (3) Current Topics: Japanese Studies 1
 EAST 306 (3) Current Topics: Japanese Studies 2

MINOR CONCENTRATION IN ADVANCED EAST ASIAN STUDIES (Non-expandable) (18 credits)

Complementary Courses (18 credits)

18 credits in Second, Third or Fourth level language or a combination of advanced language and other courses in East Asian culture, literature, or area studies, at the 400-level or above chosen in consultation with the Minors adviser.

MAJOR CONCENTRATION IN EAST ASIAN STUDIES (36 credits)

Complementary Courses (36 credits)

6 credits, two of the following introductory East Asian courses:

EAST 211	(3)	Introduction: East Asian Culture: China
EAST 212	(3)	Introduction: East Asian Culture: Japan
EAST 213	(3)	Introduction: East Asian Culture: Korea

6 - 9 credits to be chosen from the following East Asian language courses:

EAST 220D1	(4.5)	First Level Korean
EAST 220D2	(4.5)	First Level Korean
EAST 230D1	(4.5)	First Level Chinese
EAST 230D2	(4.5)	First Level Chinese
EAST 240D1	(4.5)	First Level Japanese
EAST 240D2	(4.5)	First Level Japanese
EAST 320D1	(4.5)	Second Level Korean
EAST 320D2	(4.5)	Second Level Korean
EAST 330D1	(4.5)	Second Level Chinese
EAST 330D2	(4.5)	Second Level Chinese
EAST 340D1	(4.5)	Second Level Japanese
EAST 340D2	(4.5)	Second Level Japanese
EAST 420	(3)	Third Level Korean 1
EAST 421	(3)	Third Level Korean 2
EAST 430D1	(3)	Third Level Chinese
EAST 430D2	(3)	Third Level Chinese
EAST 440D1	(3)	Third Level Japanese
EAST 440D2	(3)	Third Level Japanese
EAST 520	(3)	Fourth Level Korean 1
EAST 521	(3)	Fourth Level Korean 2
EAST 530D1	(3)	Fourth Level Chinese
EAST 530D2	(3)	Fourth Level Chinese
EAST 533	(3)	Classical Chinese 1
EAST 534	(3)	Classical Chinese 2
EAST 535	(3)	Chinese for Business 1
EAST 536	(3)	Chinese for Business 2
EAST 537D1	(3)	China Today Through Translation
EAST 537D2	(3)	China Today Through Translation
EAST 540D1	(3)	Fourth Level Japanese
EAST 540D2	(3)	Fourth Level Japanese
EAST 543	(3)	Classical Japanese 1
EAST 544	(3)	Classical Japanese 2
EAST 547	(3)	Advanced Translation in Japanese

(Admission to language courses is subject to placement tests.)

21-24 credits chosen from the following East Asian Literature, Culture and Society courses. At least 6 credits must be at the 400 or 500 level:

EAST 214	(3)	Japanese Animation and New Media
EAST 215	(3)	Introduction to East Asian Art
EAST 303	(3)	Current Topics: Chinese Studies 1
EAST 304	(3)	Current Topics: Chinese Studies 2
EAST 305	(3)	Current Topics: Japanese Studies 1
EAST 306	(3)	Current Topics: Japanese Studies 2
EAST 307	(3)	Topics: Chinese Language and Literature 1
EAST 308	(3)	Topics: Chinese Language and Literature 2
EAST 313	(3)	Current Topics: Korean Studies 1
EAST 314	(3)	Current Topics: Korean Studies 2
EAST 315	(3)	Survey: Modern Korean Literature in Translation
EAST 350	(3)	Gender and Sexuality in Chinese Literature
EAST 351	(3)	Women Writers of China
EAST 352	(3)	Critical Approaches to Chinese Literature
EAST 353	(3)	Approaches to Chinese Cinema
EAST 354	(3)	Taoist and Buddhist Apocalypses
EAST 356	(3)	Modern & Contemporary Chinese Art
EAST 362	(3)	Japanese Cinema
EAST 363	(3)	Aesthetics and Politics of Vision Premodern Japan
EAST 364	(3)	Mass Culture and Postwar Japan
EAST 370	(3)	History of Sexuality in Japan
EAST 385	(3)	Society and Community in Korea

 EAST 536 (3) Chinese for Business 2
 EAST 537D1(3) China Today Through Translation
 EAST 537D2(3) China Today Through Translation
 EAST 540D1(3) Fourth Level Japanese
 EAST 540D2(3) Fourth Level Japanese
 EAST 543 (3) Classical Japanese 1
 EAST 544 (3) Classical Japanese 2
 EAST 547 (3) Advanced Translation in Japanese

(Admission to language courses is subject to placement tests.)

30 credits in East Asian Culture, Literature and Society courses.
 6 credits from:

EAST 211 (3) Introduction: East Asian Culture: China
 EAST 212 (3) Introduction: East Asian Culture: Japan
 EAST 213 (3) Introduction: East Asian Culture: Korea

24 credits chosen from the following courses, of which 6 credits must be at the 400 level or above, one 400-level course must be taken before commencing the thesis.

EAST 214 (3) Japanese Animation and New Media
 EAST 215 (3) Introduction to East Asian Art
 EAST 303 (3) Current Topics: Chinese Studies 1
 EAST 304 (3) Current Topics: Chinese Studies 2
 EAST 305 (3) Current Topics: Japanese Studies 1
 EAST 306 (3) Current Topics: Japanese Studies 2
 EAST 307 (3) Topics: Chinese Language and Literature 1
 EAST 308 (3) Topics: Chinese Language and Literature 2
 EAST 313 (3) Current Topics: Korean Studies 1
 EAST 314 (3) Current Topics: Korean Studies 2
 EAST 315 (3) Survey: Modern Korean Literature in Translation
 EAST 350 (3) Gender and Sexuality in Chinese Literature
 EAST 351 (3) Women Writers of China
 EAST 352 (3) Critical Approaches to Chinese Literature
 EAST 353 (3) Approaches to Chinese Cinema
 EAST 354 (3) Taoist and Buddhist Apocalypses
 EAST 356 (3) Modern & Contemporary Chinese Art
 EAST 362 (3) Japanese Cinema
 EAST 363 (3) Aesthetics and Politics of Vision Premodern Japan
 EAST 364 (3) Mass Culture and Postwar Japan
 EAST 370 (3) History of Sexuality in Japan
 EAST 385 (3) Society and Community in Korea
 EAST 390 (3) The Chinese Family in History
 EAST 453 (3) Topics: Chinese Literature
 EAST 454 (3) Topics: Chinese Cinema
 EAST 456 (3) Chinese Drama and Popular Culture
 EAST 457 (3) Brushwork in Chinese Painting
 EAST 461 (3) Inventing Modern Japanese Novel
 EAST 462 (3) Japan in Asia
 EAST 464 (3) Image, Text, Performance
 EAST 466 (3) Feminism and Japan
 EAST 467 (3) Topics: Japanese Cinema
 EAST 490 (3) Confucius and the Classics

- RELG 549 (3) Japanese Buddhist Philosophy
- RELG 557 (3) Asian Ethical Systems

Honours students are required to maintain a CGPA of 3.00 or above and a program GPA of 3.00 or above.

JOINT HONOURS – EAST ASIAN STUDIES COMPONENT
(36 credits)

Required Courses (3 credits)

- EAST 495D1 (1.5) Joint Honours Thesis: East Asian Studies
- EAST 495D2 (1.5) Joint Honours Thesis: East Asian Studies

Complementary Courses (33 credits)

6 credits of introductory courses, two of:

- EAST 211 (3) Introduction to East Asian Culture: China
- EAST 212 (3) Introduction to East Asian Culture: Japan
- EAST 213 (3) Introduction to East Asian Culture: Korea

18 credits in an East Asian language above the introductory level.

9 credits chosen from the following East Asian Studies courses, at least 3 credits must be at the 400-level or above:

- EAST 303 (3) Current Topics: Chinese Studies 1
- EAST 304 (3) Current Topics: Chinese Studies 2
- EAST 305 (3) Current Topics: Japanese Studies 1
- EAST 306 (3) Current Topics: Japanese Studies 2
- EAST 307 (3) Topics: Chinese Language and Literature 1
- EAST 308 (3) Topics: Chinese Language and Literature 2
- EAST 313 (3) Current Topics: Korean Studies 1
- EAST 314 (3) Current Topics: Korean Studies 2
- EAST 315 (3) Survey: Modern Korean Literature in Translation
- EAST 350 (3) Gender and Sexuality in Chinese Literature
- EAST 351 (3) Women Writers of China
- EAST 352 (3) Critical Approaches to Chinese Literature
- EAST 353 (3) Approaches to Chinese Cinema
- EAST 354 (3) Taoist and Buddhist Apocalypses
- EAST 356 (3) Modern & Contemporary Chinese Art
- EAST 362 (3) Japanese Cinema
- EAST 363 (3) Aesthetics and Politics of Vision Premodern Japan
- EAST 364 (3) Mass Culture and Postwar Japan
- EAST 370 (3) History of Sexuality in Japan
- EAST 385 (3) Society and Community in Korea
- EAST 390 (3) The Chinese Family in History
- EAST 453 (3) Topics: Chinese Literature
- EAST 454 (3) Topics: Chinese Cinema
- EAST 456 (3) Chinese Drama and Popular Culture
- EAST 457 (3) Brushwork in Chinese Painting
- EAST 461 (3) Inventing Modern Japanese Novel
- EAST 462 (3) Japan in Asia
- EAST 464 (3) Image, Text, Performance
- EAST 466 (3) Feminism and Japan
- EAST 467 (3) Topics: Japanese Cinema
- EAST 490 (3) Confucius and the Classics
- EAST 491 (3) Tutorial: East Asian Languages and Literatures 1
- EAST 492 (3) Tutorial: East Asian Languages and Literatures 2
- EAST 493 (3) Special Topics: East Asian Studies 1
- EAST 494 (3) Special Topics: East Asian Studies 2

- EAST 504 (3) Advanced Topics in Chinese Studies 2
- EAST 515 (3) Seminar: Beyond Orientalism
- EAST 550 (3) Classical Chinese Poetry Themes and Genres

EAST 551	(3)	Technologies of Self in Early China
EAST 552	(3)	The <i>Yijing</i> (Book of Changes)
EAST 559	(3)	Advanced Topics: Chinese Literature
EAST 562	(3)	Japanese Literary Theory and Practice
EAST 563	(3)	Images, Ideograms, Aesthetics
EAST 564	(3)	Structures of Modernity: Japan
EAST 569	(3)	Advanced Topics: Japanese Literature
EAST 582	(3)	Japanese Culture and Society

Students who wish to study at the Honours level in two disciplines can combine Joint Honours Program components from any two Arts disciplines; see section 5.11.4 "Joint Honours Programs" for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

According to Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

GENERAL

For more up-to-date, detailed information about the Department and its programs, please visit our Websites as follows:

www.mcgill.ca/economics/undergraduates/majorminor for information on the Major and Minor programs and

www.mcgill.ca/economics/undergraduates/honours for information on the Honours programs.

U0 students interested in economics should take ECON 208 and ECON 209. These courses provide good preparation for the Honours and Major programs, although neither course is a prerequisite for either program.

The first year of microeconomics courses for the Honours Program (ECON 250D1/ECON 250D2) and for the Majors Program (ECON 230D1/ECON 230D2) should not be taken in the U0 year.

Please see the following Website to access the document on credit for economics courses taken elsewhere:

www.mcgill.ca/economics/undergraduates/courses.

For information on Economics Internships, please see this

Website: www.mcgill.ca/arts-internships/departments/economics.

PROGRAMS IN ECONOMICS

MINOR CONCENTRATION IN ECONOMICS

The Minor Concentration in Economics is offered in four streams:

- Stream I – Expandable
- Stream II – Non-expandable
- Stream III – for Management students
- Stream IV – Combinable, for students already registered in a Major Concentration in Economics.

In general, 200-level courses have no prerequisites, ECON 208 and ECON 209 (substitutable by the combination of MGCR 293 and ECON 295 or the more advanced course ECON 230D1/ ECON 230D2 or ECON 250D1/ ECON 250D2) are prerequisites for 300-level courses, ECON 230D1/ECON 230D2 or ECON 250D1/ ECON 250D2 are prerequisite for 400-level courses.

MINOR CONCENTRATION IN ECONOMICS – STREAM I

(Expandable) (18 credits)

For students whose primary interest is in a field other than Economics but who wish to keep the option of upgrading to a Major Concentration in future.

Required Course (6 credits)

ECON 230D1 (3) Microeconomic Theory

ECON 230D2 (3) Microeconomic Theory

Complementary Courses (12 credits)

12 credits in Economics (with numbers above 209). At least 6 of these credits must be in 300- or 400-level courses.

MINOR CONCENTRATION IN ECONOMICS – STREAM II

(Non-expandable) (18 credits)

Required Courses (6 credits)

ECON 208 (3) Microeconomic Analysis and Applications
 ECON 209 (3) Macroeconomic Analysis and Applications

Complementary Courses (12 credits)

12 credits in Economics (with numbers above 209). At least 6 of these credits must be in 300- or 400-level courses.

MINOR CONCENTRATION IN ECONOMICS – STREAM III**For Management Students** (18 credits)**Complementary Courses** (18 credits)

18 credits in Economics (with numbers above 209). At least 6 of these credits must be in 300- or 400-level courses.

Note: ECON 295, ECON 227 and ECON 257D1/ECON 257D2

will not count as part of this Minor Concentration.

MINOR CONCENTRATION IN ECONOMICS – STREAM IV**(Combinable – for students already registered in a Major Concentration in Economics)** (18 credits)

Prerequisites: None

Students who are registered in a Major Concentration in Economics and a Minor Concentration in another unit may complete a second Minor Concentration in Economics with the following structure.

Complementary Courses (18 credits)

18 credits of approved courses in Economics above 209 of which at least 6 credits are of 400- or 500-level and of which not more than 3 credits are at 200-level.

Students should also consult the section on the Minor Concentration at the beginning of the Faculty of Arts section for detailed rules on Minor Concentrations.

MANAGEMENT MINOR

As of Fall 2007 the Minor in Management for Economics Students has been retired. It has been replaced with the Minor in Management for Non-Management Students. Minors in several fields in Management including Operations Management, Finance, Marketing and Management are also available to students in the Faculty of Arts. Information about program requirements for these Minors is found in the Desautels Faculty of Management section of the calendar.

MAJOR CONCENTRATION IN ECONOMICS (36 credits)

The Major Concentration in Economics is a planned sequence of courses designed to permit the student a degree of specialization in economics. It consists of 36 credits in courses approved by the Economics Department.

All students who wish to begin (or continue) a Major Concentration in Economics should see a Majors adviser in the Department of Economics in **each** of their university years. Further information may be obtained from the Department's Website, or from any Major adviser; consult the Departmental office for a list of advisers.

Students who are registering for the first time with the Department should attend the orientation meeting (check the Website for details) before seeing an adviser.

A student choosing a Major Concentration in Economics must take 36 credits in Economics. The Economics courses will normally be taken at McGill and will be selected from the courses shown below. Economics Major Concentration students entering University at the U1 year in September should directly proceed to ECON 230D1/ECON 230D2 without taking ECON 208 and ECON 209.

Required Courses (18 credits)

ECON 227D1 (3) Economic Statistics
 ECON 227D2 (3) Economic Statistics
 ECON 230D1 (3) Microeconomic Theory
 ECON 230D2 (3) Microeconomic Theory
 ECON 330D1 (3) Macroeconomic Theory
 ECON 330D2 (3) Macroeconomic Theory

Complementary Courses (18 credits)

18 credits in Economics selected from other 200- (with numbers above 209), 300-, 400- and 500-level courses. At least 6 of these credits must be in 400- or 500-level courses. No more than 6 credits may be at the 200 level.

Prerequisites: in general 200-level courses have no prerequisites; 300-level courses have ECON 230D1/ECON 230D2 (or the lower level courses ECON 208 and ECON 209, or the combination of MGCR 293 and ECON 295) as prerequisites; and 400-level courses have ECON 230D1/ECON 230D2 as a prerequisite.

Mathematics: it is recommended, but not required, that students acquire mastery of elementary calculus and matrix algebra in their undergraduate years. (See courses listed under the Honours section.)

HONOURS PROGRAM

The Economics Honours program is offered to both B.A. and B.Com. students. All Honours students should consult the handout describing the Honours programs in Economics, available in the Economics Department Office, 443 Leacock Building. All Honours students must meet with a Department Honours adviser in **each** year of their Honours program.

HONOURS IN ECONOMICS (42 credits)

The Honours program in Economics (B.A. and B.Com.) consists of 30 specified credits of Honours courses and a further 12 credits of approved Economics courses. Honours students are also required to complete courses in basic calculus and linear algebra.

Required Courses (24 credits)

ECON 250D1 (3) Introduction to Economic Theory: Honours
 ECON 250D2 (3) Introduction to Economic Theory: Honours
 ECON 257D1 (3) Economic Statistics - Honours
 ECON 257D2 (3) Economic Statistics - Honours
 ECON 352D1 (3) Macroeconomics - Honours
 ECON 352D2 (3) Macroeconomics - Honours
 ECON 450D1 (3) Advanced Economic Theory - Honours
 ECON 450D2 (3) Advanced Economic Theory - Honours

Complementary Courses (18 credits)

6 credits selected from:

ECON 460 (3) History of Thought 1 - Honours
 and ECON 461 (3) History of Thought 2 - Honours
 or ECON 467D1 (3) Econometrics - Honours
 and ECON 467D2 (3) Econometrics - Honours

12 credits of Economics courses at the 300-, 400- or 500-level, approved by an Honours adviser. Normally at least 9 of the 12 will be at the 400- or 500-level. (Note: Honours students are not permitted to register for general Economics courses where an Honours course in the same field is offered.) ECON 450D1/ECON 450D2 is the capstone course for the Honours program.

Normally, ECON 250D1/ECON 250D2 is taken in the U1 year, ECON 352D1/ECON 352D2 in U2, and ECON 450D1/ECON 450D2 in U3. ECON 257D1/ECON 257D2 can be taken in U1 or U2; ECON 460, ECON 461, ECON 467D1/ECON 467D2 can be taken in U2 or U3. Students who have taken an equivalent statistics course prior to entering the program may be waived from the ECON 257D1/ECON 257D2 requirement. These students will normally be required to take ECON 467D1/ECON 467D2. The remaining 12 credits of Economics courses are usually taken in U2 or U3.

Mathematics Courses

All Honours students must complete the following three courses with a grade of C or higher (normally by the end of U1):

MATH 139 Calculus (students without high school calculus)
 or MATH 140 Calculus 1 (students with high school calculus)
 Advising note: Either course is a co-requisite for ECON 250D1.

MATH 141 Calculus 2
 Advising note: This course is a co-requisite for ECON 252D2.

MATH 133 Vectors, Matrices and Geometry

These requirements can be met by having passed equivalent courses at CEGEP or elsewhere. Honours students are encouraged, but not required, to take MATH 222 Calculus 3.

JOINT HONOURS – ECONOMICS COMPONENT (30 credits)

The Economics Joint Honours programs offered with the Desautels Faculty of Management are B.Com. Joint Honours in Economics and Accounting; B.Com. Joint Honours in Economics and Finance (these programs are available only to B.Com students); and B.A. Joint Honours in Economics and Accounting; B.A. Joint Honours in Economics and Finance (these programs are available only to B.A. students).

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours Program components from any two Arts disciplines; see section 5.11.4 "Joint Honours Programs" for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable) in **each** year of their program.

Joint Honours students are required to complete the 30 specified credits of Honours courses listed in the Honours Program as well as the mathematics courses. The additional requirements for the two B.Com. Joint Honours programs are described in the Desautels Faculty of Management section. Both the B.A. Joint Honours in Economics and Accounting and the B.A. Joint Honours in Economics and Finance require 30 credits in Management. For a complete list of course requirements, please see the Honours and Joint Honours Programs handout available in the Economics Department Office, 443 Leacock Building, and on the Website at: www.mcgill.ca/economics/undergraduates/honours.

According to Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

STANDING IN HONOURS AND JOINT HONOURS PROGRAMS

To remain in Honours in the U2 year, students are expected to obtain at least a B in ECON 250D1/ECON 250D2. Students who narrowly miss this grade may apply for "redemptive" status. They must submit their request by July 15 to the Director of the Honours program. They will normally be required to write an examination in Microeconomic Theory, given by the Department in August.

Only students who have met the mathematics requirements of the Honours program may apply for transfer from Major Concentration to Honours. Students who obtain an A in ECON 230D1/ECON 230D2 may enter the Honours program in their U2 year. Other students who have taken ECON 230D1/ECON 230D2 and obtained a grade of B+ or A- may sit an examination in Microeconomic Theory, comparable to the supplemental examination in ECON 250D1/ECON 250D2 given by the Department in August. They must submit a request to write this exam by July 15 to the Director of the Honours program. If they pass this examination with a grade of B, they may enter the Honours program in their U2 year, and need not take ECON 250D1/ECON 250D2. Students transferring from Major Concentration to Honours must take a minimum of 24 credits from 30 credits honours-core and do an additional 12 credits in approved courses.

Normally, to be awarded an Honours Degree a student must obtain a 3.00 program GPA in the 42 required and complementary credits in Economics including a 3.00 average GPA in the 30 specified credits of Honours level courses and must also obtain a 3.00 CGPA. For a First Class Honours degree, the minimum requirements are normally a 3.50 program GPA, a 3.50 GPA for the 30 specified credits of Honours level courses, and a CGPA of 3.50.

Please see the following Website to access the document on credit for economics courses taken elsewhere:

www.mcgill.ca/economics/undergraduates/courses.

For information on Economics Internships, please see this Website: www.mcgill.ca/arts-internships/departments/economics.

5.12.15 Education for Arts Students Minor Concentration

Student Affairs Office —

Faculty of Education, 3700 McTavish Street

E-mail: sao.education@mcgill.ca

Website: www.mcgill.ca/edu-sao/minors

This Minor Concentration allows Arts students to develop and explore an interest in education. It will give students a solid footing in the basics of pedagogy and may provide a starting point towards a B.Ed. degree.

Completion of the Minor Concentration **does not** qualify a student for certification to teach in the province of Quebec. Students interested in a teaching career should consult the Faculty of Education, "Faculty Programs" in section 7.2.

MINOR CONCENTRATION IN EDUCATION FOR ARTS STUDENTS (18 credits)

Required Courses (12 credits)

EDEC 262	(3)	Media, Technology and Education
EDEM 220	(3)	Contemporary Issues in Education
EDPE 300	(3)	Educational Psychology
EDPI 309	(3)	Exceptional Students

Complementary Courses (6 credits)

3 credits, one of:

EDEC 260	(3)	Philosophical Foundations
EDEC 261	(3)	Philosophy of Catholic Education

3 credits, one of:

EDEC 233	(3)	First Nations and Inuit Education
EDEC 248	(3)	Multicultural Education

5.12.16 Educational Psychology Minor Concentration

Program Director — Professor Alenoush Saroyan

Department of Educational and Counselling Psychology

Faculty of Education

(514) 398-4248

Program Coordinator — Mr. Dean Thomson

Faculty of Education, 3700 McTavish Street, Room 614

(514) 398-4248

Fax: (514) 398-6968

Website: www.mcgill.ca/edu-ecp

Educational Psychology encompasses: (a) the theoretical and applied study of learning, cognition, and instruction in a variety of educational settings across ages and domains; (b) instructional technology and computers as cognitive tools in learning; (c) cognitive and social processes in learning; (d) evaluation and enhancement of learning and teaching; (e) education of learners with special needs or difficulties; (f) relationships of these or related phenomena to issues in human development, especially for children and adolescents; and (g) the impact of family and community on children's learning and development.

Completion of this Minor Concentration **does not** qualify a student to enter the teaching profession. Students interested in a teaching career should consult the Faculty of Education, "Faculty Programs", see section 7.2.

In respect of Faculty of Arts multi-track regulations, students registering for the Major Concentration in Psychology and the Minor Concentration in Educational Psychology *must* complete an additional Minor Concentration in Arts in a unit other than Psychology.

Students should consult section 5.3.5, "Program Requirements" for additional information on course restrictions, credit counting, etc.

For further information on the Department of Educational and Counselling Psychology, see section 7.5.

MINOR CONCENTRATION IN EDUCATIONAL PSYCHOLOGY

(18 credits - Non-expandable)

Required Course (3 credits)

EDPE 335 (3) Instructional Psychology
 This required course has a prerequisite of an introductory course in psychology taken at either CEGEP or university level (e.g., PSYC 100 or EDPE 300). Students who do not have this prerequisite prior to entry into this Minor Concentration may take either PSYC 100 or EDPE 300 and count EDPE 300 as one of the complementary courses for this Minor Concentration.

Complementary Courses (15 credits)

3 credits (to be taken near the end of the sequence), one of:

EDPE 355* (3) Cognition and Education
 or EDPE 555(3) Applied Cognitive Science

12 credits selected from

- EDPI 309 (3) Exceptional Students
- EDPI 526 (3) Talented and Gifted Students
- EDPI 527 (3) Creativity and its Cultivation
- EDPI 543 (3) Family, School and Community
- EDPE 208** (3) Personality and Social Development
- EDPE 304 (3) Measurement and Evaluation
- EDPE 355 (3) Cognition and Education
- EDPE 377 (3) Adolescence and Education
- EDPE 510 (3) Learning and Technology
- EDPE 515*** (3) Gender Identity Development
- EDPE 535 (3) Instructional Design
- EDPE 555 (3) Applied Cognitive Science

* Students with a background in psychology should normally select EDPE 355.

Note: EDPE 355 has a prerequisite, either PSYC 213 or permission of the instructor.

** Students may not receive credit for both EDPE 208 and PSYC 304. EDPE 208 is not open to students registered in a Major or Minor Concentration in Psychology.

*** EDPE 515 is also a complementary course in the B.A. Minor Concentration in Women's Studies (Social Sciences Option).

- T. Sparks; B.A.(Bates College), M.A., Ph.D.(Wash.)
- A. Thain; B.A.(McG.), Ph.D.(Duke)

The Department of English offers a wide variety of courses covering three linked and overlapping areas: literature written in English; drama, including both courses in dramatic literature and courses that introduce the student to the basic elements of theatrical performance; and cultural studies, including analysis of a variety of visual and verbal media. These three areas are integrally related, and all students in English Department programs are invited to do work in all three, while concentrating in one of them.

The Literature option provides a grounding in the basic texts and methods of the discipline as well as wide acquaintance with substantial areas of the field.

The Drama and Theatre option tries to place its subject in as broad a social and philosophical context as possible. *The Drama and Theatre program is not designed to provide professional theatre training. The aim is rather to encourage students to explore the subject as a liberal arts discipline.*

The Cultural Studies option concentrates on analysis of forms of cultural expression and symbolic interaction, and of the various media through which these may be disseminated and transformed. Such study concerns symbolic form, aesthetically based forms of analysis, and the various modes of criticism and theory relevant to media which contain both verbal and non-verbal elements. The aim is above all to hone students' analytical and interpretive skills while introducing them to specific critical approaches to cultural studies. This is not a major in journalism or communications; and while many of our graduates go on to do creative work in a variety of media, instruction in film and video production is not part of the curriculum.

Department Handbook on the Web

For the most up-to-date information on Department requirements and detailed course descriptions, please see the English Department Handbook at www.arts.mcgill.ca/english.

MINOR CONCENTRATIONS

For the current lists of complementary courses in the categories referred to in the Minor Concentrations:

- Major Authors/Major Figures
- Pre-1800 courses/Courses with a historical dimension

see the Department's Website or consult the Departmental office.

MINOR CONCENTRATION IN ENGLISH – LITERATURE

(18 credits) (Expandable to the Major Concentration in English - Literature)

Required Courses (6 credits)

ENGL 202 (3) Departmental Survey of English Literature 1
ENGL 203 (3) Departmental Survey of English Literature 2

Complementary Courses (12 credits)

3 credits from a list of courses on Major Authors
3 credits from a list of pre-1800 courses
6 additional credits from the option's offerings

MINOR CONCENTRATION IN ENGLISH – DRAMA AND THEATRE (18 credits) (Expandable to the Major Concentration in English - Drama and Theatre)**Required Courses** (6 credits)

ENGL 230 (3) Introduction to Theatre Studies
ENGL 269 (3) Introduction to Performance

Complementary Courses (12 credits)

3 credits from a list of courses on Major Figures in Drama/Theatre
3 credits from a list of courses in Drama and/or Theatre with an historical dimension
6 additional credits from the option's offerings

MINOR CONCENTRATION IN ENGLISH – CULTURAL STUDIES (18 credits) (Expandable to the Major Concentration in English - Cultural Studies)**Required Courses** (6 credits)

ENGL 275 (3) Introduction to Cultural Studies
ENGL 276 (3) Methods of Cultural Analysis

Complementary Courses (12 credits)

3 credits from a list of courses on Major Figures in Cultural Studies
3 credits from a list of courses in Cultural Studies with an historical dimension
6 additional credits from the option's offerings

MAJOR CONCENTRATIONS

Major Concentration students are required to take a 36-credit program, the specific content of which differs in the three options available. Each student must choose one of these options.

Faculty policy states that, after or while taking a 36-credit Major Concentration in the English Department and an 18-credit Minor Concentration in another department, students may take an additional 18-credit Minor Concentration in English.

For the current lists of complementary courses referred to in the Major Concentrations:

- Major Authors/Major Figures,
- Courses with Canadian content,
- Period courses/Courses with a historical dimension

see the Department's Website or consult the Departmental Office.

MAJOR CONCENTRATION IN ENGLISH – LITERATURE (36 credits)**Required Courses** (9 credits)

ENGL 202* (3) Departmental Survey of English Literature 1
ENGL 203* (3) Departmental Survey of English Literature 2
ENGL 311* (3) Poetics

*to be taken in the first two terms of the program

Complementary Courses (27 credits)

3 credits from a list of Canadian Literature courses
3 credits in Theory or Criticism:
ENGL 317 (3) Theory of English Studies 1
or ENGL 318 (3) Theory of English Studies 2
or ENGL 319 (3) Theory of English Studies 3
or ENGL 322 (3) Theories of the Text
or ENGL 346 (3) Materiality and Sociology of Text
or ENGL 352 (3) Theories of Difference
3 credits each from two of the following areas: Backgrounds of English Literature, Old English, Medieval, Renaissance
3 credits each from two of the following areas: Restoration, 18th Century, Romantic, Victorian, 19th-Century American

3 credits from one of the following areas: Early 20th Century, Modernist, Post-modern, Contemporary

6 additional credits from the option's offerings

Note: At least 3 of the 27 complementary credits must be from a list of courses on a "Major Author."

MAJOR CONCENTRATION IN ENGLISH – DRAMA AND THEATRE (36 credits)**Required Courses** (9 credits)

ENGL 230* (3) Introduction to Theatre Studies
ENGL 269* (3) Introduction to Performance
ENGL 355* (3) The Poetics of Performance

* to be taken in the first two terms of the program

Complementary Courses (27 credits)

3 credits from a list of courses on Major Figures in Drama and/or Theatre
3 credits from a list of courses in Drama and/or Theatre with a Canadian component

3 credits in Theory or Criticism:

ENGL 317 (3) Theory of English Studies 1
or ENGL 318 (3) Theory of English Studies 2
or ENGL 319 (3) Theory of English Studies 3
or ENGL 322 (3) Theories of the Text
or ENGL 346 (3) Materiality and Sociology of Text
or ENGL 352 (3) Theories of Difference

6 credits from a list of courses in Drama and/or Theatre with an historical dimension

12 additional credits from the option's offerings

Students are normally permitted to count 6 credits from other departments toward their English programs. In exceptional circumstances an adviser, approached by a student with strong academic grounds for including a third such course, may grant permission, to a maximum of 9 extra-departmental credits, and must so indicate in advance by signing the departmental program Audit Sheet.

MAJOR CONCENTRATION IN ENGLISH – CULTURAL STUDIES (36 credits)**Required Courses** (12 credits)

ENGL 275* (3) Introduction to Cultural Studies
ENGL 276* (3) Methods of Cultural Analysis
ENGL 277* (3) Introduction to Film Studies
ENGL 359* (3) The Poetics of the Image

* to be taken in the first two terms of the program

Complementary Courses (24 credits)

3 credits from a list of courses on Major Figures in Cultural Studies
3 credits from a list of courses in Cultural Studies with a Canadian component

3 credits in Theory or Criticism:

ENGL 317 (3) Theory of English Studies 1
or ENGL 318 (3) Theory of English Studies 2
or ENGL 319 (3) Theory of English Studies 3
or ENGL 322 (3) Theories of the Text
or ENGL 346 (3) Materiality and Sociology of Text
or ENGL 352 (3) Theories of Difference

6 credits from a list of courses in Cultural Studies with an historical dimension

9 additional credits from the option's offerings

Students are normally permitted to count 6 credits from other departments towards their English programs. In exceptional circumstances an adviser, approached by a student with strong academic grounds for including a third such course, may grant permission, to a maximum of 9 extra-departmental credits, and must so indicate in advance by signing the departmental program Audit Sheet.

HONOURS PROGRAMS IN ENGLISH (each 60 credits)

Entry to Honours is by application, normally after two terms in a Departmental program, including at least 18 credits of English. Students intending to apply for Honours or already accepted should consult an Honours adviser regarding their course selections throughout their program. The Faculty of Arts requires that all students admitted to Honours programs complete a second-program Minor in addition to their Honours program.

Admission to the Honours program is limited to a small number of students with excellent records. The minimum CGPA for application to the Honours program is 3.50; students meeting the 3.50 minimum in English Department courses alone (although not in CGPA) may also apply and make a case for their acceptance. In neither instance is admission guaranteed. After admission into the Honours program, the student is required to maintain a CGPA at a level set by the Faculty for graduation with Honours and a program GPA at the level set by the Department. (See requirements for graduation with Honours listed below.)

The Honours program in English requires 60 credits. Students intending to apply for Honours should plan to complete as many of the specific requirements of their option as possible within the first two years. With the written approval of an adviser, up to nine credits may be taken outside the department. All Honours students must complete at least 6 of their complementary credits at the 500 level. Ideally, 500-level seminars chosen will be relevant to the area of the student's independent study in the Honours Essay course (ENGL 491D1/ENGL 491D2), taken without exception in the final year of the program. The Honours Essay is first planned in consultation with a supervisor at the time of application to the Honours program; it is then guided and evaluated by that supervisor during the completion of ENGL 491. Graduation with Honours requires 60 credits of English, a minimum mark of B+ on the Honours Essay, a minimum CGPA of 3.00, and a minimum program GPA of 3.50. Graduation with First Class Honours requires a mark of A on the Honours Essay, a minimum CGPA of 3.50, and a minimum program GPA of 3.70.

HONOURS IN ENGLISH (LITERATURE) (60 credits)**Required Courses** (18 credits)

ENGL 202*	(3)	Departmental Survey of English Literature 1
ENGL 203*	(3)	Departmental Survey of English Literature 2
ENGL 311*	(3)	Poetics
ENGL 360**	(3)	Literary Criticism
ENGL 491D1	(3)	Honours Essay
ENGL 491D2	(3)	Honours Essay

* to be taken in the first two terms in the program

** normally taken in the second year of the program

Complementary Courses (42 credits)

15 credits, 3 credits each, of Shakespeare, Canadian Literature, American Literature, Cultural Studies, Drama/Theatre.

3 credits of theory:

ENGL 317	(3)	Theory of English Studies 1
or ENGL 318	(3)	Theory of English Studies 2
or ENGL 319	(3)	Theory of English Studies 3
or ENGL 322	(3)	Theories of the Text
or ENGL 346	(3)	Materiality and Sociology of Text
or ENGL 352	(3)	Theories of Difference

3 credits each from two of the following areas: Backgrounds of English Literature, Old English, Medieval, Renaissance

3 credits each from two of the following areas: Restoration, 18th Century, Romantic, Victorian, 19th-Century American

3 credits from one of the following areas: Early 20th Century, Modernist, Post-modern, Contemporary

9 credits chosen from among other Department offerings

At least 6 complementary credits must be at the 500 level.

A maximum of 9 credits may be from another department with the signed permission of the adviser.

HONOURS IN ENGLISH (DRAMA AND THEATRE) (60 credits)**Required Courses** (15 credits)

ENGL 230*	(3)	Introduction to Theatre Studies
ENGL 269*	(3)	Introduction to Performance
ENGL 355*	(3)	The Poetics of Performance
ENGL 491D1	(3)	Honours Essay
ENGL 491D2	(3)	Honours Essay

* must have been taken by the end of the first two terms of the program

Complementary Courses (45 credits)

3 credits from a list of courses on Major Figures in Drama and/or Theatre

3 credits from a list of courses in Drama and/or Theatre with a Canadian component

6 credits from a list of courses in Drama and/or Theatre with an historical dimension

3 credits of theory:

ENGL 317	(3)	Theory of English Studies 1
or ENGL 318	(3)	Theory of English Studies 2
or ENGL 319	(3)	Theory of English Studies 3
or ENGL 322	(3)	Theories of the Text
or ENGL 346	(3)	Materiality and Sociology of Text
or ENGL 352	(3)	Theories of Difference

3 credits from a list of courses with a theoretical component, from the option's offerings at the 400 level or above

9 credits from a list of performance-oriented courses

6 credits chosen from Departmental offerings in English Literature and/or Cultural Studies

12 credits in English selected in consultation with an academic adviser

At least 6 complementary credits must be at the 500 level.

A maximum of 9 credits may be from other departments with the signed permission of the adviser.

HONOURS IN ENGLISH (CULTURAL STUDIES) (60 credits)**Required Courses** (18 credits)

ENGL 275*	(3)	Introduction to Cultural Studies
ENGL 276*	(3)	Methods of Cultural Analysis
ENGL 277*	(3)	Introduction to Film Studies
ENGL 359*	(3)	The Poetics of the Image
ENGL 491D1	(3)	Honours Essay
ENGL 491D2	(3)	Honours Essay

* must have been taken by the end of the first two terms of the program

Complementary Courses (42 credits)

3 credits from a list of courses on Major Figures in Cultural Studies

3 credits from a list of courses in Cultural Studies with a Canadian component

6 credits from a list of courses in Cultural Studies with an historical dimension

3 credits of theory:

ENGL 317	(3)	Theory of English Studies 1
or ENGL 318	(3)	Theory of English Studies 2
or ENGL 319	(3)	Theory of English Studies 3
or ENGL 322	(3)	Theories of the Text
or ENGL 346	(3)	Materiality and Sociology of Text
or ENGL 352	(3)	Theories of Difference

3 credits from a list of courses in theory, from the option's offerings at the 400 level or above

12 credits in English Literature and/or Drama and Theatre, of which 6 credits are at the 300 level or higher

12 credits in additional courses in Cultural Studies

At least 6 complementary credits must be at the 500 level.

A maximum of 9 credits may be from other departments with the signed permission of the adviser.

JOINT HONOURS PROGRAM – ENGLISH COMPONENT

(36 credits)

Students who wish to study at the Honours level in two Arts disciplines may apply to combine Joint Honours Program components from two Arts disciplines; **see section 5.11.4 “Joint Honours Programs”** for a list of available programs.

Applications to do a Joint Honours Program in English and another subject in the Faculty of Arts should be submitted once a minimum of 9 credits, and no more than 18 credits, have been completed in English. There are normally two possible application dates for Joint Honours in English: either by the end of January (by which time first-term courses are completed and the grades are available), or at the same time as the Honours application date, typically in mid-April. (Only students who will have completed more than 18 credits in English by the end of January may apply in the Fall.)

Applications will be considered by the Department’s Honours Committee on the basis of the student’s program GPA, at a minimum of 3.50. The application form is available in the Department’s General Office (Arts 155), and the specific submission requirements are described by that form. The application will take some time to prepare, and allowance for such preparation (at least several weeks) must be made in order to meet the application deadline. **Incomplete applications will not be considered.**

Acceptance into Joint Honours English may be conditional on particular revisions to the Program Course Proposal to be submitted with the application form. This proposal goes on file in the General Office with the other submissions. Only course choices that are appropriate, given the nature of the Joint Honours program proposed, including the Honours Essay if applicable, will be approved. In order to graduate with Joint Honours, all subsequent course substitutions in the initially approved Joint Honours English program must be endorsed by the Joint Honours adviser when they are made (i.e., at the start of each term) and entered on the Program Course Proposal with the adviser’s initialed approval.

The maintenance of a 3.50 program GPA is required for continuation in Joint Honours. Graduation with Joint Honours requires a minimum CGPA of 3.00, a minimum program GPA of 3.50, and a minimum mark of B+ on the Honours Essay. Graduation with First Class Joint Honours in English requires a minimum CGPA of 3.50, a minimum program GPA of 3.70, and a minimum mark of A on the Honours Essay.

Each academic year there is a special adviser for Joint Honours students, and the receptionist in the General Office can provide his or her name and contact information. The Department’s Website provides additional information on the Joint Honours program and applications, and this Website should also be consulted prior to contacting the adviser.

Joint Honours Program Descriptions**400 Level**

All Joint Honours students’ programs of study shall include 6 credits of study at the 400 level or above.

Advanced Study

In addition, Joint Honours students shall undertake at least 6 further credits of advanced study, in one of the following two forms, in order of preference:

- a. ENGL 491D1/ENGL 491D2, an Honours Essay, or
- b. Two 500-level courses

(In very rare cases, a third alternative may be approved at the discretion of the Joint Honours adviser, but only when it is formally recommended for the joint subject according to the description of that Joint Honours program in the University Calendar. For example, Joint Honours with Anthropology allows the option of combining 3 credits of essay work with 3 credits in the joint subject to create a joint essay.)

JOINT HONOURS IN ENGLISH (LITERATURE) (36 credits)**Required Courses (6 credits)**

ENGL 311 (3) Poetics
ENGL 360 (3) Literary Criticism

Complementary Courses (30 credits)

9 credits of pre-1800 English literature

3 credits of theory:

ENGL 317 (3) Theory of English Studies 1
or ENGL 318 (3) Theory of English Studies 2
or ENGL 319 (3) Theory of English Studies 3
or ENGL 322 (3) Theories of the Text
or ENGL 346 (3) Materiality and Sociology of Text
or ENGL 352 (3) Theories of Difference

3 credits of English courses at the 500 level

6 credits of advanced study as specified above

9 credits chosen from among Department offerings

JOINT HONOURS IN ENGLISH (DRAMA AND THEATRE) (36 credits)**Required Courses (9 credits)**

ENGL 230 (3) Introduction to Theatre Studies
ENGL 269 (3) Introduction to Performance
ENGL 355 (3) The Poetics of Performance

Complementary Courses (27 credits)

3 credits of theory:

ENGL 317 (3) Theory of English Studies 1
or ENGL 318 (3) Theory of English Studies 2
or ENGL 319 (3) Theory of English Studies 3
or ENGL 322 (3) Theories of the Text
or ENGL 346 (3) Materiality and Sociology of Text
or ENGL 352 (3) Theories of Difference

3 credits in dramatic literature

3 credits in history of the theatre

6 credits of advanced study as specified above

12 credits chosen from among Department offerings

JOINT HONOURS IN ENGLISH (CULTURAL STUDIES) (36 credits)**Required Courses (9 credits)**

ENGL 275 (3) Introduction to Cultural Studies
ENGL 276 (3) Methods of Cultural Analysis
ENGL 359 (3) The Poetics of the Image

Complementary Courses (27 credits)

3 credits of theory:

ENGL 317 (3) Theory of English Studies 1
or ENGL 318 (3) Theory of English Studies 2
or ENGL 319 (3) Theory of English Studies 3
or ENGL 322 (3) Theories of the Text
or ENGL 346 (3) Materiality and Sociology of Text
or ENGL 352 (3) Theories of Difference

3 credits from a list of courses in Cultural Studies with an historical dimension

3 credits from a list of courses on Major Figures in Cultural Studies

6 credits of advanced study as specified above

12 credits chosen from among Department offerings

Department of English Student Association (DESA)

DESA is the representative body for the students of the English Department at McGill. Any student taking one or more courses in the Department is automatically a member. For more information, please read the description on the Department’s Website.

5.12.18 English as a Second Language (ESLN)

English and French Language Centre
688 Sherbrooke Street West, 2nd Floor
Montreal, QC H3A 3R1

Telephone: (514) 398-4172
Fax: (514) 398-5449
Website: www.mcgill.ca/eflc

Director — Geneviève Leidelinger

Lecturers

Robert Myles; B.A., M.A.(Car.), Ph.D.(McG.)
Carolyn Samuel; B.A., Dip.Ed.(McG.), M.Ed.(OISE, Tor.)

Full-time, non-anglophone students whose secondary education (high school and CEGEP) has been in institutions where the primary language of instruction was not English, or who have attended English language secondary institutions (high school and CEGEP) for four years or less, are eligible to take up to 12 credits in English as a Second Language (ESL).

With certain exceptions courses require placement tests, followed by advising and an electronic permit given at the English and French Language Centre. (Exceptions: foreign graduate students registering in ESLN 590 who have met McGill University English language entry requirements, register directly on Minerva. Graduate students registering for ESLN 650, placement confirmation on first day of class, register directly on Minerva.)

Placement tests will be held from Tuesday August 26th to Friday August 29th at 10:00 a.m., 12:00 p.m. and 2:00 p.m. and on a drop-in basis until the end of the add-drop period (or until spaces are filled). Placement tests are held in the Arts Multimedia Language Facility (AMLF) in the basement of the McLennan-Redpath Library, 3459 McTavish Street.

All students are required to attend class without fail during the first two weeks in order to retain their places.

5.12.19 English for Academic Purposes (EAPR)

English and French Language Centre
688 Sherbrooke Street West, 2nd Floor
Montreal, QC H3A 3R1

Telephone: (514) 398-4172
Fax: (514) 398-5449
Website: www.mcgill.ca/eflc

Director — Geneviève Leidelinger

Lecturers

Sue Laver; B.A.(S. Fraser), M.A.(East Anglia, Norwich, Eng.), Ph.D.(McG.)

The English for Academic Purposes (EAP) course, EAPR 250 Research Essay & Rhetoric, develops *academic* writing and critical thinking skills.

The course is for native speakers of English. Near-native English speakers may also take the course, but students with less than advanced English Second Language (ESL) skills are advised to take the academic writing courses listed under ESLN (English as a Second Language) in this Calendar.

Entrance Test: Short composition first day of class. Students with less than advanced ESL skills and students with serious writing problems will be advised on other courses they might take.

5.12.20 Environment

Arts students who are interested in studying the environment should refer to the McGill School of Environment section where they will find information concerning the “**Minor Concentration in Environment**” in section 14.5.1 and the “**B.A. Faculty Program in Environment**” in section 14.6.

5.12.21 French as a Second Language (FRSL)

English and French Language Centre
688 Sherbrooke Street West, 2nd Floor
Montreal, QC H3A 3R1

Telephone: (514) 398-4172
Fax: (514) 398-5449
Website: www.mcgill.ca/eflc

Director — Geneviève Leidelinger

Lecturers

Loretta Hyrat; B.A., M.A.(McG.)
Denyse Laniel; B.A.(Montr.), M.A.(McG.), Cert. Ed.(C'dia)
Geneviève Leidelinger; L.ès L.(Nice), B.Ed. (Qu.), M.A.(Vermont)
Natalia Liakina; B.A.(Minsk Linguistic University), M.A.(W. Ont.)
Suzanne Pellerin; B.A., M.A.(Laval), D.E.A.(Metz)
Hélène Riel-Salvatore; B.A.(McG.), M.A.(Harv.)
Jean-Yves Richard; B.A., M.A.(Laval)
Marion Vergues; B.A., M.A., D.E.A.(Montpellier University)

Courses in French as a Second Language are open to students in any program who need to develop their oral and written skills in the French language either for use in their future professional career or as preparation for more advanced studies in French linguistics, literature, civilization, translation or in Canadian studies.

Arts Freshman students enrolled in the Option 3: En français may select up to a maximum of 18 credits from FRSL courses.

ADMISSION AND REGISTRATION

A Placement Test is required before admission to any FRSL course, including Beginners' French. *All students should bring a photocopy of their transcript from high school or CEGEP. Departmental permission will be given after the student's level has been determined by a placement test.* Where students' levels in French make admission to this Department inappropriate, they will be directed to the Département de langue et littérature françaises.

No auditors are accepted.

Placement tests and registration take place at 688 Sherbrooke Street West, 2nd floor, on Monday August 25th, at 9:00 a.m., 10:00 a.m., 11:00 a.m., 2:00 p.m. and 3:00 p.m., Wednesday August 27th and Thursday August 28th, at 10:00 a.m., 11:00 a.m., 2:00 p.m. and 3:00 p.m., and on Friday August 29th, at 10:00 a.m. and 11:00 a.m. Only a limited number of students are tested at a time, beginning each hour. It is important to arrive on the hour.

Registration is limited and Departmental permission is absolutely required. *As numbers are limited in all courses, students who meet the required standard for any given course are admitted on a first-come, first-served basis, until the day before classes start. As of the first day of class, if places open, the department will accept students who have not yet registered based upon the date their permit was issued with priority being given to the earliest date.*

The Department reserves the right to transfer a student to another course if the level is inappropriate. Any absence from class during the Course Change period may lead to losing one's place to another student.

Catherine Leclerc; M.A.(UQAM), Ph.D.(C'dia)

GÉNÉRALITÉS

Le Département de langue et littérature françaises offre un programme de cours qui couvre l'ensemble des littératures française et québécoise ainsi que d'autres aspects des études françaises: civilisation et langue (linguistique, stylistique, traduction).

Le français est la seule langue de travail au Département. Tous les cours sont donnés en français. Les francophones constituent une proportion importante de notre clientèle, ce qui représente un avantage appréciable pour les étudiants qui ne sont pas de langue française, leur permettant de faire leurs études dans un milieu essentiellement français.

Pour ce qui est de la traduction, le programme offert à McGill a comme principale caractéristique de comporter un grand nombre de cours de culture générale.

La plupart des cours peuvent être suivis par tout étudiant ayant les connaissances et les capacités voulues: le professeur jugera en dernier ressort. Il existe toutefois quelques restrictions.

1. L'admission aux cours pratiques de langue (Composition 1 et 2, Grammaire avancée, Traduction) est subordonnée à la réussite d'un test qui a pour but de déterminer le niveau de connaissance de l'étudiant et d'assurer que celui-ci sera dirigé vers un cours correspondant à ses besoins. Si la préparation de l'étudiant s'avère insuffisante pour lui permettre de suivre un cours au Département, un cours au Centre d'enseignement du français et de l'anglais (French as a Second Language) lui sera conseillé.
2. L'admission aux programmes de Lettres et traduction (pour les étudiants en Spécialisation) est subordonnée à la réussite d'un test.
3. Les étudiants extérieurs au Département peuvent s'inscrire à tous les cours offerts au Département sauf exceptions indiquées dans le libellé des cours.

ASSOCIATION GÉNÉRALE DES ÉTUDIANTS DE LANGUE ET LITTÉRATURE FRANÇAISES (AGELF)

Association regroupant les étudiants de 1er cycle (inscrits à au moins 6 crédits en français) qui a pour but de promouvoir les intérêts de tous ses membres.

CONCENTRATION MINEURE LANGUE ET LITTÉRATURE FRANÇAISES – LANGUE FRANÇAISE (18 crédits)

(Ne peut être convertie en Concentration majeure)

Cours complémentaires (18 crédits)

6 à 12 crédits au Centre d'enseignement du français et de l'anglais parmi:

FRSL 321	(6)	Oral and Written French 2
FRSL 325	(6)	Oral and Written French 2 - Intensive
FRSL 326	(3)	Découvrons le Québec en français
FRSL 431	(6)	Français fonctionnel avancé
FRSL 445	(3)	Français fonctionnel, écrit 1
FRSL 446	(3)	Français fonctionnel, écrit 2
FRSL 449	(3)	Le Français des médias
FRSL 455	(3)	Grammaire et création

6 à 12 crédits au Département de langue et littérature françaises parmi:

FREN 201	(3)	Composition 1
FREN 203	(3)	Composition 2
FREN 239	(3)	Stylistique comparée
FREN 245	(3)	Grammaire avancée
FREN 247	(3)	Dissertation
FREN 250	(3)	Littérature française avant 1800
FREN 251	(3)	Littérature française depuis 1800

ou autres cours au choix

CONCENTRATION MINEURE LANGUE ET LITTÉRATURE FRANÇAISES – LANGUE ET TRADUCTION

(18 crédits) (Ne peut être convertie en Concentration majeure)

Cours complémentaires (18 crédits)

9 crédits parmi:

FREN 201	(3)	Composition 1
FREN 203	(3)	Composition 2
FREN 245	(3)	Grammaire avancée
FREN 247	(3)	Dissertation

9 crédits parmi:

FREN 239	(3)	Stylistique comparée
FREN 244	(3)	Traduction 1
FREN 346	(3)	Traduction 2
FREN 349	(3)	Traduction 3
FREN 431	(3)	Traduction 4
FREN 441	(3)	Traduction français-anglais

CONCENTRATION MINEURE LANGUE ET LITTÉRATURE FRANÇAISES – LETTRES (18 crédits)

(Convertible en Concentration majeure Lettres)

Cours obligatoires (9 crédits)

FREN 250	(3)	Littérature française avant 1800
FREN 251	(3)	Littérature française depuis 1800
FREN 252	(3)	Littérature québécoise

Cours complémentaires (9 crédits)

9 crédits parmi les cours de littérature française, québécoise ou francophone offerts par le Département de langue et littérature françaises (de niveau 300 ou plus).

CONCENTRATION MINEURE LANGUE ET LITTÉRATURE FRANÇAISES – LETTRES ET TRADUCTION (18 crédits)

(Convertible en Concentration majeure Lettres et traduction)

Cours obligatoires (9 crédits)

FREN 250	(3)	Littérature française avant 1800
FREN 251	(3)	Littérature française depuis 1800
FREN 252	(3)	Littérature québécoise

Cours complémentaires (9 crédits)

9 crédits parmi:

FREN 239	(3)	Stylistique comparée
FREN 244	(3)	Traduction 1
FREN 346	(3)	Traduction 2
FREN 349	(3)	Traduction 3
FREN 431	(3)	Traduction 4
FREN 441	(3)	Traduction français-anglais
FREN 443	(3)	Traduction littéraire

CONCENTRATION MINEURE LANGUE ET LITTÉRATURE FRANÇAISES – THÉORIE ET CRITIQUE LITTÉRAIRES (18 crédits)

(Convertible en Concentration majeure Lettres)

Cours obligatoires (6 crédits)

FREN 394 (3) Théorie de la traduction
FREN 490 (3) Critique et théorie 1

Cours complémentaires (12 crédits)

3 crédits parmi:

FREN 250 (3) Littérature française avant 1800
FREN 251 (3) Littérature française depuis 1800
FREN 252 (3) Littérature québécoise

3 crédits parmi:

FREN 334 (3) Méthodes d'analyse des textes littéraires 1
FREN 335 (3) Méthodes d'analyse des textes littéraires 2

6 crédits parmi les cours de littérature française, québécoise ou francophone offerts par le Département de langue et littérature françaises (de niveau 300 ou plus).

CONCENTRATION MAJEURE LANGUE ET LITTÉRATURE FRANÇAISES – LETTRES (36 crédits)

Cours obligatoires (12 crédits)

FREN 250 (3) Littérature française avant 1800
FREN 251 (3) Littérature française depuis 1800
FREN 252 (3) Littérature québécoise
FREN 334 (3) Méthodes d'analyse des textes littéraires 1

Cours complémentaires (24 crédits)

3 crédits parmi:

FREN 231 (3) Linguistique française
FREN 245 (3) Grammaire avancée
FREN 336 (3) La langue française

3 crédits parmi:

FREN 395 (3) Travaux pratiques 1
FREN 396 (3) Travaux pratiques 2
FREN 397 (3) Travaux pratiques 3

18 crédits parmi les cours de littérature française, québécoise ou francophone offerts par le Département de langue et littérature françaises (de niveau 300 ou plus).

CONCENTRATION MAJEURE LANGUE ET LITTÉRATURE FRANÇAISES – LETTRES ET TRADUCTION (36 crédits)

Cours obligatoires (15 crédits)

FREN 231 (3) Linguistique française
FREN 250 (3) Littérature française avant 1800
FREN 251 (3) Littérature française depuis 1800
FREN 252 (3) Littérature québécoise
FREN 347 (3) Terminologie générale

Cours complémentaires (21 crédits)

12 crédits parmi:

FREN 239 (3) Stylistique comparée
FREN 244 (3) Traduction 1
FREN 346 (3) Traduction 2
FREN 349 (3) Traduction 3
FREN 431 (3) Traduction 4
FREN 441 (3) Traduction français-anglais
FREN 443 (3) Traduction littéraire
FREN 494 (3) Séminaire: Traduction spécialisée

9 crédits parmi les cours de littérature française, québécoise ou francophone offerts par le Département de langue et littérature françaises (de niveau 300 ou plus).

CONCENTRATION MAJEURE LANGUE ET LITTÉRATURE FRANÇAISES – LINGUISTIQUE DU FRANÇAIS (36 crédits)

Cours obligatoires (21 crédits)

FREN 231 (3) Linguistique française
FREN 239 (3) Stylistique comparée
FREN 433 (3) Sémantique et lexicologie
FREN 434 (3) Sociolinguistique du français

LING 201 (3) Introduction to Linguistics
LING 230 (3) Phonetics
LING 371 (3) Syntax 1

Cours complémentaires (15 crédits)

(dont au moins trois cours au préfixe LING) parmi les groupes suivants:

un cours (3 crédits) parmi:

LING 200 (3) Introduction to the Study of Language
LING 320 (3) Sociolinguistics 1
LING 350 (3) Linguistic Aspects of Bilingualism
LING 355 (3) Language Acquisition 1

un cours (3 crédits) parmi:

LING 331 (3) Phonology 1
LING 370 (3) Introduction to Semantics
LING 440 (3) Morphology

n'importe quel cours (3 crédits) parmi les autres cours de linguistique au niveau 400 ou 500

un ou deux cours (6 crédits) parmi:

FREN 245 (3) Grammaire avancée
FREN 336 (3) La langue française
FREN 347 (3) Terminologie générale
FRSL 431 (6) Français fonctionnel avancé
FRSL 445 (3) Français fonctionnel, écrit 1
FRSL 446 (3) Français fonctionnel, écrit 2

PROGRAMME DE SPÉCIALISATION ("HONOURS") ET DE DOUBLE SPÉCIALISATION ("JOINT HONOURS")

L'obtention d'un baccalauréat avec Spécialisation ou Double Spécialisation est obligatoire pour l'admission dans les programmes de 2e et 3e cycles (maîtrise et doctorat).

En Spécialisation, les étudiants doivent conserver au minimum une moyenne de 3.00 pour l'ensemble des cours du programme et maintenir un CGPA de 3.00.

Les étudiants qui souhaitent poursuivre leurs études en spécialisation dans deux domaines distincts peuvent s'inscrire dans deux départements de la Faculté des Arts (consulter l'Annuaire de la Faculté [section 5.11.4, "Joint Honours Programs"](#)). Ces étudiants devraient rencontrer un conseiller dans chacun des deux départements concernés, pour établir leur choix de cours et formuler leur projet de recherche interdisciplinaire, le cas échéant.

PROGRAMME DE SPÉCIALISATION, OPTION LETTRES (60 crédits)

Cours obligatoires (42 crédits)

FREN 250 (3) Littérature française avant 1800
FREN 251 (3) Littérature française depuis 1800
FREN 252 (3) Littérature québécoise
FREN 352 (3) Lectures 1
FREN 353 (3) Lectures 2
FREN 374 (3) Lectures 3
FREN 395 (3) Travaux pratiques 1
FREN 396 (3) Travaux pratiques 2
FREN 397 (3) Travaux pratiques 3
FREN 464D1 (3) Mémoire de spécialisation
FREN 464D2 (3) Mémoire de spécialisation
FREN 490 (3) Critique et théorie 1
FREN 493 (3) Critique et théorie 2
FREN 497 (3) Travaux pratiques 4

Cours complémentaires (18 crédits)

6 crédits parmi les cours suivants (U3):

FREN 461 (3) Questions de littérature 1
FREN 472 (3) Questions de littérature 2
FREN 498 (3) Questions de littérature 3
FREN 499 (3) Questions de littérature 4

12 crédits au Département, répartis comme suit (maximum de 6 crédits dans les cours de niveau 200; minimum de 6 crédits dans les cours de niveau 400):

3 crédits de littérature/civilisation française

- 3 crédits de littérature/civilisation québécoise
- 3 crédits de langue/traduction
- 3 crédits au choix

En plus des cours du programme de Spécialisation, les étudiants doivent faire une Concentration mineure (18 crédits) dans un département autre que celui de leur programme de Spécialisation.

En Spécialisation, les étudiants doivent conserver au minimum une moyenne de 3.00 pour l'ensemble des cours du programme, et maintenir un CGPA de 3.00.

PROGRAMME DE SPÉCIALISATION, OPTION LETTRES ET TRADUCTION (60 crédits)

Cours obligatoires (51 crédits)

- FREN 231 (3) Linguistique française
- FREN 244 (3) Traduction 1
- FREN 250 (3) Littérature française avant 1800
- FREN 251 (3) Littérature française depuis 1800
- FREN 252 (3) Littérature québécoise
- FREN 346 (3) Traduction 2
- FREN 347 (3) Terminologie générale
- FREN 349 (3) Traduction 3
- FREN 352 (3) Lectures 1
- FREN 353 (3) Lectures 2
- FREN 374 (3) Lectures 3
- FREN 394 (3) Théorie de la traduction
- FREN 431 (3) Traduction 4
- FREN 441 (3) Traduction français-anglais
- FREN 443 (3) Traduction littéraire
- FREN 490 (3) Critique et théorie 1
- FREN 494 (3) Séminaire: Traduction spécialisée

Cours complémentaires (9 crédits)

(Au moins 6 de ces crédits doivent être de niveau 400)

- 3 crédits de langue
- 6 crédits de littérature/civilisation française/québécoise

Les étudiants peuvent aussi suivre les cours Questions de littérature 1, 2, 3, 4 (FREN 461, FREN 472, FREN 498, FREN 499) et s'inscrire au FREN 464D1/D2 Mémoire de spécialisation.

En plus des cours du programme de Spécialisation, les étudiants doivent faire une Concentration mineure (18 crédits) dans un département autre que celui de leur programme de Spécialisation.

En Spécialisation, les étudiants doivent conserver au minimum une moyenne de 3.00 pour l'ensemble des cours du programme, et maintenir un CGPA de 3.00.

DOUBLE SPÉCIALISATION, OPTION LETTRES (36 crédits)

Cours obligatoires (24 crédits)

- FREN 250 (3) Littérature française avant 1800
- FREN 251 (3) Littérature française depuis 1800
- FREN 252 (3) Littérature québécoise
- FREN 352 (3) Lectures 1
- FREN 353 (3) Lectures 2
- FREN 374 (3) Lectures 3
- FREN 490 (3) Critique et théorie 1
- FREN 493 (3) Critique et théorie 2

Cours complémentaires (12 crédits)

3 crédits parmi les Travaux pratiques (T.P.) le FREN 395: T.P. I, est recommandé;

9 crédits de niveau 200, 300 ou 400 parmi les cours de littérature offerts par le Département.

Les « cours de service » ne pourront être crédités comme cours complémentaires.

En Spécialisation, les étudiants doivent conserver au minimum une moyenne de 3.00 pour l'ensemble des cours du programme, et maintenir un CGPA de 3.00.

DOUBLE SPÉCIALISATION, OPTION LETTRES ET TRADUCTION (36 crédits)

Cours obligatoires (30 crédits)

- FREN 231 (3) Linguistique française
- FREN 244 (3) Traduction 1
- FREN 250 (3) Littérature française avant 1800
- FREN 251 (3) Littérature française depuis 1800
- FREN 252 (3) Littérature québécoise
- FREN 346 (3) Traduction 2
- FREN 347 (3) Terminologie générale
- FREN 349 (3) Traduction 3
- FREN 431 (3) Traduction 4
- FREN 490 (3) Critique et théorie 1

Cours complémentaires (6 crédits)

choisis parmi les cours complémentaires de langue/traduction offerts par le Département; 3 crédits doivent être de niveau 400.

En Spécialisation, les étudiants doivent conserver au minimum une moyenne de 3.00 pour l'ensemble des cours du programme, et maintenir un CGPA de 3.00.

5.12.23 Geography (GEOG)

Burnside Hall, Room 705
805 Sherbrooke Street West
Montreal, QC H3A 2K6

Telephone: (514) 398-4951 (or leave message (514) 398-4111)

Fax: (514) 398-7437

Website: www.geog.mcgill.ca

The Geography Department offers programs in both Arts and Science. Consult the Science entry “Geography (GEOG)” in section 12.13.16 for B.Sc. Geography programs, a list of teaching staff, an outline of the nature of Geography and the opportunities for study in this discipline.

Geography is a broad, holistic discipline - both a natural and a social science because it examines people and their environment and serves as a bridge between physical and cultural processes. Human Geography (a social science, thus B.A. programs) is concerned especially with the political, economic, social, and cultural processes and resource practices that create spatial patterns and that define particular places. Physical Geography (B.Sc. programs) integrates disciplines such as climatology, geomorphology, geology, biology, hydrology, ecology, soil science and even marine science. Whether considering greenhouse gas emissions, the spread of disease, or threats to biodiversity, in all cases, geographers are interested in where things happen, why, and with what consequences.

Our graduates go on to careers in environmental consulting, social agencies or non-governmental organizations. Skills in Geographic Information Science (GIS) are very marketable. Students are well prepared for graduate work in social sciences, urban planning and environmental studies at leading schools.

Prerequisites

There are no departmental prerequisites for entrance to the B.A. Major Concentrations or Honours programs in Geography. It is helpful for Arts students to include 6 credits of Mathematics in their CEGEP or pre-university programs. A student who has completed college or pre-university geography courses fully equivalent to those of first year university may, with the adviser's approval, substitute other courses as part of the Major Concentrations or Honours programs. B.A. students in U0 are invited to take GEOG 205 for science credit and GEOG 200 for social science credit.

MINOR CONCENTRATION IN GEOGRAPHY (18 credits)

[Expandable into the Major Concentration in Geography, but not into the Major Concentration in Geography (Urban Systems).]

The Minor Concentration in Geography is designed to provide students in the Faculty of Arts with an overview of basic elements of human geography at the introductory and advanced level.

Complementary Courses (18 credits)

9 credits (3 courses) from:

- GEOG 201 (3) Introductory Geo-Information Science
- GEOG 203 (3) Environmental Systems
- GEOG 210 (3) Global Places and Peoples
- GEOG 216 (3) Geography of the World Economy
- GEOG 217 (3) The Canadian City
- GEOG 272 (3) Earth's Changing Surface

9 credits (3 courses) from any Geography courses at the 300- or 400-level.

MINOR CONCENTRATION IN GEOGRAPHIC INFORMATION SYSTEMS (18 credits)

[Expandable into the Major Concentration in Geography, but not into the Major Concentration in Geography (Urban Systems).]

This Minor is designed to provide students in the Faculty of Arts who have an interest in GIS with a basic, but comprehensive knowledge of concepts and methods relating to the analysis of geospatial data.

Required Courses (15 credits)

- GEOG 201 (3) Introductory Geo-Information Science
- GEOG 306 (3) Raster Geo-Information Science
- GEOG 307 (3) Socioeconomic Applications of GIS
- GEOG 308 (3) Principles of Remote Sensing
- GEOG 506 (3) Advanced Geographic Information Science

Complementary Courses (3 credits)

One course to be chosen from:

- ATOC 414 (3) Applications of Remote Sensing
- COMP 420 (3) Secondary Storage Algorithms and Data Structures
- COMP 557 (3) Fundamentals of Computer Graphics (Note prerequisites)
- GEOG 535 (3) Remote Sensing and Interpretation
- GEOG 551 (3) Environmental Decisions
- URBP 505 (3) Geographic Information Systems

MINOR CONCENTRATION IN GEOGRAPHY (URBAN SYSTEMS) (18 credits)

[Expandable into the Major Concentration in Geography (Urban Systems).]

Complementary Courses (18 credits)

Group A (9 or 12 credits)

- GEOG 210 (3) Global Places and Peoples
- GEOG 217 (3) The Canadian City
- GEOG 303 (3) Health Geography
- GEOG 311 (3) Economic Geography
- GEOG 315 (3) Urban Transportation Geography
- GEOG 331 (3) Urban Social Geography
- GEOG 494 (3) Urban Field Studies

Group B (6 or 9 credits)

Architecture (Faculty of Engineering)*

- ARCH 378 (3) Site Usage (U2)
- ARCH 515 (3) Sustainable Design
- ARCH 527 (3) Civic Design (U3)
- ARCH 528 (3) History of Housing (U3)
- ARCH 529 (3) Housing Theory (U3)
- ARCH 550 (4) Urban Planning and Development (U3) (permission of Geography Adviser required)

*Although Architecture courses have prerequisites, they are waived for Urban Systems students, but the course may not be taken before the year indicated.

Civil Engineering

- CIVE 433 (3) Urban Planning - limited enrolment, departmental permission required, call (514) 398-6345
- CIVE 540 (3) Urban Transportation Planning

Economics

- ECON 348 (3) Urban Economics

Geography

- GEOG 307 (3) Socioeconomic Applications of GIS

History

- HIST 353 (3) History of Montreal

Law

- PUB1 004 (3) Land Use Planning

Political Science

- POLI 318 (3) Comparative Local Government
- POLI 337 (3) Canadian Public Administration

Urban Planning

- URBP 201 (3) Planning the 21st Century City
- URBP 501 (2) Principles and Practice 1
- URBP 506 (3) Environmental Policy and Planning

B.A. MAJOR CONCENTRATION IN GEOGRAPHY (36 credits)

This program is designed to cover the main elements of human geography.

Required Courses (6 credits)

- GEOG 201 (3) Introductory Geo-Information Science
- GEOG 210 (3) Global Places and Peoples

Complementary Courses (30 credits)

3 credits of introductory physical geography, one of:

- GEOG 203 (3) Environmental Systems
- GEOG 272 (3) Earth's Changing Surface

3 credits of statistics*, one of:

- BIOL 373 (3) Biometry
- GEOG 202 (3) Statistics and Spatial Analysis
- MATH 203 (3) Principles of Statistics 1
- PSYC 204 (3) Introduction to Psychological Statistics
- SOCI 350 (3) Statistics in Social Research

* Credit given for statistics courses is subject to certain restrictions; see Faculty Degree Requirements, [section 5.3.6.1, "Course Overlap"](#).

3 credits from field courses (field course availability is determined each year in February):

- GEOG 290 (1) Local Geographical Excursion (In 2008, reserve Oct. 3 - 5)
- GEOG 398 (3) Field Studies in Human Geography
- GEOG 494 (3) Urban Field Studies
- GEOG 495 (3) Field Studies - Physical Geography
- GEOG 496 (3) Geographical Excursion
- GEOG 497 (3) Ecology of Coastal Waters
- GEOG 499 (3) Subarctic Field Studies

3 credits of analysis and methodology:

- GEOG 306 (3) Raster Geo-Information Science
- GEOG 307 (3) Socioeconomic Applications of GIS
- GEOG 308 (3) Principles of Remote Sensing
- GEOG 351 (3) Quantitative Methods
- GEOG 506 (3) Advanced Geographic Information Science

18 credits in Geography (excluding GEOG 200, GEOG 205), at least 3 of these 18 to be at the 400 level or above.

MAJOR CONCENTRATION IN GEOGRAPHY (URBAN SYSTEMS) (36 credits)

This interdisciplinary Concentration exposes students to the various approaches to urban studies in many disciplines. Students who wish to retain the option of entering a Geography honours program should include GEOG 201, GEOG 203, GEOG 216, and GEOG 272 as well as the 9 credits of Required Courses listed below.

Students should observe the levels indicated by course numbers: 200-level are first year; 300-level, second year; 400- or 500-level, third year.

For further information on the Urban Systems Concentration telephone (514) 398-4951 or leave a message at (514) 398-4111.

For Urban Systems Majors, the total number of credits permitted outside Arts and Science is 30; see [section 5.3.6.2 "Courses Outside the Faculties of Arts and of Science"](#).

Required Courses (12 credits)

GEOG 201	(3)	Introductory Geo-Information Science
GEOG 217	(3)	The Canadian City
GEOG 331	(3)	Urban Social Geography
GEOG 351	(3)	Quantitative Methods

Complementary Courses (24 credits)

3 credits of statistics*, one of:

BIOL 373	(3)	Biometry
GEOG 202	(3)	Statistics and Spatial Analysis
MATH 203	(3)	Principles of Statistics 1
PSYC 204	(3)	Introduction to Psychological Statistics
SOCI 350	(3)	Statistics in Social Research

* Credit given for statistics courses is subject to certain restrictions, see Faculty Degree Requirements, [section 5.3.6.1, "Course Overlap"](#).

15 - 21 credits selected from the following courses:

Geography

GEOG 210	(3)	Global Places and Peoples
GEOG 303	(3)	Health Geography
GEOG 311	(3)	Economic Geography
GEOG 315	(3)	Urban Transportation Geography
GEOG 380	(3)	Adaptive Environmental Management
GEOG 494	(3)	Urban Field Studies

Architecture (Faculty of Engineering)*

ARCH 378	(3)	Site Usage (U2)
ARCH 515	(3)	Sustainable Design
ARCH 527	(3)	Civic Design (U3)
ARCH 528	(3)	History of Housing (U3)
ARCH 529	(3)	Housing Theory (U3)
ARCH 550	(4)	Urban Planning and Development (U3) (permission of Geography Adviser required)

* Although Architecture courses have prerequisites, they are waived for Urban Systems Majors, but the course may not be taken before the year indicated. Limited enrolment, early registration recommended.

Civil Engineering

CIVE 433	(3)	Urban Planning (same course as ARCH 550) - limited enrolment, departmental permission required, call (514) 398-6345
CIVE 540	(3)	Urban Transportation Planning

Economics

ECON 348	(3)	Urban Economics

----------	-----	------------------------------

Urban Planning (Faculty of Engineering)

URBP 201	(3)	Planning the 21st Century City
URBP 501	(2)	Principles and Practice 1 (6-week intensive)
URBP 506	(3)	Environmental Policy and Planning

Balance (up to 6 credits) selected from the following courses:

Geography

GEOG 290	(1)	Local Geographical Excursion (In 2008, reserve Oct. 3 - 5)
GEOG 306	(3)	Raster Geo-Information Science
GEOG 307	(3)	Socioeconomic Applications of GIS
GEOG 316	(3)	Political Geography
GEOG 504	(3)	Industrial Restructuring - Geographic Implications

Political Science

POLI 337	(3)	Canadian Public Administration
----------	-----	--------------------------------

POLI 411	(3)	Immigration and Multiculturalism in Canada <i>Sociology</i>
SOCI 230	(3)	Sociology of Ethnic Relations
SOCI 333	(3)	Social Stratification
SOCI 388	(3)	Crime

B.A. HONOURS IN GEOGRAPHY (60 credits)

The B.A. Honours program is more concentrated and focused than the Major Concentration. Students must maintain a minimum program GPA of 3.30 and complete a 6-credit Honours thesis. Honours students are encouraged to participate in 500-level seminars with graduate students.

Required Courses (15 credits)

GEOG 201	(3)	Introductory Geo-Information Science
GEOG 351	(3)	Quantitative Methods
GEOG 381	(3)	Geographic Thought and Practice
GEOG 491D1	(3)	Honours Research
GEOG 491D2	(3)	Honours Research

Complementary Courses (45 credits)

12 credits of introductory courses, four of:

GEOG 203	(3)	Environmental Systems
GEOG 210	(3)	Global Places and Peoples
GEOG 216	(3)	Geography of the World Economy
GEOG 217	(3)	The Canadian City
GEOG 272	(3)	Earth's Changing Surface

3 credits of statistics*, one of:

BIOL 373	(3)	Biometry
GEOG 202	(3)	Statistics and Spatial Analysis
MATH 203	(3)	Principles of Statistics 1
PSYC 204	(3)	Introduction to Psychological Statistics
SOCI 350	(3)	Statistics in Social Research

* Credit given for statistics courses is subject to certain restriction; see Faculty Degree Requirements, [section 5.3.6.1, "Course Overlap"](#).

3 credits from field courses:

GEOG 290	(1)	Local Geographical Excursion (In 2008, reserve Oct. 3 - 5)
GEOG 398	(3)	Field Studies in Human Geography
GEOG 494	(3)	Urban Field Studies
GEOG 495	(3)	Field Studies - Physical Geography
GEOG 496	(3)	Geographical Excursion
GEOG 497	(3)	Ecology of Coastal Waters
GEOG 499	(3)	Subarctic Field Studies

18 additional credits in Geography in consultation with the adviser.

9 credits at the 300 or 400-level or above outside Geography. Courses outside Geography, at the 300-level or higher, are selected from the humanities, social and physical sciences, or engineering and approved by the adviser as related to the focus within Geography.

In addition to the Faculty requirement that Honours students maintain a minimum CGPA of 3.00, students in a Geography Honours Program must maintain a program GPA of at least 3.30.

B.A. HONOURS IN URBAN SYSTEMS (60 credits)

The B.A. Honours in Urban Systems program is more concentrated and focused than the Major Concentration. Students must maintain a minimum program GPA of 3.30 and complete a 6-credit Honours thesis. Honours students are encouraged to participate in 500-level seminars with graduate students.

Students should observe the levels indicated by course numbers: 200-level are first year; 300-level, second year; 400- or 500-level, third year.

For further information on programs in Urban Systems, telephone (514) 398-4951 or leave a message at (514) 398-4111.

For students in the Honours in Urban Systems, the total number of credits permitted outside Arts and Science is 30; [see section 5.3.6.2 "Courses Outside the Faculties of Arts and of Science"](#).

Required Courses (21 credits)

- GEOG 201 (3) Introductory Geo-Information Science
- GEOG 217 (3) The Canadian City
- GEOG 351 (3) Quantitative Methods
- GEOG 381 (3) Geographic Thought and Practice
- GEOG 491D1 (3) Honours Research
- GEOG 491D2 (3) Honours Research
- GEOG 494 (3) Urban Field Studies

Complementary Courses (39 credits)

3 credits of statistics*, one of or equivalent of:

- BIOL 373 (3) Biometry
- GEOG 202 (3) Statistics and Spatial Analysis
- MATH 203 (3) Principles of Statistics 1
- PSYC 204 (3) Introduction to Psychological Statistics

* Credit given for statistics courses is subject to certain restrictions, see Faculty Degree Requirements, [section 5.3.6.1, "Course Overlap"](#).

12 credits selected from the following Geography courses:

- GEOG 203 (3) Environmental Systems
- GEOG 210 (3) Global Places and Peoples
- GEOG 221 (3) Environment and Health
- GEOG 303 (3) Health Geography
- GEOG 307 (3) Socioeconomic Applications of GIS
- GEOG 311 (3) Economic Geography
- GEOG 331 (3) Urban Social Geography

12 credits of courses in one of three categories: Urban History and Theory, Urban Design, or Urban Policy and Governance.

*Urban History and Theory**:

- ARCH 528 (3) History of Housing (U3)
- ARCH 529 (3) Housing Theory (U3)
- GEOG 503 (3) Location & Spatial Development
- GEOG 504 (3) Industrial Restructuring - Geographic Implications
- HIST 353 (3) History of Montreal
- JWST 371D1 (3) Jews and the Modern City
- JWST 371D2 (3) Jews and the Modern City
- SOCI 222 (3) Urban Sociology
- URBP 501 (2) Principles and Practice 1 (6-week intensive)

*Urban Design**:

- ARCH 378 (3) Site Usage (U2)
- ARCH 515 (3) Sustainable Design
- ARCH 521 (3) Structure of Cities
- ARCH 527 (3) Civic Design (U3)
- ARCH 550 (4) Urban Planning and Development (U3) (permission of Geography Adviser required)
- CIVE 433 (3) Urban Planning (same course as ARCH 550) - limited enrolment, departmental permission required, call (514) 398-6345
- CIVE 540 (3) Urban Transportation Planning
- GEOG 315 (3) Urban Transportation Geography
- URBP 201 (3) Planning the 21st Century City
- URBP 505 (3) Geographic Information Systems

*Note: Although Architecture courses have prerequisites, they are waived for Urban Systems students, but the course may not be taken before the year indicated. Limited enrolment, early registration recommended.

Urban Policy and Governance:

- ECON 348 (3) Urban Economics
- FINE 445 (3) Real Estate Finance (prereq.)
- POLI 318 (3) Comparative Local Government
- POLI 337 (3) Canadian Public Administration
- PUB1 004 (3) Land Use Planning
- SOCI 230 (3) Sociology of Ethnic Relations
- SOCI 333 (3) Social Stratification
- SOCI 388 (3) Crime
- URBP 506 (3) Environmental Policy and Planning

12 additional credits chosen as follows:

- 6 credits must be chosen from the above lists;
- 6 credits may be courses at or above the 300-level selected from outside of the program in conjunction with the student's program adviser.

In addition to the Faculty requirement that Honours students maintain a minimum CGPA of 3.00, students in the Honours in Urban Systems program must maintain a program GPA of at least 3.30.

B.A. JOINT HONOURS – GEOGRAPHY COMPONENT
(36 credits)

Required Courses (9 credits)

- GEOG 201 (3) Introductory Geo-Information Science
- GEOG 351 (3) Quantitative Methods
- GEOG 381 (3) Geographic Thought and Practice

Complementary Courses (27 credits)

12 credits of introductory courses, four of:

- GEOG 203 (3) Environmental Systems
- GEOG 210 (3) Global Places and Peoples
- GEOG 216 (3) Geography of the World Economy
- GEOG 217 (3) The Canadian City
- GEOG 272 (3) Earth's Changing Surface

3 credits of statistics*, one of:

- BIOL 373 (3) Biometry
- GEOG 202 (3) Statistics and Spatial Analysis
- MATH 203 (3) Principles of Statistics 1
- PSYC 204 (3) Introduction to Psychological Statistics
- SOCI 350 (3) Statistics in Social Research

* Credit given for statistics courses is subject to certain restrictions; see Faculty Degree Requirements, [section 5.3.6.1, "Course Overlap"](#).

6 to 9 credits from a coherent set of Geography courses approved by the student's adviser. A field course is desirable.

3 or 6 credits from:

- GEOG 491D1*(3) Honours Research
- GEOG 491D2*(3) Honours Research
- or, for those who submit the thesis in the other department,
- GEOG 492D1 (1.5) Joint Honours Research
- GEOG 492D2 (1.5) Joint Honours Research

* Where both departments require an Honours Thesis, the student has the option of submitting the thesis to either department. If the thesis is submitted to the other department, then the student must register for GEOG 492D1/GEOG 492D2. In some cases, it is required that the thesis be jointly supervised by faculty of both departments.

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours Program components from any two Arts disciplines; [see section 5.11.4 "Joint Honours Programs"](#) for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

In addition to the Faculty requirement that Joint Honours students maintain a minimum CGPA of at least 3.00, students in a Geography Joint Honours Program must maintain a program GPA of at least 3.30.

AFRICAN FIELD STUDY SEMESTER

The Department of Geography (Prof. Thom Meredith), Faculty of Science, coordinates the 15-credit interdisciplinary African Field Study Semester. For further information please contact Martine Dolmière, Internship & Field Studies Officer, 398-1063; [see section 15.2.1 "African Field Study Semester"](#).

PANAMA FIELD STUDY SEMESTER

The program is a joint venture between McGill University and the Smithsonian Tropical Research Institute (STRI) in Panama. For more information; [see section 15.2.3 "Panama Field Study Semester"](#).

GEOGRAPHY COURSES OF MOST INTEREST TO ARTS STUDENTS:

GEOG 199	(3)	FYS: Geo-Environments
GEOG 200	(3)	Geographical Perspectives: World Environmental Problems

Chair — Karin Bauer

Emeritus Professor

Peter M. Daly; B.A.(Brist.), Ph.D.(Zur.)

Associate Professors

Karin Bauer; M.A., Ph.D.(Wash.)

Paul Peters; B.A.(Man.), Ph.D.(Free Univ., Berlin)

Assistant Professors

Andrew Piper; B.A.(Prin.), Ph.D.(Col.)

Michael Cowan; B.A., Ph.D.(Calif., Berk.)

Faculty Lecturer — TBA

Note: Students may begin at the intermediate or advanced level in their first year if they have taken German courses in high school or

in CEGEP or through McGill Summer Studies. The courses GERM 202 or GERM 307 may be offered through Summer Studies.

Non-program students

Adviser: Professor Michael Cowan, (514) 398-3648

MINOR CONCENTRATION IN GERMAN LANGUAGE

(Expandable to the Major Concentration in German Language and Literature) (18 credits)

Complementary Courses (18 credits)

chosen from:

GERM 200	(6)	German Language, Intensive Beginners'
or GERM 202D1	(3)	German Language, Beginners'
and GERM 202D2(3)		German Language, Beginners'
GERM 300	(6)	German Language Intensive Intermediate
or GERM 307D1	(3)	German Language - Intermediate
and GERM 307D2(3)		German Language - Intermediate
GERM 325	(6)	German Language - Intensive Advanced
GERM 336	(3)	German Grammar Review
GERM 341	(3)	Essay Writing
GERM 342	(3)	Translation
GERM 345	(3)	Business German 1
GERM 346	(3)	Business German 2

MINOR CONCENTRATION IN GERMAN LITERATURE

(Expandable to the Major Concentration in German Language and Literature) (18 credits)

Professor Paul Peters, (514) 398-5050

This is offered as a special program for students who already possess the necessary language skills before coming to McGill, or have acquired the competence by completing the intensive sequence (GERM 200 and GERM 300) as elective courses in their first year.

Required Course (6 credits)

GERM 325 (6) German Language - Intensive Advanced

Complementary Courses (12 credits)

12 credits of courses in German literature or culture, given in German, such as:

GERM 330	(3)	Landeskunde
GERM 331	(3)	Germany after Reunification
GERM 352	(3)	German Literature - 19th Century 3
GERM 353	(3)	19th Century Literary Topics
GERM 360	(3)	German Literature 1890 to 1918
GERM 361	(3)	German Literature 1918 to 1945
GERM 362	(3)	20th Century Literature Topics
GERM 363	(3)	German Postwar Literature
GERM 380	(3)	18th Century German Literature
GERM 400	(3)	Interdisciplinary Seminar: Contemporary German Studies
GERM 412	(3)	Heroes, Lovers and Crusaders
GERM 450	(3)	Classical Period in German Literature
GERM 451	(3)	German Romanticism
GERM 455	(3)	Women of the Romantic Era
GERM 511	(3)	Middle High German Literature
GERM 561	(3)	German Literature: Baroque

MINOR CONCENTRATION IN GERMAN LITERATURE AND CULTURE IN TRANSLATION (18 credits) (Non-expandable)

Professor Paul Peters, (514) 398-5050

Complementary Courses (18 credits)

18 credits chosen from courses in German literature or culture in translation, such as:

GERM 259	(3)	Introduction to German Literature 1
GERM 260	(3)	Introduction to German Literature 2
GERM 354	(3)	Literary Approach to Song
GERM 355	(3)	Nietzsche and Wagner
GERM 358	(3)	Franz Kafka

- GERM 359 (3) Bertolt Brecht
- GERM 364 (3) German Culture: Gender and Society
- GERM 365 (3) Language of Media from Manuscript to Hypertext
- GERM 366 (3) Postwar German Literature/Film
- GERM 367 (3) Topics in German Thought
- GERM 371 (3) Cultural Change and Evolution of German
- GERM 382 (3) Faust: Chapbook to Horror Film

MAJOR CONCENTRATION IN CONTEMPORARY GERMAN STUDIES (36 credits)

Adviser: Professor Michael Cowan, (514) 398-3648

The Major Concentration in Contemporary German Studies is open to students with a sound knowledge of German as acquired in GERM 325 or equivalent. Those students who do not have the required competence in German may take the Major Concentration in Contemporary German Studies **only** if they also take a Minor Concentration in German Language. Proficiency, equivalency and placement will be determined by the program adviser.

Required Courses (9 credits)

- HIST 234 (3) German History to 1648
- HIST 235 (3) German History since 1648
- GERM 400 (3) Interdisciplinary Seminar: Contemporary German Studies

Complementary Courses (27 credits)

a) 6 credits in German Literature and Culture, chosen from:

- GERM 330 (3) Landeskunde
- GERM 331 (3) Germany after Reunification
- GERM 362 (3) 20th Century Literature Topics
- GERM 363 (3) German Postwar Literature
- GERM 365 (3) Media Studies
- GERM 366 (3) Postwar German Literature/Film
- GERM 367 (3) Topics in German Thought

b) 12 credits in German Society chosen from three disciplines including History, or from two disciplines excluding History.

Please contact the department(s) in question for pre/corequisites and availability of the following courses:

Economics:

- ECON 340 (3) Ex-Socialist Economies
- ECON 345 (3) The International Economy since 1914
- ECON 423D1 (3) International Trade and Finance
- ECON 423D2 (3) International Trade and Finance

History:

- HIST 355D1 (3) Germany 1806-1918
- HIST 355D2 (3) Germany 1806-1918
- HIST 435D1 (3) Germany in the 20th Century
- HIST 435D2 (3) Germany in the 20th Century

Management:

- BUSA 391 (3) International Business Law
- MGCR 382 (3) International Business
- MGPO 383 (3) International Business Policy
- MRKT 483 (3) International Marketing Management
- ORGB 380 (3) Cross Cultural Management

Political Science:

- POLI 212 (3) Government and Politics - Developed World
- POLI 328 (3) Modern Politics in Western Europe
- POLI 331 (3) Politics in East Central Europe
- POLI 344 (3) Foreign Policy: Europe
- POLI 357 (3) Politics: Contemporary Europe
- POLI 358 (3) Comparative State-Society Relations
- POLI 431 (3) Nations and States/Developed World
- POLI 463 (3) Politics of Germany
- POLI 466 (3) Public Policy Analysis

Sociology:

- SOCI 330 (3) Sociological Theory
- SOCI 354 (3) Dynamics of Industrial Societies

c) 9 credits taken from the following categories:

German Studies:

- GERM 345 (3) Business German 1
- GERM 346 (3) Business German 2

Any advanced course in German language, German literature, German literature in translation.

Any of the courses listed above in b) not already chosen.

Other courses offered in Art History, Geography, Jewish Studies, Music, Philosophy, etc., can be substituted for some of the above courses with the permission of the program adviser.

Please contact the department(s) in question for pre/corequisites and availability of the following courses:

Jewish Studies:

- JWST 371D1 (3) Jews and the Modern City
- JWST 371D2 (3) Jews and the Modern City
- JWST 383 (3) Holocaust Literature
- JWST 384 (3) Images of Jewish Identities

Philosophy:

- PHIL 367 (3) 19th Century Philosophy
- PHIL 474 (3) Phenomenology

MAJOR CONCENTRATION IN GERMAN LANGUAGE AND LITERATURE (36 credits)

Professor Paul Peters, (514) 398-5050

Required Courses (18 credits*)

- GERM 200 (6) German Language, Intensive Beginners' or GERM 202D1 (3) German Language, Beginners' and GERM 202D2(3) German Language, Beginners'
- GERM 300 (6) German Language Intensive Intermediate or GERM 307D1 (3) German Language - Intermediate and GERM 307D2(3) German Language - Intermediate
- GERM 325 (6) German Language - Intensive Advanced

* Students with advanced standing in the language will substitute language courses with more advanced courses in language, culture or literature.

Complementary Courses (18 credits)

18 credits of courses in literature distributed across different periods chosen from the courses listed below*:

at least one 3-credit course in 20th Century:

- GERM 354 (3) Literary Approach to Song
- GERM 360 (3) German Literature 1890 to 1918
- GERM 361 (3) German Literature 1918 to 1945
- GERM 362 (3) 20th Century Literature Topics
- GERM 363 (3) German Postwar Literature
- GERM 364 (3) German Culture: Gender and Society
- GERM 365 (3) Language of Media from Manuscript to Hypertext
- GERM 366 (3) Postwar German Literature/Film
- GERM 367 (3) Topics in German Thought

at least one 3-credit course in Classicism or Romanticism:

- GERM 450 (3) Classical Period in German Literature
- GERM 451 (3) German Romanticism
- GERM 455 (3) Women of the Romantic Era

at least one 3-credit course from any other period:

- GERM 352 (3) German Literature - 19th Century 3
- GERM 353 (3) 19th Century Literary Topics
- GERM 380 (3) 18th Century German Literature
- GERM 382 (3) Faust: Chapbook to Horror Film
- GERM 412 (3) Heroes, Lovers and Crusaders
- GERM 511 (3) Middle High German Literature
- GERM 561 (3) German Literature: Baroque

9 credits selected from any of the literature courses above not already taken or from:

- GERM 330 (3) Landeskunde
- GERM 331 (3) Germany after Reunification

GERM 400 (3) Interdisciplinary Seminar: Contemporary German Studies

* Courses on German literature or culture given in English may be substituted for any courses in the above lists, to a maximum of 6 credits.

MAJOR CONCENTRATION IN GERMAN LITERATURE AND CULTURE (36 credits)

Professor Paul Peters, (514) 398-5050

Note: All German literature courses given in German have as pre-requisite a linguistic competence as acquired in GERM 325 or *equivalent*. Such equivalence will be established by the program adviser.

Complementary Courses (36 credits)

9 credits chosen from:

GERM 330 (3) Landeskunde
 GERM 331 (3) Germany after Reunification
 GERM 360 (3) German Literature 1890 to 1918
 GERM 361 (3) German Literature 1918 to 1945
 GERM 362 (3) 20th Century Literature Topics
 GERM 363 (3) German Postwar Literature

15 credits chosen from:

GERM 352 (3) German Literature - 19th Century 3
 GERM 353 (3) 19th Century Literary Topics
 GERM 380 (3) 18th Century German Literature
 GERM 412 (3) Heroes, Lovers and Crusaders
 GERM 450 (3) Classical Period in German Literature
 GERM 451 (3) German Romanticism
 GERM 455 (3) Women of the Romantic Era
 GERM 511 (3) Middle High German Literature
 GERM 561 (3) German Literature: Baroque

12 credits chosen from:

GERM 259 (3) Introduction to German Literature 1
 GERM 260 (3) Introduction to German Literature 2
 GERM 354 (3) Literary Approach to Song
 GERM 355 (3) Nietzsche and Wagner
 GERM 358 (3) Franz Kafka
 GERM 359 (3) Bertolt Brecht
 GERM 364 (3) German Culture: Gender and Society
 GERM 365 (3) Language of Media from Manuscript to Hypertext
 GERM 366 (3) Postwar German Literature/Film
 GERM 367 (3) Topics in German Thought
 GERM 371 (3) Cultural Change and Evolution of German
 GERM 382 (3) Faust: Chapbook to Horror Film
 GERM 400 (3) Interdisciplinary Seminar: Contemporary German Studies

HONOURS IN GERMAN STUDIES (60 credits)

Adviser: Professor Paul Peters, (514) 398-5050

The Honours Program in German Studies consists of 60 credits in German. Literature courses provide an introduction to the major periods from the Middle Ages to the present.

Admission to the Honours Program in German Studies requires departmental approval. Students may begin Honours in German Studies in their first year. Honours students must maintain a GPA of 3.30 in their program courses, and, according to Faculty regulations, a minimum CGPA of 3.00 in general. In addition to the above requirements, Honours students, according to Faculty regulations, also must complete at least a Minor Concentration (18 credits) in another academic unit.

Required Courses (42 credits)

GERM 200 (6) German Language, Intensive Beginners'
 GERM 300 (6) German Language Intensive Intermediate
 GERM 325 (6) German Language - Intensive Advanced
 GERM 352 (3) German Literature - 19th Century 3
 GERM 360 (3) German Literature 1890 to 1918
 GERM 363 (3) German Postwar Literature

GERM 450 (3) Classical Period in German Literature
 GERM 451 (3) German Romanticism
 GERM 511 (3) Middle High German Literature
 GERM 575 (6) Honours Thesis

With permission of the adviser, students with advanced standing in German language will replace language courses for more advanced courses in language, culture or literature.

Complementary Courses (18 credits)

12 credits selected from:

GERM 330 (3) Landeskunde
 GERM 331 (3) Germany after Reunification
 GERM 353 (3) 19th Century Literary Topics
 GERM 361 (3) German Literature 1918 to 1945
 GERM 362 (3) 20th Century Literature Topics
 GERM 365 (3) Language of Media from Manuscript to Hypertext
 GERM 380 (3) 18th Century German Literature
 GERM 400 (3) Interdisciplinary Seminar: Contemporary German Studies

Note: In the event that there are not enough courses offered in German, substitution with courses from the list below is allowed only with permission of the adviser.

6 credits selected from:

GERM 259 (3) Introduction to German Literature 1
 GERM 260 (3) Introduction to German Literature 2
 GERM 336 (3) German Grammar Review
 GERM 354 (3) Literary Approach to Song
 GERM 355 (3) Nietzsche and Wagner
 GERM 358 (3) Franz Kafka
 GERM 359 (3) Bertolt Brecht
 GERM 364 (3) German Culture: Gender and Society
 GERM 367 (3) Topics in German Thought
 GERM 371 (3) Cultural Change and Evolution of German
 GERM 382 (3) Faust: Chapbook to Horror Film
 GERM 397 (3) Individual Reading Course 01
 GERM 398 (3) Individual Reading Course 02
 GERM 561 (3) German Literature: Baroque

or other suitable courses in the Department or in other related disciplines and departments with the approval of the adviser.

JOINT HONOURS – GERMAN STUDIES COMPONENT (36 credits)

Adviser: Professor Paul Peters, (514) 398-5050

Admission to the Joint Honours Program in German Studies requires Departmental approval.

Required Courses (21 credits)

GERM 200 (6) German Language, Intensive Beginners'
 GERM 300 (6) German Language Intensive Intermediate
 GERM 325 (6) German Language - Intensive Advanced
 GERM 570 (3) Joint Honours Thesis

With permission of the adviser, students with advanced standing in German language will replace language courses for more advanced courses in language, culture or literature.

Complementary Courses (15 credits)

Selected from 400- to 500-level German literature and culture courses, from at least three centuries, with the approval of the adviser.

Joint Honours students must maintain a GPA of 3.30 in their program courses, and, according to Faculty regulations, a minimum CGPA of 3.00 in general.

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours Program components from any two Arts disciplines; see section 5.11.4 "Joint Honours Programs" for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Prerequisites for Literature Courses – The prerequisite for all literature courses taught in German is GERM 325, or equivalent, or permission of the Department.

TOPICAL LISTINGS

Language

a) General courses

GERM 200	German Language, Intensive Beginners'
GERM 202	German Language, Beginners'
GERM 203	German for Reading
GERM 300	German Language Intensive Intermediate
GERM 307	German Language - Intermediate
GERM 325	German Language - Intensive Advanced

b) Special courses

GERM 316	German: Analytic Study of Texts
GERM 330	Landeskunde
GERM 336	German Grammar Review
GERM 341	Essay Writing
GERM 342	Translation
GERM 345	Business German 1
GERM 346	Business German 2

Literature and Culture

GERM 331	Germany after Reunification
GERM 349	Methods of Literary Analysis
GERM 352	German Literature - 19th Century 3
GERM 353	19th Century Literary Topics
GERM 360	German Literature 1890 to 1918
GERM 361	German Literature 1918 to 1945
GERM 362	20th Century Literature Topics
GERM 363	German Postwar Literature

Chair — Jesús Pérez-Magallón

Professors

K.M. Sibbald; M.A.(Cant.), M.A.(Liv.), Ph.D.(McG.) (*on leave* 2008-09)

Jesús Pérez-Magallón; Lic.Fil.(Barcelona), Ph.D.(Penn.)

Associate Professors

David A. Boruchoff; A.B., A.M., Ph.D.(Harv.)

Amanda Holmes; B.A.(McG.), M.A., Ph.D.(Ore.)

Assistant Professors

José Jouve-Martin; Lic.Phil.(Madrid), Ph.D.(G'town)

Fernanda Macchi; Lic.Lit.(Buenos Aires), M.A.(Oregon), Ph.D.(Yale)

Faculty Lecturer

Lucia Chamanadjian; M.A.(Car.)

The Department of Hispanic Studies offers courses on literature, intellectual history and the civilization of Spain and Hispanic America, as well as in the Spanish and Portuguese languages. The Department and its programs are committed to expanding the liberal arts background of students by helping to develop the skills of communication and critical reasoning, and by providing insight into the culture of other regional, linguistic and national groups.

McGill University has bilateral exchange agreements with the Universidad de Salamanca (Spain), the Universidad Nacional Autónoma de México, and the Universidad de las Américas, Puebla (Mexico), as well as with other leading universities in the Spanish and Portuguese-speaking world which allow student and faculty exchanges, and other collaborative ventures. Further information about these exchanges may be obtained from the Department. Application forms are available from the Student Exchange Officer in Enrolment Services, James Building Annex.

The Department collaborates closely with the Program in Latin-American and Caribbean Studies, and students are encouraged to consult that program listing.

UNDERGRADUATE PROGRAMS

Adviser: José Jouve-Martin, 688 Sherbrooke, Room 379,
(514)398-6657/ 6683

The Department of Hispanic Studies offers the following undergraduate programs and concentrations, which permit students to pursue a variety of intellectual and pre-professional options:

Minor Concentration in Hispanic Languages (Expandable)

Minor Concentration in Hispanic Literature and Culture (Expandable)

Major Concentration in Hispanic Languages

Major Concentration in Hispanic Literature and Culture

Honours Program in Hispanic Studies

Joint Honours Program in Hispanic Studies

Students who envision graduate studies upon completion of the B.A. are strongly advised to pursue a program of Honours or Joint Honours. (Honours students must submit their thesis by March 15). Although the Major and Minor Concentrations form an important part of the multi-track B.A. in Arts, this general degree does not provide the specialized training called for by most graduate programs in the Humanities and Social Sciences.

Note: Advanced Placement (AP) credits and courses taken at other universities in Quebec will not be accredited towards the Minor.

MINOR CONCENTRATION IN HISPANIC LANGUAGES

(18 credits) (Expandable to the Major Concentration in Hispanic Languages)

Note: Advanced Placement (AP) credits and courses taken at other universities in Quebec will **not** be accredited towards the Minor.

Complementary Courses (18 credits)

selected from:

HISP 202D1 (3)	Portuguese Language: Beginners
HISP 202D2 (3)	Portuguese Language: Beginners
HISP 204D1 (3)	Portuguese Language: Intermediate
HISP 204D2 (3)	Portuguese Language: Intermediate
HISP 210D1 (3)	Spanish Language: Beginners
HISP 210D2 (3)	Spanish Language: Beginners
HISP 218 (6)	Spanish Language Intensive - Elementary
HISP 219 (6)	Spanish Language Intensive - Intermediate
HISP 220D1 (3)	Spanish Language: Intermediate

HISP 220D2 (3) Spanish Language: Intermediate
 HISP 225 (3) Hispanic Civilization 1
 HISP 226 (3) Hispanic Civilization 2
 Students with advanced standing in the language will replace language courses with more advanced courses in language, culture or literature at the 200-level or above, selected from Departmental offerings.

MINOR CONCENTRATION IN HISPANIC LITERATURE AND CULTURE (18 credits) (Expandable to the Major Concentration in Hispanic Literature and Culture)

Note: Advanced Placement (AP) credits and courses taken at other universities in Quebec will **not** be accredited towards the Minor.

Required Courses (6 credits)

HISP 225 (3) Hispanic Civilization 1
 HISP 226 (3) Hispanic Civilization 2

Complementary Courses (12 credits)

6 credits selected from:

HISP 241 (3) Survey of Spanish Literature 1
 HISP 242 (3) Survey of Spanish Literature 2
 HISP 243 (3) Survey of Spanish-American Literature 1
 HISP 244 (3) Survey of Spanish-American Literature 2

6 credits in literature and/or culture at the 300-level or above, selected from the following:

HISP 321 (3) Spanish Literature - 18th Century
 HISP 324 (3) 20th Century Drama
 HISP 325 (3) Spanish Novel of the 19th Century
 HISP 326 (3) Spanish Romanticism
 HISP 327 (3) Literature of Ideas: Spain
 HISP 328 (3) Literature of Ideas: Spanish America
 HISP 332 (3) Spanish-American Literature of 19th Century
 HISP 333 (3) Spanish-American Theatre
 HISP 350 (3) The Generation of 1898
 HISP 351 (3) Spanish-American Novel 1
 HISP 352 (3) Spanish-American Novel 2
 HISP 356 (3) Spanish-American Short Story
 HISP 358 (3) Women Writers Fiction Spanish-America
 HISP 423 (3) Modern Lyric Poetry
 HISP 424 (3) Spanish Novel since Civil War
 HISP 432 (3) Literature - Discovery and Exploration Spain
 New World
 HISP 437 (3) Viceregal Spanish America
 HISP 438 (3) Topics: Spanish Literature
 HISP 439 (3) Topics: Spanish-American Literature
 HISP 442 (3) Modernismo
 HISP 451D1 (3) Cervantes
 HISP 451D2 (3) Cervantes
 HISP 453 (3) 20th Century Spanish-American Poetry
 HISP 454 (3) Major Figures: Spanish Literature
 HISP 455 (3) Major Figures: Spanish-American Literature
 HISP 457 (3) Medieval Literature
 HISP 458 (3) Golden Age Literature: Renaissance
 HISP 460 (3) Golden Age Literature: Baroque
 HISP 501 (3) History of the Spanish Language
 HISP 505 (3) Seminar in Hispanic Studies 01
 HISP 506 (3) Seminar in Hispanic Studies 02
 HISP 507 (3) Seminar in Hispanic Studies 03

The **Minor Concentration in Spanish Literature and Culture** and the **Minor Concentration in Spanish-American Literature and Culture** were retired at the end of the 2003-04 academic year. Students enrolled in either program at that time should consult with a Departmental adviser.

MAJOR CONCENTRATION IN HISPANIC LANGUAGES

(36 credits)

Complementary Courses

(36 credits)

0 - 18 credits in language and civilization

6 credits in Survey of Literature

12 - 30 credits in Hispanic literature at the 300-level or above, at least 6 credits of which must be in literature of the pre-1700 period (courses marked with an asterisk *), selected from the Complementary course list given under the Major Concentration in Hispanic Literature and Culture.

MAJOR CONCENTRATION IN HISPANIC LITERATURE AND CULTURE

(36 credits)

Required Courses (18 credits)

HISP 241 (3) Survey of Spanish Literature 1
 HISP 242 (3) Survey of Spanish Literature 2
 HISP 243 (3) Survey of Spanish-American Literature 1
 HISP 244 (3) Survey of Spanish-American Literature 2
 HISP 451D1 (3) Cervantes
 HISP 451D2 (3) Cervantes

Complementary Courses (18 credits)

0 - 3 credits from:

HISP 250 (3) Reading Hispanic Literature

at least 15 credits in Hispanic literature at the 300-level or above, at least 3 credits of which must be in literature of the pre-1700 period (courses marked with an asterisk *), selected from the following:

HISP 321 (3) Spanish Literature - 18th Century
 HISP 324 (3) 20th Century Drama
 HISP 325 (3) Spanish Novel of the 19th Century
 HISP 326 (3) Spanish Romanticism
 HISP 327 (3) Literature of Ideas: Spain
 HISP 328 (3) Literature of Ideas: Spanish America
 HISP 332 (3) Spanish-American Literature of 19th Century
 HISP 333 (3) Spanish-American Drama
 HISP 350 (3) The Generation of 1898
 HISP 351 (3) Spanish-American Novel 1
 HISP 352 (3) Spanish-American Novel 2
 HISP 356 (3) Spanish-American Short Story
 HISP 358 (3) Women Writers Fiction Spanish-America
 HISP 423 (3) Modern Lyric Poetry
 HISP 424 (3) Spanish Novel since Civil War
 HISP 432* (3) Literature - Discovery and Exploration Spain
 New World
 HISP 437* (3) Viceregal Spanish America
 HISP 438 (3) Topics: Spanish Literature
 HISP 439 (3) Topics: Spanish-American Literature
 HISP 442 (3) Modernismo
 HISP 453 (3) 20th Century Spanish-American Poetry
 HISP 454 (3) Major Figures: Spanish Literature
 HISP 455 (3) Major Figures: Spanish-American Literature
 HISP 457* (3) Medieval Literature
 HISP 458* (3) Golden Age Literature: Renaissance
 HISP 460* (3) Golden Age Literature: Baroque
 HISP 501* (3) History of the Spanish Language
 HISP 505 (3) Seminar in Hispanic Studies 01
 HISP 506 (3) Seminar in Hispanic Studies 02
 HISP 507 (3) Seminar in Hispanic Studies 03

HONOURS IN HISPANIC STUDIES

(60 credits)

Prerequisite for admission into Honours: A first-year Spanish course with a final grade of B+. Honours students are expected to maintain a program GPA of 3.30 and an overall CGPA of 3.00.

Students must take an 18-credit Minor Concentration in another area.

Required Courses (24 credits)

- HISP 241 (3) Survey of Spanish Literature 1
- HISP 242 (3) Survey of Spanish Literature 2
- HISP 243 (3) Survey of Spanish-American Literature 1
- HISP 244 (3) Survey of Spanish-American Literature 2
- HISP 451D1 (3) Cervantes
- HISP 451D2 (3) Cervantes
- HISP 490D1 (3) Honours Thesis
- HISP 490D2 (3) Honours Thesis

Complementary Courses (36 credits)

at least 6 credits selected from:

- HISP 432 (3) Literature - Discovery and Exploration Spain
New World
- HISP 437 (3) Viceregal Spanish America
- HISP 458 (3) Golden Age Literature: Renaissance
- HISP 460 (3) Golden Age Literature: Baroque

All remaining credits may be selected from courses given in Spanish in the Department at or above the Intermediate Spanish language level (HISP 219 OR HISP 220D1/HISP 220D2).

JOINT HONOURS – HISPANIC STUDIES COMPONENT

(36 credits)

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours Program components from any two Arts disciplines. See [section 5.11.4, "Joint Honours Programs"](#) for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Joint Honours students are expected to maintain a program GPA of 3.30 and an overall CGPA of 3.00.

Required Courses (12 credits)

- HISP 451D1 (3) Cervantes
- HISP 451D2 (3) Cervantes
- HISP 490D1 (3) Honours Thesis
- HISP 490D2 (3) Honours Thesis

Complementary Courses (24 credits)

6 credits selected from:

- HISP 241 (3) Survey of Spanish Literature 1
- HISP 242 (3) Survey of Spanish Literature 2
- HISP 243 (3) Survey of Spanish-American Literature 1
- HISP 244 (3) Survey of Spanish-American Literature 2

at least 6 credits selected from:

- HISP 432 (3) Literature - Discovery and Exploration Spain
New World
- HISP 437 (3) Viceregal Spanish America
- HISP 458 (3) Golden Age Literature: Renaissance
- HISP 460 (3) Golden Age Literature: Baroque

All remaining credits may be selected from courses given in Spanish in the Department above the Intermediate Spanish language level (HISP 219 OR HISP 220D1/HISP 220D2).

- Assistant Professor, Special Category*
- James Krapfl; A.B.(Stan.); M.A.(Central European Univ. Budapest)

In today's world, people who can research thoroughly, write effectively, speak eloquently, and think clearly are in great demand. Recent graduates of our programs are currently pursuing careers in a variety of professions, including law, business, journalism, academia, finance, government, the arts, science, education, and medicine. All have benefited as professionals, individuals, and citizens from their study of history. The study of history develops skills in research, writing, and critical thinking and provides a context for understanding the present world. History requires and develops flexible thinking as it normally employs inductive reasoning. Historians usually begin with a specific, temporally and spatially defined issue and try to determine a pattern or cause for change over time. They move from the particular to the general and since historians usually begin with an open-ended question, they often find themselves drawing on other disciplines to understand the problem.

PROGRAMS IN HISTORY

The Department offers three kinds of undergraduate programs: Honours, Major Concentration and Minor Concentration. Courses in History fall into one of the following FOUR areas: The Americas; Europe; Asia/Africa/Middle East; Global/thematic. In each program, a specified number of credits may be selected from any single area. Each student's program is worked out with an adviser to suit the student's specific needs within the general framework of the program.

Courses within each area are listed in the History Department's Web site. Please refer to our website for a listing of courses being offered in 2007-08 in each area.

Candidates entering University as U0 or U1 students may, during their first year, take all courses at the 200 level as well as courses at the 300 level for which they have prerequisites. First-Year Seminars are also available in History, [see section 5.5.2.1 "Registration for First-Year Seminars"](#).

MINOR CONCENTRATION IN HISTORY (18 credits)

(Expandable)

Director: TBD

Complementary Courses (18 credits)

A minimum of 15 credits to be taken in one of the following areas:

- The Americas
- Europe
- Asia/Africa/Middle East
- Global/thematic

12 credits minimum at the 300-level or higher

Students should see an adviser to plan a program that suits their needs

MAJOR CONCENTRATION IN HISTORY (36 credits)

Director: TBD

Complementary Courses (36 credits)

Within the 36 credits, a maximum of 24 credits from any one of the following areas:

- The Americas
- Europe
- Asia/Africa/Middle East
- Global/thematic

A maximum of 12 credits at the 200-level

3 credits in history of the pre-1800 period

3 credits in history of the post-1800 period

HONOURS IN HISTORY (60 credits)

Director: TBD

Required Course (3 credits)

HIST 399 (3) History and Historical Methods

Complementary Courses (57 credits)

A minimum of 12 credits of Honours seminars

A maximum of 15 credits at the 200-level or lower

A maximum of 42 credits in any one of the following areas:

- The Americas
- Europe
- Asia/Africa/Middle East
- Global/thematic

Students must maintain a 3.30 grade point average in their program courses and must have no less than a "B" in any program course. In addition, and in accordance with Faculty of Arts rules, students must maintain an overall CGPA of 3.00.

12 credits of Honours seminars:

Students must complete 12 credits worth of work in seminars designated by the Department of History as Honours Seminars. Each Honours seminar comprises a 6-credit course with a D1/D2 course number or two 3-credit courses to be taken consecutively. The second term component includes the completion of a major research paper based substantially on primary-source research. Both parts of a D1/D2 seminar must be completed to receive credit. The first course of a two-part seminar may be taken alone in exceptional circumstances, but in that case will be counted towards the complementary course component of the program only and will not be counted as an honours seminar.

The Honours seminars are listed following the description of the Joint Honours - History Component. Please consult the internet version of the undergraduate calendar for updates and the departmental web page for the topics of honours seminars, which vary from year to year. Not all seminars are offered each year.

JOINT HONOURS – HISTORY COMPONENT (36 credits)**Required Course (3 credits)**

HIST 399 (3) History and Historical Methods

Complementary Courses (33 credits)

A minimum of 6 credits of Honours seminars

A maximum of 12 credits at the 200-level or lower

A maximum of 27 credits in any one of the following areas:

- The Americas
- Europe
- Asia/Africa/Middle East
- Global/thematic

Students must maintain a 3.30 grade point average in their program courses and must have no less than a "B" in any program course. In addition, and in accordance with Faculty of Arts rules, students must maintain an overall CGPA of 3.00.

6 credits of Honours seminars:

Students must complete 6 credits worth of work in seminars designated by the Department of History as Honours seminars. Each Honours seminar comprises a 6-credit course with a D1/D2 course number or two 3-credit courses to be taken consecutively. The second term component includes the completion of a major research paper based substantially on primary-source research. Both parts of a D1/D2 seminar must be completed to receive credit. The first course of a two-part seminar may be taken alone in exceptional circumstances, but in that case will be counted towards the complementary course component of the program only and will not be counted as an honours seminar.

The Honours seminars are listed below. Please consult the internet version of the undergraduate calendar for updates and the departmental web page for the topics of honours seminars, which vary from year to year. Not all seminars are offered each year.

List of Honours seminars open to Honours and Joint Honours students :

HIST 458 (3) Modern Medicine: Seminar
and HIST 459 (3) Modern Medicine: Research
(To be taken consecutively)

HIST 461D1/D2(6) Topics in Modern U.S. History
HIST 462D1/D2(6) Topics: Canadian Conservatism
HIST 463D1/D2(6) Topics: History of Women in Canada
HIST 464D1/D2(6) Topics: Latin American History
HIST 465D1/D2(6) Seminar: Italian Renaissance
HIST 466 (3) Seminar: Medieval Medicine
and HIST 496 (3) Research: Medieval Medicine
(To be taken consecutively)
HIST 468D1/D2(6) Topics: 19th Century U.S. History
HIST 469D1/D2(6) Topics in Canadian Religious History

- HIST 470D1/D2(6) Topics: Historical Interpretation
 HIST 476D1/D2(6) Seminar: Topics in Russian History

 HIST 498D1/D2(6) Seminar in Eastern Europe
 HIST 550 (3) Ancient History: Seminar
 and HIST 551 (3) Ancient History: Research
 (To be taken consecutively)
 HIST 552 (3) International Relations: Seminar
 and HIST 553 (3) International Relations: Research
 (To be taken consecutively)
 HIST 556 (3) Colonial America: Seminar 1
 and HIST 557 (3) Colonial America: Seminar 2
 (To be taken consecutively)
 HIST 560 (3) World History: Seminar
 and HIST 561 (3) World History: Research
 (To be taken consecutively)
 HIST 565 (3) Modern Britain: Seminar 1
 and HIST 566 (3) Modern Britain: Seminar 2
 (To be taken consecutively)
 HIST 580D1/D2(6) European and Native-American Encounters
 HIST 594D1/D2(6) Seminar in Early Modern Britain
 HIST 595D1/D2(6) Seminar: Early Modern Western Europe

The following course(s) may be chosen by History Major Concentration and Honours students as part of their programs.

Anthropology

- ANTH 306 (3) Native Peoples' History in Canada

Canadian Studies

Please consult with advisers.

Islamic Studies

Please consult with advisers.

Jewish Studies

- JWST 305 (3) American Jewish History/Colonial Era to WWI
 JWST 306 (3) The American Jewish Community
 JWST 356 (3) Jewish Labour Movement/Eastern Europe
 JWST 357 (3) Jewish Labour Movement/North America

5.12.27 History and Philosophy of Science (HPSC)

Stephen Leacock Building, Room 637
 855 Sherbrooke Street West
 Montreal, QC H3A 2T7

Telephone: (514) 398-2806
 E-mail: hps.arts@mcgill.ca

Director — James Delbourgo (*History*)

Program Committee Chair — Nicholas Dew (*History*)

Program Committee

Darin Barney (*Art History and Communication Studies*), Emily Carson (*Philosophy*), Stephen Menn (*Philosophy*), Jonathan Sterne (*Art History and Communication Studies*)

History and Philosophy of Science at McGill is an interdisciplinary program that aims to provide students with an understanding of science through the study of both its historical development and of some of the fundamental philosophical principles upon which it rests. In addition, there is an ongoing seminar series of talks by visiting speakers: Please visit www.mcgill.ca/hpsc/seminars and www.mcgill.ca/hpsc/lectures.

MINOR CONCENTRATION IN HISTORY AND PHILOSOPHY OF SCIENCE (18 credits)

Complementary Courses (18 credits)

18 credits, with a maximum of 9 credits at the 200-level, distributed as follows:

GROUP A: PHILOSOPHY OF SCIENCE

6 - 12 credits, no more than 6 credits of which may be at the 200-level, chosen from the following:

Communication Studies

- COMS 210 (3) Introduction to Communication Studies
 COMS 410 (3) Cultures in Visualization

History and Philosophy of Science

- HPSC 300 (3) Independent Studies: History and Philosophy of Science
 HPSC 500 (3) Interdisciplinary Seminar: History & Philosophy of Science

Philosophy

- PHIL 210 (3) Introduction to Deductive Logic 1
 or PHIL 310 (3) Intermediate Logic
 PHIL 220 (3) Introduction to History and Philosophy of Science 1
 PHIL 221 (3) Introduction to History and Philosophy of Science 2
 PHIL 306 (3) Philosophy of Mind
 PHIL 340 (3) Philosophy of the Social Sciences 1
 PHIL 341 (3) Philosophy of Science 1
 PHIL 350 (3) History and Philosophy of Ancient Science
 PHIL 411 (3) Topics in Philosophy of Logic and Mathematics
 PHIL 440 (3) Philosophy of Social Sciences 2
 PHIL 441 (3) Philosophy of Science 2
 PHIL 453 (3) Ancient Metaphysics and Natural Philosophy
 PHIL 511 (3) Seminar: Philosophy of Logic and Mathematics
 PHIL 541 (3) Seminar: Philosophy of Science
 PHIL 580 (3) Seminar: Problems of Philosophy 1

Psychology

- PSYC 401 (3) Theories of Cognition
 PSYC 472 (3) Scientific Thinking and Reasoning

Religious Studies

- RELG 340 (3) Religion and the Sciences

Sociology

- SOCI 338 (3) Introduction to Biomedical Knowledge

GROUP B: HISTORY OF SCIENCE

6 - 12 credits, no more than 6 credits of which may be at the 200-level, chosen from the following:

Anthropology

- ANTH 359 (3) History of Archaeological Theory

Biology

- BIOL 210 (3) Perspectives of Science

Geography

- GEOG 381 (3) Geographic Thought and Practice

History

- HIST 212 (3) Science and Medicine in Canada
 HIST 249 (3) Health and the Healer in Western History
 HIST 319 (3) The Scientific Revolution
 HIST 335 (3) Science from Greeks to Newton
 HIST 348 (3) China: Science-Medicine-Technology
 HIST 350 (3) Science and the Enlightenment
 HIST 356 (3) Medicine in the Medieval West
 HIST 381 (3) Colonial Africa: Health/Disease
 HIST 447 (3) The Natural History of America
 HIST 452 (3) Medicine in Europe 1500-1700
 HIST 457 (3) Topics in Medical History
 HIST 458 (3) Modern Medicine: Seminar
 HIST 459 (3) Modern Medicine: Research
 HIST 466 (3) Seminar: Medieval Medicine
 HIST 496 (3) Research: Medieval Medicine

History and Philosophy of Science

- HPSC 300 (3) Independent Studies: History and Philosophy of Science
 HPSC 500 (3) Interdisciplinary Seminar: History & Philosophy of Science

Islamic Studies

- ISLA 345 (3) Science and Civilization in Islam

Mathematics

- MATH 338 (3) History and Philosophy of Mathematics
 MATH 339 (3) Foundations of Mathematics

Psychology

- PSYC 403 (3) Modern Psychology in Historical Perspective

5.12.28 Humanistic Studies (HMST)

Peterson Hall, Room 220
 3460 McTavish Street
 Montreal, QC H3A 1X9

Telephone: (514) 398-4804

E-mail: humanisticstudies.arts@mcgill.ca

Website: www.mcgill.ca/humanistic

Director — Robert Myles (*English and French Language Centre*)

Humanistic Studies Committee

Chair: Myrna Wyatt Selkirk (*English*), Committee: Malek Abisaab (*Islamic Studies*), Hans Beck (*Classics*), Laura Beraha (*Russian and Slavic Studies*), Charles Boberg (*Linguistics*), Storrs McCall (*Philosophy*), Carman Miller (*History*), Robert Myles (*English and French Language Centre*)

Humanistic Studies provides a broad liberal arts education that is personally enriching. It is also practical in its goal of developing the analytical, critical, and contextual thinking skills that are vital for the creation, expression, and transmission of ideas. Humanistic Studies is not a department, but a program wherein students are advised and guided by professors from each of the disciplines involved. It has been designed so that students can devise individual interdisciplinary concentrations or explore one of the core humanistic subjects in more depth. The fundamental assumption of Humanistic Studies is that human knowledge as acquired and developed in the university is cumulative and interconnected. A historical sense is crucial for an understanding of the continuity and changes in human thinking and other human activity. Students are encouraged to seek links between and among subjects in the arts – for example, literature, history, philosophy, religion, music, history of fine arts – the social sciences, and natural sciences.

Advising

Students are strongly encouraged to seek advising. Courses should be “clustered” so that different fields complement each other or are interconnected. Students are strongly advised to take this program in tandem with concentrations in language and literature. Telephone (514) 398-4804 to set up an appointment.

MINOR CONCENTRATION IN HUMANISTIC STUDIES

(Expandable) (18 credits)

Required Courses (6 credits)

- HMST 296 (3) Western Humanistic Tradition 1
 HMST 297 (3) Western Humanistic Tradition 2

Complementary Courses (12 credits)

Courses from the list published on the Humanistic Studies Website will be taken in the following manner:

- 3 credits History of Fine Arts
 3 credits Social Science

and 6 credits, all of which must be at the 300-level or above as follows:

- (a) to acquire a more extensive knowledge of any ONE of the areas listed above;
 (b) to be used to construct individual interdisciplinary concentrations **with the permission of the Humanistic Studies Office.**

It is strongly recommended that this Minor Concentration be accompanied by Major and/or Minor Concentrations in literature and/or languages.

MAJOR CONCENTRATION IN HUMANISTIC STUDIES

(36 credits)

Required Courses (6 credits)

- HMST 296 (3) Western Humanistic Tradition 1
 HMST 297 (3) Western Humanistic Tradition 2

Complementary Courses (30 credits)

Courses from the list published on the Humanistic Studies Website will be taken in the following manner:

- 6 credits from the Humanities
 6 credits History of Fine Arts
 6 credits Social Science
 3 credits Natural Science

and 9 credits, all of which must be at the 300-level or above as follows:

- (a) to be used to acquire a more extensive knowledge of any ONE of the areas listed above;
 (b) to be used to construct individual interdisciplinary concentrations **with the permission of the Humanistic Studies Office.**

It is strongly recommended that this Major Concentration be accompanied by Major and/or Minor Concentrations in literature and/or languages.

5.12.29 Industrial Relations Faculty Program

Peterson Hall, Room 220
 3460 McTavish Street
 Montreal, QC H3A 1X9

Telephone: (514) 398-4804

E-mail: indr.arts@mcgill.ca

Website: www.mcgill.ca/indr

The Faculty of Arts Faculty Program in Industrial Relations provides students with a basic knowledge of industrial relations institutions and practices as well as the principal social and economic forces that underlie them. The program is composed of 54 credits of courses drawn from the Departments of Economics and Sociology within the Faculty of Arts and from labour-management relations within the Desautels Faculty of Management.

Further Information

Changes may be made in the program after this Calendar was prepared. For the most up-to-date information on the program, new and returning students should refer to the Website.

Advisers

For a list of advisers, new and returning students should refer to the Website.

Continuance in the Program

To remain in the program beyond the first year, students must take the six “U1 Required Courses” listed below during their first year and earn a 2.50 GPA in ECON 208, ECON 209, SOCI 235, SOCI 312 and INDR 294.

Continuing Education Courses

Courses in Continuing Education may **not** be used to fulfil IR program requirements. Similarly, courses in Continuing Education taken before entering the program may **not** be used to fulfil program requirements.

B.A. FACULTY PROGRAM IN INDUSTRIAL RELATIONS

(54 credits)

U1 Required Courses (18 credits)

- ECON 208 (3) Microeconomic Analysis and Applications
 (or equivalent)
 ECON 209 (3) Macroeconomic Analysis and Applications
 (or equivalent)
 SOCI 235 (3) Technology and Society

- SOCI 312 (3) Sociology of Work and Industry
 INDR 294 (3) Introduction to Labour-Management Relations
 MGCR 222 (3) Introduction to Organizational Behaviour

U2 Required Courses (18 credits)

- ECON 306D1 (3) Labour Economics and Institutions
 ECON 306D2 (3) Labour Economics and Institutions
 SOCI 304 (3) Sociology of the Welfare State
 SOCI 420 (3) Organizations
 INDR 494 (3) Labour Law
 ORGB 423 (3) Human Resources Management

U2 Complementary Courses (6 credits)

either Economics

- ECON 227D1 (3) Economic Statistics
 ECON 227D2 (3) Economic Statistics

or Sociology

- SOCI 350 (3) Statistics in Social Research
 SOCI 461 (3) Quantitative Data Analysis

U3 Required Courses (6 credits)

- INDR 492 (3) Public Policy in Industrial Relations
 INDR 496 (3) Collective Bargaining

U3 Complementary Courses (6 credits)

- ECON 426 (3) Labour Economics
 INDR 449 (3) Occupational Health and Safety
 INDR 459 (3) International Labour Relations
 INDR 495 (3) Labour Relations: Public Sector
 INDR 497 (3) Contract Administration
 INDR 499 (3) Internship in Industrial Relations

Credits outside Arts and Science

Students in the Faculty Program in Industrial Relations may take no more than 30 credits in courses outside of the Faculties of Arts and of Science. This total includes required and complementary courses taken for the IR Program and elective courses. Moreover, in the U1 year a student should take at most only one 3-credit elective course in the Desautels Faculty of Management in addition to the required courses, INDR 294 and MGCR 222.

5.12.30 International Development Studies (INTD)

Office of Interdisciplinary Programs
 3460 McTavish Street, Room 242

Telephone: (514) 398-4804

Fax: (514) 398-2786

E-mail: ids@mcgill.ca

Website: www.mcgill.ca/ids

Adviser: Andrew Staples

Program Chair — TBA

Program Committee

Oliver Coomes (*Geography*), Kathleen Fallon (*Sociology*), Myron Frankman (*Economics*), Franque Grimard (*Economics*), John Kurien (*Economics*), Sonia Laszlo (*Economics*), Matthew Lange (*Sociology*), Philip Oxhorn (*Political Science*) (*Director, Centre for Developing Area Studies*), Daviken Studnicki-Gizbert (*History*), Jon Unruh (*Geography*)

The International Development Studies (IDS) programs are designed for those students who wish to take advantage of the resources available at McGill to pursue an interdisciplinary program of study focusing on the problems of the developing countries.

Most courses above the 200 level have prerequisites. Although these may be waived by instructors in some cases, students are urged to confirm their eligibility for courses when they prepare their programs of study. Note that certain courses (especially those in Management) may not be available owing to space limitations. Students should check the Class Schedule for confirmation as to which term courses are offered.

MINOR CONCENTRATION IN INTERNATIONAL DEVELOPMENT STUDIES (18 credits) (Expandable)

Required Courses (9 credits)

- ECON 208 (3) Microeconomic Analysis and Applications
 ECON 313 (3) Economic Development 1
 INTD 200 (3) Introduction to International Development

Complementary Courses (9 credits)

3 credits selected from the IDS Complementary Course List Group A.

The remaining credits to be selected from the IDS Complementary Course List Group B.

At least 9 of the 18 credits must be at the 300 level or above.

MAJOR CONCENTRATION IN INTERNATIONAL DEVELOPMENT STUDIES (36 credits)

Required Courses (15 credits)

- ECON 208 (3) Microeconomic Analysis and Applications
 ECON 313 (3) Economic Development 1
 ECON 314 (3) Economic Development 2
 INTD 200 (3) Introduction to International Development
 INTD 497 (3) Research Seminar on International Development

Complementary Courses (21 credits)

A minimum of 6 credits selected from the IDS Complementary Course List Group A. Only one course from each discipline can be counted.

The remaining credits to be selected from the IDS Complementary Course List Group B; at least 12 credits must be taken from one of the three categories. Students must take courses from at least three disciplines.

At least 18 of the 36 credits must be at the 300 level or above.

HONOURS IN INTERNATIONAL DEVELOPMENT STUDIES (57 credits)

Honours students must maintain a program GPA of 3.30 and an overall CGPA of 3.00.

Required Courses (15 credits)

- ECON 208 (3) Microeconomic Analysis and Applications
 ECON 313 (3) Economic Development 1
 ECON 314 (3) Economic Development 2
 INTD 200 (3) Introduction to International Development
 INTD 497 (3) Research Seminar on International Development

Complementary Courses (42 credits)

No more than 21 credits can be taken in any one discipline.

Thesis or research project, 3 to 6 credits, one of:

- INTD 491 (3) Research Project
 INTD 492 (6) Honours Thesis

A minimum of 6 credits selected from the IDS Complementary Course List Group A. Only one course from each discipline can be counted.

21 to 33 credits to be selected from the IDS Complementary Course List Group B; at least 12 credits must be taken from one of the three categories. Students must take courses from at least three disciplines.

Group C – 0 to 9 credits of Introductory and/or Intermediate Language Training.

Students are strongly encouraged to master a language appropriate to an area of the developing world in which they have a particular interest.

Among the languages that are included in this option are Arabic, Chinese, French, Korean, Portuguese, Spanish, and Urdu. Other language options can be approved by the Honours Adviser.

Students who already have appropriate language capability, or who have distinct interests not likely to necessitate such training, may substitute an additional 9 credits from the Group B Complementary Courses.

At least 30 of the 57 credits must be at the 300 level or above; 9 credits of these must be at the 400 level or above.

JOINT HONOURS – INTERNATIONAL DEVELOPMENT STUDIES COMPONENT (36 credits)

Joint Honours students must maintain a program GPA of 3.30 and an overall CGPA of 3.00.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Required Courses (15 credits)

ECON 208	(3)	Microeconomic Analysis and Applications
ECON 313	(3)	Economic Development 1
ECON 314	(3)	Economic Development 2
INTD 200	(3)	Introduction to International Development
INTD 497	(3)	Research Seminar on International Development

Complementary Courses (21 credits)

No more than 15 credits can be taken in any one discipline.

Thesis or research project, 3 to 6 credits; one of:

INTD 491	(3)	Research Project
INTD 492	(6)	Honours Thesis

6 credits selected from the IDS Complementary Course List Group A. Only one course from each discipline can be counted.

9 to 12 credits to be selected from the IDS Complementary Course List Group B.

At least 24 of the 36 credits must be at the 300 level or above; 6 of these must be at the 400 level or above.

IDS Complementary Course Lists for Minor Concentration, Major Concentration, Honours, Joint Honours

GROUP A

ANTH 202	(3)	Comparative Cultures
or ANTH 212	(3)	Anthropology of Development

The Institute of Islamic Studies offers graduate programs and courses in history, civilization and languages (Arabic, Turkish, Persian and Urdu) at the 200-, 300-, 400- and 500-level.

MINOR CONCENTRATION IN ISLAMIC STUDIES (18 credits)

This Minor Concentration permits students to explore the development and diversity of Islam through courses that focus on Islamic history, religion and civilization in the pre-modern period (pre-19th century) as well as through courses that focus on the dynamics of modern and contemporary (19th and 20th centuries) Muslim societies and cultures.

Required Courses (6 credits)

ISLA 200 (3) Islamic Civilization

ISLA 210 (3) Muslim Societies

Complementary Courses (12 credits)

Chosen from:

ISLA 345 (3) Science and Civilization in Islam

ISLA 350 (3) From Tribe to Dynasty

ISLA 355 (3) Modern History of the Middle East

ISLA 360 (3) Islam and Politics

ISLA 365 (3) Middle East Since the 1970's

ISLA 380 (3) Islamic Philosophy and Theology

ISLA 383 (3) Central Questions in Islamic Law

ISLA 385 (3) Poetics & Politics in Arabic Literature

ISLA 388 (3) Persian Literature

ISLA 392 (3) Arabic Literature as World Literature

ISLA 415 (3) Modern Iran: Anthropological Approach

ISLA 420 (3) Indo-Islamic Civilization: Medieval

ISLA 421 (3) Islam in South Asia: 1757 to Present

ISLA 511D1/D2 (6) History: Islamic Civilization - Mediaeval Era

ISLA 585 (3) Arab Women's Literature

Jen Wienstein; B.A., M.A., Ph.D.(McG.)

Associate Members

Paula Clarke (*History*)

Anthony Masi (*Sociology*)

Filippo Sabetti (*Political Science*)

Adjunct Professors

Tobias F. Gittes (*Liberal Arts College, C'dia*)
 Silvestra Mariniello (*Histoire de l'art et d'études
 cinématographiques, Montr.*)

Advisers:

Minor – Dr. Jen Wienstein, (514) 398-3955
 Majors, Honours and Joint Honours –
 Prof. Eugenio Bolongaro, (514) 398-4400 (ext 09454)

MINOR CONCENTRATION IN ITALIAN LANGUAGE AND LITERATURE (18 credits) (Expandable)

Students with advanced standing in the language must replace language courses with courses from groups B and C.

Complementary Courses (18 credits)

chosen from the following three groups:

- 0 - 12 credits Group A – Basic Language Courses.
- 6 - 18 credits Group B – Courses taught in Italian.
- 0 - 6 credits Group C – Courses taught in English.

MINOR CONCENTRATION IN ITALIAN CIVILIZATION (18 credits) (Expandable)

Students with advanced standing in the language must replace language courses with courses from groups B, C and D.

Complementary Courses (18 credits)

- 0 - 12 credits chosen from Group A – Basic Language Courses.
- 0 - 12 credits chosen from Group B – Courses taught in Italian.
- 3 - 18 credits chosen from Group C – Courses taught in English.
- 0 - 6 credits chosen from Group D – Courses offered in other departments.

MAJOR CONCENTRATION IN ITALIAN LANGUAGE AND LITERATURE (36 credits)

All students wishing to register for the Major Concentration in Italian Language and Literature are strongly urged to meet with a departmental adviser.

Complementary Courses (36 credits)

- 0 - 12 credits chosen from Group A – Basic Language Courses.
- 18 - 36 credits (at least 6 of which must be at the 350-level or above) chosen from courses at the 300-level or above as listed in Group B – Courses taught in Italian.
- Note: ITAL 300 may not be taken by students who have taken 132-306, and vice-versa.
- 0 - 18 credits chosen from courses at the 300-level or above as listed in Group C – Courses taught in English.
- 0 - 6 credits chosen from Group D – Courses offered in other departments.

MAJOR CONCENTRATION IN ITALIAN CIVILIZATION (36 credits)

This program is designed to enable students with no previous knowledge of Italian to pursue a Major Concentration by allowing them to take some literature and culture courses in English translation while acquiring language competency in other courses (including some literature courses taught in the original). All students wishing to register for the Major Concentration in Italian Civilization are strongly urged to meet with a Departmental adviser.

Complementary Courses (36 credits)

- 6 - 12 credits chosen from Group A – Basic Language Courses. Students with no knowledge of the Italian language must take 12 credits.
- Students arriving with some knowledge of the language may take 6 credits (ITAL 210D1/ITAL 210D2 or ITAL 215D1/ITAL 215D2 or ITAL 216).
- Students arriving with competency in the language may substitute courses from Groups B, C, and D for Basic Language Courses.
- All students with some background must consult with the Department for proper placement.

18 - 30 credits chosen from courses at the 300-level or above as listed in Group B – Courses taught in Italian and Group C – Courses taught in English.

0 - 6 credits chosen from Group D – Courses offered in other departments.

HONOURS IN ITALIAN STUDIES (54 credits)

Students with advanced standing in the language must replace language courses with courses from groups B, C, and D.

Required Courses (6 credits)

- ITAL 341 (3) The Art of Essay Writing
- ITAL 470 (3) Honours Thesis

Complementary Courses (48 credits)

- 48 credits, 9 of which must be at the 400 level or above.
- 0 - 12 credits from Group A – Basic Language Courses.
- 30 - 48 credits Group B – Courses taught in Italian.
- 0 - 9 credits combined from Group C – Courses taught in English and Group D – Courses offered in other departments.

Students must maintain a minimum CGPA of 3.00 and a GPA of 3.30 in the program courses.

Admission to the Honours program in Italian requires Departmental approval. Students wishing to register should consult with the Department as early as possible.

Students may begin Honours in Italian Studies in the first year, instead of the second, if in the opinion of the Department they are found to be qualified.

JOINT HONOURS – ITALIAN STUDIES COMPONENT (36 credits)

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours Program components from any two Arts disciplines; [see section 5.11.4 "Joint Honours Programs"](#) for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Admission to Joint Honours requires departmental approval. Students wishing to register in the program should consult with the Department as early as possible.

Students may register for Joint Honours in the first year, instead of the second year, if in the opinion of the departments they are found to be qualified.

Students with advanced standing in the language must replace language courses with courses from groups B, C, and D.

Required Courses (6 credits)

- ITAL 341 (3) The Art of Essay Writing
- ITAL 470 (3) Honours Thesis

Complementary Courses (30 credits)

- 30 credits, 6 of which must be at the 400 level or above:
- 0 - 12 credits from Group A – Basic Language Courses.
- 12 - 30 credits from Group B – Courses taught in Italian.
- 0 - 18 credits combined from Group C – Courses taught in English and Group D – Courses offered in other departments.

Students must maintain a minimum CGPA of 3.00 and a GPA of 3.30 in the program courses.

ITALIAN STUDIES COURSE GROUPS*Group A – Basic Language Courses:*

- ITAL 205D1 (3) Italian for Beginners'
- ITAL 205D2 (3) Italian for Beginners'
- ITAL 206 (6) Beginners' Italian Intensive
- ITAL 210D1 (3) Elementary Italian
(may not be taken by students who have taken ITAL 205D1/ITAL 205D2 or ITAL 206)
- ITAL 210D2 (3) Elementary Italian
(may not be taken by students who have taken ITAL 205D1/ITAL 205D2 or ITAL 206)

- ITAL 215D1 (3) Intermediate Italian
(may not be taken by students who have taken
ITAL 210D1/ITAL 210D2)
- ITAL 215D2 (3) Intermediate Italian
(may not be taken by students who have taken
ITAL 210D1/ITAL 210D2)
- ITAL 216 (6) Intermediate Italian Intensive
(may not be taken by students who have taken
ITAL 210D1/ITAL 210D2)

Group B – Courses taught in Italian:

- ITAL 300* (3) Italian Literary Composition

Chair — Eric Caplan

Professors

David Aberbach; B.A., B.Sc.(Univ.Coll. Lond.), M.Litt.,
D.Phil.(Oxf.)
Gershon D. Hundert; B.A.(Col.), M.A.(Ohio St.), Ph.D.(Col.)
(*Leonor Segal Professor of Jewish Studies*)
B. Barry Levy; B.A., M.A., B.R.E.(Yeshiva), Ph.D.(NYU)

Associate Professors

Eric Caplan; B.A.(McG.), M.A.(Tor.), Ph.D.(McG.)
Carlos Fraenkel; B.A., M.A., Ph.D.(Free Univ., Berlin)
Yael Halevi-Wise, B.A.(Hebrew), M.A.(G'town), Ph.D.(Prin.)
Lawrence Kaplan; B.A.(Yeshiva), M.A., Ph.D.(Harv.)
Eugene Orenstein; B.A.(CCNY), M.A., Ph.D.(Col.)

Lecturers

Karen Bauer; B.Ed.(McG.)
Lea Fima; B.Ed.(Beit Berl College), M.A.(McG.)
Esther Frank; B.A., M.A.(McG.)
Anna Gonshor; B.A., M.L.S., M.A.(McG.)

Adjunct Professors

Ruth Wisse; M.A.(Col.), Ph.D.(McG.)
Magdalena Opalski; M.A.(Warsaw), Ph.D.(Ott.)

The Department of Jewish Studies, established in 1968, offers an
interdisciplinary approach to the study of Judaica. It includes:

- a selection of courses that will enable students not taking a
Concentration in Jewish Studies to broaden their knowledge of
Jewish history and culture;
- elementary, intermediate and advanced courses in Jewish lan-
guages – Hebrew, Yiddish, and Aramaic. In the case of the first
two, this includes attention to both spoken idiom and written
texts;
- specialized courses in the various disciplines that comprise
Jewish Studies for students who have specific academic
interests;
- a Minor Concentration for students who wish to add compe-
tence in Jewish Studies to their major field of study;
- a comprehensive Major Concentration, and an Honours
program culminating in advanced seminars and tutorials for stu-
dents contemplating careers in the various fields of Judaica.
The Honours Program in Jewish Studies will give students the
necessary linguistic, textual and bibliographical knowledge to
enable them to pursue graduate work in Jewish Studies.

MINOR CONCENTRATION IN JEWISH LAW (18 credits)
(Expandable)

Adviser: Professor Lawrence Kaplan, (514) 398-5008

This Minor Concentration in Jewish Law is designed to provide stu-
dents with a special interest in Law, and particularly students from
the Faculty of Law who are now permitted a Minor in the Faculty of

Arts, a basic but comprehensive knowledge of the concepts and methods related to Jewish Law.

Complementary Courses (18 credits)

0-3 credits from:

JWST 216 (3) Jewish Studies 2: 400 BCE - 1000
HIST 207 (3) Jewish History: 400 BCE to 1000

15-18 credits from:

JWST 201 (3) Jewish Law
JWST 316 (3) Social and Ethical Issues Jewish Law 1
JWST 374 (3) Talmud and Law 1: Bava Kamma
JWST 375 (3) Talmud and Law 2: Bava Metzia
JWST 474 (3) Maimonides' Mishneh Torah
JWST 475 (3) The Responsa Literature
JWST 576 (3) Jewish Family Law

MINOR CONCENTRATION IN JEWISH STUDIES (18 credits) (Expandable)

Advisers: Eugene Orenstein, (514) 398-6545
Lawrence Kaplan, (514) 398-5008

In order to permit students flexibility within their chosen area, all courses in the Jewish Studies Concentrations are placed into the category "Complementary Courses."

Complementary Courses (18 credits)

18 credits in Jewish Studies:

9 credits are normally taken at the 300 level and up.

At least 9 credits will normally be taken at the 300 level and above in a single area. (See the list of courses, divided by areas of study, at the end of the Department section.)

Consultation with the Adviser is strongly recommended.

Note: Major and Honours students are encouraged to acquire a general background in Jewish Studies, fluency in at least one Jewish language, and expertise in one aspect of the field. While many areas of specialization exist, the groupings which follow the course descriptions represent Departmental strengths and are usually chosen by students.

MAJOR CONCENTRATION IN JEWISH STUDIES (36 credits)

Adviser: Eugene Orenstein, (514) 398-6545

In order to permit students flexibility within their chosen area, all courses in the Jewish Studies Concentrations are placed into the category "Complementary Courses."

Complementary Courses (36 credits)

36 credits in Jewish Studies, 24 of which are normally taken at the 300 level or above.

6 credits (minimum) in the history of Jewish Civilization to be chosen from:

JWST 211 (3) Jewish Studies 1: Biblical Period
JWST 216 (3) Jewish Studies 2: 400 BCE - 1000
JWST 217 (3) Jewish Studies 3: 1000 to 2000
HIST 207 (3) Jewish History: 400 B.C.E. to 1000
HIST 219 (3) Jewish History: 1000-2000

24 credits in Jewish Studies of which at least 12 are devoted to a single area of study. (See the list of courses, divided by areas of study, at the end of the Department section.) Students without the background necessary to complete the advanced language requirement may substitute up to 12 credits in language.

6 credits reflecting an advanced level of competence in either Hebrew or Yiddish chosen from the following: JWST 327, JWST 328, JWST 329, JWST 330, JWST 331, JWST 332, JWST 333, JWST 340D1/JWST 340D2, JWST 367, JWST 368, JWST 369, JWST 370 or any course at the 400 level (except JWST 404 and JWST 405).

Consultation with the Adviser is strongly recommended.

HONOURS IN JEWISH STUDIES (60 credits)

Honours Adviser: Lawrence Kaplan, (514) 398-5008

Required Courses (9 credits)

JWST 211 (3) Jewish Studies 1: Biblical Period
JWST 491 (3) Honours Thesis 1
JWST 492 (3) Honours Thesis 2

Complementary Courses (51 credits)

3 credits, one of:

JWST 216 (3) Jewish Studies 2: 400 BCE - 1000
HIST 207 (3) Jewish History: 400 B.C.E. - 1000

3 credits, one of:

JWST 217 (3) Jewish Studies 3: 1000 to 2000
HIST 219 (3) Jewish History: 1000-2000

0 - 18 credits: Language

Each Honours student will complete at least one Jewish language at the advanced level of instruction. A student who can demonstrate competence in a Jewish language may be permitted to substitute other courses for all or part of the language requirement.

JWST 220D1 (3) Introductory Hebrew
JWST 220D2 (3) Introductory Hebrew
JWST 320D1 (3) Intermediate Hebrew
JWST 320D2 (3) Intermediate Hebrew
JWST 340D1 (3) Advanced Hebrew
JWST 340D2 (3) Advanced Hebrew

JWST 280D1 (3) Introductory Yiddish
JWST 280D2 (3) Introductory Yiddish
JWST 380D1 (3) Intermediate Yiddish
JWST 380D2 (3) Intermediate Yiddish
JWST 480 (3) Advanced Yiddish 1
JWST 481 (3) Advanced Yiddish 2

27 - 45 credits, planned with an adviser and normally chosen to reflect progress to the advanced level in two of the areas of study: Biblical Studies, Rabbinic Studies, Literature, Jewish Thought, Jewish History, Modern Jewish Studies, and East European Studies.

According to Faculty regulations, Honours students must maintain a minimum CGPA of 3.00 and a Program GPA of 3.00 or higher.

JOINT HONOURS – JEWISH STUDIES COMPONENT (36 credits)

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours program components from any two Arts disciplines; [see section 5.11.4 "Joint Honours Programs"](#) for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Required Courses (9 credits)

JWST 211 (3) Jewish Studies 1: Biblical Period
JWST 491 (3) Honours Thesis 1
JWST 492 (3) Honours Thesis 2

Complementary Courses (27 credits)

3 credits, one of:

JWST 216 (3) Jewish Studies 2: 400 BCE - 1000
HIST 207 (3) Jewish History: 400 B.C.E. - 1000

3 credits, one of:

JWST 217 (3) Jewish Studies 3: 1000 to 2000
HIST 219 (3) Jewish History: 1000-2000

0 - 6 credits: Language

Each Joint Honours student will complete at least one Jewish language at the advanced level of instruction. A student who can demonstrate competence in a Jewish language may be permitted to substitute other courses for all or part of the language requirement.

- JWST 340D1 (3) Advanced Hebrew
- JWST 340D2 (3) Advanced Hebrew
- JWST 480 (3) Advanced Yiddish 1
- JWST 481 (3) Advanced Yiddish 2

15 - 21 credits, planned with an adviser and normally chosen to reflect progress to the advanced level in one of the areas of study: Biblical Studies, Rabbinic Studies, Literature, Jewish Thought, Jewish History, Modern Jewish Studies, and East European Studies.

According to Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

JEWISH TEACHER TRAINING PROGRAM

Established in 1973 in the Faculty of Education in conjunction with the Department of Jewish Studies, this program prepares students to teach at the elementary and secondary school levels.

Students are encouraged to acquire a strong general background in Bible, Jewish liturgy, traditions and history prior to registering in the program. Students lacking the ability to teach in Hebrew should consider spending a term at an Israeli university.

Further information can be obtained by contacting the Director, Dr. Eric Caplan, at (514) 398-6544; by consulting the Faculty of Education "[Bachelor of Education Kindergarten and Elementary Program \(Jewish Studies Option\)](#)" in section 7.6.1.7; and from the Web: www.mcgill.ca/edu-jtjp.

Interdepartmental Programming

Many of the courses in Jewish Studies are related to other departments, e.g., History, Religious Studies. There are also related courses in other departments which students specializing in certain areas of Jewish Studies might be encouraged to include in their programs, e.g., Classical Greek, Arabic, theories of literature, etc.

The following History department courses may be used as Jewish Studies courses in the Department of Jewish Studies programs:

- HIST 207 (3) Jewish History: 400 B.C.E. to 1000
- HIST 219 (3) Jewish History: 1000-2000
- HIST 307 (3) Jews in Poland
- HIST 327 (3) Jews in the Orbit of Islam
- HIST 427 (3) The Hasidic Movement
- HIST 477D1 (3) Seminar In Jewish History
- HIST 477D2 (3) Seminar In Jewish History

AREAS OF STUDY

It is possible to group the course offerings in Jewish Studies into a number of areas of study. The following is a representative but not exhaustive list.

Biblical Studies

- JWST 211 (3) Jewish Studies 1: Biblical Period
- JWST 310 (3) Believers, Heretics and Critics

5.12.34 Latin-American and Caribbean Studies (LACS)

Office of Interdisciplinary Programs
 3460 McTavish Street, Room 242
 Montreal, Quebec H3A 1X9
 Telephone: (514) 398-4804
 Fax: (514) 398-2786
 E-mail: lacs.arts@mcgill.ca
 Website: www.mcgill.ca/lacs

Adviser: Andrew Staples

Program Committee Chair — D. Studnicki-Gizbert (*History*)

Program Committee — O. Coomes (*Geography*), J. Jouve-Martin (*Hispanic Studies*), C. LeGrand (*History*), T. Meredith (*Geography*), P. Oxhorn (*Political Science*), K. Sibbald (*Hispanic Studies*), I. Vaccaro (*Anthropology*)

Established in 1971, the interdisciplinary Program in Latin-American and Caribbean Studies offers a comprehensive array of courses on the peoples, cultures, history, literature, politics, economy and geography of Latin America and the Caribbean, providing students with a broad-based understanding of this geographic region, and with the language and research skills required for advanced scholarship. The program in Latin-American and Caribbean Studies encourages the free exchange of ideas and perspectives in order to foster an environment suitable for serious reflection and critical analysis.

Students in the Program in Latin-American and Caribbean Studies are encouraged to consider the opportunities for foreign study and research made available by bilateral exchange agreements with leading universities in the Spanish and Portuguese-speaking world. These exchanges are open to all members of the McGill University community. Further information may be obtained from the Student Exchange and Study Abroad Office, James Administration Building.

An agreement of cooperation with the Centre for Latin American Studies at Georgetown University (Washington, D.C.) permits Honours students in Latin-American and Caribbean Studies at McGill to count a portion of their undergraduate coursework toward the degree requirements for Georgetown's M.A. in Latin American Studies, thus permitting completion of the M.A. in one calendar year. See the Program Adviser for additional information.

Undergraduate Degree Programs

The program in Latin-American and Caribbean Studies offers an interdisciplinary Honours degree and an interdisciplinary Major Concentration as part of the Multi-track B.A. in Arts. Given the constraints of the Multi-track B.A. and our belief that an interdisciplinary program of area studies must include within it the language(s) used by the peoples and cultures under examination, there is at present no interdisciplinary Minor Concentration in Latin-American and Caribbean Studies.

MAJOR CONCENTRATION IN LATIN-AMERICAN STUDIES

(36 credits)

Required Courses (18 credits)

- HISP 243* (3) Survey of Spanish-American Literature 1
 HISP 244* (3) Survey of Spanish-American Literature 2
 HIST 309 (3) History of Latin America to 1825
 HIST 360 (3) Latin America since 1825
 LACS 497 (3) Research Seminar: Latin America and the Caribbean
 POLI 319 (3) Politics of Latin America

* Please note that successful completion of Intermediate Spanish Language (HISP 220D1/HISP 220D2, HISP 219 or the equivalent) is required for admission to HISP 243 and HISP 244.

Complementary Courses (18 credits)

18 credits selected from the Complementary Course List in consultation with the Program Adviser.

Courses from at least two disciplines or departments must be included; at least 6 of the 18 credits must be at the 300 level or above.

No more than 6 credits in Spanish or Portuguese language (HISP 202D1/HISP 202D2, HISP 204D1/HISP 204D2, HISP 210D1/HISP 210D2, HISP 218, HISP 219, HISP 220D1/HISP 220D2, HISP 222) shall count for the Major Concentration.

HONOURS IN LATIN-AMERICAN AND CARIBBEAN STUDIES

The Honours Program in Latin-American and Caribbean Studies is designed to meet the needs of students who plan to attend graduate or professional school upon completion of the B.A. Both options provide a comprehensive interdisciplinary understanding of Latin America and the Caribbean, upon which more specialized coursework and research may be based.

Students pursuing Honours in Latin-American and Caribbean Studies must normally maintain a B+ (3.30) average in all Program courses, and must meet all additional Faculty of Arts requirements for graduation with Honours.

Please note that successful completion of Intermediate Spanish Language (HISP 220D1/HISP 220D2 or HISP 219 or equivalent) is required for admission to HISP 243 and HISP 244, courses required in both options.

HONOURS IN LATIN-AMERICAN AND CARIBBEAN STUDIES – AREA OPTION (60 credits)

The Area Option, with its disciplinary clusters, is recommended for students who envision graduate study in a specific discipline, such as History or Political Science.

Required Courses (21 credits)

- HISP 243 (3) Survey of Spanish-American Literature 1
 HISP 244 (3) Survey of Spanish-American Literature 2
 HIST 309 (3) History of Latin America to 1825
 HIST 360 (3) Latin America since 1825

- LACS 497 (3) Research Seminar: Latin America and the Caribbean
 LACS 498 (3) Independent Research Project
 POLI 319 (3) Politics of Latin America

Complementary Courses (39 credits)
 12 credits in Spanish or Portuguese.

27 additional credits on Latin America and the Caribbean, exclusive of language courses, selected from the Complementary Course List in consultation with the Program Adviser.

At least 15 of these 27 credits must be taken in one of the following disciplinary clusters, which may also include up to 6 credits of theoretical and/or methodological courses of particular relevance to the student's research interests:

- Literature and Culture;
- History, Economics and Political Science;
- Anthropology and Geography.

HONOURS IN LATIN-AMERICAN AND CARIBBEAN STUDIES – THEMATIC OPTION (60 credits)

This option permits highly motivated students to combine the study of Latin America and the Caribbean with a theme or intellectual focus whose roots extend beyond the geographic confines of this area, and for which a high level of methodological and/or theoretical expertise is required.

Themes of study may include, but are not limited to: ethnography and ethnohistory; the age of European expansion; transnationalism; the concepts and practice of law and justice; nationalism and nation-building; ecology and the management of human and natural resources.

Required Courses (21 credits)

- HISP 243 (3) Survey of Spanish-American Literature 1
 HISP 244 (3) Survey of Spanish-American Literature 2
 HIST 309 (3) History of Latin America to 1825
 HIST 360 (3) Latin America since 1825
 LACS 497 (3) Research Seminar: Latin America and the Caribbean
 LACS 498 (3) Independent Research Project
 POLI 319 (3) Politics of Latin America

Complementary Courses (39 credits)
 12 credits in Spanish or Portuguese.

12 credits on Latin America and the Caribbean, exclusive of language courses, selected from the Complementary Course List in consultation with the Program Adviser.

15 credits from outside the Complementary Course List, within a coherent theme of specialization, selected in consultation with the Program Adviser.

LACS Complementary Course List

Consult the Courses section for course descriptions and information on prerequisites. Not all courses listed are offered in any given year. Note: no credit will be given for multi-term courses unless all components are successfully completed as specified; for example, D1 and D2 components must both be successfully completed in consecutive terms.

Anthropology

- ANTH 212 (3) Anthropology of Development
 ANTH 326 (3) Peoples of Central and South America
 ANTH 439 (3) Theories of Development

Economics

- ECON 313 (3) Economic Development 1
 ECON 314 (3) Economic Development 2

5.12.35 Linguistics (LING)

1085 Dr. Penfield Avenue
 Montreal, QC H3A 1A7
 Telephone: (514) 398-4222
 Website: www.mcgill.ca/linguistics

Chair — Glyne L. Piggott

Emeritus Professors

C. Douglas Ellis; B.A.(Camb.), B.A.(McG.), M.A.(Tor.), M.A.(Yale), Ph.D.(McG.)

Myrna Gopnik; M.A., Ph.D.(Penn.)

Michel Paradis; B.A.(Montr.), M.A., Ph.D.(McG.), Ph.D.(Montr.), F.R.S.C.

Professors

Yosef Grodzinsky; B.Sc.(Hebrew), Ph.D.(Brandeis) (*Canada Research Chair*)

Glyne L. Piggott; B.A.(W.I.), M.A., Ph.D.(Tor.)

Lydia White; M.A.(Cant.), Ph.D.(McG.) (*James McGill Professor*)

Associate Professors

Charles Boberg; B.A.(Alta.), Ph.D.(Penn.)

Brendan Gillon; B.A.(Mich.), M.A.(Mich.), M.A.(Tor.), Ph.D.(MIT)

Heather Goad; B.A.(Br. Col.), M.A., Ph.D.(S.Calif.)

Bernhard Schwarz; M.A.(Tübingen), Ph.D.(Mass.)

Lisa de M. Travis; B.A.(Yale), Ph.D.(MIT)

Assistant Professors

Jonathan Nissenbaum; B.A.(Oberlin), Ph.D.(MIT)

Junko Shimoyama; B.A., M.A.(Ochanomizu), Ph.D.(Mass.)

Linguistics is the scientific study of human language. Topics include: the structure of the world's languages at the level of sounds (phonetics and phonology), words (morphology), sentences (syntax), and meaning (semantics); how people learn languages (acquisition); how people use two languages (bilingualism); how language is processed and represented in the brain (psycho- and neurolinguistics); how languages change over time (historical linguistics); and how languages vary in relation to region and social identity (dialectology and sociolinguistics). In addition to preparing students for advanced academic work in linguistics and related disciplines (e.g., anthropology, cognitive neuroscience, computer science, philosophy, or psychology), courses in linguistics provide a useful background for many careers, for example, language teaching, translation, child psychology, speech-language pathology, communication, and speech technology.

The Linguistics Department offers a Minor Concentration, a Major Concentration, an Honours program, and a Joint Honours program with other departments in the Faculty of Arts.

New Students

Students who are registering with the Department for the first time must attend the Department orientation (www.mcgill.ca/linguistics/undergraduate) meeting before seeing an adviser.

Requirements

Linguistics students must do at least two-thirds of their linguistics courses at McGill. Honours students must also do their Honours thesis at McGill.

MINOR CONCENTRATION IN LINGUISTICS (Expandable)
(18 credits)

Inquiries may be addressed to the departmental office or the advisers for undergraduate studies.

Required Courses (9 credits)

LING 201 (3) Introduction to Linguistics

LING 330 (3) Phonetics

LING 371 (3) Syntax 1

Complementary Courses (9 credits)

9 credits in Linguistics: 3 credits must be at the 400/500 level, 3 credits must be selected from the following list, and 3 credits can be chosen according to the student's interests. (If a 400/500 level course is chosen from the following list, the remaining 6 credits can be chosen according to the student's interests.)

LING 320 (3) Sociolinguistics 1

LING 350 (3) Linguistic Aspects of Bilingualism

LING 355 (3) Language Acquisition 1

LING 390 (3) Neuroscience of Language

LING 425 (3) Historical Linguistics

LING 440 (3) Morphology

LING 451 (3) Acquisition of Phonology

LING 455 (3) Second Language Syntax

LING 520 (3) Sociolinguistics 2

LING 521 (3) Dialectology

LING 555 (3) Language Acquisition 2

LING 590 (3) Language Acquisition and Breakdown

Students who take LING 360 as one of the complementary courses may also count PHIL 210 as a complementary course, but must take a 400/500 level course from the above list.

MAJOR CONCENTRATION IN LINGUISTICS (36 credits)**Required Courses** (18 credits)

LING 201 (3) Introduction to Linguistics

LING 330 (3) Phonetics

LING 331 (3) Phonology 1

LING 360 (3) Introduction to Semantics

LING 371 (3) Syntax 1

PHIL 210 (3) Introduction to Deductive Logic 1

Complementary Courses (18 credits)

9 credits in Linguistics at the 400/500-level,

3 credits from the list below, and

6 credits in Linguistics chosen according to the student's interests.

Note: If a 400/500 level course is chosen from the list below, it may be included as part of the 9 credits in Linguistics at the 400/500 level, and the remaining 9 credits can be chosen according to the student's interests.

LING 320 (3) Sociolinguistics 1

LING 350 (3) Linguistic Aspects of Bilingualism

LING 355 (3) Language Acquisition 1

LING 390 (3) Neuroscience of Language

LING 425 (3) Historical Linguistics

LING 440 (3) Morphology

LING 451 (3) Acquisition of Phonology

LING 455 (3) Second Language Syntax

LING 520 (3) Sociolinguistics 2

LING 521 (3) Dialectology

LING 555 (3) Language Acquisition 2

LING 590 (3) Language Acquisition and Breakdown

HONOURS IN LINGUISTICS (60 credits)**Required Courses** (24 credits)

LING 201 (3) Introduction to Linguistics

LING 330 (3) Phonetics

LING 331 (3) Phonology 1

LING 360 (3) Introduction to Semantics

LING 371 (3) Syntax 1

LING 480D1 (3) Honours Thesis

LING 480D2 (3) Honours Thesis

PHIL 210 (3) Introduction to Deductive Logic 1

Complementary Courses (36 credits)

24 credits in Linguistics and 12 credits in related fields.

24 Linguistics credits are selected as follows:

15 credits at the 400/500 level, 3 of which must be selected from the following list:

LING 425 (3) Historical Linguistics

LING 440 (3) Morphology

LING 451 (3) Acquisition of Phonology

LING 455 (3) Second Language Syntax

LING 520 (3) Sociolinguistics 2

LING 521 (3) Dialectology

LING 555 (3) Language Acquisition 2

LING 590 (3) Language Acquisition and Breakdown

9 other credits in Linguistics, usually at the 200/300 level.

12 credits in related fields to be selected from the following list:

Computer Science

COMP 202 (3) Introduction to Computing 1

COMP 203 (3) Introduction to Computing 2

French Language and Literature

FREN 231 (3) Linguistique française

FREN 336 (3) La langue française

FREN 434 (3) Sociolinguistique du français

Language

Any course in language (other than the student's native language) – literature courses are not acceptable.

Mathematics

MATH 240 (3) Discrete Structures 1
MATH 328 (3) Computability and Mathematical Linguistics

Philosophy

Any course in logic or philosophy of science.

PHIL 304 (3) Chomsky
PHIL 306 (3) Philosophy of Mind
PHIL 415 (3) Philosophy of Language
PHIL 515 (3) Seminar: Philosophy of Language

Psychology

PSYC 311 (3) Human Cognition and the Brain
PSYC 316 (3) Psychology of Deafness
PSYC 340 (3) Psychology of Language
PSYC 341 (3) The Psychology of Bilingualism
PSYC 343 (3) Language Learning in Children
PSYC 530 (3) Applied Topics in Deafness
PSYC 532 (3) Cognitive Science
PSYC 561 (3) Methods: Developmental Psycholinguistics

Statistics

Any course in statistics (from any department).

A B+ average (program GPA 3.30) is required to maintain Honours standing in Linguistics and a minimum grade of B+ must be obtained in three out of four of the following courses: LING 330, LING 331, LING 360, LING 371, as well as in the Honours Thesis, LING 480D1/LING 480D2.

As per Faculty of Arts rules, a minimum CGPA of 3.00 must be maintained. The requirement for First Class Honours is a CGPA of 3.50 and a minimum grade of A- in the Honours Thesis. Inquiries may be addressed to the departmental office or to the adviser for undergraduate studies.

Minor in Cognitive Science

Students following Major or Honours programs in Linguistics with an interest in cognition may want to consider the Minor in Cognitive Science, described in the Faculty of Science section.

JOINT HONOURS – LINGUISTICS COMPONENT (36 credits)**Required Courses (21 credits)**

LING 201 (3) Introduction to Linguistics
LING 330 (3) Phonetics
LING 331 (3) Phonology 1
LING 360 (3) Introduction to Semantics
LING 371 (3) Syntax 1
LING 481D1 (1.5) Joint Honours Thesis
LING 481D2 (1.5) Joint Honours Thesis
PHIL 210 (3) Introduction to Deductive Logic 1

Complementary Courses (15 credits)

9 credits at the 400/500 level, 3 of which must be selected from the following list:

LING 425 (3) Historical Linguistics
LING 440 (3) Morphology
LING 451 (3) Acquisition of Phonology
LING 455 (3) Second Language Syntax
LING 520 (3) Sociolinguistics 2
LING 521 (3) Dialectology
LING 555 (3) Language Acquisition 2
LING 590 (3) Language Acquisition and Breakdown

6 other credits in Linguistics, usually at the 200/300 level.

A B+ average (program GPA 3.30) is required to maintain Joint Honours standing in Linguistics and a minimum grade of B+ must be obtained in three out of four of the following courses LING 330,

LING 331, LING 360, LING 371, as well as in the Joint Honours Thesis, LING 481D1/LING 481D2.

As per Faculty of Arts rules, a minimum CGPA of 3.00 must be maintained. The requirement for First Class Honours is a CGPA of 3.50 and a minimum grade of A- in the Joint Honours Thesis. Inquiries may be addressed to the departmental office or to the adviser for undergraduate studies.

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours Program components from any two Arts disciplines; **see section 5.11.4 "Joint Honours Programs"** for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

5.12.36 Mathematics and Statistics (MATH)

Burnside Hall, Room 1005

Telephone: (514) 398-3800

Website: www.math.mcgill.ca

The Department of Mathematics and Statistics offers programs in both Arts and Science. For a list of teaching staff and an outline of the nature of the discipline refer to the Science entry "Mathematics and Statistics (MATH)" in section 12.13.21. A Desautels Faculty of Management B.Com. degree with a Major in Mathematics and a Schulich School of Music B.Mus. degree with Honours in Theory with Mathematics option are also available.

Students entering a Mathematics program are normally expected to have completed MATH 133, MATH 139 or MATH 140, MATH 141, or their equivalents. Otherwise they will be required to make up any deficiencies in these courses over and above the program credits.

The programs specifically for Arts students are described in this section. The following programs, which are fully described in the Faculty of Science section, may be taken by students in either Arts or Science:

Honours in Mathematics**Honours in Applied Mathematics****Honours in Probability and Statistics****Joint Honours in Mathematics and Computer Science**

Students entering one of the Minor or Major Concentrations listed below who have successfully completed a course equivalent to MATH 222 (Calculus 3) prior to coming to McGill are given exemption from taking MATH 222, but must replace it with a Complementary Mathematics course in the program of at least 3 credits.

MINOR CONCENTRATION IN MATHEMATICS (18 credits)

(Expandable and Non-expandable Versions)

Students entering the Minor Concentration in Mathematics are normally expected to have completed MATH 133, MATH 140 and MATH 141 or their equivalents. Otherwise they will be required to make up any deficiencies in these courses over and above the 18 credits required by the program.

The Minor Concentration in Mathematics may be taken in conjunction with a Major Concentration in some other discipline under option A of the Multi-track Program, or together with a Major Concentration and a Minor Concentration in other disciplines under option C.

The Minor Concentration in Mathematics is offered in two versions: an expandable version, for students who wish to leave open the option of expanding the program into a Major Concentration in Mathematics, and a non-expandable version for students who know on entry into the Minor that they do not wish to expand it into a Major.

All courses counted towards the Minor Concentration must be passed with a grade of C or better.

No overlap is permitted with other programs.

MINOR CONCENTRATION IN MATHEMATICS (Expandable)
(18 credits)

Program prerequisites: MATH 133, MATH 140 and MATH 141 or their equivalents.

Required Courses (12 credits)

MATH 222 (3) Calculus 3
 MATH 235 (3) Algebra 1
 MATH 236* (3) Algebra 2
 MATH 315 (3) Ordinary Differential Equations
 * credit cannot be received for both MATH 223 and MATH 236

Complementary courses (6 credits)

6 credits to be selected from the Complementary Course list below (MATH 323 strongly recommended).

MINOR CONCENTRATION IN MATHEMATICS

(Non-Expandable) (18 credits)

Program prerequisites: MATH 133, MATH 140 and MATH 141 or their equivalents.

Required Courses (9 credits)

MATH 222 (3) Calculus 3
 MATH 223* (3) Linear Algebra
 MATH 315 (3) Ordinary Differential Equations
 * credit cannot be received for both MATH 223 and MATH 236

Complementary courses (9 credits)

9 credits to be selected from the Complementary Course list below (MATH 323 strongly recommended).

Complementary Course List –**Mathematics Minor Concentrations**

MATH 314 (3) Advanced Calculus
 MATH 316 (3) Complex Variables
 or MATH 249 (3) Honours Complex Variables
 MATH 317 (3) Numerical Analysis
 MATH 318 (3) Mathematical Logic
 MATH 319 (3) Introduction to Partial Differential Equations
 MATH 320 (3) Differential Geometry
 MATH 323* (3) Probability
 MATH 324 (3) Statistics
 MATH 326 (3) Nonlinear Dynamics and Chaos
 MATH 327 (3) Matrix Numerical Analysis
 MATH 328 (3) Computability and Mathematical Linguistics
 MATH 339 (3) Foundations of Mathematics
 MATH 340 (3) Discrete Structures 2
 MATH 346 (3) Number Theory
 MATH 348 (3) Topics in Geometry
 MATH 407 (3) Dynamic Programming
 MATH 417 (3) Mathematical Programming

* It is strongly recommended that students in this program take MATH 323.

MINOR CONCENTRATION IN STATISTICS (Non-expandable)
(18 credits)

Students entering the Minor Concentration in Statistics are expected to have completed MATH 133, MATH 140 and MATH 141 or their equivalents.

The Minor Concentration in Statistics may be taken in conjunction with a Major Concentration in some other discipline under option A of the Multi-track Program, or together with a Major Concentration (which may be in Mathematics or some other discipline) and a Minor Concentration (which must be in some other discipline) under option C.

It is not possible to combine this program with the Minor Concentration in Mathematics under option C. Students wishing to do this should instead take the Major Concentration in Mathematics under option B and select a large number of Statistics complementaries.

The Minor Concentration in Statistics is offered only in a non-expandable version, that is, one that cannot be expanded into the Major Concentration in Mathematics. While it is not possible to expand the Minor Concentration, it is possible for students taking

the Major Concentration in Mathematics to adopt this program as one of their Minor Concentrations under option C.

Credit cannot be received for both MATH 223 and MATH 236. All courses counted towards the Minor Concentration must be passed with a grade of C or better.

No overlap is permitted with other programs.

Program prerequisites: MATH 133, MATH 140 and MATH 141 or their equivalents.

Required Courses (15 credits)

MATH 222 (3) Calculus 3
 MATH 223* (3) Linear Algebra
 MATH 323 (3) Probability
 MATH 324 (3) Statistics
 MATH 423 (3) Regression and Analysis of Variance
 * credit cannot be received for both MATH 223 and MATH 236

Note: If this Minor Concentration is combined with the Major Concentration in Mathematics, the required courses MATH 222, MATH 223, and MATH 323 must be replaced by courses on the list of Complementary Statistics courses.

Complementary Course (3 credits)

one of the following:

COMP 202 (3) Introduction to Computing 1
 MATH 204 (3) Principles of Statistics 2
 MATH 317 (3) Numerical Analysis
 MATH 447 (3) Stochastic Processes
 MATH 523 (4) Generalized Linear Models
 MATH 524 (4) Nonparametric Statistics
 MATH 525 (4) Sampling Theory and Applications

MAJOR CONCENTRATION IN MATHEMATICS (36 credits)

Students entering the Major Concentration are normally expected to have completed MATH 133, MATH 140 and MATH 141 or their equivalents. Otherwise they will be required to make up any deficiencies in these courses over and above the 36 credits required by the program. Students who have done well in MATH 242 and MATH 235 at the end of their first term should consider, in consultation with their adviser and the instructors of the courses involved, the possibility of entering into an Honours program in Mathematics, in Applied Mathematics, in Probability and Statistics, or a Joint Honours program in Mathematics and another discipline.

Guidelines for the selection of courses in the Major Concentration

Where appropriate, Honours-level courses may be substituted for their Majors-level counterparts. Students planning to undertake graduate studies in mathematics are urged to make such substitutions.

Students interested in computer science should consider the courses MATH 317, MATH 318, MATH 327, MATH 328, MATH 340, MATH 407, MATH 417 and take a Minor Concentration in computer science.

Students interested in probability and statistics should consider either taking the Minor Concentration in statistics under option C, or else including some or all of the courses MATH 423, MATH 447, MATH 523, MATH 524, and MATH 525.

Students interested in applied mathematics should consider the courses MATH 317, MATH 319, MATH 324, MATH 326, MATH 327, MATH 407 and MATH 417.

Students interested in careers in business, industry or government should consider the courses MATH 317, MATH 319, MATH 327, MATH 407, MATH 417, MATH 423, MATH 447, MATH 523, and MATH 525.

Program prerequisites: MATH 133, MATH 140, and MATH 141 or their equivalents.

Required Courses (21 credits)

MATH 222 (3) Calculus 3
 MATH 235 (3) Algebra 1
 MATH 236 (3) Algebra 2
 MATH 242 (3) Analysis 1
 MATH 243 (3) Analysis 2

- MATH 314 (3) Advanced Calculus
 MATH 323 (3) Probability

Complementary Courses (15 credits)

at least 9 credits selected from:

- MATH 315 (3) Ordinary Differential Equations
 MATH 316 (3) Complex Variables
 or MATH 249 (3) Honours Complex Variables
 MATH 317 (3) Numerical Analysis
 MATH 324 (3) Statistics
 MATH 340 (3) Discrete Structures 2
 MATH 423 (3) Regression and Analysis of Variance

the remaining credits to be selected from the following list:

- MATH 204 (3) Principles of Statistics 2
 MATH 318 (3) Mathematical Logic
 MATH 319 (3) Introduction to Partial Differential Equations
 MATH 320 (3) Differential Geometry
 MATH 326 (3) Nonlinear Dynamics and Chaos
 MATH 327 (3) Matrix Numerical Analysis
 MATH 328 (3) Computability and Mathematical Linguistics
 MATH 339 (3) Foundations of Mathematics
 MATH 346 (3) Number Theory
 MATH 348 (3) Topics in Geometry
 MATH 352 (1) Problem Seminar
 MATH 407 (3) Dynamic Programming
 MATH 410 (3) Majors Project
 MATH 417 (3) Mathematical Programming
 MATH 447 (3) Stochastic Processes
 MATH 523 (4) Generalized Linear Models
 MATH 524 (4) Nonparametric Statistics
 MATH 525 (4) Sampling Theory and Applications

Where appropriate, Honours courses may be substituted for their Majors equivalents.

JOINT HONOURS – MATHEMATICS COMPONENT (36 credits)

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours program components from any two Arts disciplines; see section 5.11.4 "Joint Honours Programs" for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

A student who has not completed the equivalent of MATH 222 will need to take that course in addition to the 36-credit program outlined below.

To remain in the Joint Honours program and receive the Joint Honours degree, a student must maintain the standards set by each discipline, as well as by the Faculty. In the Mathematics courses of the program a GPA of 3.00 and a CGPA of 3.00 must be maintained. Students who have difficulty in maintaining the required level should change to another program before entering their final year.

Required Courses (15 credits)

- MATH 235 (3) Algebra 1
 MATH 242 (3) Analysis 1
 MATH 248 (3) Honours Advanced Calculus
 MATH 251 (3) Honours Algebra 2
 MATH 255 (3) Honours Analysis 2

Complementary Courses (21 credits)

at least 15 credits selected from the following:

- MATH 325 (3) Honours Ordinary Differential Equations
 MATH 354 (3) Honours Analysis 3
 MATH 355 (3) Honours Analysis 4
 MATH 356 (3) Honours Probability
 MATH 357 (3) Honours Statistics
 MATH 366 (3) Honours Complex Analysis
 MATH 370 (3) Honours Algebra 3
 MATH 371 (3) Honours Algebra 4
 MATH 380 (3) Honours Differential Geometry

The remaining credits to be chosen from the full list of available Honours courses in Mathematics and Statistics.

5.12.37 Middle East Studies Program (MEST)

Website: www.mcgill.ca/mes

Program Adviser — Professor Laila Parsons, Department of History and Institute of Islamic Studies, (514) 398-7108

Program Committee Chair — L. Parsons

Program Committee:

S. Alvi (*Islamic Studies*), R. Brynen (*Political Science*), M. Hartman (*Islamic Studies*), S. Manoukian (*Anthropology*), K. Medani (*Political Science*), L. Parsons (*History*)

The Middle East Studies Program is designed for students who wish to pursue an interdisciplinary program of study focusing on the Middle East since the rise of Islam. Courses offered include language, history, religion and philosophy, political science and anthropology. From these are drawn combinations which make up the Major and Minor Concentrations, Honours and Joint Honours in Middle East Studies.

Students wishing to pursue a program in Middle East Studies must consult a Program Adviser each year to devise a suitable program. Before doing so, students should consult the Middle East Studies' Website at www.mcgill.ca/mes for a full description of each program. Failure to consult an adviser could lead to a delay in completing program requirements. Students wishing to have courses taken at other universities counted as satisfying program requirements must bring copies of their transcripts and course syllabi to the Program Adviser.

MINOR CONCENTRATION IN MIDDLE EAST STUDIES

(Expandable) (18 credits)

Complementary Courses (18 credits)

6 credits selected from History core courses:

- ISLA 410 (3) History: Middle-East 1798-1918
 ISLA 411 (3) History of the Middle East 1918-1945
 ISLA 510D1 (3) History: Islamic Civilization - Classical
 ISLA 510D2 (3) History: Islamic Civilization - Classical
 ISLA 511D1 (3) History: Islamic Civilization - Mediaeval Era
 ISLA 511D2 (3) History: Islamic Civilization - Mediaeval Era

6 credits in Religion and Philosophy:

at least 3 credits from:

- ISLA 505 (3) Islam: Origin and Early Developments
 ISLA 506 (3) Islam: Later Developments
 ISLA 531D1 (3) Survey Development of Islamic Thought
 ISLA 531D2 (3) Survey Development of Islamic Thought

the remaining credits, if any, from:

- PHIL 356 (3) Early Medieval Philosophy
 RELG 204* (3) Judaism, Christianity and Islam

* RELG 204 can only be taken prior to ISLA 505 and ISLA 506

6 credits in Social Science selected from:

- ANTH 340 (3) Middle Eastern Society and Culture
 POLI 340 (3) Developing Areas/Middle East
 POLI 341 (3) Foreign Policy: The Middle East
 POLI 347 (3) Arab-Israel Conflict, Crisis, Peace
 POLI 437 (3) Politics in Israel

MINOR CONCENTRATION IN MIDDLE EAST LANGUAGES

(Expandable) (18 credits)

Complementary Courses (18 credits)

18 credits of Middle Eastern language (Arabic, Hebrew, Persian, Turkish), either:

all 18 credits (3 levels) in one language

or 12 credits (2 levels) in one language and 6 credits (1 level) in another language

MAJOR CONCENTRATION IN MIDDLE EAST STUDIES

(36 credits)

Complementary Courses (36 credits)

12 credits (2 levels) in one Middle East language – Arabic, Hebrew, Persian, Turkish.

(In the case of Arabic, the first two levels involve 15 credits. The extra 3 credits will be counted towards the remainder of the program requirements.)

24 credits in Middle East Studies (21 credits if Arabic has been chosen):

6 - 9 credits in History, a minimum of 6 credits from core courses;

6 - 9 credits in Religion and Philosophy, a minimum of 6 credits from core courses;

6 - 9 credits in Social Science.

HONOURS IN MIDDLE EAST STUDIES (60 credits)

The Honours program involves 60 credits in Middle East Studies:

18 credits (3 levels) in one Middle Eastern language;

12 credits in Middle Eastern history, a minimum of 9 credits from Core courses;

6 credits in Middle Eastern religion and philosophy, a minimum of 3 credits from Core courses;

12 credits in Middle East social science courses;

12 credits in Middle East Studies electives.

Honours students must maintain a program GPA of 3.30 in their Middle East Studies courses.

According to Faculty regulations, Honours students must maintain a minimum CGPA of 3.00.

JOINT HONOURS – MIDDLE EAST STUDIES COMPONENT

(36 credits)

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Complementary Courses (36 credits)

Language:

12 credits (2 levels) in one Middle East language (in the case of Arabic, the first two levels involve 15 credits. The extra 3 credits will be counted toward the remainder of the program).

Middle East Studies:

24 credits (21 if Arabic has been chosen), distributed as follows:

History

6 - 9 credits, a minimum of 6 credits from the following courses:

ISLA 410 (3) History: Middle-East 1798-1918

ISLA 411 (3) History of the Middle East 1918-1945

ISLA 510D1 (3) History: Islamic Civilization - Classical

ISLA 510D2 (3) History: Islamic Civilization - Classical

ISLA 511D1 (3) History: Islamic Civilization - Mediaeval Era

ISLA 511D2 (3) History: Islamic Civilization - Mediaeval Era

Religion and Philosophy

6 - 9 credits, a minimum of 6 credits from the following courses:

ISLA 505 (3) Islam: Origin and Early Developments

ISLA 506 (3) Islam: Later Developments

ISLA 531D1 (3) Survey Development of Islamic Thought

ISLA 531D2 (3) Survey Development of Islamic Thought

Social Science

6 - 9 credits to be selected from:

POLI 340 (3) Developing Areas/Middle East

POLI 341 (3) Foreign Policy: The Middle East

POLI 347 (3) Arab-Israeli Conflict, Crisis, Peace

POLI 437 (3) Politics in Israel

or ANTH 340 (3) Middle Eastern Society and Culture

Independent Research/Honours Seminar

3 credits selected from:

MEST 495 (3) Middle East Studies: Research Seminar

MEST 496 (3) Independent Reading and Research

Joint Honours students must maintain a program GPA of 3.30 in their Middle East Studies courses. According to Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00.

COURSES

For the most up-to-date list of eligible courses, see

www.mcgill.ca/mes.

Students wishing to take upper-level courses in Anthropology and Political Science are expected to take the necessary prerequisites.

Languages*Arabic (Islamic Studies)*

ISLA 521D1 (4.5) Introductory Arabic

ISLA 521D2 (4.5) Introductory Arabic

ISLA 522D1 (3) Lower Intermediate Arabic

ISLA 522D2 (3) Lower Intermediate Arabic

ISLA 523D1 (3) Higher Intermediate Arabic

ISLA 523D2 (3) Higher Intermediate Arabic

Hebrew (Jewish Studies)

JWST 200 (12) Hebrew Language (Intensive)

JWST 220D1 (3) Introductory Hebrew

JWST 220D2 (3) Introductory Hebrew

JWST 320D1 (3) Intermediate Hebrew

JWST 320D2 (3) Intermediate Hebrew

JWST 340D1 (3) Advanced Hebrew

JWST 340D2 (3) Advanced Hebrew

JWST 367 (3) Studies in Hebrew Language and Literature

JWST 368 (3) Studies in Hebrew Language and Literature

JWST369 (3) Studies in Hebrew Language and Literature

JWST 370 (3) Studies in Hebrew Language and Literature

JWST 411 (3) Topics: Modern Hebrew Literature 1881-1948

JWST 412 (3) Topics: Modern Hebrew Literature 2

JWST 438 (3) Topics in Hebrew Literature 1

JWST 439 (3) Topics in Hebrew Literature 2

Persian (Islamic Studies)

ISLA 541D1 (3) Introductory Persian

ISLA 541D2 (3) Introductory Persian

ISLA 542D1 (3) Lower Intermediate Persian

ISLA 542D2 (3) Lower Intermediate Persian

ISLA 643D1 (3) Upper Intermediate Persian

ISLA 643D2 (3) Upper Intermediate Persian

Turkish (Islamic Studies)

ISLA 532D1 (3) Introductory Turkish

ISLA 532D2 (3) Introductory Turkish

ISLA 533D1 (3) Lower Intermediate Turkish

ISLA 533D2 (3) Lower Intermediate Turkish

ISLA 633D1 (3) Higher Intermediate Turkish

ISLA 633D2 (3) Higher Intermediate Turkish

History*Islamic Studies (*Core Course)*

ISLA 350* (3) From Tribe to Dynasty

ISLA 410* (3) History: Middle-East 1798-1918

ISLA 411* (3) History of the Middle East 1918-1945

ISLA 510D1* (3) History: Islamic Civilization - Classical

ISLA 510D2* (3) History: Islamic Civilization - Classical

ISLA 511D1* (3) History: Islamic Civilization - Mediaeval Era

ISLA 511D2* (3) History: Islamic Civilization - Mediaeval Era

(500-level courses can only be taken in U2 or U3)

History

HIST 327 (3) Jews in the Orbit of Islam

Jewish Studies

JWST 323 (3) The Israeli Novel

JWST 366 (3) History of Zionism

Religion/Philosophy*Islamic Studies* (*Core Course)

- ISLA 380* (3) Islamic Philosophy and Theology
 ISLA 505* (3) Islam: Origin and Early Developments
 ISLA 506* (3) Islam: Later Developments
 ISLA 531D1* (3) Survey Development of Islamic Thought
 ISLA 531D2* (3) Survey Development of Islamic Thought
 (500-level courses can only be taken in U2 or U3)

Jewish Studies

- JWST 562 (3) Medieval Islamic and Jewish Philosophy

Philosophy

- PHIL 356 (3) Early Medieval Philosophy

Philosophy and Western Religions

- PHWR 300 (3) Philosophy & Western Religions 1
 PHWR 301 (3) Philosophy & Western Religions 2

Religious Studies

- RELG 204** (3) Judaism, Christianity and Islam
 RELG 256** (3) Women in Judaism and Islam

**RELG 204 and RELG 256 can only be taken for program credit prior to any Core courses.

Social Sciences*Anthropology*

- ANTH 340 (3) Middle Eastern Society and Culture

Islamic Studies

- ISLA 385 (3) Poetics & Politics in Arabic Literature

Political Science

- POLI 340 (3) Developing Areas/Middle East
 POLI 341 (3) Foreign Policy: The Middle East
 POLI 347 (3) Arab-Israel Conflict, Crisis, Peace
 POLI 437 (3) Politics in Israel

Middle East Studies

- MEST 375 (3) Topics in Middle East Studies
 MEST 475 (3) Problems in Middle East Studies
 MEST 495 (3) Middle East Studies: Research Seminar
 MEST 496 (3) Independent Reading and Research

5.12.38 Music (MUAR)

Strathcona Music Building
 555 Sherbrooke Street West
 Montreal, QC H3A 1E3

Telephone: (514) 398-4535

Fax: (514) 398-8061

Website: www.mcgill.ca/music

Department of Music Research Chair — Peter Schubert

Department of Performance Chair — André Roy

Adviser (B.A./B.Sc. Music programs) — B. Minorgan
 (514) 398-4535, ext. 6333

Music Programs in Arts

Available within the Faculty of Arts are a Major and a Minor Concentration in Music, and a Minor Concentration in Music Technology.

Admission to the B.A. program is granted according to criteria established by the Faculty of Arts.

Students in the B.A. Freshman Program who are considering a Music Concentration should see the Freshman Adviser in the Arts Student Affairs Office in Dawson Hall. They should also see the Music Adviser in order to ensure that they include any necessary prerequisite Music courses (based on the results of placement examinations) in their first-year selection.

Students interested in a more intensive music program, including practical instruction on an instrument or in voice and additional ensemble participation, should consider the B.Mus. degree or the diplomas offered by the Schulich School of Music; “**Degrees and Diplomas Offered**” in section 10.3.1.

MINOR CONCENTRATION IN MUSIC (18 credits) (Expandable)**Required Courses** (6 credits)

- MUTH 210 (3) Tonal Theory and Analysis 1*
 MUTH 211 (3) Tonal Theory and Analysis 2*

* Students must take a diagnostic placement examination before registering for this course. If the appropriate level is not achieved on the examination, students will be required to register for Melody and Counterpoint MUTH 110 (3 credits) and/or Elementary Harmony and Analysis MUTH 111 (3 credits). These courses may *not* be counted toward the 18-credit Music Minor Concentration.

Complementary Courses (12 credits)

9 credits in Music History, Literature or Performance Practice, from any courses with an MUHL prefix at the 300 level – see list of courses in the Schulich School of Music section; an historical performance practice course with an MUPP prefix may be taken with Departmental permission.

3 credits in Music Theory, any course with an MUTH prefix at the 300-level.

MINOR CONCENTRATION IN MUSIC TECHNOLOGY

(18 credits) (Non-Expandable)

[Program registration cannot be done via Minerva.]

Enrolment in the Minor in Music Technology program is highly restricted. Application forms will be available from the Department of Music Research Office of the Schulich School of Music (Room E235, Strathcona Music Building, 555 Sherbrooke Street West) from February 1, 2008 and must be completed and returned to that office by May 15, 2008. No late applications will be accepted and no students will be admitted to the Minor in January.

Students will be selected on the basis of their previous background or experience in music technology and/or sound recording, their computer programming skills, their expressed interest in the program, and their Cumulative Grade Point Average. Successful applicants will be notified June 1, 2008.

Required Courses (18 credits)

- MUHL 342 (3) History of Electroacoustic Music
 MUMT 202 (3) Fundamentals of New Media
 MUMT 203 (3) Introduction to Digital Audio
 MUMT 301 (3) Music and the Internet
 MUMT 302 (3) New Media Production 1
 MUMT 303 (3) New Media Production 2

With permission of the Chair, Department of Music Research, students with advanced programming skills may substitute more advanced MUMT courses in Music Technology for MUMT 301, MUMT 302, and/or MUMT 303.

MAJOR CONCENTRATION IN MUSIC (36 credits)

This Concentration studies music as a vital art form in contemporary society and in the history of Western civilization. Its central purpose emphasizes music within broader intellectual and cultural contexts; the Concentration's premise is that, as a product of culture, music must be considered in relation to the other humanistic disciplines. This degree could be an excellent preparation for graduate work in music (musicology, music theory, music librarianship, music journalism, arts administration) or for professional studies in other fields.

Students in the Major Concentration MUST consult the Adviser PRIOR to registration each year. Questions regarding the requirements of the B.A. Major Concentration and especially elective courses should be addressed to the Arts Student Affairs Office in Dawson Hall.

Required Courses (13 credits)

- MUTH 210 (3) Tonal Theory and Analysis 1*
 MUTH 211 (3) Tonal Theory and Analysis 2*
 MUSP 229 (2) Musicianship 3**
 MUSP 231 (2) Musicianship 4**
 MUHL 570 (3) Research Methods in Music

* Students must take a diagnostic placement examination before registering for this course. If the appropriate level is not achieved on the examination, students will be required to register for Melody and Counterpoint MUTH 110 (3 credits) and/or Elementary Harmony and Analysis MUTH 111 (3 credits). These courses may *not* be counted toward the 36-credit Music Major Concentration.

** Students must take a diagnostic placement examination in both Musicianship and Keyboard Proficiency before registering for this course. If the appropriate level is not achieved on these examinations, students will be required to register for Musicianship 1 MUSP 129 (2 credits) and/or Musicianship 2 MUSP 131 (2 credits) and/or Keyboard Proficiency MUSP 170 (1 credit) and/or Keyboard Lab 1 MUSP 171 (1 credit) and/or Keyboard Lab 2 MUSP 172 (1 credit). These courses may *not* be counted toward the 36-credit Music Major Concentration.

Complementary Courses (23 credits)

9 credits in Music History, Literature or Performance Practice, from any courses with an MUHL prefix at the 300 level; an historical performance practice course with an MUPP prefix may be taken with Departmental permission.

6 credits in Music Theory from any course with an MUTH prefix at the 300 level; see list of courses in the Schulich School of Music section.

8 credits selected from:

- MUTH 301 (3) Modal Counterpoint 1
- MUTH 302 (3) Modal Counterpoint 2
- MUTH 303 (3) Tonal Counterpoint 1
- MUTH 304 (3) Tonal Counterpoint 2
- MUTH 310 (3) Mid and Late 19th-Century Theory and Analysis
- or MUTH 327 (4) 19th-Century Analysis
- MUTH 311 (3) 20th-Century Theory and Analysis
- or MUTH 427D1 (3) 20th-Century Analysis
- and MUTH 427D2 (3) 20th-Century Analysis
- MUTH 522D1 (3) Advanced Counterpoint
- MUTH 522D2 (3) Advanced Counterpoint
- MUTH 523D1 (3) Advanced Harmony
- MUTH 523D2 (3) Advanced Harmony
- MUTH 528 (3) Schenkerian Techniques
- MUCO 230D1 (2) The Art of Composition
- MUCO 230D2 (2) The Art of Composition
- MUCO 260 (2) Instruments of the Orchestra
- MUCO 261 (2) Elementary Orchestration
- MUHL 220 (3) Women in Music
- MUHL 3xx Music History complementary (maximum of 3 credits)

MUSIC ENSEMBLES

Arts students may, with the permission of the instructor and the Associate Dean (Student Affairs) of the Faculty of Arts, participate in one of the following ensembles in a given year. Auditions are held starting the week prior to the beginning of classes in September and continuing during that first week and, in the case of the McGill Symphony Orchestra (MUEN 597), in early January for the Winter term. The schedule and requirements for these auditions are available at the end of June from the Department of Performance office, (514) 398-4542. Normally both the Fall and Winter sections of an ensemble are taken in the same academic year.

- MUEN 496 (4) Opera Studio
- MUEN 560 (1) Chamber Music Ensemble
- MUEN 589 (1) Woodwind Ensembles
- MUEN 590 (2) McGill Winds
- MUEN 591 (1) Brass Ensembles
- MUEN 593 (2) Choral Ensembles
- MUEN 594 (2) Contemporary Music Ensemble
- MUEN 595 (2) Jazz Ensembles
- MUEN 597 (2) Orchestral Ensembles
- MUEN 598 (1) Percussion Ensembles

COURSES OFFERED BY THE SCHULICH SCHOOL OF MUSIC AS ELECTIVES for students in the Faculties of Arts, Science, and Education

The courses referred to below are also open to students from other faculties. Other Music courses may be taken by qualified students from other faculties providing they obtain permission from the relevant department in the Schulich School of Music and from the Associate Dean of their own faculty.

All courses with the prefix MUAR. These are considered to be courses taught in the Faculty of Arts, but they cannot be credited toward the B.A. or B.Sc. Music programs.

The Music History and Literature (MUHL), Music Theory and Analysis (MUTH), and Music Technology (MUMT) courses listed below are considered by the Faculty of Arts as courses taught in the Faculty; **however**, the Faculty of Science considers them to be courses taught outside of the Faculty.

These courses are intended for students who have at least high school matriculation music or the equivalent. Students who do not have the formal music prerequisites require the permission of the Chair of the Department of Music Research to register for any of these courses.

MUHL (Music History and Literature)

- MUHL 184 (3) History Survey - Medieval, Renaissance, Baroque
- MUHL 185 (3) History Survey - Classical, Romantic, 20th-C.
- MUHL 220 (3) Women in Music

MUTH (Music Theory and Analysis)

Students not in the B.A. or B.Sc. Music programs are not required to take the corequisites for the following MUTH courses.

However, students intending later to enter either the B.A. Major Concentration or the B.Mus. program would then be required to sit placement tests in Musicianship and Keyboard Proficiency and may be required to take the corequisite courses.

- MUTH 110 (3) Melody and Counterpoint
- MUTH 111 (3) Elementary Harmony and Analysis
- MUTH 210 (3) Tonal Theory and Analysis 1
- MUTH 211 (3) Tonal Theory and Analysis 2

MUMT (Music Technology)

- MUMT 202 (3) Fundamentals of New Media
- MUMT 203 (3) Introduction to Digital Audio
- MUMT 301 (3) Music and the Internet
- MUMT 302 (3) New Media Production 1
- MUMT 303 (3) New Media Production 2

Adviser: Andrew Staples

Program Director — Professor T. Velk (*Economics*)

Program Committee Chair — Professor H. Waller (*Political Science*)

Program Committee:

Charles Boberg (*Linguistics*), James Delbourgo (*History*), Catherine Desbarats (*History*), Allan Hepburn (*English*), Leonard Moore (*History*), Gil Troy (*History*)

The purpose of North American Studies is to provide a comprehensive view of civilization on this continent. Proceeding from the premise that similarities between North American peoples are greater than their differences, the first year in the program requires the traditional mix of history and literature, with the addition of political science, economics and sociology courses to underline differences that may be more substantial.

The introductory complementary credits in the first year are a prelude to a broader list of courses in Economics, Political Science/Sociology, History, and Arts and Letters, where students are allowed greater freedom to direct their own study according to their personal needs and inclinations. Students must ENSURE they have fulfilled the 200-level prerequisites before registering for the advanced-level courses listed below.

Independent study, internships and university exchange arrangements can be worked into a student's program (a certain amount of flexibility is allowed here, but in close conjunction with the program as outlined below).

Each Major Concentration student in third year must enrol in the required North American Studies Seminar offered by the Department of English.

MINOR CONCENTRATION IN NORTH AMERICAN STUDIES

(18 credits) (Expandable)

Complementary Courses (18 credits)

3 credits in two of the three introductory level categories listed for the Major Concentration.

Note: Students who take POLI 325D1/D2 at the intermediate level may count 3 credits towards the introductory level - Canadian and American Political Science/Economics/Sociology.

12 credits from courses at the intermediate and senior levels, 3 credits from each of the following four categories: Canadian and American Economics, Canadian and American Political Science/Sociology, Canadian and American History, and Canadian and American Arts and Letters. (See the categories listed for the Major Concentration.)

Students should be aware that some courses listed may have prerequisites at the introductory level, which may have to be taken as electives. No more than 12 credits can be taken outside the Faculties of Arts and Science.

Note: Students in the Minor Concentration are NOT permitted to take courses from the Miscellaneous grouping.

MAJOR CONCENTRATION IN NORTH AMERICAN STUDIES

(36 credits)

Required Course (3 credits)

ENGL 529D1 (1.5) Interdisciplinary Seminar - North American Studies

ENGL 529D2 (1.5) Interdisciplinary Seminar - North American Studies

Complementary Courses (33 credits)

9 credits at the introductory level, normally taken in the first year of the program to be chosen as follows:

3 credits in Canadian and American History, selected from:

HIST 202 (3) Survey: Canada to 1867

HIST 203 (3) Survey: Canada since 1867

HIST 211 (3) American History to 1865

HIST 221 (3) United States since 1865

3 credits in Canadian and American Literature, selected from:

ENGL 225 (3) American Literature 1

ENGL 226 (3) American Literature 2

ENGL 228 (3) Canadian Literature 1

ENGL 229 (3) Canadian Literature 2

3 credits in Canadian and American Political Science, Economics/Sociology selected from:

CANS 200 (3) Introduction to the Study of Canada

ECON 208 (3) Microeconomic Analysis and Applications

ECON 209 (3) Macroeconomic Analysis and Applications

ECON 219 (3) Current Economic Problems: Topics

ECON 223 (3) Political Economy of Trade Policy

POLI 221 (3) Government of Canada

POLI 222 (3) Political Process and Behaviour in Canada

POLI 325D1 (3) Government and Politics: United States

POLI 325D2 (3) Government and Politics: United States

SOCI 230 (3) Sociology of Ethnic Relations

Note: Students who take POLI 325D1/D2 at the intermediate level may count 3 credits towards the introductory level - Canadian and American Political Science/Economics/Sociology

24 credits from courses at intermediate and senior levels, 6 from each of the following groups: Canadian and American Economics, Canadian and American Political Science, Canadian and American History, Canadian and American Arts and Letters.

A maximum of 3 credits may be selected from the Miscellaneous grouping. Students must receive prior approval from the Program Adviser.

Students should be aware that some courses listed below may have prerequisites at the introductory level, which may have to be taken as electives. No more than 12 credits can be taken outside of the Faculties of Arts and Science.

Canadian and American Economics

BUSA 364 (3) Business Law 1

BUSA 368 (3) Business Law 2

ECON 302D1 (3) Money and Banking

ECON 302D2 (3) Money and Banking

Chair — R. Philip Buckley

Emeritus Professors

Alastair McKinnon; M.A.(Tor.), Ph.D.(Edin.), B.D.(McG.),
 F.R.S.C., R.D., D.H.L.(St. Olaf) (*William C. Macdonald*
Emeritus Professor of Moral Philosophy)

David Norton; M.A.(Claremont), Ph.D.(Calif.), F.R.S.C.
 Charles Taylor; M.A., D.Phil.(Oxf.), F.R.S.C.

Professors

Mario A. Bunge; Ph.D.(LaPlata), F.R.S.C. (*John Frothingham*
Professor of Logic and Metaphysics)

George Di Giovanni; B.A., M.A., S.T.B., Ph.D.(Tor.)

Storrs McCall; B.A.(McG.), B.Phil., D.Phil.(Oxf.)

Calvin Normore; B.A.(McG.), M.A., Ph.D.(Tor.)

Associate Professors

R. Philip Buckley; Ph.D.(Louvain)

Emily Carson; M.A.(McG.), Ph.D.(Harv.)

David Davies; B.A.(Oxf.), M.A.(Manit.) Ph.D.(W. Ont.)

Marguerite Deslauriers; B.A.(McG.), M.A., Ph.D.(Tor.)

Carlos Fraenkel; B.A., M.A., Ph.D.(Free Univ., Berlin) (*joint*
appoint. with Jewish Studies)

Ian Gold; B.A., M.A.(McG.), Ph.D.(Prin.) (*joint appoint. with*
Psychiatry)

Michael Hallett; B.Sc., Ph.D.(Lond.)

Alison Laywine; B.A.(Ott.), M.A.(Montr.), Ph.D.(Chic.)

Eric Lewis; B.A.(C'nell), Ph.D.(Ill. at Chic.)

James McGilvray; B.A.(Carleton College), Ph.D.(Yale)

Stephen Menn; M.A., Ph.D.(Chic.), M.A., Ph.D.(Johns H.)

Gregory Mikkelson; M.S., Ph.D.(Chic.) (*joint appoint. with McGill*
School of Environment)

Natalie Stoljar; B.A., LLB (Syd.), Ph.D.(Prin.) (*joint appoint. with*
Social Studies of Medicine)

Sarah Stroud; A.B.(Harv.), Ph.D.(Prin.)

Assistant Professors

Alia Al-Saji; M.A.(Louvain), Ph.D.(Emory)

Gaëlle Fiasse; B.A., M.A., Ph.D.(Louvain) (*joint appoint. with*
Faculty of Religious Studies)

Iwao Hirose B.A., M.A.(Waseda), Ph.D.(St. And.) (*joint appoint.*
with McGill School of Environment)

Andrew Reisner; B.A.(Middlebury), M.A.(Brist.), D.Phil.(Oxf.)

Hasana Sharp; A.B.(Occidental), M.A.(Binghamton),
 Ph.D.(Penn)

Faculty Lecturers

William Roberts; Ph.D.(Penn. St.) (*joint appoint. with Political*
Science)

Dirk Schlimm; Ph.D.(Carn. Mell) (*joint appoint. with Computer*
Science)

Adjunct Professor

Steven Davis; (Car.)

Susan-Judith Hoffmann; (Dawson)

Iain Macdonald; (Montr.)

Auxiliary Professor

Konstantinos Arvanitakis; B.Sc., M.A., M.D., C.M.(McG.), D.Psy., C.I.P.C., C.C.M.Q., F.R.C.P., R.S.M.A.(U.K.) (*Can. Institute of Psychoanalysis*)

Associate Members

Brendan Gillon (*Linguistics*)

Lawrence Kaplan (*Jewish Studies*)

Robert Wisnovsky (*Islamic Studies*)

Broadly speaking, the principal aim of philosophy is to increase our understanding of ourselves, the world, and our place in it. Philosophy differs from the empirical and social sciences in important respects. One way to characterise philosophy is by the sorts of questions it seeks to answer, and the ways in which it seeks to answer them. Different areas of philosophy are characterised by the questions they address. For example, Epistemology inquires into the nature of knowledge, Metaphysics is concerned with the fundamental nature of the world and of the types of things that it contains, Ethics investigates the nature of moral judgment and moral reasoning, while Political Philosophy examines such matters as justice, freedom, rights, democracy, and power, and Logic is broadly the analysis of the structure of correct reasoning. In addition, there are the various "Philosophies of...", e.g., Philosophy of Science, Philosophy of Language, Philosophy of Mind, Philosophy of Religion.

Some of the courses in the Department are explicitly devoted to these specific areas of philosophy, each exploring one or several ways of construing and answering the questions it poses. Other courses explore some period or individual figure in the history of philosophy, approaching philosophical questions through the work of past thinkers, and often exploring connections between the different areas of philosophy.

The discipline of Philosophy, as a particular way of thinking, emphasizes clarity in expression, both written and oral, and rigour in argument. Philosophical questions are intriguing and hard, and so philosophical method stresses thoroughness and intellectual generosity – the willingness and ability to grasp another's arguments and respond to them. The Department requires of all (and only) Honours and Joint Honours students that they take a special 3-credit course (PHIL 301), the principal aim of which is to equip students with the distinctively philosophical skills required for advanced work in the field.

The B.A. in Philosophy is not a professional qualification. It prepares students for graduate work in philosophy and for study in other disciplines, e.g., Law. As the interdisciplinary discipline par excellence, philosophy also maintains and encourages ties with other fields, so many students will find that certain classes in philosophy are directly relevant to their major area of study. The department has a strong commitment to providing an intensive yet broad-based philosophical education. The research interests of members of the Department are wide-ranging.

See also the separate listing for **History and Philosophy of Science (HPSC)**, section 5.12.27.

Note: Philosophy students may use either PHIL 200 or PHIL 201 towards their program requirements, but not both. Students may, however, take both for credit (using the second as an elective), as the content in PHIL 201 does not overlap with PHIL 200.

MINOR CONCENTRATION IN PHILOSOPHY (18 credits)**Complementary Courses (18 credits)**

15 credits from Groups A - E, with one course from at least four of the five groups.

Group A

- PHIL 230 (3) Introduction to Moral Philosophy 1
- PHIL 237 (3) Contemporary Moral Issues
- PHIL 242 (3) Introduction to Feminist Theory
- PHIL 334 (3) Ethics 1
- PHIL 343 (3) Biomedical Ethics
- PHIL 348 (3) Philosophy of Law 1
- PHIL 434 (3) Ethics 2
- PHIL 442 (3) Topics in Feminist Theory

Group B

- PHIL 210 (3) Introduction to Deductive Logic 1
- PHIL 220 (3) Introduction to History and Philosophy of Science 1
- PHIL 221 (3) Introduction to History and Philosophy of Science 2
- PHIL 304 (3) Chomsky
- PHIL 306 (3) Philosophy of Mind
- PHIL 310 (3) Intermediate Logic
- PHIL 341 (3) Philosophy of Science 1
- PHIL 370 (3) Problems in Analytic Philosophy
- PHIL 410 (3) Advanced Topics in Logic 1
- PHIL 411 (3) Topics in the Philosophy of Logic and Mathematics
- PHIL 415 (3) Philosophy of Language
- PHIL 419 (3) Epistemology
- PHIL 421 (3) Metaphysics
- PHIL 441 (3) Philosophy of Science 2
- PHIL 470 (3) Topics in Contemporary Analytic Philosophy

Group C

- PHIL 375 (3) Existentialism
- PHIL 474 (3) Phenomenology
- PHIL 475 (3) Topics in Contemporary European Philosophy

Group D

- PHIL 344 (3) Medieval and Renaissance Political Theory
- PHIL 345 (3) Greek Political Theory
- PHIL 350 (3) History and Philosophy of Ancient Science
- PHIL 353 (3) The Presocratic Philosophers
- PHIL 354 (3) Plato
- PHIL 355 (3) Aristotle
- PHIL 356 (3) Early Medieval Philosophy
- PHIL 357 (3) Late Medieval and Renaissance Philosophy
- PHIL 452 (3) Later Greek Philosophy
- PHIL 453 (3) Ancient Metaphysics and Natural Philosophy
- PHIL 454 (3) Ancient Moral Theory

Group E

- PHIL 360 (3) 17th Century Philosophy
- PHIL 361 (3) 18th Century Philosophy
- PHIL 366 (3) 18th and Early 19th Century German Philosophy
- PHIL 367 (3) 19th Century Philosophy
- PHIL 444 (3) Early Modern Political Theory
- PHIL 445 (3) 19th Century Political Theory

3 additional credits from the lists above or from other Philosophy courses.

In total, no more than 9 credits may be at the 200-level, and at least 3 credits must be at the 400 or 500 level.

MAJOR CONCENTRATION IN PHILOSOPHY (36 credits)**Required Course (3 credits)**

- PHIL 210 (3) Introduction to Deductive Logic 1

Complementary Courses (33 credits)

33 credits, of which no more than 9 may be at the 200-level, and at least 9 must be at the 400 or 500 level, distributed as follows:

6 credits, one course from *each* of Groups A and B:

Group A

- PHIL 304 (3) Chomsky
- PHIL 306 (3) Philosophy of Mind
- PHIL 310 (3) Intermediate Logic
- PHIL 341 (3) Philosophy of Science 1
- PHIL 370 (3) Problems in Analytic Philosophy
- PHIL 410 (3) Advanced Topics in Logic 1
- PHIL 411 (3) Topics in Philosophy of Logic and Mathematics
- PHIL 415 (3) Philosophy of Language
- PHIL 419 (3) Epistemology
- PHIL 421 (3) Metaphysics
- PHIL 441 (3) Philosophy of Science 2
- PHIL 470 (3) Topics in Contemporary Analytic Philosophy

Group B

- PHIL 375 (3) Existentialism
- PHIL 474 (3) Phenomenology
- PHIL 475 (3) Topics in Contemporary European Philosophy

6 credits, two courses from Group C *OR* two from Group D:

Group C

- PHIL 344 (3) Medieval and Renaissance Political Theory
- PHIL 345 (3) Greek Political Theory
- PHIL 350 (3) History and Philosophy of Ancient Science
- PHIL 353 (3) The Presocratic Philosophers
- PHIL 354 (3) Plato
- PHIL 355 (3) Aristotle
- PHIL 356 (3) Early Medieval Philosophy
- PHIL 357 (3) Late Medieval and Renaissance Philosophy
- PHIL 452 (3) Later Greek Philosophy
- PHIL 453 (3) Ancient Metaphysics and Natural Philosophy
- PHIL 454 (3) Ancient Moral Theory

Group D

- PHIL 360 (3) 17th Century Philosophy
- PHIL 361 (3) 18th Century Philosophy
- PHIL 366 (3) 18th and Early 19th Century German Philosophy
- PHIL 367 (3) 19th Century Philosophy
- PHIL 444 (3) Early Modern Political Theory
- PHIL 445 (3) 19th Century Political Theory

6 credits, one course from *each* of Groups E and F:

Group E

- PHIL 230 (3) Introduction to Moral Philosophy 1
- PHIL 237 (3) Contemporary Moral Issues
- PHIL 242 (3) Introduction to Feminist Theory

Group F

- PHIL 334 (3) Ethics 1
- PHIL 343 (3) Biomedical Ethics
- PHIL 348 (3) Philosophy of Law 1
- PHIL 434 (3) Ethics 2
- PHIL 442 (3) Topics in Feminist Theory

15 additional credits from the lists above or from other Philosophy courses. Only one of PHIL 200 and PHIL 201 can be included in the program.

HONOURS IN PHILOSOPHY (60 credits)

Required Course (15 credits)

- PHIL 210 (3) Introduction to Deductive Logic 1
- PHIL 301 (3) Philosophical Fundamentals
- PHIL 334 (3) Ethics 1
- PHIL 499 (6) Tutorial 06
(Honours tutorial with thesis)

Complementary Courses (45 credits)

45 credits distributed as follows:

3 credits from the following:

- PHIL 306 (3) Philosophy of Mind
- PHIL 310 (3) Intermediate Logic
- PHIL 370 (3) Problems in Analytic Philosophy
- PHIL 410 (3) Advanced Topics in Logic 1
- PHIL 411 (3) Topics in Philosophy of Logic and Mathematics
- PHIL 415 (3) Philosophy of Language
- PHIL 419 (3) Epistemology
- PHIL 421 (3) Metaphysics
- PHIL 470 (3) Topics in Contemporary Analytic Philosophy

3 credits from the following:

- PHIL 230 (3) Introduction to Moral Philosophy 1
- PHIL 237 (3) Contemporary Moral Issues
- PHIL 240 (3) Political Philosophy 1
- PHIL 241 (3) Political Philosophy 2
- PHIL 242 (3) Introduction to Feminist Theory

6 credits from the following:

- PHIL 345 (3) Greek Political Theory
- PHIL 350 (3) History and Philosophy of Ancient Science

- PHIL 353 (3) The Presocratic Philosophers
- PHIL 354 (3) Plato
- PHIL 355 (3) Aristotle
- PHIL 452 (3) Later Greek Philosophy
- PHIL 453 (3) Ancient Metaphysics and Natural Philosophy
- PHIL 454 (3) Ancient Moral Theory

6 credits from the following:

- PHIL 360 (3) 17th Century Philosophy
- PHIL 361 (3) 18th Century Philosophy
- PHIL 366 (3) 18th and Early 19th Century German Philosophy
- PHIL 367 (3) 19th Century Philosophy
- PHIL 444 (3) Early Modern Political Theory
- PHIL 445 (3) 19th Century Political Theory

3 credits from the following:

- PHIL 375 (3) Existentialism
- PHIL 474 (3) Phenomenology
- PHIL 475 (3) Topics in Contemporary European Philosophy

24 additional credits in Philosophy with 12 credits at the 400-500 level (not including the Honours tutorial PHIL 499), at least 3 credits of which must be at the 500-level.

According to Faculty regulations, Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

JOINT HONOURS – PHILOSOPHY COMPONENT (36 credits)

Required Course (9 credits)

- PHIL 210 (3) Introduction to Deductive Logic 1
- PHIL 301 (3) Philosophical Fundamentals
- PHIL 334 (3) Ethics 1

Complementary Courses (27 credits)

27 credits distributed as follows:

3 credits from the following:

- PHIL 306 (3) Philosophy of Mind
- PHIL 310 (3) Intermediate Logic
- PHIL 370 (3) Problems in Analytic Philosophy
- PHIL 410 (3) Advanced Topics in Logic 1
- PHIL 411 (3) Topics in Philosophy of Logic and Mathematics
- PHIL 415 (3) Philosophy of Language
- PHIL 419 (3) Epistemology
- PHIL 421 (3) Metaphysics
- PHIL 470 (3) Topics in Contemporary Analytic Philosophy

3 credits from the following:

- PHIL 230 (3) Introduction to Moral Philosophy 1
- PHIL 237 (3) Contemporary Moral Issues
- PHIL 240 (3) Political Philosophy 1
- PHIL 241 (3) Political Philosophy 2
- PHIL 242 (3) Introduction to Feminist Theory

6 credits from Group A or 6 credits from Group B:

Group A

- PHIL 345 (3) Greek Political Theory
- PHIL 350 (3) History and Philosophy of Ancient Science
- PHIL 353 (3) The Presocratic Philosophers
- PHIL 354 (3) Plato
- PHIL 355 (3) Aristotle
- PHIL 452 (3) Later Greek Philosophy
- PHIL 453 (3) Ancient Metaphysics and Natural Philosophy
- PHIL 454 (3) Ancient Moral Theory

Group B

- PHIL 360 (3) 17th Century Philosophy
- PHIL 361 (3) 18th Century Philosophy
- PHIL 366 (3) 18th and Early 19th Century German Philosophy
- PHIL 367 (3) 19th Century Philosophy
- PHIL 444 (3) Early Modern Political Theory
- PHIL 445 (3) 19th Century Political Theory

3 credits from the following:

- PHIL 375 (3) Existentialism
 PHIL 474 (3) Phenomenology
 PHIL 475 (3) Topics in Contemporary European Philosophy

9 credits at the 400-500 level (not including the Honours tutorial), at least 3 credits of which must be at the 500-level.

3 credits of Honours tutorial with thesis, which can take either of two forms: a 6-credit interdisciplinary thesis, or a 3-credit thesis in philosophy i.e. PHIL 498 below.

PHIL 498 (3) Tutorial 05

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours Program components from any two Arts disciplines; see section 5.11.4 “Joint Honours Programs” for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

According to Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

ADMISSION TO HONOURS AND JOINT HONOURS

Students must attain a 3.00 CGPA and have a 3.00 GPA in Philosophy courses.

All Honours and Joint Honours students are bound by the following constraints:

- students may use a maximum of 15 credits from 200-level courses towards satisfaction of their program requirements in Philosophy;
- students cannot count both PHIL 200 and PHIL 201 towards satisfaction of their program requirements in Philosophy.

Minor in Cognitive Science

Students following Major or Honours programs in Philosophy with an interest in cognition may consider the Minor in Cognitive Science, described in the Faculty of Science section.

Chair — Carlos Fraenkel (*Philosophy and Jewish Studies*)

Program Committee

E. Caplan (*Jewish Studies*), M. Deslauriers (*Philosophy*), D. Farrow (*Religious Studies*), I. Henderson (*Religious Studies*), T. Kirby (*Religious Studies*), B. Levy (*Religious Studies*), S. Menn (*Philosophy*), R. Myles (*English and French Language Centre*), G. Oegema (*Religious Studies*), R. Wisnovsky (*Islamic Studies*)

This interdisciplinary program, in which the Department of Philosophy, the Institute of Islamic Studies, the Department of Jewish Studies and the Faculty of Religious Studies collaborate, was designed for students who wish to study the encounter between philosophy and the three Abrahamic religions (Judaism, Christianity, and Islam), an encounter which shaped the basic patterns of Western and Muslim intellectual history. The program covers the period from Antiquity to the Enlightenment during which philosophy and religious thought were inseparably interwoven, making visible the wide range of links between the intellectual worlds of these three religious traditions. Although the interaction between philosophy and religious thought continued in a variety of forms also after the Enlightenment's critique of religion, this critique transformed their relationship in a fundamental way, and for this reason will be used to delimit the chronological scope of the program. During the peri-

od in question, the impact of Greek philosophy on theologians, philosophers, and mystics within Judaism, Christianity, and Islam determined often in a decisive way – both positively and negatively – the interpretation of their Holy Scriptures, and their understanding of crucial religious concepts such as God, creation, revelation, providence, divine Law, and the origin of evil. The interdisciplinary approach takes into account that the history of the encounter in question crossed the linguistic, cultural and religious boundaries which define the areas of the traditional academic disciplines. This approach permits the student to pursue the development of a philosophical or religious concept from its origin through the different historical and geographical contexts in which it was received by Jewish, Christian and Muslim thinkers.

In order to achieve its goal the program focuses on (i) the acquisition of relevant languages (Greek, Latin, Arabic, Hebrew), (ii) the history of Ancient, Medieval and Early Modern Philosophy, (iii) the Holy Scriptures and the history of Judaism, Christianity, and Islam, (iv) the reception and transformation of philosophical ideas in Jewish, Christian, and Islamic thought, and (v) the multiple points of contact among the different traditions of religious thought.

The program provides excellent preparation for graduate studies in Philosophy (with the appropriate choice of electives, or in combination with a Minor in Philosophy), in Religious Studies and, with the relevant language component, in Islamic Studies and Jewish Studies as well. Students wishing to pursue graduate studies in a particular discipline should consult about specific requirements with a faculty member of the corresponding department at McGill.

MINOR CONCENTRATION IN PHILOSOPHY AND WESTERN RELIGIONS (18 credits)

Students will benefit most from the Minor if they combine it with programs in Philosophy, Islamic Studies, Jewish Studies, Religious Studies, or Classics. Students are also encouraged to complete a Minor Concentration in one of the languages relevant to the academic field.

Note: Not all courses listed below are offered every year, and some of the courses have limited enrolment.

Required Course (3 credits)

RELG 307 (3) Bible, Quran & Interpretations

Complementary Courses (15 credits)

Students must complete 6 credits in two of the following three categories: Philosophy and Western Religions; History of Philosophy; and Jewish, Christian and Islamic Thought.

3 - 6 credits*, Philosophy and Western Religions,

PHWR 300 (3) Philosophy & Western Religions 1

PHWR 301 (3) Philosophy & Western Religions 2

* Students are strongly encouraged to take both PHWR 300 and PHWR 301.

3 - 6 credits, History of Philosophy, at least one of:

PHIL 354 (3) Plato

PHIL 355 (3) Aristotle

The remaining credits, if any, to be chosen from:

CLAS 415 (3) Advanced Latin: Oratory

CLAS 426 (3) Advanced Greek: Philosophy

PHIL 356 (3) Early Medieval Philosophy

PHIL 357 (3) Late Medieval and Renaissance Philosophy

PHIL 360 (3) 17th Century Philosophy

PHIL 452 (3) Later Greek Philosophy

3 - 6 credits to be chosen from the PHWR Complementary Course List - Jewish, Christian, and Islamic Thought.

MAJOR CONCENTRATION IN PHILOSOPHY AND WESTERN RELIGIONS (36 credits)

The Major Concentration in Philosophy and Western Religions has an option without language requirement (Option A), and an option with language requirement (Option B). The latter was designed for students who wish to acquire the linguistic skills allowing them to

read and research source texts in the original languages. Students will benefit most from the Major Concentration if they combine it with a program in Philosophy, Islamic Studies, Jewish Studies, Religious Studies, or Classics. Students are also encouraged to complete a Minor Concentration in one of the languages relevant to the academic field.

Students are strongly encouraged to consult an adviser each year to devise a suitable course combination.

Note: Not all courses listed below are offered every year, and some of the courses have limited enrolment.

Required Course (3 credits)

RELG 307 (3) Bible, Quran & Interpretations

Complementary Courses (33 credits)

3 - 9 credits*, Philosophy and Western Religions,
 PHWR 300 (3) Philosophy & Western Religions 1
 PHWR 301 (3) Philosophy & Western Religions 2
 PHWR 500D1 (1.5) Interdisciplinary Seminar
 PHWR 500D2 (1.5) Interdisciplinary Seminar

* Students are strongly encouraged to take both PHWR 300 and PHWR 301.

24 - 30 credits taken in either Option A or Option B as follows:

Option A - Without Language Component

9 - 12 credits, History of Philosophy:

at least one of:

PHIL 354 (3) Plato
 PHIL 355 (3) Aristotle

at least one of:

PHIL 356 (3) Early Medieval Philosophy
 PHIL 357 (3) Late Medieval and Renaissance Philosophy
 PHIL 360 (3) 17th Century Philosophy

The remaining credits, if any, to be chosen from:

CLAS 415 (3) Advanced Latin: Oratory
 CLAS 426 (3) Advanced Greek: Philosophy
 PHIL 345 (3) Greek Political Theory
 PHIL 350 (3) History and Philosophy of Ancient Science
 PHIL 353 (3) The Presocratic Philosophers
 PHIL 452 (3) Later Greek Philosophy
 PHIL 453 (3) Ancient Metaphysics and Natural Philosophy
 PHIL 454 (3) Ancient Moral Theory
 PHIL 551 (3) Seminar: Ancient Philosophy 2
 PHIL 556 (3) Seminar: Medieval Philosophy
 PHIL 560 (3) Seminar: 17th Century Philosophy

3 - 6 credits to be chosen from the PHWR Complementary Course List - Scriptures and History of the Western Religious Traditions.

9 - 12 credits to be chosen from the PHWR Complementary Course List - Jewish, Christian, and Islamic Thought, with a maximum of 6 credits from any one of the three groups.

Option B - With Language Component

12 - 15 credits (two years: 12 credits, or in the case of Arabic, 15 credits) in one language (Greek, Latin, Arabic, or Hebrew), chosen from the PHWR Complementary Course List - Languages.

6 - 9 credits, History of Philosophy,

at least one of:

PHIL 354 (3) Plato
 PHIL 355 (3) Aristotle

at least one of:

PHIL 356 (3) Early Medieval Philosophy
 PHIL 357 (3) Late Medieval and Renaissance Philosophy
 PHIL 360 (3) 17th Century Philosophy

The remaining credits, if any, to be chosen from:

CLAS 415 (3) Advanced Latin: Oratory
 CLAS 426 (3) Advanced Greek: Philosophy
 PHIL 345 (3) Greek Political Theory
 PHIL 350 (3) History and Philosophy of Ancient Science
 PHIL 353 (3) The Presocratic Philosophers
 PHIL 452 (3) Later Greek Philosophy
 PHIL 453 (3) Ancient Metaphysics and Natural Philosophy
 PHIL 454 (3) Ancient Moral Theory

PHIL 551 (3) Seminar: Ancient Philosophy 2
 PHIL 556 (3) Seminar: Medieval Philosophy
 PHIL 560 (3) Seminar: 17th Century Philosophy

0 - 3 credits to be chosen from the PHWR Complementary Course List - Scriptures and History of the Western Religious Traditions.

6 - 9 credits to be chosen from the PHWR Complementary Course List - Jewish, Christian, and Islamic Thought, with a maximum of 6 credits from any one of the three groups.

HONOURS IN PHILOSOPHY AND WESTERN RELIGIONS
 (60 credits)

The Honours Program in Philosophy and Western Religions was designed for students who wish (i) to explore in depth the intertwined intellectual worlds of Judaism, Christianity and Islam, and the interaction between philosophy and religion from Antiquity to the Enlightenment and (ii) to acquire the linguistic and conceptual tools allowing them to read source texts in the original languages, and to conduct research in the areas investigated by the interdisciplinary program. Students are encouraged to complete, in addition, a Minor Concentration in one of the languages relevant to the academic field.

Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

Students are strongly encouraged to consult an adviser each year to devise a suitable course combination.

Students who combine the Honours Program with a Minor Concentration in one of the languages relevant to the academic field, or who have acquired proficiency in one language elsewhere may replace 6 credits of the language requirements through additional credits in other segments of the program.

Note: Not all courses listed below are offered every year, and some of the courses have limited enrolment.

Required Course (3 credits)

RELG 307 (3) Bible, Quran & Interpretations

Complementary Courses (57 credits)

6 - 9 credits*, Philosophy and Western Religions,
 PHWR 300 (3) Philosophy & Western Religions 1
 PHWR 301 (3) Philosophy & Western Religions 2
 PHWR 500D1 (1.5) Interdisciplinary Seminar
 PHWR 500D2 (1.5) Interdisciplinary Seminar

* Students are strongly encouraged to take both PHWR 300 and PHWR 301.

9 - 12 credits, History of Philosophy,

at least one of:

PHIL 354 (3) Plato
 PHIL 355 (3) Aristotle

at least one of:

PHIL 356 (3) Early Medieval Philosophy
 PHIL 357 (3) Late Medieval and Renaissance Philosophy
 PHIL 360 (3) 17th Century Philosophy

The remaining credits, if any, to be chosen from:

CLAS 415 (3) Advanced Latin: Oratory
 CLAS 426 (3) Advanced Greek: Philosophy
 PHIL 345 (3) Greek Political Theory
 PHIL 350 (3) History and Philosophy of Ancient Science
 PHIL 353 (3) The Presocratic Philosophers
 PHIL 452 (3) Later Greek Philosophy
 PHIL 453 (3) Ancient Metaphysics and Natural Philosophy
 PHIL 454 (3) Ancient Moral Theory
 PHIL 551 (3) Seminar: Ancient Philosophy 2
 PHIL 556 (3) Seminar: Medieval Philosophy
 PHIL 560 (3) Seminar: 17th Century Philosophy

3 - 6 credits to be chosen from the PHWR Complementary Course List - Scriptures and History of the Western Religious Traditions.

9 - 12 credits to be chosen from the PHWR Complementary Course List - Jewish, Christian, and Islamic Thought, with a maximum of 6 credits from any one of the three groups.

18 - 21 credits chosen from the PHWR Complementary Course List - Languages (Greek, Latin, Arabic, or Hebrew):

12 - 15 credits (two years: 12 credits, or in the case of Arabic 15 credits) in one language
and 6 - 9 credits (one year: 6 credits or in the case of Arabic, 9 credits) in a second language relevant to the program.

6 credits, specialized skills for conducting research, chosen from:
PHWR 400 (3) Joint Honours/Honours Tutorial
PHWR 401 (3) Honours Thesis Tutorial 1
PHWR 402 (3) Honours Thesis Tutorial 2
PHWR 500D1 (1.5) Interdisciplinary Seminar
PHWR 500D2 (1.5) Interdisciplinary Seminar

JOINT HONOURS – PHILOSOPHY AND WESTERN RELIGIONS COMPONENT (36 credits)

The Joint Honours Philosophy and Western Religions Component was designed for students who wish (i) to explore the intertwined intellectual worlds of Judaism, Christianity and Islam, and the interaction between philosophy and religion from Antiquity to the Enlightenment and (ii) to acquire the linguistic and conceptual tools allowing them to read source texts in the original languages, and to conduct research in the areas investigated by the interdisciplinary program. Students will benefit most from the Joint Honours if they combine it with a program in Philosophy, Islamic Studies, Jewish Studies, Religious Studies, or Classics. Students are also encouraged to complete a Minor Concentration in one of the languages relevant to the academic field.

Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

Students are strongly encouraged to consult an adviser each year to devise a suitable course combination.

Note: Not all courses listed below are offered every year, and some of the courses have limited enrolment.

Required Course (3 credits)

RELG 307 (3) Bible, Quran & Interpretations

Complementary Courses (33 credits)

3 - 9 credits*, Philosophy and Western Religions,
PHWR 300 (3) Philosophy & Western Religions 1
PHWR 301 (3) Philosophy & Western Religions 2
PHWR 500D1 (1.5) Interdisciplinary Seminar
PHWR 500D2 (1.5) Interdisciplinary Seminar

* Students are strongly encouraged to take both PHWR 300 and PHWR 301.

3 - 6 credits, History of Philosophy,
at least one of:

PHIL 354 (3) Plato
PHIL 355 (3) Aristotle

The remaining credits, if any, to be chosen from:

CLAS 415 (3) Advanced Latin: Oratory
CLAS 426 (3) Advanced Greek: Philosophy
PHIL 356 (3) Early Medieval Philosophy
PHIL 357 (3) Late Medieval and Renaissance Philosophy
PHIL 360 (3) 17th Century Philosophy
PHIL 452 (3) Later Greek Philosophy

0 - 3 credits to be chosen from the PHWR Complementary Course List - Scriptures and History of the Western Religious Traditions.

6 credits to be chosen from the PHWR Complementary Course List - Jewish, Christian, and Islamic Thought.

12 - 15 credits (two years: 12 credits, or in the case of Arabic 15 credits) in one language (Greek, Latin, Arabic, or Hebrew), chosen from the PHWR Complementary Course List - Languages.

3 credits, specialized skills for conducting research, chosen from:
PHWR 400 (3) Joint Honours/Honours Tutorial
PHWR 500D1 (1.5) Interdisciplinary Seminar
PHWR 500D2 (1.5) Interdisciplinary Seminar

Students wishing to do an Honours degree or a Major or Minor Concentration in Political Science should consult with a Political Science Departmental Adviser each year in order to devise a suitable program. Proper selection of courses is required if a student wishes to graduate on time.

1. Procedure for NEW Students

All new students entering the Political Science Program (including Minor Concentrations) are strongly urged to attend an Information Meeting scheduled at the end of August. The date and location of the meeting will be posted on the Web. Attendance will help students prepare for their session with an adviser. It is the student's responsibility to be in Montreal for the meeting. The following brochures are available on the Web: "Programs in Political Science," and "Minor Concentrations in Political Science". It is essential to read through these prior to attending the Information Meeting.

5.12.42 Political Science (POLI)

Stephen Leacock Building, Room 414
 855 Sherbrooke Street West
 Montreal, QC H3A 2T7

Telephone: (514) 398-4800

Fax: (514) 398-1770

Website: www.mcgill.ca/politicalscience

2. For all Political Science Students

"Programs in Political Science," and "Minor Concentrations in Political Science," are all available in the Department as well as on the Web. Students wishing to have courses taken at other universities counted as satisfying program requirements must bring copies of their transcripts and course syllabi to the Director of the Major or Honours Program or the Director of Undergraduate Studies. Students are not accepted into the Honours Program in Political Science until their second year in Political Science; an exception is made for those in Joint Honours Programs.

As course and personnel changes may occur after this Calendar has gone to press, students should not use it to plan their program of studies without first consulting the Department Office for updated information.

MINOR CONCENTRATION IN POLITICAL SCIENCE

(18 credits) (Expandable)

Complementary Courses (18 credits)

6 - 9 credits at the 200 level, from at least two fields:

Canadian Politics Field

- POLI 221 (3) Government of Canada
 POLI 222 (3) Political Process and Behaviour in Canada
 POLI 226 (3) La vie politique Québécoise

Comparative Politics Field

- POLI 211 (3) Comparative Government and Politics

POLI 341 (3) Foreign Policy: The Middle East
 POLI 342 (3) Canadian Foreign Policy
 POLI 344 (3) Foreign Policy: Europe
 POLI 346 (3) American Foreign Policy
 POLI 349 (3) Foreign Policy-Asia Pacific

MINOR CONCENTRATION IN POLITICAL THEORY

(18 credits)

This program offers a specialization in the subfield of political theory and allows students the opportunity to draw on closely-related courses in moral and political philosophy offered by the Department of Philosophy. Students who have completed the appropriate introductory work in the disciplines of classics, economics, history, or sociology may take specified courses in these disciplines toward the program requirements.

Complementary Courses (18 credits)*Category A* (9 credits)

3 credits at the introductory level selected from:

- POLI 231 (3) Introduction to Political Theory
 POLI 232 (3) Modern Political Thought
 PHIL 240 (3) Political Philosophy 1

At least 6 credits selected from:

- POLI 333 (3) Western Political Theory 1
 POLI 334 (3) Western Political Theory 2
 POLI 433 (3) History of Political/Social Theory 3
 POLI 434 (3) History of Political/Social Theory 4

Category B (9 credits)

9 additional credits from the following list.

Note that a course used toward Category A may not also be used toward Category B.

- POLI 333 (3) Western Political Theory 1
 POLI 334 (3) Western Political Theory 2
 POLI 362 (3) Political Theory and International Relations
 POLI 363 (3) Contemporary Political Theory
 POLI 364 (3) Radical Political Thought
 POLI 365 (3) Democratic Theory
 POLI 366 (3) Topics in Political Theory 1
 POLI 367 (3) Liberal Political Theory
 POLI 433 (3) History of Political/Social Theory 3
 POLI 434 (3) History of Political/Social Theory 4
 POLI 455 (3) American Political Thought
 POLI 459 (3) Topics in Political Theory 2
 POLI 470 (3) Philosophy, Economy and Society
 PHIL 334 (3) Ethics 1
 PHIL 344 (3) Medieval and Renaissance Political Theory
 PHIL 345 (3) Greek Political Theory
 PHIL 348 (3) Philosophy of Law 1
 PHIL 442 (3) Topics in Feminist Theory
 PHIL 444 (3) Early Modern Political Theory
 PHIL 445 (3) 19th Century Political Theory
 PHIL 454 (3) Ancient Moral Theory
 CLAS 416 (3) Advanced Latin: Philosophy
 CLAS 426 (3) Advanced Greek: Philosophy
 ECON 334 (3) History of Economic Doctrines
 HIST 320 (3) European Thought and Culture 1
 HIST 321 (3) European Thought and Culture 2
 SOCI 330 (3) Sociological Theory

MINOR CONCENTRATION IN POLITICAL ECONOMY

(Non-expandable) (18 credits)

Complementary Courses (18 credits)

3 credits selected from:

- POLI 211 (3) Comparative Government and Politics
 POLI 227 (3) Developing Areas/Introduction
 POLI 243 (3) International Politics of Economic Relations

3 credits selected from:

- ECON 208 (3) Microeconomic Analysis and Applications
 ECON 209 (3) Macroeconomic Analysis and Applications

Students who take ECON 230D1/ECON 230D2 (Microeconomic Theory) or ECON 250D1/ ECON 250D2D (Introduction to Economic Theory: Honours) are deemed to have fulfilled the economics requirement.

But, please note that the 3 complementary economic credits must be replaced with a political science course from the list below.

12 credits selected from:

- POLI 243 (3) International Politics of Economic Relations
 POLI 315 (3) Approaches to Political Economy
 POLI 321 (3) Issues: Canadian Public Policy
 POLI 354 (3) Approaches to International Political Economy
 POLI 416 (3) Political Economy of Canada
 POLI 441 (3) IPE: Trade
 POLI 445 (3) International Political Economy: Monetary Relations
 POLI 451 (3) The European Union
 POLI 469 (3) Politics of Regulation
 POLI 473 (3) Democracy and the Market

MINOR CONCENTRATION IN POLITICS, LAW AND SOCIETY

(Non-expandable) (18 credits)

Required Courses (6 credits)

- POLI 211 (3) Comparative Government and Politics
 POLI 378 (3) The Canadian Judicial Process

Complementary Courses (12 credits)

3 credits selected from:

- POLI 221 (3) Government of Canada
 POLI 222 (3) Political Process and Behaviour in Canada

9 credits, at least 6 of which must be non-political science credits selected from:

- ANTH 222 (3) Legal Anthropology
 HIST 344 (3) Police Institutions
 ISLA 383 (3) Central Questions in Islamic Law
 JWST 316 (3) Social and Ethical Issues in Jewish Law 1
 LEEL 482* (3) Law and Poverty
 PHIL 348 (3) Philosophy of Law 1
 POLI 318 (3) Comparative Local Government
 POLI 321 (3) Issues: Canadian Public Policy
 POLI 330 (3) Law and Courts in Europe
 POLI 337 (3) Canadian Public Administration
 POLI 417 (3) Health Care in Canada
 POLI 447 (3) Canadian Constitutional Politics
 POLI 466 (3) Public Policy Analysis
 POLI 469 (3) Politics of Regulation
 POLI 478 (3) The Canadian Constitution
 PRV2 456* (3) Children and Law
 SOCI 388 (3) Crime
 SOCI 418 (3) Human Rights and Humanitarianism
 SOCI 488 (3) Punishment and Prisons

* Procedure for taking Law courses: to take these courses, the student must apply as a Special Student through the Faculty of Law and provide the following: curriculum vitae, copy of academic record and reason for wanting to take the course.

MINOR CONCENTRATION IN SOUTH ASIA (Non-expandable)

(18 credits)

Required Courses (6 credits)

- POLI 227 (3) Developing Areas/Introduction
 POLI 322 (3) Political Change in South Asia

Complementary Courses (12 credits)

3 - 6 credits selected from:

- ANTH 327 (3) Peoples of South Asia
 ISLA 500D1 (3) History of Islamic India
 ISLA 500D2 (3) History of Islamic India
 RELG 252 (3) Hinduism and Buddhism
 RELG 344 (3) Maháyána Buddhism
 RELG 348 (3) Classical Hinduism
 RELG 350 (3) Bhakti Hinduism

RELG 454	(3)	Modern Hindu Thought
6 - 9 credits selected from:		
ANTH 212	(3)	Anthropology of Development
ANTH 327	(3)	Peoples of South Asia
ANTH 427	(3)	Social Change in South Asia
ISLA 505	(3)	Major Themes of Islamic Religious Expression
ISLA 506	(3)	Islam: Later Development
RELG 339	(3)	Gender & Sexuality in Buddhism
RELG 342	(3)	Theravada Buddhist Literature
RELG 371	(3)	Ethics of Violence/Non-Violence
SOCI 254	(3)	Development and Underdevelopment

MAJOR CONCENTRATION IN POLITICAL SCIENCE (36 credits)

Complementary Courses (36 credits)

36 credits of Political Science courses, as follows:

No more than one-half (18 credits) of the credits in a single field. (If the field in question is Comparative Politics, the maximum is 21 credits, provided courses are taken in both Developed Areas and Developing Areas.)

In the first year of the program, students are advised to select 12 - 15 credits from at least *three* of the four main fields (Comparative Government and Politics, Canadian and Quebec Government and Politics, International Politics, Political Theory).

No more than 15 of the 36 credits may be at the 200 level.

In the final year, no program courses may be taken below the 300 level.

Students may take only one 500-level Political Science Honours Seminar and it is to be taken in the final year.

The normal course load for a first-year student is 30 credits; a typical course distribution is given in the Departmental guidelines. First-year students normally may take courses at the 200-level only. First-year students in the second term of a 90-credit program may, with the approval of their adviser at Course Change period, transfer into one 300-level course provided that they have obtained an average of B+ in their first-term courses and that they have taken the prerequisite 200-level course. Second-year students in the third term of a 120-credit program may take one 300-level course provided they have taken the prerequisite course at the 200 level.

HONOURS IN POLITICAL SCIENCE (54 credits)

Note: The following provides only a summary view of the program. Detailed information is provided in the handout "Programs in Political Science," available from the Department or on the Web; all Honours and potential Honours students must read it before seeing an adviser.

The Honours program in Political Science consists of 54 credits, of which 48 must be in Political Science. The remaining 6 credits must be in related social studies disciplines and must be taken at the 300 or 400 level.

Students wishing to take Honours Political Science will be admitted to the program in their second year in Political Science. In their first year in political science, they should register as Major students and take 12-15 credits in Political Science spread over at least three of the four main fields offered by the Department (Comparative Politics, Canadian and Québec Politics, International Politics, Political Theory). Potential Honours students are also strongly encouraged to take one of the basic courses in economic analysis (ECON 208 and ECON 209 or ECON 230D1/ ECON 230D2). The introductory course requirements in the various fields of Political Science are the same as those presented in the description of the Major program above.

Students in the Honours Political Science program are encouraged to concentrate in one or two of the major fields offered by the Department. While concentration is considered beneficial, excessive specialization is discouraged. Students will normally not be permitted to take more than half their Political Science credits in any one field. Honours students are required to take a 3-credit

course in Methods (POLI 311) and a 3-credit course in Political Theory (at any level). They are also required to take one-quarter of their Political Science credits (12 credits) at the 400 level or higher, including at least one 500- or 600-level Seminar. Students can satisfy this one-quarter rule by taking one 400-, one 500-, and one 600-level course. **Students who do not have the prerequisite(s) for a course may be asked to withdraw from the course.** Further information may be obtained from one of the Honours advisers.

Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.30.

JOINT HONOURS – POLITICAL SCIENCE COMPONENT (36 credits)

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours Program components from any two Arts disciplines; [see section 5.11.4 "Joint Honours Programs"](#) for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Note: The following provides only a summary view of the program. Detailed information is provided in the handout "Programs in Political Science," available from the Department; all Joint Honours and potential Joint Honours students must read it before seeing an adviser.

To meet the requirements for Joint Honours degrees, students must complete 36 credits in Political Science and meet the requirements set forth by the other Department. Students wishing to follow a Joint Honours program will be admitted in their first year in political science. Joint Honours students normally take 12 credits in Political Science, 12 credits in the other Honours subject and 6 credits of other courses in each year of their program.

In the first year in political science, the 12 credits in Political Science should cover at least two (preferably three) of the four main fields offered by the Department. While some concentration is encouraged, students will normally not be permitted to take more than half their Political Science credits in any one field. Joint Honours students are required to take a Political Science course in Methods (POLI 311) unless they are authorized to take an equivalent social science methods course in another department (Sociology, Economics). In that case they are required to take a course (at any level) in Political Theory. They are also required to take one-quarter of their Political Science credits (i.e., 9 credits) at the 400 level or higher, including at least one 500- or 600-level Seminar. Students can satisfy the one-quarter rule by taking one 500- and one 600-level course. **Students who do not have the prerequisite(s) for a course may be asked to withdraw from the course.**

According to Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.30.

HONOURS STANDARDS

To enter, remain and graduate in Honours, students must achieve/maintain a B+ average in their political science courses and more than half of the political science grades must be at the B+ level or higher. To be awarded First Class Honours at graduation, in addition to a 3.50 CGPA, students must achieve an A-average in their political science courses and more than half of political science grades must be at the A- level or higher. All political science courses taken at McGill are counted in determining a student's standing. (The specific criteria are given in the brochure "Programs in Political Science," which may also be found on the Department Website.) To be awarded Honours at graduation, students must be registered in the Honours program in their final year. At graduation, students' Honours standing will be determined by their overall record in the Honours program.

Further information may be obtained from the Head of the Honours program.

5.12.43 Psychology (PSYC)

Stewart Biological Sciences Building, Room W8/1
1205 Docteur Penfield Avenue
Montreal, QC H3A 1B1

Telephone: (514) 398-6100

Fax: (514) 398-4896

E-mail: info@psych.mcgill.ca

Website: www.psych.mcgill.ca

The Psychology department offers programs in both Arts and Science. For a list of teaching staff and an outline of the nature of Psychology refer to the Science entry “Psychology (PSYC)” in section 12.13.32. Programs which may be taken by Arts students are described in this section, those listed under the Faculty of Science may be taken by Science students only.

Note: The B.A. (or B.Sc.) with a Major Concentration or Honours degree in psychology is not a professional qualification. It does not qualify the individual to carry on professional work in psychology.

INFORMATION MEETINGS FOR NEW STUDENTS

All new students entering the Psychology undergraduate program are required to attend an Information Meeting prior to registration. Students planning to pursue a Bachelor of Arts, or a Bachelor of Arts and Science, with a Major Concentration in Psychology **must** attend one of these meetings. Newly admitted students from CEGEPs should attend the information session on June 18, 2008 at 10:00 a.m. in Room S3/3 of the Stewart Biological Sciences building. There will be an identical information session on August 25, 2008 at 14:30 in Room S1/3 of the Stewart Biological Sciences building for all other students, and for any CEGEP students who could not attend the earlier meeting. Students accepted into the Bachelor of Science program must attend a different information meeting. (For details, [see section 12.13.32 “Psychology \(PSYC\)”](#).) At this meeting, Jessey Bernstein, the Academic Adviser, will explain the requirements of the Department’s programs. Incoming students will have an opportunity to ask questions and receive advice on how to plan their courses. After this meeting students will make appointments for individual advising sessions and fill out their Study Plan form for registration.

Entering students must bring their letter of acceptance and a copy of their collegial transcript(s). They will also need this Calendar and a preliminary Class Schedule before their individual advising session. Students will also find the Psychology Department Handbook helpful. It contains more detailed descriptions of Psychology courses and provides guidelines for how students might pursue particular areas of interest. The Handbook is available on the Department Website: www.psych.mcgill.ca/ugrad/ugradm.htm.

Students entering the Psychology program in January are strongly encouraged to visit the Academic Adviser, Jessey Bernstein, in early December to clarify their course selections.

COURSE GROUPS: LIST A AND LIST B

The study of psychology covers many fields. To develop a breadth of understanding in psychology, students are expected to obtain knowledge beyond the introductory level in two or more areas of psychology. To ensure this requirement is met, Psychology courses are divided into two lists. List A covers the areas of behavioural neuroscience, cognition and quantitative methods. List B covers social, health and developmental psychology.

List A (Behavioural Neuroscience, Cognition and Quantitative Methods)

PSYC 301	(3)	Animal Learning & Theory
PSYC 308	(3)	Behavioural Neuroscience 1
PSYC 310	(3)	Human Intelligence
PSYC 311	(3)	Human Cognition and the Brain
PSYC 315	(3)	Computational Psychology
PSYC 317	(3)	Genes and Behaviour
PSYC 318	(3)	Behavioural Neuroscience 2

PSYC 329	(3)	Introduction to Auditory Cognition
PSYC 340	(3)	Psychology of Language
PSYC 341	(3)	The Psychology of Bilingualism
PSYC 342	(3)	Hormones and Behaviour
PSYC 352	(3)	Cognitive Psychology Laboratory
PSYC 353	(3)	Laboratory in Human Perception
PSYC 403	(3)	Modern Psychology in Historical Perspective
PSYC 406	(3)	Psychological Tests
PSYC 410	(3)	Special Topics in Neuropsychology
PSYC 413	(3)	Cognitive Development
PSYC 427	(3)	Sensorimotor Behaviour
PSYC 451	(3)	Human Factors Research and Techniques
PSYC 470	(3)	Memory and Brain
PSYC 502	(3)	Psychoneuroendocrinology
PSYC 505	(3)	The Psychology of Pain
PSYC 510	(3)	Statistical Analysis of Tests
PSYC 522	(3)	Neurochemistry and Behaviour
PSYC 526	(3)	Advances in Visual Perception
PSYC 529	(3)	Music Cognition
PSYC 531	(3)	Structural Equation Models
PSYC 532	(3)	Cognitive Science
PSYC 536	(3)	Correlational Techniques
PSYC 537	(3)	Advanced Seminar in Psychology of Language
PSYC 541	(3)	Multilevel Modelling
PSYC 545	(3)	Topics in Language Acquisition
PSYC 561	(3)	Methods: Developmental Psycholinguistics
PSYC 562	(3)	Measurement of Psychological Processes

List B (Social, Health and Developmental Psychology)

PSYC 304	(3)	Child Development
PSYC 316	(3)	Psychology of Deafness
PSYC 331	(3)	Inter-Group Relations
PSYC 332	(3)	Introduction to Personality
PSYC 333	(3)	Personality and Social Psychology
PSYC 337	(3)	Introduction: Abnormal Psychology 1
PSYC 338	(3)	Introduction: Abnormal Psychology 2
PSYC 343	(3)	Language Acquisition in Children
PSYC 351	(3)	Research Methods in Social Psychology
PSYC 408	(3)	Principles of Cognitive Behaviour Therapy
PSYC 409	(3)	Positive Psychology
PSYC 412	(3)	Developmental Psychopathology
PSYC 414	(3)	Social Development
PSYC 416	(3)	Topics in Child Development
PSYC 429	(3)	Health Psychology
PSYC 436	(3)	Human Sexuality and its Problems
PSYC 471	(3)	Human Motivation
PSYC 473	(3)	Social Cognition and the Self
PSYC 474	(3)	Interpersonal Relationships
PSYC 491D1	(3)	Advanced Study: Behavioural Disorders

MINOR CONCENTRATION IN PSYCHOLOGY (18 credits)
 (Expandable)

Students registered in a Bachelor of Arts program in another department may pursue a Minor Concentration in Psychology. This Minor Concentration is expandable for students who may wish to transfer into a Major Concentration in Psychology at a later date.

Recommended background: Students are advised to complete a course in Introductory Psychology at the collegial or freshman level. Students who have not previously completed CEGEP Psychology 350-101 or 350-102 or equivalent are required to complete PSYC 100 during the first year of study at McGill.

Complementary Courses (18 credits)

6 credits selected from:

PSYC 204 (3) Introduction to Psychological Statistics
 PSYC 211 (3) Intro Behavioral Neuroscience
 PSYC 212 (3) Perception
 PSYC 213 (3) Cognition
 PSYC 215 (3) Social Psychology

12 credits in Psychology at the 300 level or above.

MINOR CONCENTRATION IN BEHAVIOURAL SCIENCE

(18 credits) (Non-expandable) (Open only to students registered in the Major Concentration In Psychology)

Students who wish to go on to graduate training in Psychology, and those who may wish to apply for membership in the Ordre des Psychologues du Québec (once the additional graduate requirements of the Ordre have been completed), are advised to take the following supplementary Minor Concentration in Behavioural Science. Note that this counts as a *second* Minor Concentration, and is open only to students registered in the Major Concentration In Psychology. A first Minor Concentration must also be completed in a discipline other than Psychology.

Complementary Courses (18 credits)

3 credits in Psychology from List A
 3 credits in Psychology from List B
 3 credits in Psychology at the 400 or 500 level
 9 credits at the 300 level or above from one or more of the following disciplines: Psychology (PSYC), Anthropology (ANTH), Linguistics (LING), or Sociology (SOCl)

MAJOR CONCENTRATION IN PSYCHOLOGY (36 credits)

Students with a Major Concentration in Psychology must obtain a minimum grade of C in all 36 credits of the program. A grade lower than C may be made up by taking another equivalent course (if there is one), by successfully repeating the course, or by successfully writing a supplemental examination (if there is one).

The Major Concentration in Psychology does not provide sufficient undergraduate background to enable students to apply for membership in the Ordre des Psychologues du Québec, even once the additional graduate requirements of the Ordre have been completed. Students who are interested in practising psychology in Quebec are advised to also complete the Minor Concentration in Behavioral Science.

Recommended Background:

Students registered in a Bachelor of Arts degree with a Major Concentration or Honours program in Psychology, and those registered in a Bachelor of Arts and Science degree with a Major Concentration or Joint Honours Component in Psychology, are advised to complete courses in Introductory Psychology and Human Biology at the collegial level.

Students who have not previously completed Psychology 350-101 or 350-102 in CEGEP will be required to register for PSYC 100 during their U1 year. Bachelor of Arts students who have not completed one of Biology 101-301, 101-401, 101-911 or 101-921 in CEGEP will be required to complete BIOL 115 (or, if they prefer, BIOL 111 or BIOL 112) during their U1 year. Bachelor

of Arts and Science students who have not completed one course in General Biology (CEGEP objective OOUK, OOXU or equivalent) will be required to complete one of BIOL 111 or BIOL 112 during their U1 year.

All students who have completed either Mathematics 201-307 or 201-337 or equivalent, or the combination of Quantitative Methods 360-300 with Mathematics 201-300, and who obtained a minimum grade of 75%, will be exempt from PSYC 204. Bachelor of Arts students will replace this requirement with 3 credits at the 300 level in one of the following disciplines: Psychology (PSYC), Anthropology (ANTH), Linguistics (LING) or Sociology (SOCl). Bachelor of Arts and Science students will replace this requirement with 3 credits in Psychology at the 300 level or above.

Required Courses (18 credits)

PSYC 204 (3) Introduction to Psychological Statistics
 PSYC 211 (3) Intro Behavioral Neuroscience
 PSYC 212 (3) Perception
 PSYC 213 (3) Cognition
 PSYC 215 (3) Social Psychology
 PSYC 305 (3) Statistics for Experimental Design

Complementary Courses (18 credits)

3 credits in Psychology from List A
 3 credits in Psychology from List B
 12 credits in Psychology, at least 6 at the 400 or 500 level

Note: Students who wish to apply to the Honours Program in Psychology must complete the following courses in their U1 year to be eligible for admission: PSYC 204, PSYC 211, PSYC 212, PSYC 213, PSYC 215. Students who have been exempted from PSYC 204 are advised to complete PSYC 305 in U1. All students must complete a minimum of 27 graded credits in U1 to be eligible for admission to the Honours Program.

B.A. HONOURS IN PSYCHOLOGY (60 credits)

Honours in Psychology prepares students for graduate study, and so emphasises practice in the research techniques which are used in graduate school and professionally later on. Students are accepted into Honours at the beginning of their U2 year, and the two-year sequence of Honours courses continues through U3.

Admission to Honours is selective. Students with a cumulative grade point average of 3.00 or better are eligible to apply; since enrolment is limited the usual GPA for admission to this program is 3.50 (based on a 27-30 graded credit program over two terms). Students must complete the following courses in their U1 year to be eligible to apply to the Honours Program: PSYC 204, PSYC 211, PSYC 212, PSYC 213 and PSYC 215. Students who have been exempted from PSYC 204 due to previous courses completed in CEGEP are advised to complete PSYC 305 in their U1 year. Once in the Honours Program, the student must obtain a GPA of 3.00 in the U2 year in order to continue in the program for U3. Students in the Honours Program are encouraged to complete a minimum of 27 graded credits per academic year. This is usually the minimum number of credits required to be eligible for fellowships and awards.

Applications can be obtained from the Undergraduate Office of the Department of Psychology, Room N7/9A, Stewart Biological Sciences Building. The applications must be completed and returned to the Undergraduate Office by August 1 for September admission and by December 1 for January admission. Candidates will be advised of the Department's decision via email and through a notice posted in front of the Undergraduate Adviser's Office, N7/9, before classes begin in September or in January.

Students should note that awarding of the Honours degree will depend on both cumulative grade point average and a minimum grade of B on PSYC 380D1/PSYC 380D2, PSYC 482. "First Class Honours" is awarded to students who obtain a minimum CGPA of 3.50 and a minimum grade of A- in the required honours courses, namely PSYC 380D1/D2, PSYC 482. "Honours" is awarded to students with a minimum CGPA of 3.00 and a minimum grade of B in the required honours courses, namely PSYC 380D1/D2, PSYC 482. Moreover, the awarding of the Honours degree normally requires completion of two full years of study, U2 and U3, in the

Psychology Department. Students with particularly strong academic records may be admitted for the U3 year only on the basis of their marks and research experience. These students must complete all Honours Program requirements.

U1 Required Courses (15 credits)

PSYC 204	(3)	Introduction to Psychological Statistics
PSYC 211	(3)	Intro Behavioral Neuroscience
PSYC 212	(3)	Perception
PSYC 213	(3)	Cognition
PSYC 215	(3)	Social Psychology

Note: PSYC 100 may be taken as a corequisite with these basic courses.

U1 or U2 Required Course (3 credits)

PSYC 305	(3)	Statistics for Experimental Design
----------	-----	------------------------------------

U2 Required Courses (9 credits)

PSYC 380D1	(4.5)	Honours Research Project Seminar
PSYC 380D2	(4.5)	Honours Research Project Seminar

U3 Required Courses (3 credits)

PSYC 482	(3)	Advanced Honours Seminar
----------	-----	--------------------------

Complementary Courses (30 credits)

12 credits to be selected from:

PSYC 403	(3)	Modern Psychology in Historical Perspective
PSYC 483	(3)	Seminar in Experimental Psychopathology
PSYC 495	(6)	Psychology Research Project 2
PSYC 496	(6)	Seniors Honours Research 1
PSYC 497	(6)	Seniors Honours Research 2
PSYC 498D1	(4.5)	Senior Honours Research
PSYC 498D2	(4.5)	Senior Honours Research

Any Psychology course at the 500 level.

6 credits in Psychology from List A

6 credits in Psychology from List B

6 credits at the 300 level or above in the following disciplines:

Psychology (PSYC), Anthropology (ANTH), Linguistics (LING), or Sociology (SOCI)

JOINT HONOURS – PSYCHOLOGY COMPONENT (36 credits)

Students planning to pursue the Joint Honours Component in Psychology are advised to complete courses in Introductory Psychology and Human Biology at the collegiate level.

Students who have not previously completed Psychology 350-101 or 350-102 in CEGEP will be required to register for PSYC 100 during their U1 year.

Bachelor of Arts students who have not completed one Biology 101-301, 101-401, 101-911 or 101-921 in CEGEP will be required to complete BIOL 115 (or, if they prefer, BIOL 111 or BIOL 112) during their U1 year.

Bachelor of Arts and Science students who have not completed one course in General Biology (CEGEP objective OOUK, OOXU or equivalent) will be required to complete one of BIOL 111 or BIOL 112 during their U1 year. Students who have not completed Biology CEGEP objective OOUK or OOXU or equivalent will be required to complete BIOL 111 or BIOL 112 during their U1 year.

All students who have completed either Mathematics 201-307 or 201-337 or equivalent, or the combination of Quantitative Methods 360-300 with Mathematics 201-300, and who obtained a minimum grade of 75%, will be exempt from PSYC 204. Bachelor of Arts students will replace this requirement with 3 credits at the 300 level in one of the following disciplines: Psychology (PSYC), Anthropology (ANTH), Linguistics (LING) or Sociology (SOCI). Bachelor of Arts and Science students will replace this requirement with 3 credits in Psychology at the 300 level or above.

Students may apply to the Joint Honours Component upon completion of the U1 year. Eligible students must have completed the following Psychology courses: PSYC 204, PSYC 211, PSYC 212, PSYC 213 and PSYC 215. Students who have been exempted from PSYC 204 due to previous studies must complete PSYC 305. Admission to the Joint Honours Component is selective. Students with a cumulative grade point average of 3.00 or

higher are eligible to apply; however, normally only students with a U1 GPA above 3.50 based on a 27-30 graded credit program are admitted. Once in the Joint Honours Component, students must obtain a GPA of 3.00 in the U2 year in order to continue in the program for U3. Students in the Joint Honours Component are encouraged to complete 27 graded credits per academic year (Fall and Winter terms), as this is usually the minimum number of credits required to be eligible for fellowships and awards. Students who intend to apply for admission to the Joint Honours Component should do so as well.

“First Class Honours” is awarded to students who obtain a minimum CGPA of 3.50 and a minimum grade of A- in the required honours courses, namely PSYC 380D1/D2, PSYC 482. “Honours” is awarded to students with a minimum CGPA of 3.00 and a minimum grade of B in the required honours courses, namely PSYC 380D1/D2, PSYC 482.

Le Programme d'études sur le Québec veut favoriser la recherche et la formation multidisciplinaires en l'études québécoises.

Avec l'appui des départements, la concentration Mineur et la concentration Majeur en Études sur le Québec sont offertes constituées l'une et l'autre d'une suite agencée de cours ayant pour but de fournir un enseignement interdisciplinaire aussi complet que possible sur la société québécoise à l'intérieur d'un cadre canadien et international.

Sauf les cours de Études sur le Québec (QCST 300), Travaux dirigés (QCST 472D1/QCST 472D2) et le séminaire (QCST 440),

les cours compris dans la concentration Majeur ou la concentration Mineur sont sous la responsabilité des divers départements. Pour connaître la description de ces cours et, le cas échéant, les conditions d'admission, l'étudiant(e) est donc invité(e) à se reporter aux autres sections de l'Annuaire et, au besoin, à consulter les départements concernés, d'autant plus que tous les cours ne se donnent pas nécessairement à chaque année. Veuillez noter que les conseillers pédagogiques ou les directeurs de programmes peuvent suggérer l'inscription à un cours sans toutefois imposer ce choix. La décision finale revient à l'étudiant(e) en ce qui concerne l'inscription à un cours en autant que l'étudiant(e) répond aux conditions d'admission pour ce cours.

Le titre de chaque cours indique s'il est donné en français ou en anglais, mais les travaux et examens peuvent toujours être rédigés dans l'une ou l'autre de ces deux langues (sauf au Département de langue et littérature françaises, où le français est de rigueur).

The Quebec Studies Program is intended to stimulate interdisciplinary studies and exchanges centering on Quebec society.

With departmental support, a Major Concentration and a Minor Concentration are offered, both of which consist of a coherent series of courses providing an interdisciplinary perspective on Quebec society in a Canadian and an international context.

Except for the general course (QCST 300), the Tutorial (QCST 472D1/QCST 472D2) and the seminar (QCST 440), courses included in the Major Concentration or Minor Concentration are the responsibility of the departments. To obtain a complete description of these courses and the admission requirements (where applicable), students should read the relevant sections of the McGill Calendar and, if necessary, consult with the departments concerned, bearing in mind that not all courses are available in any given year. Please take note that an adviser or a director of a program can recommend registration in a course without imposing this choice. The final decision belongs to the student if the student has successfully completed the course prerequisites.

The title of each course indicates whether it is given in French or English, but term papers and exams can be written in either of these two languages (except in the French Language and Literature Department, where French is the rule).

LA CONCENTRATION MINEUR EN ÉTUDES SUR LE QUÉBEC MINOR CONCENTRATION IN QUEBEC STUDIES (18 crédits) (Expandable)

La concentration Mineur en Études sur le Québec a pour but de donner à l'étudiant(e) une connaissance générale de la société québécoise à la fois interdisciplinaire et complémentaire à sa propre discipline de spécialisation.

On peut s'inscrire à la concentration Mineur en U2 ou en U3.

The goal of this Concentration is to give the student a general knowledge of Quebec society that will be both interdisciplinary and complementary to his/her own Major Concentration or Honours Program.

Students can enrol in the Minor Concentration either in U2 or U3. They must obtain permission to do so either from their academic adviser or the director of their Department.

Cours Obligatoires/Required Courses (6 crédits/credits)

QCST 300 (3) Études sur le Québec
QCST 440 (3) Aspects du Québec contemporain/
Aspects of Contemp. Quebec

Complémentaires/Complementary (12 crédits/credits)

12 crédits, dont au moins 3 doivent faire partie du tronc commun et les autres peuvent provenir de l'ensemble des cours.

Le choix de ces cours se fera en consultation avec le Directeur du programme et variera selon le domaine de spécialisation de chaque étudiant(e).

12 credits, at least 3 of which must be from Core courses, chosen from the Complementary Course lists below.

The selection of courses will be made in consultation with the Program Director and will vary depending on the Major Concentration or Honours program of each student.

LA CONCENTRATION MAJEUR EN ÉTUDES SUR LE QUÉBEC MAJOR CONCENTRATION IN QUEBEC STUDIES (36 crédits)

La concentration Majeur en études sur le Québec s'adresse aussi bien aux étudiants(es) du Québec et du Canada qu'à ceux et celles de l'étranger. Ce programme veut offrir à chaque étudiant(e) une connaissance du Québec à la fois large et approfondie, tout en lui permettant de recevoir une bonne formation interdisciplinaire.

The Major Concentration in Quebec Studies is intended for students from inside as well as outside Quebec and Canada. Its goal is to provide the student with a wide and thorough knowledge of Quebec, while allowing him/her to focus on several fields of study.

Cours Obligatoires/Required Courses (12 crédits/credits)

QCST 300 (3) Études sur le Québec
QCST 440 (3) Aspects du Québec contemporain/
Aspects of Contemp. Quebec
QCST 472D1 (3) Tutorial/Travaux dirigés
QCST 472D2 (3) Tutorial/Travaux dirigés

Complémentaires/Complementary (24 crédits/credits)

24 crédits, dont au moins 6 doivent faire partie du tronc commun et les autres peuvent provenir de l'ensemble des cours.

Le choix de ces cours se fera en consultation avec le Directeur du programme et variera selon le domaine de spécialisation de chaque étudiant(e).

24 credits, at least 6 of which must be from Core courses, chosen from the Complementary Course lists below,

The selection of courses will be made in consultation with the Program Director and will vary depending on the Major Concentration or Honours program of each student.

Cours complémentaires/Complementary Course Lists

Cours inscrits au tronc commun, c'est-à-dire les cours portant plus spécifiquement sur le Québec sont marqués par un astérisque (*).

Core courses, courses with a specific focus on Quebec, are indicated by an asterisk (*)

 G. Victor Hori; B.A.(York), M.A.(Tor.), Ph.D.(Stan.)
 Patricia G. Kirkpatrick; B.A.(Dal.), M.T.(Lond.), D.Phil.(Oxon.)

Assistant Professors

Lara Braitstein; B.A., M.A.(McG.) (*Assistant Professor of Buddhism*)
 Daniel Cere; B.A, M.A.(McG.), Ph.D.(C'dia)
 Gaëlle Fiasso; B.A., M.A., Ph.D.(Louvain-le-Neuve) (*Assistant Professor of Ethics and Religious Ethics*) (*joint appoint. with Department of Philosophy*)
 Devesh Soneji; B.A.(Manit.), Ph.D.(McG.) (*Assistant Professor of Hinduism*)

Faculty Lecturer

Jim Kanaris; B.A.(C'dia), M.A., Ph.D.(McG.)

Numata Visiting Professor

Miriam Levering; Ph.D.(Harv.)

Associate Member

Leigh Turner; B.A.(Winn.), M.A.(Manit.), M.A., Ph.D.(S. Calif.)

Adjunct Professors

Philip Joudrey; B.A., M.Div.(Acad.), D.Min.(Andover Newton Theological School)
 T. Jinpa Langri; B.A., Dr. Div.(King's Coll., Lond.), Ph.D.(Camb.)
 John M. Simons; B.A.(Bishop's), S.T.B.(Trin. Coll. (Tor.)), Ph.D.(G'town) (PT)
 John Viissers; B.A.(Tor.), M.Div.(Knox), Th.M.(Prin.), Th.D.(Knox) (PT)

Course Lecturers (2007-2008)

Eric Bellavance; B.A., M.A., Ph.D.(Montr.)
 Dean Brady; B.Th.(McG.), Dip.Min.(Montreal Theological College), M.A. (McG.), Ph.D. Candidate(McG.)
 Melissa Curley; B.A., M.A., Ph.D. Candidate(McG.)
 Michel DiStefano; B.A.(Providence), M.A.(Trinity International, Ill.), Ph.D. Candidate(McG.)
 Manuel M. Jinbachian; B.Litt.(Oxf.), Ph.D.(Stras.)
 Jeffrey Keiser; B.Sc.(Biola), M.A.(Harv.), Ph.D. Candidate(McG.)
 David Koloszy; B.A., M.A.(Tor.), Ph.D. Candidate(McG.)
 Sanjay Kumar; B.A.(Maharshi Dayanand), M.A.(Meerut), M.Phil.(Delhi), Ph.D. Candidate(McG.)
 Cory Labrecque; B.Sc., M.A., Ph.D. Candidate(McG.)
 Lei Kuan Lai ; B.A.(University of the West in Rosemead), M.A. (Qu.), Ph.D. Candidate(McG.)
 Nathan Loewen; B.Th.(Can. Mennonite), B.A.(Winn.), M.S.T. (St. And.), S.T.M.(St. And.), Ph.D. Candidate(McG.)
 Lucille Marr; B.A., M.A., Ph.D.(Wat.)
 Elizabeth Morton; B.A.(Ott.), LL.B.(Vic. (BC)), M.T.S.(Vancouver School of Theology), M.A.(Br. Col.), Ph.D. Candidate(McG.)
 Rowshan Nemazee; B.A.(Trin. Coll., Vermont), M.A., Ph.D. (McG.)
 Michelle Rebidoux; B.A.(York (Can.)), M.A.(Br. Col.), Ph.D.(McG.)
 R. Saraswati Sainath; BSc., M.A., M.Phil., Ph.D.(Madr.), Ph.D. Candidate(McG.)
 Manjit Singh; B.A., M.A.(Delhi)
 Glenn Smith; B.A.(Mich.), M.A.(Ott.), D.Min.(Northern Baptist Seminary, Ill.), D.Hon.(Union des universités privées d'Haïti)
 Michael Storch; B.A.(Alta.), Ph.D.(McG.)
 Philippe Turenne; B.A., Ph.D. Candidate(McG.)
 Jason Zuidema; B.A.(Redeemer), M.T.S.(Calvin), Ph.D.(McG.)

Religious Studies Programs in Arts

Available within the Faculty of Arts are a Major Concentration and a Minor Concentration in World Religions, a Major Concentration in Scriptures and Interpretations, and a Minor Concentration in Scriptural Languages as well as an Honours and a Joint Honours Program with two options: Western Religions and Asian Religions. These programs are administered by the Faculty of Arts and the general rules, regulations and requirements of that Faculty apply to them.

Students interested in these programs can obtain information from the Faculty of Arts Website at www.mcgill.ca/arts and the Religious Studies Website, or from a Religious Studies B.A. Adviser. For general information on Religious Studies programs, make an appointment to see an adviser by telephoning (514) 398-4121 or visiting the Reception office in the Birks Building.

Admission to the B.A. program is granted according to criteria established by the Faculty of Arts.

Students interested in theology programs will find information about the **Bachelor of Theology (B.Th.)**, see section 11.5 and the **Master of Divinity (M.Div.)**, section 11.4.

MINOR CONCENTRATION IN WORLD RELIGIONS (18 credits)
 (Expandable to Major Concentration in World Religions)

The Minor Concentration in World Religions introduces students to the major world religions and to the academic study of religion.

Complementary Courses (18 credits*)

12 credits in Religious Traditions, chosen from the following:

Judaism and Christianity

RELG 201 (3) Religions of the Ancient Near East
 RELG 202 (3) Religion of Ancient Israel
 RELG 203 (3) Bible and Western Culture
 RELG 204 (3) Judaism, Christianity and Islam
 RELG 210 (3) Jesus of Nazareth
 RELG 300 (3) Second Temple Judaism
 RELG 302 (3) Old Testament Studies 1
 RELG 303 (3) Literature of Ancient Israel 2
 RELG 306 (3) Rabbinic Judaism
 RELG 307 (3) Bible, Quran & Interpretations
 RELG 311 (3) New Testament Studies 1
 RELG 312 (3) New Testament Studies 2
 RELG 313 (3) Topics in Biblical Studies 1
 RELG 314 (3) Topics in Biblical Studies 2
 RELG 320 (3) History of Christian Thought 1
 RELG 322 (3) The Church in History 1
 RELG 323 (3) The Church in History 2
 RELG 324 (3) Armenian Apostolic Tradition
 RELG 325 (3) Varieties Religious Experience in Christianity
 RELG 326 (3) Ancient Christian Church AD54 - AD604
 RELG 327 (3) History of Christian Thought 2
 RELG 330 (3) Reformed Theology
 RELG 336 (3) Contemporary Theological Issues
 RELG 338 (3) Women and the Christian Tradition
 RELG 399 (3) Christian Spirituality
 RELG 420 (3) Canadian Church History
 RELG 423 (3) Reformation Thought
 RELG 470 (3) Theological Ethics
 RELG 502 (3) Greco-Roman Judaism

Hinduism and Buddhism

RELG 252 (3) Hinduism and Buddhism
 RELG 253 (3) Religions of East Asia
 RELG 337 (3) Themes in Buddhist Studies
 RELG 339 (3) Gender & Sexuality in Buddhism
 RELG 342 (3) Theravada Buddhist Literature
 RELG 344 (3) Maháyána Buddhism
 RELG 348 (3) Classical Hinduism
 RELG 350 (3) Bhakti Hinduism
 RELG 352 (3) Japanese Religions
 RELG 354 (3) Chinese Religions
 RELG 356 (3) Gender & Sexuality in Hinduism
 RELG 442 (3) Pure Land Buddhism
 RELG 451 (3) Zen: Maxims and Methods
 RELG 452 (3) East Asian Buddhism
 RELG 453 (3) Vajrayana Buddhism
 RELG 454 (3) Modern Hindu Thought
 RELG 455 (3) Ramayana: Multiple Lives
 RELG 546 (3) Indian Philosophy
 RELG 547 (3) Special Topics in Hinduism
 RELG 548 (3) Indian Buddhist Metaphysics
 RELG 549 (3) Japanese Buddhist Philosophy
 RELG 551 (3) Special Topics in Buddhism
 RELG 552 (3) Advaita Vedanta
 RELG 553 (3) Religions of South India 1
 RELG 554 (3) Religions of South India 2

- RELG 556 (3) Issues in Buddhist Studies
RELG 557 (3) Asian Ethical Systems

6 credits in Comparative Studies, chosen from the following:

- RELG 207 (3) The Study of World Religions 1
RELG 256 (3) Women in Judaism and Islam
RELG 270 (3) Religious Ethics and the Environment
RELG 271 (3) Sexual Ethics
RELG 315 (3) Special Topics in Religion 1
RELG 316 (3) New Religious Movements
RELG 317 (3) Special Topics in Religion 2
RELG 318 (3) Special Topics in Religion 3
RELG 319 (3) Special Topics in Religion 4
RELG 341 (3) Introduction: Philosophy of Religion
RELG 345 (3) Religion and the Arts 1
RELG 347 (3) Topics in Religion and the Arts
RELG 355 (3) Religion and the Arts 2
RELG 361 (3) Religious Behaviour
RELG 370 (3) Human Condition
RELG 371 (3) Ethics of Violence/Non-Violence
RELG 376 (3) Religious Ethics
RELG 555 (3) Honours Seminar
RELG 571 (3) Religion and Medicine

* No more than 12 credits of the Minor may be taken at the 200 level.

MINOR CONCENTRATION IN SCRIPTURAL LANGUAGES

(18 credits) (Non-expandable)

The Minor Concentration in Scriptural Languages is designed to provide students with the skills necessary to read Scriptural sources in their original languages. The Minor is recommended to be followed in conjunction with the Major Concentration in Scriptures and Interpretations.

Students will choose from one of two streams:

- Stream I: Biblical Languages
Stream II: Indo-Tibetan Languages

MINOR CONCENTRATION IN SCRIPTURAL LANGUAGES

STREAM I: BIBLICAL LANGUAGES COMPLEMENTARY

COURSES (18 credits)

chosen from among the following:

Biblical Hebrew

- RELG 390D1* (3) Elementary Biblical Hebrew
RELG 390D2* (3) Elementary Biblical Hebrew
RELG 491 (3) Hebrew Texts
RELG 492 (3) Hebrew Texts
JWST 327 (3) A Book of the Bible
JWST 328 (3) A Book of the Bible
JWST 329 (3) A Book of the Bible
JWST 330 (3) A Book of the Bible

Biblical Greek

- RELG 280 (6) Elementary New Testament Greek
RELG 381 (3) Advanced New Testament Greek
RELG 482 (3) Exegesis of Greek New Testament
RELG 583 (3) Hellenistic Religious Texts

* Students with advanced standing in Hebrew may take Aramaic as part of their program.

MINOR CONCENTRATION IN SCRIPTURAL LANGUAGES

STREAM II: INDO-TIBETAN LANGUAGES

Sanskrit is the language of classical Indian civilization and is recommended for students interested in gaining access to religious texts, philosophical works, academic treatises on all subjects and poetry written in classical and medieval India.

Classical Tibetan is one of the main scriptural languages of Buddhism. Many texts originally composed in Sanskrit are only extant in their Tibetan translations, and a vast body of philosophical, devotional, poetic and academic works composed in Classical Tibetan is only accessible to one who has a firm grasp of the language.

Tamil is a language spoken by over 75,000,000 people around the world. It is an ancient South Indian language that unlike, Sanskrit, has a vital, living tradition. It has a classical literary canon and yet is also part of the everyday lives of millions of people.

Complementary Courses (18 credits)

chosen from among the following:

Sanskrit

- RELG 257D1 (3) Introductory Sanskrit
RELG 257D2 (3) Introductory Sanskrit
RELG 357D1 (3) Sanskrit 2
RELG 357D2 (3) Sanskrit 2
RELG 457D1 (3) Advanced Sanskrit
RELG 457D2 (3) Advanced Sanskrit

Tibetan:

- RELG 264 (3) Introductory Tibetan 1
RELG 265 (3) Introductory Tibetan 2
RELG 364 (3) Intermediate Tibetan 1
RELG 365 (3) Intermediate Tibetan 2
RELG 464 (3) Advanced Tibetan 1
RELG 465 (3) Advanced Tibetan 2

Tamil:

- RELG 266 (3) Introductory Tamil 1
RELG 267 (3) Introductory Tamil 2

MAJOR CONCENTRATION IN WORLD RELIGIONS

(36 credits)

The Major Concentration in World Religions offers students a broad introduction to the study of the world's major religions, with the possibility for concentration in a student's specific areas of interest. Developing an understanding of methods and problems in comparative approaches to the academic study of religion will be encouraged.

Required Course (3 credits)

- RELG 456 (3) Theories of Religion

Complementary Courses (33 credits)

33 credits, no more than 12 of which may be taken at the 200 level.

24 credits in World Religions chosen from the following, according to the student's area of interest:

Judaism and Christianity

- RELG 201 (3) Religions of the Ancient Near East
RELG 202 (3) Religion of Ancient Israel
RELG 203 (3) Bible and Western Culture
RELG 204 (3) Judaism, Christianity and Islam
RELG 210 (3) Jesus of Nazareth
RELG 300 (3) Second Temple Judaism
RELG 302 (3) Old Testament Studies 1
RELG 303 (3) Literature of Ancient Israel 2
RELG 306 (3) Rabbinic Judaism
RELG 307 (3) Bible, Quran & Interpretations
RELG 311 (3) New Testament Studies 1
RELG 312 (3) New Testament Studies 2
RELG 313 (3) Topics in Biblical Studies 1
RELG 314 (3) Topics in Biblical Studies 2
RELG 320 (3) History of Christian Thought 1
RELG 322 (3) The Church in History 1
RELG 323 (3) The Church in History 2
RELG 324 (3) Armenian Apostolic Tradition
RELG 325 (3) Varieties Religious Experience in Christianity
RELG 326 (3) Ancient Christian Church AD54 - AD604
RELG 327 (3) History of Christian Thought 2
RELG 336 (3) Contemporary Theological Issues
RELG 338 (3) Women and the Christian Tradition
RELG 399 (3) Christian Spirituality
RELG 420 (3) Canadian Church History
RELG 423 (3) Reformation Thought
RELG 470 (3) Theological Ethics

RELG 502 (3) Greco-Roman Judaism

Hinduism and Buddhism

- RELG 252 (3) Hinduism and Buddhism
- RELG 253 (3) Religions of East Asia
- RELG 337 (3) Themes in Buddhist Studies
- RELG 339 (3) Gender & Sexuality in Buddhism
- RELG 342 (3) Theravada Buddhist Literature
- RELG 344 (3) Mahāyāna Buddhism
- RELG 348 (3) Classical Hinduism
- RELG 350 (3) Bhakti Hinduism
- RELG 352 (3) Japanese Religions
- RELG 354 (3) Chinese Religions
- RELG 356 (3) Gender & Sexuality in Hinduism
- RELG 442 (3) Pure Land Buddhism
- RELG 451 (3) Zen: Maxims and Methods
- RELG 452 (3) East Asian Buddhism
- RELG 453 (3) Vajrayana Buddhism
- RELG 454 (3) Modern Hindu Thought
- RELG 545 (3) Ramayana: Multiple Lives
- RELG 546 (3) Indian Philosophy
- RELG 547 (3) Special Topics in Hinduism
- RELG 548 (3) Indian Buddhist Philosophy
- RELG 549 (3) Japanese Buddhist Philosophy
- RELG 551 (3) Special Topics in Buddhism
- RELG 552 (3) Advaita Vedanta
- RELG 553 (3) Religions of South India 1
- RELG 554 (3) Religions of South India 2
- RELG 556 (3) Issues in Buddhist Studies
- RELG 557 (3) Asian Ethical Systems

9 credits in Comparative Studies, chosen from the following according to the student's area of interest:

- RELG 207 (3) The Study of World Religions 1
- RELG 256 (3) Women in Judaism and Islam
- RELG 270 (3) Religious Ethics and the Environment
- RELG 271 (3) Sexual Ethics
- RELG 315 (3) Special Topics in Religion 1
- RELG 316 (3) New Religious Movements
- RELG 317 (3) Special Topics in Religion 2
- RELG 318 (3) Special Topics in Religion 3
- RELG 319 (3) Special Topics in Religion 4
- RELG 341 (3) Introduction: Philosophy of Religion
- RELG 345 (3) Religion and the Arts 1
- RELG 347 (3) Topics in Religion and the Arts
- RELG 355 (3) Religion and the Arts 2
- RELG 361 (3) Religious Behaviour
- RELG 370 (3) Human Condition
- RELG 371 (3) Ethics of Violence/Non-Violence
- RELG 376 (3) Religious Ethics
- RELG 571 (3) Religion and Medicine
- RELG 555 (3) Honours Seminar

MAJOR CONCENTRATION IN SCRIPTURES AND INTERPRETATIONS (36 credits)

The Major Concentration in Scriptures and Interpretations is designed for students interested in understanding scriptural literatures and their place in developing religious traditions. While students will be able to concentrate in the area of their choice (Jewish, Christian, or Hindu and Buddhist Scriptures and Interpretations), they will study scriptures of at least two religious traditions, either in English translation or, if their skills permit, in the original languages.

Required Courses (6 credits)

- RELG 307 (3) Bible, Quran & Interpretations
- RELG 456 (3) Theories of Religion

Complementary Courses (30 credits)

30 credits, a minimum of 18 credits from one area of specialization and a minimum of 6 credits from a second area. No more than 12 credits of complementary courses may be taken at the 200 level.

(a) Jewish Scriptures and the History of Their Interpretation

- JWST 310 (3) Believers, Heretics and Critics
- JWST 324 (3) Biblical Interpretation - Antiquity
- JWST 327 (3) A Book of the Bible
- JWST 328 (3) A Book of the Bible
- JWST 329 (3) A Book of the Bible
- JWST 330 (3) A Book of the Bible
- JWST 331 (3) Bible Interpretation/Medieval Ashkenaz
- JWST 332 (3) Bible Interpretation/Sefardic Tradition
- JWST 510 (3) Jewish Biblical Interpretation 1
- JWST 511 (3) Jewish Biblical Interpretation 2
- RELG 202 (3) Religion of Ancient Israel
- RELG 203 (3) Bible and Western Culture
- RELG 300 (3) Second Temple Judaism
- RELG 302 (3) Old Testament Studies 1
- RELG 303 (3) Literature of Ancient Israel 2
- RELG 306 (3) Rabbinic Judaism
- RELG 308 (3) Ancient Bible Translations
- RELG 390D1 (3) Elementary Biblical Hebrew
- RELG 390D2 (3) Elementary Biblical Hebrew
- RELG 407 (3) The Writings
- RELG 408 (3) The Prophets
- RELG 491 (3) Hebrew Texts
- RELG 492 (3) Hebrew Texts
- RELG 502 (3) Greco-Roman Judaism

(b) Christian Scriptures and the History of Their Interpretation

- RELG 203 (3) Bible and Western Culture
- RELG 210 (3) Jesus of Nazareth
- RELG 280 (6) Elementary New Testament Greek
- RELG 302 (3) Old Testament Studies 1
- RELG 303 (3) Literature of Ancient Israel 2
- RELG 308 (3) Ancient Bible Translations
- RELG 311 (3) New Testament Studies 1
- RELG 312 (3) New Testament Studies 2
- RELG 313 (3) Topics in Biblical Studies 1
- RELG 314 (3) Topics in Biblical Studies 2
- RELG 381 (3) Advanced New Testament Greek
- RELG 411 (3) New Testament Exegesis
- RELG 482 (3) Exegesis of Greek New Testament
- RELG 583 (3) Hellenistic Religious Texts

(c) Hindu and Buddhist Scriptures and the Histories of Their Interpretations

- RELG 252 (3) Hinduism and Buddhism
- RELG 253 (3) Religions of East Asia
- RELG 254 (3) Introduction to Sikhism
- RELG 257D1 (3) Introductory Sanskrit
- RELG 257D2 (3) Introductory Sanskrit
- RELG 264 (3) Introductory Tibetan 1
- RELG 265 (3) Introductory Tibetan 2
- RELG 266 (3) Introductory Tamil 1
- RELG 267 (3) Introductory Tamil 2
- RELG 337 (3) Themes in Buddhist Studies
- RELG 342 (3) Theravada Buddhist Literature
- RELG 344 (3) Mahāyāna Buddhism
- RELG 348 (3) Classical Hinduism
- RELG 350 (3) Bhakti Hinduism
- RELG 352 (3) Japanese Religions
- RELG 354 (3) Chinese Religions
- RELG 357D1 (3) Sanskrit 2
- RELG 357D2 (3) Sanskrit 2
- RELG 364 (3) Intermediate Tibetan 1
- RELG 365 (3) Intermediate Tibetan 2
- RELG 442 (3) Pure Land Buddhism

RELG 443	(3)	Japanese Esoteric Buddhism
RELG 451	(3)	Zen: Maxims and Methods
RELG 452	(3)	East Asian Buddhism
RELG 453	(3)	Vajrayana Buddhism
RELG 454	(3)	Modern Hindu Thought
RELG 457D1	(3)	Advanced Sanskrit
RELG 457D2	(3)	Advanced Sanskrit
RELG 464	(3)	Advanced Tibetan 1
RELG 465	(3)	Advanced Tibetan 2
RELG 545	(3)	Ramayana: Multiple Lives
RELG 546	(3)	Indian Philosophy
RELG 548	(3)	Indian Buddhist Philosophy
RELG 552	(3)	Advaita Vedanta
RELG 553	(3)	Religions of South India 1
RELG 554	(3)	Religions of South India 2

HONOURS IN RELIGIOUS STUDIES (60 credits)

The Honours program in Religious Studies offers a degree of analysis and concentration beyond that of the Major program through coursework, intensive research and discussion with peer groups.

There are no prerequisites for entry to the program. Students must, however, maintain a program GPA and a CGPA of 3.00 (or 3.50 for First Class Honours).

While gaining general knowledge of the study of religion, students also develop more concentrated expertise in either Western religious traditions (Option 1) or Asian religious traditions (Option 2).

Required Courses (9 credits)

RELG 204	(3)	Judaism, Christianity and Islam
RELG 456	(3)	Theories of Religion
RELG 555	(3)	Honours Seminar

Complementary Courses (51 credits)

3 credits, one of:

RELG 252	(3)	Hinduism and Buddhism
RELG 253	(3)	Religions of East Asia

6 credits of scriptural languages (Biblical Greek, Biblical Hebrew, Sanskrit, Tamil or Tibetan), related to the specialization option and chosen in consultation with the adviser.

9 credits, religion and culture, chosen from:

RELG 256	(3)	Women in Judaism and Islam
RELG 270	(3)	Religious Ethics and the Environment
RELG 271	(3)	Sexual Ethics
RELG 338	(3)	Women and the Christian Tradition
RELG 339	(3)	Gender & Sexuality in Buddhism
RELG 340	(3)	Religion and the Sciences
RELG 341	(3)	Introduction: Philosophy of Religion
RELG 345	(3)	Religion and the Arts 1
RELG 347	(3)	Topics in Religion and the Arts
RELG 355	(3)	Religion and the Arts 2
RELG 356	(3)	Gender & Sexuality in Hinduism
RELG 361	(3)	Religious Behaviour
RELG 370	(3)	Human Condition
RELG 371	(3)	Ethics of Violence/Non-Violence
RELG 375	(3)	Religion and Society
RELG 376	(3)	Religious Ethics
RELG 377	(3)	Religious Controversies

12 credits chosen from a list of approved courses in other departments in consultation with the adviser. At least 6 credits must be from the specialization option which was *not* selected.

21 credits chosen from either specialization, Option 1 or Option 2, at least 3 of these credits must be a 500-level research seminar.

Option 1: Western Religions

JWST 510	(3)	Jewish Bible Interpretation 1
RELG 201	(3)	Religions of the Ancient Near East
RELG 202	(3)	Religion of Ancient Israel
RELG 203	(3)	Bible and Western Culture
RELG 204	(3)	Judaism, Christianity and Islam

RELG 210	(3)	Jesus of Nazareth
RELG 300	(3)	Second Temple Judaism
RELG 301	(3)	Jewish Thought 200 B.C.E. - 200 C.E.
RELG 306	(3)	Rabbinic Judaism
RELG 307	(3)	Bible, Quran & Interpretations
RELG 308	(3)	Ancient Bible Translations
RELG 311	(3)	New Testament Studies 1
RELG 312	(3)	New Testament Studies 2
RELG 313	(3)	Topics in Biblical Studies 1
RELG 314	(3)	Topics in Biblical Studies 2
RELG 322	(3)	The Church in History 1
RELG 323	(3)	The Church in History 2
RELG 326	(3)	Ancient Christian Church AD54- AD604
RELG 334	(3)	The Christian Faith
RELG 336	(3)	Contemporary Theological Issues
RELG 381	(3)	Advanced New Testament Greek
RELG 399	(3)	Christian Spirituality
RELG 423	(3)	Reformation Thought
RELG 438	(3)	Topics in Jewish Theology
RELG 482	(3)	Exegesis of Greek New Testament
RELG 491	(3)	Hebrew Texts
RELG 492	(3)	Hebrew Texts
RELG 502	(3)	Greco-Roman Judaism
RELG 532	(3)	History of Christian Thought 1
RELG 533	(3)	History of Christian Thought 2
RELG 583	(3)	Hellenistic Religious Texts

Option 2: Asian Religions

RELG 337	(3)	Themes in Buddhist Studies
RELG 339	(3)	Gender & Sexuality in Buddhism
RELG 342	(3)	Theravada Buddhist Literature
RELG 344	(3)	Mahāyāna Buddhism
RELG 348	(3)	Classical Hinduism
RELG 350	(3)	Bhakti Hinduism
RELG 352	(3)	Japanese Religions
RELG 354	(3)	Chinese Religions
RELG 442	(3)	Pure Land Buddhism
RELG 451	(3)	Zen: Maxims and Methods
RELG 452	(3)	East Asian Buddhism
RELG 453	(3)	Vajrayana Buddhism
RELG 454	(3)	Modern Hindu Thought
RELG 545	(3)	Ramayana: Multiple Lives
RELG 546	(3)	Indian Philosophy
RELG 547	(3)	Special Topics in Hinduism
RELG 548	(3)	Indian Buddhist Philosophy
RELG 549	(3)	Japanese Buddhist Philosophy
RELG 551	(3)	Special Topics in Buddhism
RELG 552	(3)	Advaita Vedanta
RELG 553	(3)	Religions of South India 1
RELG 554	(3)	Religions of South India 2
RELG 556	(3)	Issues in Buddhist Studies
EAST 354	(3)	Taoist and Buddhist Apocalypses

JOINT HONOURS – RELIGIOUS STUDIES COMPONENT

(36 credits)

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours Program components from any two Arts disciplines, [see section 5.11.4 “Joint Honours Programs”](#) for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Students in Joint Honours must maintain a program GPA and a CGPA of 3.00 (3.50 for First Class Honours) and attain a B- or higher in each program course. No overlap is allowed between the courses forming each segment of the Joint Honours program.

Complementary Courses (36 credits)

3 credits from the following:

- RELG 252 (3) Hinduism and Buddhism
- or RELG 253 (3) Religions of East Asia

3 credits from the following:

- RELG 456 (3) Theories of Religion
- or RELG 555 (3) Honours Seminar

9 credits selected from the following, with at least 3 credits from each group

Sources of Western Religious Traditions

- RELG 201 (3) Religions of the Ancient Near East
- RELG 202 (3) Religion of Ancient Israel
- RELG 204 (3) Judaism, Christianity and Islam
- RELG 311 (3) New Testament Studies 1
- RELG 312 (3) New Testament Studies 2

History and Theology of the Christian Tradition

- RELG 320 (3) History of Christian Thought 1
- RELG 325 (3) Varieties Religious Experience in Christianity
- RELG 326 (3) Ancient Christian Church AD54 - AD604
- RELG 327 (3) History of Christian Thought 2
- RELG 338 (3) Women and the Christian Tradition

6 credits in Religion and Culture, selected from the following:

- RELG 256 (3) Women in Judaism and Islam
- RELG 271 (3) Sexual Ethics
- RELG 340 (3) Religion and the Sciences
- RELG 341 (3) Introduction: Philosophy of Religion
- RELG 345 (3) Religion and the Arts 1
- RELG 347 (3) Topics in Religion and the Arts
- RELG 355 (3) Religion and the Arts 2
- RELG 361 (3) Religious Behaviour
- RELG 370 (3) Human Condition
- RELG 371 (3) Ethics of Violence/Non-Violence
- RELG 375 (3) Religion and Society
- RELG 376 (3) Religious Ethics
- RELG 377 (3) Religious Controversies

15 credits, selected in consultation with an adviser, from Religious Studies courses (or approved related courses in other departments) at the 300 level or above.

APPROVED COURSES IN OTHER DEPARTMENTS

In consultation with the Adviser, students may select courses in other departments to count towards Religious Studies programs. Generally no more than four such courses will be counted towards an Honours program; no more than two such courses towards a Joint Honours program; no more than two such courses towards a Minor program. Listed below are some of the courses that have been approved in the past for inclusion in Religious Studies programs.

This list is NOT comprehensive: Students may take approved related courses in other departments of the Faculty of Arts, such as Anthropology, Art History, Classics, English, History, Italian Studies, Philosophy, Sociology. Contact the Religious Studies Office at (514) 398-4121 to speak with an adviser.

Please note that some of these courses have prerequisites that are not approved for Religious Studies programs.

Institute of Islamic Studies

- ISLA 410 (3) History: Middle-East 1798-1918
- ISLA 411 (3) History of the Middle East 1918-1945
- ISLA 505 (3) Major Themes of Islamic Religious Expression
- ISLA 510D1 (3) History: Islamic Civilization - Classical
- ISLA 510D2 (3) History: Islamic Civilization - Classical
- ISLA 511D1 (3) History: Islamic Civilization - Medieval Era
- ISLA 511D2 (3) History: Islamic Civilization - Medieval Era
- ISLA 531 (3) Survey of the Development of Islamic Thought

Jewish Studies

- JWST 211 (3) Jewish Studies 1: Biblical Period (students may not take both JWST 211 and RELG 202 for core credit)

- JWST 252 (3) Interdisciplinary Lectures (this course will be allowed only when the topic is appropriate)

- JWST 316 (3) Social and Ethical Issues in Jewish Law 1
- JWST 359 (3) Topics in Jewish Philosophy 2

Courses requiring reading knowledge of Hebrew:

- JWST 330 (3) A Book of the Bible
- JWST 345 (3) Introduction to Rabbinic Literature
- JWST 510 (3) Jewish Biblical Interpretation 1
- JWST 511 (3) Jewish Biblical Interpretation 2
- JWST 535 (3) Exegetic Midrash
- JWST 543 (3) Maimonides as Parshan
- JWST 550 (3) The Bible in Hebrew Literature
- JWST 556 (3) Modern Parshanut 1
- JWST 573 (3) History of Hebrew Bible Text

East Asian Studies

- EAST 354 (3) Taoist and Buddhist Apocalypses
- EAST 551 (3) Technologies of Self in Early China

RELIGIOUS STUDIES COURSES AVAILABLE TO ARTS AND SCIENCE STUDENTS

All courses listed in the Religious Studies section (RELG) are considered as courses in Arts and Science except for courses restricted to B.Th. or S.T.M. students and courses that require permission of the Chair of the B.Th. Committee.

5.12.46 Russian and Slavic Studies (RUSS)

688 Sherbrooke Street West, Suite 425
Montreal, QC H3A 3R1

Telephone: (514) 398-3639

Fax: (514) 398-1748

E-mail: russian.slavicstudies@mcgill.ca

Website: www.mcgill.ca/russian

Chair — Laura Beraha (on leave 2008-09)

Associate Professors

Paul M. Austin; M.A.(C'nell), B.A., Ph.D.(Tor.)

Laura Beraha; B.A., M.A., Ph.D.(McG.)

Assistant Professor

Lyudmila Parts; M.A., Ph.D.(Col.)

Many opportunities are open to students with qualifications in Russian and other Slavic studies. Students may be interested in the organization of human society, comparative literature, linguistics – Russian studies are highly relevant to all of these. In addition, because of similar problems in geography, climate, industrial and economic growth, Russian studies may have a particular fascination for the Canadian student. Besides being the language of the Russian Federation, Russian is still widely used in the countries of the former Soviet Union. Since most Eastern European countries have academic exchange programs with Canada, well-qualified students should encounter little difficulty in continuing their university studies in Russia or in Eastern Europe.

Advisers: Professor Paul M. Austin, Room 341, (514) 398-4984
Professor Laura Beraha, Room 335, (514) 398-2802
Professor Lyudmila Parts, Room 332, (514) 398-1719

Students must obtain Departmental approval to register for language courses and are strongly urged to consult with the Department for advice/approval of their program plans. A placement test is available and may be booked before the start of term by calling (514) 398-3639.

MINOR CONCENTRATION IN RUSSIAN (18 credits)

(Expandable)

The Minor Concentration in Russian includes complementary courses chosen from ONE of the following streams:

- Russian Language & Literature
- Russian Language & Culture
- Advanced Russian Literature
- Advanced Russian Language

Students who wish to follow the Advanced Russian Literature or Advanced Russian Language stream must receive Departmental approval; they are designed primarily for students also intending to complete a Major Concentration in Russian.

Enrolment in courses above the 200 level is by permission of the Department only.

Required Courses (12 credits*)

- RUSS 210 (3) Elementary Russian Language 1
- RUSS 211 (3) Elementary Russian Language 2
- RUSS 310 (3) Intermediate Russian Language 1
- RUSS 311 (3) Intermediate Russian Language 2

* The required courses are designed to give students a basic working knowledge of Russian. Students who can demonstrate to the Department that they have acquired the equivalent competence elsewhere will replace these credits with courses from the Complementary Course list.

Students must obtain Departmental approval to register for language courses and are strongly urged to consult with the Department for advice/approval of their program plans.

Complementary Courses (6 credits)

Stream 1: Russian Language & Literature

- RUSS 217 (3) Russia's Eternal Questions
- RUSS 300 (3) Russian for Heritage Speakers 1
- RUSS 301 (3) Russian for Heritage Speakers 2
- RUSS 330 (3) Introduction to Soviet Russian Literature before WWII
- RUSS 331 (3) Introduction to Soviet Russian Literature after WWII
- RUSS 400 (3) Advanced Russian Language 1
- RUSS 401 (3) Advanced Russian Language 2

Stream 2: Russian Language & Culture

- RUSS 218 (3) Russian Literature in Revolution
- RUSS 219 (3) Russian Literature in Recovery
- RUSS 223 (3) Russian Writers - 19th Century
- RUSS 224 (3) From War to Revolution

*Stream 3: Advanced Russian Literature**

- RUSS 327 (3) Outlines 19th Century Russian Literature: Romantic Period
- RUSS 328 (3) Outlines 19th Century Russian Literature: Russian Realism
- RUSS 330 (3) Introduction to Soviet Russian Literature before WWII
- RUSS 331 (3) Introduction to Soviet Russian Literature after WWII
- RUSS 385 (3) Russian Drama
- RUSS 390 (3) Special Topics in Russian
- RUSS 411 (3) Drama in Russian Literature after 1850
- RUSS 450 (3) Reading the 20th Century
- RUSS 458 (3) Development Russian Novel before Turgenev
- RUSS 459 (3) Russian Novel Pushkin - Gogol
- RUSS 460 (3) Russian Novel 1860-1900 1
- RUSS 461 (3) Russian Novel 1860-1900 2
- RUSS 465 (3) Russian Modernism 1
- RUSS 466 (3) Russian Modernism 2
- RUSS 468 (3) The Age of Pushkin
- RUSS 470 (3) Individual Reading Course
- RUSS 471 (3) Independent Research
- RUSS 475 (3) Special Topics in Russian Culture
- RUSS 500 (3) Special Topics
- RUSS 510 (3) High Stalinist Culture

* By arrangement with the Department and subject to University approval, transfer credits will be accepted from Department-approved exchange/immersion programs.

*Stream 4: Advanced Russian Language**

- RUSS 415 (6) Advanced Russian Lang Intensive 1
- RUSS 416 (6) Advanced Russian Lang Intensive 2
- RUSS 450 (3) Reading the 20th Century
- RUSS 452 (3) Advanced Russian Language and Syntax 1

- RUSS 453 (3) Advanced Russian Language and Syntax 2
- RUSS 455 (3) History of the Russian Language 1
- RUSS 456 (3) History of the Russian Language 2
- RUSS 470 (3) Individual Reading Course
- RUSS 471 (3) Independent Research

* By arrangement with the Department and subject to University approval, transfer credits will be accepted from Department-approved exchange/immersion programs.

MINOR CONCENTRATION IN RUSSIAN CIVILIZATION

(Non-expandable) (18 credits)

The Minor Concentration in Russian Civilization is designed primarily as an adjunct to area studies and/or programs in the humanities or social sciences. As there are no Russian language requirements, this is a non-expandable program.

There are no prerequisites for Departmental courses. For pre/corequisites and availability of Economics, History, Jewish Studies and Political Science courses, students should refer to the departmental Calendar entry.

Required Courses (12 credits)

- RUSS 218 (3) Russian Literature in Revolution
- RUSS 219 (3) Russian Literature in Recovery
- RUSS 223 (3) Russian Writers - 19th Century
- RUSS 224 (3) From War to Revolution

Complementary Courses (6 credits)

6 credits to be selected from the following list. Please contact the department(s) in question for pre/corequisites and availability of the following courses:

- ECON 331 (3) Economic Development: Russia and USSR
- ECON 340 (3) Ex-Socialist Economies
- HIST 216 (3) History of Russia to 1801
- HIST 226 (3) Eastern Europe in 20th Century
- HIST 236 (3) Russia from 1801 to 1991
- HIST 306 (3) East Central Europe since 1944
- HIST 312 (3) East-Central Europe: 1453-1740
- HIST 313 (3) East-Central Europe: 1740-1914
- HIST 316 (3) Russia: Revolutions 1905 and 1917
- HIST 326 (3) Russia from 1905 to Present
- HIST 329 (3) Eastern Europe: 4th Century - 1453
- HIST 387 (3) The First World War
- HIST 388 (3) The Second World War
- HIST 406 (3) Petrine and Catherinian Russia
- HIST 436 (3) Topics: European History
- HIST 446 (3) Russian Thought to 1825
- HIST 456 (3) Russian Intellectual History 1825-1917
- JWST 303 (3) The Soviet Jewish Experience
- POLI 329 (3) Russian and Soviet Politics
- RUSS 199 (3) FYS: Patterns - Russian Culture
- RUSS 217 (3) Russia's Eternal Questions
- RUSS 221 (3) Russian Prose: 1980s and 1990s
- RUSS 510 (3) High Stalinist Culture
- SOCI 455 (3) Post-Socialist Societies

MAJOR CONCENTRATION IN RUSSIAN (36 credits)

Enrolment in courses above the 200 level is by permission of the Department only.

Required Courses (18 credits*)

- RUSS 210 (3) Elementary Russian Language 1
- RUSS 211 (3) Elementary Russian Language 2
- RUSS 310 (3) Intermediate Russian Language 1
- RUSS 311 (3) Intermediate Russian Language 2
- RUSS 400 (3) Advanced Russian Language 1
- RUSS 401 (3) Advanced Russian Language 2

* The required courses are designed to give students a basic working knowledge of Russian. Students who can demonstrate to the Department that they have acquired the equivalent competence elsewhere will replace these credits with courses from the Complementary Course list.

Complementary Courses (18 credits)

12 credits to be selected from the following:

- RUSS 217 (3) Russia's Eternal Questions
- RUSS 218 (3) Russian Literature in Revolution
- RUSS 219 (3) Russian Literature in Recovery
- RUSS 223 (3) Russian Writers - 19th Century
- RUSS 224 (3) From War to Revolution
- RUSS 300 (3) Russian for Heritage Speakers 1
- RUSS 301 (3) Russian for Heritage Speakers 2
- RUSS 327 (3) Outlines 19th Century Russian Literature: Romantic Period
- RUSS 328 (3) Outlines 19th Century Russian Literature: Russian Realism
- RUSS 330 (3) Introduction to Soviet Russian Literature before WWII
- RUSS 331 (3) Introduction to Soviet Russian Literature after WWII

6 credits to be selected from the following:

- RUSS 385 (3) Russian Drama
- RUSS 390 (3) Special Topics in Russian
- RUSS 450 (3) Reading the 20th Century
- RUSS 455 (3) History of Modern Russian Language
- RUSS 458 (3) Development Russian Novel before Turgenev
- RUSS 459 (3) Russian Novel Pushkin - Gogol
- RUSS 460 (3) Russian Novel 1860-1900 1
- RUSS 461 (3) Russian Novel 1860-1900 2
- RUSS 465 (3) Russian Modernism 1
- RUSS 466 (3) Russian Modernism 2
- RUSS 468 (3) The Age of Pushkin
- RUSS 470 (3) Individual Reading Course *
- RUSS 471 (3) Independent Research *
- RUSS 475 (3) Special Topics in Russian Culture
- RUSS 500 (3) Special Topics
- RUSS 510 (3) High Stalinist Culture
- RUSS 585 (3) Woman in Russian Culture

* Students must submit project proposals to their Departmental Adviser by March 15th or November 15th of the preceding term.

By arrangement with the Department and subject to University approval, transfer credits will be accepted from Department-approved exchange/immersion programs.

HONOURS IN RUSSIAN (60 credits)

The Department offers a full Honours Program in Russian for students intending to pursue graduate studies or advanced careers in the field. Students must complete 60 credits in the Program, as well as maintaining a CGPA in accordance with Faculty requirements. All students applying for an Honours in Russian must consult with an academic adviser in the Department for approval of their program. Normally, 200-level courses are taken in U1, 300 in U2 and 400 in U3. By arrangement with the Department and subject to University approval, transfer credits will be accepted from Department-approved exchange/immersion programs. Up to 9 credits, in total, can be taken toward a student's Honours program from courses offered in other departments in the Faculty, listed at the end of this section. Students who have acquired competency elsewhere will replace lower-level courses with upper-level courses.

In addition to the completion of the Honours requirements, students must also complete at least one Minor Concentration (18 credits) in an academic unit other than the one in which the Honours requirements are satisfied.

U1 Required Courses (12 credits)

- RUSS 215 (6) Elementary Russian Language Intensive 1
- RUSS 316 (6) Intermediate Russian Language Intensive 2

U1 Complementary Courses (6 credits)

selected from:

- RUSS 199 (3) FYS: Patterns - Russian Culture
- RUSS 218 (3) Russian Literature in Revolution
- RUSS 219 (3) Russian Literature in Recovery
- RUSS 221 (3) Russian Prose: 1980s and 1990s
- RUSS 223 (3) Russian Writers - 19th Century
- RUSS 224 (3) From War to Revolution

U2 Required Courses (24 credits)

- RUSS 415 (6) Advanced Russian Language Intensive 1
- RUSS 416 (6) Advanced Russian Language Intensive 2
- RUSS 327 (3) Outlines 19th Century Russian Literature: Romantic Period
- RUSS 328 (3) Outlines 19th Century Russian Literature: Russian Realism
- RUSS 330 (3) Introduction to Soviet Russian Literature before WWII
- RUSS 331 (3) Introduction to Soviet Russian Literature after WWII

U3 Required Courses (12 credits)

- RUSS 452 (3) Advanced Russian Language and Syntax 1
- RUSS 453 (3) Advanced Russian Language and Syntax 2
- RUSS 490 (3) Honours Seminar 01
- RUSS 491 (3) Honours Seminar 02

Additional Complementary Courses (6 credits)

selected from:

- RUSS 217 (3) Russia's Eternal Questions
- RUSS 410 (3) Drama in Russian Literature before 1850
- RUSS 411 (3) Drama in Russian Literature after 1850
- RUSS 450 (3) 20th-Century Russian Language and Literature before WWII
- RUSS 451 (3) 20th-Century Russian Language and Literature after WWII
- RUSS 455 (3) History of the Russian Language 1
- RUSS 456 (3) History of the Russian Language 2
- RUSS 458 (3) Development Russian Novel before Turgenev
- RUSS 459 (3) Russian Novel Pushkin - Gogol
- RUSS 460 (3) Russian Novel 1860-1900 1
- RUSS 461 (3) Russian Novel 1860-1900 2
- RUSS 462 (3) Soviet Literature: Thaw - Early 1970s
- RUSS 463 (3) Soviet Literature: Early 1970s - Perestroika
- RUSS 465 (3) Russian Modernism 1
- RUSS 466 (3) Russian Modernism 2
- RUSS 468 (3) Pushkin and Contemporaries 1
- RUSS 469 (3) Pushkin and Contemporaries 2
- RUSS 470 (3) Individual Reading Course
- RUSS 471 (3) Independent Research
- RUSS 510 (3) High Stalinist Culture

Please contact the department(s) in question for pre/corequisites and availability of the following courses:

- ECON 331 (3) Economic Development: Russia and USSR
- ECON 340 (3) Ex-Socialist Economies
- HIST 216 (3) History of Russia to 1801
- HIST 226 (3) Eastern Europe in 20th Century
- HIST 236 (3) Russia from 1801 to 1991
- HIST 306 (3) East Central Europe since 1944
- HIST 316 (3) Russia: Revolutions 1905 and 1917
- HIST 326 (3) Russia from 1905 to Present
- HIST 387 (3) The First World War
- HIST 388 (3) The Second World War
- HIST 406 (3) Petrine and Catherinian Russia
- HIST 436 (3) Topics: European History
- HIST 446 (3) Russian Thought to 1825
- HIST 456 (3) Russian Intellectual History 1825-1917
- JWST 303 (3) The Soviet Jewish Experience
- POLI 329 (3) Russian and Soviet Politics
- SOCI 455 (3) Post-Socialist Societies

According to Faculty regulations, Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

JOINT HONOURS – RUSSIAN COMPONENT (36 credits)

Students must maintain a CGPA in accordance with Faculty requirements. 12 credits in Russian and 12 credits in the cooperating department are normally taken each year. For information telephone (514) 398-3639.

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours program components from any two Arts disciplines; see section 5.11.4 “Joint Honours Programs” for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

According to Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

5.12.47 Science for Arts Students

Director — Professor Louis Lefebvre (*Biology*), (514) 398-6457

The following courses offered by the Faculty of Science may be of interest to Arts students. Not all courses are available in any given year.

Atmospheric and Oceanic Sciences

ATOC 210 (3) Introduction to Atmospheric Science
ATOC 220 (3) Introduction to Oceanic Sciences

Biology

BIOL 115 (3) Essential Biology
BIOL 210 (3) Perspectives of Science
BIOL 373 (3) Biometry

Chemistry

CHEM 150 (3) World of Chemistry: Food
CHEM 160 (3) World of Chemistry: Technology
CHEM 170 (3) World of Chemistry: Drugs
CHEM 180 (3) World of Chemistry: Environment

Computer Science

COMP 102 (3) Computers and Computing

Earth and Planetary Sciences

EPSC 200 (3) The Terrestrial Planets
EPSC 201 (3) Understanding Planet Earth
EPSC 210 (3) Introductory Mineralogy
EPSC 233 (3) Earth and Life History
EPSC 243 (3) Environmental Geology
EPSC 334 (3) Invertebrate Paleontology

Geography

GEOG 203 (3) Environmental Systems
GEOG 205 (3) Global Change: Past, Present and Future

Physics

PHYS 224 (3) Physics and Psychophysics of Music
PHYS 225 (3) Musical Acoustics

MINOR CONCENTRATION IN SCIENCE FOR ARTS STUDENTS (18 credits)

Freshman students interested in this Minor Concentration should seek advice at the earliest opportunity, either through the Freshman Advisers or by contacting the Program Director. In general, students should declare their intention to obtain this Minor Concentration during their U1 year and consult the Program Director regarding approval of courses to meet the requirements.

This Minor Concentration is administered by the Department of Biology. For more information contact Ms. Anne Comeau in the Biology Department, Room W4/13, Stewart Biological Sciences Building, (514) 398-4109; or the Program Director, Professor Louis Lefebvre, Room W6/10, Stewart Biological Sciences Building, (514) 398-6457.

Required Courses (3 credits)

BIOL 210 (3) Perspectives of Science (in U1)

Complementary Courses (15 credits)

15 credits taken in one of the disciplinary areas given below. Where suggested courses have prerequisites at the 200 or 300 level associated with them, credit for the associated prerequisites may also be counted as part of the 15 credits.

Prerequisites at the 100 level cannot be counted towards the Minor Concentration.

With the prior written approval of the Program Director, an appropriate alternative set of courses may be substituted.

DISCIPLINARY AREAS

Atmospheric and Oceanic Sciences

Students should note that MATH 133 (or its CEGEP equivalent) is not essential as a prerequisite for these courses.

ATOC 210 (3) Introduction to Atmospheric Science
ATOC 214 (3) Intro to the Physics of the Atmosphere
ATOC 215 (3) Oceans, Weather and Climate
ATOC 220 (3) Introduction to Oceanic Sciences

Biochemistry

Prerequisites which cannot be counted towards the Minor Concentration: BIOL 111 and BIOL 112 plus CHEM 120 (or CHEM 121) or their CEGEP equivalents.

15 credits taken from the following courses and their associated 200- or 300-level prerequisites:

ANAT 262 (3) Introductory Molecular and Cell Biology
BIOC 212 (3) Molecular Mechanisms of Cell Function
(Prerequisite: BIOL 200)
BIOL 200 (3) Molecular Biology
CHEM 212 (4) Introductory Organic Chemistry 1

Students who have completed CHEM 212 and CHEM 222 or their CEGEP equivalents may take one or both of the following:

BIOC 311 (3) Metabolic Biochemistry (Prerequisite: BIOL 200, BIOL 201 or BIOC 212, CHEM 222)
BIOC 312 (3) Biochemistry of Macromolecules
(Prerequisite: BIOC 311, BIOL 200, BIOL 201 or BIOC 212)

Biology

Students interested in Biology can choose between two streams. One is oriented towards cell and molecular biology and leads to upper level courses in developmental biology, human genetics, molecular biology, or allied fields. The other is oriented more to organismal biology and leads to upper level courses in biodiversity, ecology, sociobiology, neurobiology, behaviour, or conservation biology. See Ms. Anne Comeau in the Biology Department, Room W4/13, Stewart Biology Building, to arrange a session for counsel on choice of courses above the 200 level.

Prerequisites which cannot be counted towards the Minor Concentration: BIOL 111 and BIOL 112 plus CHEM 120 (or CHEM 121) or their CEGEP equivalents.

Cell and Molecular Stream:

Note: CHEM 212 or its CEGEP equivalent is prerequisite to this stream.

BIOL 200 (3) Molecular Biology
BIOL 201 (3) Cell Biology and Metabolism
(Prerequisite: BIOL 200)
BIOL 202 (3) Basic Genetics (Prerequisite: BIOL 200)

plus a selected subset of these or related upper level courses:

BIOL 300 (3) Molecular Biology of the Gene (Prerequisite: BIOL 200, BIOL 201)
BIOL 303 (3) Developmental Biology (Prerequisite: BIOL 200, BIOL 201)
BIOL 313 (3) Eukaryotic Cell Biology (Prerequisite: BIOL 200, BIOL 201, and BIOL 202)
BIOL 314 (3) Molecular Biology of Oncogenes (Prerequisite: BIOL 200, BIOL 201)

Organismal Stream:

Note: CHEM 212 or its CEGEP equivalent is prerequisite to this stream.

- BIOL 205 (3) Biology of Organisms (Prerequisite: BIOL 200 and PHYS 101. Corequisite: BIOL 201)
 BIOL 215 (3) Intro. to Ecology and Evolution
 BIOL 304 (3) Evolution (Prerequisite: BIOL 205 or BIOL 215 or ENVR 202)

plus a selected subset of these or related upper level courses:

- BIOL 305 (3) Animal Diversity (Prerequisite: BIOL 215 or ENVR 200 and ENVR 202)
 BIOL 306 (3) Neurobiology (Prerequisite: BIOL 201 and PHYS 102)
 BIOL 307 (3) Behavioural Ecology/Sociobiology (Prerequisite: BIOL 205, BIOL 215 or permission)
 BIOL 308 (3) Ecological Dynamics (Prerequisite: BIOL 215 or ENVR 200 and ENVR 202)
 BIOL 310 (3) Large-scale Ecology (Prerequisite: BIOL 215 or ENVR 200 and ENVR 202, and MATH 112)
 BIOL 465 (3) Conservation Biology (Prerequisite: BIOL 215)

Chemistry

Prerequisites which cannot be counted towards the Minor Concentration: CHEM 120 (or CHEM 121) or their equivalents.

The Department also strongly encourages students to take one or more courses involving a laboratory because the science of chemistry is rooted in laboratory experience.

Note: CHEM 212 or its CEGEP equivalent is prerequisite to all 200-level or higher courses.

- CHEM 150 (3) World of Chemistry: Food
 or CHEM 160 (3) World of Chemistry: Technology
 or CHEM 170 (3) World of Chemistry: Drugs
 or CHEM 180 (3) World of Chemistry: Environment
 CHEM 201 (3) Modern Inorganic Chemistry 1
 or CHEM 281 (3) Inorganic Chemistry 1
 CHEM 203 (3) Survey of Physical Chemistry
 or CHEM 204 (3) Physical Chemistry/Biological Sciences 1
 CHEM 212 (4) Introductory Organic Chemistry 1
 CHEM 222 (4) Introductory Organic Chemistry 2 (Prerequisite: CHEM 212)
 CHEM 257D1 (2) Introductory Analytical Chemistry
 CHEM 257D2 (2) Introductory Analytical Chemistry
 CHEM 301 (3) Modern Inorganic Chemistry 2
 or CHEM 381 (3) Inorganic Chemistry 2 (Prerequisite: CHEM 201 or CHEM 281)
 CHEM 302 (3) Introductory Organic Chemistry 3 (Prerequisite: CHEM 212, CHEM 222)
 CHEM 334 (3) Advanced Materials (Prerequisites: CHEM 110/CHEM 120 or CHEM 111/CHEM 121 and PHYS 101/PHYS 102 or PHYS 131/PHYS 142 or CEGEP Physics and Chemistry)
 or CHEM 307 (3) Analytical Chemistry of Pollutants (Prerequisite: one course in analytical chemistry)

Computer Science

[Students in any Minor or Major Concentration or Honours Program in Computer Science cannot choose this disciplinary area.]

Prerequisites which cannot be counted towards the Minor Concentration: MATH 139 or MATH 140, MATH 141, and MATH 133 and COMP 102 or their CEGEP equivalents.

A selection of courses should be taken from:

- COMP 202 (3) Introduction to Computing 1
 COMP 203 (3) Introduction to Computing 2 (Prerequisite: COMP 202)
 COMP 250 (3) Introduction to Computer Science (Major and Honours)

- COMP 251 (3) Data Structures and Algorithms (Prerequisite: COMP 250 or COMP 203)

plus some of the following courses:

- COMP 273 (3) Introduction to Computer Systems (Prerequisite: COMP 202)
 COMP 302 (3) Programming Languages and Paradigms (Prerequisite: COMP 203 or COMP 250)

Earth and Planetary Sciences

A combination of EPSC 210, EPSC 212, and one or more of EPSC 200, EPSC 201, and EPSC 243 provides a grounding in these inter-related disciplines in preparation for more specialized courses which follow:

- EPSC 200 (3) The Terrestrial Planets
 EPSC 201 (3) Understanding Planet Earth
 EPSC 203 (3) Structural Geology
 EPSC 205 or (3) Astrobiology
 ANAT 205
 EPSC 210 (3) Introductory Mineralogy
 EPSC 212 (4) Introductory Petrology (Prerequisite: EPSC 210)
 EPSC 220 (3) Principles of Geochemistry (Prerequisite: EPSC 201, EPSC 210)
 EPSC 231 (2) Field School 1 (Prerequisite: EPSC 222)
 EPSC 233 (3) Earth and Life History
 EPSC 243 (3) Environmental Geology
 EPSC 320 (3) Elementary Earth Physics (Prerequisite: EPSC 222)
 EPSC 334 (3) Invertebrate Paleontology
 EPSC 425 (3) Sediments to Sequences (Prerequisite: EPSC 210, EPSC 212)

Geography

[Students in any Minor or Major Concentration or Honours Program in Geography cannot choose this disciplinary area.]

Geography advisers recommend including some preparation in chemistry, statistics and calculus for study in this area even if formal prerequisites are not in place. A selection of courses should be taken from:

- GEOG 203 (3) Environmental Systems
 GEOG 205 (3) Global Change: Past, Present and Future
 GEOG 272 (3) Earth's Changing Surface
 GEOG 305 (3) Soils and Environment (Prerequisite: GEOG 203)
 GEOG 321 (3) Climatic Environments (Prerequisite: GEOG 203 or ATOC 210 or permission)
 GEOG 322 (3) Environmental Hydrology (Prerequisite: GEOG 203 or equivalent)
 GEOG 350 (3) Ecological Biogeography (Prerequisite: GEOG 302 or BIOL 205)
 GEOG 372 (3) Running Water Environments (Prerequisite: GEOG 203 and GEOG 272 or ENVR 200 and ENVR 202)

Mathematics and Statistics

[Students in any Minor or Major Concentration or Honours Program in Mathematics and Statistics cannot choose this disciplinary area.]

Suggested courses:

- MATH 133 (3) Vectors, Matrices and Geometry
 MATH 203 (3) Principles of Statistics 1
 MATH 204 (3) Principles of Statistics 2 (Prerequisite: MATH 203 or equivalent)
 MATH 222 (3) Calculus 3
 MATH 338 (3) History and Philosophy of Mathematics

Microbiology and Immunology

Prerequisites which cannot be counted towards the Minor Concentration: BIOL 111 and BIOL 112, CHEM 120 (CHEM 121) or their CEGEP equivalents.

Students can complete the 15 credits from the following courses and their associated prerequisites:
Note: CHEM 212 or its CEGEP equivalent is prerequisite, or co-requisite, to these courses.

- MIMM 211 (3) Introductory Microbiology
MIMM 314 (3) Immunology (Prerequisite: BIOL 200 and BIOL 201 or BIOC 212)
MIMM 323 (3) Microbial Physiology (Prerequisite: MIMM 211)
MIMM 324 (3) Fundamental Virology (Prerequisite: MIMM 211, BIOL 200, BIOL 201 or BIOC 212)

Pathology

Prerequisites which cannot be counted towards the Minor Concentration: BIOL 111 and BIOL 112 plus CHEM 120 (or CHEM 121) or their CEGEP equivalents.

This course, together with its associate prerequisites, is well suited to students with an interest in medicine.

Note: CHEM 212 or its CEGEP equivalent is also prerequisite, or corequisite, to this course.

- PATH 300 (3) Human Disease (Prerequisites: BIOL 200, BIOL 201 or BIOC 212, PHGY 209. Pre- or corequisite PHGY 210)

Physics

Prerequisites which cannot be counted towards the Minor Concentration: Most of the courses listed require at least CEGEP-level prerequisites or their equivalent in both Mathematics and Physics.

Exceptions are PHYS 200, PHYS 208, PHYS 209, MATH 223. A possible 12-credit combination without such prerequisites is PHYS 200, PHYS 224 and PHYS 225.

Honours courses may be substituted for their Major equivalents only with the permission of the Department.

- PHYS 200 (3) Space, Time and Matter
PHYS 208 (1) Introduction to Selected Topics in Physics
PHYS 224 (3) Physics and Psychophysics of Music
PHYS 225 (3) Musical Acoustics (Prerequisite: PHYS 224)
PHYS 230 (3) Dynamics of Simple Systems
PHYS 232 (2) Heat and Waves (Prerequisite: PHYS 230)
PHYS 241 (2) Signal Processing
PHYS 242 (3) Electricity and Magnetism (Prerequisite: MATH 222)
PHYS 257 (3) Experimental Methods 1 (Prerequisite: PHYS 230 or PHYS 250)
PHYS 258 (3) Experimental Methods 2 (Prerequisite: PHYS 257)

Physiology

Prerequisites which cannot be counted towards the Minor Concentration: BIOL 111 and BIOL 112, CHEM 110 (or CHEM 111), PHYS 101 (or PHYS 131) and PHYS 102 (or PHYS 142), CHEM 120 (or CHEM 121) or their CEGEP equivalents.

Students should take either:

- PHGY 201 (3) Human Physiology: Control Systems (Prerequisite: CHEM 212)
and PHGY 202 (3) Human Physiology: Body Functions (Prerequisite: CHEM 212)
or PHGY 209 (3) Mammalian Physiology 1 (Prerequisite: CHEM 212, BIOL 200, BIOL 201 or BIOC 212)
and PHGY 210 (3) Mammalian Physiology 2 (Prerequisite: CHEM 212, BIOL 200, BIOL 201 or BIOC 212)

and one or more of these higher level courses:

- PHGY 311 (3) Channels, Synapses & Hormones (Prerequisite: PHGY 209, PHGY 210 or equivalent or permission.)

- PHGY 312 (3) Respiratory, Renal, & Cardiovascular Physiology (Prerequisite: PHGY 209, PHGY 210 or equivalent, PHGY 311 or permission.)
PHGY 313 (3) Blood, Gastrointestinal, & Immune Systems Physiology (Prerequisite: PHGY 209, PHGY 210 or equivalent, PHGY 311 or permission.)

Psychology

[Students in any Minor or Major Concentration or Honours Program in Psychology cannot choose this disciplinary area.]

Prerequisites which cannot be counted towards the Minor Concentration: PSYC 100 plus BIOL 111 or BIOL 112 or BIOL 115 (or their CEGEP equivalents).

Students in the Minor Concentration take two of the following courses:

Note: PSYC 204 is prerequisite to this area:

- PSYC 211 (3) Intro Behavioral Neuroscience
PSYC 212 (3) Perception
PSYC 213 (3) Cognition
PSYC 215 (3) Social Psychology

plus one or more Psychology courses at the 300 level or higher (excluding PSYC 305). Students are recommended to satisfy the upper level course requirement by taking 6 credits from one of the areas of specialization specified in the Psychology section.

5.12.48 Sexual Diversity Studies Program

Office of Interdisciplinary Programs
3460 McTavish Street, Room 242
Montreal, QC H3A 1X9

Program Committee Chair — B. Lewis (*History*)

Program Committee

K. Borris (*English*), S. Brotman (*Social Work*), E. Elbourne (*History*), A. Hepburn (*English*), S. Mulay (*Medicine*), L. Whitesell (*Music*)

The Minor Concentration in Sexual Diversity Studies is informed by a tradition of critical inquiry developed within various frameworks including Women's Studies and Gay, Lesbian and Queer Studies. It is designed to introduce students to the latest scholarship on the study of sexuality and sexual and gender diversity across a wide range of disciplines and cultures.

MINOR CONCENTRATION IN SEXUAL DIVERSITY STUDIES (18 credits)

Required Course (3 credits)

- SDST 250 (3) Introduction: Sexual Diversity Studies

Note: *indicates courses that are acceptable only when the topic is appropriate for Sexual Diversity Studies.

Complementary Courses (15 credits)

- COMS 310 (3) Media and Feminist Studies
EAST 350 (3) Gender and Sexuality in Chinese Literature
EAST 370 (3) History of Sexuality in Japan
ENGL 354 (3) Sexuality and Representation
ENGL 493 (3) Image and Text 2
HIST 323 (3) History and Sexuality 1
HIST 347 (3) History and Sexuality 2
HIST 420 (3) Gender and Sexuality in Modern China
HIST 424 (3) Gender, Sexuality & Medicine
HIST 433 (3) British Queer History
HIST 448 (3) Women, Gender and Sexuality in the Middle East

MUAR 399	(3)	Music and Queer Identity
PHIL 242	(3)	Introduction to Feminist Theory
PHIL 442	(3)	Topics in Feminist Theory
PSYC 436	(3)	Human Sexuality and its Problems
RELG 271	(3)	Sexual Ethics
RELG 339	(3)	Gender & Sexuality in Buddhism
RELG 356	(3)	Gender & Sexuality in Hinduism
SDST 450	(3)	Independent Reading & Research
SOCI 489	(3)	Gender, Deviance and Social Control
SOCI 530	(3)	Sex and Gender
SWRK 342	(3)	Practice with Gay, Lesbian, Bisexual & Two-Spirit People
WMST 402*	(3)	Women's Studies Special Topics 2
WMST 513	(3)	Gender, Race and Science

Chair — Alberto Cambrosio

Emeritus Professor

Margaret Lock; B.Sc.(Leeds), M.A., Ph.D.(Calif.) (*Marjorie Bronfman Professor in Social Studies in Medicine*)

Professors

Alberto Cambrosio; M.A.(Sher.), Ph.D.(Montr.)

Andrea Tone; B.A.(Qu.), M.A., Ph.D.(Emory) (*Canada Research Chair in the Social History of Medicine*)

George Weisz; M.A., Ph.D.(SUNY), Dr. 3rd Cy(Paris) (*Cotton-Hannah Professor of the History of Medicine*)

Allan Young; M.A.(Wash.), B.A., Ph.D.(Penn.)

Associate Professors

Faith Wallis; M.A., M.L.S.(McG.), Ph.D.(Tor.)

Thomas Schlich; M.D.(Marburg), Ph.D.(Freiburg) (*Canada Research Chair in History of Medicine*)

The Minor Concentration in Social Studies of Medicine is an interdisciplinary concentration of courses designed to address the needs of (1) undergraduates preparing for one of the health professions, and (2) social sciences and humanities undergraduates who wish to gain a broader interdisciplinary understanding of medicine and health issues.

The Minor Concentration in Social Studies of Medicine presents medicine as a complex network of institutions, cultures and political relations embedded in the institutions, cultures and political relations of the larger society. Courses are divided into three groups: History of Medicine, Anthropology of Medicine, and Sociology of Medicine.

The Minor consists of 18 credits. Students are required to take six credits from each of the three groups. **Note:** No overlap is permitted with courses counting towards the student's Major Concentration.

MINOR CONCENTRATION IN SOCIAL STUDIES OF MEDICINE (18 credits)

Complementary Courses (18 credits)

6 credits from each of the following groups:

History of Medicine

HIST 249	(3)	Health and the Healer in Western History
HIST 319	(3)	The Scientific Revolution
HIST 330	(3)	Science in the Medieval West
HIST 335	(3)	Science from Greeks to Newton
HIST 348	(3)	China: Science-Medicine-Technology
HIST 356	(3)	Medicine in the Medieval West
HIST 381	(3)	Colonial Africa: Health/Disease

HIST 424	(3)	Gender, Sexuality & Medicine
HIST 449	(3)	Medicine in the Ancient World
HIST 452	(3)	Medicine in Europe 1500-1700
HIST 457	(3)	Topics in Medical History
HIST 458	(3)	Modern Medicine: Seminar
HIST 459	(3)	Modern Medicine: Research
HIST 466	(3)	Seminar: Medieval Medicine
HIST 496	(3)	Research: Medieval Medicine
WMST 513	(3)	Gender, Race and Science

Anthropology of Medicine

ANTH 227	(3)	Medical Anthropology
ANTH 302	(3)	New Horizons in Medical Anthropology
ANTH 314	(3)	Psychological Anthropology
ANTH 407	(3)	Anthropology of the Body
ANTH 438	(3)	Topics in Medical Anthropology
ANTH 439	(3)	Theories of Development
ANTH 443	(3)	Medical Anthropological Theory
ANTH 480	(3)	Special Topic 5
ANTH 481	(3)	Special Topic 6
ANTH 482	(3)	Special Topic 7
ANTH 483	(3)	Special Topic 8
ANTH 484	(3)	Special Topic 9
ANTH 485	(3)	Special Topic 10

Sociology of Medicine

SOCI 225	(3)	Medicine and Health in Modern Society
SOCI 309	(3)	Health and Illness
SOCI 310	(3)	Sociology of Mental Disorder
SOCI 338	(3)	Introduction to Biomedical Knowledge
SOCI 390	(3)	Gender and Health
SOCI 425	(3)	Sociology of the Body
SOCI 508	(3)	Medical Sociology and Social Psychiatry
SOCI 515	(3)	Medicine and Society
SOCI 525	(3)	Health Care Systems in Comparative Perspective
SOCI 538	(3)	Selected Topics in Sociology of Biomedical Knowledge

Director — Wendy Thomson

Emeritus Professor

David E. Woodsworth; B.A., Dipl.S.W.(Tor.), M.A.(Mich.), Ph.D.(Brandeis)

Professors

Linda Davies; B.S.W., M.S.W.(McG.), Ph.D.(N. Lond. Poly.)

Peter Leonard; B.Sc., M.Sc., Dip. Mental Health(Lond.)

Wendy Thomson; B.S.W., M.S.W.(McG.), Ph.D.(Brist.)

James Torczyner; B.H.L.(Yeshiva), M.S.W., D.S.W.(Calif.)

Nico Trocmé; B.A., M.S.W., Ph.D.(Tor.) (*The Philip Fisher Chair in Social Work*)

Associate Professors

Shari Brotman; B.S.W., M.S.W.(McG.), Ph.D.(Tor.)

Myriam Denov; B.A.(Tor.), B.S.W.(McG.), M.A.(Ott.), Ph.D.(Camb.)

Sydney Duder; B.Sc., M.S.W., Dip.Adv.Soc.Wk.Pr., Ph.D.(McG.)

Estelle Hopmeyer; B.A., M.S.W.(McG.)

Julia Krane; B.A.(Ott.), B.S.W.(McG.), M.S.W., Ph.D.(Tor.)

Assistant Professors

Delphine Collin-Vézina; B.Sc., Ph.D.(Montr.)

Amanda Grenier; B.S.W.(Windsor), M.S.W., Ph.D.(McG.)

Jill Hanley; B.A., B.S.W.(McG.), M.A.(Tufts), Ph.D.(Montr.)
 Nicole Ives; B.A.(Col.), M.S.W., Ph.D.(Penn.)
 Lucyna Lach; B.A., M.S.W., Ph.D.(Tor.)
 Tamara Sussman; B.A., B.S.W., M.S.W.(McG.), Ph.D.(Tor.)

Field Education Program

Francine Granner; B.S.W., M.S.W.(McG.)
 Karen Hetherington; B.A.(C'dia), M.A.(Montr.)

The School of Social Work offers an undergraduate program leading to a Bachelor of Social Work (B.S.W.) degree. The B.S.W. program:

- 1) prepares students for generalist social work practice in a range of health and social service positions (the B.S.W. represents the point of admission in to the 'Ordre Professionnel des Travailleurs Sociaux du Québec' and the 'Canadian Association of Social Workers);
- 2) prepares students for entry into specialized professional studies at the graduate level.

A 90-credit program is offered to students entering from CEGEP or equivalent, students who transfer from within McGill or other universities, and mature students. A 60-credit program is offered to students who already have an undergraduate degree. *Students are eligible to apply to the M.S.W. program after completing 30 credits of the 60-credit program.*

Note: Quebec law requires that candidates seeking admission to the provincially recognized regulatory bodies possess a working knowledge of the French language, i.e., be able to communicate verbally and in writing in that language. For further information, refer to [Language Requirements for Professions, section 3.10.1](#).

Applications are encouraged from persons of diverse backgrounds, including members of minority groups and persons of low income.

The objectives of the B.S.W. program are to provide an academic environment within which students will develop:

- integrated social work knowledge pertaining to its history, theoretical foundations, research base, practice modalities and policies that influence the delivery of health and social services;
- professional skills in the well-established methods of practice with individuals, families, and groups in communities and organizations;
- an understanding of social policy in Canada, the factors, processes and forces that shape it and the skills to intervene;
- an awareness of the various dimensions of diversity and how they intersect in an increasingly heterogeneous society;
- a sense of identity with the profession of social work, which implies awareness of self as the intervening agent in practice, a sense of responsibility that accompanies the act of intervention, and sensitivity to the ethical issues that arise in practice, and;
- a commitment to advancing knowledge and improving skills in social work knowledge and skills that are the prerequisites for entering into more specialized professional studies at the graduate level.

The B.S.W. degree is offered in two ways:

1. as a three-year undergraduate B.S.W. program, and
2. as a two-year program for applicants who already have an undergraduate degree in another discipline.

BACHELOR OF SOCIAL WORK (B.S.W.) – THREE-YEAR PROGRAM – ADMISSION

Three categories of applicants are eligible to apply for September admission to the Three-Year Bachelor of Social Work:

1. Applicants who have completed a DEC from CEGEP or have completed equivalent studies with better than average grades and have related social work experience will be considered for admission to a minimum 90-credit program.
2. Transfer Students
Students who have begun undergraduate degree programs either at McGill or at other universities may apply to transfer to

the School of Social Work. In order to qualify as a transfer student, applicants are expected to have a B average in their course work (minimum 3.00 CGPA). While previously taken credits may be accepted towards the B.S.W. program requirements, accepted applicants will be required to complete a minimum of 60 approved McGill credits over three academic years. Accepted transfer credits are assessed individually at the point of admission.

Students wishing to transfer after their Freshman year must have completed the minimum 24 credits required for the Arts Freshman Program. Completion of these credits does not exempt students from any of the course requirements for the B.S.W. degree, nor decrease their credit requirement. Those who have taken more than 24 credits may, however, have their social science course requirements decreased.

3. Mature Students

Residents of Canada who are 23 years of age or older, and who lack the academic background normally required for admission, may apply for entrance as mature students. To be considered for the B.S.W. program, applicants must have had significant paid or volunteer community work experience in related fields, and must also have completed a minimum of two appropriate courses at the college or university level, achieving a grade of B or better in each.

Enrolment in the B.S.W. program is limited. Candidates whether entering or transferring are expected to have better than average grades. Within the group of applicants who meet the academic requirements, preference is given to those who have had social work-related experience, paid or volunteer, and also to those who demonstrate personal suitability for the social work profession.

More details on entrance requirements can be found on the Web at www.mcgill.ca/applying.

BACHELOR OF SOCIAL WORK (B.S.W.) THREE-YEAR PROGRAM (90 credits)

The B.S.W. degree is awarded upon successful completion of 90 credits of study.

Required Courses (57 credits)

SWRK 220	(3)	History & Philosophy of Social Work
SWRK 221	(3)	Public Social Services in Canada
SWRK 222	(3)	Introduction to Practicum
SWRK 223	(3)	Poverty and Inequality
SWRK 224	(3)	Human Development Across the Lifespan
SWRK 320	(3)	Practice with Individuals and Families 1
SWRK 321	(3)	Introduction to Practice with Groups
SWRK 322	(3)	Field Practice 1
SWRK 323	(3)	Field Practice 2
SWRK 325	(3)	Anti-Oppression Social Work Practice
SWRK 326	(3)	Practice with Individuals and Families 2
SWRK 327	(3)	Approaches to Community Practice
SWRK 420	(3)	Advanced Field Practice 1
SWRK 421	(3)	Advanced Field Practice 2
SWRK 422D1/D2	(3)	Integrative Seminar
SWRK 423	(3)	Social Work Research
SWRK 424	(3)	Mental Health and Illness
SWRK 428	(3)	Social Policy and Administration
SWRK 525	(3)	Critical Thought and Ethics in Social Work

Complementary Courses (24-27 credits)

6-9 credits of Social Work courses (SWRK)

18 credits of Social Sciences to be completed in Anthropology (ANTH), Economics (ECON), Political Science (POLI), Psychology (PSYC), or Sociology (SOCI).

At least 6 of the 18 social science credits must be taken at the 300-level or higher; or

At least 9 of the 18 social science credits must be taken in one department.

Courses given in other departments may be considered on an individual basis and require special permission of the Undergraduate Coordinator.

Electives (6-9 credits)

To be taken in a discipline other than Social Work

Please note that, although not a requirement for the 3-year B.S.W. program, a course in statistics is a prerequisite for admission into the M.S.W. program at McGill. Students in the 3-year B.S.W. program who have not previously completed a course in statistics and are planning on completing a graduate degree are, therefore, strongly encouraged to take a statistics course during their undergraduate studies.

Field Practicum

Students in the 3-year B.S.W. program complete a field placement during their second and third years, 2 days per week, in different settings each year. Students must have completed a minimum of 24 credits of the 90 credits of study before commencing their second year placement, and 54 credits before commencing their third year placement.

Grading Policy

Students are required to obtain a grade of C or better in all of their Social Work courses (66 credits) and also in their 18 social science credits. If students receive a D in any of these courses, they must take additional courses to satisfy the program requirement. Only in an elective course will the grade of D be counted for credit.

Satisfactory/Unsatisfactory (S/U) Option Policy

Please note that the S/U option can only be selected for an elective course; please see "**Courses Taken under the Satisfactory/ Unsatisfactory (S/U) Option**", in section 3.3.6.

BACHELOR OF SOCIAL WORK (B.S.W.) – ADMISSION TWO-YEAR PROGRAM (60 credits)

Admission Requirements

The minimum requirements for admission to the Two-Year Bachelor of Social Work are as follows:

1. Bachelor's degree (DCS/DEC from CEGEP plus a minimum of a 90-credit, or three-year university degree; or, a high school diploma plus a minimum of a 120-credit or four-year university degree).
2. Completion of at least 9 credits (3 courses) in social sciences (including Anthropology, Economics, Political Science, Psychology, or Sociology).
3. 3 credits (one course) in Human Development and 3 credits (one course) in Research Methods at university level.
4. 3 credits (one course) in Statistics at university or CEGEP level.
5. Minimum CGPA of 3.0 out of 4.0 (or equivalent).
6. Paid and voluntary work experience.

While not a prerequisite for admission, working knowledge of the French language is important not only for candidates who intend to seek admission to the Quebec professional corporation, but also for those who will be completing a field placement in the province of Quebec.

More details on entrance requirements are available on the Web, at www.mcgill.ca/applying.

BACHELOR OF SOCIAL WORK (B.S.W.) – TWO-YEAR PROGRAM (60 credits)

The B.S.W. degree is awarded upon successful completion of 60 credits of study.

Required Courses (45 credits)

| SWRK 525 | (3) Critical Thought and Ethics in Social Work |

Complementary Courses (12 credits)

Social Work (SWRK) courses only

Electives (3 credits)

To be taken in a discipline other than Social Work

Note: Students in the 60-credit B.S.W. program are eligible to apply to the Master of Social Work (M.S.W.) program after successfully completing 30 credits of their first year of the 60-credit program.

Field Practicum

Field Practice takes place in one field setting 2½ days per week during the academic year.

Grading Policy

Students are required to obtain a grade of C or better in all of their courses. If students receive a D in any of these courses, they must take additional courses to satisfy the program requirement.

Satisfactory/Unsatisfactory (S/U) Option Policy

Please note that the S/U option can only be selected for an elective course; please see "**Courses Taken under the Satisfactory/ Unsatisfactory (S/U) Option**", in section 3.3.6.

Sociology is commonly defined as the scientific study of society. It offers the student an educational experience which is both intellectually rewarding and practically useful as a preparation for future career opportunities. It provides the student with the theoretical and analytical tools to better understand the complex social forces which affect our lives, contributing in this way to personal enrichment and more effective citizenship. It is also valuable preparation for advanced study in the social sciences, as well as for careers in the professions, management, education, law, medicine and health-related areas, social work, and communications in both the public sector and private industry.

The Department offers a Minor Concentration, a Major Concentration, and an Honours Program in Sociology. Although students from outside the Department may take courses in the Department without having had SOCI 210 Sociological Perspectives (except where noted otherwise), the course is recommended. The purpose of the Minor Concentration is to give the student a basic understanding of the field of Sociology, while the Major Concentration will provide a more comprehensive coverage of the field. The purpose of the Honours Program is to permit a student to study the field in depth, and to do an Honours Project – a research paper under the supervision of a faculty member, the topic and supervisor chosen by mutual agreement between the student and the professor.

Orientation Session for New Students

The Sociology Department Orientation Session will be held in Leacock 738 (7th floor of the Stephen Leacock Building, directly opposite the elevators).

SUBSTANTIVE AREAS OF STUDY

The Department offers four substantive areas of study:

- Institutions, Deviance, and Culture
- Politics and Social Change
- Social Stratification: Class, Ethnicity, and Gender
- Work, Organizations, and the Economy

The following lists indicate the courses which are included within each Substantive Area:

Institutions, Deviance, and Culture

- SOCI 216 (3) Social Psychology
 SOCI 219 (3) Sociology of Culture
 SOCI 225 (3) Medicine and Health in Modern Society
 SOCI 247 (3) Family and Modern Society
 SOCI 250 (3) Social Problems
 SOCI 305 (3) Socialization

- SOCI 309 (3) Health and Illness
 SOCI 310 (3) Sociology of Mental Disorder
 SOCI 315 (3) Sociology of Religion
 SOCI 318 (3) Television in Society
 SOCI 322 (3) Sociology of Literature
 SOCI 338 (3) Introduction to Biomedical Knowledge
 SOCI 377 (3) Deviance
 SOCI 388 (3) Crime
 SOCI 425 (3) Sociology of the Body
 SOCI 435 (3) Popular Culture
 SOCI 460 (3) Responses to Social Problems
 SOCI 488 (3) Punishment and Prisons
 SOCI 489 (3) Gender, Deviance and Social Control
 SOCI 495 (3) Social Problems and Conflicts
 SOCI 508 (3) Medical Sociology and Social Psychiatry
 SOCI 515 (3) Medicine and Society
 SOCI 525 (3) Health Care Systems in Comparative Perspective
 SOCI 535 (3) Sociology of the Family
 SOCI 538 (3) Selected Topics in Sociology of Biomedical Knowledge
 SOCI 571 (3) Deviance and Social Control
 SOCI 588 (3) Sociology of Knowledge

Politics and Social Change

- SOCI 222 (3) Urban Sociology
 SOCI 234 (3) Population and Society
 SOCI 254 (3) Development and Underdevelopment
 SOCI 265 (3) War, States and Social Change
 SOCI 307 (3) Sociology of Globalization
 SOCI 326 (3) Political Sociology 01
 SOCI 345 (3) Selected Topics
 SOCI 354 (3) Dynamics of Industrial Societies
 SOCI 365 (3) Health and Development
 SOCI 370 (3) Sociology: Gender and Development
 SOCI 386 (3) Contemporary Social Movements
 SOCI 390 (3) Gender and Health
 SOCI 424 (3) Networks and Social Structures
 SOCI 446 (3) Colonialism and Society
 SOCI 455 (3) Post-Socialist Societies
 SOCI 484 (3) Emerging Democratic States
 SOCI 495 (3) Social Problems and Conflicts
 SOCI 507 (3) Social Change
 SOCI 511 (3) Movements/Collective Action
 SOCI 513 (3) Social Aspects HIV/AIDS in Africa
 SOCI 519 (3) Gender and Globalization
 SOCI 545 (3) Sociology of Population
 SOCI 550 (3) Developing Societies
 SOCI 565 (3) Social Change in Panama

Social Stratification: Class, Ethnicity, and Gender

- SOCI 230 (3) Sociology of Ethnic Relations
 SOCI 270 (3) Sociology of Gender
 SOCI 301 (3) Comparative Ethnic Relations
 SOCI 327 (3) Jews in North America
 SOCI 333 (3) Social Stratification
 SOCI 353 (3) Inequality and Social Conflict
 SOCI 475 (3) Canadian Ethnic Studies Seminar
 SOCI 510 (3) Seminar in Social Stratification
 SOCI 512 (3) Ethnicity & Public Policy
 SOCI 520 (3) Migration and Immigrant Groups
 SOCI 530 (3) Sex and Gender
 SOCI 555 (3) Comparative Historical Sociology

Work, Organizations, and the Economy

- SOCI 235 (3) Technology and Society
 SOCI 304 (3) Sociology of the Welfare State
 SOCI 312 (3) Sociology of Work and Industry
 SOCI 321 (3) Gender and Work
 SOCI 420 (3) Organizations

SOCI 422 (3) Health Care Providers
 SOCI 470 (3) Topics in Economic Sociology

Advising note: Students exempted from the SOCI 350 course requirement must replace it with another 300-level or above sociology course.

MINOR CONCENTRATION IN SOCIOLOGY (18 credits)
 (Expandable)

The purpose of the Minor Concentration is to give the student a basic understanding of the field of sociology.

U1 Required Courses (6 credits)

SOCI 210 (3) Sociological Perspectives
 SOCI 211 (3) Sociological Inquiry

Complementary Courses (12 credits)

SOCI 330 (3) Sociological Theory
 or SOCI 350 (3) Statistics in Social Research

9 credits of complementary courses, at least 3 credits must be taken at the 300 level or higher.

500-level seminars are open to Honours students and social science Major Concentration students in their final year, and Minor Concentration students only with permission of the instructor.

MAJOR CONCENTRATION IN SOCIOLOGY (36 credits)

The purpose of the Major Concentration is to give the student a comprehensive understanding of the field of sociology.

U1 Required Courses (6 credits)

SOCI 210 (3) Sociological Perspectives
 SOCI 211 (3) Sociological Inquiry

U2 Required Courses (6 credits)

SOCI 330 (3) Sociological Theory
 SOCI 350 (3) Statistics in Social Research

Complementary Courses (24 credits*)

At least 3 of these credits must be at the 400 level or higher, and no more than 9 of these credits may be at the 200 level.

* A student taking the Major Concentration may take no more than 6 credits throughout the three-year program from the following: SOCI 340/SOCI 341, SOCI 342/SOCI 343, SOCI 440/SOCI 441, SOCI 442/SOCI 443.

Seminars at the 500 level are open to Honours students and social science Major Concentration students in their final year, and Minor Concentration students only with permission of the instructor.

Graduate Seminars listed below are open to final-year Honours students with adequate preparation:

SOCI 627 Political Sociology 1
 SOCI 652 Current Sociological Theory

HONOURS IN SOCIOLOGY (51 credits)

Students may register for the Honours Program at the beginning of their second year (U2).

To remain in the Honours Program and receive an Honours degree, students must maintain a cumulative grade point average (CGPA) of 3.00, as well as a program GPA of 3.30. For more information see section 5.3.5 "Program Requirements".

A Minor Concentration outside Sociology must be taken.

Required Courses (18 credits)

SOCI 210 (3) Sociological Perspectives
 SOCI 211 (3) Sociological Inquiry
 SOCI 330 (3) Sociological Theory
 SOCI 350 (3) Statistics in Social Research
 SOCI 461 (3) Quantitative Data Analysis
 SOCI 480 (3) Honours Project

Complementary Courses (33 credits*)

12 credits from one of the four Substantive Areas.
 12 credits from a second Substantive Area.

9 credits from the two remaining Substantive Areas, a minimum of 3 credits from each.

*At least 15 of the credits in Sociology must be taken at the 300 level or above, and 24 credits must be taken at the 400 level or above (for a total of at least 39 credits at or above the 300 level).

JOINT HONOURS – SOCIOLOGY COMPONENT (36 credits)

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours program components from any two Arts disciplines; see section 5.11.4 "Joint Honours Programs" for a list of available programs.

Students may register for the Joint Honours program at the beginning of their second year (U2).

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Joint Honours students must maintain a minimum CGPA of 3.00 as well as a minimum GPA of 3.30 in this component.

Required Courses (18 credits)

SOCI 210 (3) Sociological Perspectives
 SOCI 211 (3) Sociological Inquiry
 SOCI 330 (3) Sociological Theory
 SOCI 350 (3) Statistics in Social Research
 SOCI 461 (3) Quantitative Data Analysis
 SOCI 480 (3) Honours Project

Complementary Courses (18 credits)

18 credits of Sociology courses approved by the Departmental Honours Adviser.

Ex-officio

Professor Marguerite Deslauriers, Director, MCRTW
 Graduate Student Representative, Liz Airton

Women's Studies is a multidisciplinary program that offers courses in a wide range of subject areas, all of which have as their focus the study of women and gender. The program provides students with the opportunity to examine the many different ways in which gender intersects with issues such as ethnicity, sexuality, religion, class, economics and culture. Students are encouraged to explore feminist, theoretical, empirical scholarship that seeks to understand major social and intellectual issues, both past and present, throughout the world.

Students must take certain core courses in Women's Studies. The remainder of the student's courses will be selected from

offerings across the university (see the list below). These complementary courses are divided into the three groups of "Historical and Non-European," "Literature and the Arts," and "Science and Social Science." The course distribution in three groups aims at achieving intellectual coherence while recognizing the diversity of cultures, histories and issues that might be examined in Women's Studies.

Students must see an adviser in Women's Studies at a minimum upon registering in WMST and prior to selecting courses for the final year of study.

For further information concerning courses please consult the Women's Studies Handbook available from the MCRTW or on-line at www.mcgill.ca/mcrtw. The most up-to-date information concerning courses will be on the Website.

MINOR CONCENTRATION IN WOMEN'S STUDIES (18 credits) (Expandable)

Required Courses (6 credits)

WMST 200 (3) Introduction to Women's Studies
WMST 303 (3) Feminist Theory and Research

Complementary Courses (12 credits)

12 credits from the three Women's Studies Complementary Course Groups: Historical and Non-European; Literature and the Arts; Science and Social Sciences.

9 credits to be chosen from one group,
3 credits to be chosen from a second group.

By arrangement with the Chair of the Women's Studies Advisory Committee and subject to University approval, transfer credits will be accepted from approved exchange programs for a total of no more than 6 credits.

MAJOR CONCENTRATION IN WOMEN'S STUDIES (36 credits)

Required Courses (6 credits)

WMST 200 (3) Introduction to Women's Studies
WMST 303 (3) Feminist Theory and Research

Complementary Courses (30 credits)

30 credits from the three Women's Studies Complementary Course Groups: Historical and Non-European; Literature and the Arts; Science and Social Sciences.

At least 6 of the 30 credits must be at the 400 or 500 level.

12 credits to be chosen from one group,
12 credits to be chosen from a second group,
6 credits to be chosen from the remaining group.

By arrangement with the Chair of the Women's Studies Advisory Committee and subject to University approval, transfer credits will be accepted from approved exchange programs for a total of no more than 12 credits.

HONOURS IN WOMEN'S STUDIES (57 credits)

Honours students are encouraged to take at least one course in a non-European tradition. Honours students must maintain a program GPA of 3.30 and a CGPA of 3.00.

Honours students must write a thesis, to be developed within the framework of the Honours/Joint Honours Colloquium. The thesis will be supervised by an appropriate faculty member; students should secure the approval of a potential adviser during the year before undertaking the thesis. Three credits will be accorded to the thesis (to be graded by the supervisor), and 3 credits to work undertaken in the Colloquium, which requires supplemental reading and writing assignments, participation in at least two seminars by visiting speakers, training in research and thesis writing methods, presentation to the group of theses in progress, and response to the work of others.

Required Courses (12 credits)

WMST 200 (3) Introduction to Women's Studies
WMST 303 (3) Feminist Theory and Research
WMST 495D1 (1.5) Honours/Joint Honours Colloquium
WMST 495D2 (1.5) Honours/Joint Honours Colloquium
WMST 497D1 (1.5) Honours/Joint Honours Thesis

WMST 497D2 (1.5) Honours/Joint Honours Thesis

Complementary Courses (45 credits)

45 credits from the three Women's Studies Complementary Course Groups: Historical and Non-European; Literature and the Arts; Science and Social Sciences.

At least 9 of the 45 credits must be at the 400 or 500 level; no more than 18 credits can be at the 200 level.

at least 15 credits to be chosen from one group,
at least 15 credits to be chosen from a second group,
at least 6 credits to be chosen from the remaining group.

JOINT HONOURS IN WOMEN'S STUDIES (36 credits)

Joint Honours students must maintain a program GPA of 3.30 and a CGPA of 3.00.

Joint Honours students must write a thesis, to be developed within the framework of the Honours/Joint Honours Colloquium. The thesis will be supervised by an appropriate faculty member; students should secure the approval of a potential adviser during the year before undertaking the thesis. Three credits will be accorded to the thesis (to be graded by the supervisor), and 3 credits to work undertaken in the Colloquium, which requires supplemental reading and writing assignments, participation in at least two seminars by visiting speakers, training in research and thesis writing methods, presentation to the group of theses in progress, and response to the work of others.

Required Courses (12 credits)

WMST 200 (3) Introduction to Women's Studies
WMST 303 (3) Feminist Theory and Research
WMST 495D1 (1.5) Honours/Joint Honours Colloquium
WMST 495D2 (1.5) Honours/Joint Honours Colloquium
WMST 497D1 (1.5) Honours/Joint Honours Thesis
WMST 497D2 (1.5) Honours/Joint Honours Thesis

Complementary Courses (24 credits)

24 credits from the three Women's Studies Complementary Course Groups: Historical and Non-European; Literature and the Arts; Science and Social Studies.

At least 6 of the 24 credits must be at the 400 or 500 level; no more than 9 credits can be at the 200 level.

12 credits to be chosen from one group,
9 credits to be chosen from a second group,
3 credits to be chosen from the remaining group.

COMPLEMENTARY COURSE LISTS

Additions may be made during a particular calendar year depending on the topic of special courses. For final updates, go to www.mcgill.ca/mcrtw. Please note that not all courses are offered every year.

Courses currently awaiting University approval to be cross-listed as Women's Studies courses will be added to the on-line calendar and the MCRTW Website. Please go to www.mcgill.ca/courses/current and www.mcgill.ca/mcrtw.

Notes:

Courses that appear in more than one component may not be double counted.

* indicates courses that are acceptable ONLY when the topic is appropriate for Women's Studies.

6.1 The Faculties

6.1.1 Location

853 Sherbrooke Street West
 Montreal, QC H3A 2T6
 Canada

Telephone: (514) 398-4210

Faculty Websites: www.mcgill.ca/arts and
www.mcgill.ca/science

Degree Website: www.mcgill.ca/artscisao/basc

Student Affairs Office

Website: www.mcgill.ca/artscisao

The Student Affairs Office of the Faculties of Arts and of Science and the Office of the Associate Dean (Student Affairs) of the Faculty of Science are located in Dawson Hall, Rooms 110 and 115. The Student Affairs Office serves students in the Faculties of Arts and of Science.

6.1.2 Administrative Officers

For a listing of administrative officers in the Faculty of Arts, refer to [section 5.1.2 "Administrative Officers"](#), and for those in the Faculty of Science, refer to [section 12.1.2 "Faculty Administrative Officers"](#). Note that the Associate Dean (Student Affairs) of Science is responsible for students pursuing a B.A. & Sc.

The B.A. & Sc. Program Administration Committee (PAC), which oversees the curriculum and regulations for the degree, consists of the following members:

Bruce A. Arndtsen; B.A.(Car. College), Ph.D.(Stan.)

Chemistry

André Costopoulos; B.A.(McG.), M.A.(Montr.), Ph.D.(Oulu)

Anthropology

Laurie Hendren; B.Sc., M.Sc.(Qu.), Ph.D.(C'neil)

Associate Dean (Academic), Faculty of Science

Daniel Levitin; A.B.(Stan.), M.S., Ph.D.(Ore.)

Psychology

Mary MacKinnon; B.A.(Qu.), M.Phil, D.Phil.(Oxf.)

Associate Dean (Academic), Faculty of Arts

6.1.3 Programs and Teaching in Arts and in Science

Programs and teaching in Arts are described in [section 5.1.3 "Programs and Teaching in Arts"](#). Those in Science are described in [section 12.1.3 "Programs and Teaching in Science"](#). The two faculties jointly offer the B.A. & Sc., so students pursuing that degree are at home in both Arts and Science.

6.1.4 Student Affairs Office

The Student Affairs Office provides ongoing advice and guidance on programs, degree requirements, registration, course change, procedures for withdrawal, deferred exams, supplemental exams, rereads, academic standing, inter-faculty transfer, year or term away, transfer credits, second programs, second degrees, and graduation. Faculty advisers offer help managing academic situations during periods of personal, financial or medical problems, by working with students to identify various possibilities and strategies for making informed decisions.

Special requests can be made, in writing, to the Associate Dean (Student Affairs) of Science, who is responsible for students pursuing a B.A. & Sc.

The Committee on Student Standing (CSS) of the Faculty of Science will consider appeals of the Associate Dean's (Student Affairs) decisions. For information about CSS, see the Associate Dean's (Student Affairs) assistant.

For more information, please refer to our Website at www.mcgill.ca/artscisao.

6.2 Degree Admission Requirements

For information about admission requirements to the B.A. & Sc., please refer to the *Undergraduate Admissions Guide*, found at www.mcgill.ca/applying/undergrad.

For information about inter-faculty or inter-degree transfers, please refer to ["Inter-Faculty Transfer"](#), [section 3.3.12](#), as well as to the relevant information posted on the Student Affairs Office Website at www.mcgill.ca/artscisao and in the Student Affairs Office.

6.3 Degree Requirements

Each student pursuing a B.A. & Sc. must be aware of the regulations as stated in this section of the Calendar and on the McGill and Student Affairs Office Websites.

While departmental and Faculty advisers and staff are always available to give advice and guidance, the ultimate responsibility for completeness and correctness of course selection and registration, for compliance with, and completion of, program and degree requirements, and for the observance of regulations and deadlines rests with the student. It is the student's responsibility to seek guidance from the Student Affairs Office if in any doubt; misunderstanding or misapprehension will not be accepted as cause for dispensation from any regulation, deadline, program or degree requirement.

To be eligible for a B.A. & Sc., students must fulfill all Faculty degree and program requirements as indicated below:

- "Degree Requirements", [section 6.3](#)
- "Minimum Credit Requirement", [section 6.3.1](#)
- "Residency", [section 6.3.2](#)
- "Cumulative Grade Point Average (CGPA)", [section 6.3.3](#)
- "Time and Credit Limit for Completion of the Degree", [section 6.3.4](#)
- "Program Requirements", [section 6.3.5](#)
- "Course Requirements", [section 6.3.6](#)

6.3.1 Minimum Credit Requirement

Students must complete the minimum credit requirement for the degree as specified in the letter of admission.

Students are normally admitted to a four-year degree requiring the completion of 120 credits, but advanced standing of up to 30 credits may be granted to students who obtain satisfactory results in the Diploma of Collegial Studies, International Baccalaureate, French Baccalaureate, Advanced Levels, and Advanced Placement tests.

Students who are readmitted after interrupting their studies for a period of five consecutive years or more may be required to complete a minimum of 60 credits and satisfy the requirements of a program. In this case, a new GPA will be calculated. The Associate Dean (Student Affairs) of Science, in consultation with the appropriate department, may approve a lower minimum for students who had completed 60 credits or more before interrupting their studies.

Students who are readmitted after a period of absence are normally subject to the program and degree requirements in effect at the time of readmission.

6.3.2 Residency

To obtain a B.A. & Sc., students must satisfy the following residency requirements: a minimum of 60 credits of courses used to satisfy the B.A. & Sc. requirements must be taken and passed at McGill, exclusive of any courses completed as part of the math and science requirements of the B.A. & Sc. Freshman program. At least two-thirds of all departmental program requirements (Multi-track, Honours, Interfaculty) must normally be completed at McGill. However, students in Major Concentrations or Interfaculty or Honours programs who pursue an approved Study Away or Exchange program may, with departmental approval, be exempted from the two-thirds rule. In addition, some departments may require that their students complete specific components of their program at McGill.

6.3.3 Cumulative Grade Point Average (CGPA)

Each candidate for a B.A. & Sc. must achieve a minimum cumulative grade point average (CGPA) of 2.00.

6.3.4 Time and Credit Limit for Completion of the Degree

Students who need 96 or fewer credits to complete their degree requirements are expected to complete their degree in no more than eight terms after their initial registration. Students in the Freshman Program become subject to these regulations one year after their initial registration. Students who need or wish to exceed this time limit must receive permission from the Associate Dean (Student Affairs) of Science to continue their studies.

Students registered in the B.A. & Sc. are expected to complete the requirements of their programs and their degree within 120 credits. Students will receive credit for all courses (subject to degree regulations) taken up to and including the semester in which they obtain 120 credits. Students who wish to remain at McGill beyond that semester must also seek permission of the Associate Dean (Student Affairs) of Science. Permission for exceeding the time and/or credit limits will normally be granted only for valid academic reasons, such as a change of program (subject to departmental approval) and part-time status. If permission is granted, students will receive credit only for required and complementary courses necessary to complete program requirements.

6.3.5 Program Requirements

Students with specific career goals should consult an academic adviser about their choice of program within the B.A. & Sc. However, students intending to pursue further studies following the B.A. & Sc. should refer to the admissions requirements of particular programs for the appropriate prerequisite courses.

In particular, students should note the following:

- The minimum freshman science requirements in the B.A. & Sc. may not satisfy the introductory science requirements of all medical/dental schools.

- The Major Concentration in Psychology may not provide a sufficiently focussed background for admission to many graduate programs in Psychology.
- The Major Concentration in Chemistry is not certified by the Ordre des Chimistes du Québec. Students interested in pursuing a career in Chemistry in Quebec are advised to take an appropriate B.Sc. program in Chemistry.

6.3.5.1 Freshman Program

Students who need to complete 97-120 credits to fulfill their degree requirements are admitted to the Freshman Program. The Freshman Program requirements include foundational courses in both Science and Arts which must be selected as follows:

B.A. & Sc. FRESHMAN PROGRAM (30 credits)

At least two mathematics courses selected from:

MATH 139	(4)	Calculus
or MATH 140	(3)	Calculus 1
or MATH 150	(4)	Calculus A
MATH 141	(4)	Calculus 2
or MATH 151	(4)	Calculus B
MATH 133	(3)	Vectors, Matrices and Geometry

At least three foundational science courses selected from:

BIOL 111	(3)	Principles: Organismal Biology
BIOL 112	(3)	Cell and Molecular Biology
CHEM 110	(4)	General Chemistry 1
or CHEM 115	(4)	Accelerated General Chemistry: Giants in Science
CHEM 120	(4)	General Chemistry 2
Note: not open to students who have taken CHEM 115		
PHYS 101	(4)	Introductory Physics - Mechanics
or PHYS 131	(4)	Mechanics and Waves
PHYS 102	(4)	Introductory Physics - Electromagnetism
or PHYS 142	(4)	Electromagnetism and Optics

At least three Arts courses (or 9 credits) to be chosen in two of the following three categories:

Social Sciences: Anthropology, Economics, History, Linguistics, Political Science, Sociology

Humanities (Literature and Civilization): Art History and Communications Studies, Classics, East Asian Studies, English, French Language and Literature, German Studies, Hispanic Studies, Islamic Studies, Italian studies, Jewish Studies, Philosophy, Religious Studies, Russian Studies

Languages (courses may be taken in this category to improve language skills): Classics (Latin, Ancient Greek or Modern Greek), East Asian Studies (Chinese, Japanese, Korean), English or French as a Second Language, French Language and Literature, German Studies, Hispanic Studies (Spanish), Islamic Studies (Arabic, Persian, Turkish, Urdu), Italian, Jewish Studies (Hebrew, Yiddish), Russian and Slavic Studies (Polish, Russian, Armenian)

A maximum of two courses (or 6 credits) may be chosen from one category, and no more than two courses (or 6 credits) can be taken in any one department.

No course may fulfill the requirements for more than one program, including the B.A. & Sc. Freshman program.

Students who have completed the Diploma of Collegial Studies, Advanced Placement exams, Advanced Levels, the International Baccalaureate, the French Baccalaureate, or McGill placement examinations may receive exemption and/or credit for all or part of the Mathematics and foundational science courses as well as exemption from all or part of the Arts courses requirement of the Freshman Program. Similarly, students who have completed courses at other universities or colleges may receive exemptions and/or credits.

Students must carefully select their mathematics and science Freshman courses so that they have all the required prerequisites for their intended Departmental Programs.

For further details, refer to information about the B.A. & Sc. Freshman Program on the Web at www.mcgill.ca/artsciasao/basc.

6.3.5.2 Departmental Programs

Students pursuing a B.A. & Sc., other than those registered in the Freshman Program, are required to have an approved program (Multi-track, Honours, Joint Honours, Interfaculty), and to select their courses in each term with a view to timely completion of their degree and program requirements. Students must complete one of the program streams described below.

In all cases, the degree also includes a required integrative course (BASC 201; 3 credits), a complementary integrative course (3 credits) within or outside a student's programs selected from the complementary list in "[Integrative Courses](#)", [section 6.11.6](#), plus electives (10-15 credits).

MULTI-TRACK SYSTEM

To recognize the diversity of student backgrounds and interests and the multiple routes to understanding provided by a modern university, the Faculties of Arts and of Science offer a 90-credit multi-track system that includes a Major Concentration in one faculty complemented by either a Major Concentration or two Minors/Minor Concentrations in the other faculty and that may be completed in one of the following ways:

Options

- Arts Major Concentration (36 credits) + Science Major Concentration (36-38 credits) (see "[Programs in the B.A. & Sc.](#)", [section 6.11](#), for a list of programs open to students in the B.A. & Sc.)
- Major Concentration in Arts or Science (36-38 credits) + two Minors/Minor Concentrations in the other faculty (2 x 18 credits = 36 credits)

Regulations

- Programs offered by Computer Science, Mathematics and Statistics, and Psychology are considered Science programs for the purpose of the B.A. & Sc.
- Within both options, all Concentrations must be in different academic units. Thus, students may take a Geography program either in Arts or in Science, but not in both.
- Students will include within the 36 or 18 credits of their Major Concentrations or Minors or Minor Concentrations any university-level (200- or above) prerequisites to required courses within their programs.
- No course may fulfill the requirements for more than one program.

Definitions

Units: academic departments or administrative equivalents.

Programs: lists of required and complementary courses (including university level prerequisites for required courses) prepared and maintained by units.

Major Concentration: a program of 36-38 credits taken from a unit's course offerings.

Minor Concentration: a program of 18 credits taken from a unit's course offerings. Expandable Minor Concentrations are those that can, on the completion of 18 additional approved credits, be expanded into a Major Concentration within the appropriate unit.

HONOURS PROGRAM

Honours programs demand a high degree of specialisation, and require students to satisfy specific departmental and Faculty Honours requirements while maintaining good academic standing. They are designed to prepare students for graduate study. Students in the B.A. & Sc. who complete an approved Honours program must also complete an approved Minor Concentration or a Minor in the Faculties of Arts or of Science. Students must complete at least 30 credits in the Faculty of Arts and at least 30 in the Faculty of Science as part of their Honours program and their Minor Concentration or Minor program. See "[Honours Programs](#)" in [section 6.11.3](#) for a list of available programs.

To choose the Honours option, students must meet the GPA/CGPA requirements set out in "[Honours and First-Class Honours](#)" in [section 6.10.1](#).

JOINT HONOURS PROGRAM

Students who wish to study at the Honours level in two disciplines can combine a Joint Honours program component from an Arts discipline with one from a Science discipline; see section 6.11.4 "Joint Honours Programs" for a list of available programs. Each Joint Honours component consists of a maximum of 36-38 required and complementary credits (not including program prerequisites). In cases where a minimum of 24 credits are in courses normally restricted to Honours students, the total of required and complementary credits may be as few as 30.

To choose the Joint Honours option, students must meet the GPA/CGPA requirements set out in "Honours and First-Class Honours", section 6.10.1.

INTERFACULTY PROGRAM

An Interfaculty program is an approved selection of courses constituting a concentration in an intellectually coherent and inter-faculty field of studies. These courses must include approved selections from the Faculties of Arts and of Science and possibly other faculties. See section 6.11.2 "Interfaculty Programs" for a list of approved programs. Students in the B.A. & Sc. who complete an approved Interfaculty program must also complete an approved Minor Concentration or a Minor in the Faculties of Arts or of Science. Students must complete at least 30 credits in the Faculty of Arts and at least 30 in the Faculty of Science as part of their Interfaculty program and their Minor Concentration or Minor program.

6.3.6 Course Requirements

All required and complementary courses used to fulfill program requirements, including the Freshman Program, must be completed with a grade of C or better. Students who fail to obtain a satisfactory grade in a required course must either pass the supplemental examination in the course or do additional work for a supplemental grade, if these options are available, or repeat the course. Course substitution will be allowed only in special cases; students should consult their academic adviser.

Normally, students are permitted to repeat a failed course only once. (Failure is considered to be a grade of less than C or the administrative failures of J and KF.) If a required course is failed a second time, a student must appeal to the Associate Dean (Student Affairs) of Science for permission to take the course a third time. If permission is denied by the Associate Dean (Student Affairs) and/or by the Committee on Student Standing of the Faculty of Science, on appeal, the student must withdraw from the program. If the failed course is a complementary course required by the program, a student may choose to replace it with another appropriate complementary course. If a student chooses to substitute another complementary course for a complementary course in which a D was received, credit for the first course will still be given, but as an elective. If a student repeats a required course in which a D was received, credit will be given only once.

Full details of the course requirements for all programs as well as the locations of departmental advisory offices, program directors, and telephone numbers for further information are available as follows:

For a list of all programs available to B.A. & Sc. students, with links to program descriptions, see section 6.11 "Programs in the B.A. & Sc."

For a list of the required and complementary integrative courses, see section 6.11.6 "Integrative Courses".

6.3.6.1 Course Overlap

Students will not receive additional credit towards their degree for any course for which the student has already received credit at McGill, CEGEP, at another university, or as a result of Advanced Placement, Advanced Level, International Baccalaureate, or French Baccalaureate exams. It is the student's responsibility to consult the Student Affairs Office or the department offering the course as to whether or not credit can be obtained and to be aware of exclusion clauses specified in the course description in the Calendar.

Please refer to the following Website for specific information about advanced standing credits and McGill course exemptions: www.mcgill.ca/student-records/transferecredits.

Sometimes two different departments offer the same course. Such courses are called "double-prefix" courses. When such courses are offered simultaneously, students should take the course offered by the department in which they are obtaining their degree. For example, in the case of double-prefix courses CHEM XYZ and PHYS XYZ, Chemistry students take CHEM XYZ and Physics students take PHYS XYZ. If different departments offer a double-prefix course in alternate years, students may take whichever course best fits their schedule.

Credit for computer science and statistics courses will be given with the stipulations specified in "Course Overlap", section 12.3.6.1 in the Science section of the Calendar.

6.3.6.2 Courses outside the Faculties of Arts and of Science

The following regulations apply to students in the B.A. & Sc. who wish to take courses outside the Faculties of Arts and of Science:

- Regardless of their minimum credit requirement towards their B.A. & Sc., students are allowed a maximum of 12 credits in ELECTIVE and/or COMPLEMENTARY courses taken in faculties other than the Faculties of Arts and of Science.
- Students in certain designated programs that include a number of REQUIRED and COMPLEMENTARY courses in other faculties are permitted a maximum of 30 credits outside the Faculties of Arts and of Science. These programs are the Interfaculty and Honours Programs in Environment, the Minor Concentration in Environment, and the Major Concentration in Geography (Urban Systems).
- Any courses taught at McGill University may be used towards the maximum allowed except for courses in Continuing Education, for which students receive credit only in Continuing Education.
- For the purpose of this policy, courses taught in other faculties and specifically listed in the Arts or Science section of the Calendar are considered as courses taught in the Faculties of Arts and of Science.
- **The maximum number of credits allowed will be strictly enforced.**

6.3.6.3 Distance Education Courses

- A maximum of 6 credits of courses taught through distance education may be used as electives towards the B.A. & Sc. degree at McGill.
- Courses taught through distance education from institutions other than McGill will be approved as transfer credits under the following conditions:
 - the course is given by a government-accredited, degree-granting institution acceptable to McGill;
 - the course counts for credit towards degrees granted at the institution giving the course;
 - prior approval for the course is obtained from the Arts and Science Student Affairs Office.
- The combined total of regular course credits and distance education course credits may not exceed the permitted maximum number of credits per term according to the regulations for the B.A. & Sc.
- Courses taught through distance education may not be used to complete program requirements, except on an individual basis when serious, documented circumstances warrant it. In such cases, prior approval must be obtained from the student's program adviser and the Associate Dean (Student Affairs) of the Faculty of Science.

6.3.6.4 Courses Taken Under the Satisfactory/Unsatisfactory Option

For more information and restrictions, please see section 3.3.6 "Courses Taken under the Satisfactory/Unsatisfactory (S/U) Option".

6.3.6.5 Courses in English as a Second Language

ESL courses are only open to students whose primary language is not English and who have studied for fewer than five years in English-language secondary institutions. Students in the B.A. & Sc. may take a maximum of 12 credits, including academic writing courses for non-anglophones.

6.4 Advising

Students who need 96 or fewer credits to complete their degree requirements must consult academic advisers in their proposed departments of study to obtain advice and approval of their course selection (please see "Departmental Programs" in section 6.3.5.2). To facilitate program planning, they must present their transcripts and letters of admission. Such students who have not fulfilled the B.A. & Sc. Freshman Program requirements should also seek advice from an adviser in the Student Affairs Office. For a detailed description of advising and registration procedures, students should refer to "Registration", in section 3.3 and "Advising and Support", in section 4, to *Welcome to McGill*, which they receive upon acceptance from Enrolment Services, as well as to the information posted on the Student Affairs Website, www.mcgill.ca/artscisao, and to the departmental Websites.

Students who need 97-120 credits to complete their degree requirements will normally be registered in a Freshman Program until they complete their first year. They must consult an adviser in the Student Affairs Office to obtain advice and approval of their course selection. For a detailed description of advising and registration procedures, Freshman students should refer to *Welcome to McGill*, which they receive upon acceptance from Enrolment Services, as well as the Student Affairs Website, www.mcgill.ca/artscisao.

Advising for all returning students takes place in March for the upcoming academic year. For more information, students should refer to the Student Affairs Website, www.mcgill.ca/artscisao.

6.4.1 Choosing a B.A. & Sc. Program

The B.A. & Sc. is intended for students with well-defined interdisciplinary interests. There are several options for the main program, all of which specify 75-80 of the 90 credits, leaving only 10-15 credits for electives. Since there are relatively few electives, students entering a program in the B.A. & Sc. degree should have a clear idea of their objectives, goals, and intended areas of study, so that they can plan their curriculum carefully.

It should be noted that there also exists considerable flexibility within the B.A. (Faculty of Arts) and B.Sc. (Faculty of Science) programs. Students who are more interested in Arts, but would like to study some Science can do so within the B.A. degree. Similarly, students who are more interested in Science, but would like to study some Arts can do so within the B.Sc. degree. For example, B.Sc. students may complete minor concentrations in Arts and vice versa.

There are four ways to complete programs in the B.A. & Sc. degree.

1) Multi-track System

The multi-track system is intended for students who want a program that includes significant components from both Arts and from Science.

Students complete 36 credits of Arts, 36-38 credits of Science, and 6 credits of integrative courses. Students can either combine an Arts major concentration with a Science major concentration (36-38 credits) or they can select a major concentration from one

faculty and two 18 credit minor concentrations from the other. Additional guidelines for the multi-track system can be found in "Departmental Programs", in section 6.3.5.2. Students will find the program descriptions for the major and minor concentrations in Science which are unique to the B.A. & Sc. within this section of the calendar.

Descriptions of programs offered in Arts are located in the Arts section of the calendar.

2) Interfaculty Programs

Interfaculty programs are interdisciplinary in nature. There are currently two such programs: environment and cognitive science. Students in these programs complete 54 credits of the interfaculty program, a minor of 18 credits, and 6 credits of integrative courses. Students must complete at least 30 credits in the Faculty of Arts and at least 30 credits in the Faculty of Science as part of their Interfaculty program and their minor concentration or program.

ENVIRONMENT

In contrast to other Environment programs offered through the McGill School of Environment, the B.A. & Sc. Interfaculty Environment program does not have pre-defined themes and is intended for students who have a specific goal and want to define their own theme by choosing courses that help them progress towards that goal. Further information about Environment programs and academic advising can be found at www.mcgill.ca/mse.

COGNITIVE SCIENCE

The interfaculty program in Cognitive Science offered within the B.A. & Sc. degree is the only major program currently offered at McGill for students interested in this discipline. The requirements encourage students to choose courses in two of the five subject areas in Cognitive Science (Computer Science, Linguistics, Neuroscience, Philosophy, Psychology) as the focus of their program. In addition, students interested in research in this field may include up to 12 credits of research courses within their program.

3) Joint Honours

The Joint Honours option is similar to the multi-track system except that students complete two Joint Honours components, one in Arts and one in Science. At present, the choice of Science component is restricted to either Math or Psychology. However, there is a great range of choices for the Arts component.

To choose the Joint Honours option, students must meet the GPA/CGPA requirements set out in section 6.10.1 "Honours and First-Class Honours".

4) Honours

There are two B.A. & Sc. Honours programs. The Honours Program in Environment is similar to the Interfaculty program in Environment but has additional GPA requirements and an additional 6-credit required research course. Likewise, the Honours Program in Cognitive Science is similar to the Interfaculty Program in Cognitive Science with additional GPA requirements and an additional 6-credit research course requirement. Students completing an honours program must also complete a minor concentration or program, and 6 credits of integrative courses. Students must complete at least 30 credits in the Faculty of Arts and at least 30 credits in the Faculty of Science as part of their honours program and their minor concentration or program.

To choose the Honours option, students must meet the GPA/CGPA requirements set out in section 6.10.1 "Honours and First-Class Honours".

6.4.2 Preparation for Graduate School

Any choice of undergraduate degree and program constrains options for graduate school. The B.A. & Sc. provides good preparation for graduate degrees in integrated disciplines such as Cognitive or Environmental Science. Depending on the Arts or Science specific program you wish to enter in graduate school the B.A. & Sc. may or may not be adequate preparation. If you intend to

pursue an Arts or Science specific program at the graduate level, you should consult academic advisers in that discipline at McGill and at universities where you intend to apply in order to find out whether the B.A. & Sc. will prepare you adequately. If you are considering continuing on in a specific Science graduate program, you should examine the difference between the preparation provided by the 36-credit major concentrations in the B.A. & Sc. program versus the significantly more specialized major and honours programs offered in the B.Sc. programs.

6.5 Registration

All students register by Minerva, McGill's Web-based registration system.

For detailed information about registration, please refer to "Registration" in section 3.3, *Welcome to McGill*, the Student Affairs Website, www.mcgill.ca/artscisao, and the Student Records Website, www.mcgill.ca/student-records.

Students who fall into unsatisfactory standing at the end of the academic year will have their registration cancelled. They may not re-register. However, students who can provide proof of extenuating circumstances that affected their academic performance may appeal to the Associate Dean (Student Affairs) of Science for readmission. For more information, students should see section 3.3.13 "Readmission".

Students who have an outstanding fee balance from a previous term or outstanding fines will not be permitted to register. In addition, students who have registered for the upcoming academic year, but who subsequently take Summer courses without paying the fees, will have their registration cancelled. Registration will be denied until these debts are paid in full. Students must pay all debts before the end of the registration period to be permitted to register. Students with financial problems should consult the Student Aid Office, Brown Student Services Building.

Students who decide not to return to McGill after initiating registration must withdraw from all of their courses on Minerva or inform the Student Affairs Office in writing. The deadline for withdrawal from the University is the same deadline as for a course withdrawal; see section 3.3.8 "Regulations Concerning Course Withdrawal" and section 3.3.9 "Regulations Concerning University Withdrawal". After the deadline, students may, under exceptional circumstances, be granted permission to withdraw from the University. Such students should contact the Student Affairs Office for further information.

6.5.1 Program Registration

Students should refer to *Welcome to McGill* or to the Arts and Science Registration information on how to register for programs on the Student Affairs Website, www.mcgill.ca/artscisao, or the Student Records Website, www.mcgill.ca/student-records. For a list of programs that can be taken by students pursuing a B.A. & Sc., see section 6.11 "Programs in the B.A. & Sc."

6.5.2 Course Registration

All courses have limited enrolment. Students pursuing a B.A. & Sc. may register for, and take for credit, any course, unless otherwise indicated, in the sections of the Calendar applicable to the Faculties of Arts and of Science, subject to the course restrictions listed in this section.

Since the registration system is unable to verify whether or not degree regulations are respected, it is technically possible to register for courses that may not be credited towards the B.A. & Sc. When students' records are manually verified, however, any courses taken that violate the degree regulations will be flagged after the end of course change period as "not for credit towards the B.A. & Sc." As a result, the students' expected date of graduation may be delayed.

Some courses may require special permission. Students should consult this Calendar and/or the Class Schedule at

www.mcgill.ca/courses well in advance of the course change (drop/add) period to determine if permission is required of the instructor, the department, or the Faculty for any course they wish to take.

Students who believe they have valid reasons to take a course that may not be credited towards the B.A. & Sc. must obtain the permission of the Associate Dean (Student Affairs) of Science.

6.5.2.1 Registration for First-Year Seminars

Registration for First-Year Seminars is limited to students in their first year of study at McGill, i.e., newly admitted students in U0 or U1. These courses are designed to provide a closer interaction with professors and better working relations with peers than is available in large introductory courses. These seminars endeavour to teach the latest scholarly developments and expose participants to advanced research methods. Registration is on a first-come, first-served basis. The maximum number of students in any seminar is 25, although some are limited to even fewer than that.

Students may take only one First-Year Seminar during their first year at McGill. Students who register for more than one will be obliged to withdraw from all but one of them.

A list of First-Year Seminars is available in the Arts General section (see section 5.5.2.1 "Registration for First-Year Seminars") and the Science General section (see section 12.5.2.1 "Registration for First-Year Seminars") of the Calendar.

6.5.2.2 Freshman Interest Groups

Freshman Interest Groups (FIGs) are groups of approximately 15 U0 students in the B.Sc. or B.A. & Sc., led by a professor in the Faculty of Science or Faculty of Medicine and an upper-year undergraduate student. They meet once every two weeks in the fall semester to discuss a wide range of topics, such as science in the news, program choices, undergraduate research opportunities, or just aspects of life in Montreal. The purpose of a FIG is to ease the transition to McGill and Montreal and to provide students an opportunity to interact with a professor and with other U0 students in a small group. FIGs carry no credit and there is no charge. For more information and to see how to register refer to www.mcgill.ca/science/student/fig.

6.5.2.3 Registration in Multi-Term Courses

Students who select a multi-term course are making a commitment to that course for its entirety. Students MUST register in the same section in all terms of a multi-term course. Credit will be jeopardized if students deliberately register in different sections of a multi-term course. A drop of the second term portion of a multi-term course in order to change sections is considered a withdrawal from the course. In exceptional cases, when circumstances are beyond the student's control, the Student Affairs Office may grant permission to change sections mid-way through a multi-term course. Students must make their request in writing to the Associate Dean (Student Affairs) of Science citing their reason for the request. The request must also have the written support of the instructors of the sections involved and of the coordinator of the course (if applicable).

6.5.3 Apply to Graduate

For more information, see section 3.9.1 "Apply to Graduate".

6.6 Grading and Credit

During the first week of lectures, each instructor will provide students with a written course outline. This information should include, where appropriate:

- whether there will be a final examination in the course;
- how term work will affect the final mark in the course;
- how term work will be distributed through the term;
- whether there will be a supplemental examination in the course, and if so, whether the supplemental exam will be worth 100% of

the supplemental grade or whether term work will be included in the supplemental grade (courses with formal final examinations must have supplemental examinations);

- whether students with marks of D, F, J, or U will have the option of submitting additional work, and, if so, how the supplemental mark will be calculated with the extra work.

6.6.1 Incomplete Grades

An instructor who believes that there is justification for a student to delay submitting term work may extend the deadline until after the end of the course. In this case, the instructor will submit a grade of K (incomplete), indicating the date by which the work is to be completed. The maximum extensions for the submission of grades to the Student Affairs Office are as follows:

- students graduating in June:

Fall, Winter, and multi-term courses	April 30
--------------------------------------	----------
- non-graduating students

Fall courses	April 30
Winter and multi-term courses	July 30
Summer courses	Nov. 30

Students' deadlines for submitting their work must be sufficiently in advance of these dates to ensure that the work can be graded and the mark submitted on time.

It is important to note that instructors may impose earlier deadlines than those listed.

If marks to clear K's have not been submitted to the Student Affairs Office by the deadline specified above for non-graduating students, the K is automatically changed to a KF and counts as an F in the GPA.

Students with a grade of K who have serious extenuating circumstances may request an extension of the K deadline (KE) from the Associate Dean (Student Affairs) of Science. Please see [section 3.3 "Registration"](#) for more information.

6.7 Examinations

Students should see ["Examinations" in section 3.6](#) for information about final examinations and deferred examinations.

The exam schedules are posted on the McGill Website, www.mcgill.ca, normally one month after the start of classes for the tentative Exam Schedule, and two months after the start of classes for the final Examination Schedule. Students should also refer to the Student Affairs Website at www.mcgill.ca/artscisao for more information.

Students are warned not to make travel arrangements to leave Montreal prior to the scheduled end of any examination period.

6.8 Supplemental Assessments

6.8.1 Supplemental Examinations

Students who wish to write supplemental examinations for certain courses must apply to the Student Affairs Office for permission. The following conditions apply:

- students must be in satisfactory or probationary standing;
- students must have received a final grade of D, J, F, or U in the course;
- special permission from the Associate Dean (Student Affairs) of Science is required if students wish to write supplemental exams totalling more than 8 credits in any supplemental exam period;
- only one supplemental examination is allowed in a course;
- the supplemental result may count for 100% of the final grade or may include the same proportion of class work as did the original grade; the instructor will announce the arrangements to be used for the course by the end of the drop/add period;

- the format and content of the supplemental examination will not necessarily be the same as for the final examination, so students should consult the instructor;
- the supplemental result will not erase the grade originally obtained; both the original mark and the supplemental result will be calculated in the CGPA;
- in courses in which both a supplemental examination and additional work are available, students may choose the additional work or the examination or both; where both are written, only one supplemental mark will be submitted, reflecting marks for both the supplemental examination and the additional work;
- additional credit will not be given for a supplemental exam where the original grade for the course was a D and the student already received credit for the course;
- students must apply to write a supplemental exam; the deadline for submission of applications is March 1 for Fall courses and July 30 for Winter courses and courses spanning Fall/Winter; a non-refundable fee for each supplemental exam is payable at the time of application; supplemental examination applications are available on Minerva as of January 29, 2008;
- students must write the supplemental exams at the time of the next supplemental examination period (for Fall courses during the month of May, and for Winter courses and courses spanning Fall/Winter during the last week of August for the Faculties of Arts and of Science);
- supplemental examinations in courses outside the Faculties of Arts or Science are subject to the deadlines, rules, and regulations of the relevant faculty;
- no supplemental examinations are available for students who fail to achieve satisfactory grades in deferred examinations.

Students who register for a supplemental examination and subsequently find themselves unprepared for it should not write it; except for the loss of the registration fee, there is no penalty for not writing a supplemental examination. Students should consult the Student Affairs Office for further information.

6.8.2 Additional Work

Instructors of courses that include graded written term work may choose to provide the option of additional work to eligible students. The following conditions apply:

- if there is an option for additional work, it must be announced in the course outline at the beginning of the course;
- additional work involves revising one or more previously submitted papers or submitting new written work to replace the original work;
- students must be in satisfactory or probationary standing;
- students must have received a final grade of D, J, F, or U in the course;
- students must apply for additional work: the deadline for submission of applications is March 7 for Fall courses and July 30 for Winter courses and courses spanning Fall/Winter; a non-refundable fee is payable for each course at the time of application; additional work applications and further information are available in the Student Affairs Office;
- the weight of the additional work, in calculating the supplemental mark, will be equal to the weight given the work revised or replaced when the original mark was submitted;
- the mark resulting from the revised or additional work will be recorded as a supplemental mark;
- the supplemental result will not erase the grade originally obtained; both the original mark and the supplemental mark will count in calculating the CGPA;
- in courses in which both a supplemental examination and additional work are available, students may choose the additional work or the examination or both; where both are written, only one supplemental mark will be submitted, reflecting marks for both the supplemental examination and the additional work;
- additional work in courses outside the Faculties of Arts and of Science is subject to the deadlines, rules, and regulations of the relevant faculty.

6.8.3 Reassessments and Rereads

In accordance with the Charter of Student Rights, and subject to the conditions stated therein, students have the right to consult any written submission for which they have received a mark and the right to discuss this submission with the examiner.

The Faculties of Arts and of Science recognize two types of reassessments or rereads:

- reassessment of coursework (term papers, mid-terms, assignments, quizzes, etc.);
- reread of a final exam.

Reassessments and rereads for Arts courses are subject to the deadlines, rules, and regulations outlined in **"Reassessments and Rereads" in section 5.8.2**. Reassessments and rereads for Science courses are subject to the deadlines, rules, and regulations outlined in **"Reassessments and Rereads" in section 12.8.3**. Reassessments and rereads in courses not in the Faculties of Arts and of Science are subject to the deadlines, rules, and regulations of the relevant faculty.

6.9 Academic Standing

Academic standing is based primarily on students' cumulative grade point average (CGPA), but may also be affected by their term grade point average (TGPA). Academic standing is assessed in January for the Fall term, in May for the Winter term, and in September for the Summer term. Academic standing in each term determines if students will be allowed to continue their studies in the next term and if any conditions will be attached to their registration.

Decisions about academic standing in the Fall term are based only on grades that are available in January. Grades for courses in which students have deferred examinations and Fall-term grades for courses that span the Fall and Winter terms do not affect academic standing for the Fall term, even though they will ultimately affect students' Fall TGPA. Therefore, academic standings for the Fall term that are designated as interim should be interpreted as advisory. Note that interim standings will not appear on external transcripts. Interim standing decisions are mentioned below only if the rules for them differ from those for regular standing decisions.

6.9.1 Interim Satisfactory/Satisfactory Standing

Students in interim satisfactory or satisfactory standing:

- may continue in their program;
- have a CGPA of 2.00 or greater.

6.9.2 Interim Probationary/Probationary Standing

Students in interim probationary standing (at the end of the Fall term):

- may continue in their program;
- should evaluate their course load and reduce it as appropriate;
- are strongly advised to consult a departmental adviser, before withdrawal deadlines, about their course selection;
- should see their faculty student adviser to discuss their overall academic plan.

Students in probationary standing:

- may continue in their program;
- must carry a reduced load (maximum 14 credits per term);
- must raise their CGPA to return to satisfactory standing (see above);
- should see their departmental adviser to discuss their course selection;
- should see their faculty student adviser to discuss their overall academic plan.

Students will be placed in probationary standing:

- if their CGPA falls between 1.50 and 1.99 and if they were previously in satisfactory standing;
- if their CGPA falls between 1.50 and 1.99 and their TGPA in Fall or Winter is 2.50 or higher, and if they were previously in probationary, or interim unsatisfactory standing;

- if their CGPA is less than 2.00, and if they were previously in unsatisfactory readmitted standing and have satisfied the relevant conditions specified in their letter of readmission.

6.9.3 Unsatisfactory Readmitted Standing

Students in unsatisfactory readmitted standing:

- were previously in unsatisfactory standing and were readmitted to the B.A. & Sc. by the Associate Dean (Student Affairs) of Science or the Committee on Student Standing of the Faculty of Science;
- must meet the conditions specified in their letter of readmission to be allowed to continue in their program;
- should see their departmental adviser to discuss their course selection;
- should see their faculty student adviser to discuss their overall academic plan.

6.9.4 Interim Unsatisfactory/Unsatisfactory Standing

Students in interim unsatisfactory standing (at the end of the Fall term):

- may continue in their program;
- should evaluate their course load and reduce it as appropriate;
- are strongly advised to consult their faculty student adviser before the withdrawal deadlines, about their course selection for the Winter term.

Students in unsatisfactory standing:

- have failed to meet the minimum standards set by the faculties;
- may not continue in their program, and their registration will be cancelled.

Students will be placed in unsatisfactory standing:

- if their CGPA falls or remains below 1.50;
- if their TGPA in the Fall or Winter falls below 2.50 and their CGPA is below 2.00 and if they were previously in probationary, unsatisfactory readmitted, or interim unsatisfactory standing;
- if they were previously in unsatisfactory standing and were readmitted to the B.A. & Sc. by the Associate Dean (Student Affairs) of Science or the Committee on Student Standing of the Faculty of Science but have not at least satisfied the conditions specified in the letter of readmission.

Appeals for readmission by students in unsatisfactory standing should be addressed to the Associate Dean (Student Affairs) of Science no later than July 15 for readmission to the Fall term and November 15 for the Winter term. Readmission will be considered only when proof of extenuating circumstances that affected academic performance can be provided (e.g., medical or other documentation). Students in unsatisfactory standing for the second time must withdraw permanently.

Normally, supplemental examinations are not permitted; however, students in unsatisfactory standing may appeal to the Associate Dean (Student Affairs) of Science for permission to write a supplemental examination, clearly stating the reasons for special consideration and providing proof as appropriate.

6.9.5 Incomplete Standings

Standing awaits deferred exam.

Must clear Ks, Ls or Supplementals.

Standing Incomplete.

Students with incomplete standings in the Winter or Summer term may register for the Fall term, but their standing must be resolved by the end of the course-change period for that term. Students whose incomplete standing changes to satisfactory, probationary, or interim unsatisfactory standing may continue in the program. Students whose standing changes to unsatisfactory standing may not continue in their program, and their registration will be cancelled.

Students whose standing changes to unsatisfactory and who wish to ask for permission to continue in their program must make a request to the Associate Dean (Student Affairs) of Science as soon as they are placed in unsatisfactory standing. Readmission

will be considered only when proof of extenuating circumstances that affected academic performance can be provided (e.g., medical or other documentation).

Students whose standing is still incomplete by the end of course change period should immediately consult with the Student Affairs Office.

At the end of the Winter term, students with a mark of K or L will be placed in the appropriate standing in June, if the outstanding mark in the course will not affect their standing. Otherwise the standing decision will only be made once their incomplete marks have been cleared. For more information about incomplete grades please refer to “[Incomplete Grades](#)” in [section 6.6.1](#).

6.10 Awards and Honorary Designations

6.10.1 Honours and First-Class Honours

Departments may recommend to the Faculties of Arts and of Science that graduating students registered in Honours and Joint Honours programs be awarded Honours or First-Class Honours under the following conditions:

- students must complete all requirements imposed by the department;
- for Honours, the CGPA at graduation must be at least 3.00;
- students in a Joint Honours program must satisfy the above criteria for both Joint Honours components;
- for First-Class Honours, the CGPA at graduation must be 3.50 or better;
- students in a Joint Honours program must satisfy the above criteria for both Joint Honours components;
- some departments have additional requirements that must be met before students are recommended for Honours or First-Class Honours (see the departmental entries);
- Students in Honours or Joint Honours programs whose program GPA or CGPA is below 3.00 or who did not satisfy certain additional program requirements must consult their academic adviser to determine if they are eligible to graduate in a program other than Honours or Joint Honours.

6.10.2 Distinction and Great Distinction

Students in the Interfaculty or the Multi-track programs may be awarded their degrees with Distinction or Great Distinction under the following conditions:

- students must have completed a minimum of 60 McGill credits towards the same degree to be considered;
- for Distinction, the CGPA at graduation must be 3.30 to 3.49;
- for Great Distinction, the CGPA at graduation must be at least 3.50;
- these designations may be withdrawn in the case of transfer students, if their CGPA in another faculty or at another university is not comparable to the CGPA earned in the B.A. & Sc.

6.10.3 Dean’s Honour List

The designation Dean’s Honour List may be awarded to a graduating student under the following conditions:

- students must have completed a minimum of 60 McGill credits towards the same degree;
- students must have a CGPA that is greater than the mean of the minimum CGPAs required for students in the Faculties of Arts and of Science to be placed on their respective Dean’s Honour Lists;
- this designation may be withdrawn in the case of transfer students, if their CGPA in another degree program or at another university was not comparable to the CGPA earned in the B.A. & Sc.

The designation Dean’s Honour List may be awarded at the end of each academic year to continuing students under the following conditions:

- students must have completed at least 27 graded credits during the academic year;
- students must have a sessional GPA (i.e., combined GPA for the Fall and Winter terms) that is greater than the mean of the minimum sessional GPAs required for students in the Faculties of Arts and of Science to be placed on their respective Dean’s Honour Lists.

6.10.4 Medals and Prizes

Various medals, scholarships, and prizes are open to continuing and graduating students. Full details of these are set out in the Undergraduate Scholarships and Awards Calendar, available from Enrolment Services or on the Web at www.mcgill.ca. Application may be required for some scholarships.

6.11 Programs in the B.A. & Sc.

6.11.1 Major Concentrations

6.11.1.1 Arts

The Arts Major Concentrations available to B.A. & Sc. students are listed here and are described in detail in the Faculty of Arts section of the Calendar

- African Studies, [page 87](#)
- Anthropology, [page 89](#)
- Art History, [page 92](#)
- Canadian Studies, [page 95](#)
- Classics, [page 98](#)
- East Asian Studies, [page 102](#)
- Economics, [page 106](#)
- English – Cultural Studies, [page 109](#)
- English – Drama and Theatre, [page 109](#)
- English – Literature, [page 109](#)
- Geography, [page 116](#)
- Geography (Urban Systems), [page 116](#)
- German Language and Literature, [page 120](#)
- German Literature and Culture, [page 121](#)
- German Studies, Contemporary, [page 120](#)
- Hispanic Languages, [page 123](#)
- Hispanic Literature and Culture, [page 123](#)
- History, [page 125](#)
- Humanistic Studies, [page 127](#)
- International Development Studies, [page 128](#)
- Italian Civilization, [page 131](#)
- Italian Language and Literature, [page 131](#)
- Jewish Studies, [page 133](#)
- Langue et littérature françaises – Lettres, [page 114](#)
- Langue et littérature françaises – Lettres et traduction, [page 114](#)
- Langue et littérature françaises – Linguistique du français, [page 114](#)
- Latin-American Studies, [page 136](#)
- Linguistics, [page 138](#)
- Middle East Studies, [page 142](#)
- North American Studies, [page 145](#)
- Philosophy, [page 147](#)
- Philosophy and Western Religions, [page 149](#)
- Political Science, [page 156](#)
- Quebec Studies, [page 160](#)
- Russian, [page 167](#)
- Scriptures and Interpretations – see Religious Studies, [page 164](#)
- Sociology, [page 176](#)
- Women’s Studies, [page 177](#)
- World Religions – see Religious Studies, [page 163](#)

6.11.1.2 Science

The Science Major Concentrations available to B.A. & Sc. students are listed here and are described in detail either below in the Arts & Science (AS) section or in the Faculty of Arts (A) section of the Calendar as indicated. .

Biology - Cell/Molecular Option (AS), [page 191](#)
 Biology - Organismal Option (AS), [page 192](#)
 Biomedical Sciences (AS), [page 193](#)
 Chemistry (AS), [page 193](#)
 Computer Science (A), [page 99](#)
 Earth, Atmosphere and Ocean Sciences (AS), [page 195](#)
 Geography - Physical Geography Option (AS), [page 196](#)
 Mathematics (A), [page 140](#)
 Physics (AS), [page 196](#)
 Psychology (A), [page 158](#)

6.11.2 Interfaculty Programs

The Interfaculty Programs available to B.A. & Sc. students are listed here and are described in detail either below in the Arts & Science (AS) section or in the McGill School of Environment (E) section of the Calendar as indicated.

Cognitive Science (AS), [page 194](#)
 Environment (E), [page 428](#)

6.11.3 Honours Programs

There are two Honours programs available to B.A. & Sc. Students. The Honours Program in Environment is listed here and described in detail in "[Honours Program in Environment](#)", [section 14.10](#) of the Calendar. The Honours Program in Cognitive Science is described in detail under Cognitive Science, [page 195](#).

Students interested in an Honours degree should also consider the joint honours programs in the next section.

6.11.4 Joint Honours Programs

Joint Honours programs in the B.A. & Sc. are created by combining a Joint Honours Program component from an Arts discipline with one from a Science discipline. Students must register for both Joint Honours Program components. Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

6.11.4.1 Arts

The Arts Joint Honours components available to B.A. & Sc. students are listed here and are described in detail in the Faculty of Arts section of the Calendar.

Anthropology, [page 90](#)
 Art History, [page 92](#)
 Canadian Studies, [page 95](#)
 Classics, [page 98](#)
 East Asian Studies, [page 104](#)
 Economics, [page 107](#)
 English – Cultural Studies, [page 111](#)
 English – Drama and Theatre, [page 111](#)
 English – Literature, [page 111](#)
 Geography, [page 118](#)
 German Studies, [page 121](#)
 Hispanic Studies, [page 124](#)
 History, [page 125](#)
 International Development Studies, [page 129](#)
 Italian Studies, [page 131](#)
 Jewish Studies, [page 133](#)
 Langue et littérature françaises – Lettres, [page 115](#)
 Langue et littérature françaises – Lettres et traduction, [page 115](#)
 Linguistics, [page 139](#)
 Middle East Studies, [page 142](#)
 Philosophy, [page 148](#)
 Philosophy and Western Religions, [page 151](#)
 Political Science, [page 156](#)

Religious Studies, [page 165](#)
 Russian, [page 169](#)
 Sociology, [page 176](#)
 Women's Studies, [page 177](#)

6.11.4.2 Science

There are currently only two Science Joint Honours components available to B.A. & Sc. students, which are listed here and are described in detail in the Faculty of Arts section of the Calendar.

Mathematics, [page 141](#)
 Psychology, [page 159](#)

6.11.5 Minor Concentrations or Minors

6.11.5.1 Arts

The Arts Minor Concentrations available to B.A. & Sc. students are listed here and are described in detail in the Faculty of Arts section of the Calendar.

African Studies, [page 87](#)
 Anthropology, [page 88](#)
 Art History, [page 92](#)
 Canadian Ethnic and Racial Studies, [page 94](#)
 Canadian Studies, [page 94](#)
 Catholic Studies, [page 97](#)

6.11.6 Integrative Courses

6.11.6.1 Required Integrative Course

BASC 201 Arts & Science Integrative Topics

6.11.6.2 Complementary Integrative Course

Students in the B.A. & Sc. are required to complete at least one other integrative course (at least 3 credits), possibly within one of their programs, chosen from the following:

ANTH 201 Prehistoric Archaeology
 ANTH 203 Human Evolution
 ANTH 227 Medical Anthropology
 ANTH 312 Zooarchaeology
 ATOC/EPSC 250 Natural Disasters
 COMP 280 History and Philosophy of Computing
 ECON 347 Economics of Climate Change
 ENGC 200 Communications - Pre-Electronic Age
 ENGC 210 History of Communication - Electronic Age
 ENVR 200 The Global Environment
 ENVR 201 Society and Environment
 ENVR 202 The Evolving Earth
 ENVR 203 Knowledge, Ethics and Environment
 GEOG 200 Geographical Perspectives: World Environmental Problems
 GEOG 203 Environmental Systems
 GEOG 302 Environmental Management 1
 GEOG 350 Ecological Biogeography
 LING 390 Neuroscience of Language
 LING 555 Language Acquisition 2
 MATH 328 Computability and Mathematical Linguistics
 MATH 330 Mathematical Finance
 MATH 338 History and Philosophy of Mathematics
 PHIL 220 Introduction to History and Philosophy of Science 1
 PHIL 221 Introduction to History and Philosophy of Science 2
 PHIL 341 Philosophy of Science 1
 PHIL 350 History and Philosophy of Ancient Science
 PHIL 361 18th Century Philosophy
 PHIL 411 Topics in Philosophy of Logic and Mathematics
 PHIL 441 Philosophy of Science 2
 SOCI 225 Medicine & Health in Modern Society
 SOCI 234 Population and Society
 SOCI 235 Technology and Society
 SOCI 338 Intro. to Biomedical Knowledge
 SOCI 525 Health Care Systems in Comparative Perspective

As a substitute, students can fulfill the requirement for a complementary integrative course by conducting library or empirical research that integrates the components of their program as a 3- or 6-credit independent study course, thesis course, or research course, with approval of the Associate Dean (Student Affairs) Faculty of Science.

6.12 Academic Programs

6.12.1 Required Integrative Course for B.A. & Sc.

BASC 201 (Arts & Science Integrative Topics) is a required course in the B.A. & Sc., normally taken in U1. It introduces students to a variety of interdisciplinary topics that exemplify the benefits of applying scholarship from Arts and Science to a problem. It also provides students in the degree with a common experience and a reference group. For details, see the Course section of the Faculty of Science.

6.12.2 Programs in Arts or in Science

All B.A. & Sc. Arts programs are described in detail in the Faculty of Arts section of the Calendar. B.A. & Sc. Science programs that are open to B.A. students (i.e., programs in Computer Science, Mathematics and Statistics, and Psychology as well as some in Geography) are described in the Faculty of Arts section. Science Minors that are open to B.A. & Sc. students are described in the Faculty of Science section. B.A. & Sc. Science programs that are open only to B.A. & Sc. students are described below.

For information about where each B.A. & Sc. program is listed, see "[Programs in the B.A. & Sc.](#)", [section 6.11](#).

6.12.3 Biology (BIOL)

The Department of Biology, the discipline, and specific courses are described in the Faculty of Science section of the Calendar.

The minimum freshman science requirements in the B.A. & Sc. may not satisfy the introductory science requirements of all medical/dental schools (see [section 6.3.5 "Program Requirements"](#)).

MAJOR CONCENTRATION IN BIOLOGY - CELL/ MOLECULAR OPTION (36 credits)

The Major Concentration in Biology, Cell/Molecular Option, which is restricted to students in the B.A. & Sc. or B.Sc./B.Ed. (see [section 12.13.34 "Science or Mathematics for Teachers"](#)), is a planned sequence of courses designed to permit a degree of specialization in cell/molecular biology.

Required Courses* (29 credits)

BIOL 200	(3)	Molecular Biology
BIOL 201	(3)	Cell Biology and Metabolism
BIOL 202	(3)	Basic Genetics
BIOL 205	(3)	Biology of Organisms
BIOL 215	(3)	Introduction to Ecology and Evolution
BIOL 300	(3)	Molecular Biology of the Gene
BIOL 301	(4)	Cell and Molecular Laboratory
BIOL 303	(3)	Developmental Biology
CHEM 212**	(4)	Organic Chemistry 1

* Required courses taken at CEGEP or elsewhere that are not credited toward the B.A. & Sc. or B.Sc./B.Ed. (see [section 12.13.34 "Science or Mathematics for Teachers"](#)) must be replaced by 3-credit courses from the Complementary Course List. Regardless of the substitution, students must take at least 36 credits in this program.

**Students who have already taken CHEM 212 or its equivalent will choose another appropriate complementary course, to be approved by the adviser.

Complementary Courses (7 credits minimum)

at least 7 credits selected from:

BIOL 306	(3)	Neurobiology
BIOL 313	(3)	Eukaryotic Cell Biology
BIOL 314	(3)	Molecular Biology of Oncogenes
BIOL 370	(3)	Human Genetics Applied
BIOL 373	(3)	Biometry
BIOL 413	(1)	Directed Reading
BIOL 568	(3)	Topics on the Human Genome
BIOL 575	(3)	Human Biochemical Genetics

or other appropriate course at the 300 level or higher with permission of an adviser.

MAJOR CONCENTRATION IN BIOLOGY - ORGANISMAL OPTION (37 credits)

The Major Concentration in Biology, Organismal Option, which is restricted to students in the B.A. & Sc. or B.Sc./B.Ed. (see [section 12.13.34 "Science or Mathematics for Teachers"](#)) is a planned sequence of courses designed to permit a degree of specialization in organismal biology.

Required Courses* (28 credits)

BIOL 200	(3)	Molecular Biology
BIOL 201	(3)	Cell Biology and Metabolism
BIOL 202	(3)	Basic Genetics
BIOL 205	(3)	Biology of Organisms
BIOL 206	(3)	Methods in Biology of Organisms
BIOL 215	(3)	Introduction to Ecology and Evolution
BIOL 304	(3)	Evolution
BIOL 308	(3)	Ecological Dynamics
CHEM 212**	(4)	Organic Chemistry 1

* Required courses taken at CEGEP or elsewhere that are not credited toward the B.A. & Sc. or B.Sc./B.Ed. (see [section 12.13.34 "Science or Mathematics for Teachers"](#)) must be replaced by 3-credit courses from the Complementary Course List. Regardless of the substitution, students must take at least 36 credits in this program.

**Students who have already taken CHEM 212 or its equivalent will choose another appropriate complementary course, to be approved by the adviser.

Complementary Courses (9 credits)

9 credits selected from:

BIOL 303	(3)	Developmental Biology
BIOL 305	(3)	Animal Diversity
BIOL 306	(3)	Neurobiology
BIOL 307	(3)	Behavioural Ecology/Sociobiology
BIOL 310	(3)	Large-scale Ecology
BIOL 331	(3)	Ecology/Behaviour Field Course
BIOL 350	(3)	Insect Biology and Control
BIOL 352	(3)	Vertebrate Evolution
BIOL 373	(3)	Biometry
BIOL 427	(3)	Herpetology
BIOL 435	(3)	Natural Selection
BIOL 441	(3)	Biological Oceanography
BIOL 442	(3)	Marine Biology
BIOL 465	(3)	Conservation Biology

or other appropriate course at the 300 level or higher with permission of an adviser.

MINOR CONCENTRATION IN BIOLOGY - CELL/ MOLECULAR OPTION (18 or 19 credits)

The Minor Concentration in Biology, Cell/Molecular Option, is restricted to students in the B.A. & Sc. It is a sequence of courses designed to yield a broad introduction to cell/molecular biology.

Required Courses* (13 credits)

BIOL 200	(3)	Molecular Biology
BIOL 201	(3)	Cell Biology and Metabolism
BIOL 202	(3)	Basic Genetics
CHEM 212**	(4)	Organic Chemistry 1

* Required courses taken at CEGEP or elsewhere that are not credited toward the B.A. & Sc. must be replaced by approved complementary courses. Regardless of the substitution, students must take at least 18 credits in this program.

**Students who have already taken CHEM 212 or its equivalent will choose another appropriate complementary course, to be approved by the adviser.

Complementary Courses (6 credits)

Any biology course at the 300 level or higher approved by an adviser.

MINOR CONCENTRATION IN BIOLOGY - ORGANISMAL OPTION (18 or 19 credits)

The Minor Concentration in Biology, Organismal Option, is restricted to students in the B.A. & Sc. It is a sequence of courses designed to yield a broad introduction to organismal biology.

Required Courses* (16 credits)

BIOL 200	(3)	Molecular Biology
BIOL 201	(3)	Cell Biology and Metabolism
BIOL 205	(3)	Biology of Organisms
BIOL 215	(3)	Introduction to Ecology and Evolution
CHEM 212**	(4)	Organic Chemistry 1

* Required courses taken at CEGEP or elsewhere that are not credited toward the B.A. & Sc. must be replaced by approved complementary courses. Regardless of the substitution, students must take at least 18 credits in this program.

**Students who have already taken CHEM 212 or its equivalent will choose another appropriate complementary course, to be approved by the adviser.

Complementary Courses (3 credits)

Any biology course at the 300 level or higher approved by an adviser.

6.12.4 Biomedical Sciences

Major Concentration in Biomedical Sciences - Program Advisers:

All U1 students pursuing a B.A. & Sc. Biomedical Science must meet with a Student Affairs Officer,

Professor Teresa Trippenbach, Department of Physiology
McIntyre Medical Sciences Building, Room 1116

E-mail: teresa.trippenbach@mcgill.ca

Telephone: (514) 398-4331

Professor Ann Wechsler, Department of Physiology
McIntyre Medical Sciences Building, Room 1135

E-mail: ann.wechsler@mcgill.ca

Telephone: (514) 398-4341

Student Affairs Officer, Department of Physiology
McIntyre Medical Sciences Building, Room 1022
Telephone: (514) 398-3689

The following departments jointly offer this B.A. & Sc. program:

Anatomy and Cell Biology (ANAT)
Biochemistry (BIOC)
Microbiology and Immunology (MIMM)
Pharmacology (PHAR)
Physiology (PHGY)

The individual departments, their disciplines, and specific courses offered by them are described in their respective entries in the Faculty of Science section of the Calendar.

The minimum freshman science requirements in the B.A. & Sc. may not satisfy the introductory science requirements of all medical/dental schools (see [section 6.3.5 "Program Requirements"](#)).

Please note: the Major concentration in Biomedical Sciences will be retired in June 2009. Students entering McGill in September 2008 may choose this major concentration, but they may prefer one of the many interdisciplinary biomedical sciences programs. The major concentration in Biomedical Sciences will not be available for students entering McGill after June 2009. However, many exciting program options that provide interdisciplinary biomedical

and life sciences will be available. For more information, please visit: www.mcgill.ca/science/prospective/chooseyourprogram.

MAJOR CONCENTRATION IN BIOMEDICAL SCIENCES

(36-38 credits)

The Major Concentration in Biomedical Sciences, which is restricted to students in the B.A. & Sc., is a planned sequence of courses designed to permit students to survey the various biomedical sciences and acquire some additional in-depth exposure to one of them.

Required Courses (18 credits)

BIOC 212	(3)	Molecular Mechanisms of Cell Function
BIOL 200	(3)	Molecular Biology
BIOL 202	(3)	Basic Genetics
MIMM 211	(3)	Introductory Microbiology
PHGY 209	(3)	Mammalian Physiology 1
PHGY 210	(3)	Mammalian Physiology 2

Complementary Courses (18-20 credits)

3 credits selected from:

ANAT 214	(3)	Systemic Human Anatomy
ANAT 262	(3)	Introductory Molecular and Cell Biology

4 credits selected from:

ANAT 261	(4)	Introduction to Dynamic Histology
BIOL 301	(4)	Cell and Molecular Laboratory
CHEM 222	(4)	Introductory Organic Chemistry 2

2-4 credits selected from:

MIMM 212*	(2)	Laboratory in Microbiology
PHGY 212	(1)	Introductory Physiology Lab 1
PHGY 213	(1)	Introductory Physiology Lab 2
CHEM 212**	(4)	Introductory Organic Chemistry 1

Or equivalent (with approval of Adviser)

* Registration in MIMM 212 is limited, students should apply to the Dept. of Microbiology and Immunology.

** Students who have not taken CHEM 212 prior to admission to the B.A. & Sc. Biomedical program must select this option. All other students must select between the MIMM and PHGY laboratory.

9 credits in one of the following disciplinary specializations.

Biomedical Sciences Disciplinary Specializations:

ANATOMY and CELL BIOLOGY

6 credits selected from:

ANAT 321	(3)	Circuitry of the Human Brain
ANAT 322	(3)	Neuroendocrinology
ANAT 365	(3)	Cellular Trafficking
ANAT 381	(3)	Basis of Embryology
PATH 300	(3)	Human Disease

3 credits selected from:

ANAT 458	(3)	Membranes and Cellular Signalling
ANAT 541	(3)	Cell and Molecular Biology of Aging

BIOCHEMISTRY

6 credits:

BIOC 311	(3)	Metabolic Biochemistry
BIOC 312	(3)	Biochemistry of Macromolecules

3 credits selected from:

BIOC 450	(3)	Protein Structure and Function
BIOC 454	(3)	Nucleic Acids
BIOC 455	(3)	Neurochemistry
BIOC 458	(3)	Membranes and Cellular Signaling

MICROBIOLOGY AND IMMUNOLOGY

6 credits selected from:

MIMM 314	(3)	Immunology
MIMM 323	(3)	Microbial Physiology
MIMM 324	(3)	Fundamental Virology
MIMM 387	(3)	Applied Microbiology and Immunology

3 credits from 400- or 500-level MIMM courses

PHARMACOLOGY AND THERAPEUTICS

6 credits:

PHAR 300	(3)	Drug Action
PHAR 301	(3)	Drugs and Disease

3 credits selected from:

PHAR 562	(3)	General Pharmacology 1
PHAR 563	(3)	General Pharmacology 2

PHYSIOLOGY

6 credits selected from:

PHGY 311	(3)	Channels, Synapses & Hormones
PHGY 312	(3)	IRespiratory, Renal, & Cardiovascular Physiology
PHGY 313	(3)	Blood, Gastrointestinal, & Immune Systems Physiology
PHGY 314	(3)	Integrative Neuroscience

3 credits from 400- or 500-level PHGY courses

NEUROPHYSIOLOGY

6 credits:

PHGY 311	(3)	Channels, Synapses & Hormones
PHGY 314	(3)	Integrative Neuroscience

3 credits selected from:

PHGY 451	(3)	Advanced Neurophysiology
PHGY 556	(3)	Topics in System Neuroscience

6.12.5 Chemistry (CHEM)

The Department of Chemistry, the discipline, and specific courses are described in the Faculty of Science section of the Calendar.

The Major Concentration in Chemistry is not certified by the Ordre des Chimistes du Québec. Students interested in pursuing a career in Chemistry in Quebec are advised to take an appropriate B.Sc. program in Chemistry. The minimum freshman science requirements in the B.A. & Sc. may not satisfy the introductory science requirements of all medical/dental schools (see [section 6.3.5 "Program Requirements"](#)).

MAJOR CONCENTRATION IN CHEMISTRY (36 credits)

The Major Concentration in Chemistry, which is restricted to students in the B.A. & Sc. or B.Sc./B.Ed. (see [section 12.13.34 "Science or Mathematics for Teachers"](#)), is a planned sequence of courses designed to permit a degree of specialization in this discipline.

Required Courses* (18 credits)

CHEM 203	(3)	Survey of Physical Chemistry
CHEM 212	(4)	Introductory Organic Chemistry 1
CHEM 222	(4)	Introductory Organic Chemistry 2
CHEM 253	(1)	Introductory Physical Chemistry 1 Laboratory
CHEM 281	(3)	Inorganic Chemistry 1
CHEM 287	(2)	Introductory Analytical Chemistry
CHEM 297	(1)	Introductory Analytical Chemistry Laboratory

* Required courses taken at CEGEP or elsewhere that are not credited toward the B.A. & Sc. or B.Sc./B.Ed. must be replaced by courses from the Complementary Course List equal to or exceeding their credit value. Regardless of the substitution, students must take at least 36 credits in this program.

Complementary Courses (18 credits)

18 credits selected from:

CHEM 219	(3)	Introduction to Atmospheric Chemistry
CHEM 263	(1)	Introductory Physical Chemistry 2 Laboratory
CHEM 302	(3)	Introductory Organic Chemistry 3
CHEM 307	(3)	Analytical Chemistry of Pollutants
CHEM 334	(3)	Advanced Materials
CHEM 367	(3)	Instrumental Analysis 1
CHEM 381	(3)	Inorganic Chemistry 2
CHEM 382	(3)	Organic Chemistry: Natural Products
CHEM 531	(3)	Chemistry of Inorganic Materials
CHEM 571	(3)	Polymer Synthesis
CHEM 582	(3)	Supramolecular Chemistry
CHEM 591	(3)	Bioinorganic Chemistry

6.12.6 Cognitive Science

Cognitive Science is the multidisciplinary study of cognition in humans and machines. The goal is to understand the principles of intelligence with the hope that this will lead to better comprehension of the mind and of learning and to the development of intelligent devices that constructively extend human abilities.

Ian Gold

Director, Program in Cognitive Science

3465 Peel Street, Room 401

E-mail: ian.gold@mcgill.ca

Telephone : (514) 398-3418

Cognitive Science Committee Members:

Brendan Gillon (Linguistics)

Marco Leyton (Neuroscience)

Stephen McAdams (Music)

Joelle Pineau (Computer Science)

Debra Titone (Psychology)

Website: www.cogsci.mcgill.ca

An Interfaculty Program in Cognitive Science (54 credits) is offered by the following departments, which are described fully in the Faculty of Arts or Faculty of Science section of the Calendar:

Computer Science (COMP) (Science)

Linguistics (LING) (Arts)

Physiology (PHGY) (Science)

Philosophy (PHIL) (Arts)

Psychology (PSYC) (Science)

INTERFACULTY PROGRAM IN COGNITIVE SCIENCE (54 credits)

The Interfaculty Program in Cognitive Science, which is restricted to students in the B.A. & Sc., is a planned sequence of courses designed to permit students to focus on at least two relevant areas of study.

Required Course (3 credits)

PSYC 532 (3) Cognitive Science

Complementary Courses (51 credits)

3 credits, one of:

MATH 318 (3) Mathematical Logic

PHIL 210 (3) Introduction to Deductive Logic 1

18 credits from List A in one of Computer Science, Linguistics, Neuroscience, Philosophy, or Psychology.

12 credits from List A in one of the four remaining units.

18 credits, at least 12 at the 400 level or higher, chosen from Lists A and/or B in Computer Science, Linguistics, Neuroscience, Philosophy, Psychology and/or Research Courses.

Note 1: Students are responsible for ensuring that they meet all pre- and corequisites for all their courses.

Note 2: With the permission of the Director of the Cognitive Science program, students may be able to substitute courses in cognate departments, such as Anatomy and Cell Biology, Biology, Neurology, or Physiology. In addition, prerequisites for some courses may be waived; check with the instructor for details. For further information, consult the Cognitive Science website: www.cogsci.mcgill.ca.

Note 3: B.A. & Sc. students who take Interfaculty Programs must take at least 30 credits in Arts and 30 in Science across their Interfaculty Program and their Minor or Minor Concentration.

COMPUTER SCIENCE**List A:**

MATH 240 (3) Discrete Structures 1

COMP 206 (3) Introduction to Software Systems

COMP 250 (3) Introduction to Computer Science

COMP 251 (3) Data Structures and Algorithms

COMP 302 (3) Programming Languages and Paradigms

COMP 424 (3) Topics: Artificial Intelligence 1

COMP 527 (3) Logic and Computation

List B:

MATH 222 (3) Calculus 3

MATH 223 (3) Linear Algebra

MATH 328 (3) Computability and Mathematical Linguistics

COMP 360 (3) Algorithm Design Techniques

COMP 490 (3) Introduction to Probabilistic Analysis of Algorithms

COMP 526 (3) Probabilistic Reasoning and AI

COMP 531 (3) Theory of Computation

COMP 538 (3) Person-Machine Communication

COMP 558 (3) Fundamentals of Computer Vision

LINGUISTICS**List A:**

LING 201 (3) Introduction to Linguistics

LING 230 (3) Phonetics

LING 331 (3) Phonology 1

LING 355 (3) Language Acquisition 1

LING 370 (3) Introduction to Semantics

LING 371 (3) Syntax 1

LING 390 (3) Neuroscience of Language

LING 419 (3) Linguistic Theory

LING 451 (3) Acquisition of Phonology

LING 455 (3) Second Language Syntax

List B:

LING 440 (3) Morphology

LING 531 (3) Phonology 2

LING 555 (3) Language Acquisition 2

LING 560 (3) Formal Methods in Linguistics

LING 571 (3) Syntax 2

LING 590 (3) Language Acquisition and Breakdown

PHILOSOPHY**List A:**

PHIL 304 (3) Chomsky

PHIL 306 (3) Philosophy of Mind

PHIL 310 (3) Intermediate Logic

PHIL 341 (3) Philosophy of Science 1

PHIL 360 (3) 17th Century Philosophy

PHIL 370 (3) Problems in Analytic Philosophy

PHIL 415 (3) Philosophy of Language

PHIL 419 (3) Epistemology

PHIL 441 (3) Philosophy of Science 2

PHIL 506 (3) Seminar: Philosophy of Mind

PHIL 507 (3) Seminar: Cognitive Science

List B:

PHIL 410 (3) Advanced Topics in Logic 1

PHIL 411 (3) Topics in Philosophy of Logic and Mathematics

PHIL 421 (3) Metaphysics

PHIL 470 (3) Topics in Contemporary Analytic Philosophy

PHIL 474 (3) Phenomenology

PHIL 510 (3) Seminar: Advanced Logic 2

PHIL 511 (3) Seminar: Philosophy of Logic and Mathematics

PHIL 519 (3) Seminar: Epistemology

PHIL 521 (3) Seminar: Metaphysics

PHIL 560 (3) Seminar: 17th Century Philosophy

PSYCHOLOGY**List A/B:**

PSYC 212 (3) Perception

PSYC 213 (3) Cognition

PSYC 301 (3) Animal Learning & Theory

PSYC 305 (3) Statistics for Experimental Design

PSYC 308 (3) Behavioural Neuroscience 1

PSYC 311 (3) Human Cognition and the Brain

PSYC 317 (3) Genes and Behaviour

PSYC 318 (3) Behavioural Neuroscience 2

PSYC 329 (3) Introduction to Auditory Cognition

PSYC 340 (3) Psychology of Language

PSYC 343 (3) Language Learning in Children

PSYC 352 (3) Cognitive Psychology Laboratory

PSYC 353	(3)	Laboratory in Human Perception
PSYC 410	(3)	Special Topics in Neuropsychology
PSYC 413	(3)	Cognitive Development
PSYC 470	(3)	Memory and Brain
PSYC 472	(3)	Scientific Thinking and Reasoning
PSYC 503	(3)	Computational Psychology
PSYC 522	(3)	Neurochemistry and Behaviour
PSYC 526	(3)	Advances in Visual Perception
PSYC 529	(3)	Music Cognition
PSYC 537	(3)	Advanced Seminar in Psychology of Language
PSYC 561	(3)	Methods: Developmental Psycholinguistics

NEUROSCIENCE**List A/B:**

ANAT 321	(3)	Circuitry of the Human Brain
BIOL 530	(3)	Neural Basis of Behaviour
BIOL 531	(3)	Neurobiology Learning Memory
BIOL 588	(3)	Molecular/Cellular Neurobiology
NEUR 310	(3)	Cellular Neurobiology
PHGY 311	(3)	Channels, Synapses & Hormones
or BIOL 306	(3)	Neurobiology
PHGY 314	(3)	Integrative Neuroscience
PHGY 520	(3)	Ion Channels
PHGY 556	(3)	Topics in Systems Neuroscience
PSYC 308	(3)	Behavioural Neuroscience 1
PSYC 311	(3)	Human Cognition and the Brain
PSYC 317	(3)	Genes and Behaviour
PSYC 318	(3)	Behavioural Neuroscience 2
PSYC 410	(3)	Special Topics in Neuropsychology
PSYC 522	(3)	Neurochemistry and Behaviour

RESEARCH COURSES

COGS 401	(6)	Research Cognitive Science 1
COGS 402	(6)	Research Cognitive Science 2

HONOURS PROGRAM IN COGNITIVE SCIENCE (60 credits)

The Honours Program in Cognitive Science, which is restricted to students in the B.A. & Sc., is an extension of the Interfaculty program that offers students an opportunity to undertake a year-long research project in close association with professors in their main Arts and Science focus areas. Prior to selecting the Honours program, students should meet with the program Director and review the B.A. & Sc. academic requirements for "Honours and First Class Honours" described in "[Honours and First-Class Honours](#)", [section 6.10.1](#).

To receive an honours degree, students are required to achieve a minimum overall program GPA of 3.3 at graduation, and attain a grade of B+ (3.3) or better in COGS 444. Students must complete both the 60 credit Honours Program, plus an approved Minor Concentration or a Minor in the Faculties of Arts or of Science.

In addition, to completing the requirements for the Interfaculty Program in Cognitive Science, students in the Honours program complete COGS 444, a 6-credit honours research project.

Additional Required Course (6 credits)

COGS 444	(6)	Honours Research
----------	-----	------------------

6.12.7 Computer Science

The requirements for the B.A. & Sc. Major Concentration in Computer Science are described in detail in [section 5.12.12 "Computer Science \(COMP\)"](#) of the Faculty of Arts section of the Calendar.

6.12.8 Earth, Atmosphere and Ocean Sciences

The following departments jointly offer a B.A. & Sc. program:

- Atmospheric and Oceanic Sciences (ATOC)
- Earth and Planetary Sciences (EPSC)

The departments, the disciplines, and specific courses are described in their respective entries in the Faculty of Science section of the Calendar.

MAJOR CONCENTRATION IN EARTH, ATMOSPHERE AND OCEAN SCIENCES (36 credits)

The Major Concentration in Earth, Atmosphere and Ocean Sciences, which is restricted to students in the B.A. & Sc., is a sequence of courses designed to permit a degree of specialization in these disciplines.

Required Courses (24 credits)

ATOC 214	(3)	Introduction: Physics of the Atmosphere
ATOC 215	(3)	Oceans, Weather and Climate
ATOC 220	(3)	Introduction to Oceanic Sciences
ATOC 315	(3)	Water in the Atmosphere
EPSC 210	(3)	Introductory Mineralogy
EPSC 212	(3)	Introductory Petrology
EPSC 233	(3)	Earth and Life History
EPSC 243	(3)	Environmental Geology

Complementary Courses (12 credits minimum)

a minimum of 12 credits, at least 6 of which must be at the 300 level or higher), distributed as follows:

at least 6 credits selected from:

EPSC 203	(3)	Structural Geology
EPSC 220	(3)	Principles of Geochemistry
EPSC 231	(3)	Field School 1
EPSC 250 or (3)		Natural Disasters
ATOC 250		
EPSC 320	(3)	Elementary Earth Physics
EPSC 331	(3)	Field School 2
EPSC 341	(3)	Field School 3
EPSC 425	(3)	Sediments to Sequences
EPSC 455	(3)	Sedimentary Geology
EPSC 542	(3)	Chemical Oceanography

6 credits selected from:

ATOC 219	(3)	Introduction to Atmospheric Chemistry
ATOC 250 or (3)		Natural Disasters
EPSC 250		
ATOC 308 or (3)		Principles of Remote Sensing
GEOG 308		
ATOC 412	(3)	Atmospheric Dynamics

6.12.9 Environment

The requirements for the B.A. & Sc. Interfaculty Program and the Honours Program in Environment are described in detail in the section on McGill School of Environment. Please [see section 14.7 "B.A. & Sc. Interfaculty Program in Environment"](#) or [see section 14.10 "Honours Program in Environment"](#).

6.12.10 Geography (GEOG)

The Department of Geography, the discipline, and specific courses are described in the Faculty of Science section of the Calendar.

Note that students may take a Geography program either in Arts or in Science, but not in both.

The following are considered Arts programs in the B.A. & Sc. and are described in the Faculty of Arts section of the Calendar:

- Major Concentration in Geography
- Major Concentration in Geography (Urban Systems)
- Minor Concentration in Geography
- Minor Concentration in Geography (Urban Systems)

The following are considered Science programs in the B.A. & Sc. and are described either below (Major Concentration) or in the Faculty of Science section (Minors) of the Calendar:

- Major Concentration in Geography (Physical Geography)
- Minor in Geographical Information Systems
- Minor in Geography

MAJOR CONCENTRATION PHYSICAL GEOGRAPHY OPTION
(36 credits)

The Major Concentration in Geography, which is restricted to students in the B.A. & Sc., is a planned sequence of courses designed to permit a degree of specialization in this discipline.

Required Courses (12 credits)

GEOG 201	(3)	Introductory Geo-Information Science
GEOG 202	(3)	Statistics and Spatial Analysis
GEOG 203	(3)	Environmental Systems
GEOG 272	(3)	Earth's Changing Surface

Complementary Courses (24 credits)

6 credits of analytical techniques selected from:

GEOG 306	(3)	Raster Geo-Information Science
GEOG 308 or	(3)	Principles of Remote Sensing
ATOC 308		

GEOG 351 (3) Quantitative Methods

3 credits of field courses selected from:

GEOG 495	(3)	Field Studies - Physical Geography
GEOG 496	(3)	Geographical Excursion
GEOG 497	(3)	Ecology of Coastal Waters
GEOG 499	(3)	Subarctic Field Studies

9 - 15 credits in systematic physical geography selected from:

GEOG 305	(3)	Soils and Environment
GEOG 321	(3)	Climatic Environments
GEOG 322	(3)	Environmental Hydrology
GEOG 350	(3)	Ecological Biogeography
GEOG 372	(3)	Running Water Environments

0 - 6 credits in integrative and advanced topics selected from:

GEOG 302	(3)	Environmental Management 1
GEOG 501	(3)	Modelling Environmental Systems
GEOG 505	(3)	Global Biogeochemistry
GEOG 506	(3)	Advanced Geographic Information Science
GEOG 536	(3)	Geocryology
GEOG 537	(3)	Advanced Fluvial Geomorphology
GEOG 550	(3)	Historical Ecology Techniques

6.12.11 Mathematics

The requirements for the B.A. & Sc. Major Concentration in Mathematics are described in detail in [section 5.12.36 "Mathematics and Statistics \(MATH\)"](#) of the Faculty of Arts section of the Calendar.

6.12.12 Physics (PHYS)

The Department of Physics, the discipline, and specific courses are described in the Faculty of Science section of the Calendar.

MAJOR CONCENTRATION IN PHYSICS (36 credits)

The Major Concentration in Physics, which is restricted to students in the B.A. & Sc. or B.Sc./B.Ed., (see [section 12.13.34 "Science or Mathematics for Teachers"](#)), is a planned sequence of courses designed to permit a degree of specialization in this discipline.

Required Courses* (30 credits)

MATH 222	(3)	Calculus 3
MATH 223	(3)	Linear Algebra
MATH 314	(3)	Advanced Calculus
MATH 315	(3)	Ordinary Differential Equations
PHYS 230	(3)	Dynamics of Simple Systems
PHYS 232	(3)	Heat and Waves
PHYS 257	(3)	Experimental Methods 1
PHYS 333	(3)	Thermal and Statistical Physics
PHYS 340	(3)	Majors Electricity and Magnetism
PHYS 446	(3)	Majors Quantum Physics

* Required courses taken at CEGEP or elsewhere that are not credited toward the B.A. & Sc. or B.Sc./B.Ed. (see [section 12.13.34 "Science or Mathematics for Teachers"](#)) must be replaced by courses from the Complementary Course List.

Complementary Courses (6 credits)

6 credits selected from:

PHYS 214	(3)	Introductory Astrophysics
PHYS 225	(3)	Musical Acoustics
PHYS 241	(3)	Signal Processing
PHYS 258	(3)	Experimental Methods 2
PHYS 334	(3)	Advanced Materials
PHYS 534	(3)	Nanoscience and Nanotechnology

or any 300- or 400-level course approved by an adviser

6.12.13 Psychology

The requirements for the B.A. & Sc. Major Concentration in Psychology, Joint Honours Component in Psychology and Minor Concentration in Psychology are described in detail in [section 5.12.43 "Psychology \(PSYC\)"](#) of the Faculty of Arts section of the Calendar.

7.1.3 The Faculty Then and Now

The Faculty of Education traces its beginnings back to 1857, when the McGill Normal School was established at McGill by agreement between the University and the Government of Quebec. In 1907, it was renamed the School for Teachers and was moved to Sainte-Anne-de-Bellevue, where it became part of Macdonald College. At this time also, the Macdonald Chair of Education was endowed at McGill University and a Department of Education was created in the Faculty of Arts and Science for the purpose of preparing candidates for the High School Diploma. The first graduate program was inaugurated in 1930, and in 1953, the University established the B.Ed. degree.

In 1955, the School for Teachers and the Department of Education were combined to become the Institute of Education within the Faculty of Arts and Science. To these was joined, in 1957, the McGill School of Physical Education (founded in 1912).

The Institute was reconstituted as the Faculty of Education in 1965 and the work continued on both the McGill and Macdonald Campuses. The St. Joseph Teachers College and the Faculty of Education were amalgamated in 1970 and relocated in a new building on the McGill Campus. In 1996, the Graduate School of Library and Information Studies became affiliated with the Faculty.

The Faculty serves approximately 2,000 students enrolled in undergraduate, graduate and professional development programs. The Faculty is organized into three departments and the Graduate School of Library and Information Studies. In addition, the Faculty has a number of research and service centres, several of an interdisciplinary nature.

Like other faculties of education in Quebec and Canada, the Faculty has had a traditional role in the initial training of teachers and leaders in education-allied occupations. It is also concerned with constructing knowledge through research and scholarship and with providing professional development services to the wider educational community.

In recent years a number of links have been established with counterparts in other countries for teaching, research and development purposes. Current active projects, some of which involve students as well as staff, include those in Japan, Indonesia, South Africa and Mexico.

7.1.4 Faculty Facilities

Education Library and Curriculum Resources Centre

The Education Library and Curriculum Resources Centre, located on the first floor of the Education Building provides materials and services to support the teaching and research programs of the Faculty. The library collection includes over 122,000 monograph volumes, 500 periodical titles microforms, government publications and access to a vast range of full-text electronic journals.

The Curriculum Resources Centre collection includes elementary and secondary school textbooks, teachers' resource guides, videos, DVDs, CD's, games, kits, puppets, big books, and equipment for viewing and listening. A Children's Literature Collection of fiction, non-fiction, poetry, folklore, and picture books is located on the left as you enter the Library.

Tours and instructional workshops are offered at the beginning of each term to individual students and to classes. These provide an introduction to library resources and information skills that will help you in preparing course assignments and writing research papers. They cover topics such as searching the Library Catalogue (MUSE), finding course materials on reserve, and locating articles and other materials via databases such as ERIC; PsychINFO; Education Full Text and others. EndNote workshops will show you how to easily create footnotes and reference lists when writing your term papers.

The Education Library provides computers for student use, tables and carrels to connect laptops, wireless access, as well as

photocopiers, printers and scanners. You may select to work in the quiet study area of the E-Zone, prefer group study in the Curriculum Resources Centre or in one of the two group study rooms, or just relax on a lounge chair in an informal seating area.

Visit the Education Library Website to learn more about library loans, hours, reserve readings, and links to important education sites. We look forward to seeing you in the Library.

Head Librarian: Marilyn Cohen

Telephone: (514) 398-4689

Website: www.mcgill.ca/education-library

Education Undergraduate Society (EDUS)

The Society is the students' voice of undergraduates within the Faculty and its primary purpose is to serve and to inform the students. It also attempts to unify students through sponsorship of activities such as career placement, student orientation, participation in teachers' conventions, library donations and the organization of an Education Career Fair. Other activities include the assignment of lockers for students, selling merchandise in the Spirit Store, the coordination of the Graduation Ball, as well as fundraising and events throughout the academic year. Students are encouraged to participate and to make their opinions known. The Society Office is located in Room B179 of the Education Building.

Telephone: (514) 398-7048

Fax: (514) 398-2476

E-mail: president.edus@mail.mcgill.caWebsite: www.mcgilledus.ca

Media Services

Media Services specializes in helping all Education students and teaching staff use a broad selection of educational media technologies. We feature experienced technical support staff and provide free access to a wide range of multimedia, computer and audiovisual equipment and facilities for course and research work.

Highlighted in our educational equipment inventory is a 30 seat mobile laptop computer lab. This lab provides wireless access to the Internet in most of our classrooms. We also boast an eight seat video editing lab featuring workstations with large 20" screens and DVD burners. This lab can support up to 50 concurrent video projects. While the lab is configured and used extensively for video editing many other popular multimedia applications are also available. These include PowerPoint production, photo editing, audio editing, creation of PDF files and website development.

For course and research work students and staff can select from the following equipment loan inventory:

- Windows laptop computers
- Macintosh laptop computers
- Mobile 30 seat wireless laptop lab
- Mobile computer presentation carts with data projectors
- Portable data projectors for computer and video
- Document cameras
- Digital video cameras
- Digital still cameras
- Digital audio recorders
- Portable stereos (CD, MP3 and cassette playback)

In-class technical support services are provided as needed, both by appointment and in urgent situations, as well as through ongoing maintenance of classroom technology facilities. All classrooms in the Faculty have Internet access, most being equipped with wireless (wi-fi) connectivity. Most classrooms have permanently installed data projectors for computer and video display. Students and teaching staff can connect to these using their own laptop computers or one borrowed from our equipment loan inventory. MP3 and audio CDs can also be played in these classrooms.

We provide free technical production services to all teaching staff for creating teaching materials and the recording of teaching events. This service requires advance reservation and carries charges for consumables. All free technical work is restricted to Faculty of Education courses. Production services include video,

photography, websites, PowerPoint, booklets, pamphlets, posters, banners, and media duplication when not prohibited by copyright. Production services are also available to research and administration clientele at competitive pricing.

Conferences sponsored by the Faculty and held in the Education building have access to a full range of technical support services including pre-conference planning, promotional and conference day materials preparation, and extensive conference-day technical support staff.

Instructional functions comprise small group workshops and Media Services facilities tours (both by appointment only), individual equipment and software operation assistance and troubleshooting, and technical support to courses.

Media Services manages and maintains the Faculty web server and participates in maintaining the Faculty Website.

Sessional Hours (September to June):

Monday to Thursday	08:15 - 20:45
Friday	08:15 - 16:45

Summer Hours (July):

Monday to Thursday	08:15 - 16:45
--------------------	---------------

Annual Closing (August):

Media Services re-opens one week before Fall classes begin.

Please note that the above schedule varies slightly from year to year. Exact schedules will be posted at the Media Services entrance and on the Website: www.mcgill.ca/education/resources/media.

Media Services is closed on Saturdays, Sundays and holidays.

Media Services is located in Room 219 of the Faculty of Education.

Manager: Mr. Jim Harris

Telephone: (514) 398-6950

Website: www.mcgill.ca/education/resources/media

Computer Facilities

The Faculty has a large computer complex located in Room 328 of the Education Building. It houses a lab with Windows computers, a second lab with Apple Macintosh computers, and a smaller work area with additional computers. Colour and black-and-white laser printing and scanning facilities are available. Consultants are available for help. This facility is available for courses, workshops and individual use by Education students and staff.

Closed Sundays, holidays and during August.

Hours for the Fall and Winter terms are:

Monday to Thursday	09:00 - 21:00
Friday	09:00 - 17:00
Saturday	11:00 - 16:00

Website: www.mcgill.ca/education/resources/lab

McGill Career and Placement Service (CAPS)

Refer to the General University Information section for further information on this service.

For Information, contact:

Career Adviser: Antonella Nizzola

Telephone: (514) 398-2484

E-mail: Antonella.nizzola@mcgill.ca

Website: www.mcgill.ca/edu-sao/careerandplacementservices

McGill Journal of Education

The *McGill Journal of Education* is an open-access, online journal that is posted at least three times a year - Winter, Spring, and Fall. It includes work in English and French from local, national, and international sources. The *Journal* publishes peer-reviewed research articles, essays, reports from the field, and book reviews. It is concerned with major issues in education from a variety of perspectives, practical and theoretical, personal and collective. Its policy is to bring new ideas and research into a context open to

teacher educators and scholars, as well as to parents, teachers, and administrators.

A.S. Lamb Learning Centre

The A.S. Lamb Learning Centre, consisting of the Computer Laboratory, the multimedia unit and the reading room, is located on the second floor of the Sir Arthur Currie Memorial Gymnasium. The computer lab houses 25 computers connected to the McGill network and is available for courses, workshops and individual use by students and staff. Laser printing is also available at a cost. Access to the McGill wireless network is available for laptops equipped with a wireless card.

The multimedia unit features two IMAC computers with "Final Cut" DV and HDV video editing software, one VHS & DVD Recorder and a Flatbed Duplex high-speed Scanner. This facility is used for video editing, transfer of VHS, DV to DVD and high speed scanning.

Hours: Monday to Friday 09:00 - 16:00

Evolution Education Research Centre (EERC)

Mission: "To advance the teaching and learning of biological evolution through research." It opened its doors at McGill in 2001 with 4 McGill professors and 4 Harvard professors who have expertise in anthropology, biological evolution, educational psychology, geology, molecular biology, palaeontology, philosophy of science/education and science education.

Director: Dr. Brian Alters

Manager: Jason Wiles

Office: Education Building, Room 355

Telephone: (514) 398-5469

Centre for the Study and Teaching of Writing

The Centre for the Study and Teaching of Writing serves the University, the larger educational community, business and the professions by offering a wide variety of writing courses, developing curricula, providing consultation and workshops, and conducting research, especially in writing development and writing in academic and professional settings.

The Centre is located in the Education Building, Room 244

Director: Dr. Anthony Paré

Telephone: (514) 398-6960

Seagram Sport Science Centre

The Seagram Sport Science Centre, opened in 1993, houses five laboratories for faculty and graduate students in the Department of Kinesiology and Physical Education. The five laboratories include Adapted Physical Activity, Exercise Physiology, Biomechanics, Health & Sport Psychology and Motor Control. The activities of the Centre include ongoing research programs funded in part by CIHR, NSERC, SSHRC and CFI grants, performance testing of elite athletes, joint research activities with other departments within McGill and industry.

Director: Dr. David Pearsall, Faculty of Education

Telephone: (514) 398-4184 ext. 09976

Office of Student Teaching (OST)

The Office of Student Teaching is responsible for the planning and implementation of field experiences and arranging with school boards and schools for the placement of student teachers in the

Bachelor of Education programs. The Office coordinates student teaching among Departments within the Faculty, and develops partnerships with the education community. The Office offers training to colleagues in schools.

Office Hours: Monday to Friday 08:30 - 17:00

Director: Professor Fiona J. Benson
 Office: Education Building, Room 431A

 Website: www.mcgill.ca/edu-sao

7.2 Faculty Programs

The Faculty of Education offers three different kinds of programs.

Undergraduate Programs

The Faculty offers programs leading to the Bachelor of Education (B. Ed.) degree for those wishing to become teachers, and a B.Sc. (Kinesiology). Advanced standing may be given to those already holding a university degree.

Programs of Professional Development

For qualified teachers wishing to enhance their knowledge and skills, the Faculty offers programs of professional development leading to specialized Certificates and Diplomas. Most courses that are required to complete these programs are offered in the evenings and in the summer.

Graduate Programs

The Faculty offers graduate programs for those already holding a university degree who wish to pursue advanced study and research leading to master's and doctoral degrees in various fields of education and psychology, and library and information studies.

Undergraduate programs of initial teacher education are described in this Calendar, programs of professional development are described in the most current *Centre for Continuing Education Calendar*, and graduate programs are described in the most current *Graduate and Postdoctoral Studies Calendar*.

7.2.1 Undergraduate Education Programs

The Faculty of Education offers the following Undergraduate programs. Details of each program may be found in this Calendar under the headings of the appropriate department. The credit weights given are for students who have completed a Quebec CEGEP degree, or have been granted 30 credits of advanced standing.

All Bachelor of Education programs have been accredited by the Comité d'agrément des programmes de formation à l'enseignement (CAPFE).

For "[Bachelor of Education Secondary Program](#)", see [section 7.6.1.1, page 210](#). A 120-credit program offered by the Department of Integrated Studies in Education.

For "[Bachelor of Education Kindergarten and Elementary Program](#)", see [section 7.6.1.4, page 212](#).

For "[Bachelor of Education Kindergarten and Elementary Program \(First Nations and Inuit Studies Option\)](#)", see [section 7.6.1.5, page 213](#). A 120-credit program, offered by the Department of Integrated Studies in Education.

For "[Bachelor of Education Kindergarten and Elementary Program \(Jewish Studies Option\)](#)", see [section 7.6.1.7, page 214](#). Students taking this option take 126 credits, offered by the Department of Integrated Studies in Education.

For "[Baccalauréat en enseignement du français langue seconde](#)", see [section 7.6.1.8, page 214](#). A 120-credit program, offered by the Department of Integrated Studies in Education jointly with the Université de Montréal.

For "[Bachelor of Education in Teaching English as a Second Language](#)", see [section 7.6.1.9, page 215](#). A 120/121-credit program offered by the Department of Integrated Studies in Education.

For "Bachelor of Education Physical Education", no new students will be admitted to this program; refer to previous Calendars for program details.

For "[Bachelor of Education Physical and Health Education](#)", see [section 7.7.1.1, page 220](#). A 120-credit program offered by the Department of Kinesiology and Physical Education.

For "[Concurrent Bachelor of Education in Music and Bachelor of Music \(Music Education\) Program](#)", see [section 7.6.1.2, page 210](#). A 143/144-credit program offered jointly by the Department of Integrated Studies in Education and the Schulich School of Music. See also [section 10.6.5 "B.Mus./B.Ed. Bachelor of Music and Bachelor of Education Concurrent Program"](#).

For "[Concurrent Bachelor of Science \(Major or Major Concentration with a Minor for Teachers\) and Bachelor of Education Secondary Program](#)", see [section 7.6.1.3, page 212](#). This program is offered jointly by the Department of Integrated Studies in Education and the Faculty of Science.

A student who successfully completes any of the above programs, (and meets other requirements set out by the MELS (Ministère de l'Éducation, du Loisir and du Sport) is recommended for certification as a teacher in the province of Quebec, see [section 7.2.1.3 "Quebec Teacher Certification"](#), on [page 201](#).

For "Bachelor of Education Kinesiology", no new students will be admitted to this program; refer to previous Calendars for program details.

For "[Bachelor of Science \(Kinesiology\)](#)", see [section 7.7.2, page 221](#). A 90-credit program offered by the Department of Kinesiology and Physical Education.

The program entails a comprehensive understanding of human movement. Kinesiology is a multidisciplinary field viewing human movement from social, historical, psychological, or biological perspectives. The program provides students with a breadth of theoretical knowledge as well as an opportunity to explore related areas in greater depth, including minor programs available elsewhere within the University. Students may opt for either General or Applied emphasis, with an Honours program available for particularly strong students.

7.2.1.1 General Admission Requirements

For information about admission requirements to the B.Ed, B.Sc. (Kinesiology) or the Concurrent B.Sc./B.Ed. or B.Mus./B.Ed. programs please refer to the Undergraduate Admissions Guide, found at www.mcgill.ca/applying/undergrad. Applicants to the Concurrent B.Sc./B.Ed. apply through the Faculty of Science, and to the Concurrent B.Mus./B.Ed. apply through the Faculty of Music.

For information about Inter-Faculty Transfer or Readmission, please see [section 3.3.12 "Inter-Faculty Transfer"](#), or [section 3.3.13 "Readmission"](#), as well as information posted on the

Student Affairs Office Website www.mcgill.ca/edu-sao/admissions.

Although no additional prerequisite courses are required, the Faculty recommends that applicants to the B.Ed. Secondary, Science & Technology, and B.Ed. Physical & Health Education programs have appropriate background science and mathematics courses, i.e., biology, chemistry, physics and mathematics. Students having other backgrounds will be considered for admission but will be required to complete prerequisite courses in mathematics and science that may increase the number of credits required for the degree.

Language Requirement for Applicants to B.Ed. TESL Program
Applicants to the B.Ed. TESL program are required to pass written and oral language tests in order to fulfill the admission requirements of this program. Upon admission to the program, students will be granted exemption from EDEC 215 (English Language Requirement).

7.2.1.2 Credit Requirements

Students are normally admitted to a five year B.Ed. degree requiring the completion of 150 credits, or a four year B.Sc. (Kinesiology) degree requiring the completion of 120 credits. Students who have completed Quebec CEGEP, French Baccalaureate, International Baccalaureate or at least one year of university studies are normally enrolled in a four-year B.Ed. program, or three-year B.Sc. (Kinesiology) program.

Students entering the five B.Ed., or four year B.Sc.(Kinesiology) degree are in Year 0 and are required to complete the freshman requirements applicable to their program.

Students who have completed previous university studies may be awarded transfer credits for their course work. This can only be determined after the formal application and all necessary supporting documents have been received by Enrolment Services. A minimum of 60 credits must be completed while in residence at McGill University in order to be eligible for a degree. Courses taken more than 5 years before the time of admission are not permitted in subjects where there have been substantial content changes, nor in any pedagogy courses specific to the Quebec K-11 curriculum. Courses more than 5 years old in other subject areas may be considered on an individual subject basis by the program director. For more details, see the *Undergraduate Admissions Guide*, found at www.mcgill.ca/applying/undergrad.

7.2.1.3 Quebec Teacher Certification

Please note that graduates of teacher education programs are recommended by the University for Quebec Certification to the Quebec Ministère de l'Éducation, du Loisir et du Sport (MELS).

Teacher Certification in Quebec is the responsibility of the MELS. Students who complete requirements for the Bachelor of Education degree and who meet the MELS requirements (specified below) are recommended for certification.

All graduates of the Bachelor of Education Teacher Education programs who are Canadian citizens or Permanent Residents may apply for a permanent Teaching Diploma (Brevet) immediately upon graduation.

In order to be eligible for a “Permit to Teach” or a permanent Quebec Diploma, candidates must be either Canadian citizens or Permanent Residents.

In June 2005, the National Assembly of Quebec adopted an Act amending the Education Act and the Act respective of Private Education. The amendments concern the verification of judicial antecedents of persons holding or applying for a permit to teach in the youth, adult and vocational sectors.

Anyone seeking Teacher certification in the Province of Quebec is required to submit a confidential declaration concerning their judicial record to the Minister of Education. This document is available on the MELS Website at www.meq.gouv.qc.ca/dftps/interieur/PDF/Antecedents_judiciaires_a.pdf.

In addition to meeting these requirements, candidates for Teacher certification must be recommended by McGill University in a series of core professional competencies specified in

“Teacher Training Orientations – Professional Competencies” (MEQ 69-2099A).

Holders of a temporary Permit or of a permanent Diploma wishing to teach in another province or in another country must apply directly to the Teacher Certification Agency in the relevant province or country. Similarly, teachers from other provinces or countries who wish to teach in Quebec must apply to the:

Ministère de l'Éducation du Loisir et du Sport
600 Fullum, 10e étage
Montréal, QC H2K 4L1
Telephone: (514) 873-4630

Please refer to the following web site for further information on obtaining a Quebec Teaching Licence www.mels.gouv.qc.ca.

It is recommended that applicants intending to teach outside of Quebec obtain information beforehand concerning the requirements for certification.

Fluency (oral and written) in the language of instruction is a requirement for all those seeking certification.

7.2.2 Programs of Professional Development

The Faculty of Education offers programs of professional development in several fields. All such programs are 30 credits, unless otherwise indicated, and may be completed through part-time study. They are intended to provide an opportunity for teachers and other educators to enhance their existing knowledge and skills or to develop new ones, and thus are normally available only to those who are already certified as teachers.

Detailed information regarding general regulations, admission requirements and program profiles for the following certificates and diplomas may be found in the section for offering departments.

Department of Educational and Counselling Psychology

Certificate in Inclusive Education
Diploma in Human Relations and Family Life Education
Graduate Certificate in Counselling Applied to Teaching
Further information is available from the program coordinator:
Dean Thomson
Office: Education Building, Room 614
Telephone: (514) 398-4248
Fax: (514) 398-6968
E-mail: dean.thomson@mcgill.ca

Department of Integrated Studies in Education

First Nations and Inuit Education (FNIE)

The Department of First Nations and Inuit Education coordinates the work which the Faculty of Education carries out cooperatively with various Indigenous communities and institutions. All courses are normally given off campus. In collaboration with the Nunavut Teacher Education Program, the Kativik School Board, the Cree School Board, the Kahnawake Education Centre, and various other Indigenous communities in Quebec, FNIE delivers field-based teacher education programs leading to initial teacher certification and to the B.Ed.Cert.Teach. degree. FNIE also works with departments to meet other educational needs of Indigenous peoples.

Director: Professor Donna-Lee Smith
Office: Education Building, Room 244
Telephone: (514) 398-4533
Fax: (514) 398-2553
E-mail: donnalee.smith@mcgill.ca

Website: www.mcgill.ca/edu-integrated

Centre for Educational Leadership (CEL)

CEL, a unit of the Department of Integrated Studies in Education, is committed to the development of leadership for all educational stakeholders through teacher preparation, graduate studies, research and varied approaches to professional development. The Centre seeks to promote dialogue, partnerships and projects among teachers, policy makers and other educational leaders in the local community and beyond through credit and non-credit work, research and development activities.

Director: Dr. Lynn Butler-Kisber
CEL is located in the Faculty of Education (Room 442)
Telephone: (514) 398-6961 extension 1591
Fax: (514) 398-7436
Website: www.mcgill.ca/edu-integrated

Courses offered through Continuing Education and Summer Studies

A wide range of courses, enabling students either to acquire pre-requisite credits or to earn credit towards their degree, is offered through Continuing Education and Summer Studies. For courses offered, please check Minerva.

7.2.3 Programs for First Nations and Inuit

The following programs are offered for First Nations and Inuit teachers by the Faculty of Education. Information can be obtained by contacting:

Office of First Nations and Inuit Education (OFNIE)
3700 McTavish Street, Room 244
Montreal, QC, H3A 1Y2
Telephone: (514) 398-4533
Fax: (514) 398-2553
Website: www.mcgill.ca/edu-integrated/fnie

Bachelor of Education Kindergarten and Elementary Program
(First Nations and Inuit Studies Option)

Detailed information about this program may be found in [section 7.6.1.5 “Bachelor of Education Kindergarten and Elementary Program \(First Nations and Inuit Studies Option\)”](#):

Detailed information about the following programs may be found in [section 7.6.2 “Programs for First Nations and Inuit”](#):

B.Ed. for Certified Teachers (Elementary Education)

Certificate in Education for First Nations and Inuit

Certificate in First Nations and Inuit Student Personnel Services
(This program is offered by the Department of Educational Psychology and Counselling through the Office of First Nations and Inuit Education. Restrictions apply to enrolment.)

Certificate in Middle School Education in Aboriginal Communities

Certificate in First Nations and Inuit Educational Leadership

Certificate in Aboriginal Education for Certified Teachers

7.3 Faculty Regulations for Undergraduate Programs

Please consult the General University Information section for regulations and procedures regarding registration, fees, course load, course change (drop/add), withdrawal, verification, examinations, inter-university transfer, and graduation. In addition, the following section provides regulations specific to Faculty of Education students.

Note: Each student in the Faculty of Education must be aware of and comply with the Faculty regulations as stated in this Calendar. While departmental and Faculty advisers and staff are always available to give advice and guidance, the ultimate responsibility for complete and correct course selection and registration, for compliance with, and completion of, program and degree requirements, and for the observance of regulations and deadlines, and for academic records, rests with the student. It is the student's responsibility to seek guidance. Misunderstanding will not be accepted as cause for dispensation from any regulation, deadline, program or degree requirement.

Advising

Refer to [section 4.1 “Undergraduate Advising”](#), and the Student Affairs Website, www.mcgill.ca/edu-sao/advisinginfo/advisors, for further information. Assistance is also available by e-mailing sao.education@mcgill.ca.

All **newly admitted** students are required to attend the academic advising sessions scheduled during August prior to the beginning of the Fall term. For a detailed description of advising and registration procedures, students should refer to *Welcome to McGill*, which is sent to all newly admitted students by the Admission, Recruitment and Registrar's Office upon their acceptance, as well as the Student Affairs Website, www.mcgill.ca/edu-sao/advisinginfo/new.

Academic advising for all **returning students** takes place in March for the upcoming academic year. Detailed advising and registration information is posted on the Student Affairs Website: www.mcgill.ca/edu-sao/advisinginfo/returning. Students entering their graduating year are encouraged to meet with their adviser during this advising period.

All students admitted into the Freshman Year (Year 0) are required to meet with an adviser during the Advising period in August. Please see [section 7.3 “Faculty Regulations for Undergraduate Programs”](#) for further information.

A list of recommended courses for Freshman (Year 0) students is available on the Website www.mcgill.ca/edu-sao/advisinginfo/freshman.

7.3.1 Code of Professional Conduct

Faculty of Education programs have professional components and field placements. In all aspects of any program, on campus and off, students are expected to demonstrate ethical, responsible, and professional behaviour in the performance of their duties, to conduct themselves in accordance with the law (e.g., Youth Protection), and to meet the expectations of schools, boards and other host institutions receiving them for field placements. This applies to all aspects of professional conduct, including but not limited to respect for persons, property and confidentiality, appropriate dress and punctuality. Failure to meet these expectations, regardless of performance in courses or other formal program requirements, will be taken into account in the assessment of the students' overall academic standing in the program and, in the most serious instance, may result in a requirement to withdraw from the program.

7.3.2 English Language Requirement

The Quebec Ministère de l'Éducation, du Loisir et du Sport (MELS), and the Faculty of Education require that all students in teacher education programs demonstrate their proficiency in the language of instruction. To fulfill this obligation, all students are required to write an English Language Proficiency Test (EDEC 215) before the end of their first semester in the program. Students will be notified of the time and place after acceptance. Students who do not pass the test the first time and who wish to remain in the program will be required to take specified courses(s) (above and beyond program requirements) to improve the quality of their English language skills. Students who were unsuccessful in their first test in the first year in the program will be required to register and take the test again. Students who do not pass the second test will be placed in unsatisfactory standing and must withdraw from the program.

Note: This requirement does not apply to students in the B.Ed. TESL, B.Ed. TFSL or the Certificate in Education for First Nations and Inuit programs.

7.3.3 Additional Requirements for Students admitted to B.Ed TFSL program

Students admitted to the B.Ed. TFSL program are required to write diagnostic tests in French Language and mathematics. Based on test results students may be required to successfully complete remedial courses above and beyond degree requirements. In addition there may be a compulsory French language test for TFSL students prior to their Third Field Experience. Students will be required to pass this test in order to continue in the program.

7.3.4 Judicial Record Verification for Students in the Bachelor of Education Programs

Quebec's Education Act, section 261.0.2, grants school boards the right to verify the judicial record of any person regularly in contact with minor students, and this includes student teachers. Each school board or private school may have its own administrative procedures for verification. Students are responsible for complying with their request. Anyone unable to obtain the required security clearance will not be permitted to undertake their field experiences and consequently would have to withdraw from the program as this is a mandatory requirement of the program. More information can be found on the Student Affairs Office Website.

7.3.5 Course Information

Course Load

Undergraduate Education programs can normally only be followed on a full-time basis. Students must take a minimum of twelve (12) credits per term unless the Associate Dean (Teaching, Learning and Students) gives them special permission. Special permission must be requested prior to the end of Course Add/Drop period.

Any absence or reduction in course load that may impact the regular progression of a student's program must have written approval by the Associate Dean (Teaching, Learning and Students).

The normal course load per term is 15 credits. Students whose GPA is above 3.00 may take up to 18 credits per term. Overloads are not allowed in major field experience terms for students in the B.Ed. programs.

Time Limit for Completion of Degrees

Students are expected to complete their program in no more than five (5) years after their initial registration for the degree. Students who enter in a freshman year become subject to these regulations one year after their initial registration. Students who exceed these limits must apply to the Faculty for permission to continue.

Course Requirements

All required and complementary courses used to fulfill program requirements must be completed with a grade of C or better. A failure (F, J, KF, WF) in any level of field experience or the English Language Proficiency Test (EDEC 215), second attempt, places a student in unsatisfactory standing requiring withdrawal from the program. Further details on requirements for field experience are listed in [section 7.4 "Student Teaching/Field Experience"](#).

Courses Taken as Transfer Credit

Please refer to [section 3.5.5 "Transfer Credits"](#) for further information. **Students are not permitted to take transfer courses during their graduating term.**

Courses Taken under Satisfactory/Unsatisfactory Option

Required or Complementary courses cannot be taken under this option. Please consult [section 3.3.6 "Courses Taken under the Satisfactory/ Unsatisfactory \(S/U\) Option"](#).

Course Equivalencies

For the Bachelor of Education programs, the following 3-credit courses are considered equivalent:

- EDEC 233 First Nations and Inuit Education (formerly EDEE 441)
- EDEC 248 Multicultural Education
- EDEC 410 Multi-cultured/Multi-racial Class (retired Fall 2005)
- EDER 464 Intercultural Education (retired Fall 2005)

(Only one of these courses may be taken for credit.)

Also for the Bachelor of Education programs, the following 3-credit courses are considered equivalent:

- EDES 201 Effective Written Communication
- EDEC 202 Effective Communication
- EDEC 203 Communication in Education

(Only one of these courses may be taken for credit.) Credit for Ele-

mentary Computing ACOM150, offered by the Faculty of Arts, will not be given if taken concurrently with or after EDPT 200.

Dress Regulations

All students enrolled in teacher certification programs are advised that school boards and individual schools may have regulations concerning acceptable attire. Students must adhere to any such regulations.

Students in Kinesiology and Physical Education programs are required to wear appropriate clothing for activity courses as approved by the instructor(s). Students may also be responsible for providing some items of personal equipment.

7.3.6 Registration

All students register by Minerva, McGill's Web-based registration system. For detailed information about registration please refer to [section 3.3 "Registration"](#), *Welcome to McGill*, the Student Affairs Website www.mcgill.ca/edu-sao, and to the Student Records Website www.mcgill.ca/student-records.

Course Selection

Students in Faculty of Education programs should register for the courses as outlined in the individual program overviews and advising material posted on the Student Affairs Office Website, www.mcgill.ca/edu-sao. For more information on registration, see [section 3.3 "Registration"](#).

Students in the B.Ed. programs who are required to be registered for Field Experience should consult [section 7.4 "Student Teaching/Field Experience"](#) for more information.

Withdrawals: There are three course withdrawal periods published in the Calendar and on the University Website, www.mcgill.ca/students, or [section 3.3.8 "Regulations Concerning Course Withdrawal"](#). Students may, under exceptional circumstances, be granted permission to withdraw after the published deadlines. Such students should contact the Student Affairs Office for further information.

Students withdrawing from a Field Experience should refer to [section 7.4 "Student Teaching/Field Experience"](#).

7.3.7 Attendance

The pattern of attendance necessary to satisfy the requirements of coursework will vary according to the nature of different subjects and the professors' approaches to them. A course constitutes a contractual, professional, academic and social obligation between the professor and the student. It is, therefore, the responsibility of the professor to make students aware of the unique requirements of a course and the manner in which they may be fulfilled, and the responsibility of the student to meet these requirements.

Field Experience Courses - Punctual attendance is required for the entire Field Experience. Absences are only excused in exceptional circumstances. Please refer to [section 7.4 "Student Teaching/Field Experience"](#).

Students in the B.Ed. programs should be aware that some Field Experiences may begin in August, and some are held in the Spring.

Intensive Courses - While students are responsible for informing themselves of the attendance requirements for all courses, special attention should be made to the requirements for intensive courses scheduled around the Field Experiences. Missing classes in intensive courses may result in exclusion from the course. Students should refer to the individual course outlines.

7.3.8 Grading

During the first week of lectures, each instructor will provide students with a written course outline which should include a description of the means of evaluation to be used in the course. For further information on Grading, please see [section 3.5 "Student Records"](#).

7.3.9 Examinations

Students should see [section 3.6 “Examinations”](#) for information about final examinations and deferred examinations. The exam schedules are posted on the McGill Website www.mcgill.ca/student-records/exam normally one month after the start of classes for the Tentative Exam Schedule, and two months after the start of classes for the Final Examination schedule.

Students are warned not to make travel arrangements to leave Montreal prior to the scheduled end of any examination period.

7.3.10 Academic Standing

Academic standing is based primarily on students' cumulative grade point average (CGPA), but may also be affected by their term grade point average (TGPA). Academic standing, which is assessed after the end of term, determines if students will be allowed to continue their studies in the next term and if any conditions will be attached to their registration. Information about academic standing appears on records that are internal to McGill for the information of students and others, such as academic advisers.

Decisions about academic standing in the Fall term are based only on grades that are available in January. Grades for courses in which students have deferred examinations and Fall-term grades for courses that span the Fall and Winter terms do not affect academic standing for the Fall term, even though they will ultimately affect students' Fall TGPA. Therefore, academic standing for the Fall term are designated as “interim” and should be interpreted as advisory. **Interim standing decisions are mentioned below only if the rules for them differ from those for regular standing decisions.**

7.3.10.1 Satisfactory/Interim Satisfactory Standing

Students in interim satisfactory or satisfactory standing may continue in their program; have a CGPA of 2.00 or greater.

7.3.10.2 Probationary/Interim Probationary Standing

Interim Probationary Standing at the end of the Fall term

- may continue in their program
- should evaluate their course load and reduce it
- should consult with their program adviser before the withdrawal deadlines
- are permitted to proceed with the next scheduled Field Experience course, i.e., Winter or Spring, for First- or Second-Year Field Experiences only.

Probationary Standing at the end of the Winter Term

- may continue in their program,
- must carry a reduced load (maximum 14 credits per term)
- are not permitted to take any level student teaching/field experience course during the next academic year.
- must raise their TGPA and CGPA to return to satisfactory
- should see their departmental adviser to discuss their course selection.

Students will be placed in Probationary Standing:

- if their CGPA falls between 1.50 and 1.99, and if they were previously in satisfactory standing;
- if they receive a grade of D for any level Field Experience course and were previously in satisfactory standing;
- if their CGPA falls between 1.50 and 1.99 and their TGPA in Fall or Winter is 2.50 or higher, and if they were previously in probationary or interim unsatisfactory standing;
- if their CGPA is between 1.50 and 1.99, and they were previously in unsatisfactory readmitted standing, and have satisfied the relevant conditions specified in their letter of readmission.

7.3.10.3 Unsatisfactory/Interim Unsatisfactory Standing

Interim Unsatisfactory standing at the end of the Fall term

- may continue in their program,
- should evaluate their course load and reduce it as appropriate.
- should consult a departmental adviser, before the withdrawal deadlines, about their course selection for the Winter term.
- will not be permitted to proceed with the next normally scheduled Field Experience.

Unsatisfactory Standing at the end of the Winter term

- have failed to meet the minimum standards set by the Faculty,
- may not continue in their program.

Readmitted Unsatisfactory Standing

Students who were previously in unsatisfactory standing and who were readmitted to the Faculty by the Associate Dean or the Committee on Student Standing will have their standing changed to readmitted unsatisfactory standing. Their course load is specified in their letter of readmission, as are the conditions they must meet to be allowed to continue in their program. They should see their departmental adviser to discuss their course selection.

Students will be placed in Unsatisfactory Standing (Winter or Summer term) or Interim Unsatisfactory Standing (Fall term):

- if their CGPA falls or remains below 1.50.
- if their TGPA falls below 2.50 and their CGPA is below 2.00 and they were previously in probationary, unsatisfactory readmitted, or interim unsatisfactory standing
- if they receive a failure (F, J, KF, WF) in any level of student teaching/Field Experience course
- if they receive a failure in the English Language Requirement Test for the second time
- if they were previously in unsatisfactory standing and were readmitted to the Faculty by the Associate Dean or the Committee on Student Standing and have not at least satisfied the conditions to attain probationary standing that were specified in the letter of readmission .

Note: Students in either the Concurrent B.Sc./B.Ed. or B.Mus./B.Ed. program who receive an F or J in any Education Field Experience course, or fail the English Language Proficiency Test for the second time, are placed in unsatisfactory standing. Although they may complete their term, they are required to withdraw from the Concurrent program. They may, however, contact the Faculties of Science or Music regarding application to their general degrees.

Readmission

Appeals for readmission by students in unsatisfactory standing should be addressed to the Associate Dean no later than June 1 for readmission to the Fall term. Readmission will be considered only when proof of extenuating circumstances that affected academic performance can be provided (e.g., medical or other documentation). Students who have failed EDEC 215 twice must pass the examination as part of the readmission criteria.

Students in unsatisfactory standing for the second time must withdraw permanently. Students who were placed in unsatisfactory standing due to a failure in student teaching/Field Experience cannot apply for readmission for at least one full year. Please refer to the Student Affairs Office Website for further information www.mcgill.ca/edu-sao/admissions/readmission.

Incomplete Standings

Standing awaits deferred or supplemental exams. Must clear K's, L's or Supplementals. Standing incomplete.

Students with incomplete standings in the Winter or Summer term may register for the Fall term, but their standing must be resolved by the end of the course change period for that term; students whose incomplete standing changes to satisfactory, probationary, or interim unsatisfactory standing may continue in

the program. Students whose standing changes to unsatisfactory may not continue in their program.

Students whose standing changes to unsatisfactory and who wish to ask for permission to continue in their program must make a request to the Associate Dean of Student Affairs as soon as they are placed in unsatisfactory standing. Readmission will be considered only when proof of extenuating circumstances that affected academic performance can be provided (e.g., medical or other documentation).

Students whose standing is still incomplete by the end of course change period should immediately consult with the Student Affairs Office.

7.3.11 Graduation Requirements

To be eligible for a B.Ed. or the B.Sc. (Kinesiology) degree, students must fulfill all Faculty and program requirements. This includes completing the minimum credit requirements for the degree as stipulated in the letter of acceptance; obtaining a grade of C or better in all required and complementary courses; and achieving a minimum cumulative grade point average (CGPA) of 2.00. Students must satisfactorily complete a minimum of 60 credits at McGill University towards the fulfillment of the degree requirements. In addition, students must complete specific components of their program at McGill.

Students enrolled in Kinesiology and Physical Education programs are required, before the end of their final year of study, to show proof of certification in Standard Level Safety Oriented First Aid, and Level C in Cardiopulmonary Resuscitation, or equivalencies.

Students must complete the degree requirements within five (5) years of admission to a program of 90 credits or more, and within four (4) years of admission to a program of 60 credits. Students in the part-time B.Ed. for Certified Teachers and B.Ed. (Vocational) programs are allowed a maximum of 12 years to complete the requirements for the degree.

It is the student's responsibility to ensure that all Faculty requirements are met before graduation.

Early in their graduating year all students should check with their adviser to make sure that they will meet all program requirements in time for graduation. It is essential that students in their final year indicate the expected date of graduation on Minerva and verify this date on Minerva; see [section 3.9 "Graduation"](#). When a final-year student changes the expected date of graduation, the student must notify the Student Affairs Office immediately. It is also the student's responsibility to complete the required forms for teacher certification, and to check that his/her name appears on the graduation list. Further information is available on the Student Affairs Office Website www.mcgill.ca/edu-sao.

Students are not permitted to take courses outside McGill University during the last term prior to graduation. Students who fail to graduate as expected and who do not re-register must apply to the Associate Dean (Teaching, Learning and Students) to graduate. Application to graduate must be made sufficiently in advance of the expected graduation date to allow the Faculty to verify the student's record.

Information pertaining to the convocation ceremonies can be obtained on the McGill Website: www.mcgill.ca/convocations.

7.3.12 Undergraduate Program Awards

Dean's Honour List Designation for Graduating Students

The designation Dean's Honour List may be awarded to graduating students under the following conditions:

- students must be among the top 10% of the Faculty's graduating students;
- students must have completed a minimum of 60 McGill credits to be considered;
- the designation is based on the cumulative academic record (CGPA).

Dean's Honour List Designation for In-course Students

The designation Dean's Honour List may be awarded to in-course students under the following conditions:

- students must be among the top 10% of the Faculty's students;
- students must have completed at least 27 graded credits during the academic year;
- the designation is based on the sessional GPA.

Scholarships and Awards

Various scholarships and awards are open to both graduating and in-course students. Full details may be found in the *Undergraduate Scholarships and Awards Calendar* available on the Web at www.coursecalendar.mcgill.ca.

7.4 Student Teaching/Field Experience

The **Office of Student Teaching (OST)**, www.mcgill.ca/ost, is responsible for arranging the placement and evaluation of all student teachers in supervised Field Experiences.

Field Experiences:

- Are required courses (with the subject code EDFE) for all students in the B.Ed. Program from 1st through 4th year.
- Are the sole responsibility of the OST, and under no circumstances should students make their own placement arrangements.
- Should be taken in the required sequence.
- Require that 'Newly Admitted' and 'Returning Students' follow registration procedures (see below) or risk not being placed in a host school.
- Are completed in English schools in the province of Quebec in the majority of cases, with the exception of the B.Ed. TESL Program Field Experiences which take place in French schools in the province of Quebec.
- Can be specialized in some circumstances. Refer to the OST Website for information regarding such opportunities (distance, special needs, resource room, adult education, etc.).
- Could require that students travel some distance to their host school and students should therefore budget a sum of money to offset such travel costs.
- Require that students be placed at host schools for specific periods of time ranging from 10-40 days.
- May begin before the first day of lectures or end after the last day of lectures.
- May continue during the University-scheduled Study Break in the winter term.
- May continue through May in the summer term (refer to the OST Website or Minerva for exact dates).

Newly Admitted Students:

- In B.Ed. K/Elementary, B.Ed. TESL, B.Ed. Secondary programs must be registered for the first Field Experience by August 15.
- In B.Ed. Secondary Science and Math program should consult an advisor during the August advising sessions prior to registering for Field Experience courses.
- In B.Ed. Music, and B.Ed. Physical and Health Education programs must register in February for the first Field Experience (Summer session).
- Who are registered for a Field Experience will receive instructions for accessing the online Student Teaching Placement Form at their official @mail.mcgill.ca e-mail address. Forms must be submitted by the date indicated in the e-mail.
- Who have acquired **formal** teaching experience prior to admission to the Bachelor of Education program may be granted exemption for the first Field Experience. Written requests must be made to the Director of the OST by August 31 of the year of

admission. Requirements for supporting documentation can be found on the OST Website.

Returning Students:

- Must register for Field Experience 3 on Minerva by the end of July (see [section 1 "Calendar of Dates 2008-09"](#) for deadline).
- Must register for Field Experience 4 on Minerva by the beginning of November (see [section 1 "Calendar of Dates 2008-09"](#) for deadline).
- Who are registered for a Field Experience will receive instructions for accessing the online Student Teaching Placement Form at their official @mail.mcgill.ca e-mail address. Forms must be submitted by the date indicated in the e-mail.
- Must be in satisfactory standing and have satisfied all pre-requisite and co-requisite course requirements (refer to www.mcgill.ca/edu-sao/advisinginfo/returning).
- In the B.Ed. K/Elem, B.Ed. Secondary or B.Ed. TESL who wish to transfer from one program to the other will not be required to repeat 1st year Field Experience.

Field Experience Protocols

Students are responsible for familiarizing themselves with the guidelines governing their pedagogical and professional behaviour while on Field Experience (refer to the OST Website).

Students should not engage in any type of employment, nor register for any course that might interfere with the successful outcome of a Field Experience.

Field Experience Courses

Punctual attendance is required at the assigned school for the entire Field Experience. Absences are only excused in exceptional circumstances, and must be reported immediately to both the Office of Student Teaching and the cooperating teacher in the school to which they are assigned. Students will be required to make up for any absences.

Field Experience Evaluation

Students are responsible for familiarizing themselves with the objectives, evaluation criteria and forms for each level of Field Experience. Detailed information is included on the OST Website, www.mcgill.ca/ost. Students must submit all completed evaluation forms immediately following their Field Experience in order to receive a grade.

Where a student is experiencing serious difficulties in a Field Experience but has demonstrated some potential to successfully reach the required standard, the student will be granted a "D" grade. In this case, the Director of the OST has the authority to grant special permission for a student to repeat a Field Experience during the next regularly scheduled session of the Field Experience. This special permission will be granted once only in a student's program.

Students must receive a Pass grade in order to proceed in the B.Ed. program. Failure (F, J, KF, WF) in any Field Experience places a student in "Unsatisfactory Standing", requiring withdrawal from the Teacher Education Program. Students who fail in a fall term Field Experience may be allowed to continue taking courses in the program to enable transfer to another faculty.

A student may appeal a failing grade or termination of a Field Experience by making a formal application to the Associate Dean (Teaching, Learning, and Students).

Withdrawal from Field Experience

- Withdrawal for any reason before commencing a Field Experience must be done at least 2 weeks prior to the start date of the Field Experience. The student is responsible for notifying the OST in writing by this deadline.
- Students having to withdraw for any reason from a field experience that is underway must immediately inform the OST. Based on the circumstances of the withdrawal, the Director of the OST will determine the final outcome of that Field Experience.

7.4.1 Code of Professional Conduct

CODE OF ETHICS FOR STUDENT TEACHERS

A. Preamble - A Student-centred Perspective

Mandate

A joint subcommittee consisting of members from two standing committees of the Faculty of Education (Faculty of Education Ethical Review Board and Student Standing) was created to develop a Code of Ethics for Student Teachers and to examine the ways in which this Code will be communicated to students, faculty members and educational partners.

Goals and Rationale

The interests of the two Standing Committees of the Faculty of Education in promoting appropriate ethical and professional conduct have led us to develop the following Code of Ethics for Student Teachers. This code seeks to respond to and address the following needs:

- The Code addresses the interdependent duties, rights and responsibilities of student teachers, faculty members and educational partners.
- By addressing common issues and needs, the Code seeks to articulate and make explicit ethical principles that transcend disciplinary boundaries. These principles reflect the fundamental values that are expressed in the duties, rights and responsibilities of all involved in Teacher Education.
- The Code requires a reasonable flexibility in the implementation of common principles. It is designed to help those involved in Teacher Education, as a matter of sound ethical reasoning, to understand and respect the contexts in which they work and accommodate the needs of others.
- The Code seeks to encourage continued reflection and thoughtful response to ethical issues. It does not seek definitive answers to all ethical questions or situations. Rather, it seeks to outline the guiding principles to ethical conduct and to identify major issues which are essential to the development and implementation of this Code.

Context of an Ethics Framework for Student Teachers

The principles and norms guiding ethical conduct are developed within an ever-evolving complex societal context, elements of which include the need for reflective action and ethical principles.

Education is premised on a fundamental moral commitment to advance and construct knowledge and to ensure human understanding and respect for individual and collective well-being and integrity.

The moral imperative of respect translates into the following ethical principles that assume a student-centred perspective as articulated in the Quebec Curriculum Reform and Competencies outlined for Teacher Education.

B. Academic Freedom and Responsibilities

Teachers enjoy, and should continue to enjoy, important freedoms and privileges. However, with freedoms come responsibilities and ethical challenges. This Code of Ethics is in keeping with the philosophy and spirit of the New Directions that are embedded in the document "Teacher Training: Orientations, Professional Competencies" (MEQ 2001) and the reflective practice literature.

The role of the teacher and the contexts of teaching have changed. Thus, new resources (knowledge, skills, attitudes) are required to practice the profession and meet the challenges of teaching and learning in whatever contexts student teachers may find themselves and to engage in professional development individually and with others.

C. Ethics and Law

"Teaching is governed by a legal and regulatory framework" (MEQ 2001, p. 120). The law affects and regulates the standards and norms of teaching behaviours in a variety of ways such as respecting privacy, confidentiality, intellectual property, competence. Human rights legislation prohibits discrimination and recognizes equal treatment as fundamental to human dignity and well being.

Teachers should respect the spirit of the Canadian Charter of Rights and Freedoms, particularly the sections dealing with life, liberty and the security of the person, as well as those involving equality and discrimination and the Education Act that sets out the obligations and rights of teachers.

D. Guiding Ethical Principles

Ethical student teachers should respect the following guiding ethical principles:

1. Respect for Human Dignity

- Speaks and acts towards all students with respect and dignity; and deals judiciously with them at all times, always mindful of their individual rights and personal sensibilities.
- Respects the dignity and responsibilities of cooperating teachers, peers, principals, parents and other professionals or para-professionals within the school, school board and community.

2. Respect for Vulnerable Persons

- Respects and recognizes ethical obligations towards vulnerable persons. This principle recognizes that students are in a vulnerable position and that student teachers are in a privileged relationship with students and their families and will always refrain from exploiting that relationship in any form or manner.

3. Respect for Confidentiality and Privacy

- Respects the confidential nature of all information related to students and their families and will share such information in an appropriate manner only with those directly concerned with their welfare.
- Respects the confidential nature of all information related to all school personnel and will share such information in an appropriate manner.

4. Respect for Justice

- Respects and recognizes the right of individuals to be treated with fairness and equity and the importance of avoiding conflicts of interest.

5. Respect for Safety of Students

- Respects the right of individuals to expect that student teachers will engage in practices that aim to ensure the physical, psychological and emotional safety of students.

6. Respect for Existing Ethical Codes and Professional Standards

- Respects the authority, roles and responsibilities of the cooperating teacher and agrees to adhere to the responsibilities and obligations for teachers as outlined in the Education Act, Faculty and University handbooks as well as all local agreements by host school boards and schools.

7. Balancing Harm and Benefits

- Acknowledges that any potentially harmful practices (e.g., science labs and physical education activities) must be balanced with anticipated benefits and conducted in a prudent, informed manner.

E. Putting Principles into Practice: Venues for Communication

More than one principle may apply to a given case or situation. For meaningful and effective implementation of these principles, they must be widely communicated and applied in appropriate contexts.

Bernardelli, Elana Bloom, Sam Bruzzese, Kevin Chin, Scott
Conrod, Dawn Cruchet, Sandy Freedman, Karen Gazith-Cohen,
Judith McBride, Nancy Miodrag, Judith Norton, Carolyn Nelham,
Monica Oala, Mafalda Porporino, Lisa Reisinger, Kieron Rogan,
Jessica Toste, Caroline Zanni-Dansereau.

Educational Psychology encompasses a) the theoretical and applied study of learning, cognition, and instruction in a variety of educational settings across ages and domains; b) instructional technology and computers as cognitive tools in learning;

c) cognitive and social processes in learning; d) evaluation and enhancement of learning and teaching; e) methods for fostering inclusive education; f) relationships of these or related phenomena to issues in human development, especially for children and adolescents; and g) the impact of family and community on children's learning and development.

At the undergraduate level, the Department of Educational and Counselling Psychology is responsible for the B.A., [see section 5.12.16 "Educational Psychology Minor Concentration"](#), under the Faculty of Arts, and for a variety of undergraduate courses in the areas of learning, cognition and development, inclusive education, gifted education, educational media and computers, and educational measurement and evaluation.

In professional development, the Department offers diploma or certificate programs in Human Relations and Family Life Education, Inclusive Education, and First Nations and Inuit Student Personnel Services. For more information please consult our Website (www.mcgill.ca/edu-ecp/undergraduate) or contact the Undergraduate Program Coordinator in Educational and Counselling Psychology:

Dean Thomson
Undergraduate Program Coordinator
(514) 398-4248
dean.thomson@mcgill.ca

At the graduate level, the department offers a Graduate Certificate in Counselling Applied to Teaching. In addition, there are graduate programs leading to Ph.D., M.A. in instructional psychology, applied cognitive psychology, special populations of learners, counselling psychology (thesis and non-thesis), school/applied child psychology, and health professions as well as M.Ed. without thesis in inclusive education, general educational psychology, and learning sciences. For further information, consult the most current Graduate and Postdoctoral Studies Calendar.

Special services offered by the Department include the McGill-EMSB Gifted Summer School (Explorations), and the Psychoeducational and Counselling Clinic, Neuroscience Lab for Research and Education in Developmental Disorders and the International Centre for Youth Gambling and High Risk Behaviour.

The Department of Integrated Studies in Education, created September 2001, incorporates the programs and staff previously associated with the Departments of Culture and Values in Education, Educational Studies, Second Language Education and First Nations and Inuit Education.

The Department offers four-year programs for CEGEP graduates and five-year programs for out-of-province students leading to a B.Ed. degree. For B.Ed. program overviews, see www.mcgill.ca/edu-integrated/undergraduate/new.

The following programs are offered:

Bachelor of Education: Secondary Program (120 credits)

The aim of the B.Ed. Secondary is to prepare strong beginning teachers for the secondary school level. This integrated 120-credit program (150 credits for out-of-province students) consists of academic studies to provide background depth in subjects taught in the secondary school, professional studies centred on school-based practicum, supported by studies in pedagogy, curriculum

and educational foundations. Students choose their teaching profiles from: English, Mathematics, Science and Technology, Social Sciences (History and Citizenship, and one of Geography or Ethics and Religious Culture).

Concurrent Bachelor of Education in Music/Bachelor of Music (Music Education) program (143/144 credits)

This program provides students with the opportunity to obtain a Bachelor of Music degree and a Bachelor of Education degree concurrently. The two degrees are awarded during the same convocation period.

Concurrent Bachelor of Science/Bachelor of Education (Secondary) (135 credits)

This program provides students with the opportunity to attain a Bachelor of Science degree and a Bachelor of Education degree concurrently. The two degrees are awarded during the same convocation period.

Bachelor of Education (Kindergarten and Elementary) (120 credits)

This program leads to certification to teach children between the ages of 5 and 11 years. It consists of four years of full-time study requiring the completion of 120 credits (150 credits or five years for out-of-province students), of academic and professional courses and practica.

Options within the B.Ed. (Kindergarten and Elementary) program are:

- First Nations and Inuit Studies
- Jewish Studies (126 credits)
- Programme intensif de français * **under revision for 2008-09.**

Baccalauréat en enseignement du français langue seconde (120 credits) (B.Ed. TFSL)

This four-year program prepares specialist teachers to teach French as a second language, in Core French programs, immersion programs, intensive programs and *classes d'accueil*, at both the elementary and the secondary levels. Offered by the Department of Integrated Studies in Education jointly with the Université de Montréal (www.mcgill.ca/edu-integrated/undergraduate/new/tfsl).

Bachelor of Education in Teaching English as a Second Language (120 credits)

This program prepares specialist teachers to teach English as a second language at both the elementary level (including regular and intensive ESL) and the secondary level (including regular ESL and ESLA – English Second Language Arts). This integrated 120-credit program (150 credits for out-of-province students) consists of academic and professional components. The academic components provide students with opportunities to develop a broad liberal education and to study language and language learning from linguistic, social, cultural and psychological perspectives. The professional components revolve around school-based Field Experiences which are supported by studies in pedagogy and educational foundations.

GRADUATE PROGRAMS

At the Graduate level, the Department offers M.A. programs with thesis and non-thesis options in the following areas: Culture and Values in Education, Educational Studies (Curriculum), Educational Studies (Leadership), and Second Language Education.

IN-SERVICE PROGRAMS

The Department of Integrated Studies in Education offers three in-service programs:

A 90-credit Bachelor of Education (Vocational) program offered through the Centre for Continuing Education for practising vocational teachers possessing a provisional teaching authorization in a vocational area. (This program will not accept students in 2008-09.)

A Certificate in Aboriginal Education for Certified Teachers through First Nations and Inuit Education.

First Nations and Inuit Education also offers a Certificate in Education for First Nations and Inuit, a Certificate in Aboriginal Literacy Education, and a Certificate in Middle School Education in Aboriginal Communities.

The Department is also involved in a variety of in-service activities with administrators, teachers, consultants and other educational leaders through the Centre for Educational Leadership (CEL).

7.6.1 Bachelor of Education Programs

Students who have not completed Quebec CEGEP or other university level courses are admitted in Year 0 (U0), the Freshman Year. Please see www.mcgill.ca/edu-integrated/undergraduate/new/secondary/freshman.

7.6.1.1 Bachelor of Education Secondary Program

ACADEMIC COMPONENTS **CREDITS**
54

A sequence of courses normally to be taken in the Faculties of Arts, Science and Education showing a sequence of levels and totalling 54 credits, including required and complementary courses, and at least 36 credits in one "teachable" academic subject: English, Mathematics, Science & Technology, Social Sciences (History & Citizenship, and one of Geography or Ethics & Religious Studies). Academic courses must be selected in consultation with an academic adviser. Additionally, students who have selected the Social Sciences Profile are required to take: HIST 202, HIST 203 and HIST 303 or HIST 353. Students who select the English Profile are required to take at least 2 of: EDSL 305, EDSL 350, ENGL 340, LING 200, LING 201, LING 355.

Advising note: The department is committed to supporting students in the development and creation of their individual professional portfolios throughout their program.

PROFESSIONAL COMPONENTS 60

PROFESSIONAL SEMINARS 7

Required Courses

EDEC 201 First Year Professional Seminar 1

EDEC 306 Third Year Professional Seminar (Sec) 3

EDEC 404 Fourth Year Professional Seminar (Sec) 3

FIELD EXPERIENCES 20

Required Courses

EDFE 200 First Field Experience (K/Elem & Secondary) 2

EDFE 254 Second Field Experience (Secondary) 3

EDFE 351 Third Field Experience (Secondary) 8

EDFE 451 Fourth Field Experience (Secondary) 7

FOUNDATION COURSES 9

Required Courses

EDEC 215 English Language Requirement 0

EDEC 247 Policy Issues in Quebec Education 3

EDPE 300 Educational Psychology 3

Complementary Course 3

one of:

EDEC 260 Philosophical Foundations

EDEC 261 Philosophy of Catholic Education

PEDAGOGY COURSES 12

Required Courses

EDPI 309 Exceptional Students 3

EDPI 341 Instruction in Inclusive Schools 3

Complementary Courses

Two methodology courses chosen from the following list, depending on the teaching profile 6

EDES 334 Teaching Secondary Social Studies 1

EDES 335 Teaching Secondary Science 1

EDES 353 Teaching Secondary Mathematics 1

EDES 361 Teaching Secondary English 1

EDER 372 Ethics and Religious Culture (Secondary)

EDES 434 Teaching Secondary Social Studies 2

EDES 435 Teaching Secondary Science 2

EDES 453 Teaching Secondary Mathematics 2

EDES 461 Teaching Secondary English 2

PEDAGOGICAL SUPPORT COURSES 12

Required Courses

EDPE 304 Measurement and Evaluation 3

EDES 350 Classroom Practices (Secondary) 3

Complementary Courses

one 3-credit course in Multicultural Education from the following list: 3

EDEC 233 First Nations and Inuit Education

EDEC 248 Multicultural Education

one 3-credit course in Media, Technology, Computers and Education from the following list: 3

EDEC 262 Media, Technology and Education

EDPE 310 Educational Computer Applications

EDPT 200 Integrating Educational Technology in Classrooms

EDPT 204 Educational Media 1

For students with a background in computers or other media applications in education, the following courses may be substituted for the above:

EDPT 341 Instructional Programming 1

EDPT 420 Media Literacy for Education

ELECTIVE COURSES 6

TOTAL CREDITS 120

7.6.1.2 Concurrent Bachelor of Education in Music and Bachelor of Music (Music Education) Program

The Bachelor of Education in Music is an integrated four-year 120/121-credit program of initial teacher training that leads to certification as a teacher in the Province of Quebec. When offered concurrently with the Bachelor of Music (Major in Music Education), the program offers students the opportunity to obtain a Bachelor of Education degree and a Bachelor of Music degree after the completion of 143/144 credits, normally five years (173/174 credits or six years for out-of-province students). The concurrent program combines academic studies in music, professional studies and field experience. The department is committed to supporting students in the development and creation of their individual professional portfolios throughout their program. The two degrees are awarded during the same convocation period.

Applicants to the music specialist teacher education program should apply to the Concurrent Bachelor of Education in Music/ Bachelor of Music (Music Education) program. Students who have partially completed a Bachelor of Music program are eligible to apply for advanced standing in the Concurrent program.

Application to the Concurrent B.Ed./B.Mus. program may be made on-line at www.mcgill.ca/applying. Information is available on that site or may be obtained from:

Admissions Office
McGill University
Schulich School of Music
555 Sherbrooke Street West
Montreal, QC, H3A 1E3
Telephone: (514) 398-4546

Those who have completed a Bachelor of Music degree may apply for advanced standing in the Bachelor of Education in Music program. Application to the Bachelor of Education in Music may be

made on-line at www.mcgill.ca/applying. Information is available on that site or may be obtained from:

Enrolment Services
 McGill University
 845 Sherbrooke Street West
 Montreal, QC H3A 2T5
 Telephone: (514) 398-3910
 Fax: (514) 398-4193

Program details are available from:

Professor Joan Russell, Program Director
 Professor Caroline Riches, Acting Director until August 2008
 Telephone: (514) 398-5793
 Department of Integrated Studies in Education
 Telephone: (514) 398-2447

The components of the 143/144-credit Concurrent Bachelor of Education in Music/Bachelor of Music (Music Education) are as follows:

- 53/54 professional credits,
- 78 music credits,
- 12 elective credits.

Students who wish to complete only the Bachelor of Education in Music have the option of doing so after the successful completion of the first two years of the concurrent program and MUIN 321 concentration exam or equivalent. Students who decide to complete only a Bachelor of Music may transfer at any time into the Bachelor of Music, Faculty Program.

Students who opt for the Bachelor of Education in Music would be required to complete 61 music credits, 6 elective credits, and 53/54 professional credits from the program given below, with the following notes:

1. These credits are required for the Bachelor of Music only.
2. These credits are required for the Bachelor of Music, complementary for the Bachelor of Education in Music.

For prerequisite requirements for the Concurrent Bachelor of Education in Music/Bachelor of Music (Music Education) Program, see [section 10.6.5 "B.Mus./B.Ed. Bachelor of Music and Bachelor of Education Concurrent Program"](#) of the Schulich School of Music chapter in this calendar.

7.6.1.3 Concurrent Bachelor of Science (Major or Major Concentration with a Minor for Teachers) and Bachelor of Education Secondary Program

Coordinator, Faculty of Education — Professor Gale Seiler
Coordinator, Faculty of Science — Professor Richard Harris

This program has been designed to provide students with the opportunity to attain a Bachelor of Science degree and a Bachelor of Education degree after **135 credits of study (165 credits for students who have not completed the basic sciences, see Note below)**.

To be admitted to the Concurrent program, students must satisfy the regular admission requirements of the Faculties of Science and Education. Normally, students will be admitted to both components of the Concurrent program simultaneously, however, it is possible for students in a B.Sc. or B.Ed. program to transfer into the Concurrent program at any time. Students in the Concurrent program may change to either a B.Sc. or a B.Ed., but may not subsequently switch back to the Concurrent program.

The two degrees are awarded during the same convocation period.

Note: Science students are normally admitted to a four-year program requiring the completion of 120 credits, but advanced standing of up to 30 credits may be granted to students who obtain satisfactory results in International Baccalaureate, French Baccalaureate, Advanced Levels, Advanced Placement tests, or the Diploma of Collegial Studies (DCS). Quebec students with a DCS in Science are granted 30 credits advanced standing and will have normally completed the equivalent of, and are therefore exempt from, the basic science courses in biology, chemistry, mathematics and statistics, and physics. Students with satisfactory results in International Baccalaureate, French Baccalaureate, Advanced Levels, and Advanced Placement tests may be exempt from some or all of the basic science courses.

Students in the Concurrent B.Sc./B.Ed. who receive an F or J in any Field Experience course are placed in unsatisfactory standing. Although they may complete their term, they are required to withdraw from the Concurrent program. However, they may apply to transfer to the conventional B.Sc. program as outlined in Faculty of Science, "[Science or Mathematics for Teachers](#)", see [section 12.13.34](#).

The two components of the Concurrent program are the B.Ed. Secondary program and one of the B.Sc. programs described in the Faculty of Science, "[Science or Mathematics for Teachers](#)", see [section 12.13.34](#):

- biology, with chemistry
- biology, with physics
- chemistry, with biology
- chemistry, with physics
- physics, with biology
- physics, with chemistry
- mathematics

The requirements for the B.Ed. component are as described in the "[Bachelor of Education Secondary Program](#)", see [section 7.6.1.1](#) with the following exceptions:

- A. Students in the Concurrent B.Sc./B.Ed. program must choose their 54 academic credits from the lists of required and complementary courses in their respective B.Sc. Major or Major Concentration with a Minor.
- B. Students in the Concurrent B.Sc./B.Ed. program must take EDEC 262 Media, Technology and Education.

7.6.1.4 Bachelor of Education Kindergarten and Elementary Program

Students who have not completed Quebec CEGEP or other university level courses are admitted into Year 0 (U0), the Freshman Year. Please see www.mcgill.ca/edu-integrated/undergraduate/new/k-elem/freshman for course selections.

The four-year program begins with the foundation courses in the first term and has a higher concentration of academic courses in the first two years. The professional courses and practicum have a heavier weight in the final two years. The practicum consists of school-based experiences and a series of professional seminars that provide an opportunity for students to reflect on that experience in a systematic way. The department is committed to supporting students in the development and creation of their individual professional portfolios throughout their program.

		CREDITS
ACADEMIC COMPONENT		42
This component provides background in the subject areas of the elementary school curriculum. Students must select academic courses in "teachable" subjects in consultation with an academic adviser.

7.6.1.6 Programme intensif de français Elementary Option

This option is currently under revision. Admission is suspended for 2008-09.

7.6.1.7 Bachelor of Education Kindergarten and Elementary Program (Jewish Studies Option)

The Bachelor of Education in Kindergarten and Elementary Education (Jewish Studies Option) leads to certification to teach Jewish and general studies to students between the ages of 5 and 11 years. The program consists of four years of full-time study requiring the completion of 126 credits (156 credits or 5 years for out-of-province students), academic and professional courses and practica. Students may apply directly into the B.Ed. Kindergarten/Elementary (Jewish Studies Option). This Option allows qualified candidates an opportunity to select specific academic and pedagogical Jewish Studies courses in place of selected education electives and academic courses. Additionally, students will have an opportunity to have one of their major field placements in a Jewish school environment.

Students are encouraged to acquire a strong general background in Bible, Jewish prayer, Jewish holidays and Jewish history prior to registering in the program. Students lacking the ability to teach in Hebrew should consider spending a semester at an Israeli university.

Students who wish to follow this option must contact:

Professor Eric Caplan
 Department of Integrated Studies in Education
 Faculty of Education
 Telephone: (514) 398-6544
 E-mail: eric.caplan@mcgill.ca

7.6.1.8 Baccalauréat en enseignement du français langue seconde

This program is offered jointly by the Université de Montréal and McGill University. Students will be admitted into, and registered at, one of the two as their "home" university. Courses will be offered at the Université de Montréal during the Fall term and at McGill during the Winter term.

Students admitted to this program are required to take a diagnostic test in mathematics administered by the Université de Montréal. A student who fails this test will be required to pass a remedial course in mathematics in addition to the regular program.

The Baccalauréat en enseignement du français langue seconde (B.Ed. in Teaching French as a Second Language) is a four-year program. It prepares specialist teachers to teach French as a second language, in Core French programs, immersion programs, intensive programs and *classes d'accueil*, at both the elementary and the secondary levels.

This integrated 120-credit program (150 credits for out-of-province students) includes studies in language and language learning from linguistic, literature, cultural and psychological perspectives accompanied by Field Experiences. The academic components aim to increase students' general competence, mostly in literature and linguistics. In addition, complementary courses combine academic content with methodology. The professional components allow students to learn how to teach subjects taught at the elementary or secondary levels, how to teach the different programs offered in FSL and how to intervene with the various clientele. They revolve around school-based Field Experiences which are supported by studies in pedagogy and educational foundations. The department is committed to supporting students in the development and creation of their individual professional portfolios throughout their program.

7.6.1.9 Bachelor of Education in Teaching English as a Second Language			
The B.Ed. in Teaching English as a Second Language (TESL) program prepares specialists to teach English as a second language (ESL) at both the elementary school and secondary school levels. Students who have not completed Quebec CEGEP or other university level courses are admitted into Year 0 (U0), the Freshman Year. Please see www.mcgill.ca/edu-integrated/undergraduate/new/tesl .			
This integrated 121-credit program (151 credits for out-of-province students) includes studies in language and language learning from linguistic, literary, social, cultural, and psychological perspectives, accompanied by field experiences. The academic components aim to increase students' academic knowledge, with emphasis on language, linguistics and literature. Complementary courses address both academic and professional concerns. The professional components revolve around school-based Field Experiences which are supported by studies in pedagogy and educational foundations. These prepare students to teach ESL at both the elementary school level (including regular and intensive ESL) and the secondary school level (including regular ESL and ESLA - English Second Language Arts), and provide a base for adult and other ESL teaching. The department is committed to supporting students in the development and creation of their individual professional portfolios throughout their program.

7.6.2 Programs for First Nations and Inuit

The following programs are offered in First Nations and Inuit communities for First Nations and Inuit students through the:

Faculty of Education
 First Nations and Inuit Education (FNIE)
 3700 McTavish Street, Room 244
 Montreal, QC, H3A 1Y2
 Telephone: (514) 398-4533
 Fax: (514) 398-2553
 Website: www.mcgill.ca/edu-integrated

For details about the First Nations and Inuit Studies option within the Bachelor of Education Kindergarten and Elementary program, see section 7.6.1.5 "Bachelor of Education Kindergarten and Elementary Program (First Nations and Inuit Studies Option)".

7.6.2.1 Certificate in Education for First Nations and Inuit

This 60-credit program provides an opportunity for Algonquin, Cree, Inuit, Mi'kmaq and Kanienkehaka (Mohawk) people to become qualified as teachers. It is offered on a part-time basis in Indigenous communities throughout Quebec in collaboration with the Cree School Board, the Kativik School Board, and various Mi'kmaq, Mohawk and Algonquin education authorities. A full-time and part-time program is also available to Inuit in Nunavut, in collaboration with the Nunavut Teacher Education Program of Nunavut Arctic College, Iqaluit, NU.

Quebec graduates of this program receive Ministry (MELS) certification to teach at the elementary level in First Nations and Inuit schools.

Admission to the Certificate in Education for First Nations and Inuit

An applicant will normally be employed as a teacher or as a classroom assistant, have a valid teaching authorization from the appropriate teaching authority or a community education committee, be recommended by the school principal and an officer of the education authority, be recommended by a local community education committee, and be at least 21 years of age. Younger applicants will be considered for admission if they hold a Grade 12 High School Diploma or a Diploma of Collegial Studies. The right of final decision for acceptance of candidates rests with McGill.

Those intending to complete the programs offered in cooperation with the Kativik School Board must be fluent and literate in Inuktitut/Inuinnaqtun. Fluency in Algonquin, Cree, Mi'kmaq or Mohawk is not a condition for acceptance for applicants from these communities, but is considered an asset. Courses are available in all four of these languages for those teaching in immersion classes and other teaching situations where a knowledge of the first language is essential.

Time Limit

The time limit for completion of the 60-credit Certificate in Education for First Nations and Inuit is 12 years. The University reserves the right to request that a student retake a course or courses after a 5-year period if it is felt that too long a break has occurred in the ongoing nature of the training.

PROGRAM PROFILE – CERTIFICATE IN EDUCATION FOR FIRST NATIONS AND INUIT (60 credits)

On completion of the Certificate requirements, trainees may apply for admission to the B.Ed. for Certified Teachers program with up to 30 credits advanced standing. Certain non-credit academic upgrading courses may be required of B.Ed. applicants.

	CREDITS
a) THE ABORIGINAL SCHOOL AND CLASSROOM	6
Required Courses

EDEC 238 (3) Mi'kmaq Second Language 2	
EDEC 239 (3) Mi'kmaq Language 1	
EDEC 240 (3) Mi'kmaq Language 2	
EDEE 296 (3) Mohawk Second Language 1	
EDEC 236 (3) Mohawk Second Language 2	
EDEE 297 (3) Mohawk Language 1	
EDEE 298 (3) Mohawk Language 2	

c) CONTENT AND TEACHING METHODS 18

(at least 18 credits)

Required Courses

EDEA 242 Cultural Skills 1	3
----------------------------	---

Complementary Courses

At least five 3-credit courses from Content and Teaching Methods complementary course list.

At least three of these five courses should be in different subject content areas.

For trainees specializing in Physical Education: Required Courses

EDKP 241 Aboriginal Physical Activities (replaces EDEA 242 Cultural Skills 1)	3
EDKP 342 Physical Education Methods	3
EDKP 493 Administration (EDKP 342 and EDKP 493 replace any two of the Content and Teaching Methods courses.)	3

Complementary Courses

At least three 3-credit courses from Content and Teaching Methods complementary course list.

d) PSYCHOLOGICAL, SOCIAL AND PHYSICAL DEVELOPMENT OF THE CHILD 12

Required Courses

EDPI 211 Social and Emotional Development	3
EDPI 212 Perceptual Motor Development	3
EDPI 341 Instruction in Inclusive Schools	3
EDEE 246 Cultivating Language and Thought	3

e) PRACTICUM 12

FOR ALL STUDENTS EXCEPT NUNAVUT TEACHER EDUCATION PROGRAM STUDENTS

Required Courses

EDFE 214 Aboriginal Education Practicum 1	3
EDFE 325 Aboriginal Education Practicum 2	3
EDFE 326 Aboriginal Education Practicum 3	3
EDFE 425 Aboriginal Education Practicum 4	3

(Students in the Physical Education concentration will do 6 of their total practicum credits in Physical Education settings.)

FOR NUNAVUT TEACHER EDUCATION PROGRAM STUDENTS

Required Courses

- EDFE 214 Aboriginal Education Practicum 1 3
 - EDFE 325 Aboriginal Education Practicum 2 3
 - EDFE 326 Aboriginal Education Practicum 3 3
- (EDFE 425 is an option for students enrolled in the Nunavut Teacher Education Program. These students can take another complementary course in lieu of EDFE 425.)
(Students in the Physical Education concentration will do 6 of their total practicum credits in Physical Education settings.)

f) ELECTIVE COURSES (not more than 6 credits)
Students make up the total of 6 credits from courses listed below, or any other suitable courses approved by the Director of First Nations and Inuit Education.

- EDEA 241 (3) Basic Art Media for Classroom
- EDEC 200 (3) Introduction to Inuit Studies
- EDEC 220 (3) Curriculum Development
- EDEC 243 (3) Teaching: Multigrade Classrooms
- EDEC 244 (3) Issues in Aboriginal Education
- EDEC 403 (3) The Dialects of Inuktitut
- EDEE 240 (3) Use and Adaptation of Curricula
- EDEE 247 (6) Individualized Instruction
- EDEE 290 (3) Cooperative Learning
- EDEE 291 (3) Cultural Values and Socialization
- EDEE 292 (3) Using Instructional Resources
- EDEE 340 (3) Special Topics: Cultural Issues
- EDEE 342 (3) Intermediate Inuktitut/Amerindian Language
- EDEE 344 (3) Advanced Inuktitut/Amerindian Language
- EDEE 345 (3) Literature and Creative Writing 1
- EDEE 346 (3) Literature and Creative Writing 2
- EDEC 233 (3) First Nations and Inuit Education
- EDEE 444 (3) First Nations and Inuit Curriculum
- EDKP 204 (3) Health Education
- EDKP 224 (3) Foundations of Movement Education
- EDPE 377 (3) Adolescence and Education
- EDPT 200 (3) Integrating Educational Technology in Classrooms
- EDSL 247 (3) Second Language Education in Aboriginal Communities

g) FOR TRAINEES SPECIALIZING IN PHYSICAL EDUCATION

Trainees specializing in Physical Education take 6 one-credit skill courses from the Physical Education Complementary course list. These courses replace the 6 credits of electives.

TOTAL CREDITS

COMPLEMENTARY COURSE LIST

Language

- EDEE 241 (3) Teaching Language Arts
- EDEE 248 (3) Reading and Writing Inuktitut/Cree
- EDEC 342 (3) Intermediate Inuktitut/Amerindian Language

Content and Teaching Methods

- EDKP 226 (1) Badminton
- EDKP 229 (1) Ice Hockey 1
- EDKP 240 (1) Winter Activities

7.6.2.2 Certificate in Aboriginal Literacy Education

- 6 This 30-credit program is designed for Algonquin, Cree, Inuit, Mi'kmaq and Kaniienkehaka (Mohawk) students who wish to gain a deeper understanding of their Indigenous language, especially in its written form. It is aimed mainly at those who will be teaching their Indigenous language and is only available through partnerships with the communities concerned.

Admission to the Program in Aboriginal Literacy Education

Students admitted to this program will be recommended by their communities (as is presently the case with the Certificate in Education for First Nations and Inuit). If the program is used for professional development, students will be Indigenous teachers employed in local schools. As with the Certificate in Education for First Nations and Inuit, they must be mature students, or hold a Secondary V diploma or equivalent. The right of final decision for acceptance of candidates rests with McGill.

This certificate may be taken concurrently and completed within the B.Ed. for Certified Teachers if the required B.Ed. profile is fulfilled. See [section 7.6.2.5 "Bachelor of Education for Certified Teachers \(Elementary Education\)"](#).

PROGRAM PROFILE – CERTIFICATE IN ABORIGINAL LITERACY EDUCATION (30 credits)

	CREDITS
Required Courses	6
EDEE 342 Intermediate Inuktitut/Amerindian Language	3
EDEE 344 Advanced Inuktitut/Amerindian Language	3
Complementary Courses	18
A beginning course in the Indigenous language as a first language (e.g., EDEC 241 Cree Language 1)	3
A second-level course in the same language (e.g. EDEC 242 Cree Language 2)	3
Four courses (12 credits) to be chosen from the following list:	12
EDEA 242 (3) Cultural Skills 1	
EDEC 220 (3) Curriculum Development	
EDEC 403 (3) The Dialects of Inuktitut	
EDEE 223 (3) Language Arts	
EDEE 224 (3) Language Arts Part 2	
EDEE 240 (3) Use and Adaptation of Curricula	
EDEE 243 (3) Reading Methods in Inuktitut/Cree	
EDEE 247 (6) Individualized Instruction	
EDEE 248 (3) Reading and Writing Inuktitut/Cree	
EDEE 345 (3) Literature and Creative Writing 1	
EDEE 346 (3) Literature and Creative Writing 2	
EDES 365 (3) Experiences in Communications	
EDPE 304 (3) Measurement and Evaluation	
Elective Courses	6
Two suitable 3-credit courses approved by the Director of First Nations and Inuit Education.	
TOTAL CREDITS	30

7.6.2.3 Certificate in Middle School Education in Aboriginal Communities

This 30-credit program focuses on developing the particular skills and abilities required of the Indigenous teacher in the middle school of his/her community. It does not lead to provincial certification. Rather, it prepares Indigenous teachers who are bilingual or have some knowledge of their Indigenous language and who have already established themselves as teachers to teach students at this level in ways that are developmentally and culturally appropriate. The program focuses on the particular psychological, emotional and social needs of Aboriginal adolescents and the teacher's role in facilitating the transition between elementary and high school.

Admission to the Certificate in Middle School Education in Aboriginal Communities

Applicants will normally have completed or be completing their B.Ed. for Certified Teachers. It is strongly recommended that they have some competence in their Indigenous language as indicated by the successful completion of at least two language courses. For those applying with degrees from other universities, additional courses may be required to match the McGill B.Ed. for Certified Teachers profile. As the program and courses will be delivered in the partnership communities, applicants must be recommended by their school boards or teaching authorities. The right of final decision for acceptance of candidates rests with McGill.

PROGRAM PROFILE – CERTIFICATE IN MIDDLE SCHOOL EDUCATION IN ABORIGINAL COMMUNITIES (30 credits)

EDKP 241 (3) Aboriginal Physical Activities	
EDPT 200 (3) Integrating Educational Technology in Classrooms	
EDSL 247 (3) Second Language Education in Aboriginal Communities	
EDSL 305 (3) L2 Learning: Classroom Settings or other courses which may be approved by the Director of First Nations and Inuit Education	
TOTAL CREDITS	30

This certificate may be taken concurrently and completed within the "[Bachelor of Education for Certified Teachers \(Elementary Education\)](#)", see section 7.6.2.5, if the required B.Ed. profile is fulfilled.

7.6.2.4 Certificate in First Nations and Inuit Educational Leadership

This 30-credit program is designed for First Nations and Inuit organizations to develop their role as leaders within the educational community. The program will focus on developing the core competencies of educational leaders, e.g., decision making and problem solving; fostering a self-reflective leader able to partner

with parents to create community outreach; cultivating awareness of the holistic learning and developmental cycles of a child and the role of the educational leader in enhancing that development; maintaining the continuity of community and cultural values and aspirations within the structure of the administration of the school and other educational milieu; and understanding and supporting the pedagogical objectives and the administrative framework of the educational system.

Admission to the Certificate in First Nations and Inuit Educational Leadership

Students admitted to this program will be recommended by their communities. They must be mature students (21 years of age), or hold a Secondary V diploma or equivalent. Students must speak, read, and write fluently the language of instruction as agreed upon between the unit and the client School Board or Education Centre. For Nunavik applicants, students must have experience in a Nunavik educational or community organization. The right of final decision for acceptance of candidates rests with McGill.

EDEC 311 Resource Management	3
EDEC 312 Practicum in Educational Leadership	3
EDEC 233 First Nations and Inuit Education	3
Complementary Courses	15
Five of the following:	
EDEC 220 (3) Curriculum Development	
EDEC 244 (3) Issues in Aboriginal Education	
EDEE 240 (3) Use and Adaptation of Curricula	
EDEE 245 (3) Orientation to Education	
EDEE 340 (3) Special Topics: Cultural Issues	
EDEM 202 (3) Educational and Administrative Institutions	
EDES 365 (3) Experiences in Communications	
EDPI 341 (3) Instruction in Inclusive Schools or any other course approved by the Director of First Nations and Inuit Education of the Department of Integrated Studies in Education.	
TOTAL CREDITS	30

This certificate may be taken concurrently and completed within the "[Bachelor of Education for Certified Teachers \(Elementary Education\)](#)", see section 7.6.2.5, if the required B.Ed. profile is fulfilled.

It may also be followed concurrently with the "[Certificate in Education for First Nations and Inuit](#)", see section 7.6.2.1.

7.6.2.5 Bachelor of Education for Certified Teachers (Elementary Education)

The Faculty of Education offers a 90-credit program for teachers who are already certified to teach in elementary schools and who wish to earn a B.Ed. degree. Normally, a minimum of 60 credits must be taken in the program, and no more than 30 credits may be transferred from other institutions. Credits may be transferred from programs leading to the Certificates in Educational Technology, Second Language Teaching, Inclusive Education, or Aboriginal Literacy Education taken concurrently. Credit may also be transferred from the Certificate in Education for First Nations and Inuit, which is normally completed before the B.Ed.

Students completing the Bachelor of Education for Certified Teachers following the Certificate in Education for First Nations and Inuit will have accumulated a total of 120 credits, 60 for the Certificate and a further 60 for the B.Ed.

Admission Requirements for the B.Ed. for Certified Teachers

Applicants apply on the basis of having completed the Certificate in Education for First Nations and Inuit or equivalent and must have the continued support of their education authority to attend

the field-based program. The right of final decision for acceptance of candidates rests with McGill.

PROGRAM PROFILE – B.ED. FOR CERTIFIED TEACHERS
(90 credits)

Candidates enrolled in the program complete coursework within the following general pattern:

	CREDITS
COMPLEMENTARY COURSES	
Academic Concentration	30
In five (5) subject areas relevant to elementary education in a 12-9-3-3-3 pattern (i.e., 12 credits in one subject, 9 credits in a second subject, and 3 credits in each of three other subject areas), or 30 academic credits in three subject areas in a 15-9-6 pattern.	
Note: Subject areas relevant to elementary education, in broad terms, are the Arts (Art, Music and Drama), English, French, Science, Mathematics, Physical Education, Moral and Religious Education, Social Studies, Educational Technology, or an Aboriginal language.	
Cultural Development	15
Chosen from courses which will enhance the candidate's cultural development, these are to be chosen in consultation with the Director of First Nations and Inuit Education.	
ELECTIVE COURSES	15
Courses selected by the candidate after consultation with the Director of the First Nations and Inuit Education.	
EDUCATION CONCENTRATION	30
Normally the Education concentration is completed within the Certificate in Education for First Nations and Inuit.	
TOTAL CREDITS	90

The Certificate in Aboriginal Literacy Education, the Certificate in Middle School Education in Aboriginal Communities, or the Certificate in First Nations and Inuit Educational Leadership may be taken concurrently and completed within the B.Ed. for Certified Teachers if the required B.Ed. profile is fulfilled.

This program does not lead to further certification.

7.6.2.6 Certificate in Aboriginal Education for Certified Teachers

This 30-credit professional development program provides training to assist mainstream teachers in becoming more effective teachers in First Nations and Inuit communities. It is designed to address subjects of particular interest and need in First Nations and Inuit schools, such as cultural socialization, cooperative learning, second language teaching, and curriculum development.

Admission to the Certificate in Aboriginal Education for Certified Teachers

Applicants must provide the following:

- a Diploma of Collegial Studies (DEC) or its equivalent;
- evidence of having completed teacher training at an approved institution;
- a letter of recommendation from a competent authority.

All courses (except EDEC 233) are normally given off-campus and are normally limited to students enrolled in off-campus programs delivered through First Nations and Inuit Education. The right of final decision for acceptance of candidates rests with McGill.

PROGRAM PROFILE – CERTIFICATE IN ABORIGINAL EDUCATION FOR CERTIFIED TEACHERS (30 credits)

EDEE 291 Cultural Values and Socialization	3
EDEC 233 First Nations and Inuit Education	3
EDEE 444 First Nations and Inuit Curriculum	3
EDSL 247 Second Language Education in Aboriginal Communities	3

Complementary Courses	12
One introductory language course in the language of the community, e.g. EDEE 341 Inuktitut for Beginners.	3
9 credits selected from:	
EDEA 242 (3) Cultural Skills 1	
EDEC 200 (3) Introduction to Inuit Studies	
EDEE 247 (6) Individualized Instruction	
EDEE 290 (3) Cooperative Learning	
EDEM 202 (3) Educational and Administrative Institutions	
EDSL 200 (3) Intro. to Second Language Teaching or any other suitable course approved by the Director of First Nations and Inuit Education.	

TOTAL CREDITS **30**

7.6.2.7 Certificate in First Nations and Inuit Student Personnel Services

This program is offered by the Department of Educational and Counselling Psychology through First Nations and Inuit Education.

This program is designed to provide Aboriginal school personnel advisers with a training program which will enable them to learn about the principles and practice of personnel services as generally applied in educational settings, to help Aboriginal student personnel advisers develop their personal skills, and to modify or adapt their services and the content to best suit the cultural and educational needs of Aboriginal students; to encourage Aboriginal student personnel advisers to take leadership in developing educational programs which address the social needs of their communities, to upgrade their academic qualifications and professional development; and to develop and make available, in English and the languages of instruction, collections of professional and scholarly knowledge about students' needs, and services in First Nations and Inuit communities.

Bearers of this Certificate will be qualified to work as Educational and School Personnel Advisers within the employ of an Aboriginal educational authority.

Admission Requirements

1. Speak, read, and write fluently the language of instruction as agreed upon between the Department and the contracting school board.
2. Hold a student adviser position in an Aboriginal community. This may be a new appointment concurrent with registration in the program. The position must be sufficient to meet the practicum requirements of the program.
3. Be recommended by the local education authority.
4. Be at least 23 years of age (except for special permission). By this means students will qualify for admission as Mature Students under McGill regulations, and thereby not be required to have a Diploma of Collegial Studies (DEC).
5. Be recommended and selected by the school administration in collaboration with McGill personnel.

The right of final decision for acceptance of candidates rests with McGill.

Associate Members
 Isabelle Cossette; D.Mus.(Montr.), M.Mus.(McG.)
 Christian Duval; B.Sc.(UQTR), M.Sc.(UQAM), Ph.D.(McG.)

The Department of Kinesiology and Physical Education offers one program leading to a B.Ed. degree, one program leading to a B.Sc. degree and a Minor in "Kinesiology for Science Students", see section 12.13.19.

The Department also offers programs at the graduate level leading to an M.A. and M.Sc., and possibilities for doctoral studies. For further information, see the most current *Graduate and Post-doctoral Studies Calendar*.

7.7.1 Bachelor of Education Programs

7.7.1.1 Bachelor of Education Physical and Health Education

This four-year, 120-credit (150 credits for out-of-province students) specialist program prepares students to teach physical and health education at the elementary and secondary levels. This program interweaves academic studies, professional coursework, and teaching practices in mutually beneficial ways throughout the four years.

Graduation Requirement

All students in Physical Education programs are required, before graduation, to show proof of certification in Standard Level Safety Oriented First Aid, and Level C in Cardiopulmonary Resuscitation, or equivalencies.

TOTAL CREDITS	120

7.7.2 Bachelor of Science (Kinesiology)

Received accreditation from CCUPEKA [Canadian Council of University Physical Education and Kinesiology Administrators] in April 2007.

The focus of the 90-credit (120 credits for out-of-province students) Bachelor of Science (Kinesiology) is a comprehensive understanding of human movement. Kinesiology is a multidisciplinary field viewing human movement from social, historical, psychological, or biological perspectives. The program provides students with a breadth of theoretical knowledge as well as an opportunity to explore related areas in greater depth, including Minor programs available elsewhere within the University.

Students may opt for either General or Applied emphasis, with an Honours program available for particularly strong students. Students must obtain a CGPA of 3.3 after two years in Kinesiology to qualify for the Honours Program, and must retain this CGPA until graduation.

Students admitted into the 120-credit B.Sc.(Kinesiology) must register in and successfully complete the Freshman Profile, which is designed to provide the basic science foundation for the subsequent three-year Major programs. For a more detailed description of the Freshman Profile, students should consult the Freshman Student information at www.mcgill.ca/edu-kpe/undergraduate/kinesiology/#FRESHMAN.

Students in the B.Sc. (Kinesiology) Major are encouraged to select a Minor program in a given discipline or interdisciplinary area. A maximum of 6 credits of overlap is allowed between the Minor and the primary program. Science Minors consist of up to 24 credits. Arts Minor Concentrations consist of 18 credits. A minimum of 18 new credits must be completed in the Minor or Minor Concentration. For a list of approved Minors and Minor Concentrations, please refer to the Faculty of Science, "[Minor Programs](#)", see [section 12.11.6](#), and "[Faculty of Arts Major and Minor Concentration Programs Available to Science Students](#)", see [section 12.11.10](#).

Graduation Requirement

Students are required, before graduation, to show proof of certification in Standard Level Safety Oriented First Aid, and Level C in Cardiopulmonary Resuscitation, or equivalencies.

B.SC. (KINESIOLOGY) – FRESHMAN PROFILE (29 - 30 credits)

Students admitted to the 120-credit B.Sc.(Kinesiology) complete the courses below in their first year of studies (U0).

Required Courses (29 - 30 credits)

BIOL 111	(3)	Principles: Organismal Biology
CHEM 110	(4)	General Chemistry 1
MATH 139	(4)	Calculus
or MATH 140	(3)	Calculus 1
or MATH 150	(4)	Calculus A
PHYS 101	(4)	Introductory Physics - Mechanics
or PHYS 131	(4)	Mechanics and Waves
BIOL 112	(3)	Cell and Molecular Biology
CHEM 120	(4)	General Chemistry 2
MATH 141	(4)	Calculus 2
or MATH 151	(4)	Calculus B
PHYS 102	(4)	Introductory Physics - Electromagnetism
or PHYS 142	(4)	Electromagnetism and Optics

B.SC. (KINESIOLOGY) – MAJOR IN APPLIED KINESIOLOGY (90 credits)

Required Courses (43 credits)

CHEM 212	(4)	Introductory Organic Chemistry 1
EDKP 206	(3)	Biomechanics of Human Movement
EDKP 215	(0)	Standard First Aid/Cardio-Pulmonary Resuscitation Level C
EDKP 261	(3)	Motor Development
EDKP 292	(3)	Nutrition and Wellness
EDKP 330	(3)	Physical Activity and Health
EDKP 393	(3)	Skill Learning and Expertise
EDKP 394	(3)	Historical Perspectives
EDKP 395	(3)	Exercise Physiology
EDKP 396	(3)	Adapted Physical Activity

EDKP 485	(3)	Exercise Pathophysiology 1
EDKP 495	(3)	Scientific Principles of Training
EDKP 498	(3)	Sport Psychology
EDKP 405	(3)	Sport in Society

Complementary Courses (33 credits)

3 credits from the following:

ANAT 214	(3)	Systemic Human Anatomy
or ANAT 316	(2)	Human Visceral Anatomy
and EDKP 239	(1)	Medical Imaging of Anatomy

3 credits, one of the following courses:

ANAT 315	(4)	Anatomy/Limbs and Back
EDKP 205	(3)	Structural Anatomy

6 credits, one of the following course sets:

PHGY 201	(3)	Human Physiology: Control Systems
and PHGY 202	(3)	Human Physiology: Body Functions
or PHGY 209	(3)	Mammalian Physiology 1
and PHGY 210	(3)	Mammalian Physiology 2

3 credits, one of the following courses:

BIOL 373	(3)	Biometry
MATH 203	(3)	Principles of Statistics 1
MGCR 271	(3)	Business Statistics
PSYC 204	(3)	Introduction to Psychological Statistics
SOCI 350	(3)	Statistics in Social Research

18 credits chosen from the following courses:

EDKP 200	(1)	Weight Training
EDKP 201	(3)	Physical Activity Leadership
EDKP 249	(1)	Physical Activity Appraisal
EDKP 250	(3)	Practicum 1
EDKP 252	(2)	Racquet Sports
EDKP 254	(2)	Principles of Dance
EDKP 311	(3)	Athletic Injuries
EDKP 350	(3)	Physical Fitness Evaluation Methods
EDKP 450	(3)	Practicum 3
EDKP 451	(3)	Personal Trainer Practicum
EDKP 452	(3)	Fitness & Lifestyle Consulting
EDKP 553	(3)	Physical Activity Assessments

Elective Courses (14 credits)

Students are encouraged to obtain all, or part, of their remaining program credits by completing one of the Minor/Minor Concentrations (18 - 24 credits) available in the Faculties of Arts, Science, and Management.

B.SC. (KINESIOLOGY) – MAJOR IN GENERAL KINESIOLOGY (90 credits)**Required Courses** (43 credits)

CHEM 212	(4)	Introductory Organic Chemistry 1
EDKP 206	(3)	Biomechanics of Human Movement
EDKP 215	(0)	Standard First Aid/Cardio-Pulmonary Resuscitation Level C
EDKP 261	(3)	Motor Development
EDKP 292	(3)	Nutrition and Wellness
EDKP 330	(3)	Physical Activity and Health
EDKP 393	(3)	Skill Learning and Expertise
EDKP 394	(3)	Historical Perspectives
EDKP 395	(3)	Exercise Physiology
EDKP 396	(3)	Adapted Physical Activity
EDKP 443	(3)	Research Methods
EDKP 485	(3)	Exercise Pathophysiology 1
EDKP 495	(3)	Scientific Principles of Training
EDKP 498	(3)	Sport Psychology
EDKP 405	(3)	Sport in Society

Complementary Courses (24 credits)

3 credits from the following:

ANAT 214	(3)	Systemic Human Anatomy
or ANAT 316	(2)	Human Visceral Anatomy
and EDKP 239	(1)	Medical Imaging of Anatomy

3 credits, one of the following courses:

ANAT 315	(4)	Anatomy/Limbs and Back
EDKP 205	(3)	Structural Anatomy

6 credits, one of the following course sets:

PHGY 201	(3)	Human Physiology: Control Systems
and PHGY 202	(3)	Human Physiology: Body Functions
or PHGY 209	(3)	Mammalian Physiology 1
and PHGY 210	(3)	Mammalian Physiology 2

3 credits, one of the following courses:

BIOL 373	(3)	Biometry
MATH 203	(3)	Principles of Statistics 1
MGCR 271	(3)	Business Statistics
PSYC 204	(3)	Introduction to Psychological Statistics
SOCI 350	(3)	Statistics in Social Research

9 credits chosen from the following courses:

EDKP 200	(1)	Weight Training
EDKP 201	(3)	Physical Activity Leadership
EDKP 244	(1)	Dance and Fitness
EDKP 249	(1)	Physical Activity Appraisal
EDKP 250	(3)	Practicum 1
EDKP 303	(3)	Advanced Biomechanics
EDKP 311	(3)	Athletic Injuries
EDKP 350	(3)	Physical Fitness Evaluation Methods
EDKP 444	(3)	Ergonomics
EDKP 445	(3)	Exercise Metabolism
EDKP 446	(3)	Physical Activity and Ageing
EDKP 447	(3)	Motor Development 2
EDKP 448	(3)	Exercise and Health Psychology
EDKP 449	(3)	Exercise Pathophysiology 2
EDKP 450	(3)	Practicum 3
EDKP 451	(3)	Personal Trainer Practicum
EDKP 452	(3)	Fitness & Lifestyle Consulting
EDKP 542	(3)	Environmental Exercise Physiology
EDKP 553	(3)	Physical Activity Assessments
EDKP 566	(3)	Muscle Mechanics
EDKP 568	(3)	Biomechanics Instrumentation
NUTR 503	(3)	Bioenergetics and the Lifespan

Elective Courses (23 credits)

Students are encouraged to obtain some of their remaining program credits by completing one of the Minor/Minor Concentrations (18 - 24 credits) available in the Faculties of Arts, Science, and Management.

B.SC. (KINESIOLOGY) – HONOURS IN KINESIOLOGY (90 credits)

Students must obtain a CGPA of 3.3 after two years in Kinesiology to qualify for the Honours Program, and must retain this CGPA until graduation.

Required Courses (46 credits)

CHEM 212	(4)	Introductory Organic Chemistry 1
EDKP 206	(3)	Biomechanics of Human Movement
EDKP 215	(0)	Standard First Aid/Cardio-Pulmonary Resuscitation Level C
EDKP 261	(3)	Motor Development
EDKP 292	(3)	Nutrition and Wellness
EDKP 330	(3)	Physical Activity and Health
EDKP 393	(3)	Skill Learning and Expertise
EDKP 394	(3)	Historical Perspectives
EDKP 395	(3)	Exercise Physiology
EDKP 396	(3)	Adapted Physical Activity
EDKP 443	(3)	Research Methods
EDKP 453	(3)	Research Practicum in Kinesiology
EDKP 485	(3)	Exercise Pathophysiology 1
EDKP 495	(3)	Scientific Principles of Training
EDKP 498	(3)	Sport Psychology
EDKP 405	(3)	Sport in Society

Complementary Courses (27 credits)

3 credits from the following:

ANAT 214	(3)	Systemic Human Anatomy
or ANAT 316	(2)	Human Visceral Anatomy
and EDKP 239	(1)	Medical Imaging of Anatomy

3 credits, one of the following courses:

ANAT 315	(4)	Anatomy/Limbs and Back
EDKP 205	(3)	Structural Anatomy

6 credits, one of the following course sets:

PHGY 201	(3)	Human Physiology: Control Systems
and PHGY 202	(3)	Human Physiology: Body Functions
or PHGY 209	(3)	Mammalian Physiology 1
and PHGY 210	(3)	Mammalian Physiology 2

3 credits, one of the following courses:

BIOL 373	(3)	Biometry
MATH 203	(3)	Principles of Statistics 1
MGCR 271	(3)	Business Statistics
PSYC 204	(3)	Introduction to Psychological Statistics
SOCI 350	(3)	Statistics in Social Research

12 credits chosen from the following courses:

EDKP 303	(3)	Advanced Biomechanics
EDKP 444	(3)	Ergonomics
EDKP 445	(3)	Exercise Metabolism
EDKP 446	(3)	Physical Activity and Ageing
EDKP 447	(3)	Motor Development 2
EDKP 448	(3)	Exercise and Health Psychology
EDKP 449	(3)	Exercise Pathophysiology 2
EDKP 542	(3)	Environmental Exercise Physiology
EDKP 566	(3)	Muscle Mechanics
EDKP 568	(3)	Biomechanics Instrumentation
NUTR 503	(3)	Bioenergetics and the Lifespan

Elective Courses (17 credits)

Students are encouraged to obtain all, or some, of their remaining program credits by completing one of the Minor/Minor Concentrations (18 - 24 credits) available in the Faculties of Arts, Science, and Management.

7.8 School of Information Studies

McLennan Library Building, Room MS57F

Director — France Bouthillier

Professor Emerita

Effie C. Astbury; B.A., B.L.S.(McG.), M.L.S.(Tor.)

Professors

J. Andrew Large; B.Sc.(Lond.), Ph.D.(Glas.), Dip.Lib.(Lond.) (*CN-Pratt-Grinstad Professor of Information Studies*)

Peter F. McNally; B.A.(W. Ont.), B.L.S., M.L.S., M.A.(McG.)

Associate Professors

Jamshid Beheshti; B.A.(S. Fraser), M.L.S., Ph.D.(W. Ont.)

France Bouthillier; B.Ed.(UQAM), M.B.S.I.(Montr.), Ph.D.(Tor.)

John E. Leide; B.S.(MIT), M.S.(Wis.), Ph.D.(Rutg.)

Assistant Professors

Joan Bartlett; B.Sc., M.L.S., Ph.D. (Tor.)

Kim Dalkir; B.Sc., M.B.A.(McG.), Ph.D.(C'dia)

Catherine Guastavino; B.Sc.(McG.), M.Sc.(Aix-Marseille),
Ph.D.(Paris)

Eun Park; B.A.(Pusan), M.L.I.S.(Ill.), M.B.A.(Pitt.), Ph.D.(Calif.-LA)

Adjunct Professors

Joy Bennett; B.A., M.A.(C'dia), M.L.I.S.(McG.), Ph.D.(C'dia)

Frances Groen; B.A., B.L.S.(Tor.), M.A.(Pitt.)

Associate Members

Gordon Burr; B.A., M.L.I.S.(McG.)

Pierre Pluye; M.D.(Toulouse), M.Sc., Ph.D.(Montr.)

Richard Virr; B.A.(Tulane), M.A.(Qu.), Ph.D.(McG.)

Professional Associate

Fiona Tam; B.B.A.(HKUST), M.L.I.S.(McG.)

Faculty Lecturers

Louise Carpentier; B.L.S.(Tor.), M.Bibl.(Montr.), M.P.P.PA.(C'dia)

Larry Deck; B.A.(Windsor), M.A.(Montr.), M.L.I.S.(McG.)

Danielle Dennie; B.Sc.(Laur.), M.Sc.(Inst. Armand-Frappier),
M.L.I.S.(McG.)

Jocelyn Godolphin; B.A.(Man.), M.A.(Ore.), M.L.S.(Br. Col.)

Andrea Harland; B.A.(McG.), M.A.C.(Qu.), M.L.I.S.(McG.)

Alexander Jerabek; B.A.(McG.), M.A.(C'dia), M.L.I.S.(McG.)

Charles-Antoine Julien; B.Eng., M.Sc.(École Poly., Montr.)

Valerie Nasset; B.A.(Qu.), M.L.I.S.(McG.)

The School of Information Studies focuses upon the knowledge and skills necessary to identify, acquire, organize, retrieve and disseminate information so as to meet people's varied information needs.

The School of Information Studies offers four programs at the graduate level. Its 48-credit Master of Library and Information Studies (MLIS) has three areas of specialization: Archival Studies, Knowledge Management and Librarianship. Accredited by the American Library Association, the MLIS program prepares professionals to manage information resources and services in libraries and the wider information industries. Its 30-credit Graduate Diploma in Library and Information Studies and 15-credit Graduate Certificate in Library and Information Studies are designed to provide a formal environment in which information professionals can update, specialize, and redirect their careers for advanced responsibilities. Its Ph.D. (ad hoc) program provides an opportunity to undertake research at the doctoral level in library and information studies within an interdisciplinary context.

For further information concerning programs, requirements, and courses, consult the School of Information Studies section of the most current *Graduate and Postdoctoral Studies Calendar* or the School Website.

8.1 The Faculty

8.1.1 Location

Macdonald Engineering Building
 817 Sherbrooke Street West
 Montreal, QC H3A 2K6
 Canada

Telephone: (514) 398-7257
 Faculty Website: www.mcgill.ca/engineering

The Student Affairs Office and the Offices of the Associate Dean, Student Affairs and Associate Dean, Academic are located within the Engineering Student Centre, located at:
 3450 University Street
 Montreal, QC, H3A 2A7
 Frank Dawson Adams Building, Suite 22

8.1.2 Administrative Officers

Christophe Pierre; Ph.D.(Duke), M. Sc.(Prin.),
 B. Eng.(École Centrale, Paris) (*Canada Research Chair*)
Dean

Luc Mongeau; B.Sc., M.Sc.(École Poly., Montr.),
 Ph.D.(Penn. St.) (*Canada Research Chair*)
Associate Dean, Academic Affairs

Subhasis Ghoshal; B.C.E.(Jadavpur), M.S.(Missouri),
 Ph.D.(Carnegie-Mellon) (*William Dawson Scholar*)
Associate Dean, Student Affairs

James Clark; B.Sc., Ph.D.(Br. Col.)
Associate Dean, Academic

Andrew Kirk; B.Sc.(Brist.), Ph.D.(Lond.) (*William Dawson Scholar*)
Associate Dean, Research and Graduate Education

Michael Jemtrud; B.A., B.Sc., B.Arch.(Penn. St.), M.Arch. (McG.),
 MRAIC **Director, School of Architecture**

David F. Brown; B.A.(Bishop's), M.U.P.(McG.), Ph.D.(Sheff.)
Director, School of Urban Planning

Dimitrios Berk; B.Sc.(Bosphorus), M.E.Sc.(W. Ont.), Ph.D.(Calg.),
 P.Eng. **Chair, Department of Chemical Engineering**

Denis Mitchell; B.A.Sc., M.A.Sc., Ph.D.(Tor.), F.A.C.I., F.C.A.E.,
 F.C.S.C.E., F.E.I.C., F.R.S.C., Eng. (*James McGill Professor*)
Chair, Department of Civil Engineering and Applied Mechanics

David V. Plant; M.S., Ph.D.(Brown), F.O.S.A., (*James McGill Professor*)
Chair, Department of Electrical and Computer Engineering

Arun K. Misra; B.Tech.(IIT, Kharagpur), Ph.D.(Br. Col.), P.Eng.,
 F.A.A.S., A.F.A.I.A.A. (*Thomas Workman Professor of Mechanical Engineering*)
Chair, Department of Mechanical Engineering

Steve Yue; B.Sc., Ph.D.(Leeds) **Chair, Department of Mining and Materials Engineering**

Colin Rogers; B.A.Sc., M.A.Sc.(Wat.), Ph.D.(Syd.), P.Eng.
Secretary of Faculty

Christine Tutt **Director of Administration**

Debbie Morzajew **Manager, EMF**

Jonathan Rousham **Facilities Manager**

Tania Chomyk **Area Personnel Officer**

Enza De Martinis **Financial Officer**

Judy Pharo **Associate Director, Engineering Student Centre**

Heidi Mehta **Student Affairs Adviser**

Lesley Morin **Records - Student Affairs Officer**

Stacey Comeau **Student Affairs Administrator**

Susie Vodopivec **Student Affairs Administrator**

8.1.3 Historical Note

The Faculty of Engineering began in 1871 as the Department of Practical and Applied Science in the Faculty of Arts with degree programs in Civil Engineering and Surveying, Mining Engineering and Assaying, and Practical Chemistry. Diploma courses had been offered from 1859, and by 1871 the staff and enrolments had increased sufficiently to justify the creation of the Department. Continued growth led to the formation of the Faculty of Applied Science in 1878. By 1910 there were ten degree programs offered, including Architecture and Railroad Engineering. Subsequent changes in the overall pattern of the University led to the creation of the Faculty of Engineering in 1931 with a departmental structure very similar to that which exists at present.

8.1.4 The Faculty Today

The Faculty currently includes five engineering departments and two schools:

The Departments

- Chemical Engineering
- Civil Engineering and Applied Mechanics
- Electrical & Computer Engineering
- Mechanical Engineering
- Mining and Materials Engineering

The Schools

- Architecture
- Urban Planning

The Faculty serves approximately 2,600 undergraduate students and 900 graduate students in a wide variety of academic programs.

Undergraduate programs leading to professional bachelor degrees are offered in all Engineering Departments. These programs

are designed to qualify the graduates for immediate employment in a wide range of industries and for membership in the appropriate professional bodies. Additionally, a non-professional undergraduate degree is offered in the School of Architecture for those who plan to work in related fields not requiring professional qualification. The curricula are structured to provide suitable preparation for those who plan to continue their education in postgraduate studies either at McGill or elsewhere. The professional degrees in Architecture and Urban Planning are offered at the Master's level and are described in the *Graduate and Postdoctoral Studies Calendar* found at www.mcgill.ca/courses.

The academic programs are divided into required and complementary sections. The required courses emphasize those basic principles which permit graduates to keep abreast of progress in technology throughout their careers. Exposure to current technology is provided by the wide variety of complementary courses which allow students to pursue in depth a particular interest. For program details refer to [section 8.5 "Academic Programs"](#).

An internship program involving a paid 8, 12 or 16 month work experience is available to Engineering students. Generally, students will enter the internship program before starting their final year of undergraduate studies. Details can be found in [section 8.2.8 "EIP: Engineering Internship Program and IP – Industrial Practicum"](#). In addition, CO-OP programs are offered in Mining Engineering and in Metals and Materials Engineering.

Postgraduate programs leading to Master's and doctoral degrees are offered in all sectors of the Faculty. Numerous areas of specialization are available in each of the departments and schools. All postgraduate programs, including the professional degree programs in Architecture and in Urban Planning are described in the *Graduate and Postdoctoral Studies Calendar* found at www.mcgill.ca/courses.

8.1.5 Special Facilities and Related Programs

8.1.5.1 Engineering Microcomputing Facility

In addition to the services provided by Central Information Technology Resources, the Faculty, in conjunction with its departments and schools, maintains specialized computing and information resources in support of teaching and research. These vary from desktop PCs distributed throughout the Engineering complex to very high performance scientific workstations found in the research laboratories. Each unit organizes and maintains facilities that are designed around specific roles, e.g., CAD/CAM, micro-electronic design, software engineering, circuit simulation, process control, polymers, structural mechanics, metal processing, etc., in addition to systems dedicated to administrative support.

The role of the Faculty is to provide access to computing resources on a 24-hour basis and to provide services that are not covered by individual units. Further information is available at www.mcgill.ca/emf.

8.1.5.2 Bioresource Engineering

The Faculty of Engineering cooperates with the Faculty of Agricultural and Environmental Sciences in providing courses of instruction for a curriculum in agricultural and biosystems engineering to meet requirements for a professional degree awarded in the Faculty of Agricultural and Environmental Sciences. The second term of the penultimate year of the program is given by the Faculty of Engineering on the downtown campus. For details of the curriculum, [see section 13.6.3 "Department of Bioresource Engineering"](#).

Some of the courses offered by the Department of Bioresource Engineering (Subject Code BREE) may be of interest to students in the Faculty of Engineering.

8.1.5.3 Department of Biomedical Engineering

Lyman Duff Medical Sciences Building
 3775 University Street
 Montreal, QC H3A 2B4
 Telephone: (514) 398-8278

Engineering undergraduates who are interested in the biomedical applications of engineering techniques should contact the Chair of their department or the graduate Chair of Biomedical Engineering. Some of the courses offered by the Department (Subject Code BMDE) may be of interest to Engineering students, and may be approved as complementary courses. For more information, students should refer to "[Course Information, Regulations and Descriptions \(Appendix\)](#)".

8.1.6 Library Facilities

The University has numerous libraries. Specifically serving Engineering, Architecture, and Urban Planning is the Schulich Library of Science and Engineering. Other McGill libraries of interest to students in the Faculty of Engineering are: Blackader-Lauterman Library of Architecture and Art, Walter Hirschfeld Geographic Information Centre, Edward Rosenthal Mathematics and Statistics Library, and the Howard Ross Management Library. Further information is available at www.mcgill.ca/library.

8.2 General Information

8.2.1 Admission Requirements

The Faculty of Engineering offers programs leading to the degrees of B.Eng., B.S.E. and B.Sc.(Arch.). Enrolment in some programs is limited.

Specific information on admissions requirements for Quebec students, students from provinces of Canada other than Quebec, and applicants from outside of Canada can be found in For more details, see the *Undergraduate Admissions Guide 2008-09*, found at www.mcgill.ca/applying/undergrad.

8.2.2 Exchange Programs

The Faculty of Engineering participates in a number of bilateral exchange programs that provide undergraduates with an opportunity to study in various countries including, Australia, Austria, Canada, Denmark, France, Germany, Hong Kong, Mexico, New Zealand, Singapore, Sweden, United Kingdom, and the US. Applicants must have completed at least one year of study and have maintained an average of 3.00 or better. Further information may be obtained from the Faculty of Engineering Student Affairs Office in the Engineering Student Centre (www.mcgill.ca/engineering/student/sao/current/exchange) and the Office of Student Exchanges and Study Abroad (www.mcgill.ca/studyabroad).

8.2.3 Transfer Credits

In certain cases, credits may be granted for courses passed with a C or better that were taken at other universities prior to admission. The number of transfer credits granted will be limited to ensure that the student must complete a minimum of 60 credits of program related courses at McGill University, excluding those taken to satisfy the basic science requirements listed under [section 8.3.1.2 "Basic Science Requirements for Students Entering from Outside Quebec"](#).

8.2.4 Registration

Students who are currently registered and intend to return to the same degree program in the following academic session are required to register following procedures outlined in this Calendar, see [section 3.3 "Registration"](#). **It is mandatory for all returning students to see a departmental academic adviser in their department for course confirmation during the first two weeks of the Fall term and, if changes are being made, during the first two weeks of the Winter term.**

Information regarding course registration is sent to new students at the time of admission. **All new students must see a departmental academic adviser during the advising period.**

8.2.4.1 Course Load

For students in the Faculty of Engineering the normal course load is 15 to 18 credits per term. Students who register for fewer than 12 credits per term are considered to be part-time in that term. A student who wishes to register for more than 18 credits in a term may only do so with special permission of their departmental advisers. Students on probationary standing may register for a maximum of 13 credits, per term including repeated courses. Student with deferred exams should refer to section 8.3.5.11 "Deferred Examinations" for credit requirements. Where appropriate, students must ensure that they register for sufficient credits to satisfy visa, financial aid and/or scholarship requirements.

8.2.4.2 Registration for Continuing Education Courses

Students may register for Continuing Education courses through Minerva. Students must refer to the Centre for Continuing Education Calendar and Schedule for course information and deadlines. Language courses given through Continuing Education will count for credits. For further information, contact the Faculty of Engineering, Student Affairs Office in the Engineering Student Centre.

8.2.4.3 Course Withdrawal

Students may withdraw from a course without academic penalty provided they do so within the appropriate deadlines of the term. Beyond this time their names will appear on the mark reports and, in the event that they do not take the examination, they will be given a J grade. For more information on course withdrawal, see "[Regulations Concerning Course Withdrawal](#)", in [section 3.3.8](#).

8.2.5 Advising

All students are required to seek academic advising about their programs from the department in which they study. Additional information may be obtained by calling:

Student Affairs Office	(514) 398-7257
Architecture	(514) 398-6702
Chemical Engineering	(514) 398-4494
Civil Engineering	(514) 398-6860
Electrical & Computer Engineering	(514) 398-3943
Mechanical Engineering	(514) 398-8070
Mining and Materials Engineering	(514) 398-4755
Urban Planning	(514) 398-4075

For more information on advising, see [section 4 "Advising and Support"](#).

8.2.6 Student Activities

The campus offers a wide variety of extracurricular activities for students. All are encouraged to participate. Many of these are organized within the Faculty under the auspices of the Engineering Undergraduate Society (EUS), or the Architectural Student Association (ASA). Both of these organizations publish handbooks describing their operations and the activities of various Faculty clubs and societies. All undergraduate students automatically become members of the EUS or the ASA, as appropriate.

8.2.7 Scholarships and Bursaries

Scholarships, bursaries and loans are open to students in the Faculty of Engineering. Students should consult the *Undergraduate Scholarships and Awards Calendar* available at www.mcgill.ca/courses or from Enrolment Services. Specific information concerning these awards may be obtained from the Faculty of Engineering, Student Affairs Office in the Engineering Student Centre. (www.mcgill.ca.engineering/student/scholarships)

8.2.8 EIP: Engineering Internship Program and IP – Industrial Practicum

Employers value experience. The EIP (8, 12 or 16 months) and the Industrial Practicum (4 months) allow undergraduate students in Engineering to gain professional work experience during the

course of their undergraduate studies, while at the same time earning a salary within the average range for entry-level professional positions. Other benefits include:

- improved employment prospects upon graduation at a higher starting salary;
- the opportunity to explore career options prior to graduation;
- the opportunity to develop communication skills and to acquire a business perspective that cannot be learned in school.

Employment begins in January, May or September. EIP Internships are 8, 12 or 16 months, while the IP is 4 months. Employers choose the most suitable students for their organization through the application and interview process. While employed by the participating companies, students work on assignments related to their field of study. Completion of an IP or EIP will be noted on the students' transcript. Successful completion of an 8, 12 or 16 month Internship or 2 Industrial Practicum qualifies students to graduate with the Internship Program designation.

STUDENT ELIGIBILITY

All students participating in the EIP or IP must:

- have a CGPA of 2.6 or higher;
- be registered full-time in their program before and after the EIP or IP;
- remain a degree candidate while on internship;
- return to complete their studies at McGill (Internship students will receive an automatic extension for the completion of their studies). Students are not allowed to complete their undergraduate degree during the Internship period.
- International students are eligible to apply for an EIP and Summer IPs (a few restrictions may apply).

Further information can be obtained at www.mecc.mcgill.ca or by sending an e-mail to careers4engineers@mcgill.ca

8.2.9 Calculators in Faculty Tests and Examinations

The use of calculators during tests and examinations is at the discretion of the course instructor. If a calculator is permitted in the examination, the Faculty requires that the students use a Faculty Standard Calculator, i.e., the CASIO fx-115, CASIO fx-991, CASIO fx-570ms, SHARP EL-520, or SHARP EL-546. Under these circumstances, *no other calculators will be permitted*, regardless of their level of sophistication. **Non-regulation calculators will be removed and no replacement calculator will be provided.** All Engineering students are expected to own one of the above listed Faculty Standard Calculators.

8.3 Academic Requirements

8.3.1 Degree Requirements

In order to obtain a Bachelor's degree, students must complete one of the departmental programs described in [section 8.5 "Academic Programs"](#).

8.3.1.1 Entrance Requirements

The degree programs in the Faculty of Engineering are designed for students who have completed a general and basic science program. This basic science requirement consists of two terms of calculus, chemistry, physics, one term of vectors, matrices and geometry and one term of humanities or social sciences.

Students entering the Faculty of Engineering from Quebec complete these courses at CEGEP and enter a seven-term program.

Students entering from outside Quebec with a high school diploma generally enter an eight-term program and complete the basic science requirements at McGill.

Students who have completed Advanced Placement Exams, Advanced Levels, the International Baccalaureate, the French Baccalaureate, or McGill placement and/or advanced credit examinations may receive exemptions and/or credits for all or part of the

basic science requirements. Similarly, students who have completed courses at other universities or colleges may receive exemptions and/or credits. Please see

www.mcgill.ca/engineering/student/sao/newstudents/credit for specific information on transfer credits.

8.3.1.2 Basic Science Requirements for Students Entering from Outside Quebec

Generally, students admitted to Engineering from outside Quebec are required to complete the basic science requirements outlined below, in addition to the departmental programs described in [section 8.5 "Academic Programs"](#).

CHEM 110	(4 credits)	General Chemistry 1
CHEM 120	(4 credits)	General Chemistry 2
MATH 140	(3 credits)	Calculus 1
or MATH 139	(4 credits)	Calculus
or MATH 150	(4 credits)	Calculus A
MATH 141	(4 credits)	Calculus 2
or MATH 152	(4 credits)	Calculus E
MATH 133	(3 credits)	Vectors, Matrices and Geometry
PHYS 131	(4 credits)	Mechanics and Waves
PHYS 142	(4 credits)	Electromagnetism and Optics
xxxx xxx	(3 credits)	Humanities/Social Sciences course

Calculus courses MATH 150/MATH 152 are designed for students who have completed a course in high school calculus. Students who complete the Calculus sequence MATH 150/MATH 152 will receive exemption with credit from MATH 262 (Intermediate Calculus), in the regular Engineering program.

In the event that the student has some prior calculus, but is not sufficiently confident to proceed with MATH 150/MATH 152, the appropriate sequence is MATH 140/MATH 141.

If a student has no previous calculus exposure, MATH 150/MATH 152 may be replaced with MATH 139/MATH 141.

Students who are uncertain as to which calculus course sequence is appropriate for them should contact the Faculty of Engineering, Student Affairs Office in the Engineering Student Centre, (514) 398-7257.

Students who successfully complete one, or more, McGill Placement Tests will obtain credit(s) for the equivalent(s), i.e., CHEM 110, CHEM 120, MATH 140, MATH 141, MATH 133, PHYS 131, PHYS 142.

Students entering with advanced standing credits (Advanced Placements, Advanced Levels, International Baccalaureate examinations, McGill Placement Tests) are required to meet with an adviser, in the Faculty of Engineering, Student Affairs Office in the Engineering Student Centre, to finalize their program of study. (This must be done prior to meeting with the Departmental adviser.) An information session will be held prior to the advising sessions to process these advanced credits. All of the above information is available at www.mcgill.ca/engineering/student/sao/newstudents/credit.

8.3.1.3 Architecture – Basic Science Requirements for Students Entering from Outside Quebec

Generally, students admitted to Architecture from outside Quebec are required to complete the following courses:

CHEM 110	(4 credits)	General Chemistry 1
CHEM 120	(4 credits)	General Chemistry 2
MATH 139	(4 credits)	Calculus
or MATH 140	(3 credits)	Calculus 1
MATH 141	(4 credits)	Calculus 2
MATH 133	(3 credits)	Vectors, Matrices and Geometry
PHYS 131	(4 credits)	Mechanics and Waves
PHYS 142	(4 credits)	Electromagnetism and Optics

Students may write McGill Placement Tests to obtain credit for CHEM 110, CHEM 120, MATH 140, MATH 141, MATH 133, PHYS 131 and PHYS 142, in the event that they have studied similar material previously. Details on the advanced placement examinations are provided in the *Welcome to McGill* guide for new students. All of the above information is available at www.mcgill.ca/engineering/student/sao/newstudents/credit.

8.3.2 Degrees and Requirements for Professional Registration

Non-Professional:

Bachelor of Science (Architecture)

The first professional degree in architecture is the Master of Architecture I and further information can be found in the *Graduate and Postdoctoral Studies Calendar* at www.mcgill.ca/courses.

Professional:

Bachelor of Engineering

Bachelor of Engineering (Honours)

Bachelor of Software Engineering

The B.Eng. and B.S.E. programs are accredited by the Accreditation Board of the Canadian Council of Professional Engineers (CCPE) and fulfill the academic requirements for admission to the provincial engineering professional organizations. The CCPE has also negotiated agreements with engineering organizations in other countries to grant Canadian licensed engineering the same privileges accorded to professional engineering in those countries. See the CCPE Website for further information (www.ccpe.ca). All students are encouraged to seek professional registration after graduation.

To become a Professional Engineer in Canada, a graduate must pass an examination on legal aspects as well as on the principles of professional practice, and acquire two to four years of engineering experience, depending on the province. Only persons duly registered may use the title of “engineer” and perform the professional activities reserved for engineers by the provincial laws and regulations.

In Quebec, the professional engineering body is the Ordre des ingénieurs du Québec (OIQ). In order to better prepare new graduates for the practice of their profession, McGill organizes seminars in cooperation with the OIQ on various aspects of the profession. The OIQ also has a student section. As soon as students have accumulated 60 credits in a B.Eng. or B.S.E. program, they can join the Student Section of the OIQ. Registration is free.

For more information, visit the Websites of the Ordre des ingénieurs du Québec, www.oiq.qc.ca, and of the Canadian Council of Professional Engineers, www.ccpe.ca.

8.3.3 Prerequisites and/or Corequisites

Prerequisites and/or corequisites must be completed prior to course registration, if applicable. If a student has registered for a course and did not satisfy the prerequisites and/or corequisites, the course may be dropped from his/her record automatically by Minerva.

Those students who have received advance credits/exemptions or passed a placement exam, and are blocked from registration in a course due to a prerequisite and/or corequisite error, must go to their respective department in order to receive the appropriate override.

Further information may be obtained from the Faculty of Engineering, Student Affairs Office in the Engineering Student Centre.

8.3.4 Complementary Studies

Engineering students must complete 6 credits of additional complementary courses as follows:

I) Three credits on the impact of technology on society are to be chosen from the following list of courses:

CHEE 230	Environmental Aspects of Technology
CHEE 430	Technology Impact Assessment
CIVE 469	Infrastructure and Society
ECON 225	Economics of the Environment
ENVR 201	Society and Environment
ENVR 480	Topics in Environment 2
GEOG 200	Geographical Perspectives: World Environmental Problems
GEOG 203	Environmental Systems
GEOG 205	Global Change: Past, Present and Future

GEOG 302	Environmental Management 1
MIME 308	Social Impact of Technology
PHIL 343	Biomedical Ethics
SOCI 235	Technology and Society
SOCI 312	Sociology of Work and Industry

II) Three credits in the humanities and social sciences, administrative studies and law are to be chosen from the following list of courses:

A. Humanities and Social Sciences

Any course at the 200 level or above from the departments of:

- Anthropology (Subject Code ANTH)
- Economics (any 200- or 300-level course excluding ECON 208, ECON 217, ECON 227, ECON 259 and ECON 337)
- History (Subject Code HIST)
- Philosophy (excluding PHIL 210)
- Political Science (Subject Code POLI)
- Psychology (excluding PSYC 204, PSYC 305 and PSYC 435 but including PSYC 100)
- Religious Studies (Subject Code RELG)
- School of Social Work (Subject Code SWRK)
- Sociology (excluding SOCI 350)

or ARCH 350 The Material Culture of Canada
or ENVR 203 Knowledge, Ethics and Environment
or ENVR 400 Environmental Thought
or MATH 338 History and Philosophy of Mathematics

B. Administrative Studies and Law

Faculty of Engineering

FACC 220	Law for Architects and Engineers
FACC 500	Technology Business Plan Design
FACC 501	Technology Business Plan Project

Desautels Faculty of Management

(Management courses have limited enrolment and registration dates, see Calendar of Dates.)

BUSA 465	Technological Entrepreneurship
INDR 294	Introduction to Labour-Management Relations
MGCR 222	Introduction to Organizational Behaviour
MGCR 352	Marketing Management 1
MGCR 360	Social Context of Business
MRKT 360	Marketing of Technology
ORGB 321	Leadership

C. Language Courses

Any language course which is deemed by the academic adviser to have a sufficient cultural component or, in the case of a student who was not already proficient in a specific language, 3 program credits will be given a successfully completed, academically approved 6-credit language course.

8.3.5 Student Progress

The B.Eng. and B.S.E. programs may be completed in seven terms. The B.Sc.(Arch.) program may be completed in six or eight terms, depending upon point of entry.

A student must successfully complete the B.Eng., B.S.E., or B.Sc.(Arch.) programs within six years of entry. Candidates admitted to a lengthened program, or to a shortened program because of advanced standing, or who are participating in the EIP: Engineering Internship Program, will have a correspondingly greater or lesser period in which to complete their program. Extensions may be granted by the Committee on Standing in cases of serious medical problems or where other similarly uncontrollable factors have affected a student's progress.

8.3.5.1 Letter Grades

In the Faculty of Engineering, letter grades are assigned according to the grading scheme adopted by the professor in charge of a particular course. They have the designations:

A, A-	Very Good	J	Unexcused Absence
B+, B, B-	Good	K	Incomplete
C+, C	Satisfactory	KF	Incomplete Failed
D	Conditional Pass	L	Deferred
F	Failed	T	Credit by examination only

Grades A, B and C indicate satisfactory results. Grade D indicates marginal results which may be acceptable for peripheral courses but not for core courses required by the program. The classification of a course as core or peripheral depends on the individual student's program and will be decided by the department concerned. Grade F is a permanent grade indicating unsatisfactory results. Grade J indicates an unexcused failure to submit assignments or an unexcused absence from an examination. It is equivalent to an F grade.

8.3.5.2 Incomplete Course Deadlines

Those students with a K grade (incomplete) MUST complete the course within three (3) months, after which the student will be given a grade of KF (incomplete/failed).

If the student is unable to complete the course within the given deadlines, a request for an extension provided by the department must be forwarded to the Faculty of Engineering, Student Affairs Office in the Engineering Student Centre.

Students who have a K or KE in their final term can expect delays in graduation.

8.3.5.3 Satisfactory/Unsatisfactory Option

The Satisfactory/Unsatisfactory Option (S/U) may be used for complementary studies involving a Social Science/Humanities course, or a course dealing with the impact of technology on society; or to elective courses taken outside the School of Architecture by architecture students. It does not apply to the "technical complementaries" or "architectural complementaries", or to any other category of the Engineering or Architecture programs.

Students must specify courses as S/U at the time of registration. The option will not be manually added or removed from a student's record after the Add/Drop deadline. Once a mark has been submitted, this option will not be reversed.

- A C grade is considered a pass under the University Satisfactory/Unsatisfactory option. (Students should note that the Faculty of Engineering accepts a D grade as a pass when courses eligible for the S/U option are taken in the conventional manner.)
- Only students in satisfactory standing will be permitted to take a course under the Satisfactory/Unsatisfactory option. Only one course (3 credits) per term, to a maximum of 10% of a student's credits taken at McGill, may be taken this way. Grades will be reported in the normal fashion by the instructor and the grades of C and above will be converted to Satisfactory (S) and grades of D and F will be converted to Unsatisfactory (U).
- The courses taken under this option will be excluded from the GPA, but will be included in the number of credits.
- **Note For Faculty of Engineering Students Only:** If the S/U option is selected for a core course and not removed by the Course Change deadline, the Faculty of Engineering, Student Affairs Office in the Engineering Student Centre will remove the option and notify the student of the change.
- Courses that are taken to satisfy a minor cannot be taken under the S/U option.

Note: To be considered for scholarships/renewal of awards, students must complete at least 27 credits in the regular academic session exclusive of courses completed under this option.

8.3.5.4 Course Credits

The credit assigned to a particular course reflects the amount of effort it demands of the student. One credit normally represents

three hours total work per week. This is, in general, a combination of lecture hours and other contact hours such as laboratory periods, tutorials and problem periods as well as personal study hours. As a guide, the average division of time for a course is indicated in hours in the course listing after the course credit. For example, (3) (3-0-6) indicates a three-credit course consisting of three lecture hours per week, no other contact hours and six hours of personal study per week.

8.3.5.5 Extra Courses

Courses that a student elects to take which lie outside their program may be classified as "extra", provided the student chooses this option at the time of registration. Extra courses are indicated on the student's transcript and grades earned in those courses do not affect the grade point average. The option will not be added to a student's record after the Add/Drop deadline. Courses that are taken to satisfy the student's engineering program or a Minor cannot be designated as extra.

8.3.5.6 Academic Standing Decisions

In the Faculty of Engineering, a decision on the student's academic standing is based on the CGPA (Cumulative Grade Point Average) according to the criteria listed below.

- Satisfactory standing - CGPA equal to 2.00 or greater.
- Probationary standing - CGPA less than or equal to 1.99 or equal to or greater than 1.20.
- Unsatisfactory standing - CGPA less than 1.20 or failure to meet the conditions of Probationary standing as described below (if this is the student's first term, the student is normally readmitted to Probationary Standing by Faculty decision).

Note: The Faculty makes academic standing decisions after the completion of each term (Fall, Winter and Summer) based on academic results to date. Thus, if a student has been granted permission to defer one or more examinations, the standing decision will be made regardless of such deferrals.

Please see below for further information about academic standing decisions.

Satisfactory Standing

Students in satisfactory standing may proceed, with the following conditions:

All core courses in which D or F grades were obtained must either be repeated successfully (grade C or better) or be replaced by an alternative approved course which is completed successfully.

All other courses in which F grades were obtained must either be repeated successfully at some point before graduation or be replaced by some alternative approved course which is completed successfully before graduation.

Students in poor academic standing are strongly urged to contact the Faculty of Engineering, Student Affairs Office in the Engineering Student Centre to discuss their situation. An adviser is available to help guide students and to provide useful advice to help students achieve their goals. Helpful workshops are provided by Student Services, e.g., study skills, stress management, test anxiety. Students who are experiencing difficulties are encouraged to explore these avenues.

Probationary Standing

Students placed on Probationary Standing may proceed with their studies under the following conditions.

Students must reduce their credit load to a maximum of 13 credits per term and must achieve at the end of the term either a CGPA of 2.00 or better, or a term GPA (TGPA) of 2.50 or better in order to continue.

If you have already registered for more than 13 credits, you are required to meet with an Adviser in your department/school in order to assist you in decreasing your credit load prior to the add/drop deadline of the subsequent term.

A student whose TGPA is 2.50 or better, but whose CGPA is less than 2.00, may continue on with his/her studies but will remain on Probationary Standing.

Failure to achieve either the TGPA or CGPA requirements noted above will result in the student being placed on “Unsatisfactory Standing” (see below). Students will remain on probationary standing until they achieve a CGPA equal to or exceeding 2.00, at which time their standing will be changed to “satisfactory”.

Students placed on Probationary Standing who need to reduce their credit load but are unable to drop course(s) must complete a Course Authorization Form and submit it to the Faculty of Engineering, Student Affairs Office in the Engineering Student Centre. The course(s) will then be deleted manually from the student's record.

Unsatisfactory Standing

Students who have been placed on Unsatisfactory Standing will be asked to withdraw from the Faculty of Engineering for a minimum of one term. Courses for which the student is currently registered will be deleted automatically from the student's record by the Faculty.

Students whose most recent academic standing is currently unsatisfactory as indicated on Minerva, and who wish to return to the Faculty of Engineering after a compulsory absence of a minimum of one term away, must apply for readmission on Minerva, no later than November 1 (Winter term) and June 1 (Fall term), at

www.mcgill.ca/engineering/student/sao/current/faculty_transfer_readmission. Upon readmission, the student will be placed back on Probationary Standing. While on probation the student must reduce his/her credit load to a maximum of 13 credits per term, and must meet or exceed a TGPA greater than or equal to 2.50 or a CGPA greater than or equal to 2.00. A student will remain on probationary standing until they achieve a CGPA greater than or equal to 2.00, at which time their standing will be changed to “satisfactory”.

Students who fail to achieve the required TGPA will be permanently withdrawn from the program with no chance of readmission. In addition, students who have returned to satisfactory standing, but whose CGPA falls below 2.00 in a subsequent term, will be required to permanently withdraw from the program with no chance of readmission.

8.3.5.7 Repeated Courses

Students who fail to achieve the required results in a course must either repeat it successfully or complete a substitute course approved by their department. For students who fail prerequisite courses which are offered only in the Fall or Winter, the department responsible may, in appropriate cases, arrange “reading courses” during the other term or during the Summer months. Such courses taken during a Fall or Winter term constitute a normal part of the candidate's work load. If the student is on probation, these courses must be included in the workload reduction.

8.3.5.8 Reassessment and Reread of a Grade

In accordance with the Charter of Student Rights, and subject to the conditions stated therein, students have the right to consult any written submission for which they have received a mark and the right to discuss this submission with the examiner. If, after discussion with the instructor, a student decides to request a formal reread of a final exam, the student must apply in writing, complete the Reread form and submit it to the Faculty of Engineering, Student Affairs Office in the Engineering Student Centre.

The following conditions apply:

- requests for rereads in more than one course per term will not be accepted, unless permission is given by the Faculty of Engineering;
- grades may be either raised or lowered as the result of a reread;
- rereads in courses not in the Faculty of Engineering are subject to the deadlines, rules and regulations of the relevant faculty;
- any request to have term work re-evaluated must be made directly to the instructor concerned.

The deadlines to make an application for a formal reread of a final exam are:

the last working day of March for Fall courses,

the last working day of July for Winter courses, and
the last working day of November for Summer courses.

A \$35 fee for each reread will be assessed directly to the student's McGill account if the result remains the same or is lowered. If the grade is increased, no charge is made.

For further information, students may consult the Faculty of Engineering, Student Affairs Office in the Engineering Student Centre.

8.3.5.9 Examination Regulations

For information regarding the Faculty of Engineering examination regulations and procedures, please refer to the Engineering Website at www.mcgill.ca/engineering/student/sao/policies/examinations/examination.

8.3.5.10 Supplemental Examinations

Courses administered by the Faculty of Engineering do not have supplemental examinations; however, Engineering students may be eligible to write a supplemental examination in courses administered by the Faculties of Arts & Science (some Science, Humanities and Social Sciences courses). All requests to write a supplemental exam must be submitted online through Minerva by March 1st for Fall term courses and July 15th for Winter term courses. The supplemental examination period for Fall courses is during the month of May, and for Winter and span courses during the month of August.

- Students are required to verify on Minerva the status of their supplemental exam application at any given time and for any additional information required or provided by the Student Affairs Office in the Engineering Student Centre.
- Students will receive a confirmation e-mail once a supplemental exam application has been approved.

Eligible courses for Engineering students:

- CHEM 110, CHEM 120, CHEM 212, CHEM 234, COMP 202, MATH 133, MATH 140, MATH 141, MATH 150, MATH 152, MATH 247, MATH 248, MATH 317, PHYS 131, PHYS 142, some Science courses administered by the Faculty of Science in addition to Humanities and Social Sciences courses administered by the Faculty of Arts.

Rules and regulations concerning supplemental exams for the Faculty of Engineering are as follows:

- Students must be in satisfactory or probationary standing, those with an unsatisfactory standing are not permitted to write supplementals;
- students are permitted to write a supplemental for courses in which they've received a mark of D, F, J or U;
- students must write the supplemental exam during the next supplemental examination period;
- only one supplemental examination is allowed in a course;
- the supplemental result may or may not include the same proportion of class work as did the original grade. The instructor will announce the arrangements to be used for the course by the end of the change course period;
- in courses in which both a supplemental examination and additional work are available, the student may choose the additional work or the examination or both; where both are written, only one supplemental mark will be submitted, reflecting marks for both the supplemental examination and the additional work;
- the format of the supplemental examination (e.g., multiple-choice or essay questions) will not necessarily be the same as the format of the final examination, so students should consult the instructor about the format of the supplemental;
- **the supplemental result will not erase the grade originally obtained; both the original mark and the supplemental result will be calculated in the CGPA;**
- additional credit will not be given for a supplemental exam where the original grade for the course was a D and the student already received credit for the course;

- there are no supplemental examinations for Summer courses;
- no supplemental examinations are available for students who fail to achieve a satisfactory grade in a course with a deferred examination;
- a \$35.00 non-refundable fee for each supplemental exam application is assessed at the time of application.

The supplemental examination period for Fall courses is during the months of April and May, and for Winter courses and courses spanning Fall/Winter during the last week of August. It is the student's responsibility to confirm the date and time of the supplemental exam. Supplemental exam applications are available from the Faculty of Engineering, Student Affairs Office in the Engineering Student Centre.

The deadline for submission of applications is March 1st for Fall courses and July 15th for Winter courses and courses spanning Fall/Winter terms.

There is a \$35 non-refundable fee for each supplemental exam, payable at the time of the application and charged directly to the students McGill account.

Students should consult the Faculty of Engineering, Student Affairs Office for more information.

8.3.5.11 Deferred Examinations

Students who have been unable to write one or more exams for serious reasons such as illness or family affliction may receive permission to defer their final exam. All requests to defer a final exam must be submitted online through Minerva, no later than one week after the missed exam via the deferred exam application.

- A detailed letter in support of the application must be entered in the "reason(s) for deferral" section of the application.
- Medical certificate(s) covering the date of the missed exam and the nature of the illness must be submitted to the Student Affairs Office in the Engineering Student Centre, Room 22, Frank Dawson Adams, by January 15 for Fall term courses and May 15 for Winter term courses.
- Students are required to frequently verify the status of their deferred application on Minerva to determine whether any additional information is required by the Student Affairs Office.
- Students will receive a confirmation e-mail once a deferred exam application decision has been made.

Rules and regulations concerning deferred exams for the Faculty of Engineering are as follows:

- For each deferred exam that is approved, an "L" (deferred) will appear on the student's record beside the course, but will not appear on official transcripts after the final grade has been determined. In calculating the mark in the course, the mark the student receives in the deferred exam will take the place of the mark the student would have received in the original final exam. An "L" grade will be replaced by a "J", should the students miss the NEXT deferred or regular examination in the course, whichever occurs first.
- The format of the deferred exam will not necessarily be identical to the final exam of the same course. Students are responsible for contacting the professor of the course should they require information about the deferred exam format.
- Students are not permitted to redo any portion of the coursework such as assignments, projects, labs, midterms, quizzes, etc (i.e. all grades previously obtained will be calculated with the final grade of the deferred exam received in order to determine the final course grade).
- Once a deferred exam has been granted, the maximum number of courses for which a student may register will be limited to no more than 18 credits or 6 examinations per term, whichever is greater. This will provide a student with sufficient time during the semester and the exam period to properly prepare for deferred examinations.

Deferred exams for courses administered by the following faculties are offered during the supplemental/deferred examination period:

- Faculty of Arts (Engineering: Humanities and Social Science courses)
- Faculty of Agricultural and Environmental Sciences
- Faculty of Education
- Faculty of Religious Studies (Engineering: Humanities and Social Science courses)
- Faculty of Science (Engineering: Year 0 and faculty specific science courses)
- School of Physical and Occupational Therapy
- School of Social Work

Deferred exams for courses administered by the following faculties are offered during the final examination the next time the course is given:

- Faculty of Engineering
- Desautels Faculty of Management

Deferred exams for courses administered by Continuing Education are offered during the next term's final examination period and can be found at www.mcgill.ca/conted-cms/exams.

8.4 Degrees and Programs Offered

8.4.1 CO-OP Programs

Materials Engineering, [page 246](#)

Mining Engineering, [page 247](#)

8.4.2 Major Programs

Architecture (B.Sc.), [page 234](#)

Chemical Engineering (B.Eng.), [page 235](#)

Civil Engineering (B.Eng.), [page 237](#)

Computer Engineering (B.Eng.), [page 241](#)

Electrical Engineering (B.Eng.), [page 240](#)

Mechanical Engineering (B.Eng.), [page 244](#)

Software Engineering (B.S.E.), [page 242](#)

8.4.3 Honours Programs

Electrical Engineering (B.Eng.), [page 239](#)

Mechanical Engineering (B.Eng.), [page 244](#)

8.4.4 Minors

Arts, [page 249](#)

Biomedical Engineering, [page 249](#)

Biotechnology, [page 250](#)

Chemistry/Chemical Engineering, [page 251](#)

Computer Science, [page 251](#)

8.5 Academic Programs

The curricula described in the following pages, and the courses listed under "[Course Information, Regulations and Descriptions \(Appendix\)](#)", have been approved for the 2008-09 session, but the Faculty reserves the right to introduce changes as may be deemed necessary or desirable.

8.5.1 School of Architecture

Macdonald-Harrington Building, Room 201
815 Sherbrooke Street West
Montreal, QC H3A 2K6

Telephone: (514) 398-6700

Fax: (514) 398-7372

Website: www.mcgill.ca/architecture

Director — Michael Jemtrud

Emeritus Professors

Derek Drummond; B.Arch.(McG.), F.R.A.I.C., O.A.A.(William C. Macdonald Emeritus Professor of Architecture)

Radoslav Zuk; B.Arch.(McG.), M.Arch.(M.I.T.), D.Sc.

(Ukr.Acad.Art), F.R.A.I.C., F.R.S.A., F.A.R.C., O.A.Q., O.A.A.

Professors

Anmarie Adams; B.A.(McG.), M.Arch., Ph.D.(Calif., Berk.),

M.R.A.I.C. (William C. Macdonald Professor of Architecture)

Vikram Bhatt; N.Dip.Arch.(Ahmedabad), M.Arch.(McG.),

M.R.A.I.C.

Avi Friedman; B.Arch.(Technion), M.Arch.(McG.), Ph.D.(Montr.),

O.A.Q., I.A.A.

Alberto Pérez-Gómez; Dipl.Eng.(Nat.Pol.Inst.Mexico), M.A.,

Ph.D.(Essex) (Saidye Rosner Bronfman Professor of Architectural History)

Adrian Sheppard; B.Arch.(McG.), M.Arch.(Yale), F.R.A.I.C.,

O.A.Q., A.A.P.P.Q.

Associate Professors

Martin Bressani; B.Sc.(Arch.), B.Arch.(McG.), M.Sc.Arch.,

Diplomes des études approfondies, Docteur de l'Université de

Paris-Sorbonne(Paris IV)

Ricardo Castro; B.Arch.(Los Andes), M.Arch., M.A.(Art History)

(Ore.), M.R.A.I.C.

David Covo; B.Sc.(Arch.), B.Arch.(McG.), F.R.A.I.C., O.A.Q.

Michael Jemtrud; B.Sc., B.A., B.Arch.(Penn. State),

M.Arch.(McG.)

Robert Mellin; B.Arch., M.Sc.(Arch.)(Penn.State), M.Arch.(McG.),

M.Sc., Ph.D.(Penn.), M.R.A.I.C., N.A.A.

Pieter Sijpkens; B.Sc.(Arch.), B.Arch.(McG.)

Assistant Professor

Nik Luka; B.A.A.(Ryerson), M.Arch.(Laval), Ph.D.(Tor.), M.C.I.P.

Adjunct Professors

Manon Asselin, Jennifer Carter, Cameron Charlebois, Robert Claiborne, Howard Davies, François Émond, Julia Gersovitz, Richard Klopp, Phyllis Lambert, Seymour Levine, Joanna Nash, Harry Parnass, Mark Poddubiuk, Conor Sampson, Samson Yip, Jozef Zorko

Faculty Lecturer

Visiting Critics and Lecturers

Each year visitors are involved in the teaching of certain courses as critics and lecturers. These visitors change from year to year. In 2007, they were:

Gavin Affleck, Bruce Allan, Joseph Baker, Vedanta Balbahadur, Ken Bedford, Fernand Beliveau, Michele Bertol, Tom Bessai, Denis Bilodeau, Jacques Bilodeau, Adrian Blackwell, Pierre-Felix Breton, Mathieu Casavant, Jonathan Cha, Caroline Christie, Jean-Pierre Chupin, Henri Cleinge, Benoit Cloutier, Randy Cohen,

Christina Contandriopoulos, Anne Cormier, Aiki Economides, Miguel Escobar, Patrick Evans, Maxime Gagné, Eric Gauthier, Heidi Gilpin, Nathan Godlovitch, Cynthia Hammond, Amahl Hazelton, Hal Ingberg, Andrew King, Luce Lafontaine, Kelly Langgard, Louis-Charles Lasnier, Martin Leblanc, Peter Lynch, Sybil McKenna, Erik Marosi, Stéphan Martineau, Luci Mastropasqua, Sergio Morales, Juliette Patterson, Carlos Rueda Plata, Mark Pimlott, Louis Pretty, Stéphane Rasselet, Inderbir Riar, John Shnier, Steven Somogyi, Sudhir Suri, Therese Tierney, Vladimir Topouzanov, Sophia Vincent, Asher Waldman, Andrea White.

ARCHITECTURAL CERTIFICATION IN CANADA

In Canada, all provincial associations recommend a degree from an accredited professional degree program as a prerequisite for licensure. The Canadian Architectural Certification Board (CACB), which is the sole agency authorized to accredit Canadian professional degree programs in architecture, recognizes two types of accredited degrees: the Bachelor of Architecture and the Master of Architecture. A program may be granted a five-year, three-year, or two-year term of accreditation, depending on its degree of conformance, with established educational standards.

Master's degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree, which, when earned sequentially, comprise an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

Since all provincial associations in Canada recommend any applicant for licensure to have graduated from a CACB-accredited program, obtaining such a degree is an essential aspect of preparing for the professional practice of architecture. While graduation from a CACB-accredited program does not assure registration, the accrediting process is intended to verify that each accredited program substantially meets those standards that, as a whole, comprise an appropriate education for an architect.

PROGRAMS OF STUDY

McGill's professional program in architecture is structured as a four-and-a-half-year, or nine-term, course of study divided into two parts.

The first part, for students entering with the Diploma of Collegial Studies in Pure and Applied Science or the equivalent, is a six-term design program leading to a non-professional degree, Bachelor of Science (Architecture). [Most students from outside Quebec are admitted to an eight-term B.Sc.(Arch.) program and enter a first year which includes courses outlined in [section 8.3.1.3 "Architecture – Basic Science Requirements for Students Entering from Outside Quebec"](#).

The second part, for students with the McGill B.Sc.(Arch.) degree, is a one-and-a-half-year, or three-term, program leading to the Master of Architecture (Professional) degree. The M.Arch. (Professional) degree is accredited by the Canadian Architectural Certification Board (CACB), and is recognized as accredited by the National Council of Architectural Registration Boards (NCARB) in the USA.

Students in the B.Sc.(Arch.) program who intend to proceed to the professional degree must satisfy certain minimum requirements including:

1. complete the B.Sc.(Arch.) degree, including the series of required and complementary courses stipulated for professional studies, with a minimum CGPA of 3.00;
2. submit a portfolio of work executed in the sequence of six design studios, as well as samples of professional and personal work;
3. complete the minimum period of relevant work experience according to the current Work Experience Guidelines.

Further information on the M.Arch. (Professional) program is available at www.mcgill.ca/architecture.

Student Exchanges

A limited number of qualified students may participate in an exchange with schools of architecture at other universities which have agreements with the McGill School of Architecture, for a

maximum of one term in the second year of the B.Sc.(Arch.) program. These include: Università Iuav di Venezia, Venice, Italy; Fakultät für Raumplanung und Architektur, Technische Universität Wien, Vienna, Austria; Institut Supérieur d'Architecture, Saint-Luc Bruxelles, Brussels, Belgium; École Nationale Supérieure d'architecture de Grenoble, Grenoble, France; École Nationale Supérieure d'architecture de Clermont-Ferrand, Clermont-Ferrand, France; Facoltà di Architettura Civile Politecnico di Milano (Boviso); Universidad Nacional Autónoma de México, Facultad de Arquitectura; Tecnológico de Monterrey (Campus Monterrey), Departamento de Arquitectura; Ball State University, Department of Landscape Architecture; University of Texas at Austin, IC² Institute; The Royal Danish Academy of Fine Arts, School of Architecture.

ANCILLARY ACADEMIC FACILITIES

Laboratories and Workshops

Architectural Workshops – David Speller, Technician
 Communications Laboratory, including Photo Lab – Carrie Henzie, Media Technician
 Computers in Architecture Laboratories – Professor Robert Mellin
 Building Science Resource Centre – Dr. Avi Friedman

Library

Blackader-Lauterman Library of Architecture and Art, located in the Redpath Library – Marilyn Berger

Collections

Visual Resources Collection, including slides, film, video and other materials – Dr. Annmarie Adams
 The John Bland Canadian Architecture Collection, housed in the Blackader-Lauterman Library – Ann Marie Holland, Preservations Librarian.
 Orson Wheeler Architectural Model Collection – Professor Pieter Sijpkens
 Materials Resource Centre – Dr. Avi Friedman

CURRICULUM FOR THE B.Sc.(Arch.) DEGREE

Current information on program structure and courses is posted on the School of Architecture Website at www.mcgill.ca/architecture.

REQUIRED COURSES

Non-Departmental Subjects

	COURSE CREDIT	
CIVE 284 Structural Engineering Basics	4	
CIVE 385* Structural Steel and Timber Design	3	
CIVE 388* Foundation and Concrete Design	3	
CIVE 492* Structures	2	
FACC 220 Law for Architects and Engineers	3	15

* Candidates intending not to proceed to the M.Arch. (Professional) degree may substitute other courses of equal total weight for any of these.

The central purpose of engineering is to pursue solutions to technological problems in order to satisfy the needs and desires of society. Chemical engineers are trained to solve the kinds of problems that are typically found in the “chemical process industries”, which include the chemical manufacturing, plastics, water treatment, pulp and paper, petroleum refining, ceramics, and paint industries as well as substantial portions of the food processing, textile, nuclear energy, biochemical and pharmaceutical industries. The technological problems and opportunities in these industries are often closely linked to social, economic and environmental concerns. For this reason, practitioners of chemical engineering often deal with these questions when they are working in management, pollution abatement, product development, marketing and equipment design.

The discipline of chemical engineering is distinctive in being based equally on physics, mathematics and chemistry. Application of these three fundamental sciences is basic to a quantitative understanding of the process industries. Those with an interest in the fourth major science, biology, will find several courses in the chemical engineering curriculum which integrate aspects of the biological sciences relevant to process industries such as food processing, fermentation and water pollution control. Courses on the technical operations and economics of the process industries are added to this foundation. The core curriculum concludes with process design courses taught by practising design engineers. Problem-solving, experimenting, planning and communication skills are emphasized in courses throughout the core curriculum.

By means of complementary courses, students can also obtain further depth in technical areas and breadth in non-technical subjects. Some students elect to complete a minor in biotechnology, management, materials engineering, computer science, environmental engineering or chemistry.

The solution to many environmental problems requires an understanding of technological principles. A chemical engineering degree provides an ideal background. In addition to relevant material learned in the core program, a selection of environmental complementary courses and minor programs is available. The involvement of many chemical engineering staff members in environmental research provides the opportunity for undergraduate students to carry out research projects in this area.

The curriculum also provides the preparation necessary to undertake postgraduate studies leading to the M.Eng. or Ph.D. degrees in chemical engineering. Students completing this curriculum acquire a broad, balanced education in the natural

sciences with the accent on application. Thus, for those who do not continue in chemical engineering, it provides an exceptionally balanced education in applied science. For others, it will form the basis of an educational program that may continue with a variety of studies such as business administration, medicine or law. Versatility is, then, one of the most valuable characteristics of the graduate of the chemical engineering program.

ACADEMIC PROGRAM

For those who have completed the Quebec CEGEP-level program in Pure and Applied Sciences, the Chemical Engineering Program comprises 111 credits as outlined below. Certain students who take advantage of summer session courses can complete the departmental programs in three calendar years. Students who have passed Chemistry 202 or 302 at the CEGEP level may be exempt from course CHEM 212 or CHEM 234, respectively (Introductory Organic Chemistry 1 and Selected Topics in Organic Chemistry), the corresponding courses are transferred from required courses to electives.

For appropriately qualified high school graduates from outside Quebec, an extended credit program is available, as described in [section 8.3.1.2 “Basic Science Requirements for Students Entering from Outside Quebec”](#).

In some cases students from university science disciplines have sufficient credits to complete the requirements for the B.Eng. (Chemical) program in two years. Those concerned should discuss this with their adviser.

Students must obtain a C grade or better in all core courses. For the Department of Chemical Engineering, core courses include all required courses (departmental and non-departmental) as well as complementary courses (departmental).

CURRICULUM FOR THE B.ENG. DEGREE IN CHEMICAL ENGINEERING

REQUIRED COURSES

COURSE CREDIT

Non-Departmental Courses

CHEM 212	Introductory Organic Chemistry 1	4	
CHEM 234	Topics in Organic Chemistry	3	
COMP 208	Computers in Engineering	3	
MATH 262	Intermediate Calculus	3	
MATH 263	Ordinary Differential Equations and Linear Algebra	3	
MATH 264	Advanced Calculus ENG	3	
MIME 221	Engineering Professional Practice	2	
MIME 310	Engineering Economy	3	24

Chemical Engineering Courses

CHEE 200	Introduction to Chemical Engineering	4	
CHEE 204	Chemical Manufacturing Processes	3	
CHEE 220	Chemical Engineering Thermodynamics	3	
CHEE 291	Instrumental Measurement Laboratory	4	
CHEE 310	Physical Chemistry for Engineers	3	
CHEE 314	Fluid Mechanics	4	
CHEE 315	Heat and Mass Transfer	4	
CHEE 340	Process Modelling	3	
CHEE 351	Separation Processes	3	
CHEE 360	Technical Paper 1	1	
CHEE 370	Elements of Biotechnology	3	
CHEE 380	Materials Science	3	
CHEE 392	Project Laboratory 1	4	
CHEE 393	Project Laboratory 2	5	
CHEE 423	Chemical Reaction Engineering	4	
CHEE 453	Process Design	4	
CHEE 455	Process Control	4	
CHEE 456	Design Project 1	1	
CHEE 457	Design Project 2	5	
CHEE 462	Technical Paper 2	1	
CHEE 474	Biochemical Engineering	3	
CHEE 484	Materials Engineering	3	72

COMPLEMENTARY COURSES

Courses to be selected from those approved by the Department (see list of technical complementaries below) **9**

Two courses (6 credits), selected from an approved list: one course on the impact of technology on society and one in the humanities and social sciences, administrative studies and law. See [section 8.3.4 "Complementary Studies"](#) for further information. **6**

TOTAL 111

For students starting their B.Eng. studies in September who have completed the Quebec Diploma of Collegial Studies, a program for the first two terms of study is given below:

Term 1		Credits
CHEE 200	Introduction to Chemical Engineering	4
CHEE 291	Instrumental Measurement Laboratory	4
CHEM 212	Introductory Organic Chemistry 1	4
MATH 262	Intermediate Calculus	3
MIME 221	Engineering Professional Practice	2
Term 2		
CHEE 204	Chemical Manufacturing Processes	3
CHEE 220	Chemical Engineering Thermodynamics	3
CHEM 234	Topics in Organic Chemistry	3
COMP 208	Computers in Engineering	3
MATH 263	Ordinary Differential Equations and Linear Algebra	3
		15

Students entering their second year of study or who are starting in January must plan their program of studies in consultation with their Departmental adviser.

Additional information can be found on the Faculty Website at www.mcgill.ca/engineering, as well as in [section 8.3.1.2 "Basic Science Requirements for Students Entering from Outside Quebec"](#).

TECHNICAL COMPLEMENTARIES

A minimum of 9 credits of complementary courses must be chosen from a list of technical complementaries approved by the Department. The purpose of this requirement is to provide students with an area of specialization within the broad field of chemical engineering. Alternatively, some students use the technical complementaries to increase the breadth of their chemical engineering training.

At least two (2) technical complementary courses are to be selected from those offered by the Department (list below). Permission is given to take the third complementary course from other suitable undergraduate courses in the Faculty of Engineering.

The Technical Complementary courses currently approved by the Department are as follows:

BIOT 505	Selected Topics in Biotechnology (Biotechnology Minor students only)
CHEE 363	Projects Chemical Engineering 1
CHEE 438	Engineering Principles in Pulp and Paper Processes
CHEE 452	Particulate Systems
CHEE 458	Computer Applications
CHEE 464	Projects in Chemical Engineering 2
CHEE 487	Chemical Processing: Electronics Industry
CHEE 494	Research Project and Seminar 1
or CHEE 495	Research Project and Seminar 2
or CHEE 496	Environmental Research Project
CHEE 541	Electrochemical Engineering
CHEE 543	Plasma Engineering
CHEE 563	Biofluids and Cardiovascular Mechanics
or MECH 563	Biofluids and Cardiovascular Mechanics
CHEE 571	Small Computer Applications: Chemical Engineering
CHEE 582	Polymer Science & Engineering
CHEE 584	Polymer Processing
CHEE 591	Environmental Bioremediation

CHEE 592	Industrial Air Pollution Control
or MECH 534	Air Pollution Engineering
CHEE 593	Industrial Water Pollution Control
or CIVE 430	Water Treatment and Pollution Control
CHEE 594	Biocolloids in Environmental Systems
CHEE 595	Energy Recovery, Use, & Impact

Courses CHEE 582 and CHEE 584 comprise a Polymeric Materials sequence. Additional courses in this area are available in the Chemistry Department (e.g., CHEM 455) or at the graduate level (CHEE 681 to CHEE 684). The Department has considerable expertise in the polymer area.

Courses CHEE 370 and CHEE 474 make up a sequence in Biochemical Engineering-Biotechnology. Students interested in this area may take additional courses, particularly those offered by the Department of Food Science and Agricultural Chemistry, Faculty of Agricultural and Environmental Sciences, and courses in biochemistry and microbiology. The food, beverage and pharmaceutical industries are large industries in the Montreal area and these courses are relevant to these industries and to the new high-technology applications of biotechnology.

The third area in which there is a sequence of courses is Pollution Control. The Department offers three courses in this area: CHEE 591 CHEE 592, and CHEE 593. As some water pollution control problems are solved by microbial processes, course CHEE 474 is also relevant to the pollution control area. Likewise, as the solution to pollution problems frequently involves removal of particulate matter from gaseous or liquid streams, course CHEE 452 is also relevant. Additional courses in this area are listed under [section 8.6.8 "Environmental Engineering Minor"](#).

A Minor in Biotechnology is also offered in the Faculties of Engineering and of Science with emphasis on Molecular Biology and Chemical Engineering Processes. A full description of the program appears in [section 8.6.3 "Biotechnology Minor"](#).

Note that many of the technical complementaries are offered only in alternate years. Students should, therefore, plan their complementaries as far ahead as possible. With the approval of the instructor and academic adviser, students may take graduate (CHEE 500-level) courses as technical complementaries.

ELECTIVE COURSES

Students who have obtained exemptions for courses, i.e., for CEGEP courses equivalent to CHEM 212 or CHEM 234, or who take more than the minimum requirements for the degree, may choose university-level courses in any field. Approval of an elective course requires only that no timetable conflicts are created and that it not be a repetition of material already covered in the curriculum or already mastered by the student.

CURRICULUM COMMITTEE

The Curriculum Committee is composed of three students, elected by their classes, and two staff members. This Committee provides a forum for all matters involving undergraduate student/staff interactions. While the primary concern is with matters of curriculum and courses (their content, evaluation, scheduling, etc.), the Committee has also taken up a number of other matters in recent years, e.g., working space, facilities (equipment and libraries), etc.

CANADIAN SOCIETY FOR CHEMICAL ENGINEERING

The Chemical Engineering Student Society has for many years been affiliated both with the CSChE (Canadian Society for Chemical Engineering) and with the AIChE (American Institute of Chemical Engineers). For a nominal fee students receive *Canadian Chemical News*, a monthly publication, and the AIChE Student Members Bulletin as well as other privileges of student membership in the two societies. The student chapter also organizes a series of local social, educational and sporting events. For example, recent events have included student-professor banquets and Christmas parties, dances, speakers, broomball games and joint meetings with the Montreal Section of the CSChE. The latter gives students a chance to mix with practising chemical engineers.

Villeneuve, Jan Vrana

Civil engineers have traditionally applied scientific and engineering knowledge to the task of providing the built environment, from its conception and planning to its design, construction, maintenance and rehabilitation. Examples include buildings, bridges, roads, railways, dams, and facilities for water supply and treatment, and waste disposal. With the aging and deterioration of an already vast infrastructure, its maintenance and rehabilitation has become an increasingly important role of the civil engineering profession. Also, with worldwide concern about the detrimental impact of human activities on the environment, civil engineers are now in the

forefront of developing and providing the means for both prevention and remediation of many aspects of environmental pollution.

The program in Civil Engineering is comprehensive in providing the fundamentals in mechanics and engineering associated with the diverse fields of the profession, in offering choices of specialization, and in fully reflecting the advances in science, mathematics, engineering and computing that have transformed all fields of engineering in recent years. The resulting knowledge and training enables graduates to not only enter the profession thoroughly well prepared, but also to adapt to further change.

The required courses ensure a sound scientific and analytical basis for professional studies through courses in solid mechanics, fluid mechanics, soil mechanics, environmental engineering, water resources management, structural analysis, systems analysis and mathematics. Fundamental concepts are applied to various fields of practice in both required and complementary courses.

By a suitable choice of complementary courses, students can attain advanced levels of technical knowledge in the specialized areas mentioned above. Alternatively, students may choose to develop their interests in a more general way by combining complementary courses within the Department with several from other departments or faculties.

Students who wish to extend their knowledge in certain areas beyond the range that the program complementary courses allow can also take a Minor program. Minors are available in fields such as Arts, Economics, Management, Environmental Engineering, and Construction Engineering and Management. These require additional credits to be taken from a specified list of topics relating to the chosen field. Further information on the various Minor programs may be found in [section 8.6 "Minor Programs"](#). Details of how the Minors can be accommodated within the Civil Engineering program will be made available at the time of preregistration counselling.

ACADEMIC PROGRAMS

Considerable freedom exists for students to influence the nature of the program of study which they follow in the Department of Civil Engineering and Applied Mechanics. A variety of advanced complementary courses is offered in five main groupings: Environmental Engineering, Geotechnical and Geoenvironmental Engineering, Water Resources and Hydraulic Engineering, Structural Engineering, and Transportation Engineering.

Guidance on the sequence in which required core courses should be taken is provided for students in the form of a sample program which covers the entire period of study. The technical complementary courses selected, usually in the last two terms of the program, will depend upon the student's interests. All students must meet with their adviser each term to confirm the courses for which they are registered.

Courses taken in Term 3 or later will depend on a student's interests and ability. Information and advice concerning different possibilities are made available in the Department prior to registration. All programs require the approval of a staff adviser. Programs for students transferring into the Department with advanced standing will be dependent upon the academic credit previously achieved, and such a program will be established only after consultation with a staff adviser.

CIVE 324	Construction Project Management	3	
CIVE 327	Fluid Mechanics and Hydraulics	4	
CIVE 418	Design Project	3	
CIVE 432	Technical Paper	1	60

COMPLEMENTARY COURSES

A minimum of six credits to be selected from list (a) and the remaining nine credits to be selected from lists (a) or (b) or from other suitable undergraduate or 500-level courses. **15**

(a) Design Technical Complementaries

CIVE 416	(3) Geotechnical Engineering	
CIVE 421	(3) Municipal Systems	
CIVE 428	(3) Water Resources and Hydraulic Engineering	
CIVE 430	(3) Water Treatment and Pollution Control	
CIVE 462	(3) Design of Steel Structures	
CIVE 463	(3) Design of Concrete Structures	

(b) General Technical Complementaries

CIVE 433	(3) Urban Planning	
CIVE 440	(3) Traffic Engineering	
CIVE 446	(3) Construction Engineering	
CIVE 451	(3) Geoenvironmental Engineering	
CIVE 460	(3) Matrix Structural Analysis	
CIVE 470	(3) Undergraduate Research Project	
CIVE 512	(3) Advanced Civil Engineering Materials	
CIVE 526	(3) Solid Waste Management	
CIVE 527	(3) Renovation and Preservation: Infrastructure	
CIVE 540	(3) Urban Transportation Planning	
CIVE 541	(3) Rail Engineering	
CIVE 550	(3) Water Resources Management	
CIVE 551	(3) Environmental Transport Processes	
CIVE 553	(3) Stream Pollution and Control	
CIVE 555	(3) Environmental Data Analysis	
CIVE 570	(3) Waves and Coastal Engineering	
CIVE 572	(3) Computational Hydraulics	
CIVE 573	(3) Hydraulic Structures	
CIVE 574	(3) Fluid Mechanics of Water Pollution	
CIVE 576	(3) Hydrodynamics	
CIVE 577	(3) River Engineering	
CIVE 579	(3) Water Power Engineering	
CIVE 585	(3) Groundwater Hydrology	
CIVE 586	(3) Earthwork Engineering	
CIVE 587	(3) Pavement Design	

Two courses (6 credits), selected from an approved list: one course on the impact of technology on society and one in the humanities and social sciences, administrative studies and law. See section 8.3.4 "Complementary Studies" for further information.

Chair — David V. Plant
Associate Chair, Operations — Benoit Boulet
Associate Chair, Undergraduate Studies — Jonathan P. Webb
Associate Chair, Graduate Studies — Fabrice Labeau

Emeritus Professors

Eric L. Adler; B.Sc.(Lond.), M.A.Sc.(Tor.), Ph.D.(McG.), F.I.E.E.E., Eng.
Pierre R. Bélanger; B.Eng.(McG.), S.M., Ph.D.(MIT), F.I.E.E.E., Eng.
Maier L. Blostein; B.Eng., M.Eng.(McG.), Ph.D.(Ill.), F.I.E.E.E., Eng.
Gerry W. Farnell; B.A.Sc.(Tor.), S.M.(MIT), Ph.D.(McG.), F.I.E.E.E., Eng.
Tomas J.F. Pavlasek; B.Eng., M.Eng., Ph.D.(McG.), Eng.
Nicholas C. Rumin; B.Eng., M.Sc., Ph.D.(McG.), Eng.

Post-Retirement

Clifford H. Champness; M.Sc.(Lond.), Ph.D.(McG.)

Professors

Peter E. Caines; B.A.(Oxf.), D.I.C., Ph.D.(Lond.), F.R.S.C., F.I.E.E.E., F.C.I.A.R. (*James McGill Professor*) and (*Macdonald Professor*)
James Clark; B.Sc., Ph.D.(Br. Col.), Associate Dean, Academic
Frank Ferrie; B.Eng., Ph.D.(McG.)
Francisco D. Galiana; B.Eng.(McG.), S.M., Ph.D.(MIT), F.I.E.E.E., Eng.
Vincent Hayward; Dip.d'Ing.(ENSM, Nantes), Doc.Ing.(Orsay), Eng.
Geza Joos; B.Sc.(C'dia), M.Eng., Ph.D.(McG.) (*CRG Chair*)
Peter Kabal; B.A.Sc., M.A.Sc., Ph.D.(Tor.)
Tho Le-Ngoc; M.Eng.(McG.), Ph.D.(Ott.), F.I.E.E.E.
Harry Leib; B.Sc.(Technion), Ph.D.(Tor.)
Martin D. Levine; B.Eng., M.Eng.(McG.), Ph.D.(Lond.), F.C.I.A.R., F.I.E.E.E., Eng.
David A. Lowther; B.Sc.(Lond.), Ph.D.(C.N.A.A.), F.C.A.E., Eng. (*James McGill Professor*)
Lorne Mason; B.Eng., Ph.D.(Sask.)
Boon-Teck Ooi; B.E.(Adel.), S.M.(MIT), Ph.D.(McG.), Eng.
David V. Plant; M.S., Ph.D.(Brown), F.I.E.E.E., F.O.S.A. (*James McGill Professor*)
Gordon Roberts; B.A.Sc.(Wat.), M.A.Sc., Ph.D.(Tor.), Eng., F.I.E.E.E. (*James McGill Professor*)
Jonathan Webb; B.A., Ph.D.(Cant.)

Associate Professors

Jan Bajcsy; B.Sc.(Harv.), M.Eng., Ph.D.(Prin.)
Benoit Boulet; B.Sc.(Laval), M.Eng.(McG.), Ph.D.(Tor.) (*William Dawson Scholar*)
Benoit Champagne; B.Eng., M.Eng.(Montr.), Ph.D.(Tor.)
Lawrence Chen; B.Eng.(McG.), M.A.Sc., Ph.D.(Tor.)
Jeremy R. Cooperstock; A.Sc.(Br. Col.), M.Sc., Ph.D.(Tor.)
Mourad El-Gamal; B.Sc.(Cairo), M.Sc.(Nashville), Ph.D.(McG.) (*William Dawson Scholar*)
Dennis Giannacopoulos; M.Eng., Ph.D.(McG.)
Andrew Kirk; B.Sc.(Brist.), Ph.D.(Lond.) Associate Dean, Research and Graduate Education (*William Dawson Scholar*)
Fabrice Labeau; M.S., Ph.D.(Louvain)
Steve McFee; B.Eng., Ph.D.(McG.)
Hannah Michalska; B.Sc., M.Sc.(Warsaw), Ph.D.(Lond.)
Milica Popovich; B.Sc.(Colo.), M.Sc., Ph.D.(N'western)
Ioannis Psaromiligkos; B.Sc.(Patras), M.Sc., Ph.D.(Buffalo)

Richard Rose; B.Sc.,M.S.(Ill.), Ph.D.(GIT)
 Ishiang Shih; M.Eng., Ph.D.(McG.)
 Zeljko Zilic; B.Eng.(Zagreb), M.S.c, Ph.D.(Tor.)

Assistant Professors

Ramesh Abhari; M.A.Sc.(Tehran), Ph.D.(Tor.)
 Tal Arbel; M.Eng., Ph.D.(McG.)
 Vamsy Chodavarapu; B.Eng.(India), M.S.(NY), Ph.D.(NY)
 Mark Coates; B.Eng.(Adel.), Ph.D.(Camb.)
 Warren Gross; B.A.Sc.(Wat.), M.A.Sc., Ph.D.(Tor.)
 Anas Hamoui; M.Eng.(McG.), Ph.D.(Tor.)
 Roni Khazaka; M.Eng., Ph.D.(Car.)
 Shie Mannor; B.A., B.Sc., Ph.D.(Haifa)
 Zetian Mi, B.A.Sc.(China), M.Sc.(Iowa), Ph.D.(Mich.)
 Sam Musallam; B.Sc., M.Sc., Ph.D.(Tor.)
 Michael Rabbat; B.S.(Ill.), M.S.(Texas), Ph.D (in progress)(Wis.)
 Martin Rochette; B.A., M.Eng, Ph.D.(Laval)
 Thomas Szkopek; B.A.Sc.,M.A.Sc.(Tor.) Ph.D.(UCLA)

Lecturer

Kenneth L. Fraser; B.Eng., M.Eng.(McG.)

Associate Members

D. L. Collins; PhD.(McG.)
 Gregory Dudek; B.Sc.(Qu.), M.Sc., Ph.D.(Tor.)
 Alan C. Evans; M.Sc.(Surrey), Ph.D.(Leeds)
 William R. Funnell; M.Eng., Ph.D.(McG.)
 Henrietta L. Galiana; M.Eng., Ph.D.(McG.)
 Jean Gotman; M.E.(Dart.), Ph.D.(McG.)
 Robert E. Kearney; M.Eng., Ph.D.(McG.)
 Frank Verhaegen; Ph.D.(Ghent)

Adjunct Professors

Ray Bartnikas, Eric Boisvert, Charalambos Charalambous, Robert DiRaddo, Danny Grant, Cedric Guss, Cheng K. Jen, Irene Leszkowicz, Miguel Marin, Donald McGillis, Douglas O'Shaughnessy, Farouk Rizk, Anthony Rodolakis, Robert Sabourin.

The Department of Electrical and Computer Engineering offers undergraduate degree programs in Electrical Engineering, Electrical Engineering (Honours), Computer Engineering, and Software Engineering. All programs provide students with a strong background in mathematics, basic sciences, engineering science, engineering design and complementary studies, in conformity with the requirements of the Canadian Engineering Accreditation Board (CEAB).

The program in Electrical Engineering gives students a broad understanding of the key principles that are responsible for the extraordinary advances in the technology of computers, micro-electronics, automation and robotics, telecommunications and power systems. These areas are critical to the development of our industries and, more generally, to our economy. A graduate of this program is exposed to all basic elements of electrical engineering and can function in any of our client industries. This breadth is what distinguishes an engineer from, say, a computer scientist or physicist.

The program in Electrical Engineering (Honours) is designed for students who wish to pursue postgraduate work and look to a career in advanced research and development. The technical complementaries are selected from graduate courses, facilitating the transition to postgraduate studies. Students in this curriculum benefit from smaller classes and have more contact with professorial staff and graduate students. However, the program is quite demanding. Students are expected to register for at least 14 credits per term; they may register for a smaller number only with the permission of the Chair of this Department. Students in the Honours program must maintain a minimum GPA of 3.30. Those who fail to maintain this standard are transferred to the regular program.

The program in Computer Engineering provides students with greater depth and breadth of knowledge in the hardware and software aspects of computers. Students are exposed to both theoretical and practical issues of both hardware and software in well-equipped laboratories. Although the program is designed to meet the growing demands by industry for engineers with a strong background in modern computer technology, it also provides the underlying depth for graduate studies in all fields of Computer Engineering.

The program in Software Engineering offers students the opportunity to focus their studies on the skills needed to design and develop complex software systems. This emerging field of engineering is a major component of the growing Information Technology (IT) sector of the economy, in which the demand for qualified personnel continues to outstrip supply. Graduates of this program will have a solid foundation for careers in the software industry. This program has been recently accredited by the Canadian Engineering Accreditation Board.

In addition to technical complementary courses, students in all three programs take general complementary courses in social sciences, administrative studies and humanities. These courses allow students to develop specific interests in areas such as psychology, economics, management or political science.

Entry into the Honours Program

The Honours program is a limited enrolment program and entry is highly competitive. There is no direct entry to the Honours program in the first year. Students may enter the Honours program in the following ways:

- Students from CEGEP will be admitted, on the basis of their grades, at the start of the third term.
- Students from outside Quebec will be admitted, on the basis of their grades, at the start of the fifth term.

Though not required to do so, students in the Honours program or wishing to enter the Honours program are encouraged to take the following advanced math and physics courses:

MATH 325 Honours Ordinary Differential Equations instead of MATH 263 Equations
 MATH 247 Honours Applied Linear Algebra instead of MATH 271
 MATH 248 Honours Advanced Calculus instead of MATH 264
 MATH 249 Honours Complex Variables instead of MATH 381
 PHYS 251 Honours Classical Mechanics 1 instead of CIVE 281

To remain in the Honours program and to be awarded the Honours degree, a student must have completed at least 14 credits in each term since entering Electrical and Computer Engineering, except for the final two terms of their degree, and maintained a CGPA of at least 3.30 since entering Electrical and Computer Engineering. In either of their final two full terms (i.e., Fall and Winter, or Winter and Fall) students may drop below 14 credits, provided the combined load for the two terms is at least 16 credits. For more information, please contact the Departmental office at (514) 398-3943.

CURRICULUM FOR THE B.ENG. DEGREE IN ELECTRICAL ENGINEERING (HONOURS)

REQUIRED COURSES		COURSE CREDIT
Non-Departmental Courses		
COMP 202	Introduction to Computing 1	3
EDEC 206	Communication in Engineering	3
MATH 262	Intermediate Calculus	3
MATH 247*	Honours Applied Linear Algebra or MATH 271 Linear Algebra and Partial Differential Equations (3)	3
MATH 248*	Honours Advanced Calculus or MATH 264 Advanced Calculus ENG	3
MATH 249	Honours Complex Variables	3
	or MATH 381 Complex Variables and Transforms (3)	
MATH 325	Honours Ordinary Differential Equations or MATH 263 Ordinary Differential Equations and Linear Algebra (3)	3
MIME 221	Engineering Professional Practice	2
MIME 310	Engineering Economy	3
PHYS 251	Honours Classical Mechanics 1 or CIVE 281 Analytical Mechanics (3)	3
PHYS 271	Introduction to Quantum Physics	3
	32	

* CGPA of 3.30 is required to register for MATH 247 and MATH 248.

Departmental Courses

ECSE 200	Fundamentals of Electrical Engineering	3	
ECSE 210	Circuit Analysis	3	
ECSE 211	Design Principles and Methods	3	
ECSE 212	Properties of Materials in Electrical Engineering	3	
or MIME 262	Properties of Materials in Electrical Engineering (3)		
ECSE 221	Introduction to Computer Engineering	3	
ECSE 291	Electrical Measurements Laboratory	2	
ECSE 303	Signals and Systems 1	3	
ECSE 304	Signals and Systems 2	3	
ECSE 305	Probability and Random Sig. 1	3	
ECSE 322	Computer Engineering	3	
ECSE 323	Digital System Design	5	
ECSE 330	Introduction to Electronics	3	
ECSE 334	Introduction to Microelectronics	3	
ECSE 351	Electromagnetic Fields	3	
ECSE 352	Electromagnetic Waves.	3	
ECSE 361	Power Engineering	3	
ECSE 434	Microelectronics Laboratory	2	
ECSE 498	Honours Thesis 1	3	
ECSE 499	Honours Thesis 2	3	
ECSE 543	Numerical Methods in Electrical Engineering	3	60

COMPLEMENTARY COURSES

Technical Complementaries

Three technical complementary courses (9 credits). Each course must be either a 500-level ECSE course, or one of the following (No more than one 400-level course can be chosen as a technical complementary).

COMP 535	Computer Networks 1		
ECSE 427	Operating Systems		
ECSE 451	EM Transmission and Radiation		

Laboratory Complementaries

One course must be chosen from the following list:

ECSE 425	Computer Organization and Architecture		
ECSE 426	Microprocessor Systems		
ECSE 431	Introduction to VLSI CAD		
ECSE 435	Mixed-Signal Test Techniques		
ECSE 436	Signal Processing Hardware		
ECSE 450	Electromagnetic Compatibility		
ECSE 485	IC Fabrication Laboratory		
ECSE 486	Power Laboratory		
ECSE 487	Computer Architecture Laboratory		
ECSE 488	High Frequency Laboratory		
ECSE 490	Digital Signal Processing Laboratory		
ECSE 491	Communication Systems Laboratory		
ECSE 493	Control and Robotics Laboratory		

General Complementaries

Two courses (6 credits), selected from an approved list: one course on the impact of technology on society and one in the humanities and social sciences, administrative studies and law. See [section 8.3.4 "Complementary Studies"](#) for further information.

TOTAL CREDITS **109-110**

ECSE 474	Design Project 1	1	
ECSE 475	Design Project 2	2	57

COMPLEMENTARY COURSES

Technical Complementaries

Four courses must be taken from the following list

ECSE 404	Control Systems	3	
ECSE 405	Antennas	3	
ECSE 411	Communications Systems 1	3	
ECSE 412	Discrete Time Signal Processing	3	
ECSE 413	Communications Systems 2	3	
ECSE 414	Introduction to Telecommunication Networks		

or COMP 535	Computer Networks 1		
ECSE 420	Parallel Computing	3	
ECSE 421	Embedded Systems	3	
ECSE 422	Fault Tolerant Computing	3	
ECSE 423	Fundamentals of Photonics	3	
ECSE 424	Human-Computer Interaction	3	
ECSE 425	Computer Organization and Architecture	3	

ECSE 426	Microprocessor Systems	3	
ECSE 427	Operating Systems	3	
ECSE 430	Photonic Devices and Systems	3	
ECSE 431	Introduction to VLSI CAD	3	
ECSE 432	Physical Basis: Transistor Devices	3	
ECSE 435	Mixed-Signal Test Techniques	3	
ECSE 436	Signal Processing Hardware	3	
ECSE 450	Electromagnetic Compatibility	3	
ECSE 451	EM Transmission and Radiation	3	
ECSE 460	Appareillage électrique (Electrical Power Equipment)	3	

ECSE 462	Electromechanical Energy Conversion	3	
ECSE 463	Matériaux de l'électrotechnique	3	
ECSE 464	Power System Analysis 1	3	
ECSE 465	Power Electronic Systems	3	
ECSE 467	Comportement des réseaux électriques	3	
ECSE 468	Electricité industrielle (Industrial Power Systems)	3	
ECSE 469	Protection des réseaux électriques	3	

Laboratory Complementaries 2-3

One course must be chosen from the following list:

ECSE 426	Microprocessor Systems	3
ECSE 431	Introduction to VLSI CAD	3
ECSE 435	Mixed-Signal Test Techniques	3
ECSE 436	Signal Processing Hardware	3
ECSE 450	Electromagnetic Compatibility	3
ECSE 485	IC Fabrication Laboratory	2
ECSE 486	Power Laboratory	2
ECSE 487	Computer Architecture Laboratory	2
ECSE 488	High Frequency Laboratory	2
ECSE 489	Telecommunication Network Lab	2
ECSE 490	Digital Signal Processing Laboratory	2
ECSE 491	Communication Systems Laboratory	2
ECSE 493	Control and Robotics Laboratory	2

General Complementaries 6

Two courses (6 credits), selected from an approved list: one course on the impact of technology on society and one in the humanities and social sciences, administrative studies and law. See [section 8.3.4 "Complementary Studies"](#) for further information.

TOTAL CREDITS 109-110

*** Enhanced Power Concentration**

(Students following this program must complete 15 credits of technical complementary courses).

The Institute for Electrical Power Engineering was recently established as a province-wide centre for electrical power engineering education. It is funded by industry, mostly Hydro-Québec, and provides a comprehensive program and state-of-the-art laboratory facilities, and a point of contact between industry and universities involved in power engineering.

- This program is open to students in the regular Electrical Engineering program only.
- The benefits of the Concentration are:
 - a complete and up-to-date final-year program in electrical power engineering, with industry-sponsored and supported courses;
 - access to industry-sponsored projects, internships and new employment opportunities.

Eligibility criteria: To be considered in September 2008, the applicant must:

- be registered in the B.Eng. program (regular Electrical Engineering);
- have a cumulative GPA of at least 2.70;
- have completed or be registered in ECSE 361 (Power Engineering);
- be able to complete the degree requirements by Spring 2009;
- agree to follow the curriculum requirements set out below.

Selection criteria: The number of students selected, expected to be between 5 and 10, will be the subject of a specific agreement between the University and the Institute. Selection criteria to the Institute will be based on CGPA and on the curriculum vitae. The selection process for the scholarship may involve an interview with the committee presided by Hydro-Québec. There is a possibility of an internship with Hydro-Québec.

Curriculum requirements for selected students: Generally, unless the University has authorized specific substitutions, students must complete the degree requirements set out in the 2007-08 *Undergraduate Programs Calendar* with the following specifications:

Technical Complementaries and Laboratories: 15

All students must take (or have taken) five courses from the following list, for a total of 15 credits.

Compulsory:

ECSE 464	Power System Analysis 1
ECSE 465	Power Electronic Systems

And one of the following:

ECSE 462	Electromechanical Energy Conversion
ECSE 463	Matériaux de l'électrotechnique
ECSE 467	Comportement des réseaux électriques
ECSE 460	Appareillage électrique (Electrical Power Equipment)
ECSE 468	Electricité industrielle (Industrial Power Systems)
ECSE 469	Protection des réseaux électriques

Courses ECSE 460, ECSE 463, ECSE 467, ECSE 468 and ECSE 469 are taught in French. ECSE 460, ECSE 463, ECSE 464 (Fall semester). ECSE 465, ECSE 467, ECSE 468 and ECSE 469 are courses sponsored by the Institute and taught at Ecole Polytechnique de Montreal.

In addition, students must complete ECSE 474 and 475 (Electrical Engineering Design Projects 1 and 2) on a practical project in power engineering, preferably at the Institute or with a company sponsoring the Institute.

CURRICULUM FOR THE B.ENG. DEGREE IN COMPUTER ENGINEERING
REQUIRED COURSES
COURSE CREDIT
Non-Departmental Courses

CIVE 281	Analytical Mechanics	3
COMP 202	Introduction to Computing 1	3
COMP 250	Introduction to Computer Science	3
COMP 431	Algorithms for Engineers	3
EDEC 206	Communication in Engineering	3
MATH 262	Intermediate Calculus	3
MATH 263	Ordinary Differential Equations and Linear Algebra	3
MATH 264	Advanced Calculus ENG	3
MATH 270	Applied Linear Algebra	3
MATH 363	Discrete Mathematics	3
MIME 221	Engineering Professional Practice	2
MIME 310	Engineering Economy	3

Departmental Courses

ECSE 200	Fundamentals of Electrical Engineering	3
ECSE 210	Circuit Analysis	3
ECSE 211	Design Principles and Methods	3
ECSE 221	Introduction to Computer Engineering	3
ECSE 291	Electrical Measurements Laboratory	2
ECSE 305	Probability and Random Sig. 1	3

ECSE 322	Computer Engineering	3
ECSE 323	Digital System Design	5
ECSE 330	Introduction to Electronics	3
ECSE 334	Introduction to Microelectronics	3
ECSE 353	Electromagnetic Fields and Waves	3
ECSE 425	Computer Organization and Architecture	3
ECSE 426	Microprocessor Systems	3
ECSE 427	Operating Systems	3
ECSE 474	Design Project 1	1
ECSE 475	Design Project 2	2
COMP 535	Computer Networks 1	3
or ECSE 414	Introduction to Telecommunication Networks	55

COMPLEMENTARY COURSES

Basic Science Complementary courses (For CEGEP students only) 0-3

Students from CEGEP are required to complete one approved 3 credit courses, 200-level or higher from the following science departments.

Atmospheric and Oceanic Sciences (ATOC)
 Biology (BIOL)
 Chemistry (CHEM)
 Earth and Planetary Sciences (EPSC)

Earth System Science (ESYS)
Physics (PHYS) **9**

Technical Complementaries

One course must be chosen from List A and 2 courses from List B. The course chosen from List A is meant to enhance the Body of Knowledge while the courses chosen from List B are to provide breadth.

List A

- ECSE 424 Human-Computer Interaction
- ECSE 428 Software Engineering Practice
- ECSE 431 Introduction to VLSI CAD

List B

- ECSE 404 Control Systems
- ECSE 411 Communications Systems 1
- ECSE 412 Discrete Time Signal Processing
- ECSE 420 Parallel Computing.
- ECSE 421 Embedded Systems
- ECSE 422 Fault Tolerant Computing
- ECSE 429 Software Validation.
- ECSE 436 Signal Processing Hardware
- ECSE 443 Introduction to Numerical Methods of Electrical Engineering.

- ECSE 450 Electromagnetic Compatibility.
- ECSE 526 Artificial Intelligence
- or COMP 424 Topics: Artificial Intelligence 1
- ECSE 530 Logic Synthesis
- ECSE 532 Computer Graphics
- ECSE 548 Introduction to VLSI Systems

Laboratory Complementaries

2-3

One course must be chosen from the following list. Note that the lab course is intended to strengthen the practical knowledge within one of the BOK core units and as such should complement one of the BOK core unit lecture courses, namely ECSE 334, ECSE 425, or COMP 535 (ECSE 414).

- ECSE 434 Microelectronics Laboratory
- ECSE 436 Signal Processing Hardware
- ECSE 487 Computer Architecture Laboratory
- ECSE 489 Telecommunication Network Lab
- ECSE 490 Digital Signal Processing Laboratory
- ECSE 491 Communication Systems Laboratory
- ECSE 493 Control and Robotics Laboratory

General Complementaries

6

Two courses (6 credits), selected from an approved list: one course on the impact of technology on society and one in the humanities and social sciences, administrative studies and law. See section 8.3.4 "Complementary Studies" for further information.

TOTAL CREDITS

**107

MIME 221	Engineering Professional Practice	2

Basic Science Complementary courses (For CEGEP students only) **0-6**

Students from CEGEP are required to complete one approved 6 credit courses, 200-level or higher from the following science departments.

- Atmospheric and Oceanic Sciences (ATOC)
- Biology (BIOL)
- Chemistry (CHEM)
- Earth and Planetary Sciences (EPSC)
- Earth System Scienc (ESYS)
- Physics (PHYS)

Technical Complementaries

12 - 14

Students should take 12-14 credits of which 6 credits must be taken from group A and 6-8 credits from group B. It is possible that not all the courses listed will be offered in a given year. Please refer to the up-to-date course assignments before selecting any course. Permission will not be granted to take Technical Complementary courses that are not on this list.

Group A Technical Complementaries

COMP 330	Theoretical Aspects: Computer Science
COMP 350	Numerical Computing
COMP 409	Concurrent Programming
COMP 424	Topics: Artificial Intelligence 1
or ECSE 526	Artificial Intelligence
COMP 520	Compiler Design
COMP 566	Discrete Optimization 1
COMP 575	Fundamentals of Distributed Algorithms
ECSE 529	Image Processing and Communication

Group B Technical Complementaries

ECSE 323	Digital Systems Design
ECSE 404	Control Systems
ECSE 411	Communications Systems 1
ECSE 412	Discrete Time Signal Processing
ECSE 413	Communications Systems 2
ECSE 414	Introduction to Telecommunication Networks
or COMP 535	Computer Networks 1
ECSE 421	Embedded Systems
ECSE 422	Fault Tolerant Computing
ECSE 424	Human-Computer Interaction
ECSE 425	Computer Organization and Architecture
ECSE 426	Microprocessor Systems
ECSE 504	Sampled Data Control
ECSE 530	Logic Synthesis
ECSE 532	Computer Graphics
or COMP 557	Fundamentals of Computer Graphics

General Complementaries

6

Two courses (6 credits), selected from an approved list: one course on the impact of technology on society and one in the humanities and social sciences, administrative studies and law. See [section 8.3.4 "Complementary Studies"](#) for further information.

TOTAL CREDITS

106-114

Associate Members

B.H.K. Lee; B.Eng., M.Eng., Ph.D.(McG.)

Adjunct Professors

H. Attia, A. Baggag, S. Girgis, K. Mackenzie, C. Marsden, C.A.

Rabbath, R. Sumner, S. Tafazolli, D. Zorbas

Mechanical engineers are traditionally concerned with the conception, design, implementation and operation of mechanical systems. Typical fields of work are aerospace, energy, manufacturing, machinery, and transportation. Because of the very broad nature of the discipline there is usually a high demand for mechanical engineers.

Many mechanical engineers follow other career paths. Graduate studies are useful for the specialists working in research establishments, consulting firms, or in corporate research and development.

To prepare the mechanical engineer for a wide range of career possibilities, there is a heavy stress in our curriculum on the fundamental analytical disciplines. This is balanced by a sequence of experimental and design engineering courses which include practice in design, manufacture and experimentation. In these courses students learn how to apply their analytical groundwork to the solution of practical problems.

Specialist interests are satisfied by selecting appropriate complementary courses from among those offered with a specific subject concentration, such as management, industrial engineering, computer science, controls and robotics, bio-engineering, aeronautics, combustion, systems engineering, etc.

The Department offers an Honours Program which is particularly suitable for those with a high aptitude in mathematics and physics and which gives a thorough grounding in the basic engineering sciences. The complementary courses in this program can be utilized to take courses with applied engineering orientation, such as those offered in the regular program, or if preferred, to obtain an even more advanced education in engineering science.

Concentrations in Aeronautical Engineering, Mechatronics and Design are available for students in either the Regular or Honours program who wish to specialize in these areas.

While the program is demanding, there is time for many extra-curricular activities. Students are active in such professional societies as CASI (Canadian Aeronautics and Space Institute), SAE (Society of Automotive Engineers), and ASME (American Society of Mechanical Engineers) and in various campus organizations.

Relations between faculty and students are extremely close.

Social functions, at which students and professors meet to exchange views and get to know each other better, are organized frequently.

CURRICULUM FOR THE B.ENG. DEGREE IN MECHANICAL ENGINEERING (REGULAR)
REQUIRED COURSES

Non-Departmental Subjects

		COURSE CREDIT	
CIVE 207	Solid Mechanics	4	
COMP 208	Computers in Engineering	3	
ECSE 461	Electric Machinery	3	
EDEC 206	Communication in Engineering	3	
MATH 262	Intermediate Calculus	3	
MATH 263	Ordinary Differential Equations and Linear Algebra	3	
MATH 264	Advanced Calculus ENG	3	
MATH 271	Linear Algebra and Partial Differential Equations	3	
MIME 221	Engineering Professional Practice	2	
MIME 260	Materials Science and Engineering	3	
MIME 310	Engineering Economy	3	33

Departmental Courses

MECH 201	Introduction to Mechanical Engineering	2	
MECH 210	Mechanics 1	2	
MECH 220	Mechanics 2	4	
MECH 240	Thermodynamics 1	3	
MECH 260	Machine Tool Laboratory	2	
MECH 262	Statistics and Measurement Laboratory	3	
MECH 289	Design Graphics	3	
MECH 292	Conceptual Design	3	
MECH 309	Numerical Methods in Mechanical Engineering	3	
MECH 314	Dynamics of Mechanisms	3	
MECH 315	Mechanics 3	4	
MECH 321	Mechanics of Deformable Solids	3	
MECH 331	Fluid Mechanics 1	3	
MECH 341	Thermodynamics 2	3	
MECH 346	Heat Transfer	3	
MECH 362	Mechanical Laboratory 1	2	
MECH 383	Applied Electronics and Instrumentation	3	
MECH 393	Machine Element Design	3	
MECH 412	Dynamics of Systems	3	
MECH 430	Fluid Mechanics 2	3	
MECH 463D1	Mechanical Engineering Project	3	
MECH 463D2	Mechanical Engineering Project	3	64

COMPLEMENTARY COURSES

2 courses (6 credits) at the 300 level or higher to be selected from Mechanical Engineering, one of these two courses must be chosen from the following list:

MECH 497	Value Engineering		
MECH 498	Interdisciplinary Design Project 1		
MECH 499	Interdisciplinary Design Project 2		
MECH 513	Control Systems		
MECH 524	Computer Integrated Manufacturing		
MECH 526	Manufacturing and the Environment		
MECH 528	Product Design		
MECH 541	Kinematic Synthesis		
MECH 543	Design with Composite Materials		
MECH 553	Design and Manufacture of Microdevices		
MECH 554	Microprocessors for Mechanical Systems		
MECH 557	Mechatronic Design		
MECH 563	Biofluids and Cardiovascular Mechanics		
MECH 565	Fluid Flow and Heat Transfer Equipment		
MECH 573	Mechanics of Robotic Systems		
MECH 577	Optimum Design		
MECH 593	Design Theory and Methodology		

1 course (3 credits), subject to Departmental approval, at the 300 level or higher from the Faculty of Engineering or in the Faculty of Science, including Mathematics.

Two courses (6 credits), selected from an approved list: one course on the impact of technology on society and one in the humanities and social sciences, administrative studies and law. See [section 8.3.4 "Complementary Studies"](#) for further information.

TOTAL CREDITS

112

Students entering in September or January must plan their program of studies in accordance with the regulations posted on the Faculty Website at www.mcgill.ca/engineering. After registering, students must consult with their academic adviser.

Additional information can be found in [section 8.3.1.2 "Basic Science Requirements for Students Entering from Outside Quebec"](#).

COMPLEMENTARY COURSES

1 course from the following (3 credits):

To be chosen with the approval of either the thesis supervisor or the coordinator of the Honours Program, when a thesis supervisor has not as yet been secured.

MATH 327	Matrix Numerical Analysis		
MATH 381	Complex Variables and Transforms		
MATH 417	Mathematical Programming		

plus

2 of the following three courses (6 credits):

MECH 546	Finite Element Methods in Solid Mechanics		
MECH 562	Advanced Fluid Mechanics		
MECH 578	Advanced Thermodynamics		

2 courses (6 credits) at the 300 level or higher to be selected from Mechanical Engineering, one of these two courses must be chosen from the following list:

MECH 497	Value Engineering
MECH 498	Interdisciplinary Design Project 1
MECH 499	Interdisciplinary Design Project 2
MECH 513	Control Systems
MECH 524	Computer Integrated Manufacturing
MECH 526	Manufacturing and the Environment
MECH 528	Product Design
MECH 541	Kinematic Synthesis
MECH 543	Design with Composite Materials
MECH 553	Design and Manufacture of Microdevices
MECH 554	Microprocessors for Mechanical Systems
MECH 557	Mechatronic Design
MECH 563	Biofluids and Cardiovascular Mechanics
or CHEE 563	Biofluids and Cardiovascular Mechanics
MECH 565	Fluid Flow and Heat Transfer Equipment
MECH 573	Mechanics of Robotic Systems
MECH 577	Optimum Design
MECH 593	Design Theory and Methodology

1 course (3 credits), subject to Departmental approval, at the 300 level or higher from the Faculty of Engineering or MIME 260 or in the Faculty of Science, including Mathematics.

Two courses (6 credits), selected from an approved list: one course on the impact of technology on society and one in the humanities and social sciences, administrative studies and law. See [section 8.3.4 "Complementary Studies"](#) for further information.

TOTAL CREDITS

112

Students entering in September or January must plan their program of studies in accordance with the regulations posted on the Faculty Website at www.mcgill.ca/engineering. After registering, students must consult with their academic adviser.

Additional information can be found in [section 8.3.1.2 "Basic Science Requirements for Students Entering from Outside Quebec"](#).

LIST OF COMPLEMENTARY COURSES (DEPARTMENTAL)

(Each is 3 credits)

MECH 432	Aircraft Structures
MECH 434	Turbomachinery
MECH 447	Combustion
MECH 474	Selected Topics in Operations Research
MECH 497	Value Engineering
MECH 498	Interdisciplinary Design 1
MECH 499	Interdisciplinary Design Project 2
MECH 500	Selected Topics in Mechanical Engineering
MECH 501	Special Topics: Mechanical Engineering
MECH 502	Special Topics: Mechanical Engineering
MECH 513	Control Systems
MECH 515	Unsteady Gasdynamics 1
MECH 522	Production Systems
MECH 524	Computer Integrated Manufacturing
MECH 526	Manufacturing and the Environment
MECH 528	Product Design
MECH 529	Discrete Manufacturing Systems
MECH 530	Mechanics of Composite Materials
MECH 531	Aeroelasticity
MECH 532	Aircraft Performance, Stability and Control
MECH 533	Subsonic Aerodynamics
MECH 534	Air Pollution Engineering
MECH 537	High-Speed Aerodynamics
MECH 538	Unsteady Aerodynamics
MECH 539	Computational Aerodynamics
MECH 541	Kinematic Synthesis
MECH 542	Spacecraft Dynamics
MECH 543	Design with Composite Materials
MECH 544	Processing of Composite Materials

MECH 546	Finite Element Methods in Solid Mechanics
MECH 553	Design and Manufacture of Microdevices
MECH 554	Microprocessors for Mechanical Systems
MECH 557	Mechatronic Design
MECH 561	Biomechanics of Musculoskeletal Systems
MECH 562	Advanced Fluid Mechanics
MECH 563	Biofluids and Cardiovascular Mechanics
MECH 565	Fluid Flow and Heat Transfer Equipment
MECH 566	Fluid-Structure Interactions
MECH 572	Introduction to Robotics
MECH 573	Mechanics of Robotic Systems
MECH 576	Computer Graphics and Geometrical Modelling
MECH 577	Optimum Design
MECH 578	Advanced Thermodynamics
MECH 593	Design Theory and Methodology

TYPICAL PROGRAM OF STUDIES FOR REGULAR OR

HONOURS For students starting their B.Eng. studies in September 2004 who have completed the Quebec Diploma of Collegial Studies, a program for the first two terms of study is given below. Students will be advised by the Department whether they should follow Stream A or Stream B.

STREAM A:

Term 1 (Fall)

COMP 208	Computers in Engineering
MATH 262	Intermediate Calculus
MECH 201	Introduction to Mechanical Engineering
MECH 210	Mechanics 1
MECH 260	Machine Tool Laboratory
MIME 221	Engineering Professional Practice

Term 2 (Winter)

MATH 263	Ordinary Differential Equations and Linear Algebra
MATH 264	Advanced Calculus ENG
MECH 220	Mechanics 2
MECH 262	Statistics and Measurement Laboratory
MECH 289	Design Graphics

STREAM B:

Term 1 (Fall)

COMP 208	Computers in Engineering
MATH 262	Intermediate Calculus
MECH 201	Introduction to Mechanical Engineering
MECH 260	Machine Tool Laboratory
MECH 289	Design Graphics

Term 2 (Winter)

MATH 263	Ordinary Differential Equations and Linear Algebra
MATH 264	Advanced Calculus ENG
MECH 210	Mechanics 1
MECH 262	Statistics and Measurement Laboratory
MIME 260	Materials Science and Engineering
MIME 221	Engineering Professional Practice

For all Minors and Concentrations, students should complete a special form available from the Undergraduate Program Secretary indicating their intention to take the Minor or the Concentration.

AERONAUTICAL ENGINEERING CONCENTRATION

Students in this Concentration should take five courses in the area of Aeronautical Engineering.

Required Courses (6 credits):

MECH 532	(3) Aircraft Performance, Stability and Control
MECH 533	(3) Subsonic Aerodynamics

Complementary Courses (9 credits)

at least one of the following two courses:

MECH 432	(3) Aircraft Structures
MECH 434	(3) Turbomachinery

the remaining two courses may be chosen from the above or from the following courses:

MECH 531	(3) Aeroelasticity
MECH 537	(3) High-Speed Aerodynamics
MECH 538	(3) Unsteady Aerodynamics

- MECH 539 (3) Computational Aerodynamics
 MECH 565 (3) Fluid Flow and Heat Transfer Equipment

All courses must be passed at a level C or better.

Students should also discuss the matter with their adviser and complete a special form indicating their intention to take this Concentration.

DESIGN CONCENTRATION

Students in this Concentration should take five courses in the area of Design, including the completion of an interdisciplinary design project.

Of the five courses, two are required:

- MECH 498 Interdisciplinary Design Project 1
 MECH 499 Interdisciplinary Design Project 2

The remaining three courses are to be chosen from the list below:

- ARCH 515 Sustainable Design
 CHEE 453 Process Design
 MECH 497 Value Engineering
 MECH 526 Manufacturing and the Environment
 MECH 528 Product Design
 MECH 530 Mechanics of Composite Materials
 MECH 541 Kinematic Synthesis
 MECH 543 Design with Composite Materials
 MECH 554 Microprocessors for Mechanical Systems
 MECH 557 Mechatronics Design
 MECH 565 Fluid Flow and Heat Transfer Equipment
 MECH 576 Computer Graphics and Geometric Modeling
 MECH 577 Optimum Design
 MECH 593 Design Theory and Methodology

MECHATRONICS CONCENTRATION

Students in this Concentration should take six courses in the area of Control, Robotics and/or CAD/CAM. They must take the following four required courses:

- MECH 513 Control Systems
 MECH 554 Microprocessors for Mechanical Systems
 MECH 557 Mechatronic Design
 MECH 572 Introduction to Robotics

and two of the following:

- MECH 528 Product Design
 MECH 541 Kinematic Synthesis
 MECH 573 Mechanics of Robotic Systems
 MECH 576 Computer Graphics and Geometrical Modelling

Jacques Ouellet; B.A.Sc.(Laval), M.A.Sc, Ph.D.(Montr.), Eng.

Mihriban Pegguleryuz; B.Eng., M.Eng.(Flor.), Ph.D. (McG.)

Assistant Professors

Mathieu Brochu; B.Eng.(Laval), Ph.D.(McG.)

Richard Chromik; B.Sc.(Penn. St.), M.Sc., Ph.D.(SUNY, Binghamton)

In-Ho Jung ; B.Sc.(South Korea), Ph.D.(École Poly., Montr.)

Showan Nazhat; B. Eng., M. Sc., Ph.D.(Lond.)

Faculty Lecturers

Florence Paray; B.Eng.(CSP), M.Eng., Ph.D.(McG.)

Adjunct Professors

Mostafa Benzaazoua, William Caley, Daryoush Emadi, Elhachmi Essadiqi, Carlton Fuerst, Bryn Harris, Ahmad Hemami, Mohammad Jahazi, Raad Jassim, Wynand Kleingeld, Louis-Philippe Lefebvre, Eric Lifshin, Phillip Mackey, Martin Pugh, Serge Vézina

CO-OP Program Liaison Officers

Genevieve Snider (Materials)

Michel Vachon (Mining)

The Department of Mining and Materials Engineering offers programs leading to the Bachelor of Engineering degree in Materials Engineering or Mining Engineering. In addition to regular courses and laboratories, the curriculum includes seminars, colloquia and student projects reinforced by field trips to industrial operations.

Materials Engineering (CO-OP) The Materials Engineering degree is a cooperative program leading to a B.Eng. and includes formal industrial work periods. It is built on a strong background of mathematics, basic sciences, computer skills and applications, and specific engineering and design courses to provide up-to-date training in materials engineering. Students take core courses covering processing, fabrication, applications and performance of materials, namely metals, ceramics, polymers and composites. The program is fully accredited by the Canadian Engineering Accreditation Board (CEAB) and is designed to offer students exceptional training for employment in the field. The core courses are supplemented by complementary courses which provide a diverse selection of specialties for the graduating engineer. The course structure is reinforced with laboratory exercises. Graduates find employment in a wide range of industries, including the resource and manufacturing sectors. Students in the CO-OP

program benefit from practical learning experience gained from work-term employment in meaningful engineering jobs, as well as non-tangible learning experiences arising from the responsibilities required to obtain and successfully complete the work terms.

Regarding CO-OP Program fees, an amount of \$200 will be billed during 10 consecutive terms for a total amount of \$2,000 before graduation. These fees cover expenses directly related to the operation of the CO-OP program. Students must register for each of the above-mentioned industrial training courses and pay the associated fees by the Minerva course registration deadlines or late fees will apply.

Mining Engineering (CO-OP) McGill is proud to be the host of the oldest mining engineering program in Canada, which started in 1871. The program is known for the excellence of its courses as well as the training it provides in mining technology, mineral economics and mine design. The minerals industry is currently going through an expansion phase that has never been seen before. This is highly beneficial to both our graduate and undergraduate students. Tremendous career opportunities are available in Canada and around the world. There have been rapid technical developments in recent years, presenting a challenge to the creative student with a strong interest in engineering and a taste for innovative solutions.

The Department offers a cooperative program leading to the accredited B.Eng. degree in Mining Engineering. It includes four paid industrial work terms. The CO-OP program is offered in collaboration with the mining engineering program at École Polytechnique in Montreal. Students registered at McGill are required to take a series of mining courses at École Polytechnique in the latter part of the program. These courses are designated in the course outline under the Subject Code MPMC.

Students must pay a two-credit course fee for each work term (MIME 290, MIME 291, MIME 392, MIME 494). In addition, a fee of \$300 will be paid for each work term to cover expenses directly related to the operation of the CO-OP program. Students must register for each work term and pay associated fees by MINERVA registration deadline or else late fees will apply. Before registering for any work term course, students must contact Mr. Michel Vachon, the Mining CO-OP Liaison Officer, for approval.

Scholarships

The Department offers renewable Entrance Scholarships every year, valued at \$3,000 each. A substantial number of other scholarships and bursaries are also awarded by the Department as well as by the Canadian Mineral Industry Education Foundation.

Student Advising

Students entering the Mining or Materials Engineering programs must plan their schedule of studies in consultation with one of the departmental advisers: Professor Brochu (Materials), Professor Jacques Ouellet (Mining) or Mr. John Mossop (Mining).

CURRICULUM FOR THE B.ENG. DEGREE IN MATERIALS ENGINEERING – CO-OP PROGRAM

COMPLEMENTARY COURSES

Technical Complementaries

9 - 12 credits from the following: **12**

CIVE 512 (3) Advanced Civil Engineering Materials
MECH 530 (3) Mechanics of Composite Materials
MIME 410 (3) Research Project
MIME 457 (3) Light Metals Extraction and Processing
MIME 470 (3) Engineering Biomaterials
MIME 512 (3) Corrosion and Degradation of Materials
MIME 544 (3) Analysis: Mineral Processing Systems 1
MIME 545 (3) Analysis: Mineral Processing Systems 2
MIME 551 (3) Electrochemical Processing
MIME 552 (3) Environmental Controls in Metallurgical Plants
MIME 556 (3) Sustainable Materials Processing
MIME 558 (3) Engineering Nanomaterials
MIME 559 (3) Aluminum Physical Metallurgy
MIME 560 (3) Joining Processes
MIME 561 (3) Advanced Materials Design
MIME 563 (3) Hot Deformation of Metals
MIME 564 (3) X-ray Diffraction Analysis of Materials
MIME 565 (3) Aerospace Metallic-Materials and Manufacturing Processes
MIME 566 (3) Texture, Structure & Properties of Polycrystalline Materials
MIME 568 (3) Topics in Advanced Materials
MIME 569 (3) Electron Beam Analysis of Materials
MIME 571 (3) Surface Engineering

0 - 3 credits from the following:

BMDE 504 (3) Biomaterials and Bioperformance
CHEM 455 (3) Introductory Polymer Chemistry
CHEM 585 (3) Colloid Chemistry
PHYS 558 (3) Solid State Physics

General Complementaries

Two courses (6 credits), selected from an approved list: one course on the impact of technology on society and one in the humanities and social sciences, administrative studies and law. See [section 8.3.4 "Complementary Studies"](#) for further information.

119-121

Technical Complementaries

Courses selected from those listed below or any other approved technical course(s) in Engineering, Management or Science. Note: not all courses are given annually; verification with course instructor is advised.

MIME 320	(3) Extraction of Energy Resources
MIME 442	(3) Modelling and Control: Mineral Processing
MIME 513	(3) Mine Planning Optimization Under Uncertainty.
MIME 520	(3) Stability of Rock Slopes
MIME 521	(3) Stability of Underground Openings
MIME 525	(3) Stochastic Orebody Modelling.
MIME 526	(3) Mineral Economics
MIME 528	(3) Mining Automation
MIME 544	(3) Analysis: Mineral Processing Systems 1
MIME 545	(3) Analysis: Mineral Processing Systems 2
MPMC 327	(3) Hydrogéologie appliquée

A fee of \$300 is assessed by the University for each Industrial Work Period course.

8.5.7 School of Urban Planning

Macdonald-Harrington Building, Room 400
815 Sherbrooke Street West
Montreal, QC H3A 2K6

Telephone: (514) 398-4075
Fax: (514) 398-8376
E-mail: admissions.planning@mcgill.ca
Website: www.mcgill.ca/urbanplanning

Director — David F. Brown

Emerita Professor

Jeanne M. Wolfe; B.Sc.(Lond.), M.Sc.(W.Ont.), M.A.(McG.)

Professor

Jane M. Glenn; B.A., LL.B.(Qu.), D. en Droit(Stras.)

Associate Professors

Madhav G. Badami; B.Tech., M.S.(IIT, Madras) M.E.Des.(Calg.), Ph.D.(Br. Col.) (*joint appoint. with McGill School of Environment*)

David F. Brown; B.A.(Bishop's), M.U.P.(McG.), Ph.D.(Sheffield)
Raphaël Fischler; B.Eng. (V. Tech. Eindhoven), M.S. Arch.S., M.C.P.(MIT), Ph.D.(Calif., Berk.)

Assistant Professors

Lisa Bornstein; B.Sc.(Calif., Berk.),M.R.P.(C'nell), Ph.D.(Calif., Berk.)

Ahmed Elgeneidy; B.S., M.S.(Alexandria), Ph.D.(Port. St.)

Nik Luka; B.A.(Ryerson),M.Arch.(Laval),Ph.D.(Tor.) (*joint appoint. with Architecture*)

Instructor

Danielle Labbe; B.Arch., M.Sc.(Laval)

Adjunct Professors

David Farley; B.Arch.(McG.), M.Arch., M.C.P.(Harv.)

Mario Polèse; B.A.(CUNY), M.A., Ph.D.(Penn.)

Ray Tomalty; B.A., M.P.A.(Qu.), Ph.D.(Wat.)

Guest Lecturers

Cameron Charlebois, Luc Daniels, Marc Denhez, Miguel Escobar, Andrew Hoffmann, Paul le Cavalier, Damaris Rose, Larry Sherman, Alain Trudeau, Martin Wexler, etc.

Modern urban planning developed into a profession in the early decades of the 20th century, largely as a response to the appalling sanitary, social and economic conditions of rapidly developing industrial cities. Initially, the disciplines of architecture, landscape architecture, civil engineering and public health provided the nucleus of concerned professionals; beautification schemes and infrastructure works marked the early stages of public intervention in the 19th century. Architects, engineers and public health specialists were joined by economists, sociologists, lawyers and geographers as the complexities of the city's problems came to be more fully understood and public pressure mounted for their solution. Contemporary urban and regional planning techniques for survey, analysis, design and implementation developed from an interdisciplinary synthesis of these various fields.

Today, urban planning can be described as the collective management of urban development. It is concerned with the welfare of communities, control of the use of land, design of the built environment, including transportation and communication networks, and protection and enhancement of the natural environment. It is at once a technical and a political process which brings together actors from the public, private and community spheres. Planners participate in that process in a variety of ways, as designers and analysts, advocates and mediators.

McGill University was the first institution in Canada to offer a full-time planning program. An interdisciplinary program was established in 1947, in which students combined a master's degree in Urban Planning with one in a related field. An autonomous program was established in 1972. It became the School of Urban Planning in 1976.

Students come to the School from diverse backgrounds, the physical sciences, the traditional professions, such as architecture and engineering, and the social sciences. Alumni of the School work as planners and designers at various levels of government, in non-profit organizations and with private consulting firms. Their expertise ranges from historic preservation to transportation planning, from housing development to computer imaging. They devote their efforts in increasing numbers to environmental planning and sustainable development.

The School is a partner in the Montreal Interuniversity Group "Urbanization and Development", a consortium recognized by CIDA as a Centre of Excellence, which is devoted to the study of urban problems and the formulation of policies in developing regions. Faculty and students collaborate actively with members of other McGill departments, notably Architecture, Geography, Civil Engineering and Law, and with colleagues at other institutions in Canada and abroad.

The objective of the School is to produce qualified professional urban planners for the public, private and not-for-profit sectors. Training is provided at the postgraduate level; the degree offered is the Master of Urban Planning (M.U.P.). Upon completion of the two-year program of studies, graduates are expected to have acquired basic planning skills, a broad understanding of urban issues, and specialized knowledge in a field of their own choice.

The program of study offered by the School is fully recognized by the Ordre des Urbanistes du Québec (O.U.Q.) and the Canadian Institute of Planners (C.I.P.). Graduates can become full members of the O.U.Q. and other provincial planning associations by meeting their respective internship and examination requirements; this, in turn, will make them eligible for membership in the C.I.P. Admission to the American Institute of Certified Planners and other such organizations is also possible on the basis of the MUP degree.

For details of the M.U.P. admission requirements and curriculum, consult the *Graduate and Postdoctoral Studies Calendar*, available at www.mcgill.ca.

The following undergraduate courses are taught by the faculty of the School:

ARCH 521 Structure of Cities
 ARCH 550 Urban Planning and Development
 URBP 201 Planning the 21st Century City
 URBP 501 Principles and Practice 1
 URBP 505 Geographic Information Systems

URBP 506 Environmental Policy and Planning
 URBP 507 Planning and Infrastructure
 URBP 519 Sustainable Development Plans
 URBP 520 Globalization: Planning and Change
 URBP 530 Urban Environmental Planning

8.6 Minor Programs

Minors are coherent sequences of courses which may be taken in addition to the courses required for the B.Eng. degree. Minor programs normally consist of 18-24 credits, allowing 9-12 credits of overlap with the degree program. The real credit cost to the student is typically 9 to 15 credits, representing one term beyond the B.Eng. degree program. All courses in a Minor program must be passed with a grade of C or better.

Students of the Faculty have a considerable variety of complementary course choices, which fall into the categories of technical and complementary studies. Students should refer to their respective departments for information concerning complementary course selections. Departments also publish, in this Calendar and in separate documents, information regarding the choice of courses. Students should also consult their course advisers.

General information concerning Minors that are designed for students registered in the Faculty of Engineering is listed below. In addition, students are also permitted to register for Minor Concentrations offered through the various departments in the Faculty of Arts. Students are advised to seek approval from the specific department in the Faculty of Arts as well as the Faculty of Engineering, Student Affairs Office, Engineering Student Centre, Frank Dawson Adams, Suite 22, prior to embarking on these Minors.

8.6.1 Arts Minor

Engineering students may obtain a Minor in Arts as part of their B.Eng. degree by satisfying the 24-credit requirement described below. In general, complementary studies courses given in the Faculty of Arts and listed under: (i) – "3 credits of studies of the Impact of Technology on Society" and (ii) – "the remaining credits to be social science and humanities courses" (see section 8.3.4 "Complementary Studies") may be used to satisfy some of these requirements. In no case will more than 9 credits taken from these complementary studies requirements be credited towards the Minor in Arts.

Requirements

- The program must consist of 24 credits as follows:
 - at least two areas of concentration from within the Faculty of Arts must be chosen, with the minimum number of credits in any one area being 6;
 - at least 12 credits must be at the 300 or above level.
- All courses in the Minor program must be passed with a grade of C or better.
- The selection of courses for the Minor is to be done in consultation with an adviser in the Faculty of Engineering, Student Affairs Office, Engineering Student Centre, Frank Dawson Adams, Suite 22 or Professor B. Haskel, Political Science.

8.6.2 Biomedical Engineering Minor

The Minor in Biomedical Engineering is intended to allow interdisciplinary preparation by providing access to otherwise unavailable courses in either the basic life sciences or the applied math tools required in the interdisciplinary field of Biomedical Engineering.

The Minor consists of 21 - 25 credits as outlined below.

Complementary Introductory Courses in Live Sciences (3-7 credits)

One course from the following list: (equivalents can be approved)

ANAT 212	Molecular Mechanisms of Cell Function
BIOL 200	Molecular Biology
BIOL 201	Cell Biology and Metabolism
BIOC 212	Molecular Mechanisms of Cell Function
CHEM 212	Introductory Organic Chemistry 1
PHGY 201	Human Physiology: Control Systems
PHGY 202	Human Physiology: Body Functions
PHGY 209	Mammalian Physiology 1
PHGY 210	Mammalian Physiology 2

Specialization Courses (Minimum of 12 credits)

A minimum of 6 credits must be taken from a department other than the student's department and at least 1 BMDE course must be selected. These BMDE courses are best taken near the end of the program, when prerequisites are satisfied.

Artificial Cells and Organs

BMDE 505	Cell and Tissue Engineering
PHGY 311	Channels, Synapses & Hormones
PHGY 312	Intermediate Physiology 2
PHGY 313	Intermediate Physiology 3
PHGY 517	Artificial Internal Organs
PHGY 518	Artificial Cells

Bioinformatics, Genomics and Proteomics

ANAT 365	Cellular Trafficking
ANAT 458	Membranes and Cellular Signaling
or BIOC 458	Membranes and Cellular Signaling
BIOC 311	Metabolic Biochemistry
BIOC 312	Biochemistry of Macromolecules
BMDE 506	Molecular Biology Techniques
COMP 302	Programming Languages and Paradigms
COMP 360	Algorithm Design Techniques
COMP 421	Database Systems
COMP 424	Topics: Artificial Intelligence 1
COMP 462	Computational Biology Methods
COMP 526	Probabilistic Reasoning and AI

Biomaterials, Biosensors & Nanotechnology

BMDE 504	Biomaterials and Biopformance
BMDE 505	Cell and Tissue Engineering
CHEE 380	Materials Science
ECSE 424	Human-Computer Interaction
MECH 553	Design and Manufacture of Microdevices
MIME 360	Phase Transformations: Solids
MIME 362	Mechanical Properties
PHYS 534	Nanoscience and Nanotechnology

Biomechanics and Prosthetics

BMDE 503	Biomedical Instrumentation
CHEE 563	Biofluids and Cardiovascular Mechanics
or MECH 563	Biofluids and Cardiovascular Mechanics
MECH 315	Mechanics 3
MECH 321	Mechanics of Deformable Solids
MECH 530	Mechanics of Composite Materials
MECH 561	Biomechanics of Musculoskeletal Systems
MIME 360	Phase Transformations: Solids
MIME 362	Mechanical Properties

Medical Physics and Imaging

BMDE 519	Biomedical Signals and Systems
COMP 302	Programming Languages and Paradigms
COMP 360	Algorithm Design Techniques
COMP 423	Data Compression
COMP 424	Topics: Artificial Intelligence 1
COMP 558	Fundamentals of Computer Vision
ECSE 303	Signals and Systems 1
ECSE 304	Signals and Systems 2
ECSE 412	Discrete Time Signal Processing
PHYS 557	Nuclear Physics

Neural Systems and Biosignal Processing

BMDE 501	Selected Topics in Biomedical Engineering.
BMDE 502	BME Modelling and Identification
BMDE 503	Biomedical Instrumentation
BMDE 519	Biomedical Signals and Systems
ECSE 526	Artificial Intelligence
PHYS 413	Physical Basis of Physiology

Complementary Courses (Maximum of 6 credits)

Up to 6 credits in the Bachelor's program can also be credited to the Minor, where permitted by the department and to be approved by the Minor Coordinator. In particular, the 200 level and above pre-requisite courses to certain Specialization Courses would be eligible. As a result, by careful selection among the complementary courses, the 21-25 credit Minor can be satisfied with 9 additional credits in the undergraduate program or a maximum of 12 credits overlap with the degree program.

To complete the Minor in Biomedical Engineering, students must obtain a grade of C or better in all approved courses in the Minor and satisfy the requirements of both the Bachelor's program and the Minor.

8.6.3 Biotechnology Minor

The Faculties of Engineering and of Science offer a Minor in Biotechnology for students interested in taking additional courses in this area.

For Engineering students, the Minor has been designed specifically for students within the Chemical Engineering Department; however, other Engineering students are invited to contact the Minor program supervisor, Professor Bennett, or an adviser in the Student Affairs Office, Engineering Student Centre for further information.

Students should identify an interest in the Minor to their academic adviser and the supervisor of the program during the U1 year, and at the time of registration for the U2 year. With the agreement of the academic adviser, students should submit their course list to the program supervisor, who will certify that the proposed program conforms to the requirements for the Minor.

The Biotechnology Minor Program is administered by the Faculty of Engineering, Student Affairs Office, Engineering Student Centre, Frank Dawson Adams, Suite 22, and by the Faculty of Science by Prof. H. Bennett, Sheldon Biotechnology Centre (Lyman Duff Building).

PROGRAM FOR STUDENTS IN THE FACULTY OF ENGINEERING***Required Courses (12 credits)**

BIOT 505	(3)	Selected Topics in Biotechnology
CHEE 200	(3)	Introduction to Chemical Engineering
CHEE 204	(3)	Chemical Manufacturing Processes
CHEE 474	(3)	Biochemical Engineering

Complementary Courses (12 credits)

selected from courses outside the department of the main program, these may be taken from those listed as required courses for Science students. Alternatively, or in addition, courses may be taken from the lists below, in which case at least three courses must be taken from one area of concentration as grouped.

* As 18 credits must be applied exclusively to the Minor, approved substitutions must be made for any of the specified courses which are part of the student's main program.

Biomedicine

ANAT 541	Cell and Molecular Biology of Aging
EXMD 504	Biology of Cancer
PATH 300	Human Disease

Chemistry

CHEM 382	Organic Chemistry: Natural Products
CHEM 502	Advanced Bio-organic Chemistry
CHEM 552	Physical Organic Chemistry

Immunology

ANAT 261	Introduction to Dynamic Histology
BIOC 503	Immunochemistry
MIMM 314	Immunology
MIMM 414	Advanced Immunology
PHGY 513	Cellular Immunology

Management*

ECON 208	Microeconomics Analysis and Applications
MGCR 211	Introduction to Financial Accounting
MGCR 341	Finance 1
MGCR 352	Marketing Management 1
MGCR 472	Operations Management

* These courses may not also be used for a Management Minor, nor for complementary, by Engineering students.

Microbiology

MIMM 323	Microbial Physiology
MIMM 324	Fundamental Virology
MIMM 413	Parasitology
MIMM 465	Bacterial Pathogenesis
MIMM 466	Viral Pathogenesis

Molecular Biology (Biology)

BIOL 300	Molecular Biology of the Gene
BIOL 314	Molecular Biology of Oncogenes
BIOL 520	Gene Activity in Development
BIOL 551	Molecular Biology: Cell Cycle
BIOL 524	Topics in Molecular Biology

Molecular Biology (Biochemistry)

BIOC 311	Metabolic Biochemistry
BIOC 312	Biochemistry of Macromolecules
BIOC 450	Protein Structure and Function
BIOC 454	Nucleic Acids
BIOC 455	Neurochemistry

Physiology

EXMD 401	Physiology and Biochemistry Endocrine Systems
EXMD 502	Advanced Endocrinology
EXMD 503	Advanced Endocrinology
PHAR 562	General Pharmacology 1
PHAR 563	General Pharmacology 2
PHGY 517	Artificial Internal Organs
PHGY 518	Artificial Cells

Pollution*

CIVE 225	Environmental Engineering
CIVE 430	Water Treatment and Pollution Control
CIVE 526	Solid Waste Management
CIVE 553	Stream Pollution and Control

* These courses may not also be used for an Environmental Engineering Minor by Engineering students.

General

MIME 310	Engineering Economy
----------	---------------------

A Chemical Engineering student may complete the Biotechnology Minor by taking BIOL 200, BIOL 201, BIOL 202, MIMM 211, BIOT 505, plus one course from the list of additional courses not including MIME 310. The Department of Chemical Engineering permits students in the Minor program to complete BIOT 505 as one of their technical complementary requirements. The total course credit required for the Chemical Engineering student is 15 credits beyond the 111-credit B.Eng. program.

8.6.4 Chemistry/Chemical Engineering Minor

The Departments of Chemistry and Chemical Engineering offer a Minor Program in Chemistry, of particular interest to Chemical Engineering students, and a Minor in Chemical Engineering, of interest to Chemistry students (described under the Faculty of Science). The Minor in Chemistry consists of 25 credits as follows:

1. Required courses, 10 credits: CHEM 212 and CHEM 234 (or CEGEP equivalent) and either CHEM 233 or CHEE 310.
2. At least 15 credits from the following list, two of which must be laboratory courses (* indicates lab). Note that CHEM 212 is a

prerequisite for most of the courses listed below, as are CHEM 223 and CHEM 243 or their equivalents, for the physical chemistry courses. If students take CHEM 222* instead of CHEM 234, they will receive credit for one of the two laboratories that are required but they must have a total of 25 Chemistry credits for the Minor.

Inorganic Chemistry

CHEM 281	Inorganic Chemistry 1
CHEM 371	Inorganic Chemistry Laboratory*
CHEM 381	Inorganic Chemistry 2
CHEM 591	Bioinorganic Chemistry

Analytical Chemistry

CHEM 257D1	Introductory Analytical Chemistry*
CHEM 257D2	Introductory Analytical Chemistry*
or CHEM 277D1	Analytical Chemistry*
CHEM 277D2	Analytical Chemistry*
CHEM 307	Analytical Chemistry of Pollutants
CHEM 367	Instrumental Analysis 1
CHEM 377	Instrumental Analysis 2

Organic Chemistry

CHEM 302	Introductory Organic Chemistry 3
CHEM 352	Structural Organic Chemistry
CHEM 362	Advanced Organic Chemistry Laboratory*
CHEM 382	Organic Chemistry: Natural Products

Physical Chemistry

CHEM 345	Molecular Properties and Structure 1
CHEM 355	Molecular Properties and Structure 2
CHEM 393	Physical Chemistry Laboratory 2*
CHEM 455	Introductory Polymer Chemistry

Please consult the program coordinators for more information: Professor D. Cooper (Chemical Engineering) and Dr. G. Wilczek (Chemistry). A passing grade for courses within the Minor is a C.

8.6.5 Computer Science Courses and Minor Program

The School of Computer Science offers an extensive range of courses for Engineering students interested in computers. The course explicitly for Engineering students (COMP 208) and other courses in the core of the various Engineering programs are listed below. Descriptions of these and other Computer Science courses can be found on Class Schedule or in the Courses section.

COMP 202	Introduction to Computing 1
COMP 208	Computers in Engineering
COMP 250	Introduction to Computer Science
COMP 302	Programming Languages and Paradigms

Engineering students may obtain a Minor in Computer Science as part of their B.Eng. degree by satisfying the 24-credit requirement described below. In general, some complementary courses within Engineering departmental programs may be used to satisfy some of these requirements, but the Minor in Computer Science will require at least 12 extra credits from Computer Science (COMP) courses beyond those needed for the B.Eng. degree. Students should consult their departments about the use of complementaries, and credits that can be double counted.

Students should see the Undergraduate Secretary in the Lorne Trotter Building, Room 2060, to obtain the appropriate forms and to make an appointment to see the Minor adviser for approval of their course selection. Forms must be approved before the end of the Add/Drop period of the student's final term.

For further information, please check the School of Computer Science Website, www.cs.mcgill.ca.

Minor in Computer Science for Engineering Students

The program must consist of 24 credits, from courses passed with a grade of C or better, as follows:

Required Course (6 credits)

COMP 206	(3)	Introduction to Software Systems
COMP 302	(3)	Programming Languages and Paradigms

Complementary Courses (18 credits)

3 credits – one of the following courses:

- COMP 203 (3) Introduction to Computing 2
- COMP 250 (3) Introduction to Computer Science

3 credits – one of the following courses:

- COMP 273 (3) Introduction to Computer Systems
- ECSE 221 (3) Introduction to Computer Engineering

3 credits – one of the following courses:

- COMP 350 (3) Numerical Computing
- MECH 309 (3) Numerical Methods in Mechanical Engineering

9 credits chosen from Computer Science courses numbered 251 or at the 300 level or higher. Courses from other departments making considerable use of computing and approved by the School of Computer Science may also be selected. Students should consult with their advisers about counting specific courses.

Note:

- A. COMP 202 and COMP 208 (compulsory for some Engineering students) do not form part of the Minor.
- B. COMP 203 and COMP 250 are considered to be equivalent from a prerequisite point of view, and cannot both be taken for credit.
- C. COMP 208 may be taken before COMP 250, however, it cannot be taken for credit in the same term or afterwards.

8.6.6 Construction Engineering and Management Minor

Students in the Faculty of Engineering may obtain a Minor in Construction Engineering and Management by completing 24 to 25 credits chosen from the required and complementary courses listed below. For further information, contact Professor L. Chouinard at (514) 398-6446, Room 488, Macdonald Engineering Building.

Prerequisites:

- CIVE 208 Civil Engineering Systems Analysis or an equivalent course in Operations Research
- CIVE 302 Probabilistic Systems or equivalent
- COMP 208 Computers in Engineering or equivalent
- MIME 310 Engineering Economy

Requirements:

The 24 to 25 credits listed below must be completed with a grade of C or higher in order to fulfill the requirements of the Minor.

1. Management and Law: 15 credits, as follows:

- FACC 220 (3) Law for Architects and Engineers
- INDR 294 (3) Introduction to Labour-Management Relations
- MGCR 211 (3) Introduction to Financial Accounting
- MGCR 341 (3) Finance 1

and one of:

- CIVE 324 (3) Construction Project Management
- MECH 472 (3) Case Studies in Project Mgmt

2. Either 3 or 4 credits, as follows:

- a) 4 credits - Any two of the following relating to Building Structures:
 - ARCH 447 (2) Lighting
 - ARCH 451 (2) Building Regulations and Safety
 - ARCH 554 (2) Mechanical Services
 - CIVE 492 (2) Structures

or

- b) 3 credits - One of the following relating to Heavy Construction:
 - MIME 322 (3) Rock Fragmentation
 - MIME 333 (3) Materials Handling

3. Other Construction-Related Complementaries: 6 credits

Any two of the following:

- BUSA 462 (3) Management of New Enterprises
- CIVE 446 (3) Construction Engineering
- CIVE 527 (3) Renovation and Preservation: Infrastructure

- CIVE 586 (3) Earthwork Engineering
- ECSE 461 (3) Electric Machinery
- FINE 445 (3) Real Estate Finance
- MIME 520 (3) Stability of Rock Slopes
- MIME 521 (3) Stability of Underground Openings
- MPMC 321 (3) Mécanique des roches et contrôle des terrains

Total requirement: 24 or 25 credits

8.6.7 Economics Minor

The Minor consists of 18 credits in courses given in the Economics Department. It consists of required courses and complementaries. In addition, it is presumed that all Engineering students will have a sufficient background in statistics. Engineering Economy, MIME 310, does not form part of this Minor. For more information see the Department of Economics, Room 443, Leacock Building.

Required Courses (9 credits)

- ECON 230D1* Microeconomic Theory
- ECON 230D2* Microeconomic Theory
- ECON 209** Macroeconomic Analysis and Applications

Complementary Courses (9 credits) from:

- ECON 225 Economics of the Environment
- ECON 302D1 Money and Banking
- ECON 302D2 Money and Banking
- ECON 303D1 Canadian Economic Policy
- ECON 303D2 Canadian Economic Policy
- ECON 305 Industrial Organization
- ECON 306D1 Labour Economics and Institutions
- ECON 306D2 Labour Economics and Institutions
- ECON 308 Governmental Policy Towards Business
- ECON 311 United States Economic Development
- ECON 313 Economic Development 1
- ECON 314 Economic Development 2
- ECON 316 The Underground Economy
- ECON 321 The Quebec Economy
- ECON 326 Ecological Economics
- ECON 329 Economics of Confederation
- ECON 330D1 Macroeconomic Theory
- ECON 330D2 Macroeconomic Theory
- ECON 331 Economic Development: Russia and USSR
- ECON 335 The Japanese Economy
- ECON 337 Introductory Econometrics 1
- ECON 344 The International Economy, 1830 - 1914
- ECON 345 The International Economy Since 1914
- ECON 347 Economics of Climate Change
- ECON 348 Urban Economics
- ECON 404 Transportation
- ECON 405 Natural Resource Economics
- ECON 406 Topics in Economic Policy
- ECON 408D1 Public Sector Economics
- ECON 408D2 Public Sector Economics
- ECON 411 Economic Development: A World Area
- ECON 416 Topics in Economic Development 2
- ECON 420 Topics in Economic Theory
- ECON 423D1 International Trade and Finance
- ECON 423D2 International Trade and Finance
- ECON 426 Labour Economics
- ECON 434 Current Economic Problems
- ECON 440 Health Economics
- ECON 447 Economics of Information and Uncertainty
- ECON 467D1 Econometrics - Honours
- ECON 467D2 Econometrics - Honours
- ECON 525 Project Analysis
- ECON 534 Pension Crisis
- ECON 546 Game Theory

Mining Engineering students will be permitted to include Mineral Economics (MIME 526) among these 18 credits.

* Students may, with consent of instructor, take ECON 250D1/ ECON 250D2 Introduction to Economic Theory: Honours, in place of ECON 230D1/ECON 230D2.

** This requirement is waived for students who choose ECON 330D1/ECON 330D2 from the list of complementaries. Students may **not** take both ECON 209 and ECON 330D1/ ECON 330D2.

8.6.8 Environmental Engineering Minor

The Environmental Engineering Minor is offered for students in Engineering and in the Department of Bioresource Engineering wishing to pursue studies in this area.

The Minor program consists of 21 credits in courses. Up to a maximum of 12 credits of coursework in the student's B.Eng. program may double-count with the Minor.

To complete the Minor in Environmental Engineering, students must obtain a grade of C or better in all approved courses in the Minor, and satisfy the requirements of the Minor and of their departmental program.

The Environmental Engineering Minor Program is administered by the Department of Civil Engineering and Applied Mechanics. Further information may be obtained from Professor Gehr, Room 487, Macdonald Engineering Building.

Note: Not all courses listed are offered every year. Students should consult with the department concerned about the courses that are offered in a given year.

Minor Requirements (21 credits)

Introductory course (3 credits minimum) – one of:

CHEE 230 (3) Environmental Aspects of Technology
CIVE 225 (4) Environmental Engineering

plus a minimum of 18 credits,

EITHER

15 credits* (minimum) Engineering courses and
3 credits (minimum) Non-Engineering courses, from the course lists below:

* A minimum of 6 credits must be from outside the student's principal departmental program. A maximum of 6 credits of research project courses may be counted towards this category provided the project has sufficient environmental engineering content (project proposal requires approval of project supervisor and Coordinator of the Minor).

OR

15 credits specified for the [section 15.2.2 "Barbados Field Study Semester"](#), provided the project for CIVE/AGRI/URBP 519 Sustainable Development Plans has sufficient environmental engineering content (project proposal requires approval of the Coordinator of the Minor) and

3 credits chosen from the Engineering Course list below, excluding CHEE 496.

Engineering Course List (Environmental Engineering Minor)

Agricultural Engineering (Macdonald Campus)

BREE 217 (3) Hydrology and Water Resources
(not open to students who have passed
CIVE 323)
BREE 322 (3) Organic Waste Management
BREE 416 (3) Engineering for Land Development
BREE 518 (3) Bio-Treatment of Wastes

Chemical Engineering

CHEE 351 (3) Separation Processes
CHEE 370 (3) Elements of Biotechnology
CHEE 430 (3) Technology Impact Assessment (not open to
students who have passed WILD 437)
CHEE 452 (3) Particulate Systems (offered in alternate years)
CHEE 496 (3) Environmental Research Project
CHEE 591 (3) Environmental Bioremediation

Civil Engineering and Applied Mechanics

CIVE 225 (4) Environmental Engineering
CIVE 323 (3) Hydrology and Water Resources (not open to
students who have passed BREE 217)
CIVE 421 (3) Municipal Systems
CIVE 430 (3) Water Treatment and Pollution Control
CIVE 451 (3) Geoenvironmental Engineering
CIVE 526 (3) Solid Waste Management
CIVE 550 (3) Water Resources Management
CIVE 553 (3) Stream Pollution and Control
CIVE 555 (3) Environmental Data Analysis
CIVE 572 (3) Computational Hydraulics
CIVE 574 (3) Fluid Mechanics of Water Pollution
CIVE 577 (3) River Engineering
CIVE 585 (3) Groundwater Hydrology

Mechanical Engineering

MECH 434 (3) Turbomachinery
MECH 447 (3) Combustion
MECH 526 (3) Manufacturing and the Environment
MECH 534 (3) Air Pollution Engineering

Mining and Materials Engineering

MIME 412 (3) Corrosion and Degradation
MIME 451 (3) Environmental Controls: Met'l Plants
MPMC 327 (3) Hydrogéologie appliquée
MPMC 328 (3) Environnement et gestion des rejets miniers

Urban Planning

URBP 506 (3) Environmental Policy and Planning

Non-Engineering Course List (Environmental Engineering Minor)

Agricultural Sciences (Macdonald Campus)

MICR 230 (3) Introductory Microbiology (not open to students
who have passed CHEE 370)
MICR 331 (3) Microbial Ecology (not open to students who
have passed CHEE 370)
MICR 341 (3) Mechanisms of Pathogenicity
SOIL 210 (3) Principles of Soil Science (not part of the Minor
for Agricultural Engineering Students)
SOIL 331 (3) Soil Physics
WILD 375 (3) Issues: Environmental Sciences
WILD 415 (2) Conservation Law
WILD 437 (3) Assessing Environmental Impact (not open to
students who have passed CHEE 430)
WOOD 420 (3) Environmental Issues: Forestry
ZOOL 315 (3) Science of Inland Waters

Anthropology

ANTH 206 (3) Environment and Culture

Atmospheric and Oceanic Sciences

ATOC 210 (3) Introduction to Atmospheric Science (not open
to students who have passed GEOG 321)
ATOC 220 (3) Introduction to Oceanic Sciences

Biology

BIOL 205 (3) Biology of Organisms
BIOL 432 (3) Limnology

Chemistry

CHEM 307 (3) Analytical Chemistry of Pollutants

Earth and Planetary Sciences

EPSC 243 (3) Environmental Geology (not open to students
who have passed or who will take EPSC 221)
EPSC 549 (3) Groundwater Hydrology

Economics

ECON 225 (3) Economics of the Environment
ECON 326 (3) Ecological Economics
ECON 347 (3) Economics of Climate Change

Geography

- GEOG 200 (3) Geographical Perspectives: World Environmental Problems
 GEOG 201 (3) Introductory Geo-Information Science
 GEOG 203 (3) Environmental Systems
 GEOG 205 (3) Global Change: Past, Present and Future
 GEOG 302 (3) Environmental Management 1
 GEOG 308 (3) Principles of Remote Sensing
 GEOG 321 (3) Climatic Environments (not open to students who have passed ATOC 210)
 GEOG 404 (3) Environmental Management 2

Law

- CMPL 580 (3) Environment and the Law

Microbiology and Immunology

- MIMM 211 (3) Introductory Microbiology

Religious Studies (Macdonald Campus)

- RELG 270 (3) Religious Ethics and the Environment

Sociology

- SOCI 328 (3) Environmental Sociology

8.6.9 Minor in Environment

Environmental studies involve the interactions between humans and their natural or technological environment. Environmental problems are frequently comprehensive and complex, and their satisfactory solutions require the synthesis of humanistic, scientific, and institutional knowledge.

The Minor in Environment is offered and administered by the McGill School of Environment (MSE). Inquiries should be directed to Mr. Peter Barry, MSE Program Coordinator, e-mail pete.barry@mcgill.ca or telephone (514) 398-4306.

Since the program comprises a total of 18 credits for the Minor, additional credits beyond those needed for the B.Eng. degree are required. Students wishing to receive the Minor should prepare a program and have it approved by both their regular Engineering adviser and the MSE adviser. For program details, see "[Minor in Environment](#)", in [section 14.5](#).

8.6.10 Management Courses and Minor Program

Many engineers begin to assume management functions within a few years of graduation. They can, at this stage, take up the study of economics, behavioural science and other management subjects. Students wishing to include such studies in their undergraduate program can take suitable courses from Engineering and Management.

Engineering Economy MIME 310 introduces the concept of cost into evaluations of engineering projects and architectural proposals. Prerequisite to entry to this Minor is a grade of C or better in MIME 310.

Several additional courses are available, subject to timetable requirements, from the core program of the Desautels Faculty of Management. Other courses from the Management core program have considerable overlap with Engineering courses and thus are not available to Engineering students.

A student embarking on the Minor must be prepared to take credits additional to the normal Engineering program. The student may choose the non-technical complementary course(s) required in his/her program from List B of the Minor in Management, but under no circumstances will more than 6 credits of non-technical complementary courses count towards both the Engineering program and the Minor. Students considering this Minor should consult their adviser or the Faculty of Engineering, Student Affairs Office, Engineering Student Centre, Frank Dawson Adams, Suite 22.

Detailed information on this minor can be found in the Faculty of Management; see [Minor in Management](#), in [section 9.10.2](#).

8.6.11 Materials Engineering Minor

Engineering students may obtain a Minor in Materials Engineering by completing 24 credits chosen from the required and complementary courses listed below. By a careful selection of complementary courses, Engineering students may obtain this Minor with a minimum of 15 additional credits. It should be noted that some departments (e.g., Mechanical Engineering) will allow their students to take courses from this list providing they complete the Minor prior to graduation. For further information, please contact the coordinator, Prof. J. Szpunar, Room 2M020, Wong Building.

Required Courses (15 credits)

- MIME 260 Materials Science and Engineering
 or CHEE 380 Materials Science
 MIME 367 Electronic Properties of Materials
 MIME 465 Ceramic Engineering
 CHEE 481 Polymer Engineering
 CHEE 484 Materials Engineering

Complementary Courses (9 credits)

Three courses to be chosen from the following list:

- CHEE 487 Chemical Processing: Electronics Industry
 CHEM 455 Introductory Polymer Chemistry
 ECSE 545 Microelectronics Technology
 MECH 530 Mechanics of Composite Materials
 MIME 360 Phase Transformations: Solids
 MIME 361 Liquid State Processing of Materials
 MIME 412 Corrosion and Degradation
 MIME 560 Joining Processes
 MIME 561 Advanced Materials Design
 MIME 563 Hot Deformation of Metals
 MIME 566 Texture, Structure & Properties of Polycrystalline Materials
 MIME 569 Electron Beam Analysis of Materials

8.6.12 Mathematics Minor

The Minor in Mathematics for students in the Faculty of Engineering requires satisfactory passes in 24 credits of approved courses in Mathematics not including the following:

- MATH 247 (and MATH 223)
 MATH 262 (and MATH 222 and MATH 260)
 MATH 263 (and MATH 261 and MATH 315 and MATH 325)
 MATH 264 (and MATH 248 and MATH 265 and MATH 314)
 MATH 270
 MATH 271 (and MATH 266)
 MATH 319

At least 18 credits must be chosen from the Mathematics and Statistics courses approved for the Mathematics Major or Honours program, or from MATH 249, MATH 363, MATH 381. The remaining credits may be chosen from mathematically allied courses.

In addition to an Engineering adviser, each student in the Minor program must have an adviser designated by the Department of Mathematics and Statistics, normally beginning in the U2 year. The selection of courses for the Minor is to be done in conjunction with the Minor adviser. Please consult the Department of Mathematics and Statistics for an adviser.

8.6.13 Mining Engineering Minor

Students in Engineering may obtain a minor in Mining Engineering by completing 24 credits chosen from the required and complementary courses listed below.

One of the required courses is a work term for which enrollment may be limited. Interested students should contact the coordinator, Professor Hani Mitri, Room 121, Adams Building.

Required Courses (12 credits)

- MIME 200 Introduction to the Minerals Industry
 MIME 291 Industrial Work Period 2
 MIME 313 Mining Science and Technology Seminar
 MIME 322 Rock Fragmentation
 MIME 333 Materials Handling

Complementary Courses (12 credits)

Courses to be chosen from the following lists:

List A: Mining Engineering (minimum 6 credits)

MIME 320	Extraction of Energy Resources
MIME 323	Rock and Soil Mass Characterization
MIME 325	Mineral Industry Economics
MIME 341	Introduction to Mineral Processing
MIME 419	Surface Mining
MIME 426	Development and Services
MIME 520	Stability of Rock Slopes
MIME 521	Stability of Underground Openings
MIME 526	Mineral Economics

List B: Mechanical Engineering (maximum 6 credits)

MECH 497	Value Engineering
MECH 554	Microprocessors for Mechanical Systems
MECH 557	Mechatronic Design
MECH 572	Introduction to Robotics
MECH 573	Mechanics of Robotic Systems
MECH 577	Optimum Design

List C: Civil Engineering (maximum 6 credits)

CIVE 416	Geotechnical Engineering
CIVE 451	Geoenvironmental Engineering
CIVE 462	Design of Steel Structures
CIVE 463	Design of Concrete Structures
CIVE 527	Renovation and Preservation: Infrastructure

List D: Chemical Engineering (maximum 6 credits)

CHEE 453	Process Design
CHEE 455	Process Control
CHEE 484	Materials Engineering

8.6.14 Physics Minor

Students in Honours Electrical Engineering may obtain a Minor in Physics as part of their B.Eng. degree by satisfying the 18-credit requirement listed below:

PHYS 253	Thermal Physics
PHYS 357	Honours Quantum Physics 1
PHYS 457	Honours Quantum Physics 2

and at least 9 credits chosen from the following:

PHYS 332	Physics of Fluids
PHYS 362	Statistical Mechanics
PHYS 451	Honours Classical Mechanics 2
PHYS 514	General Relativity
PHYS 551	Quantum Theory
PHYS 557	Nuclear Physics
PHYS 558	Solid State Physics
PHYS 559	Advanced Statistical Mechanics
PHYS 562	Electromagnetic Theory
PHYS 567	Particle Physics

Students who take PHYS 357 and PHYS 457 can omit PHYS 271 from their normal Electrical Engineering program. Please consult the Department of Physics for an adviser.

8.6.15 Technological Entrepreneurship Minor

Engineering students may obtain a Minor in Technological Entrepreneurship by completing 6 courses (18 credits) as listed below. Up to two courses (6 credits) may be double-counted for credit towards the Humanities and Social Sciences Complementary Courses.

This Minor is offered jointly by the Faculties of Engineering and Management. It will appeal to those students who have a concept, process or product idea in mind and who want to explore the opportunity of commercializing it. It will also be of interest to students who have a general interest in entrepreneurship and intend to pursue a career in small and medium-sized high technology/engineering companies.

Students considering the Minor should consult with an adviser in the Faculty of Engineering, Student Affairs Office, Engineering Student Centre, Frank Dawson Adams, Suite 22.

Complementary Courses (18 credits)

any 6 courses (18 credits) from the following list:

BUSA 465 (3)	Technological Entrepreneurship
FACC 500 (3)	Technology Business Plan Design
FACC 501 (3)	Technology Business Plan Project
MGCR 423 (3)	Organizational Policy
MRKT 360 (3)	Marketing of Technology
ORGB 321 (3)	Leadership

8.6.16 Software Engineering Minor

This Minor will prepare an engineering student for a career in software engineering. It will provide a foundation in basic computer science, computer programming and software engineering practice.

The Minor consists of 24 credits (8 courses). Up to four of the courses (12 credits) may be double-counted for credit towards the B. Eng. degree in Electrical Engineering or Computer Engineering. Students in other programs may double-count up to three courses (9 credits).

Students considering this Minor should consult with an adviser in the Faculty of Engineering, Student Affairs Office, Engineering Student Centre, Frank Dawson Adams, Suite 22.

Required Courses (9 credits)

ECSE 221 (3)	Introduction to Computer Engineering
ECSE 321 (3)	Introduction to Software Engineering
ECSE 428 (3)	Software Engineering Practice

Complementary Courses (15 credits)

one course (3 credits), either:

COMP 203 (3)	Introduction to Computing 2
or COMP 250(3)	Introduction to Computer Science

At least one course (3 credits) must be selected from the following list of engineering courses:

CHEE 458 (3)	Computer Applications
CHEE 571 (3)	Small Computer Applications: Chemical Engineering
CIVE 460 (3)	Matrix Structural Analysis
CIVE 550 (3)	Water Resources Management
CIVE 572 (3)	Computational Hydraulics
ECSE 322 (3)	Computer Engineering
ECSE 420 (3)	Parallel Computing
ECSE 421 (3)	Embedded Systems
ECSE 422 (3)	Fault Tolerant Computing
ECSE 424 (3)	Human-Computer Interaction
ECSE 427 (3)	Operating Systems
ECSE 429 (3)	Software Validation
ECSE 526 (3)	Artificial Intelligence
ECSE 532 (3)	Computer Graphics
MECH 474 (3)	Selected Topics in Operations Research
MECH 524 (3)	Computer Integrated Manufacturing
MECH 539 (3)	Computational Aerodynamics
MECH 545 (3)	Advanced Stress Analysis
MECH 576 (3)	Computer Graphics and Geometrical Modelling

No more than two courses (6 credits) can be selected from the following list of courses offered by the School of Computer Science:

COMP 302 (3)	Programming Languages and Paradigms
COMP 335 (3)	Software Engineering Methods
*COMP 420 (3)	Secondary Storage Algorithms and Data Sources
COMP 421 (3)	Database Systems
COMP 424 (3)	Topics: Artificial Intelligence 1
COMP 426 (3)	Automated Reasoning
COMP 431 (3)	Algorithms for Engineers

Peter Todd; B.Com.(McG.), Ph.D.(Br. Col.) **Dean**

Emine Sarigöllü; B.A., M.B.A.(Bogazici), M.A., Ph.D.(Penn.)
Associate Dean, Student Affairs

Glenn Zabowski; B.Com., M.B.A.(McG.)
Director, BCom Program

9.1.3 The Faculty Then and Now

The Faculty was established in 1968, incorporating the Graduate School of Business with the School of Commerce of the Faculty of Arts and Science, where courses in commerce had been offered since 1906.

Since 1971 the Faculty has been located at the corner of Sherbrooke and McTavish, easily accessible to the community it serves, in the Samuel Bronfman Building, named in honour of the late Mr. Bronfman who, while a Governor of the University, made a donation which was key to its construction.

The Faculty has gained a worldwide reputation as one of Canada's leading international business schools and attracts top students and faculty members from every continent. The academic programs in Management offer strong international content in conjunction with a variety of functional specializations and the opportunity for students to participate in exchange programs with many leading universities in Europe, Asia, Australia, the United States and South America. This recognition of the global nature of business was further reinforced by the introduction of a Faculty Program in International Management as part of the BCom program in 1997.

In November 2005, the Faculty was named in honour of Marcel Desautels, who gave the largest donation to a business school in Canadian history.

9.1.4 Student Affairs Office

The Student Affairs Office provides assistance in interpreting records, including academic information and advice on the following: prerequisites and programs, degree requirements, registration, course change, procedures for withdrawal, deferred exams, supplemental exams, rereads, academic standing, inter-faculty transfer, exchange, year or term away, transfer credits, second programs, second degrees, scholarships, academic advising and graduation.

Special requests can be made, in writing, to the Director. For more information, please refer to our Website at www.mcgill.ca/bcom.

9.2 Faculty Admission Requirements

For information about admission requirements to the BCom program, please refer to the *Undergraduate Admissions Guide* at www.mcgill.ca/applying/undergrad.

For information about inter-faculty transfers, please refer to **Inter-Faculty Transfer, section 3.3.12**, as well as to the relevant information posted on the Student Affairs Office Website at

www.mcgill.ca/bcom/prospective/interfac-transfer and in the Student Affairs Office.

9.3 General Information

9.3.1 Aims of the BCom Program

The primary objective of the undergraduate program in management is to prepare students for effective professional and managerial careers. At a general level this preparation includes developing in students a capacity for critical thinking, for integrating knowledge across different disciplines, and for utilizing current theory in approaching practical business problems. Students are also expected to become comfortable with taking risks and working as part of a team, and to develop the necessary skills to lead others. At a more specific level, students must acquire the critical management competencies which will enable them to respond to the ever-changing, increasingly complex global marketplace.

The BCom curriculum offers students both breadth and depth. Breadth is achieved through a broad-based core of required courses which provide the necessary quantitative, analytical, and communication skills, while grounding students in applied theory and practice across the major management disciplines. Depth is achieved through specialized areas of study designed to meet the needs of a highly diverse student body with a wide range of career interests and priorities.

General Management (Concentration) students pursue focused study in at least two different areas. They must choose one Concentration in Management, and for their second area of study, they have two options: 1) choosing a second Concentration in Management; or 2) pursuing a Minor in another faculty.

Majors and Honours programs are available for students wishing to focus their study in primarily one area in order to get maximum exposure to their chosen field.

The Faculty Program in International Management allows students to pursue interdisciplinary study of a particular world region – East Asia, Latin America and the Caribbean, Western Europe, or North America. Language, social science, and humanities courses are taken, in combination with integrative, international topics in management courses, to expand understanding of other cultures and to gain the necessary perspective for an international business career.

9.3.2 Part-time BCom Program

Students taking fewer than 12 credits per term are considered to be part-time students. Such students generally follow their program through evening courses administered by the Centre for Continuing Education. The range of Management and non-Management course offerings in an evening program is more restricted than in the day program. It is not possible to complete certain Concentrations, Honours or Majors, or the Faculty Program by taking only evening courses. Further information on program requirements for students who change from the full- to part-time program, or vice versa, can be obtained from the Student Affairs Office by calling (514) 398-4068 or e-mailing bcom.mgmt@mcgill.ca.

9.3.3 Summer Studies

Students wishing to make up deficiencies in their background, or to accelerate their progress to the degree, may do so by taking summer courses at this University.

Each summer, from early May to mid-August, many Core courses and several elective courses are offered by the Desautels Faculty of Management for full credit. They are available to Management students, and to students from other faculties and universities with the necessary course prerequisites. The University also offers a number of summer courses in various disciplines at different levels. Information on Management summer courses is available from the Student Affairs Office at (514) 398-4068 or

bcom.mgmt@mcgill.ca, or from the Summer Studies Office, at (514) 398-5212 or summer.studies@mcgill.ca.

Students normally will be allowed to take only 6 credits in each of the two parts of Summer Session. Students who are not working and wish to follow a full-time period of study will be permitted to enroll for more than six credits per part only with special permission of the Director. In no circumstance will they be allowed to take more than 9 credits in either part of the Summer Studies, and may take no more than 18 credits in a single summer.

Should students wish to pursue courses at another institution, they must apply to the Director, BCom Program. Credit will be granted for such work only if it fits into the student's overall program, and if written permission to do such work for credit has been obtained in advance. A course which overlaps with course material already completed in the student's program, or a language course which does not substantially progress beyond corresponding language courses already taken by the student, will not receive credit approval. See [section 9.3.5 "Transfer Credit and Advanced Standing"](#) for more information about transferring credits.

9.3.4 International Student Exchange Program

Students are encouraged to participate in the International Student Exchange Program to gain a broader international perspective. Through this program, students may study and earn academic credits at over 50 universities in countries around the world. Exchange opportunities are open to students in all specializations.

More information may be obtained from the Student Affairs Office at (514) 398-4068, e-mail bcom.mgmt@mcgill.ca, or on the McGill Website at www.mcgill.ca/studyabroad.

9.3.5 Transfer Credit and Advanced Standing

Students who transfer course credit from another institution may transfer up to one third of the credits required in their degree program, including the Concentration, Major or Honours requirements under the following conditions:

- Only courses passed **with a grade of C or better at the host institution will be transferred**. Grades of C- are not acceptable.
- Grades of P or S are acceptable only if transferred from faculties within McGill.
- The letter grades applied by the former home institution or host institution (for exchanges and study away) take precedence over the numerical grades if provided.
- For exchange or study away purposes, it is required that course and credit approval is obtained before courses are taken at the host institution.
- The four-year program will require a minimum 81-credit residency.
- The three-year program will require a minimum 60-credit residency.

9.3.6 Career Services

Career Services prepares students for their integration into the workplace by providing them with the tools and resources necessary to clearly identify their 'brand', their career of choice, understand the hiring process and efficiently target their areas of interest.

Through one-on-one counseling sessions with Career Advisers, students develop a job search strategy to help them achieve their objectives. Sessions on self-assessment, résumé and cover letters, networking, informal interviews, cold calling, interview preparation, negotiating and action planning prepare students to the process of finding the job "that fits them".

Career Services coordinates employer development visits in Montreal, Toronto, New York and Hong Kong. Through these visits students have the opportunity to tour company facilities, network with employees and learn about their industry of choice. Employer representatives also attend the yearly Career Fair to showcase their firms and meet potential candidates.

The Career Services student liaison committee works in partnership with Career Services to offer a gamut of complimentary activities. Peer advisers and peer résumé review, mock interviews and technical workshops facilitated by graduating students with field experience provide further one-on-one assistance. Incoming students are encouraged to participate in the Professional Development Series, where they will have the opportunity to meet business leaders and alumni and learn about a variety of career options in business.

Internships are highly recommended and provide students with the opportunity to apply their theoretical knowledge with hands-on work experience. Upon completion of an internship, students submit a written report reflecting their experience and what abilities and core competencies they have gained.

Industry guides, an extensive web-site and electronic newsletters are tools that the Career Services will continue to build upon to provide BCom students the most up to date information on trends, employment opportunities and career options.

9.3.6.1 Professional Development Series

The Professional Development Series is a set of workshops provided by the Management Undergraduate Society (MUS) in collaboration with Career Services. The series is designed to provide students with the skills and knowledge necessary to succeed in the job search process and in the workplace. Workshops range from Effective Interviewing Techniques and Presentations, Résumé and Cover Letter Workshops, Non-Traditional Careers and Careers in Finance to Non-Profit Sector and Consulting.

9.3.7 Management Undergraduate Society

The Management Undergraduate Society (MUS) represents full time undergraduate students in the Desautels Faculty of Management and hosts a wide range of events, activities and resources, which enhance student life and learning in the faculty. Such activities aim to assist with the academic requirements of the BCom program, to provide social networking opportunities, and to help with career placement. Through extra-curricular involvement with the MUS, students increase the value of their education and are provided with the opportunity to gain essential skills that are directly applicable in the business world. There are over 150 appointed positions for students in affiliation with the MUS, as well as eleven elected executive positions. These positions give students the opportunity to get involved, meet new people, and enhance their university experience.

Extracurricular events and services provided by the MUS include: Management Welcome Week, The Commerce and Administration Students Charity Organization (CASCO), Management Winter Carnival, Management Achievement Awards Luncheon, Jeux du Commerce/Commerce Games, P[h]ashion, the AIDS benefit fashion show, the Cancer Auction, a Faculty newspaper and magazine, a yearbook and a Graduation Ball. The MUS is also the umbrella organization under which the McGill Investment Club, the Information Systems Club, the Marketing Network, and the McGill Accounting Society all operate. Each club organizes career information sessions, guest speakers, peer tutorial programs, social and other activities that complement regular classes. Please visit www.musonline.com for additional information.

9.4 BCom Degree Requirements

9.4.1 Academic Requirements for Graduation

Each student in the Desautels Faculty of Management must be aware of the faculty regulations as stated in this Calendar and on the McGill and BCom Websites. While departmental and Faculty advisers and staff are always available to give advice and guidance, the ultimate responsibility for completeness and correctness of course selection and registration, for compliance with, and completion of, program and degree requirements, and for the observance of regulations and deadlines **rests with the student.** It

is the student's responsibility to seek guidance from the Student Affairs Office if in any doubt; misunderstanding or misapprehension will not be accepted as cause for dispensation from any regulation, deadline, program or degree requirement.

A student is eligible for graduation upon satisfactory completion of the full number of credits indicated in the letter of acceptance, subject to the curriculum and CGPA (normally 2.00; 3.00 for Honours) requirements. For students entering with a CEGEP Diploma, the number of credits will generally be 90. Students from outside the province of Quebec who have not completed the equivalent of CEGEP graduation will normally be required to complete 120 credits.

All students are expected to conform to the curriculum set out below. It is the student's responsibility to make sure his/her course of study conforms with the curriculum requirements as described. A student wishing to depart from that program must obtain written permission from the Director.

A student who has transferred with advanced standing to the Desautels Faculty of Management from another university is normally required to complete a minimum of 60 credits while registered in the Bachelor of Commerce program, including such required courses as are deemed necessary, to become eligible for the degree of Bachelor of Commerce.

Completion of the 90-credit degree requirements normally will require three years of study. A maximum of five years is permitted for completion of the requirements for the degree.

9.4.2 Academic Advising

Students entering the Faculty for the first time are required to attend an Orientation and Advising Session during the last week of August, at which time the staff from the BCom Office provide information on all aspects of the program. Students who have had difficulty registering for their courses have the opportunity to resolve the problems after this session.

For a detailed description of advising and registration procedures, students should refer to [Registration, section 3.3](#), and [Advising and Support, section 4](#), *Welcome to McGill*, which they receive upon acceptance from Enrolment Services, as well as the Student Affairs Website, www.mcgill.ca/bcom.

Academic advising for all returning students takes place in February and March for the upcoming academic year.

"Drop-in" advising is available in the Student Affairs Office from mid-August until the end of September. Appointments may be made as of October 1, to discuss programs of study with the advisers. Counselling is available throughout the year with area coordinators to discuss potential career paths.

In February, an Information Session takes place which aids the student to select a course of study for specialization.

In March, students continuing in the BCom program plan their studies for the following year using the requirements as listed in the Calendar, or in the Degree Evaluation Module (DEV) available through Minerva, as a guide to their course selection. Advice is available in the Student Affairs Office for students having difficulty. Students register on-line using Minerva at www.mcgill.ca/minerva-students.

General Management students choosing to do a Minor in another Faculty as their second area of study should meet with the appropriate department adviser to plan their courses. **It should be noted that Minors must have a minimum of 18 credits not overlapping with other program requirements.**

Students taking the Minor, Major, or Honours in Economics **MUST** see an adviser in the Student Affairs Office for approval of their program.

Students in the Major Concentration or Minor in Mathematics, or Statistics, must have their Study Plan Form initially authorized by the appropriate Department Adviser prior to submission to the BCom Office.

Faculty Program in International Management students should meet with the appropriate adviser(s), Giulia Campofredano or Heather McCombie, in the Desautels Faculty of Management at least once a year to plan their course of study.

Students continuing in the part-time (evening) BCom program may request advice from Ron Critchley or Helen Van Eyk.

Students requesting general information about the program, or encountering difficulties (academic or personal) during the session, should contact an adviser.

9.4.3 Registration

Program Selection: New students must select their area(s) of specialization on-line using Minerva before they may register for courses. The program options available are found in the "*Change your Curriculum*" module in the Student Menu.

Course Selection: Full-time students must register for courses on-line using Minerva. Additional information for new students is distributed at the time of admission and is also available on the Faculty Website at www.mcgill.ca/management under Degree Programs - BCom - Accepted Students and www.mcgill.ca/student-records.

Information for returning students and part-time students is available in the BCom Office as of March.

Course Change: Students who wish to change the courses for which they are registered within the course change period must do so on-line using Minerva.

Withdrawals: Students wishing to withdraw from a course after the course change deadline must do so on-line using Minerva by the withdrawal deadline. A grade of "W" will be indicated on the transcript. See the [Regulations Concerning Course Withdrawal, section 3.3.8](#), for details.

Approval to withdraw after the withdrawal deadline will be granted only in exceptional circumstances. A written request for such consideration, accompanied by substantial documentation, must be submitted to the Director.

Students whose circumstances require withdrawal from their complete program should see an adviser in the BCom Office.

9.4.4 Course Overlap

Students will not receive credit towards their degree for any course that overlaps in content with a course taken for credit at McGill, CEGEP, at another university, or advanced placement exams, Advanced Level results, International Baccalaureate Diploma, or French Baccalaureate Diploma.

It is the student's responsibility to consult the Student Affairs Office as to whether or not credit can be obtained and to be aware of exclusion clauses specified in the course description in the Calendar. Please refer to the following Website for specific information about advanced standing credits and McGill course exemptions: www.mcgill.ca/student-records/transferecredits.

Credit for statistics courses will be given with the following restrictions:

- Credit will be given for ONLY ONE of the following statistics courses: AEMA 310, BIOL 373, ECON 227 (max. 3 cr.), ECON 257D1/ECON 257D2, GEOG 202, GEOG 351, MATH 204, MATH 324, MATH 357, MGCR 271, PSYC 204, SOCI 350.
- Students who have already received credit for MATH 324 or MATH 357 will NOT receive credit for any of the following: AEMA 310, AEMA 411, BIOL 373, ECON 227 (max. 3 cr.), ECON 257D1/ECON 257D2, EPSC 215, GEOG 202, GEOG 351, MATH 203, MATH 204, MGCR 271, MGCR 272, PSYC 204, PSYC 305, SOCI 350.
- For 500-level statistics courses not listed above, students must consult a program adviser to ensure that no significant overlap exists. Where such overlap exists with a course for which the student has already received credit, credit for the 500-level course will not be allowed.
- Credit for statistics courses offered by faculties other than Management requires the permission of the Director.
- PSYC 204 may not be taken if a grade of 75% was received in an equivalent course completed at CEGEP.

Credit for computer courses will be subject to the following restrictions:

- Credit for courses offered by the School of Computer Science is governed by rules specified in its individual course descriptions.
- Credit for computer courses offered by faculties other than Management requires the permission of the Director.
- No 100-level computer courses will be completed for credit.

Credit for economics courses will be subject to the following restrictions:

- A maximum of 6 credits will be granted for Freshman Economics courses.
- A maximum of 6 credits will be granted for ECON 230D1/ECON 230D2, ECON250D1/ECON 250D2, and MGCR 293.
- A maximum of 6 credits will be granted for ECON 330D1/ECON 330D2, ECON 352D1/ECON352D2, and ECON 295.
- ECON 208 and ECON 209 are not permitted in the 90-credit program.

9.4.5 Electives

Non-Management Electives: Students completing two Concentrations, or Majors in Accounting, Finance, Information Systems, Labour-Management Relations, or Marketing, must take a minimum of 6 credits of Non-Management electives. This requirement does not apply to those completing a Minor, a Major in Economics, Mathematics, Statistics, or Psychology, or an Honours or Joint Honours program.

Non-Management electives may be chosen from a broad range of Faculties and departments, subject to the exclusions of "[Course Overlap](#)", [section 9.4.4](#) regarding statistics, computer, and economics courses, and the restrictions listed below.

Note 1: Quantitative Methods, Statistics, and Research courses offered by any department must be approved by the Director prior to registration in the course. Failure to obtain the necessary approval will result in the course being excluded (E) from the credit count.

Note 2: A maximum of 6 credits across all Faculties may be taken in Remedial English and/or English as a Second Language. The relevant subject codes are EAPR, ESLN, EDEC, CEEN, and C EGL.

Faculty constraints:

Agriculture & Environmental Sciences - all courses require approval by an Adviser in the BCom Office.

Arts - all courses are approved, subject to "[Course Overlap](#)", [section 9.4.4](#) and the above notes, with a maximum of 6 credits approved in EAPR, ESLN, EDEC, CEEN, and C EGL (combined), or SWRK. ECON 208 and ECON 209 may not be taken for credit within the BCom program.

Continuing Education - a maximum of 6 credits are approved from the language courses offered; no credit will be granted for other CCE courses with subject codes beginning with a "C", such as CCTR or CMIS.

Education - a maximum 6 credits are approved from the following subject codes (combined): EDEA 201, 204, 205, 296, 304, 305, 307, 496, 497; EDEC 200, 202, 205, 208, 236, 239, 241, 242, 247, 248, 260, 261, 305, 308, 309, 403; EDEE 325; EDEM 220; EDER 207, 209, 309, 394, 395, 461, 473, 494; EDES 366; EDKP 205, 206, 261, 292, 293, 303, 330, 391, 395, 566; EDPC 510; EDPE 377; EDPE 526.

No courses are approved from subject codes: EDET, EDFC, EDFE, EDPT or ED SL.

Engineering - most courses in subject codes ARCH, CHEE, CIVE, ECSE, MECH, MIME, URBP with approval of an Adviser.

No courses are approved from subject codes FACC or MPMC.

The following courses are not approved: CHEE 291, 360, 462; CIVE 210, 432; ECSE 443; MECH 201, 260, 262, 289; MIME 202, 209, 221, 280, 290, 291, 310, 380, 392, 480, 481, 494.

School of the Environment - all courses are approved.

Music - all courses are approved in subject codes MUGT, MUHL, MUMT, MUPP, MUSR, MUTH and MUAR (taught by Arts).

A maximum of 6 credits is approved from the following (combined): MUCO, MUCT, MUEN, MUIN, MUIT, MUJZ, MUPG and MUSP.

Religious Studies - all courses are approved.

Science - all courses are approved, subject to "[Course Overlap](#)", [section 9.4.4](#) and the above note 1, except COMP 102; MATH 111, 112, 122, 123, 133, 139, 140, 141, 150, 151, 152 and 203.

A maximum 6 credits may be taken from the World of Chemistry courses CHEM 150, 160, 170, 180.

Free Electives: Subject to the requirements and restrictions for Non-Management electives as outlined above, all remaining elective credits may be taken in any Faculty, Management or otherwise.

9.4.6 Course Taken Under the Satisfactory/Unsatisfactory Option

Students may select or cancel the S/U option only during registration or the course change period through a request to the BCom Office. All S/U credits will be excluded when calculating the Grade Point Average. This option may only be used for **elective courses**, one course per term, to a maximum of 10% of the total credits taken at McGill to fulfill the degree requirements. Careful consideration should be given before using this option as it can affect scholarship and award consideration, where a minimum of 27 graded credits are required, as well as future admission to law or graduate schools.

For more information and restrictions, please refer to [Courses Taken under the Satisfactory/ Unsatisfactory \(S/U\) Option](#), [section 3.3.6](#).

9.4.7 Academic Standing

Academic standing is based primarily on students' cumulative grade point averages (CGPA), but may also be affected by their term grade point averages (TGPA). Academic standing is assessed in January for the Fall term, in May for the Winter term, and in September for the Summer term. Academic standing in each term determines if students will be allowed to continue their studies in the next term and if any conditions will be attached to their registration.

Decisions about academic standing in the Fall term are based only on grades that are available in January. Grades for courses in which students have deferred examinations and Fall-term grades for courses that span the Fall and Winter terms do not affect academic standing for the Fall term, even though they will ultimately affect students' Fall TGPAs. Therefore, academic standings for the Fall term are designated as "interim" and should be interpreted as advisory. Note that interim standing will not appear on external transcripts. **Interim standing decisions are mentioned below only if the rules for them differ from those for regular standing decisions.**

Satisfactory/Interim Satisfactory Standing

Students in satisfactory standing may continue in their program.

- New students are admitted to satisfactory standing.
- Students with a CGPA of 2.00 or greater are in satisfactory standing.

Probationary/Interim Probationary Standing

Students in probationary standing may continue in their program, but must carry a reduced load (maximum 14 credits per term) and raise their TGPA and CGPA to return to satisfactory standing (see above). They should see their faculty adviser to discuss their course selection.

Students in interim probationary standing may continue in their program, but should evaluate their course load and reduce it as appropriate. They are strongly advised to consult with Naomi Neuburger and Heather McCombie in the Student Affairs Office, before the withdrawal deadlines, about their course selection for the Winter term.

- Students who were previously in satisfactory standing will be placed in probationary standing if their CGPA falls between 1.50 and 1.99.
- Students who were previously in probationary standing will remain in probationary standing if their CGPA falls between 1.50 and 1.99 and their TGPA is 2.50 or higher, although the TGPA requirement will not apply to the Summer term.
- Students who were previously in interim unsatisfactory standing will be placed in probationary standing if their CGPA falls between 1.50 and 1.99 and their TGPA is 2.50 or higher.
- Students who were previously in unsatisfactory standing and who were readmitted to the Faculty by the Director will be placed in probationary standing if their CGPA is less than 2.00. To remain in the program, students must satisfy relevant conditions specified in their letter of readmission.

Unsatisfactory Readmitted Standing

Students who were previously in unsatisfactory standing and who were readmitted to the Faculty by the Director will have their standing changed to unsatisfactory readmitted standing. Their course load is specified in their letter of readmission, as are the conditions they must meet to be allowed to continue in their program. They should see their faculty adviser to discuss their course selection.

Unsatisfactory/Interim Unsatisfactory Standing

Students in interim unsatisfactory standing may continue in their program, but should evaluate their course load and reduce it as appropriate. They are strongly advised to consult a faculty adviser, before the withdrawal deadlines, about their course selection for the Winter term.

Students in unsatisfactory standing have failed to meet the minimum standards set by the Faculty. They may not continue in their program, and their registration will be cancelled.

Appeals for readmission by students in unsatisfactory standing should be addressed to the Director no later than July 15 for re-admission to the Fall term and November 15 for the Winter term. Readmission will be considered only when proof of extenuating circumstances that affected academic performance can be provided (e.g., medical or other documentation). Students in unsatisfactory standing for the second time must withdraw permanently.

- Students will be placed in unsatisfactory standing (Winter or Summer term) or interim unsatisfactory standing (Fall term) if their CGPA falls or remains below 1.50.
- Students who were previously in probationary, unsatisfactory readmitted, or interim unsatisfactory standing will be placed in unsatisfactory standing if their TGPA falls below 2.50 and their CGPA is below 2.00.
- Students who were previously in unsatisfactory standing and who were readmitted to the Faculty by the Director and who have not at least satisfied the conditions to attain probationary standing that were specified in the letter of readmission will be placed in unsatisfactory standing.

Incomplete Standings

Standing awaits deferred exam.
Standing Incomplete.

Students with incomplete standings in the Winter or Summer term may register for the Fall term, but their standing must be resolved by the end of the course change period for that term; otherwise, their registration will be cancelled. Students whose incomplete standing changes to satisfactory, probationary, or interim unsatisfactory standing may continue in the program. Students whose standing changes to unsatisfactory standing may not continue in their program, and their registration will be cancelled.

Students whose standing changes to unsatisfactory and who wish to ask for permission to continue in their program must make a request to the Director as soon as they are placed in unsatisfactory standing. Readmission will be considered only when proof of extenuating circumstances that affected academic performance can be provided (e.g., medical or other documentation).

Students whose standing is still incomplete by the end of course change period should immediately consult with the Student Affairs Office.

9.4.8 Examinations

The following is supplemental to that which is listed under [section 3.6 "Examinations"](#).

Supplemental Examinations

Supplemental examinations are **not** offered in undergraduate courses administered by the Desautels Faculty of Management. A student required to improve his/her standing in a course must repeat the course in a subsequent term, completing all course requirements to the satisfaction of the instructor.

Deferred Examinations

Students should complete an "Application for Deferred Final Examination", which can be found in the BCom Office, for deferred final examination privileges. Please refer to [Deferred Examinations, section 3.6.2.2](#) for more information on deferred final examinations.

9.4.9 Verification of Grades and Rereads

In accordance with the Charter of Student Rights, and subject to the conditions stated therein, students have the right to consult any written submission for which they have received a mark and the right to discuss this submission with the examiner.

In a case where a student feels that an error has been made in arriving at the final grade, a Verification of Grade Application must be completed in the Student Affairs Office, requesting the instructor to carry out a detailed check that all questions have been marked, and that the final grade has correctly been computed on the basis of the term work, final examination, etc. However, during the course of the term, any requests to have term work re-evaluated should initially be made directly to the instructor.

The Desautels Faculty of Management recognizes two types of rereads or reassessments:

- reread of coursework (term papers, mid-terms, assignments, quizzes, etc.);
- reread of a final exam.

In both cases, rather than re-correct the work and then grade it as they would have done themselves, reviewers assess the appropriateness of the original grade based, for example, on the application of the grading key to the student's work. If a grade is deemed unfair, it is changed, whether the new grade is higher or lower than the original - i.e. the reviewer's grade takes precedence over the original grade.

Reread of Coursework

Students may apply to the Student Affairs Office for rereads of written coursework. Students are assessed a fee of \$35.00 for such rereads. Requests for rereads involving group work require the consent of all members of the group, but only one reread fee will be assessed. It is strongly recommended that students consult with the instructor of the course before requesting a reread of coursework. Requests for rereads must be made within 10 working days of the date of return of the graded materials. Reassessments should normally be completed within 20 working days of the request.

Rereads of Final Exams

These rereads are administered by the Student Affairs Office. Students must apply in writing to the Student Affairs Office by March 31 for courses in the Fall term and by September 30 for courses in the Winter or Summer terms (these deadlines are strictly enforced, and no requests will be accepted past them). Students are assessed a fee of \$35.00 for such rereads. It is strongly recommended, but not required, that students consult with the instructor of the course before requesting a reread of a final exam.

Reassessments and rereads in courses not in the Desautels Faculty of Management are subject to the deadlines, rules, and regulations of the relevant faculty.

9.4.10 Awards and Honorary Designations

9.4.10.1 Honours and First-Class Honours

Graduating students registered in an Honours program may be awarded Honours or First-Class Honours under the following conditions:

- for Honours, the CGPA at graduation must be at least 3.0; overall and in the specified courses of the program
- for First-Class Honours, the CGPA at graduation must be at least 3.5; overall and in the specified courses of the program

Students in an Honours program whose GPA or CGPA is below 3.0, or who did not satisfy certain additional program requirements, must consult their adviser to determine if they are eligible to graduate in a program other than Honours.

9.4.10.2 Distinction and Great Distinction

Graduating students not in an Honours program may be awarded their degrees with **Distinction** or **Great Distinction** under the following conditions:

- students must have completed a minimum of 60 McGill credits towards the same degree to be considered
- for **Great Distinction**, the CGPA at graduation must be a CGPA of 3.5 or better
- for **Distinction**, the CGPA at graduation must be between 3.30 and 3.49
- in the case of transfer students or transfer credits, consideration is given to the quality of the work done elsewhere in addition to the CGPA requirement

9.4.10.3 Dean's Honour List

- Full-time students will be given the designation "Dean's Honour List" when their academic standing is in the upper 10% of the BCom student body. The designation, while carrying no monetary reward, is an official recognition of the student's achievements and will be noted on the student's transcripts. A minimum of 27 graded credits must have been completed during the academic year to be eligible; 14 credits in one term.
- The designation of Dean's Honour List for graduating students will be awarded by the Faculty to a maximum of 10% of its graduating students. The award will be made on the basis of the CGPA, with the minimum standard being set at a CGPA not lower than 3.50.

9.4.10.4 Scholarships, Prizes and Medals

Various scholarships, prizes and medals are open to returning and graduating students. Full details can be found in the Undergraduate Scholarships and Awards Calendar available from Enrolment Services or on the Web at www.mcgill.ca. For information, see section 3.8 "Scholarships and Student Aid".

Registered students are automatically considered by the Faculty Scholarships Committee for each award for which they are eligible, with the following exceptions for in-course scholarships: Sheila Wellington BMO Financial Group Awards, KPMG Scholarship, Commerce '55 Scholarships, Hyman Herbert Stein Award, Donald R. McRobie Award, Great-West Life & London Life Scholarship, Hugh Howson Memorial Prize, Dr. Alex Paterson Scholarship, Paul-Hervé Desrosiers Scholarship in Entrepreneurial Studies, Shirin Yeganegi Memorial Scholarship. The Stephen S. Goldbloom Memorial Prize is the exception for a graduating student. For these, the Faculty Scholarships Committee welcomes applications and recommendations, substantiated by curriculum vitae, from individual students, student groups and clubs. Such information should be forwarded to Heather McCombie, Academic Adviser, BCom Program. A minimum of 27 graded credits must have been completed in the year to be eligible; 14 credits in one term.

9.5 BCom Program Credit Structure

The Bachelor of Commerce (BCom) degree program is a three- or four-year program when taken full-time. It can also be pursued on a part-time evening basis.

Although the language of instruction at McGill is English, those who plan to be part of the Quebec business environment are reminded of the importance of competence in both written and oral French.

9.5.1 General Management Program (Concentrations)

2 Concentrations	90 credit	120 credit
Freshman Requirements	0	18
Core	36	36
2 Concentrations	30	30
Non-Mgmt Electives	6	18

Minors/Minor Concentrations for Management Students

Although only the Mathematics and Statistics Minors are outlined in this section, a wide variety of programs are available as listed in the sections for the Faculties of Arts and Science. Popular choices include Anthropology, Canadian Studies, Computer Science, English - Literature, Environmental Studies, Geological Sciences, German, History, International Development, Political Science, Women's Studies, etc.

Students interested in the Minor in Economics **must** see an adviser in the BCom Office for Faculty approval.

It should be noted that a minimum of 18 credits of the Minor's requirements must not overlap with any other part of the student's program.

9.5.2 Major or Honours Programs

Majors in Management	90 credit	120 credit
Freshman Requirements	0	18

9.6 120-credit Program, Freshman Course Distribution

Students admitted to a program requiring 97-120 credits (four years) register in a Freshman Year in which they must complete MATH 122 and MATH 123 (or equivalents) as well as the 12 credits of Complementary Courses specified below if advanced standing exemption has not been granted.

A minimum grade of C is required for all MATH and Freshman Complementary courses.

The Freshman Course Distribution is as follows:**U0 Required Courses** (6 credits)

MATH 122¹ (3) Calculus for Management
MATH 123 (3) Linear Algebra and Probability

U0 Complementary Courses (12 credits)

6 credits of Humanities or Language courses, as specified below:

Freshman Humanities/Languages Course List (6 credits)

Any course at the 100 or 200 level with these Subject Codes:

ARTH (Art History), CANS (Canadian Studies), CLAS (Classics), EAST (Asian Languages and Literature), ENGC (English Communications), ENGL (English), FREN (French), FRSL (French as a Second Language), GERM (German), HISP (Hispanic Studies), ITAL (Italian), JWST (Jewish Studies), PHIL (Philosophy), RELG (Religious Studies), RUSS (Russian)

And the following Faculty of Education courses: EDEA 204, EDEA 205; EDEC 205; EDEE 325.

Note: Chosen courses from the above-mentioned Subject Codes need to be approved by the offering Department. Any language courses offered through the Faculty of Arts, with approval from the appropriate department. Additional courses may be taken with approval of a Faculty Adviser.

6 credits of Social Science or Science courses, as specified below:

Freshman Social Sciences/Sciences Course List (6 credits)

Any course at the 100 or 200 level with these Subject Codes:

ANTH (Anthropology); ATOC (Atmospheric and Ocean Sciences); BIOL (Biology); CANS (Canadian Studies); CHEM (Chemistry) a maximum of 3 credits from CHEM 150, CHEM 160, CHEM 170, CHEM 180; ECON (Economics) excluding ECON 208, ECON 209, ECON 217, ECON 227, ECON 230, ECON 250, ECON 257, ECON 295; EPSC (Earth and Planetary Sciences) excluding EPSC 200, EPSC 201; GEOG (Geography); HIST (History); LING (Linguistics); PHGY (Physiology); PHYS (Physics); POLI (Political Science); PSYC (Psychology) excluding PSYC 204; SOCI (Sociology) excluding SOCI 211; SSMD (Social Studies of Medicine); WMST (Women's Studies).

Any course at the 200 level with these Subject Codes:

COMP (Computer Science), MATH (Mathematics) excluding MATH 203, MATH 204.

Note: Chosen courses from the above-mentioned Subject Codes need to be approved by the offering Department. Additional courses may be taken with approval of a Faculty Adviser.

U0 Elective Courses (12 credits)**Program Footnotes:**

1. Students considering a Major or Minor in Mathematics, or an Honours or Joint Honours program in Economics replace MATH 122 and MATH 123 with three of the following courses, or demonstrated proficiency through appropriate McGill Placement tests.

MATH 133 (3) Vectors, Matrices and Geometry
MATH 139 (4) Calculus
or MATH 140 (3) Calculus 1
MATH 141 (4) Calculus 2

Six of these credits would be counted in the Freshman Year requirements, the remaining credits would be counted as Humanities or Science Complementary.

Management students cannot receive credit for ACOM 150, COMP 102, ECON 208, ECON 209, ECON 217, ECON 227, ECON 230, ECON 250 or ECON 257, or MATH 203, MATH 204, as elective courses.

9.7 Management Core

All BCom students take the 36-credit Core curriculum set out below, except where modifications are specifically required by a Major or Honours program. Any other student wishing to deviate from this program must obtain written permission from the Director.

A grade of C or better is required for all Core courses. If a D is obtained in a Core course, the grade must be improved the following term.

9.7.1 Core Course Distribution**Required Courses** (36 credits)

ECON 295² (3) Macroeconomic Policy
MGCR 211 (3) Introduction to Financial Accounting
MGCR 222 (3) Introduction to Organizational Behaviour
MGCR 271¹ (3) Statistics 1
MGCR 293² (3) Managerial Economics
MGCR 331 (3) Information Systems
MGCR 341 (3) Finance 1
MGCR 352 (3) Marketing Management 1
MGCR 360 (3) Social Context of Business
MGCR 382 (3) International Business
MGCR 423 (3) Organizational Policy
MGCR 472 (3) Operations Management

Program Footnotes:

1. Students considering a Major Concentration in Mathematics, or a Major Concentration in Statistics, or a Minor in Statistics, are exempted from MGCR 271 by MATH 324. Students considering an Honours or Joint Honours Program in Economics replace MGCR 271 with ECON 257D1/ECON 257D2.
2. Students entering an Economics program are exempted from MGCR 293 by either ECON 230D1/ECON 230D2 (for the Majors program) or ECON 250D1/ECON 250D2 (for the Honours program); and are exempted from ECON 295 in U2 by either ECON 330D1/ECON 330D2 (for the Majors program) or ECON 352D1/ECON 352D2 (for the Honours Program) taken in U2.

Also note that:

- A maximum of 6 credits will be permitted within the BCom program for MGCR 293 and ECON 230D1/ECON 230D2 or ECON 250D1/ECON 250D2.
- A maximum of 6 credits will be permitted within the BCom program for ECON 295 and ECON 330D1/ECON 330D2 or ECON 352D1/ECON 352D2.

9.8 Concentrations (General Management Major)

In order to complete a Concentration, the student must achieve a grade of C or better in all the courses which comprise the Concentration. The student who has failed to earn 15 satisfactory credits will be required to embark on a new Concentration, repeat the course(s) in question or, where possible, to replace the course(s) with a satisfactory substitution from the Complementary courses of the Concentration.

In general, the student will begin taking courses from the chosen Concentration(s) in the U2 year.

An adviser is appointed for each Management Concentration to assist students in choosing a Concentration and provide additional information regarding course selection.

Second Concentration:

Students who choose to take a second Concentration will be required to complete 15 non-overlapping credits at a satisfactory level with a minimum grade of C in each course.

9.8.1 Accounting Concentration

Advisers: Professors L. Goldsman, F.W. Valliant

This Concentration is designed to meet the needs of Management students who want to have a good basic understanding of accounting but do not intend to become professional accountants or accounting specialists. It is primarily oriented towards users of financial information and emphasizes breadth of knowledge in a coherent selection of courses.

The Accounting Concentration complements or forms part of the BCom, General Management Program. The individual courses

in the Concentration also act as service courses for other areas in the Faculty for their Majors or Concentrations.

Required Courses (6 credits)

- ACCT 351 (3) Intermediate Financial Accounting 1
ACCT 361 (3) Intermediate Management Accounting 1

Complementary Courses (9 credits)

- ACCT 352 (3) Intermediate Financial Accounting 2
ACCT 354 (3) Financial Statement Analysis
ACCT 362 (3) Intermediate Management Accounting 2
ACCT 385 (3) Principles of Taxation
ACCT 434 (3) Topics in Accounting
ACCT 452 (3) Financial Reporting Valuation
ACCT 453 (3) Advanced Financial Accounting
ACCT 454 (3) Financial Reporting
ACCT 463 (3) Advanced Management Accounting
ACCT 475 (3) Principles of Auditing
ACCT 486 (3) Business Taxation 2

9.8.2 Entrepreneurship Concentration

Advisers: Professors A. Burlton, D. Lank

This Concentration is concerned with the genesis and development of entrepreneurial activities. It deals with the integration of marketing, finance, organization and policy in the development and expansion of business enterprise. Included are the evaluation of new business ventures, the role of acquisitions, and the strategic issues and operating problems at various stages of a firm's existence from its beginnings to maturity.

Complementary Courses (15 credits)

at least 6 credits from the following:

- BUSA 462 (3) Management of New Enterprises
BUSA 464 (3) Management of Small Enterprises
BUSA 465 (3) Technological Entrepreneurship

remaining credits to be selected from:

- ACCT 361 (3) Intermediate Management Accounting 1
ACCT 385 (3) Principles of Taxation
BUSA 364 (3) Business Law 1
FINE 442 (3) Capital Markets and Institutions
INSY 332 (3) Accounting Information Systems
INSY 432 (3) Information Technology in Business
INSY 454 (3) Technological Foundation for E-Commerce
MGPO 445 (3) Industry Analysis & Competitive Strategy
MGPO 450 (3) Ethics in Management
MGPO 460 (3) Managing Innovation
MRKT 438 (3) Brand Management
MRKT 452 (3) Consumer Behaviour
MRKT 453 (3) Advertising Management
MRKT 483 (3) International Marketing Management
ORGB 380 (3) Cross Cultural Management
or a 400-level course approved by the adviser.

9.8.3 Finance Concentration

Advisers: Professors A. de Motta, A. Durnev, S. Madan, W. Xu

This Concentration has been designed to provide understanding of key concepts in finance theory, financial institutions, investment analysis, risk management, and applied techniques. Graduates find a strong demand among financial organizations, governments, and non-financial firms where they pursue careers which lead to positions such as Managing Partner, Treasurer and V.P. Finance.

Required Courses (9 credits)

- FINE 342 (3) Finance 2
FINE 441 (3) Investments and Portfolio Management
FINE 443 (3) Applied Corporate Finance

Complementary Courses (6 credits)

two of:

- FINE 434 (3) Topics in Finance

- FINE 442 (3) Capital Markets and Institutions
FINE 445 (3) Real Estate Finance
FINE 448 (3) Derivatives and Risk Management
FINE 449 (3) Market Risk Models
FINE 451 (3) Fixed Income Analysis
FINE 480 (3) Global Investments
FINE 482 (3) International Finance 1
FINE 492 (3) International Finance 2
FINE 541 (3) Applied Investments
FINE 547 (3) Advanced Finance Seminar

9.8.4 Information Systems Concentration

Adviser: Professor L. Lapointe

This 15-credit concentration prepares students for a multitude of IT and IT-related career opportunities. The IS concentration is an ideal complement to the majors and concentrations of several other areas. It employs a blend of theoretical concepts, hands-on tools, actual case studies and real-life projects to train students to identify business challenges that can benefit from information systems support and implement appropriate solutions.

Graduates completing a concentration in IS can expect to find employment as business or system analysts in the IT field or as IT specialists within their own field, including but not limited to, banking, insurance, manufacturing, retailing, and consulting.

Required Courses (9 credits)

- INSY 331 (3) Managing Information Technology
INSY 333 (3) Systems Analysis and Modeling
INSY 437 (3) Managing Data & Databases

Complementary Courses (6 credits)

two of:

- INSY 332 (3) Accounting Information Systems
INSY 341 (3) Developing Business Applications
INSY 342 (3) Advanced Application Development
INSY 431 (3) System Design and Implementation
INSY 432 (3) Information Technology in Business
INSY 434 (3) Advanced Topics
INSY 438 (3) Interface Design & Prototyping
INSY 440 (3) Information Technology Challenges in Electronic Business
INSY 444 (3) Managing Knowledge with Information Technology
INSY 450 (3) Information Systems Project Management
INSY 454 (3) Technological Foundation for E-Commerce

9.8.5 International Business Concentration

Adviser: Professor H. Etemad

The objective of this Concentration is to help the student develop conceptual and analytical skills needed to formulate feasible and effective management policies in an international setting. With economic and business activity becoming increasingly internationalized, the program provides useful preparation for careers in a variety of internationally oriented organizations, including local business firms involved in international trade, licensing or financial arrangements; headquarters or subsidiaries of multinational companies; banks and other international financial institutions; and various governmental organizations.

Complementary Courses (15 credits)

fMinimum 6 credits from the following:

- FINE 478 (3) International Financial Management
MGPO 383 (3) International Business Policy
MRKT 483 (3) International Marketing Management
ORGB 380 (3) Cross Cultural Management

Remaining credits from the following:

- BUSA 391 (3) International Business Law
BUSA 394 (3) Management in Asia

BUSA 395	(3)	European Economy and Business
BUSA 434	(3)	Topics in General Management
BUSA 481	(3)	North America: Global Markets
BUSA 493	(3)	Global Economic Competitiveness
MGPO 445	(3)	Industry Analysis & Competitive Strategy
MGPO 469	(3)	Managing Globalization

9.8.6 Labour-Management Relations Concentration

Adviser: Professor R. Hebdon

The objective of this Concentration is to provide a general understanding of the factors affecting employer-employee relations, both at the micro-level and in relation to the socio-economic context in which they occur. Students interested in more intensive study of this area are urged to consider the Major Program in Labour-Management Relations.

Required Courses (6 credits)

INDR 294	(3)	Introduction to Labour-Management Relations
INDR 496	(3)	Collective Bargaining

Complementary Courses (9 credits)

three of:

INDR 434	(3)	Topics: Labour-Management Relations
INDR 449	(3)	Occupational Health and Safety
INDR 459	(3)	International Labour Relations
INDR 492	(3)	Public Policy in Industrial Relations
INDR 494	(3)	Labour Law
INDR 495	(3)	Labour Relations: Public Sector
INDR 497	(3)	Contract Administration

9.8.7 Management Science Concentration

This concentration is no longer being offered. For additional information about this concentration, please refer to the 2006-2007 undergraduate calendar.

9.8.8 Marketing Concentration

Advisers: Professors M.S. Jo, A. Mukherjee

This Concentration prepares the student for a wide variety of career opportunities. Marketing graduates historically have found employment in the fields of product management, advertising, sales management, marketing management, pricing, marketing research, distribution and retailing. The Marketing Concentration provides a balance between courses focusing on fundamental, theoretical and "need to know" material, and courses with a strong practical and applied orientation.

Required Courses (12 credits)

MRKT 354	(3)	Marketing Management 2
MRKT 357	(3)	Marketing Planning 1
MRKT 451	(3)	Marketing Research (to be taken in U2)
MRKT 452	(3)	Consumer Behaviour

Complementary Course (3 credits)

one of:

MRKT 351	(3)	Marketing in Society
MRKT 355	(3)	Services Marketing
MRKT 365	(3)	New Products
MRKT 434	(3)	Topics in Marketing 1
MRKT 438	(3)	Brand Management
MRKT 453	(3)	Advertising Management
MRKT 455	(3)	Sales Management
MRKT 456	(3)	Business to Business Marketing
MRKT 459	(3)	Retail Management
MRKT 461	(3)	Advertising Practicum
MRKT 483	(3)	International Marketing Management
MRKT 557	(3)	Marketing Productivity

9.8.9 Operations Management Concentration

Advisers: Professors T. Boyaci, S. Li, S. Ray

Operations Management is concerned with the design, planning, control, coordination and improvement of business process, systems and resources integral to the creation of the firm's products and services. Emphasizing quantitative analysis and cross-functional thinking, the Operations Management Concentration provides training on traditional as well as emerging operations strategies, concepts, models and techniques which are essential to any firm in today's competitive marketplace. Operations management graduates find career opportunities in a variety of industries and fields including consulting, manufacturing, distribution, retail, transportation, health care, public sector, among others.

Required Courses (6 credits)

MGSC 373	(3)	Operations Research 1
MGSC 431	(3)	Operations Analysis

Complementary Courses (9 credits)

three courses chosen from:

MGSC 272	(3)	Advanced Business Statistics
MGSC 402	(3)	Operations Strategy
MGSC 403	(3)	Introduction to Logistics Management
MGSC 405	(3)	Quality Management
MGSC 415	(3)	Supplier Management
MGSC 434	(3)	Topics in Management Science
MGSC 479	(3)	Applied Optimization
MGSC 575	(3)	Applied Time Series Analysis Managerial Forecasting
MGSC 578	(3)	Simulation of Management Systems and approved courses in other Areas or faculties.

9.8.10 Organizational Behaviour Concentration

Adviser: Professor A. Jaeger

This Concentration provides an opportunity for students to increase their awareness of behavioural issues encountered in job and organizational settings, and prepare themselves for graduate study in the behavioural sciences or for careers in general management or human resource management.

Complementary Courses (15 credits)

five of:

ORGB 321	(3)	Leadership
ORGB 325	(3)	Negotiations and Conflict Resolution
ORGB 380	(3)	Cross Cultural Management
ORGB 409	(3)	Organizational Research Methods
ORGB 420	(3)	Managing Organizational Teams
ORGB 421	(3)	Managing Organizational Change
ORGB 423	(3)	Human Resources Management
ORGB 429*	(6)	Organizational Behaviour for Course Counsellors
ORGB 434	(3)	Advanced Topics in Organizational Behaviour
ORGB 435	(3)	Women as Global Leaders and Managers
ORGB 525	(3)	Compensation Management

* If ORGB 429 is taken, only 3 credits will count towards the Concentration, the other 3 will be counted as elective.

9.8.11 Strategic Management Concentration

Advisers: Professors L. Chauvin, S. Maguire

There are two options offered in the Strategic Management Concentration: Global Strategy and Social Context.

The Global Strategy option is intended for students who want to learn strategic management and analysis in the context of globalization. Globalization is no longer the concern of a few large enterprises and financial institutions; it has consequences that affect all kinds of businesses and the environment in which they operate – economic, social, political and ecological. Global Strategy allows students to assess the various opportunities and threats inherent in globalization, and requires them to explore the

consequences and implications of business decisions for society and the environment. It also enables them to think through the requirements of doing business in different economic and political systems. Finally, it offers them the opportunity to understand and analyze industry structures and the kinds of business opportunities they either create or destroy.

The Social Context option is intended for students who want to learn strategic management and analysis with special attention to the not-for-profit, or civil sector, or who want to focus on broader or more complex social issues within the for-profit sector. The civil sector – made up of voluntary and non-governmental organizations and foundations – is the sector that has been the fastest growing employer for the past decade. Students who focus on this stream will be challenged to place a high priority on environmental issues, as well as issues of sustainability, corporate social responsibility, and social impact. They will also investigate the social tools and mechanisms necessary to employ cross-sectoral collaboration to achieve desired social outcomes.

GLOBAL STRATEGY OPTION

Complementary Courses (15 credits)

at least 9 credits from the following:

- MGPO 383 (3) International Business Policy
- MGPO 445 (3) Industry Analysis & Competitive Strategy
- MGPO 460 (3) Managing Innovation
- MGPO 469 (3) Managing Globalization
- MGPO 470 (3) Strategy and Organization

the remaining credits to be chosen from:

- BUSA 391 (3) International Business Law
- ECON 219 (3) Current Economic Problems: Topics
- ECON 305 (3) Industrial Organization
- MGPO 434 (3) Topics in Policy
- MGPO 440 (3) Strategies for Sustainability
- MGPO 450 (3) Ethics in Management
- MGPO 468 (3) Managing Organizational Politics
- MGPO 475 (3) Strategies for Developing Countries
- MGPO 562 (3) Seminar in Organizational Strategy

SOCIAL CONTEXT OPTION

Complementary Courses (15 credits)

at least 9 credits from the following:

- MGPO 440 (3) Strategies for Sustainability
- MGPO 450 (3) Ethics in Management
- MGPO 468 (3) Managing Organizational Politics
- MGPO 475 (3) Strategies for Developing Countries

the remaining credits to be chosen from:

- BUSA 391 (3) International Business Law
- MGPO 383 (3) International Business Policy
- MGPO 434 (3) Topics in Policy
- MGPO 445 (3) Industry Analysis & Competitive Strategy
- MGPO 460 (3) Managing Innovation
- MGPO 469 (3) Managing Globalization
- MGPO 470 (3) Strategy and Organization
- MGPO 562 (3) Seminar in Organizational Strategy
- MGPO 567 (3) Business in Society

9.9 Minors for Management Students

BCom Program Minors Adviser: Ron Critchley or Helen Van Eyk
The Minor programs offered in the Faculties of Arts and Science may be taken in conjunction with any BCom program.

Students doing a Minor program must have a Desautels Faculty of Management Minor Approval Form, listing the courses being applied to the Minor, signed by the Minor adviser in the relevant department.

For the Minor in Economics, students must complete 18 credits of material which does not overlap with Management course content. **A maximum of 6 credits will be permitted within the BCom program for MGCR 293 and ECON 230D1/D2 or ECON**

250D1/D2, and a maximum of 6 for ECON 295 and ECON 330D1/D2 or ECON 352D1/D2. Students interested in this Minor must obtain approval from Ron Critchley or Helen Van Eyk.

The Minor in Mathematics and the Minor in Statistics are detailed below. For all other Minors, please refer to the Arts and Science Faculty sections. Students should begin the Minor in Mathematics or the Minor in Statistics no later than the penultimate year and should immediately consult the appropriate adviser in the Department of Mathematics and Statistics.

Students planning to take the Minor in Statistics are advised to substitute MATH 324 for MGCR 271. That course will then count as 3 credits towards the Minor. If the decision to take a Minor program is made after MGCR 271 has been taken, students who wish to take MATH 324 will receive three additional credits; however MATH 324 will only count towards the 18-credit Minor requirement.

9.9.1 Minor in Mathematics

Adviser: Professor W.J. Anderson, Department of Mathematics and Statistics, Faculty of Science

Program prerequisites: MATH 133, MATH 140 and MATH 141 or their equivalents.

Required Courses (12 credits)

- MATH 222 (3) Calculus 3
- MATH 223 (3) Linear Algebra
- MATH 315 (3) Ordinary Differential Equations
- MGSC 373 (3) Operations Research 1

Complementary Courses (6 credits)

Maximum of 3 credits from:

- MGSC 272 (3) Advanced Business Statistics
- MGSC 479 (3) Applied Optimization
- MGSC 575 (3) Applied Time Series Analysis Managerial Forecasting
- MGSC 578 (3) Simulation of Management Systems

The remaining credits selected from the following:

- MATH 316 (3) Complex Variables
- MATH 317 (3) Numerical Analysis
- MATH 319 (3) Partial Differential Equations
- MATH 323 (3) Probability
- MATH 326 (3) Nonlinear Dynamics and Chaos
- MATH 340 (3) Discrete Structures 2
- MATH 407 (3) Dynamic Programming
- MATH 417 (3) Mathematical Programming

9.9.2 Minor in Statistics

Adviser: Professor K. Worsley, Department of Mathematics and Statistics, Faculty of Science

Program prerequisites: MATH 133, MATH 140 and MATH 141 or their equivalents.

Required Courses (15 credits)

- MATH 222 (3) Calculus 3
- MATH 223 (3) Linear Algebra
- MATH 323 (3) Probability
- MATH 324* (3) Statistics
- MATH 423 (3) Regression and Analysis of Variance

*Credits for MATH 324 are counted in the Management core, where they replace MGCR 271. MATH 324 is a required course in the program and may be double-counted for this Minor.

Complementary Courses (6 credits)

Selected from:

- MATH 204** (3) Principles of Statistics 2
- MATH 447 (3) Stochastic Processes
- MATH 523 (4) Generalized Linear Models
- MATH 524 (4) Nonparametric Statistics
- MATH 525 (4) Sampling Theory and Applications

MGSC 575	(3)	Applied Time Series Analysis Managerial Forecasting
MGSC 578	(3)	Simulation of Management Systems

**Students should consult the rules for credit for statistics courses in the course overlap section of the calendar. In particular, MATH 204 cannot be taken for credit after credit for MATH 324 has been obtained.

9.10 Minors for Non-Management Students

All Minors for Non-Management Students require an application. The form may be found at www.mcgill.ca/bcom/minors/forms; hard copies of application forms are also available in the BCom Office, Bronfman 110.

9.10.1 Minor in Finance

Advisers: Ron Critchley, Helen Van Eyk

The Minor in Finance is for non-management students and is currently offered to students in the Faculty of Arts and the Faculty of Science. The Minor has been designed to provide students with an understanding of the key concepts in corporate finance as well as investment banking. The Minor in Finance consists of 18 credits of Management courses.

Required Courses (9 credits)

MGCR 341*	(3)	Finance 1
FINE 342	(3)	Finance 2
FINE 441	(3)	Investments and Portfolio Management

Complementary Courses (9 credits)

FINE 442	(3)	Capital Markets and Institutions
FINE 443	(3)	Applied Corporate Finance
FINE 444	(3)	Risk Management and Insurance
FINE 445	(3)	Real Estate Finance
FINE 448	(3)	Derivatives and Risk Management
FINE 449	(3)	Market Risk Models
FINE 451	(3)	Fixed Income Analysis
FINE 480	(3)	Global Investments
FINE 482	(3)	International Finance 1
FINE 492	(3)	International Finance 2
FINE 541	(3)	Applied Investments
FINE 547	(3)	Advanced Finance Seminar

Or other appropriate 300 or 400 level FINE courses with the approval of the program adviser.

*Prerequisite: MGCR 271 Business Statistics or another equivalent statistics course approved by the program adviser. Students should select their statistics course only after consulting "[Course Overlap](#)", [section 5.3.6.1](#) in the Faculty of Arts, and "[Course Overlap](#)", [section 12.3.6.1](#) in the Faculty of Science, and "[Course Overlap](#)", [section 9.4.4](#) in the Desautels Faculty of Management to avoid overlapping statistics courses.

9.10.2 Minor in Management

Advisers: Ron Critchley, Helen Van Eyk

The Minor in Management is for non-management students and is currently offered to students in the following Faculties: Arts, Engineering, Science, Agricultural & Environmental Sciences, Music and Religious Studies. The Minor in Management is designed to provide non-management students with the opportunity to obtain basic knowledge in various aspects of management. The Minor in Management consists of 18 credits of Management courses.

Complementary Courses (18 credits)

Category A 3 credits

MGCR 211	(3)	Introduction to Financial Accounting
MGCR 341+	(3)	Finance 1

Category B 9 credits

MGCR 222	(3)	Introduction to Organizational Behaviour
MGCR 271*	(3)	Business Statistics
MGCR 293**	(3)	Managerial Economics
MGCR 331	(3)	Information Systems
MGCR 352	(3)	Marketing Management 1
MGCR 382	(3)	International Business
MGCR 472+	(3)	Operations Management

Category C (6 credits)

3-6 credits from any 300 or 400 level management courses for which prerequisites have been met.

0-3 credits may be from a specifically designated course by the student's home faculty.

+ MGCR 271 Business Statistics or equivalent is prerequisite for this course.

*3 credits of statistics: Students who have taken an equivalent statistics course in another Faculty may not count those credits towards the minor; an additional 3 credit Complementary course must be chosen from the course list above.

**Students who have taken an equivalent economics course in another Faculty may not count those credits towards the minor; an additional 3 credit complementary course must be chosen from the course list above.

Students should select their statistics course only after consulting "[Course Overlap](#)", [section 5.3.6.1](#) in the Faculty of Arts, and "[Course Overlap](#)", [section 12.3.6.1](#) in the Faculty of Science, and "[Course Overlap](#)", [section 9.4.4](#) in the Desautels Faculty of Management to avoid overlapping statistics courses.

9.10.3 Minor in Management for Economics Students

This minor is no longer available and has been replaced by the Minor in Management above.

9.10.4 Minor in Management for Engineering Students

This minor is no longer available and has been replaced by the Minor in Management above.

9.10.5 Minor in Management for Science Students

This minor is no longer available and has been replaced by the Minor in Management above.

9.10.6 Minor in Marketing

Advisers: Ron Critchley, Helen Van Eyk

The Minor in Marketing is for non-management students and is currently offered to students in the Faculties of Arts, Science and the Schulich School of Music. This minor is designed to provide students with an understanding of the fundamental concepts in marketing and a framework for applying marketing in a decision-making context. Students will be introduced to the basic concepts in marketing. The use of marketing theory and concepts for decision making will be covered. Marketing research methods for marketing decisions is introduced. Subsequently, students will be able to specialize by choosing from the list of complementary courses. The Minor in Marketing consists of 18 credits of Management courses.

Required Courses (9 credits)

MGCR 352	(3)	Marketing Management 1
MRKT 354	(3)	Marketing Management 2
MRKT 451	(3)	Marketing Research

Complementary Courses (9 credits)

3 credits of statistics*:

MGCR 271	(3)	Business Statistics or equivalent
----------	-----	-----------------------------------

6 credits from the following:

MRKT 357	(3)	Marketing Planning 1
MRKT 365	(3)	New Products
MRKT 438	(3)	Brand Management

MRKT 452	(3)	Consumer Behaviour
MRKT 453	(3)	Advertising Management
MRKT 455	(3)	Sales Management
MRKT 459	(3)	Retail Management
MRKT 461	(3)	Advertising Practicum
MRKT 483	(3)	International Marketing Management

Or other appropriate 300 or 400 level MRKT courses with the approval of the program adviser.

*3 credits of statistics: Students who have taken an equivalent statistics course in another Faculty may not count those credits towards the minor; an additional 3 credit Complementary course must be chosen from the course list above.

Students should select their statistics course only after consulting "[Course Overlap](#)", section 5.3.6.1 in the Faculty of Arts, and "[Course Overlap](#)", section 12.3.6.1 in the Faculty of Science, and "[Course Overlap](#)", section 9.4.4 in the Desautels Faculty of Management to avoid overlapping statistics courses.

9.10.7 Minor in Operations Management

Advisers: Ron Critchley, Helen Van Eyk, Professor V. Verter

The Minor in Operations Management is for non-management students and is currently offered to students in the Faculties of Arts, Science, and Agricultural & Environmental Sciences. It provides non-management students with the opportunity to pursue a career that involves decision making at the operational level. Graduates will be able to find employment in consulting, manufacturing, supply chain, distribution, retail operations, healthcare management and environmental management for profit and non-profit corporations. The minor has been designed to provide students with an understanding of the key concepts in operations management theory and practice. The Minor in Operations Management consists of 18 credits of Management courses.

Required Course (6 credits)

MGSC 373	(3)	Operations Research 1
MGCR 472	(3)	Operations Management

Complementary Courses (12 credits)

3 credits of statistics*

MGCR 271	(3)	Business Statistics
----------	-----	---------------------

9 credits from the following:

MGSC 272	(3)	Advanced Business Statistics
MGSC 402	(3)	Operations Strategy
MGSC 403	(3)	Introduction to Logistics Management
MGSC 405	(3)	Quality Management
MGSC 415	(3)	Supplier Management
MGSC 431	(3)	Operations Analysis
MGSC 434	(3)	Topics in Management Science
MGSC 479	(3)	Applied Optimization
MGSC 575	(3)	Applied Time Series Analysis Managerial Forecasting

MGSC 578	(3)	Simulation of Management Systems
----------	-----	----------------------------------

Or other appropriate 300 or 400 level MGSC courses with the approval of the program adviser.

*3 credits of statistics: Students who have taken an equivalent statistics course in another Faculty may not count those credits towards the minor; an additional 3 credit Complementary course must be chosen from the course list above.

Students should select their statistics course only after consulting "[Course Overlap](#)", section 5.3.6.1 in the Faculty of Arts, and "[Course Overlap](#)", section 12.3.6.1 in the Faculty of Science, and "[Course Overlap](#)", section 9.4.4 in the Desautels Faculty of Management to avoid overlapping statistics courses.

9.10.8 Minor in Technological Entrepreneurship for Engineering Students

Detailed information on this minor can be found in the Faculty of Engineering; see section "[Technological Entrepreneurship Minor](#)", section 8.6.15.

9.10.9 Minor in Technological Entrepreneurship for Science Students

Detailed information on this minor can be found in the Faculty of Science; see section "[Technological Entrepreneurship for Science Students](#)", section 12.13.35.

9.11 Majors

BCom Program Majors Adviser: Ron Critchley

Major programs are available in Economics, Finance, Information Systems, Labour-Management Relations, Marketing, Mathematics, and Psychology.

Because of the heavier demands of Major programs, students desiring to pursue a program of this type are advised to declare their intention at the beginning of the program. Only grades of C or better may count towards the Major requirements.

9.11.1 Major in Accounting

Advisers: Professors L. Goldsman, R. Cecere

This 30-credit major is designed to meet the increased demand for accounting options within the BCom Program.

Required Courses (18 credits)

ACCT 351	(3)	Intermediate Financial Accounting 1
ACCT 352	(3)	Intermediate Financial Accounting 2
ACCT 361	(3)	Intermediate Management Accounting 1
ACCT 362	(3)	Intermediate Management Accounting 2
ACCT 385	(3)	Principles of Taxation
ACCT 455	(3)	Development of Accounting Thought

Complementary Courses (12 credits)

ACCT 354	(3)	Financial Statement Analysis
ACCT 356	(3)	International Accounting
ACCT 434	(3)	Topics in Accounting
ACCT 452	(3)	Financial Reporting Valuation
ACCT 453	(3)	Advanced Financial Accounting
ACCT 454	(3)	Financial Reporting
ACCT 463	(3)	Advanced Management Accounting
ACCT 471	(3)	Non-Profit Accounting
ACCT 475	(3)	Principles of Auditing
ACCT 476	(3)	Internal Auditing
ACCT 477	(3)	External Auditing
ACCT 486	(3)	Business Taxation 2

9.11.2 Major in Economics for Management Students

Advisers: Professors L. Brooks, P. Dickinson, C. Green, and A. Vicas (Fall only); Department of Economics, Faculty of Arts

Please consult the Economics department Website at www.mcgill.ca/economics.

This Major is comprised of 36 credits of Economics courses (9 credits of which are counted as Core credits).

Required Courses (18 credits)

ECON 230D1*	(3)	Microeconomic Theory
ECON 230D2*	(3)	Microeconomic Theory
ECON 330D1**	(3)	Macroeconomic Theory
ECON 330D2**	(3)	Macroeconomic Theory
MGCR 271	(3)	Business Statistics
MGSC 272	(3)	Advanced Business Statistics

* 3 of the 6 credits for Microeconomic Theory exempt MGCR 293 in Core.

** 3 of the 6 credits for Macroeconomic Theory exempt ECON 295 in Core.

Complementary Courses (18 credits)

18 credits from other 200-, 300- and 400-level courses in Economics (Subject Code ECON), excluding courses with numbers below 210. At least 6 of these 18 credits should be taken from courses with 400-level numbers. No more than 6 of the 18 credits may be taken at the 200 level.

9.11.3 Major in Finance

Advisers: Professors A. de Motta, A. Durnev, S. Madan, W. Xu

The 30-credit Finance Major has been designed to meet the increasing demand for expertise in this rapidly growing functional area of business. The Major is designed to provide in-depth knowledge of finance theory, financial institutions, investment analysis, risk management, and applied techniques. Employment for graduates is most often obtained in investment and commercial banking, manufacturing and service firms, non-profit organizations and governments, and non-financial firms.

Required Courses (15 credits)

FINE 342	(3)	Finance 2
FINE 441	(3)	Investments and Portfolio Management
FINE 443	(3)	Applied Corporate Finance
FINE 448	(3)	Derivatives and Risk Management
FINE 482	(3)	International Finance 1

Complementary Courses (15 credits)

at least 9 credits from:

FINE 434	(3)	Topics in Finance
FINE 442	(3)	Capital Markets and Institutions
FINE 449	(3)	Market Risk Models
FINE 451	(3)	Fixed Income Analysis
FINE 480	(3)	Global Investments
FINE 492	(3)	International Finance 2
FINE 541D1	(1.5)	Applied Investments
FINE 541D2	(1.5)	Applied Investments
FINE 547	(3)	Advanced Finance Seminar

the remainder, if any, from:

ACCT 351	(3)	Intermediate Financial Accounting 1
ACCT 352	(3)	Intermediate Financial Accounting 2
ACCT 385	(3)	Principles of Taxation
FINE 445	(3)	Real Estate Finance

9.11.4 Major in Information Systems

Adviser: Professor L. Lapointe

This 30-credit major prepares students for the multitude of IT-related career opportunities available in industry. It employs a blend of theoretical concepts, hands-on tools, and actual case studies to train students to identify business problems and opportunities, analyze business processes, and develop and implement information systems to support them. The IS Major covers a variety of topics including strategic planning and investment in information technologies, analysis, design, and deployment of information systems, understanding the opportunities and challenges of Web-based businesses, and managing resistance to IT-initiated changes in organizations.

Graduates of this program may expect to find employment as business or systems analysts, consultants, IS quality assurance specialists, and project managers in diverse industries, including banking, insurance, manufacturing, retailing and consulting.

Required Courses

(21 credits)

INSY 331	(3)	Managing Information Technology
INSY 333	(3)	Systems Analysis and Modelling
INSY 341	(3)	Developing Business Applications
INSY 431	(3)	System Design and Implementation
INSY 432	(3)	Information Technology in Business
INSY 437	(3)	Managing Data & Databases
INSY 450	(3)	Information Systems Project Management

Complementary Courses (9 credits)

9 credits chosen from the following:

INSY 332	(3)	Accounting Information Systems
INSY 342	(3)	Advanced Application Development
INSY 434	(3)	Advanced Topics
INSY 438	(3)	Interface Design & Prototyping
INSY 440	(3)	Information Technology Challenges in Electronic Business
INSY 444	(3)	Managing Knowledge with Information Technology
INSY 454	(3)	Technological Foundation for E-Commerce
BUSA 499*	(3)	Case Analysis and Presentation

* Students wishing to take BUSA 499 as a complementary course must seek prior approval from the adviser.

9.11.5 Major in Labour-Management Relations

Adviser: Professor R. Hebdon

This 30-credit Major provides students with a general understanding of the factors affecting employer-employee relations, including labour unions and laws that regulate the employment relationship. It is integral to the practice of human resource management, particularly in a unionized environment.

In addition to giving students a foundation in various aspects of labour relations and labour markets, this program provides understanding of federal and provincial labour legislation, training in collective bargaining, the administration of trade union contracts, handling of grievances and preparation for participation in arbitration proceedings, a view of human resources, problems and planning on the macro level.

Required Courses (30 credits)

INDR 294	(3)	Introduction to Labour-Management Relations
INDR 449	(3)	Occupational Health and Safety
INDR 459	(3)	International Labour Relations
INDR 492	(3)	Public Policy in Industrial Relations
INDR 494	(3)	Labour Law
INDR 495	(3)	Labour Relations: Public Sector
INDR 496	(3)	Collective Bargaining
INDR 497	(3)	Contract Administration
ECON 306D1	(3)	Labour Economics and Institutions
ECON 306D2	(3)	Labour Economics and Institutions

9.11.6 Major in Marketing

Advisers: Professors M.S. Jo, A. Mukherjee

This 30-credit Marketing Major is designed to provide students with a strong background in marketing in order to prepare them for the wide variety of marketing careers available. The Major is most appropriate for those students seeking a career in brand management, small business marketing, selling and sales management and business-to-business marketing.

Required Courses (15 credits)

MRKT 354	(3)	Marketing Management 2
MRKT 357	(3)	Marketing Planning 1
MRKT 451	(3)	Marketing Research
MRKT 452	(3)	Consumer Behaviour
MRKT 453	(3)	Advertising Management

Complementary Courses (15 credits)

five of:

BUSA 464	(3)	Management of Small Enterprises
MRKT 351	(3)	Marketing in Society
MRKT 355	(3)	Services Marketing
MRKT 365	(3)	New Products
MRKT 438	(3)	Brand Management
MRKT 455	(3)	Sales Management
MRKT 456	(3)	Business to Business Marketing
MRKT 459	(3)	Retail Management

MRKT 461	(3)	Advertising Practicum
MRKT 483	(3)	International Marketing Management
MRKT 557	(3)	Marketing Productivity

9.11.7 Major in Mathematics for Management Students

The Major in Mathematics for Management Students is no longer being offered. For information on this program, please refer to the 2006-2007 calendar.

9.11.8 Major Concentration in Mathematics for Management Students

Adviser: Professor A. Hundemer, Department of Mathematics and Statistics, Faculty of Science

This program is comprised of 39 credits.

Students entering the Major Concentration in Mathematics are normally expected to have completed MATH 133, MATH 140, and MATH 141 or their equivalents. Otherwise they will be required to make up any deficiencies in these courses over and above the 39 credits required by the program.

Required Courses (30 credits)

MATH 222	(3)	Calculus 3
MATH 235	(3)	Algebra 1
MATH 236	(3)	Algebra 2
MATH 242	(3)	Analysis 1
MATH 243	(3)	Analysis 2
MATH 314	(3)	Advanced Calculus
MATH 315	(3)	Ordinary Differential Equations
MATH 323	(3)	Probability
MATH 324*	(3)	Statistics
MGSC 373	(3)	Operations Research 1

* credits for MATH 324 are counted toward Management Core, where they replace MGCR 271.

Complementary Courses (9 credits)

6 credits selected from:

MATH 204**	(3)	Principles of Statistics 2
MATH 316	(3)	Complex Variables
MATH 317	(3)	Numerical Analysis
MATH 319	(3)	Partial Differential Equations
MATH 326	(3)	Nonlinear Dynamics and Chaos
MATH 340	(3)	Discrete Structures 2
MATH 407	(3)	Dynamic Programming
MATH 410	(3)	Majors Project
MATH 417	(3)	Mathematical Programming
MATH 423*	(3)	Regression and Analysis of Variance

3 credits selected from:

MGSC 272	(3)	Advanced Business Statistics
MGSC 479	(3)	Applied Optimization
MGSC 575	(3)	Applied Time Series Analysis Managerial Forecasting
MGSC 578	(3)	Simulation of Management Systems

*MGSC 272 and MATH 423 cannot both be taken for program credit.

**MATH 204 cannot be taken for credit after credit for MATH 324 has been obtained. The two courses can be taken concurrently. Students should consult the rules for credit for statistics courses in the course overlap section; see [section 12.3.6.1 "Course Overlap"](#).

9.11.9 Major in Psychology for Management Students

Adviser: Professor A. Jaeger

This Major is comprised of 30 credits – 24 credits in Psychology and 6 credits to be taken in Management.

The Desautels Faculty of Management, in collaboration with the Psychology Department, Faculty of Science, offers programs of study in organizational and consumer psychology leading to the

BCom degree. These programs concentrate on providing an education in the fundamentals of experimental and social psychology. In view of rapid changes in practical methods and professional techniques employed by managers and professional consultants, broad training in such fundamentals is seen as excellent preparation for graduate school in psychology and management as well as for a successful managerial career.

Required Courses (12 credits)

PSYC 213	(3)	Cognition
PSYC 215	(3)	Social Psychology
PSYC 301	(3)	Animal Learning & Theory
PSYC 333	(3)	Personality and Social Psychology

Complementary Courses (18 credits)

12 credits chosen from:

PSYC 211	(3)	Introductory Behavioural Neuroscience
PSYC 212	(3)	Perception
PSYC 310	(3)	Human Intelligence
PSYC 331	(3)	Inter-Group Relations
PSYC 332	(3)	Introduction to Personality
PSYC 340	(3)	Psychology of Language
PSYC 341	(3)	The Psychology of Bilingualism
PSYC 351	(3)	Research Methods in Social Psychology
PSYC 352	(3)	Cognitive Psychology Laboratory
PSYC 403	(3)	Modern Psychology in Historical Perspective
PSYC 406	(3)	Psychological Tests
PSYC 408	(3)	Principles of Cognitive Behaviour Therapy
PSYC 429	(3)	Health Psychology
PSYC 451	(3)	Human Factors Research and Techniques
PSYC 471	(3)	Human Motivation
PSYC 473	(3)	Social Cognition and the Self
PSYC 474	(3)	Interpersonal Relationships
PSYC 510	(3)	Statistical Analysis of Tests
PSYC 534	(3)	Community Psychology
PSYC 535	(3)	Advanced Topics in Social Psychology

and 6 credits taken in one of the following two options:

Organizational Psychology Option

two of:

ORGB 321	(3)	Leadership
ORGB 325	(3)	Negotiations and Conflict Resolution
ORGB 380	(3)	Cross Cultural Management
ORGB 409	(3)	Organizational Research Methods
ORGB 420	(3)	Managing Organizational Teams
ORGB 421	(3)	Managing Organizational Change
ORGB 423	(3)	Human Resources Management
ORGB 434	(3)	Advanced Topics in Organizational Behaviour
ORGB 435	(3)	Women as Global Leaders and Managers
INDR 294	(3)	Introduction to Labour-Management Relations

Consumer Psychology Option

two of:

MRKT 451	(3)	Marketing Research
MRKT 452	(3)	Consumer Behaviour
MRKT 453	(3)	Advertising Management

9.11.10 Major Concentration in Statistics for Management Students

Adviser: Professor K. Worsley, Department of Mathematics and Statistics, Faculty of Science

This program is comprised of 39 credits.

Students entering the Major Concentration in Statistics are normally expected to have completed MATH 133, MATH 140, and MATH 141 or their equivalents. Otherwise they will be required to make up any deficiencies in these courses over and above the 39 credits required by the program.

Required Courses (27 credits)

MATH 222	(3)	Calculus 3
MATH 223	(3)	Linear Algebra
MATH 242	(3)	Analysis 1

MATH 243	(3)	Analysis 2
MATH 314	(3)	Advanced Calculus
MATH 323	(3)	Probability
MATH 324*	(3)	Statistics
MATH 423	(3)	Regression and Analysis of Variance
MGSC 373	(3)	Operations Research 1

* credits for MATH 324 are counted toward Management Core, where they replace MGCR 271.

Complementary Courses (12 credits)

maximum of 6 credits from:

MGSC 479	(3)	Applied Optimization
MGSC 575	(3)	Applied Time Series Analysis Managerial Forecasting

MGSC 578	(3)	Simulation of Management Systems
----------	-----	----------------------------------

remaining credits to be taken from:

MATH 204**	(3)	Principles of Statistics 2
MATH 315	(3)	Ordinary Differential Equations
MATH 340	(3)	Discrete Structures 2
MATH 410	(3)	Majors Project
MATH 447	(3)	Stochastic Processes
MATH 523	(4)	Generalized Linear Models
MATH 524	(4)	Nonparametric Statistics
MATH 525	(4)	Sampling Theory and Applications

**MATH 204 cannot be taken for credit after credit for MATH 324 has been obtained. The two courses can be taken concurrently. Students should consult the rules for credit for statistics courses in the course overlap section; see [section 12.3.6.1 "Course Overlap"](#).

9.12 Honours

BCom Program Honours Adviser: Ron Critchley

An Honours program is available in Accounting and in Economics, as well as Joint Honours programs in Economics and Accounting, and in Economics and Finance.

The difference between the Honours and Major programs is not one of quantity but rather of quality, the Honours program involving study in greater depth. Students normally register for the Honours programs in U1 but special arrangements may be made for students wishing to enter the program at the beginning of U2.

Graduation with an Honours standing normally requires a minimum CGPA of 3.00 and an average of 3.00 in the specified courses of the Honours programs; although academic units may set higher requirements for their program GPA. The minimum grade acceptable in an Honours course is B-, although academic units may set a higher requirement for grades in their program.

9.12.1 Honours in Economics for Management Students

Advisers in Economics: Professors F. Grimard (Director), M. Sinitsyn and D. Sutthiphisal; Department of Economics, Faculty of Arts

Please consult the Economics department Website at www.mcgill.ca/economics.

This program is comprised of 42 credits of Honours Economics courses (9 credits of which are counted as Core credits).

To remain in the Honours program, students must obtain a grade of at least B in ECON 250D1/ECON 250D2.

Graduation with an Honours standing requires a minimum CGPA of 3.00 and an average of 3.00 in the specified courses of the program.

Required Courses (24 credits)

ECON 250D1 ¹	(3)	Introduction to Economic Theory: Honours
ECON 250D2 ¹	(3)	Introduction to Economic Theory: Honours
ECON 257D1 ²	(3)	Economic Statistics - Honours
ECON 257D2 ²	(3)	Economic Statistics - Honours
ECON 352D1 ³	(3)	Macroeconomics - Honours

ECON 352D2 ³	(3)	Macroeconomics - Honours
ECON 450D1	(3)	Advanced Economic Theory - Honours
ECON 450D2	(3)	Advanced Economic Theory - Honours

Notes:

- 3 of the 6 credits for Introduction to Economic Theory exempt MGCR 293 in Core. A minimum grade of B is required in this course to continue in this program.
- 3 of the 6 credits for Economic Statistics exempt MGCR 271 in Core.
- 3 of the 6 credits for Macroeconomics exempt ECON 295 in Core.

Complementary Courses (18 credits)

ECON 460	(3)	History of Thought 1 - Honours
ECON 461	(3)	History of Thought 2 - Honours
ECON 467D1	(3)	Econometrics - Honours
ECON 467D2	(3)	Econometrics - Honours

plus 12 credits of other Economics courses approved by an Honours adviser.

9.12.2 Joint Honours in Economics and Accounting

Adviser in Accounting: Professor P. Levy

Advisers in Economics: Professors F. Grimard (Director), M. Sinitsyn and D. Sutthiphisal; Department of Economics, Faculty of Arts

Please consult the Economics department Website at www.mcgill.ca/economics.

The BCom Joint Honours in Economics and Accounting requires the completion of 30 specified credits of Honours courses listed in the Economics Honours Program (9 credits of which are counted as Core credits) and 24 specified credits for Accounting. This program is designed to take advantage of both McGill's Accounting and Economics course offerings to produce a student who is will trained in these two complementary areas.

Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00. To earn the Honours in Economics and Accounting, students must achieve a grade of B- or better in all Economics and Accounting courses..

Economics Required Courses (24 credits)

ECON 250D1 ¹	(3)	Introduction to Economic Theory: Honours
ECON 250D2 ¹	(3)	Introduction to Economic Theory: Honours
ECON 257D1 ²	(3)	Economic Statistics - Honours
ECON 257D2 ²	(3)	Economic Statistics - Honours
ECON 352D1 ³	(3)	Macroeconomics - Honours
ECON 352D2 ³	(3)	Macroeconomics - Honours
ECON 450D1	(3)	Advanced Economic Theory - Honours
ECON 450D2	(3)	Advanced Economic Theory - Honours

Notes:

- 3 of the 6 credits for Introduction to Economic Theory exempt MGCR 293 in Core. A minimum grade of B is required in this course to continue in this program.
- 3 of the 6 credits for Economics Statistics - Honours exempt MGCR 271 in Core.
- 3 of the 6 credits for Macroeconomics exempt ECON 295 in Core.

Economics Complementary Courses ((6 credits)

at least 6 credits from the following:

ECON 460	(3)	History of Thought 1 - Honours
ECON 461	(3)	History of Thought 2 - Honours
ECON 467D1	(3)	Econometrics - Honours
ECON 467D2	(3)	Econometrics - Honours

Accounting Required Courses (12 credits)

ACCT 351	(3)	Intermediate Financial Accounting 1
ACCT 352	(3)	Intermediate Financial Accounting 2
ACCT 361	(3)	Intermediate Management Accounting 1
ACCT 455	(3)	Development of Accounting Thought

Accounting Complementary Course (12 credits)

ACCT 354	(3)	Financial Statement Analysis
ACCT 362	(3)	Intermediate Management Accounting 2
ACCT 385	(3)	Principles of Taxation
ACCT 452	(3)	Financial Reporting Valuation
ACCT 453	(3)	Advanced Financial Accounting
ACCT 463	(3)	Advanced Management Accounting
ACCT 475	(3)	Principles of Auditing
ACCT 486	(3)	Business Taxation 2

9.12.3 Joint Honours in Economics and Finance

Advisers in Economics: Professors F. Grimard (Director), M. Sinitsyn, and D. Sutthiphisal; Department of Economics, Faculty of Arts

Advisers in Finance: Professor A. de Motta, A. Durnev, S. Madan, W. Xu

Please consult the Economics department Website at www.mcgill.ca/economics.

This Joint Honours program is comprised of 30 credits of Honours Economics courses (9 credits of which are counted as Core credits) and 24 credits in Finance.

This program is designed to take advantage of both McGill's Finance and Economics course offerings to produce a student who is well trained in these two complementary areas. It is particularly attractive to those planning careers in finance, economics or financial economics posts in both industry and government. The program is a demanding one and its potential rewards are correspondingly high.

Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00. To earn the Honours in Economics and Finance, students must achieve a grade of B- or better in all Economics and Finance courses.

Economics Required Courses (24 credits)

ECON 250D1 ¹	(3)	Introduction to Economic Theory: Honours
ECON 250D2 ¹	(3)	Introduction to Economic Theory: Honours
ECON 257D1 ²	(3)	Economic Statistics - Honours
ECON 257D2 ²	(3)	Economic Statistics - Honours
ECON 352D1 ³	(3)	Macroeconomics - Honours
ECON 352D2 ³	(3)	Macroeconomics - Honours
ECON 450D1	(3)	Advanced Economic Theory - Honours
ECON 450D2	(3)	Advanced Economic Theory - Honours

Notes:

- 3 of the 6 credits for Introduction to Economic Theory exempt MGCR 293 in Core. A minimum grade of B is required in this course to continue in this program.
- 3 of the 6 credits for Economic Statistics exempt MGCR 271 in Core.
- 3 of the 6 credits for Macroeconomics exempt ECON 295 in Core.

Economics Complementary Courses (6 credits)

ECON 460	(3)	History of Thought 1 - Honours
and ECON 461	(3)	History of Thought 2 - Honours
or ECON 467D1	(3)	Econometrics - Honours
and ECON 467D2	(3)	Econometrics - Honours

Finance Required Courses (12 credits)

FINE 342	(3)	Finance 2
FINE 441	(3)	Investments and Portfolio Management
FINE 443	(3)	Applied Corporate Finance
FINE 547	(3)	Advanced Finance Seminar

Finance Complementary Courses (12 credits)

FINE 434	(3)	Topics in Finance
FINE 448	(3)	Derivatives and Risk Management
FINE 449	(3)	Market Risk Models
FINE 451	(3)	Fixed Income Analysis
FINE 480	(3)	Global Investments

FINE 482	(3)	International Finance 1
FINE 492	(3)	International Finance 2
FINE 541D1	(1.5)	Applied Investments
FINE 541D2	(1.5)	Applied Investments

9.13 Faculty Program in International Management

BCom Faculty Program Advisers: Giulia Campofredano, Heather McCombie

Students who choose this course of study take the standard 36 credits of Core courses but, instead of choosing a Major, Honours or Concentration, they focus on gaining knowledge of a specific geographical region of the world by taking a minimum of 27 credits of courses in an interdisciplinary area of study in the Faculty of Arts. The program also includes a minimum of 9 credits of 300 or higher level courses on integrative or international topics in management. All students admitted into the full-time BCom program are eligible for this course of study. It should be noted that it is also possible to complete a Concentration or Minor within the normal minimum credit requirements of the degree.

In order to fulfill the requirements of this option in the three or four years typically taken to complete a BCom degree, students should select their region of specialization by the Spring of their U1 year. An adviser from the Faculty will be appointed to each of the interdisciplinary regional areas of study to help students plan their programs of study.

Regional Interdisciplinary Areas of Specialization

Three areas of study are offered to all students: Latin America and the Caribbean, East Asia, and Western Europe (Germany, Italy, France, or Spain). Two additional areas of study (Canada and the United States) are offered for foreign students who come to McGill from other countries.

Students must complete 9 to 12 credits of language study appropriate to their regional area of study, unless they can demonstrate proficiency, in which case they must substitute courses taught in the language of their chosen region.

In addition to language study, a minimum of 15 to 18 credits of courses focused on the geographical region of choice must be taken. These courses are from a wide range of Faculty of Arts departments: Anthropology, Economics, Geography, History, Political Science, Religious Studies, etc.

A Term Abroad

All students in the program will be expected to spend one term in the region they have chosen to study. During this term they would be required to either:

- take approved courses which can be used towards their language credits, their regional area studies, or the advanced management courses on integrative or international topics; or
- work in a job where they must use a language from their chosen region. If they are able to arrange a verifiable, paid work experience, they will be eligible to receive 3 course credits to be used toward their advanced management courses if they make arrangements in advance to take an Independent Study course and write a paper related to their experiences.

9.13.1 Integrative or International Topics in Management

Students must take at least 9 credits of courses on international or integrative business topics. At least one of the courses must include an assignment which requires students to capitalize on their broad interdisciplinary knowledge and expertise gained from their study of a particular culture, as well as management.

Integrative/International Topics in Management Component

9 credits chosen from the following:

BUSA 391	(3)	International Business Law
BUSA 394*	(3)	Management in Asia

BUSA 395	(3)	European Economy and Business
BUSA 434	(3)	Topics in General Management
BUSA 462	(3)	Management of New Enterprises
BUSA 464	(3)	Management of Small Enterprises
BUSA 481	(3)	North America: Global Markets
BUSA 493	(3)	Global Economic Competitiveness
FINE 478	(3)	International Financial Management
FINE 482	(3)	International Finance 1
MGPO 383	(3)	International Business Policy
MGPO 440	(3)	Strategies for Sustainability
MGPO 469	(3)	Managing Globalization
MRKT 483	(3)	International Marketing Management
ORGB 380	(3)	Cross Cultural Management

or 3 credits of Independent Study – if, during the term abroad, students are able to arrange a verifiable, paid work experience; make arrangements in advance to take an Independent Study course; and write a paper related to the experience.

* This course is required for students taking the East Asian Studies option.

9.13.2 Latin American and Caribbean Studies

LANGUAGE COMPONENT (12 credits)

12 credits of Spanish language courses at the level deemed appropriate for the student or, with the approval of the Area adviser, of courses taught in Spanish from the Hispanic Studies department list below.

Spanish Language Courses List

HISP 210D1	(3)	Spanish Language: Beginners'
HISP 210D2	(3)	Spanish Language: Beginners'
or HISP 218	(6)	Spanish Language Intensive - Elementary
HISP 220D1	(3)	Spanish Language: Intermediate
HISP 220D2	(3)	Spanish Language: Intermediate
or HISP 219	(6)	Spanish Language Intensive - Intermediate

Other Hispanic Studies Department Courses List

HISP 243	(3)	Survey of Spanish-American Literature 1
HISP 244	(3)	Survey of Spanish-American Literature 2
HISP 302	(3)	Hispanic Literature - English Translation 2
HISP 328	(3)	Literature of Ideas: Spanish America
HISP 332	(3)	Spanish American Literature of 19th Century
HISP 333	(3)	Spanish-American Drama
HISP 351	(3)	Spanish-American Novel 1
HISP 352	(3)	Spanish-American Novel 2
HISP 356	(3)	Spanish-American Short Story
HISP 358	(3)	Women Writers Fiction Spanish-America
HISP 432	(3)	Literature - Discovery and Exploration Spain New World
HISP 437	(3)	Viceregal Spanish America
HISP 442	(3)	Modernismo
HISP 453	(3)	20th Century Spanish-American Poetry
HISP 505	(3)	Seminar in Hispanic Studies
HISP 506	(3)	Seminar in Hispanic Studies
HISP 507	(3)	Seminar in Hispanic Studies

AREA FOCUS COMPONENT (15 credits)

Required Courses (6 credits)

HIST 309	(3)	History of Latin America to 1825
HIST 360	(3)	Latin America since 1825

Complementary Courses (9 credits)

6 credits, either the following two, or authorized substitutions from the list of Hispanic Studies Department courses given above:

HISP 225	(3)	Hispanic Civilization 1
HISP 226	(3)	Hispanic Civilization 2

3 credits chosen from the following:

ANTH 326	(3)	Peoples of Central and South America
ECON 410	(3)	Economic Development: Selected World Area
HIST 464D1**	(3)	Topics: Latin American History
HIST 464D2**	(3)	Topics: Latin American History

LACS 497	(3)	Research Seminar: Latin America and the Caribbean
POLI 319	(3)	Politics of Latin America
POLI 472	(3)	Developing Areas/Social Movements

** if HIST 464D1/HIST 464D2 is taken, only 3 of the 6 credits will count towards the Option, the other 3 will be counted as elective.

9.13.3 East Asian Studies

Note: All students taking the East Asian Studies option must take BUSA 394 Management in Asia as part of the Integrative/ International Topics in Management Component.

The East Asian Studies option combines the study of either Chinese or Japanese with related courses in culture and history as follows:

LANGUAGE COMPONENT (9 credits)

9 credits of First Level Korean, Chinese or Japanese language or, with the approval of the Area Adviser, of courses taught in one of those languages by the East Asian Studies department.

East Asian Languages Courses List

EAST 220D1	(4.5)	First Level Korean
and EAST 220D2	(4.5)	First Level Korean
or EAST 230D1	(4.5)	First Level Chinese
and EAST 230D2	(4.5)	First Level Chinese
or EAST 240D1	(4.5)	First Level Japanese
and EAST 240D2	(4.5)	First Level Japanese

Students with a prior knowledge of an Asian language may substitute a second-level language course (EAST 320D1/EAST 320D2, EAST 330D1/EAST 330D2, EAST 340D1/EAST 340D2) for 9 credits, or a third- or fourth-level course for 6 credits, along with an additional 3-credit course from the Complementary course list below.

AREA FOCUS COMPONENT (18 credits)

Complementary Courses (18 credits)

6 credits from:

EAST 211	(3)	Introduction: East Asian Culture: China
EAST 212	(3)	Introduction: East Asian Culture: Japan
EAST 213	(3)	Introduction: East Asian Culture: Korea
HIST 208	(3)	Introduction to East Asian History
HIST 218	(3)	Modern East Asian History

6 credits, at least, from the following:

EAST 351	(3)	Women Writers of China
EAST 353	(3)	Approaches to Chinese Cinema
EAST 362	(3)	Japanese Cinema
EAST 363	(3)	Aesthetics and Politics of Vision Premodern Japan
EAST 364	(3)	Mass Culture and Postwar Japan
EAST 453	(3)	Topics: Chinese Literature
EAST 456	(3)	Chinese Drama and Popular Culture
EAST 461	(3)	Inventing Modern Japanese Novel
EAST 462	(3)	Japan in Asia
EAST 464	(3)	Image, Text, Performance
EAST 466	(3)	Feminism and Japan
EAST 515	(3)	Seminar: Beyond Orientalism
EAST 551	(3)	Technologies of Self in Early China
EAST 563	(3)	Images, Ideograms, Aesthetics
EAST 564	(3)	Structures of Modernity: Japan

the remaining credits, if any, to be chosen from the following:

ANTH 329	(3)	Modern Chinese Society and Change
ECON 335	(3)	The Japanese Economy
ECON 411	(3)	Economic Development: A World Area
HIST 208	(3)	Introduction to East Asian History
HIST 308	(3)	Formation of Chinese Tradition
HIST 318	(3)	History of Japan 1
HIST 328	(3)	China in Revolution 1: 1840-1921
HIST 337	(3)	Japanese Intellectual History 1
HIST 338	(3)	China in Revolution 2: 1921-1997

HIST 348	(3)	China: Science-Medicine-Technology
HIST 352	(3)	Japanese Intellectual History 2
HIST 358	(3)	Medieval to Early Modern China
HIST 359	(3)	History of Japan 2
HIST 439	(3)	History of Women in China
HIST 441	(3)	Topics: Culture and Ritual in China
HIST 442	(3)	Asian Diaspora: Chinese Overseas
HIST 443	(3)	China in the Modern World
HIST 445	(3)	Late Imperial China
HIST 497D1	(3)	Topics in Chinese History
HIST 497D2	(3)	Topics in Chinese History
HIST 579	(3)	The Arts of Healing in China
HIST 581	(3)	The Art of War in China
POLI 323	(3)	Developing Areas/China and Japan
POLI 349	(3)	Foreign Policy-Asia Pacific
RELG 253	(3)	Religions of East Asia
RELG 352	(3)	Japanese Religions
RELG 354	(3)	Chinese Religions
RELG 442	(3)	Pure Land Buddhism
RELG 451	(3)	Zen: Maxims and Methods
RELG 452	(3)	East Asian Buddhism
RELG 549	(3)	Japanese Buddhist Philosophy

Students are encouraged to choose courses related to their language study although alternative programs are acceptable after consultation with an adviser.

9.13.4 Western European Studies

The Western European Studies Focus combines the study of a European language with related courses in culture, history, and economics. Students choose one of the four geographical areas listed below in which to concentrate their studies.

9.13.4.1 France

LANGUAGE COMPONENT (12 credits)

12 credits of French language courses at the level deemed appropriate for the student or, with the approval of the Area adviser, of courses taught in French by the French Language and Literature Department.

French Language Courses List

FREN 201	(3)	Composition 1
FREN 203	(3)	Composition 2
FRSL 101	(6)	Beginners' French
FRSL 207	(6)	Elementary French
FRSL 211	(6)	Oral and Written French 1
FRSL 215	(6)	Oral and Written French 1 - Intensive
FRSL 302	(3)	Listening Comprehension and Oral Expression 1
FRSL 303	(3)	Listening Comprehension and Oral Expression 2
FRSL 321	(6)	Oral and Written French 2

AREA FOCUS COMPONENT (15 credits)

Complementary Courses (15 credits)

6 credits selected from:

FREN 336	(3)	La langue française
FREN 221	(3)	Civilisation française 1
FREN 324	(3)	Civilisation française 5: La France d'aujourd'hui
FREN 310	(3)	Histoire du cinéma français
or FREN 311	(3)	Histoire du cinéma français 2

9 credits selected from:

FREN 250	(3)	Littérature française avant 1800
FREN 251	(3)	Littérature française depuis 1800
FREN 336	(3)	La langue française
FREN 454	(3)	Le théâtre au 20e siècle
FREN 483	(3)	Le roman depuis Sartre
FREN 484	(3)	La littérature du 19e siècle 3
HIST 225	(3)	History of France to 1789
HIST 346	(3)	France, 1914 to the Present

and/or any of the French Literature and French Civilization courses offered by the French Language and Literature Department or from the courses listed in "[Complementary Courses Open to All Students in the Western European Studies Focus](#)", section 9.13.4.5. Courses should be chosen in consultation with an adviser.

9.13.4.2 Germany

LANGUAGE COMPONENT (12 credits)

12 credits of German language courses at the level deemed appropriate for the student or, with the approval of the Area adviser, of courses taught in German by the German Studies department.

German Language Courses List

GERM 202D1	(3)	German Language, Beginners'
GERM 202D2	(3)	German Language, Beginners'
GERM 200	(6)	German Language, Intensive Beginners'
GERM 300	(6)	German Language Intensive Intermediate
GERM 307D1	(3)	German Language - Intermediate
GERM 307D2	(3)	German Language - Intermediate
GERM 345	(3)	Business German 1
GERM 346	(3)	Business German 2

AREA FOCUS COMPONENT (15 credits)

(Program revisions awaiting University Approval)

Required Courses (6 credits)

GERM 400	(3)	Interdisciplinary Seminar: Contemporary German Studies
HIST 235	(3)	German History since 1648

Complementary Courses (9 credits)

9 credits selected from:

HIST 214	(3)	Introduction to European History
HIST 215	(3)	Modern European History
HIST 234	(3)	German History to 1648

and/or from all courses offered by the German Studies department or from the courses listed in "[Complementary Courses Open to All Students in the Western European Studies Focus](#)", section 9.13.4.5. Courses should be chosen in consultation with an adviser.

9.13.4.3 Italy

LANGUAGE COMPONENT (12 credits)

12 credits of Italian language courses at the level deemed appropriate for the student or, with the approval of the Area Adviser, of courses taught in Italian by the Italian Studies department.

Italian Language Courses List

ITAL 205D1	(3)	Italian for Beginners'
ITAL 205D2	(3)	Italian for Beginners'
ITAL 206	(6)	Beginners' Italian Intensive
ITAL 210D1	(3)	Elementary Italian
ITAL 210D2	(3)	Elementary Italian
ITAL 215D1	(3)	Intermediate Italian
ITAL 215D2	(3)	Intermediate Italian
ITAL 216	(6)	Intermediate Italian Intensive

AREA FOCUS COMPONENT (15 credits)

Complementary Courses (15 credits)

15 credits from the following list:

ANTH 337	(3)	Mediterranean Society and Culture
ARTH 223	(3)	Introduction to Italian Renaissance Art
ARTH 320	(3)	Seventeenth Century Art of Court and Church
ARTH 324	(3)	High Renaissance Art in Italy
ARTH 325	(3)	Visual Culture Renaissance Venice
HIST 345	(3)	History of Italian Renaissance
HIST 365	(3)	17th - 18th C. Western Europe
ITAL 355	(3)	Dante and the Middle Ages
ITAL 361	(3)	Italian Prose after 1945
ITAL 363	(3)	Gender, Literature and Society
ITAL 365	(3)	The Italian Renaissance
ITAL 375	(3)	Cinema and Society in Contemporary Italy

- Han, Kunsoo; B.S., M.S.(KAIST); Ph.D.(Ohio St.); Assistant Professor, Information Systems
- Harlos, Karen; B.A., M.A., Ph.D.(Br. Col.); Assistant Professor, Organizational Behaviour
- Hart, Derek; B.Sc., M.B.A.(McG.), M.Sc.(C'dia); Faculty Lecturer, Operations Management
- Heaphy, Emily; B.A.(Welles.), Ph.D.(Mich.); Assistant Professor, Organizational Behaviour
- Hebdon, Robert; B.A., M.A., Ph.D.(Tor.); Associate Professor, General Management-Industrial Relations
- Jacobs, Kris; B.A., M.A.(Louvain), Ph.D.(Pitt.); Associate Professor, Finance
- Jaeger, Alfred M.; B.Sc.(N'western), M.B.A., Ph.D.(Stan.); Associate Professor, Organizational Behaviour
- Jo, Myung-Soo; B.Com.(Hankuyk U., Korea); M.B.A.(Mich.); M.S.(Ill.), Ph.D.(Colo.); Associate Professor, Marketing
- Jørgensen, Jan; B.A., M.A.(N. Carolina, Chapel Hill), Ph.D.(McG.); Associate Professor, Strategy and Organization
- Kanungo, Rabindra N.; B.A., M.A.(Patna), Ph.D.(McG.); Professor Emeritus, Organizational Behaviour
- Lank, David; B.A. (Prin.); Faculty Lecturer & Director Centre for Entrepreneurial Studies
- Lapointe, Liette; B.A., M.Sc.(Montr.), Ph.D.(HEC); Associate Professor, Information Systems
- Lee, Mary Dean; B.A.(Eckerd), M.Ed.(Temple), M.A.(S. Florida), Ph.D.(Yale); Professor, Organizational Behaviour
- Levy, Philippe; B.Com.(C'dia), Diploma in Public Accountancy, M.B.A.(McG.); Faculty Lecturer, Accounting
- Li, Shanling; M.S.(Georgia), Ph.D.(Texas); Associate Professor, Operations Management
- Loulou, Richard J.; M.Sc., Ph.D.(Berk.); Professor Emeritus, Operations Management
- Madan, Sujata; B.S.(M.I.T.); MBA(IIM-India); Faculty Lecturer, Finance
- Maguire, Steve; B.Sc.(Qu.), M.B.A.(Br. Col.), Ph.D.(HEC); Associate Professor, Strategy and Organization
- Mintzberg, Henry; B.Eng.(McG.), B.A.(Sir G. Wms.), S.M., Ph.D.(MIT); Professor, Strategy and Organization (*John Cleghorn Professor of Management Studies*)
- Mishra, Saurabhi; B.A., M.A.(Delhi), M.B.A., Ph.D.(Ind. - pending); Assistant Professor, Marketing
- Moore, Karl; B.Sc.(Ambassador University), M.B.A.(USC), Ph.D.(York (Can.)); Associate Professor (*Part-time*), Marketing, Strategy and Organization
- Mukherjee, Ashesh; B.Eng.(Jadavpur-India), M.B.A.(Indian Inst. Manag.), Ph.D.(Texas); Associate Professor, Marketing
- Nain, Amrita; B.A.(Delhi), M.Sc.(Warw.), Ph.D.(Mich.); Assistant Professor Finance
- Oh, Wonseok; B.A.(SUNY); M.B.A.(Geo. Wash. U); M.Phil., Ph.D.(Stern); Associate Professor, Information Systems
- Okhmatovskiy, Ilya; B.A. Equivalent(Moscow State); M.S.Equivalent(Acad. Of Nat. Economy), Ph.D.(USC); Assistant Professor, Strategy & Organization
- Parsons, Christopher; B.S., Ph.D.(Texas - pending); Assistant Professor, Finance
- Perez-Aleman, Paola; B.Sc.(Calif., Berk.), Ph.D.(MIT); Associate Professor, Strategy and Organization
- Pinsonneault, Alain; B.Comm.(C'dia), M.Sc.(HEC), Ph.D.(Calif., Irvine); Professor, Information Systems (*Chair in Management Information Systems*), (*James McGill Professor*)
- Qui, Chun; B.A.(Huazhong), M.A.(S. Fraser), Ph.D.(Alta. - pending); Assistant Professor, Finance
- Ray, Saibal; B.E.(Jadavpur), M.E.(Asian IT), Ph.D.(Wat.); Associate Professor, Operations Management
- Sarigöllü, Emine; B.A., M.B.A.(Bogazici), M.A., Ph.D.(Penn.); Associate Professor, Marketing
- Sarkissian, Sergei; M.S.(Calif., Berk.), Ph.D.(Wash.); Associate Professor, Finance
- Singer, Zvi; B.A.(Tel Aviv), M.B.A.(Wash.), Ph.D. (Calif. - pending); Assistant Professor, Accounting
- Smith, Brian E.; B.A., M.A.(Dublin), M.Sc.(Alta.), Ph.D.(Qu.); Faculty Lecturer, Operations Management
- Todd, Peter A; B.Com.(McG.), Ph.D.(Br. Col.); Professor and Dean
- Toulan, Omar; B.Sc.(G'town), Ph.D.(MIT); Associate Professor, Strategy and Organization
- Tsang, Desmond; B.Com, M.A.(Tor.); M.S., Ph.D.(Calif., Berk.); Assistant Professor - Accounting
- Valliant, Fred; B.Sc.(Holy Cross), C.A.(McG.); Faculty Lecturer, Accounting
- Vakratsas, Demetrios; B.Sc.(Aristotle), M.Sc., Ph.D.(Texas); Associate Professor, Marketing

Verter, Vedat; B.S., M.S.(Bogazici), Ph.D.(Bilkent); Associate Professor, Operations Management

Vit, Gregory; B.Com.(McG.), M.B.A.(C' dia), Ph.D.(Brad.); Associate Professor (*Part-time*), Strategy and Organization

Westgate, Chantal; M.B.A.(McM.); Faculty Lecturer, General Management-Industrial Relations

Whitmore, G. Alex; B.Sc.(Manit.), M.Sc., Ph.D.(Minn.); Professor Emeritus, Operations Management (*Samuel Bronfman Professor of Management Science*)

Xu, Jianguo; B.S., M.A.(Beijing), Ph.D.(Duke); Assistant Professor, Finance

Yalovsky, Morty; B.Sc., M.Sc., Ph.D.(McG.); Associate Professor, Operations Management

Zabowski, Glenn; B.Com., M.B.A.(McG.); Faculty Lecturer, Operations Management

Zhang, Dan; B.S., M.S.(Chongqing), Ph.D.(Minn.); Assistant Professor, Operations Management

Zhou, Lei; B.A.(Tsinghu Univ.-Beijing), Ph.D.(Md.); Assistant Professor, Accounting

10.1 The Faculty

10.1.1 Location

Strathcona Music Building
555 Sherbrooke Street West
Montreal, QC H3A 1E3
Canada

Telephone: (514) 398-4535
Fax: (514) 398-8061
Website: www.mcgill.ca/music

10.1.2 The Faculty Then and Now

McGill's Schulich School of Music (www.mcgill.ca/music) is the largest university-based school for professional musical training and music research in Canada. Founded as the Conservatorium of Music in 1904 and incorporated as a Faculty in 1920, the school moved to its current location in the impressive and historic Strathcona Music Building (formerly the main section of Royal Victoria College) in 1972. During its 2004-05 centennial season, the Faculty added a new eight-storey building that will evolve into a world-leading facility for sound recording and music technology research. McGill Music is renowned for its orchestral, choral, opera, jazz, chamber, contemporary and early music programs and for its award-winning creative and research work in composition, music theory, musicology, music education, sound recording and music technology.

Pollack Concert Hall (capacity: 600), Redpath Hall (400, with the University Organ), Clara Lichtenstein Recital Hall (80) are among the busiest and best concert venues in Montreal. The new building adds a 200-seat hall, an opera-rehearsal room, a scoring stage/acoustic research lab, and control rooms. Three floors of the new building are dedicated to the Marvin Duchow Music Library (www.library.mcgill.ca), with its collection of well over 100,000 scores, recordings, books, and periodicals; in addition, the Performance Library has performing parts for over 6000 titles. Both old and new buildings (as well as satellite locations) house labs for numerous specialized functions: digital composition and electronic music, music education research, multi-channel sound recording, music perception and cognition, sound processing and control, computational modeling, etc. Classrooms, teaching studios, practice rooms (80+), and a student-lounge and cafeteria round out the picture.

The Faculty is also home to the Centre for Interdisciplinary Research in Music Media and Technology (CIRMMT), an inter-faculty, inter-university, international consortium that brings together researchers in music, sound recording, music technology, psychology, neuroscience, engineering, and medicine (www.music.mcgill.ca/cirmmt).

The current student enrolment is over 600 at the undergraduate level and over 200 at the graduate level. The teaching staff includes 55 full-time and over 140 part-time members. Students and staff play a major role in Montreal's vibrant cultural scene, presenting over 650 concert events annually, as well as master classes, lectures, and symposia, all enhanced by very active student societies, a gig office, and excellent support staff.

10.2 Faculty Administrative Officers

10.2.1 Dean's Office

Don McLean; Mus.Bac., M.A., Ph.D.(Tor.)	Dean
Mary-Beth Campbell; B.Mus., M.Mus.(McG.)	Communications and Special Events Administrator
Joanne Niles; B.A., M.A.(C'dia)	Assistant to the Dean and Area Personnel Manager
Valerie McConnell	Senior Administrative Coordinator
TBA	Receptionist
Donna Williams; B.A.(W. Ont.)	Development Director
Paul Vandenberg; B.Mus.(McG.)	Development and Alumni Relations Associate
Kate Herzberg; B.Mus., Dip.Ed.(McG.), Dip.TEFL(Rutg.)	Development and Alumni Relations Associate
Quynh-Ly Pham; B.Sc.(McG.)	Budget Officer
Catherine Healy	Secretary
Daria Lavigueur	Secretary

10.2.2 Associate Deans' Office

Gordon Foote; B.Sc., M.A.(Minn.)	Associate Dean (Academic and Student Affairs)
Bruce Minorgan; B.Mus.(Br. Col.), M.A.(Tor.)	Associate Dean (Administration)
Diana Toni Dutz; B.Mus.(W. Ont.), Grad.Dip.(C'dia)	Administration and Student Affairs Coordinator
Charles Wan; B.CompSc.(C'dia)	Banner (FIS) Liaison
Alain Terriault	LAN Manager

10.2.3 Graduate Studies

Eleanor Stublely; B.Mus.(Tor.), M.Mus.(Bran.), Ph.D.(Ill.)	Director, Graduate Studies
Hélène Drouin	Administrative and Student Affairs Coordinator
Véronic Morin; B.A.(McG.)	Student Affairs Coordinator

10.2.4 Academic Affairs

André Roy; B.Mus.(Curtis)	Chair, Department of Performance
Hank Knox; B.Mus., M.Mus.(McG.)	Assistant Chair, Department of Performance
Peter Schubert; B.A., M.A., Ph.D.(Col.)	Chair, Department of Music Research
Tracy Roach; B.Mus.(McG.)	Administrative Assistant
Christine Sgherri; B.F.A.(C'dia)	Department Secretary
Jennifer Stephenson; B.A.(McG.)	Timetable and Scheduling Coordinator

Alexis Carter; B.Mus., M.Mus.(McG.) **Ensemble Resource Manager**
Linda Mannix; B.A.(C'dia) **Secretary (Sessional)**

10.2.5 Student Affairs

Patrick O'Neill; B.A.(McG.) **Admissions Officer**
Mary Di Stefano **Admissions Secretary**
Pia D'Amico **Admissions Secretary**
Linda Mannix; B.A.(C'dia) **Admissions Secretary (Sessional)**
Reisa Lipszyc; B.Mus.(McG.) **Recruitment and Liaison**
Olga Makarios; Cert. in Mgmt.(McG.) **Recruitment Secretary**
Marie Moscato **Senior Student Adviser**
Egidia De Michele **Senior Student Affairs Coordinator**
Dana Pietrzak **Student Affairs Secretary**

10.2.6 Building Management

Peter Wightman; L.Mus., B.Mus., M.Mus.(McG.) **Building Director**
Katherine Simons; B.Mus.(W. Laur.) **Assistant Building Director**
Kerry Wagner; C.T.T. **Piano Technician**
Nick Zervos **A/V Technician**

10.2.7 Administrative Units

CONCERTS AND PUBLICITY

Box Office (weekdays: 12:00 to 18:00): (514) 398-4547
Concert Information: (514) 398-4547 or 398-5145
Bookings: (514) 398-8993

Louise Ostiguy; B.Mus.(Montr.), C.G.E.(HEC) **Director**
TBA **Marketing and Publicity Coordinator**
Marie Pothier; B.Mus.(Montr.) **Publicity Secretary**
Johanne Froncioni **Production Coordinator**
Maureen Leaman **Secretary**
Fernando Longueira **Secretary**
Serge Filiatrault **Stage Manager (Pollack Hall)**
Jordan Gasparik; B.Mus.(McG.) **Assistant Stage Manager (Pollack Hall)**
James Clemens-Seely **Assistant Stage Manager (Pollack Hall)**
Christopher Smythe; B.Mus., M.Mus.(McG.) **Stage Manager (Redpath Hall)**
Michel Maher **Stage Manager (Tanna Schulich Hall)**
Jacqueline Gauthier **Box Office and Front-of-House Coordinator**
François Robitaille **Piano Technician**

MARVIN DUCHOW MUSIC LIBRARY

Telephone: (514) 398-4695

Cynthia Leive; B.Mus.(Eastman), M.L.S.(SUNY, Geneseo), M.F.A.(Car.) **Head Librarian**
Brian McMillan; B.Mus., M.Mus.(McG.), M.I.St.(Tor.) **Music Liaison Librarian**
Melanie Preuss **Library Assistant, Inter-Library Loans**
Andrew Senior; B.A., MPhil.(York) **Specialized (Audio/Visual) Cataloguing Editor**
Gail Youster **Library Assistant, Circulation and Serials**
David Curtis; B.Sc.(McG.) **Senior Reference Assistant**
Padraig Buttner-Schnirer; B.Mus.(McG.) **Library Assistant**

PERFORMANCE LIBRARY

Telephone: (514) 398-4553

Erika Kirsch; B.Mus.(Southern Methodist Univ.), M.Mus.(Eastman) **Librarian**

OPERA MCGILL

Telephone: (514) 398-4535, ext. 0489

Julian Wachner; B.Mus., Mus.Doc.(Boston) **Principal Conductor**
Patrick Hansen; B.Mus.(Simpson), M.Mus.(Missouri) **Executive Director**

DIGITAL COMPOSITION STUDIO

Telephone: (514) 398-4552

Sean Ferguson; B.Mus.(Atla.), M.Mus., D.Mus.(McG.) **Director**
Richard McKenzie **Technician**

RECORDING STUDIO

Telephone: (514) 398-4549

Wieslaw Woszczyk; M.A., Ph.D.(F. Chopin Academy of Music, Warsaw) **Director**
Ieronim Catanescu **Technician**

MUSIC TECHNOLOGY RESEARCH LABORATORIES

COMPUTATIONAL ACOUSTIC MODELING LABORATORY

Telephone: (514) 398-4535, ext. 0504

Gary P. Scavone; B.A., B.S.(Syr.), M.S., Ph.D.(Stanford) **Director**

DISTRIBUTED DIGITAL MUSICAL LIBRARIES LABORATORY

Telephone: (514) 398-4535, ext. 0300

Ichiro Fujinaga; B.Mus., B.Sc.(Alta.), M.A., Ph.D.(McG.) **Director**

SOUND PROCESSING AND CONTROL LABORATORY

10.3 General Information

10.3.1 Degrees and Diplomas Offered

DEGREE OF BACHELOR OF MUSIC (B.Mus.)

The degree of Bachelor of Music may be obtained in any one of the following fields:

Composition (Major, page 293, and Honours, page 294)

Faculty Program, page 297

Music Education – available only as a component of the Concurrent B.Mus./B.Ed. program, page 308

Music History (Major, page 294 and Honours, page 295)

Music Technology (Honours, page 294)

Music Theory (Major, page 296, and Honours, page 296)

Performance (Major, page 298, and Honours, page 301)

Performance (Church Music) (Major, page 302)

Performance (Keyboard Studies) (Major, page 300)

Early Music Performance (Major, page 303, and Honours, page 303)

Jazz Performance (Major, page 304)

Designated Major

Special programs of study in music may be proposed in consultation with Faculty advisers. Such special proposals must be approved by the relevant department, the Executive Committee and by Faculty Council.

Faculty Program

This program is designed to accommodate those students who are either undecided about the area of music in which they wish to specialize, or who are interested in a pattern of specialization not provided in the established majors and honours programs, or who are interested in combining studies in music with studies in other disciplines.

All of the above B.Mus. programs normally require three years of study following completion of the Quebec Diploma of Collegial Studies or four years of study following completion of secondary school elsewhere.

B.A. Major Concentration in Music

The Faculty of Arts offers a Bachelor of Arts degree with a Major Concentration in Music. Further details on the program can be found under Music in the Faculty of Arts section.

Minor Programs

A Minor in Music History for Performers is available to all students in Performance (Major or Honours) programs. This option will take the place of music electives, as well as history, literature and performance practice complementary courses, in Performance programs.

Minors in Musical Applications of Technology are available to Music students who wish to graduate with a knowledge of newer technologies and the impact they are having on the field of music. (Space permitting, the Minors in Musical Applications of Technology are also available to students from other faculties.)

A Minor in Marketing is available to all students in a BMUS program. Further information on this Minor can be found under the Faculty of Management, see [section 9.10.6 “Minor in Marketing”](#).

Minor programs in Music are also available to students in the Faculty of Arts and the Faculty of Science. Further information on these Minors can be found under the Faculty of Arts, see [section](#)

[5.12.38 “Music \(MUAR\)”](#) and the Faculty of Science, see [section 12.13.23 “Music”](#).

M.Mus. Performance (Prerequisite courses)

Students wishing to prepare for the Master of Music in Performance should include, in their Bachelor of Music program, the courses listed under [section 10.6.3.20 “Special Prerequisite Courses for M.Mus. in Performance”](#).

M.Mus. Sound Recording (Prerequisite courses)

Students wishing to prepare for the Master of Music in Sound Recording should include, in their Bachelor of Music program, the courses listed under [section 10.6.2.9 “Special Prerequisite Courses for M.Mus. in Sound Recording”](#).

LICENTIATE IN MUSIC (L.Mus.)

The Licentiate in Music is offered in Performance and is designed for advanced instrumentalists, singers and Jazz performers who wish to concentrate on their practical subject while limiting their theoretical studies to basic areas in Music History, Theory and Musicianship. This program normally requires three years of study. For more information, please see sections: [section 10.6.3.14 “Licentiate in Music \(L.Mus.\) \(Piano\)”](#); [section 10.6.3.15 “Licentiate in Music \(L.Mus.\) \(All Instruments except Piano, Voice and Jazz\)”](#); [section 10.6.3.16 “Licentiate in Music \(L.Mus.\) \(Voice\)”](#); and [section 10.6.3.17 “Licentiate in Music \(L.Mus.\) Jazz Performance”](#).

ARTIST DIPLOMA

The Artist Diploma is available only to advanced instrumentalists and singers who demonstrate technical and musical maturity. Admission into the program requires completion of a Bachelor of Music degree in Performance, a Licentiate in Music, or the equivalent.

DEGREE OF MASTER OF ARTS (M.A.)

The Master of Arts degree (M.A.) is available as a thesis option in Music Education, Music Technology, Musicology, and Theory and as a non-thesis option in Music Education, Musicology, and Theory.

DEGREE OF MASTER OF MUSIC (M.Mus.)

The Master of Music degree (M.Mus.) is available in Composition, Performance, and Sound Recording. Within the Performance option are offered specializations in: piano, guitar, orchestral instruments, organ, conducting, chamber music, orchestral training, piano accompaniment, vocal, opera, opera coaching, vocal pedagogy, early music, church music — organ, and jazz.

DEGREE OF DOCTOR OF MUSIC (D.Mus.)

The Doctor of Music degree (D.Mus.) is available in Composition and Performance Studies.

DEGREE OF DOCTOR OF PHILOSOPHY (Ph.D.)

The Doctor of Philosophy degree (Ph.D.) is available in Music Education, Musicology, Music Technology, Sound Recording, and Theory.

For details of the Master’s and Doctoral programs, please consult the *Graduate and Postdoctoral Studies Calendar*.

10.3.2 Orchestral Training

Orchestral Training at McGill includes all students in the B.Mus., L.Mus., Artist Diploma, M.Mus., and D.Mus. degrees and diplomas whose major is one of the orchestral instruments. Many of its graduates are now members of professional orchestras throughout North America, Europe, and the rest of the world. Led by full-time conductors in residence and supported by a number of full-time staff as well as many members of the top professional orchestras in and around Montreal, Orchestral Training at McGill provides for regular private practical lessons as well as performance in one or more large instrumental ensembles including a full symphonic orchestra (approximately 100 players), a contemporary music ensemble, a percussion ensemble and a variety of small chamber

music groups. It also includes regular coached orchestral sectionals and orchestral repertoire classes.

10.3.3 Scholarships and Financial Aid

General information on scholarships, including McGill Entrance Scholarships, and a detailed listing of all awards is contained in the *Undergraduate Scholarships and Awards Calendar*, available on the Web (www.mcgill.ca) or from Enrolment Services.

A limited number of Music Entrance Scholarships (valued at \$2,000 each) are awarded to incoming Performance students on the basis of auditions held only in February. All instruments, including voice, are eligible. In addition, outstanding string players applying to the Schulich School of Music are encouraged to audition for the Lloyd Carr-Harris String Scholarships (valued at \$10,000 each). Application for admission must be submitted by January 15.

While taking into account the stipulations of the individual awards, Schulich School of Music scholarships, awards and prizes are given on the basis of a student's record for the academic session ending in April and are tenable during the next academic year beginning in September. Students must have successfully completed at least 27 credits (excluding courses completed under the satisfactory/unsatisfactory option) in the academic year preceding the award and must register for full-time studies during the subsequent year, unless fewer credits are needed to complete the program. Students whose records contain outstanding incompletes or deferrals will not be considered. No application is required.

10.3.4 Summer Studies

Summer Studies offers courses starting in May, June, and July.

Students may take a maximum of 18 credits during the summer session. Those wishing to take more than 5 credits in any one month must obtain the permission of the Senior Student Adviser.

Information concerning course offerings and application forms may be obtained from the McGill Summer Studies Office Website, www.mcgill.ca/summer, or by calling (514) 398-5212.

10.3.5 Music Credit Options for Students in Other Faculties

The Schulich School of Music offers three groups of courses that may be taken for credit by students in other faculties.

The first group consists of music literature and theory courses especially designed for students from other faculties who may not have taken formal studies in music but who wish to take elective courses in the cultural, historical and theoretical aspects of music.

The second group is the sequence of courses in music theory and history which are part of the Schulich School of Music undergraduate curriculum. These courses may be taken by those having the necessary prerequisite studies in music.

The third group of courses consists of selected music ensembles open, by audition, to students in other faculties.

For further details on these courses, please see section 5.12.38 "Music (MUAR)" under the Faculty of Arts. Other music courses may be taken by qualified students from other faculties providing they obtain permission from the relevant department in the Schulich School of Music and from the Associate Dean of their own faculty.

10.3.6 Conservatory of Music

The McGill Conservatory of Music offers instruction in piano, guitar, harp, most orchestral instruments and voice, as well as Theory and Ear Training from the elementary level up to and including Collegial levels.

In addition, the Conservatory offers Suzuki method instrumental instruction, a Music for Children course based on Orff/Kodaly principles, orchestras, children's and youth choirs, chamber music ensembles, a variety of jazz combos, and a summer day camp.

Practical examinations to the Collegial II level and Theory and Ear Training examinations from the Secondary III to Secondary V levels are offered to both internal and external students. Theory and Ear Training examinations at the Elementary and Collegial I and II levels are available to internal students only.

The Conservatory also welcomes adult students (at any level) and encourages their participation not only in practical instruction but also in the orchestras, instrumental ensemble groups and Theory and Ear Training courses.

Further information is available from the McGill Conservatory of Music and on their Website at www.mcgill.ca/conservatory.

10.4 Admission

10.4.1 Application Procedure

All inquiries regarding admission should be directed to Enrolment Services, Schulich School of Music, McGill University, 555 Sherbrooke Street West, Montreal, QC H3A 1E3.

Full information, including a Web-based application form, is available at www.mcgill.ca/music/prospective/undergraduate/applying.

In order to ensure proper consideration, Web applications for September must be submitted by January 15. The School normally does not admit students in January. Please consult the Music Admissions Office for exceptions. Applications received after these deadlines will be considered if places are still available.

Application information should include detailed descriptions of the applicant's musical background, training and statement of intent including photocopies of diplomas, certificates and/or transcripts. An official up-to-date transcript must also be sent directly by the school attended. All applicants must arrange to have a Music Evaluation form submitted on their behalf. All supporting documents for undergraduate applications must be mailed to: McGill University, ARR Documentation Centre, 688 Sherbrooke Street West, Montreal, Quebec, H3A 3R1. All screening and audition recordings, and composition samples should be submitted directly to the Schulich School of Music: 555 Sherbrooke Street West, Montreal, Quebec, H3A 1E3.

Applicants are advised that satisfying the entrance requirements does not guarantee admission where instrumental places are limited.

10.4.2 Music Entrance Requirements

The minimum music entrance requirements are the equivalent of McGill Conservatory Collegial I Instrument or Voice (Performance applicants: Collegial II) and Secondary V Theory and Ear Training.

Approximate Equivalents to Entrance Requirements in Practical Subjects (McGill Conservatory Collegial I – Instrument/Voice)

Quebec CEGEPS	CEGEP II
Toronto Conservatory	Grade 9
Western Board	Grade 9
Mount Allison	Grade 9
Associated Board of the Royal Schools of Music	Grade 7

The above listing is intended only as a general guide. Admissibility to any program is determined by audition. Students wishing to major in Performance should be approximately two years more advanced, and be able to demonstrate potential as performers at their audition.

All applicants in piano, female voice, and in all jazz instruments will be required to submit a tape-recording (CD, video, etc.) for pre-selection by January 15. Following a review of these recordings, selected applicants will be invited to attend a live audition. No live audition will be scheduled in piano, female voice, or in any jazz instrument until a tape-recording has been received and reviewed. All applicants must perform an audition of approximately 15 minutes' duration. The student should choose material that will repre-

sent different musical periods and reveal musicianship and technical proficiency to best advantage. Applicants for the Artist Diploma program must prepare an audition of recital material lasting approximately 60 minutes. For entrance audition requirements please refer to www.mcgill.ca/music/prospective/undergraduate/requirements.

The entrance audition dates for September 2008 admission are February 23 to March 2, 2008. At the time of audition, all applicants will be required to sit a rudiments/musicianship test.

The entrance audition dates for September 2009 admission are February 21 to March 1, 2009.

Recordings (compact disc and/or video) are acceptable when distance prevents an applicant from attending an audition in person.

Applicants for Composition are asked to submit two or three samples of their written work.

Music Education applicants are asked to outline reasons for wishing to enter the Music Education field in their statement of intent and have a letter of reference sent from someone attesting to his or her suitability for teaching.

All screening and audition recordings, and composition samples should be submitted directly to the Schulich School of Music: 555 Sherbrooke Street West, Montreal, Quebec, H3A 1E3.

10.4.3 Academic Entrance Requirements

Bachelor of Music

The applicant's entrance audition and the academic record are considered when making an admission decision. As a limit is placed upon the number of students admitted to study a particular instrument, fulfillment of the minimum entrance requirements does not guarantee acceptance. TOEFL may be required of non-Canadian students whose mother tongue is not English. It is the applicant's responsibility to make the necessary arrangements with the examining board to write the test in the country of residence.

CEGEP Applicants

Students are expected to obtain the Quebec Diploma of Collegial Studies (Diplôme d'études collégiales) in the Music Concentration or equivalent. Applicants with a DCS/DEC in a field other than Music must have the equivalent Music prerequisites. The minimum overall average required is 70%. CEGEP graduates are admitted to a three-year program.

Canadian High School (excluding Quebec) Applicants

Applicants are expected to obtain a high school graduation diploma which leads to university admission in the student's home province. Ontario high school students are normally expected to have obtained a minimum of 6 OACs; at least four of the six must have been taken at the 4U level. There are no specific non-music prerequisite courses required and the minimum overall average should be 70%. Canadian high school graduates are admitted to a four-year program.

U.S. High School Applicants

Applicants are expected to obtain a high school graduation diploma which meets the requirements for university/college admission in the U.S. The minimum overall average required is B+. There are no specific non-music prerequisite courses, or SAT and Achievement Test results required. Some credit will be granted for Advanced Placement Examinations in appropriate subjects. U.S. high school graduates are admitted to a four-year program.

International Applicants

In general, applicants must be eligible for admission to university in their country of origin and have above-average grades. Students who have completed an International Baccalaureate, a French Baccalaureate, or a minimum of three GCE "A" (Advanced) Level examinations are considered for admission into a three-year program. Normally, applicants with five GCE "O" (Ordinary) Level results, plus one year of schooling beyond the Ordinary Level, are admitted to a four-year program. Applicants with qualifications

from other systems will be considered for either a three-year or a four-year program.

Transfer Students

Transfer students are considered on the basis of both their university or college work and previous studies. Normally, students are expected to complete a full year of university studies prior to applying for admission and to be in good standing as defined by the university previously attended. The minimum overall average required is a CGPA of 3.00. Transfer credits for non-music courses in which a grade of C or better has been received are granted following an evaluation of the student's transcript. Transfer credits, with certain restrictions, are granted for music complementary or elective courses following an evaluation of the student's transcript (a higher grade may often be required). Transfer students must complete a minimum of 60 credits at McGill in order to obtain a degree.

Mature Students

Applicants who are at least 21 years of age at or before registration, who have not met the high school or CEGEP academic requirements, and who are able to demonstrate exceptional talent in their discipline may be considered for admission. Such applicants may be resident anywhere. All available academic/educational documents must be submitted. An interview may be required.

Special Students

Special Students do not need to fulfill any of the academic requirements outlined previously but are required to have the necessary music prerequisites for the courses concerned. Registration is subject to the availability of space in the course(s) concerned. Special Students are normally not entitled to lessons in an instrument or in voice. Registration is permitted for one year only, after which time the student must apply for admission to either the B.Mus. or the L.Mus. program.

Visiting Students

Individuals wishing to take courses at McGill for credit at another university may be admitted as Visiting Students provided they have the prerequisites for the course(s) concerned and have official permission from their home university.

10.4.4 Diploma Programs

L.Mus. (All Applicants)

For admission to the Licentiate program, the applicant must have completed secondary school. The applicant's music qualifications must be equivalent to McGill Conservatory Collegial II Instrument or Voice and Secondary V Theory/Ear Training. An entrance audition is required.

Artist Diploma (All Applicants)

For admission to the Artist Diploma program, the applicant must have a Bachelor of Music degree in Performance, the Licentiate in Music of the McGill Schulich School of Music, or the equivalent and must pass a performance audition.

10.4.5 Music Placement Examinations

All applicants must sit diagnostic placement examinations in Theory, Musicianship (Ear Training), Music History, Keyboard Proficiency and, for jazz majors, Jazz Materials, in order to determine their course levels. General placement/advanced standing examinations will be given during the week prior to the beginning of classes in September.

Students accepted into either the Licentiate Diploma (L.Mus.) or the Artist Diploma, who have completed the degree of **Bachelor of Music** at a Canadian or American university (or the equivalent elsewhere) within the preceding three (3) years will not be required to sit the Music Placement Examinations and will be exempted from required Theory, Musicianship, and Music History, Literature or Performance Practice courses. Should such students wish to avail themselves of the diagnostic service that the Music Place-

ment Examinations provide, they may sit them – without, however, being bound by the recommendation generated from their results. Nevertheless, should great difficulties arise in a specific class because of lack of adequate preparation, the Department Chair, upon the advice of the instructor, reserves the right to counsel the student to undertake studies at a lower level.

10.4.6 Keyboard Proficiency Test (MUSP 170)

Students entering any of the B.Mus. or L.Mus. programs should be prepared to demonstrate, in a Keyboard Proficiency Test, keyboard skills sufficient to enable them to use the piano as a tool in their studies at McGill.

Those who are unable to do so must register continuously for Keyboard Proficiency MUSP 170 until they successfully complete the course. Majors in Jazz Performance must enrol in MUJZ 170. Students in Jazz Performance who have completed MUJZ 170 and MUJZ 171, and who transfer to a Department of Music Research program, will be required to complete MUSP 172. Students who have been admitted to a degree or diploma program with keyboard as their principal instrument are exempt from the MUSP 170 Test (but not from MUSP 171 and MUSP 172).

The requirements of the Keyboard Proficiency Test are as follows:

1. Sightreading (simple two-part piece using treble, bass and alto clefs).
2. Technique (scales, triads and arpeggios). Two octaves, hands together.
3. Prepared piece (contrapuntal texture in two or three parts, or simple homophonic textures, level equivalent to McGill Conservatory Secondary III).
4. Keyboard rudiments (recognition/playing of intervals, chords, scalar patterns, etc.).

Students will not be allowed to proceed with higher-level Musicianship or Theory studies until these requirements are met. Exact test dates are determined by the Department of Music Research.

10.4.7 Readmission

Students in satisfactory standing, who have not been registered in the Schulich School of Music for one or two terms, may return to the program in which they were previously registered upon permission of the Faculty. Those who have been out for longer than two terms may be readmitted upon permission of the Faculty, subject to the student's previous record and current Faculty limitations on enrolment, but will be required to re-audition.

Students wishing to return in the Winter or Summer term must submit a request in writing to the Student Affairs Office, giving a summary of their activities during their absence. The deadline for the Winter session is November 15; for the Summer session, April 1; for the Fall session, June 1.

Fees

The University reserves the right to make changes without notice in the published scale of fees.

10.4.8 Tuition Fees

General information on Tuition and Other Fees will be found in [section 3.4 "Fees"](#).

Individual practical instruction on a main instrument or voice as indicated in the various degree and diploma programs, [see section 10.3.1 "Degrees and Diplomas Offered"](#), is included at the per-

credit rate only while the student is full-time, and for a maximum number of years according to the following table:

ENTITLEMENT

Maximum Years of Practical Instruction at the per-credit rate, 1 hour per week		
Category of Student (based on academic entrance qualifications)	B.Mus. (Perf. or Jazz Perf.)	B.Mus. (non-perf.*)
High School graduates (Gr.12) [Canadian, except Quebec; United States; Overseas]	5 years	4 years
CEGEP graduates [Holders of D.E.C. or D.C.S. in Music or a non-Music specialization]	4 years	3 years
Transfer students [from other colleges, universities or McGill faculties] or degree holders	4 years	3 years
Mature Students [without above academic qualifications but who are 21 years old as of Sept.1]	4 years	3 years

* Composition, Music Education, Music History, Theory, Faculty Program

L.Mus. students are entitled to practical instruction at the per-credit rate for a maximum of 4 years, 1 hour per week; Artist Diploma students, 2 years, 1.5 hours per week.

The maximum of 4 years of practical instruction for L.Mus. students includes instruction received while in a B.Mus. program either during or prior to registration in the L.Mus. program.

Note: Part-time students in the B.Mus. and L.Mus. programs and those who have exhausted the above-listed maxima will be charged \$785 per term (\$1,570 per year) for practical instruction in addition to the per-credit fees. (Artist Diploma students: \$1,175 per term or \$2,350 per year.)

Special or part-time **Visiting** students who are permitted to enrol for practical instruction will also be charged an extra \$785 per term, in addition to the per-credit fees, as will all other students taking instruction in a **second practical subject**.

Voice Coaching (MUIN 300, MUIN 301) is available at the per-credit rate for a maximum of two terms for full-time voice students only. In all other cases, the extra fee for this course is \$550 per term.

Special students in the **Opera Studio** will be charged an additional \$680 per term (\$1,360 per year). Degree or diploma candidates registered in Opera Studio, as well as Special students taking practical instruction at \$785 per term, will be charged the per-credit fee for Opera Studio.

10.5 Academic Information

Students are required to be punctual at all classes and lessons.

Grades in theoretical subjects are calculated on the basis of class work and/or examinations. Students are warned that by missing examinations or class work they risk failure in the subject concerned.

10.5.1 Ensemble Policy and Regulations

A. Preamble

The ensemble program comprises areas of activity designed to provide an enriched and cohesive curriculum in practical musicianship for every student. Much of this training is accomplished in the context of a large instrumental or choral ensemble, or specialized ensembles, over the three-year period that students normally spend on undergraduate studies.

Students are advised to check their program carefully in order to verify their basic (large) and small ensemble requirements.

Basic (large) Ensemble: All students registered as full-time or part-time students in the Department of Performance must audition for, and participate in, a basic (large) ensemble.

This means that a student from the Province of Quebec must have a *minimum* of 12 credits for basic ensemble in order to graduate. A student from outside the province must have a *minimum* of 16 credits in order to graduate. In those cases where a student in the orchestral training program is registered for additional sessions, he/she must also register for basic ensemble for each additional session. (For exemptions, see section K.)

A student in the orchestral training program who is not assigned a basic ensemble following the auditions in either September or January because there is not a space available may substitute either

1. an additional small ensemble in lieu of the basic ensemble with the approval of the Chair of the Performance Department, or
2. a choral ensemble following an audition, with the permission of the Chair of the Choral Area and the Chair of the Performance Department.

Small Ensemble: With the exception of students registered in the regular Voice program, all students registered as full-time or part-time students in the Department of Performance must audition for, and participate in, a small ensemble. A student must have a *minimum* of 6 credits for small ensemble in order to graduate. With the exception of Keyboard, Guitar and Jazz students, this is an ongoing requirement.

Performance majors as well as sufficiently advanced players and singers from other programs are encouraged to participate in one or more small ensembles which meet their particular interest.

This policy and its regulations apply to all students performing in all ensembles, large or small, required, complementary, or elective. They apply also to all students who have been assigned to an ensemble for any reason, including conducting students, composers- and arrangers-in-residence, and others.

Important: This policy also applies to all students enrolled in vocal and instrumental techniques classes (MUCT 235, MUCT 335, MUIT 201, MUIT 202, MUIT 203, MUIT 204, MUIT 301, MUIT 302) and in choral and instrumental conducting classes (MUCT 315, MUCT 415, MUIT 315, MUIT 415) who are required to participate in Music Education ensemble labs. STUDENTS IN THESE LABS MUST FILL OUT REQUEST FORMS FOR ALL ABSENCES, INCLUDING ALL FIELD TRIPS IN WHICH THEY MAY PARTICIPATE. These forms should be returned to the Chair of the Music Education Area, *not to the Ensemble Committee*; students should consult the Chair of the Music Education Area for further details.

Note: In all cases where the term "Director" of an ensemble is used, it is understood to mean the conductor, director, stage director or coach of the ensemble.

B. Basic Ensemble Training and Assigned Small Ensembles

Basic Ensemble Training requirements vary by program and according to the student's practical concentration. For ensemble purposes, the orchestral instruments include flute, oboe, clarinet, bassoon, saxophone, french horn, trumpet, trombone, tuba, percussion, harp, violin, viola, cello and double bass. Students studying these instruments will receive their Basic Ensemble Training in the large instrumental ensembles. Students whose principal instrument is other than one of these (except voice majors) will normally receive their Basic Ensemble Training in the choral ensembles. Voice majors may choose from a group of vocal and choral ensembles appropriate to the level of their development.

In all programs which specify an assigned small ensemble, the following are considered assigned small ensembles:

MUEN 560	Chamber Music Ensemble
MUEN 578	Song Interpretation 1
MUEN 579	Song Interpretation 2
MUEN 580	Early Music Ensemble
MUEN 581	Piano Ensemble Seminar 1

MUEN 582	Piano Ensemble Seminar 2
MUEN 583	Introduction to Collaborative Piano
MUEN 584	Studio Accompanying
MUEN 585	Sonata Masterclass
MUEN 589	Woodwind Ensembles
MUEN 591	Brass Ensembles
MUEN 598	Percussion Ensembles

C. Additional Ensembles

Additional ensembles chosen by students to reflect their particular interests may, with Departmental approval, be applied as Music Elective credit. Students electing an ensemble will normally be required to audition and will be placed accordingly.

D. Assignment and Auditions

All students registered as full-time or part-time students in the Department of Performance must audition for a basic ensemble in September and, where applicable, in January (e.g., woodwind and brass players in the orchestral training program). A student who cannot audition for a basic ensemble at the times indicated in the calendar must give due notice to the Performance department of their non-availability at least five days before the date of the first audition. The student must have a valid reason (i.e., illness, death in the family, career commitment, etc.). If a student misses an audition for reasons unacceptable to the Performance department, that student will not be allowed to audition for that semester and the requirement will have to be fulfilled later in order that the student can graduate. If the reason given is valid, the student will audition for whatever positions remain unassigned upon his/her arrival at the Faculty.

Assignments are posted on the Department of Performance notice board. Re-assignments or subsequent auditions may be made from time to time during a term and will also be posted. Students are reminded that auditions for major ensembles are mandatory. Students who do not take the auditions cannot be assigned to any major ensembles, and they would have to make up the credit at a later time.

In the case of the Jazz Ensembles, an open challenge system is used as follows:

1. At any time during a term, a student may challenge for a position in a Jazz Ensemble.
2. The challenger must speak to the band directors involved, specifying the chair being challenged.
3. The challenger will have a private audition with not less than two directors who will offer a non-binding recommendation to the student as to whether or not to proceed with the challenge.
4. Should the challenger wish to proceed, the student being challenged will be notified by the Coordinator of the Jazz Ensembles.
5. The challenge will take the form of an audition of both the regular member of the ensemble and the challenger in a full band rehearsal, following which the directors will make a decision.

E. Commitment

Ensembles are courses. Each student who has registered for an ensemble, or who has been assigned to or who is auditioning an ensemble, has made a commitment to the ensemble and is required to attend all rehearsals, concerts, performances, field trips, recordings and other activities which constitute the course requirements of that ensemble. Except for reasons of ill health or in the case of an excused absence granted by the Ensemble Committee (see Section G, below), any absence may result in a failing grade for the student.

F. Failing Grade

A failing grade in any of the mandatory ensembles (Basic Ensemble, assigned small ensemble, complementary or elective ensemble) obliges the student to make up the credit at a later date. A subsequent failure in the same course may result in the student being required to withdraw from the Faculty.

G. Request to be Excused from a Rehearsal

ANY STUDENT WHO CANNOT ATTEND A REHEARSAL OR COACHING SESSION FOR ANY ENSEMBLE IS REQUIRED TO FILL OUT A **REQUEST TO BE EXCUSED FROM ENSEMBLE FORM**. THIS FORM IS AVAILABLE FROM THE DEPARTMENT OF PERFORMANCE OFFICE (E222).

Students are required to submit a completed copy of this form to the Department of Performance office (E222) at least eight (8) days prior to the rehearsal or coaching session which will be missed, stating the reason for the request. Students who have missed a rehearsal or coaching session due to illness must submit one of these forms within three (3) days of returning to school. **In such cases a doctor's certificate or statement from the Student Health Service must be attached to the form.**

Ensemble Committee meets weekly during the term to consider the requests, and approve or refuse each individual case. Students are welcome to appear at this meeting to explain particular circumstances affecting their request. Students should check the Performance notice board after the day the form is submitted to find out if their request has been approved.

Students may be excused from a rehearsal or coaching session of an ensemble for the following reasons:

1. Sickness, or emergency medical or dental work.

IMPORTANT NOTE

ANY STUDENT WHO IS EXPERIENCING PAIN WHILE PLAYING OR SINGING SHOULD INFORM THEIR PRACTICAL TEACHER AND THE DIRECTOR OF THEIR ENSEMBLE(S), AND SHOULD SEEK APPROPRIATE MEDICAL ATTENTION. Students should not be reluctant to admit to injury; *it is entirely acceptable for students to be excused from ensemble rehearsal(s) for health reasons.*

The Faculty does not want students to perform with pain or with injury.

2. An audition for a permanent professional engagement
3. A master class
4. A major competition
5. A professional engagement deemed, in the opinion of the Ensemble Committee, to be very important for a student's developing career
6. Family emergency or an especially important family occasion
7. A conflict between an irregularly scheduled ensemble rehearsal or coaching session and a previous important commitment made by the student (proof required)
8. A field trip for another ensemble or class
9. An authorized McGill function
10. A religious holiday

For Nos. 2, 3, 4 and 5, the request must be accompanied by authorization from the student's practical teacher and the appropriate area Chair. This permission is given for no more than three (3) rehearsals or coaching sessions.

Note: NO PERMISSION IS GIVEN TO BE EXCUSED FROM A DRESS REHEARSAL OR FROM A CONCERT EXCEPT FOR NO. 1 AND NO. 2 ABOVE. IN THE CASE OF OPERA MCGILL, NO ONE CAN BE EXCUSED FROM REHEARSALS DURING THE THREE (3) WEEKS PRECEDING THE OPENING NIGHT PERFORMANCE.

Students are not excused from ensemble rehearsals or coaching sessions for either of the following reasons:

1. Gigs
2. Non-emergency medical or dental appointments. Students should request appointment times that do not conflict with rehearsals or coaching sessions.

H. Preparation

If the Director of an ensemble is not satisfied with the quality of preparation that a student has been making for the ensemble, the Director shall first warn the student. This warning shall be communicated by the Director to the Ensemble Committee, which shall inform the student in writing. If, in the Director's opinion, this lack

of preparation continues, the student will be required to perform the music for a committee consisting of the Director of the ensemble, the Chair of the area (Orchestral Training, Choral, Opera, Voice, etc.) and the Department Chair. If this committee decides that there has been a lack of sufficient preparation, the student will be required to appear before the Ensemble Committee to show cause why he or she should not be required to withdraw.

For any particular performance, if – after a written warning to the student(s) at least two (2) weeks prior to the performance, with a copy to the Ensemble Committee – the Director, in consultation with his/her coaches, feels that the performance of a student or group of students will not meet a certain minimum standard established by the Director, the Director may cancel the performance of the student(s).

I. Discipline

The Director of an ensemble may recommend that a student withdraw from an ensemble for disciplinary reasons. A student asked to do so will be required to appear before the Ensemble Committee to show cause why he or she should not be required to withdraw.

Students who are required to withdraw from an ensemble for reasons of lack of preparation or discipline will be given a grade of F which will be reflected in their Grade Point Average (GPA).

J. Withdrawal

Withdrawal for any reason obliges the student to make up the credit(s) at a later date.

K. Exemption from a Required Ensemble

In order to be given permission not to participate in a required ensemble for a term or part thereof, a student must:

- i. be a participant in a major national or international competition, or (in the case of voice students) be given a significant role with a recognized performing arts ensemble, and (in the case of all students) have completed the minimum number of required terms of the ensemble, and have the permission of:
 1. his or her practical teacher
 2. the area Chair
 3. the Director of the ensemble
 4. Chair of the Orchestral Training, Choral, Opera or Voice Area (where appropriate)
 5. Ensemble Committee
- or
- ii. have completed all program requirements except the final exam on his or her instrument
- or
- iii. have completed all musical requirements of his or her program, having only Arts and Science electives remaining
- or
- iv. have a significant medical reason.

NOTE:

1. Permission not to participate in a required or complementary ensemble for a term or part thereof **is not an exemption** and does not satisfy any credit requirements for a degree.
2. Students who are given permission not to participate in Orchestra (MUEN 597) for a term or part thereof may be ineligible to hold an Orchestral Instruments Scholarship for that term and may be ineligible for consideration for an Orchestral Instruments Scholarship for the following year based on that term.

L. Substitution of an Ensemble

1. In order to be given permission to substitute another large ensemble for a required or complementary large ensemble for a term, a student must:

- i. have completed the minimum number of terms in the required or complementary large ensemble
and
- ii. have the permission as in K.i. (1-5) above, with the added condition that the Director of the required or complementary large ensemble may refuse consent for the simple reason that the student is needed in that ensemble.

- Keyboard and Guitar Performance majors in all programs may substitute up to two (2) terms of Studio Accompanying (MUEN 584) for two (2) terms of Choral Ensemble.
- Performance majors are not permitted to substitute Basic Ensemble credits for required or complementary assigned small ensemble credits.

M. Rotation

Whenever possible and musically satisfactory, and in order to ensure equal opportunity and experience for students in the large instrumental ensembles, the seating of students in these ensembles may be rotated periodically throughout the term or year. The Director of the ensemble will determine whether or not rotation is possible and musically satisfactory.

N. Missed Classes due to Field Trips

Situations will arise where students are required to miss classes – both in the Schulich School of Music as well as in other faculties – because of field trips. Teaching staff in the Schulich School of Music are encouraged to assist students who approach them for information about course content and assignments that have been missed. Nonetheless, *the onus remains on the student who goes on a field trip to complete class work.*

O. Transfer Credits

The previous ensemble participation of students coming to McGill from other universities will be recognized if their ensemble experience was similar to that required of McGill students. In general, transfer credit is made on a term-for-term basis (not by credits) and usually does not exceed two (2) terms. Students are normally not permitted to reduce the Basic Ensemble Training requirements of their McGill program to less than the number of terms required for them to complete the rest of their program. In such cases, transfer credit may be given as Music and/or Free Elective credit.

P. Extra Basic Ensemble Training Credits

Basic Ensemble Training credits accumulated above the minimum may be applied as Music and/or Free Elective credits.

Q. Performance Library

Students are responsible for the music which has been loaned to them for their use, and for its return in good condition to the Performance Library. Students will be required to pay for the replacement of any music which has been lost, stolen or damaged.

10.5.2 Accompanying

All Music students registered for practical instruction (including elective study) are eligible for subsidized accompaniment up to a specified maximum number of hours. Students wishing to use this program should request further details from the Department of Performance office.

10.5.3 Academic Category

All Music students are registered in one of the following categories:

Major: B.Mus. candidates may choose one or more of several majors as described under [section 10.6 “Programs of Study”](#).

Honours: A more intensive program than a major, B.Mus. students may choose one or more honours programs as described under [section 10.6 “Programs of Study”](#). Generally, an honours degree in the appropriate field is prerequisite to graduate study.

Faculty Program: A general B.Mus. program ([section 10.6.2.8 “Faculty Program”](#)).

L.Mus., Artist Dip.: Diploma programs are designed for advanced instrumentalists and singers who wish to concentrate on their practical subject.

Special: Those who are not proceeding towards a degree or diploma.

Visiting: Those taking courses at McGill for credit towards a degree at another university.

10.5.4 Auditing

For information on auditing, see [Auditing of Courses, section 3.3.14](#).

10.5.5 Music/Free Electives

Unless otherwise specified, any music course numbered at the 200 level or higher which is not a required course in the student's program can be counted as a Music and/or Free Elective in the B.Mus. or Artist Diploma programs. Under certain conditions, two credits per term of practical instruction may be applied as Music and/or Free Electives only if the lessons are taken after completion of the final examination and/or completion of the number of terms designated in the student's program. Practical instruction in a second instrument at the 100 level, Jazz Materials 1 (MUJZ 160), and Jazz Materials 2 (MUJZ 161) may be taken for elective credit. Consult the Student Affairs Office for details. Basic Ensemble credits accumulated above the minimum may be applied as Music and/or Free Elective credits.

10.5.6 Non-Music Electives

In all B.Mus. programs, students are required to complete a minimum of 18 elective credits from courses offered by other faculties. Students admitted from high schools outside Quebec, not holding a DCS, must complete an additional 6 credits of non-music electives for a total of 24. Students holding a DCS in a non-Music program are exempt from 6 credits of their requirement. Students should note that certain programs have requirements in addition to the above.

The Schulich School of Music allows up to 12 credits in English as a Second Language as a non-music elective in the B.Mus. program. These credits may be taken in the Faculty of Arts at the Intermediate or Advanced level OR they may be taken at the Centre for Continuing Education at level 4 or above.

10.5.7 Course Changes

Students are permitted to change courses and/or sections of a course during the first two-week period of classes in each term. This is referred to as the official Course Change Period. Course and section changes are made by the student, using Minerva to access his/her record directly. Worksheets for this purpose are available at the Student Affairs Office on the 7th floor of the New Music Building. For more information, see [section 3.3.8 “Regulations Concerning Course Withdrawal”](#).

Late course change requests, if approved, will be processed only upon payment of a fee of \$25. No charge will be made for late changes imposed by the Faculty. If students' registrations must be corrected after the Course Change Period to bring their records into conformity with the courses they are actually taking, the students will be charged the late fee.

10.5.8 Withdrawal from Course(s)

Students are permitted to withdraw from courses other than practical instruction or ensembles after the end of the Course Change Period. In such cases the student's mark in the course will be W. Course withdrawals are also processed on Minerva, within permissible dates. For more information, see [section 3.3.8 “Regulations Concerning Course Withdrawal”](#).

The final deadlines for withdrawing from Music courses are:

For a one-term course: The end of the seventh week of classes.

For a two-term course: The end of the Course Change period in the second term.

THE DEADLINE FOR WITHDRAWING FROM PRACTICAL LESSONS AND ENSEMBLES IS THE END OF THE SECOND WEEK OF CLASSES IN ANY TERM.

Music students who, in special circumstances such as illness or injury, are given permission to withdraw from practical instruction after the end of the Course Change Period will be charged \$65 per week for 1-hour lessons and \$97.50 per week for 1.5 hour-lessons up to a maximum equivalent to the total fees charged for the course. Full refunds for practical instruction will be given up to the end of the Course Change Period.

Note: Students who do not complete a course for which they remain registered will receive a grade of F or J.

For information on the REFUND POLICY, please see [section 3.3.8 "Regulations Concerning Course Withdrawal"](#).

10.5.9 Incompletes

At the discretion of the instructor, a mark of K (Incomplete) may be given to a student who, due to extenuating circumstances, has not finished the coursework on time. The deadline for completion and submission of the required work shall be set by the instructor but may not be later than four months after the K was given. A special form for incompletes, available from the Student Affairs Office, must be signed by the student and the instructor by the last day of lectures. If the "Incomplete" is not removed by this time, the mark will be changed to KF (Incomplete Failed), unless an extension has been granted (KE). Completion of the course will cause the K to be replaced on official transcripts by the mark earned. A mark of K not cleared by mid-May makes the student ineligible for scholarships.

In exceptional cases, when research or an assignment cannot be completed for reasons beyond the student's control, students may be given permission by their Departmental Chair or the Associate Dean (Student Affairs) to leave a course permanently incomplete (without penalty). The symbol K will be replaced by KK, in which case the student's Grade Point Average will be calculated without including this course.

10.5.10 Deferrals

Deferred examinations are permitted in the case of illness or other exceptional circumstances. Music students requesting a deferred examination in academic courses must submit the Request for a Deferred Examination form to the Senior Student Adviser. Students requesting a deferred examination in a practical music examination must submit the form to the Performance Department Chair. Supporting evidence such as an appropriate medical note is required. If the request is approved, an L (deferred) will appear in place of a grade. The grade obtained in the deferred examination will replace the grade of L (deferred) on the official transcript.

Deferred examinations in Music academic courses are given at the discretion of the instructor. A deferred examination in a Music practical examination will be held during the next examination period. Deferred examinations in non-Music courses will be held in May for the Fall term and August for the Winter term. Examinations will follow the rules of the faculty concerned. **It is the student's responsibility to check the date, time and place of the deferred examination.**

A mark of L (deferred) not cleared by mid-May makes the student ineligible for scholarships.

Students who are unable to write a deferred exam must contact the Music Student Affairs Office immediately to initiate a withdrawal from the deferred exam. Deferred examinations cannot be written at a later date. If the withdrawal is not approved, a final grade of J (absent) will be entered and will count as a zero in the TGPA/CGPA.

10.5.11 Supplementals

Supplemental examinations in Music academic courses may be given at the discretion of the instructor. A student who receives a

mark below 30% in a course is not permitted to take a supplemental examination but must repeat the course.

10.5.12 Rereading of Examinations

A student wishing to have an examination paper reread should apply in writing to the Associate Dean (Student Affairs). There is a non-refundable fee of \$35. The mark given in the rereading, whether higher or lower, will replace the mark originally given. Any request to have a term paper or other coursework reassessed must be made directly to the instructor concerned.

10.5.13 Academic Standing

Academic standing is based primarily on students' cumulative grade point average (CGPA), but may also be affected by their term grade point average (TGPA). Academic standing, which is assessed after the end of each term, determines if students will be allowed to continue their studies in the next term and if any conditions will be attached to their registration.

Decisions about academic standing in the Fall term are based only on grades that are available in January. Grades for courses in which students have deferred examinations and Fall-term grades for courses that span the Fall and Winter terms do not affect academic standing for the Fall term, even though they will ultimately affect students' Fall TGPA. Therefore, academic standings for the Fall term are designated as "interim" and should be interpreted as advisory; moreover, interim standings will not appear on external transcripts. **Interim standing decisions are mentioned below only if the rules for them differ from those for regular standing decisions.**

Satisfactory/Interim Satisfactory Standing

Students in satisfactory standing may continue in their program.

- New students are admitted to satisfactory standing.
- Students with a CGPA of 2.00 or greater are in satisfactory standing.

Probationary/Interim Probationary Standing

Students in interim probationary standing may continue in their program, but should evaluate their course load and reduce it as appropriate. They are strongly advised to consult a departmental adviser, before the withdrawal deadlines, about their course selection for the Winter term.

- Students who were previously in satisfactory standing will be placed in probationary standing if their CGPA falls between 1.50 and 1.99.
- Students who were previously in probationary standing will remain in probationary standing if their CGPA falls between 1.50 and 1.99 and their TGPA is 2.50 or higher, although the TGPA requirement will not apply to the Summer term.
- Students who were previously in interim unsatisfactory standing will be placed in probationary standing if their CGPA falls between 1.50 and 1.99 and their TGPA is 2.50 or higher.
- Students who were previously in unsatisfactory standing and who were readmitted to the Faculty by the Associate Dean (Student Affairs) will be placed in probationary standing if their CGPA is less than 2.00, but if they satisfy relevant conditions specified in their letter of readmission.

Readmitted Unsatisfactory Standing

Students who were previously in unsatisfactory standing and who were readmitted to the Faculty by the Associate Dean will have their standing changed to readmitted unsatisfactory standing. Their course load is specified in their letter of readmission as are the conditions they must meet to be allowed to continue in their program. They should see the Senior Student Adviser to discuss their course selection.

Unsatisfactory/Interim Unsatisfactory Standing

Students in interim unsatisfactory standing may continue in their program, but should evaluate their course load and reduce it as appropriate. They are strongly advised to consult the Senior Student Adviser, before the withdrawal deadlines, about their course selection for the Winter term.

Students in unsatisfactory standing who have failed to meet the minimum standards set by the Faculty may not continue in their program and their registration will be cancelled.

Appeals for readmission by students in unsatisfactory standing should be addressed to the Associate Dean no later than July 15 for

re-admission to the Fall term and November 15 for the Winter term. Readmission will be considered only when proof of extenuating circumstances that affected academic performance can be provided (e.g., medical or other documentation). Students in unsatisfactory standing for the second time must withdraw permanently.

Normally, supplemental examinations are not permitted; however, students in unsatisfactory standing may appeal to the Senior Student Adviser for permission to write a supplemental examination, clearly stating the reasons for special consideration and providing proof as appropriate.

- Students will be placed in unsatisfactory standing (Winter or Summer term) or interim unsatisfactory standing (Fall term) if their CGPA falls or remains below 1.50.
- For the Fall and Winter terms, students who were previously in probationary, readmitted unsatisfactory, or interim unsatisfactory standing will be placed in unsatisfactory standing if their TGPA falls below 2.50 and their CGPA is below 2.00.
- Students who were previously in unsatisfactory standing and who were readmitted to the Faculty by the Associate Dean (Student Affairs) who have not at least satisfied the conditions to attain probationary standing that were specified in the letter of re-admission will be placed in unsatisfactory standing.

Incomplete Standings

Standing awaits deferred exam.

Must clear K's, L's or Supplementals.

Standing Incomplete.

Students with incomplete standings in the Winter or Summer term may register for the Fall term, but their standing must be resolved by the end of the course change period for that term. Students whose incomplete standing changes to satisfactory, probationary, or interim unsatisfactory standing may continue in the program. Students whose standing changes to unsatisfactory standing may not continue in their program.

Students whose standing changes to unsatisfactory and who wish to ask for permission to continue in their program must make a request to the Dean as soon as they are placed in unsatisfactory standing. Readmission will be considered only when proof of extenuating circumstances that affected academic performance can be provided (e.g., medical or other documentation).

Students whose standing is still incomplete by the end of Course Change Period should immediately consult with the Student Affairs Office.

10.5.14 Graduation Requirements

1. Completion of all courses and proficiency requirements specified in the candidate's program. Students registered in two programs must fulfill all requirements for both programs. A grade of C or better must be achieved in all Required courses, all Complementary courses specified by course number, and in those courses which are prerequisites or corequisites. A grade of D (non-continuation pass) is acceptable only in terminal Elective courses or Complementary courses that are not specified by course number.
2. Minimum cumulative grade point average of 2.00.

3. Completion of a minimum of credits in residence at McGill University (B.Mus: 60 credits, L.Mus: 48 credits, Artist Dip: 32 credits).

For more information on applying to graduate, see [section 3.9 "Graduation"](#).

10.5.15 Graduation with Distinction

Students in B.Mus. programs whose academic performance is appropriate may be awarded their degrees with Distinction or High Distinction on the basis of their CGPA under the following conditions:

- The top 15% of the graduating class of each Department (Performance and Music Research) will graduate with *High Distinction*.
- The next 10% of the graduating class of each Department (Performance and Music Research) will graduate with *Distinction*.

Departments may recommend to the Faculty that students be awarded *Outstanding Achievement* in recognition of superior performance on an instrument or in an academic discipline.

The designation *Dean's Honour List* may be awarded to a graduating student who, on the basis of his/her CGPA, is among the top 10% of the B.Mus. graduating class.

10.6 Programs of Study

10.6.1 Four-Year Program (Prerequisite Courses)

Students who hold a high school graduation diploma (minimum years of schooling: 12) from other provinces, the United States or overseas may apply for admission to any of the Major or Honours programs leading to the Bachelor of Music Degree, and may be admitted to a program of approximately 120 credits, normally requiring four years to complete. These programs will include the following prerequisite courses in addition to the requirements listed in:

- [section 10.6.2 "Department of Music Research: Composition; Music History; Music Technology; Theory; Faculty Program"](#)
- [section 10.6.3 "Department of Performance"](#)
- [section 10.6.4 "Designated Major Program"](#)
- or [section 10.6.5 "B.Mus./B.Ed. Bachelor of Music and Bachelor of Education Concurrent Program"](#)

All students take:	CREDITS
MUHL 184 History Survey - Medieval, Renaissance, Baroque	3
MUHL 185 History Survey - Classical, Romantic, 20th-C.	3
MUSP 129 Musicianship 1	2
MUSP 131 Musicianship 2	2
MUTH 110 Melody and Counterpoint	3
MUTH 111 Elementary Harmony and Analysis	3
Basic Ensemble Training	4
Arts/Science Elective	6
Credits taken by all students	26
Additional courses for Non-Jazz/Non-Performance Majors:	
MUSP 170 Keyboard Proficiency	1
MUSP 171 Keyboard Lab 1	1
MUSP 172 Keyboard Lab 2	1
Practical Study	4
Total for students other than Jazz or Performance Majors	33

Additional courses for Performance Majors:		
MUPG 100 Life as a Professional Musician	1	
MUSP 170 Keyboard Proficiency	1	
MUSP 171 Keyboard Lab 1	1	
MUSP 172 Keyboard Lab 2	1	
Practical Study	8	12
Total for Performance Majors	38	

Additional courses for Jazz Majors:		
MUEN 570 Jazz Combo	2	
MUJZ 160 Jazz Materials 1	3	
MUJZ 161 Jazz Materials 2	3	
MUJZ 170 Jazz Keyboard Proficiency 1	1	
MUJZ 171 Jazz Keyboard Proficiency 2	1	
MUPG 100 Life as a Professional Musician	1	
Practical Study	8	19
Total for Jazz Majors	45	

Applicants who can demonstrate through auditions and placement tests that they have mastered the material in any of the above courses will be exempt from them and may proceed to more advanced courses.

Incoming jazz students normally must take 4 credits of non-jazz Basic Ensemble in the prerequisite year. They may substitute, with Performance department approval, non-jazz large ensemble participation from another college or university for the extra credits required of non-Quebec applicants. Incoming jazz guitarists and pianists are automatically exempt from MUJZ 170 and MUJZ 171.

10.6.2 Department of Music Research: Composition; Music History; Music Technology; Theory; Faculty Program

The Department embraces the disciplines of Composition, Music Education, Music History, Music Technology, and Theory at both the undergraduate and graduate levels, and Sound Recording at the graduate level. The philosophy of the Department is to encourage integration of the disciplines as much as possible within the learning process in each program of study: the development of basic musicianship, the absorption of the grammar and syntax of musical discourse, and the study of the world of ideas are understood as interconnected.

Honours programs provide a high degree of specialization and are a foundation for graduate-level study leading to academic careers in each discipline. Majors programs offer the student some focus with the flexibility to pursue other areas of interest. The Faculty Program is intended to offer an option for individual and creative plans of study. All of the Department's programs give a solid grounding in analytic, synthetic, and writing skills that are useful preparation not only for the musical profession but also for professions as diverse as law, journalism, management, and librarianship.

The Music Education program combines an orientation towards a professional career in primary and secondary schools with sensitivity to broader intellectual frameworks against which teachers should understand their roles. This program is offered concurrently with the B.Ed., Music.

The Department also offers a Minor in Music History to Performance majors who seek to place their work in a larger context, and Minors in Musical Applications of Technology to Music students and to students from other faculties.

For each program, all courses listed are REQUIRED Courses unless otherwise indicated.

10.6.2.1 B.Mus. with a Major in Composition

For prerequisite requirements for this program, see section 10.6.1 "Four-Year Program (Prerequisite Courses)".

2. Minimum grade of B in all MUSIC THEORY courses.

* A maximum of 2 credits of Complementary Ensemble may be substituted for 2 credits of Basic Ensemble Training, with Departmental approval.

10.6.2.8 Faculty Program

The Faculty Program in Music has been designed to accommodate those students who are either undecided about the area of music in which they wish to specialize, or who are interested in a pattern of specialization not provided in the established majors and honours programs, or who are interested in combining studies in music with studies in other disciplines. Students registered in the Faculty Program may, with the approval of a staff adviser, design their own programs around specific interests or develop programs with a broader base by incorporating courses from other disciplines.

BACHELOR OF MUSIC DEGREE (B.Mus.)

For prerequisite requirements for this program, see section 10.6.1 "Four-Year Program (Prerequisite Courses)".

10.6.2.11 Minor in Musical Applications of Technology (formerly Minor in Music Technology)

The goal of this minor is to provide instruction in practical and creative applications of technology for musical purposes. This program will help prepare students for production-oriented jobs in the creative arts.

This program is open to students from any discipline and has no prerequisites other than familiarity with computers. Application forms will be available from the Department of Music Research in the Schulich School of Music from February 1 and must be completed and returned to that office by May 15 of each academic year. Late applications will not be accepted and no students will be admitted to the Minor in January. Successful applicants will be notified by June 1st. Registration will be limited to available lab space.

Students will be selected on the basis of their previous background or experience in music technology and/or sound recording, their computer programming skills, their expressed interest in the program, and their Cumulative Grade Point Average.

CREDITS

REQUIRED COURSES (12 credits)

PHYS 224	Physics and Psychophysics of Music	3
MUMT 202	Fundamentals of New Media	3

PHYS 225	Musical Acoustics	3
MUHL 342	History of Electroacoustic Music	3
MUSR 300D1	Introduction to Music Recording and	3
MUSR 300D2	Introduction to Music Recording	3

MUMT 301	Music and the Internet	3
MUMT 303	New Media Production 2	3
TOTAL CREDITS		18

(pending university approval)

10.6.3 Department of Performance

The Department offers undergraduate and graduate degree programs leading to the B.Mus. and M.Mus., and diploma programs leading to the L.Mus. and Artist Diploma in all areas of musical performance. Programs include regular practical instruction available on all instruments and a highly developed ensemble program. The programs offer a number of major options including Orchestral Training, Solo, Jazz, Early Music, and Church Music. The Orchestral Training program is the largest performance program – many of its graduates are now members of professional orchestras throughout North America and Europe. McGill ensembles perform many concerts each year, including a number in centres across North America. (Within the past several years, McGill ensembles have performed at Carnegie Hall, Le Grand Théâtre (Quebec), the National Arts Centre, the International Buxtehude-Scheidt Festival, Lincoln Center, Roy Thomson Hall, Salle Wilfrid Pelletier, the International Association of Jazz Educators Convention in New Orleans, in Washington and Boston, Paris, London and Cork [Ireland], and at the Holetown Festival in Barbados.) In addition, they have recorded for McGill Records. These recordings have received considerable critical acclaim and a number of awards, including a Noah Greenberg Award, three Grand Prix du Disques, and a Juno Award.

Performance Specialization is available in: Violin, Viola, Cello, Double Bass, Viola da Gamba, Guitar, Harp, Recorder, Flute, Oboe, Clarinet, Saxophone, Bassoon, French Horn, Trumpet, Trombone, Tuba, Percussion, Piano, Organ, Harpsichord, Voice, Baroque Instruments (Violin, Viola, Cello, Flute, Oboe, Bassoon). Performance Programs are also available in Church Music, Early Music, and Jazz.

For each program, all courses listed are REQUIRED Courses unless otherwise indicated.

Note: The course MUPG 100 Life as a Professional Musician is a requirement for all Performance students to be completed within the first year of study.

10.6.3.1 B.Mus. with a Major in Performance (Piano)

For prerequisite requirements for this program, see section 10.6.1 "Four-Year Program (Prerequisite Courses)".

101 or 103

Special Requirements:

1. Cumulative Grade Point Average of 3.00 or better.
2. Continuation in the program requires a minimum grade of A- in practical instruction/exams, ensembles, and voice coaching.
3. Minimum grade of B in MUHL 570 and in all History, Literature or Performance Practice courses.
4. *Prior to, or concurrent with registration in the corresponding Diction courses, the Voice Major must furnish evidence of having completed ESLN 400 or ESLN 401, ITAL 205D1/ ITAL 205D2, GERM 202, and FRSL 207, or their equivalent. This language requirement may be fulfilled by appropriate High School or CEGEP courses, or as part of the non-music elective requirements above, or by extra University courses.

10.6.3.13 B.Mus. with a Major in Jazz Performance (Saxophone, Trumpet, Trombone, Drums, Piano, Guitar, Bass, Voice)

For prerequisite requirements for this program, see section 10.6.1 "Four-Year Program (Prerequisite Courses)".

MUEN 594	Contemporary Music Ensemble	2
MUEN 597	Orchestral Ensembles	2

NON-MUSIC ELECTIVES

TOTAL CREDITS

Special Requirements:

* The courses comprising the major field are selected in consultation with a faculty adviser. The complete program for a student must be approved by the relevant department, the Executive Committee and by Faculty Council. The required and complementary courses represent the minimum requirement in the areas of Theory, Musicianship, History, Practical and Ensemble. More advanced-level courses may be substituted in these areas if desired. When appropriate, certain of the required or complementary courses may comprise part of the Designated Major Area, in which case additional courses must be taken to make up the required 92 credits.

** Maximum of 2 credits of Complementary Ensemble may be substituted for 2 credits of Basic Ensemble Training, with Departmental approval.

10.6.5 B.Mus./B.Ed. Bachelor of Music and Bachelor of Education Concurrent Program

The Bachelor of Education in Music is an integrated four-year 120/121-credit program of initial teacher training that leads to certification as a teacher in the Province of Quebec. When offered concurrently with the Bachelor of Music (Major in Music Education), the program offers students the opportunity to obtain a Bachelor of Education degree and a Bachelor of Music degree after the completion of 143/144 credits, normally five years (173/174 credits or six years for out-of-province students). The concurrent program combines academic studies in music, professional studies and field experience. The two degrees are awarded during the same convocation period.

To be admitted to the Concurrent Program, students must satisfy the regular admission requirements of the Faculty of Education and the Schulich School of Music. Normally, students will be admitted to both components of the Concurrent Program simultaneously. Applicants who already hold a Bachelor of Music degree should apply to the Faculty of Education. Students who have completed 30 or more credits in a Bachelor of Music program, exclusive of the Freshman Year for out-of-province students, may apply for admission to the Concurrent Program.

All applications for the Concurrent Program are to be made to the Admissions Office of the Schulich School of Music.

Music Education in the Schulich School of Music focuses on the development of the prospective music educator as a musician. This is achieved not only through core music history, theory, musicianship, and performance courses but also through different instrumental, vocal and conducting techniques courses. Laboratory experiences provide an opportunity to develop facility with basic music rehearsing/teaching techniques, with emphasis on the ability to diagnose and correct technical and musical problems.

The components of the 143/144-credit Bachelor of Education in Music/ Bachelor of Music (Music Education) are as follows:

- 53/54 professional credits,
- 78 music academic credits (including 9 music elective credits),
- 12 elective credits.

Students who wish to complete only the Bachelor of Education in Music have the option of doing so after the successful completion of the first two years of the Concurrent Program and completion of MUIN 321 Concentration 2 Exam or equivalent. Students who decide to complete only a Bachelor of Music may transfer at any time into the Bachelor of Music, Faculty Program. Students in the Concurrent B.Mus./B.Ed. who receive an F or J in any Field Experience course are placed in unsatisfactory standing. Although they may complete their term, they are required to withdraw from the Concurrent Program; however, they may apply to transfer to the B.Mus. Faculty Program.

CONCURRENT BACHELOR OF MUSIC (MUSIC EDUCATION) AND BACHELOR OF EDUCATION IN MUSIC PROGRAM (143/144 credits)

For prerequisite requirements for this program, see section 10.6.1 “Four-Year Program (Prerequisite Courses)”.

10.6.6 Management Minor Program

The Minor in Management allows Music students to include courses in their undergraduate program that will help prepare them for a career in music. Application forms are available from the Associate Dean's Office of the Schulich School of Music (Strathcona Music Building, 555 Sherbrooke Street West). The deadline to apply is August 1. Successful applicants will be notified as soon as possible thereafter.

Detailed information on this minor can be found in the Faculty of Management; see section 9.10.2 “Minor in Management”.

10.7 Practical Subjects

10.7.1 Practical Assignments and Lessons

10.7.1.1 Registration/Withdrawal

Registration for practical instruction and examinations is not available on Minerva. Students are reminded to submit a Lesson Assignment Card to the Department of Performance by the specified deadlines. Practical Instruction will then be added onto students' records.

The deadline for withdrawing from practical lessons is the end of the second week of classes in any term.

10.7.1.2 Assignment of Teachers

The assignment of students to teachers for private lessons is the responsibility of the Chair of the Department of Performance. Student requests for specific teachers will be taken into consideration where possible. In general, **students will be assigned on a first priority basis to study with full-time members of the teaching staff.**

It is understood that returning students will study with the same teacher unless prior arrangements have been made with the Chair of the Department in consultation with the teachers concerned.

However, those students who do not return the Lesson Assignment Card (including Voice Coaching) by the specified deadline cannot be guaranteed the teacher of their choice, and they will be assessed a late fee of \$25. Teacher assignments will be made soon after the period of enrolment and posted during the first week of classes. Following this assignment, it is the students' responsibility to contact their teachers and arrange lesson times.

Individual lessons missed as a consequence of the instructor's absence will be made up at the mutual convenience of the instructor and student. Lessons missed as the result of the student's absence will be made up only if notice of cancellation has been given 48 hours in advance, or if a doctor's certificate is produced and prior notice of the cancellation is given.

Note: Students who are taking practical lessons in fulfillment of the requirements for any degree are required to study with teachers on the staff of the Schulich School of Music.

10.7.1.3 Credit Weights for Practical Study

B.Mus. Elective or Concentration	2 credits per term
B.Mus. Major or Honours	4 credits per term
L.Mus.	8 credits per term
Artist Diploma	8 credits per term

10.7.2 Examinations and Goals in Practical Subjects

Different levels of achievement are required of students depending upon the program of study for which they are registered. These levels are defined in part by the difficulty of material and length of program required at the various examinations, and in part by the examiners' assessment of how well the student plays this material.

In general there are five categories of practical study: Concentration Study, Major and Honours Study, Licentiate Study, Postgraduate Study, and Elective Study.

10.7.2.1 Concentration Study

A student in the Faculty Program or specializing in Composition, Music Education, Music History, Music Technology, or Theory is obliged to present two examinations in order to fulfill the practical requirement of these programs. These are: the Concentration 1 Examination MUIN 222 and the Concentration 2 Examination MUIN 322.

The sequence would normally be:

- MUIN 120 Practical Instruction 1
- MUIN 121 Practical Instruction 2
- MUIN 220 Practical Instruction 3
- MUIN 221 Practical Instruction 4

- MUIN 222 Concentration 1 Examination
- MUIN 320 Practical Instruction 5
- MUIN 321 Practical Instruction 6
- MUIN 322 Concentration 2 Examination

Concentration 1 Examination (MUIN 222)

Purpose: To assess the student's progress in the practical area and make recommendations for further study. The panel may recommend to the Department in which the student is registered that: a) the student be asked to withdraw from the program; or b) the student, having made sufficient progress, may proceed to the Concentration 2 Exam.

Panel: A minimum of two staff members (not including the teacher), one of whom must be from the area. The panel is appointed by the Chair of the Department of Performance. At the discretion of the Departmental Chair, the teacher may be included on panels of three or more examiners.

Distribution of Marks: For students registered in practical lessons through the Schulich School of Music, the teacher submits a term mark which is included as 50% of the final mark. In instances where the student's teacher is on the panel, the teacher's global evaluation will nevertheless be equal to 50% of the final mark. This grade will also be entered in the student's current or most recent term of practical instruction. When a student is not registered for lessons through the Schulich School of Music, the final mark will be the average of the marks submitted by the examination panel and will also be entered in the most recent term of practical instruction.

Concentration 2 Examination (MUIN 322)

Purpose: To determine that the student is sufficiently accomplished to qualify for the degree of Bachelor of Music.

Panel: A minimum of two staff members (not including the teacher), one of whom must be from the area. The panel is appointed by the Chair of the Department of Performance. At the discretion of the Departmental Chair, the teacher may be included on panels of three or more examiners.

Distribution of Marks: For students registered in practical lessons through the Schulich School of Music, the teacher submits a term mark which is included as 33% of the final mark. In instances where the student's teacher is on the panel, the teacher's global evaluation will nevertheless be equal to 33% of the final mark. This grade will also be entered in the student's current or most recent term of practical instruction. When a student is not registered for lessons through the Schulich School of Music, the final mark will be the average of the marks submitted by the examination panel and will also be entered in the most recent term of practical instruction.

10.7.2.2 Major and Honours Study

A student majoring in Performance (B.Mus. or L.Mus.) must show talent for this field before being admitted to the program. The practical requirement for these programs comprises examinations and recitals as specified in the programs.

Any U1 Performance Major (except Jazz Performance) may indicate an intention to pursue an Honours program but admission becomes final only after the results of the Major Performance 1 Exam are available. Admission to the Honours program requires a grade of A- or better in the Performance 1 Exam (or most recent exam), a GPA of 3.00 or better, the approval of the student's teacher and the examining panel. Following the Major Performance 1 Exam, Honours students must present the Honours Performance 2 Exam and the Honours Performance 3 Exam.

B.MUS. MAJOR IN PERFORMANCE, MAJOR IN EARLY MUSIC PERFORMANCE, AND MAJOR IN JAZZ PERFORMANCE

The sequence would normally be:

- MUIN 130 Performance Practical Instruction 1
- MUIN 131 Performance Practical Instruction 2
- MUIN 230 Performance Practical Instruction 3
- MUIN 231 Performance Practical Instruction 4
- MUIN 232 Performance 1 Examination

MUIN 330 Performance Practical Instruction 5
 MUIN 333 Piano Techniques 2
 MUIN 331 Performance Practical Instruction 6
 MUIN 332 Performance 2 Examination
 MUIN 430 Performance Practical Instruction 7
 MUIN 433 Piano Techniques 3
 MUIN 431 Performance Practical Instruction 8
 MUIN 432 Performance 3 Examination
 MUIN 369 Concerto (mandatory test for pianists)

Performance 1 Examination (MUIN 232)

Purpose: To assess the student's progress in the practical area and determine whether or not the student may continue in the program. The panel may recommend to the Department that the student be: a) asked to withdraw from the program; b) permitted to continue to the Performance 2 Exam; c) admitted to the Performance Honours program.

Panel: A minimum of three staff members, one of whom may be the student's teacher. The panel is appointed by the Chair of the Department of Performance.

Distribution of Marks: The teacher submits a term mark which is included as 50% of the final mark. In instances where the student's teacher is on the panel, the teacher's global evaluation will nevertheless be equal to 50% of the final mark. This grade will also be entered in the student's current or most recent term of practical instruction.

Performance 2 Examination (MUIN 332)

Purpose: To assess the student's ability to perform a program of sufficient length and suitable repertoire as specified in the requirements for each instrument.

Panel: A minimum of three staff members, one of whom may be the student's teacher. The panel is appointed by the Chair of the Department of Performance.

Distribution of Marks: Each member of the panel submits a mark for the examination, with the final mark being the average. This grade will also be entered in the student's current or most recent term of practical instruction.

Performance 3 Examination (MUIN 432)

Purpose: All recitals are to be performed in public before a jury and are intended to demonstrate technical mastery of their instrument/voice as well as an understanding of different musical styles appropriate to their level of study.

Panel: A minimum of three staff members, one of whom may be the student's teacher. The panel is appointed by the Chair of the Department of Performance.

Distribution of Marks: Each member of the panel submits a mark for the examination, with the final mark being the average. This grade will also be entered in the student's current or most recent term of practical instruction.

B.MUS. HONOURS IN PERFORMANCE AND IN EARLY MUSIC PERFORMANCE

The sequence would normally be:

MUIN 130 Performance Practical Instruction 1
 MUIN 131 Performance Practical Instruction 2
 MUIN 230 Performance Practical Instruction 3
 MUIN 231 Performance Practical Instruction 4
 MUIN 232 Performance 1 Examination
 MUIN 340 Honours Practical Instruction 5
 MUIN 333 Piano Techniques 2
 MUIN 341 Honours Practical Instruction 6
 MUIN 342 Honours Performance 2 Examination
 MUIN 369 Concerto (mandatory test for pianists)
 MUIN 440 Honours Practical Instruction 7
 MUIN 442 Honours Performance 3 Examination
 MUIN 433 Piano Techniques 3
 MUIN 441 Honours Practical Instruction 8

Performance 1 Examination (MUIN 232)

Purpose: To assess the student's progress in the practical area and determine whether or not the student may continue in the

program. The panel may recommend to the Department that the student be: a) asked to withdraw from the program; b) permitted to continue to the Performance 2 Exam; c) admitted to the Performance Honours program.

Panel: A minimum of three staff members, one of whom may be the student's teacher. The panel is appointed by the Chair of the Department of Performance.

Distribution of Marks: The teacher submits a term mark which is included as 50% of the final mark. In instances where the student's teacher is on the panel, the teacher's global evaluation will nevertheless be equal to 50% of the final mark. This grade will also be entered in the student's current or most recent term of practical instruction.

Honours Performance 2 Examination (MUIN 342)

Purpose: The recital is a public presentation, before a jury, intended to demonstrate competence in public solo performance. Non-keyboard performers and singers must use appropriate accompaniment.

Panel: A minimum of three staff members, one of whom may be the student's teacher. The panel is appointed by the Chair of the Department of Performance.

Distribution of Marks: Each member of the panel submits a mark for the examination, with the final mark being the average. This grade will also be entered in the student's current or most recent term of practical instruction.

Honours Performance 3 Examination (MUIN 442)

Purpose: All recitals are to be performed in public before a jury and are intended to demonstrate technical mastery of their instrument/voice as well as an understanding of different musical styles appropriate to their level of study.

Panel: A minimum of three staff members, one of whom may be the student's teacher. The panel is appointed by the Chair of the Department of Performance.

Distribution of Marks: Each member of the panel submits a mark for the examination, with the final mark being the average. This grade will also be entered in the student's current or most recent term of practical instruction.

10.7.2.3 Licentiate Study

A student must show talent for this field before being admitted to the program. Grades of A- in all practical requirements are mandatory for continuation in the program.

L.MUS. PERFORMANCE

The sequence would normally be:

MUIN 250 L.Mus. Practical Instruction 1
 MUIN 251 L.Mus. Practical Instruction 2
 MUIN 252 L.Mus. Performance 1 Examination
 MUIN 350 L.Mus. Practical Instruction 3
 MUIN 333 Piano Techniques 2
 MUIN 351 L.Mus. Practical Instruction 4
 MUIN 352 L.Mus. Performance 2 Examination
 MUIN 450 L.Mus. Practical Instruction 5
 MUIN 433 Piano Techniques 3
 MUIN 451 L.Mus. Practical Instruction 6
 MUIN 452 L.Mus. Performance 3 Examination
 MUIN 369 Concerto (mandatory test for pianists)

L.Mus. Performance 1 Examination (MUIN 252)

Purpose: To assess the student's progress in the practical area and determine whether or not the student may continue in the program. The panel may recommend to the Department that the student be: a) asked to withdraw from the program; or b) permitted to continue to the L.Mus. Performance 2 Exam.

Panel: A minimum of three staff members, one of whom may be the student's teacher. The panel is appointed by the Chair of the Department of Performance.

Distribution of Marks: The teacher submits a term mark which is included as 50% of the final mark. In instances where the student's

teacher is on the panel, the teacher's global evaluation will nevertheless be equal to 50% of the final mark. This grade will also be entered in the student's current or most recent term of practical instruction.

L.Mus. Performance 2 Examination (MUIN 352)

Purpose: The recital is a public presentation, before a jury, intended to demonstrate competence in public solo performance. Non-keyboard performers and singers must use appropriate accompaniment.

Panel: A minimum of three staff members, one of whom may be the student's teacher. The panel is appointed by the Chair of the Department of Performance.

Distribution of Marks: Each member of the panel submits a mark for the examination, with the final mark being the average. This grade will also be entered in the student's current or most recent term of practical instruction.

L.Mus. Performance 3 Examination (MUIN 452)

Purpose: All recitals are to be performed in public before a jury and are intended to demonstrate technical mastery of their instrument/voice as well as an understanding of different musical styles appropriate to their level of study.

Panel: A minimum of three staff members, one of whom may be the student's teacher. The panel is appointed by the Chair of the Department of Performance.

Distribution of Marks: Each member of the panel submits a mark for the examination, with the final mark being the average. This grade will also be entered in the student's current or most recent term of practical instruction.

10.7.2.4 Postgraduate Study

Artist Diploma candidates must present a number of public recitals and fulfill various special performance requirements (concertos, chamber music, orchestral passages, etc.). Grades of A- in all practical requirements are mandatory for continuation in the program.

M.Mus. candidates should consult the *Graduate and Postdoctoral Studies Calendar* for requirements of their program.

ARTIST DIPLOMA

The sequence would normally be:

- MUIN 460 Artist Diploma Practical Instruction 1
- MUIN 461 Artist Diploma Practical Instruction 2
- MUIN 462 Artist Diploma Recital 1
- MUIN 560 Artist Diploma Practical Instruction 3
- MUIN 561 Artist Diploma Practical Instruction 4
- MUIN 562 Artist Diploma Recital 2
- MUIN 563 Artist Diploma Recital 3

In addition, the Artist Diploma program in orchestral instruments, piano and voice requires the candidate to present two concertos:

- MUIN 469 Artist Diploma Concerto 1
- MUIN 569 Artist Diploma Concerto 2

Applications for Artist Diploma Concerto hearings must be submitted to the Department of Performance Office five (5) weeks prior to the proposed date. The concerto examinations may be planned for any time during the academic session subject to the availability of examiners and facilities.

Artist Diploma Recital 1 (MUIN 462)

Purpose: Recital programs are intended to demonstrate that the student is qualified to engage in professional performance activities, and has attained the high level of performing ability required for the Artist Diploma.

Panel: The panel consists of the Departmental Chair or delegate as well as two staff members from the area concerned (in Voice recitals, one voice teacher plus one staff member from another area).

Distribution of Marks: Examiners judge the recital independently and submit their evaluation without consulting the other examiners. All of the examiners must judge the recital to be satisfactory

for the candidate to pass. This grade will also be entered in the student's current or most recent term of practical instruction.

Artist Diploma Recital 2 (MUIN 562)

Purpose: Recital programs are intended to demonstrate that the student is qualified to engage in professional performance activities, and has attained the high level of performing ability required for the Artist Diploma.

Panel: The panel consists of the Departmental Chair or delegate as well as two staff members from the area concerned (in Voice recitals, one voice teacher plus one staff member from another area).

Distribution of Marks: Examiners judge the recital independently and submit their evaluation without consulting the other examiners. All of the examiners must judge the recital to be satisfactory for the candidate to pass. This grade will also be entered in the student's current or most recent term of practical instruction.

Artist Diploma Recital 3 (MUIN 563)

Purpose: Recital programs are intended to demonstrate that the student is qualified to engage in professional performance activities, and has attained the high level of performing ability required for the Artist Diploma.

Panel: The panel consists of the Departmental Chair or delegate as well as two staff members from the area concerned.

Distribution of Marks: Examiners judge the recital independently and submit their evaluation without consulting the other examiners. All of the examiners must judge the recital to be satisfactory for the candidate to pass.

Artist Diploma Concerto 1 (MUIN 469)

Purpose: The Artist Diploma program in orchestral instruments, piano and voice requires the candidate to present concertos which are normally examined only by a jury. The concerto examinations may be planned for any time during the academic session subject to the availability of examiners and facilities.

Panel: A minimum of three staff members, one of whom may be the student's teacher. The panel is appointed by the Chair of the Department of Performance.

Distribution of Marks: Examiners judge the concerto independently and submit their evaluation without consulting the other examiners. All the examiners must judge the concerto to be satisfactory for the candidate to pass.

Artist Diploma Concerto 2 (MUIN 569)

Purpose: The Artist Diploma program in orchestral instruments, piano and voice requires the candidate to present concertos which are normally examined only by a jury. The concerto examinations may be planned for any time during the academic session subject to the availability of examiners and facilities.

Panel: A minimum of three staff members, one of whom may be the student's teacher. The panel is appointed by the Chair of the Department of Performance.

Distribution of Marks: Examiners judge the concerto independently and submit their evaluation without consulting the other examiners. All the examiners must judge the concerto to be satisfactory for the candidate to pass.

10.7.2.5 Elective Study

Students may elect to pursue further practical study in addition to their curricular requirements. The student is not expected to follow a specific program. Additional fees apply.

10.7.3 Practical Examinations

Details of specific examination requirements for each area (Brass, Early Music, Guitar, Harp, Jazz, Organ, Percussion, Piano, Strings, Voice, Woodwinds) may be obtained from the Department of Performance Office.

10.7.3.1 Application for Examination

Examinations and recitals must be presented in one of the examination periods. When a student and his/her teacher agree to present a required practical examination, **the student must make an application by the deadline specified below.** Permission to withdraw from, or postpone, a practical examination will normally be granted only in the case of illness. A medical certificate must be submitted to the Departmental Secretary within seven days after the withdrawal request has been received. Withdrawal from a practical examination on other than medical grounds must be authorized by the Departmental Chair.

Application for the above examinations must be made on the appropriate form available at the Performance Academic Affairs Office. Applicants must obtain their teachers' approval on this form and submit it according to the following schedule.

Examination Period	Application Deadline*	Deadline for Cancellations
September 8-12, 2008**	June 1***	August 1
December 4-19, 2008	October 15	November 7
April 15-30, 2009	February 2	March 2

*All students must apply by this deadline. Applications may be withdrawn without penalty any time up to the deadline for cancellations given above.

**The September examination period is available only for Summer graduands. No supplemental or deferred examinations will be given at this time.

***It is recommended that students planning to take an examination in September submit the program for approval before the end of May otherwise the program may not be seen by the Area Committee until September.

Applications received after these deadlines will only be accepted with special permission for the Performance Departmental Chair and on payment of a \$25 late application fee.

10.7.3.2 Examination Marking

Normally, the final mark for any practical examination is the average of all the marks submitted by the individual examiners. In addition, however, at least half of the examiners on the panel must pass the student in order to continue to the next level of examination. (NB: the passing grade in the Honours, L.Mus. and Artist Diploma programs is A-; in the Major Performance programs, it is B-.) In instances where the average mark is a passing grade but a majority of the panel has failed the student, the final mark will be the letter grade immediately below the required passing grade.

10.8 Academic Staff

DEPARTMENT OF MUSIC RESEARCH

Chair — Schubert, Peter; B.A., M.A., Ph.D.(Col.)

COMPOSITION AREA

Bouliane, Denys; B.Mus., M.Mus.(Laval), Graduate, Hochschule für Musik(Hamburg); Associate Professor; Composition, Orchestration, Contemporary Music Ensemble
 Cherney, Brian; Mus.Bac., Mus.M., Ph.D.(Tor.); Professor; Composition, Theory and Analysis, History and Literature
 Ferguson, Sean; B.Mus.(Alta.), M.Mus., D.Mus.(McG.); Assistant Professor; Composition; Director, Digital Composition Studio
 Harman, Chris; Assistant Professor; Composition Area Chair; Composition
 Lesage, Jean; Concours, Diplôme d'études supérieures (Conservatoire de Montréal); Assistant Professor; Composition Area Chair; Composition
 Rea, John; B.Mus.(Wayne State), M.Mus.(Tor.), M.F.A., Ph.D.(Prin.); Professor; Composition, Theory and Analysis

MUSIC EDUCATION AREA

Cossette, Isabelle; Premier Pri(Conservatoire de Québ.); M.Mus.(McG.), D.Mus.(Montr.); Assistant Professor; Special Category
 Lorenzino, Lisa; B.Mus.(Tor.), B.Ed.(Sask.), M.A.(McG.); Faculty Lecturer; Music Education Area Chair; Music Education
 Ryan, Charlene; B.Mus.(Nfld.)(W.Ont.), M.Mus.(Mich.), Ph.D.(McG.); Assistant Professor; Music Education
 Wapnick, Joel; B.A.(NYU), M.A.(SUNY), M.F.A.(Sarah L.), Ed.D.(Syr.); Associate Professor; Director, Music Education Research Lab; General Music Techniques

MUSIC THEORY AREA

Caplin, William; B.M.(S.Calif.), M.A., Ph.D.(Chic.); Professor; Theory and Analysis
 Daley, Rene; B.Mus.(Lawrence), M.A., M.Mus.(Mannes), Ph.D.(Mich.); Assistant Professor; Theory and Analysis
 McLean, Don; Mus.Bac., M.A., Ph.D.(Tor.); Associate Professor; Dean, Schulich School of Music; Theory and Analysis
 Neidhöfer, Christoph; Graduate, Hochschule für Musik(Basel), Ph.D.(Harv.); Assistant Professor; Musicianship Theory Area Chair; Theory and Analysis, Composition
 Sabourin, Carmen; B.Mus., M.Mus.(McG.), Ph.D.(Yale); Associate Professor; Theory
 Schubert, Peter; B.A., M.A., Ph.D.(Col.); Associate Professor; Theory and Analysis
 Wild, Jonathan; B.Mus., M.A.(McG.); Assistant Professor; Music Theory, Composition

MUSIC TECHNOLOGY AREA

Depalle, Philippe; B.Sc.(Paris XI & ENS Cachan), D.E.A.(Le Mans & ENS Cachan), Ph.D.(Le Mans & IRCAM); Associate Professor; Music Technology (*William Dawson Scholar*)
 Fujinaga, Ichiro; B.Mus., B.Sc.(Alta.), M.A., Ph.D.(McG.); Assistant Professor; Music Technology
 McAdams, Stephen; B.Sc.(McG.), Ph.D.(Stan.), D.Sc.(Paris); Professor; Director, CIRMMT; *Canada Research Chair*; Music Technology
 Pennycook, Bruce; B.Mus., M.Mus.(Tor.), DMA (Stan.); Adjunct Professor; Music Technology
 Scavone, Gary; B.A., B.S.(Syr.), M.S., Ph.D.(Stan.); Assistant Professor; Music Technology Area Chair; Music Technology
 Umezaki, Kojiro; M.A.(Dart.), B.Sc.(Lafayette); Instructor; Music Technology
 Wanderley, Marcelo; B.Eng.(UFPR), M.Eng.(UFSC), Ph.D.(Paris VI & IRCAM); Assistant Professor; Music Technology, Gestural Control of Sound Synthesis

MUSICIANSHIP AREA

Davidson, Thomas; B. Mus.(Qu.), M.Mus.(McG.), Cert. of Advanced Study(R.C.M., Lond.), A.R.C.M., L.T.C.L.; Faculty Lecturer; Music Area Chair; Musicianship, Piano; Keyboard Proficiency Coordinator
 Lipszyc, Reisa; B.Mus.(McG.); Instructor; Basic Materials
 Mariner, Justin; M.Mus., D.Mus.(McG.); Assistant Professor; Musicianship
 Sherman, Norma; B.A.(C'dia); B.Mus., M.A.(McG.); Faculty Lecturer; Musicianship

MUSICOLOGY AREA

Barg, Lisa; B.A.(Antioch), M.A., Ph.D.(SUNY); Assistant Professor; History and Literature
 Beghin, Tom; Diplôme Supérieur(Louvain), M.A., D.M.A.(C'nell); Associate Professor; Musicology Area Chair; Fortepiano, History and Literature
 Brackett, David; B.A.(Calif.-Santa Cruz), M.M.(New England Cons.), D.M.A.(C'nell); Associate Professor; History and Literature
 Cumming, Julie; B.A.(Col.), M.A., Ph.D.(Calif., Berk.); Associate Professor; History and Literature

Huebner, Steven; B.A., B.Mus., L.Mus.(McG.), M.F.A., Ph.D.(Prin.); Professor; History and Literature (*James McGill Professor*)

Kok, Roe-Min; B.Mus.(Texas), M.A.(Duke), Ph.D.(Harv.); Assistant Professor; History and Literature

Ianza, Alcides; Graduate, Instituto Torcuato Di Tella(Buenos Aires); Professor; Director Emeritus (Electronic) Digital Composition Studio

Lawton, Richard; B.Mus.(McG.), M.Mus.(Ind.); Associate Professor; History and Literature

Minorgan, Bruce; B.Mus.(Br. Col.), M.A.(Tor.); Associate Professor; Associate Dean; History and Literature, Music Technology

Rice, Kelly; B.Mus., M.A.(McG.); Instructor; History and Literature

Stubley, Eleanor; B.Mus.(Tor.), M.Mus.(Bran.), Ph.D.(Ill.); Associate Professor; Music Education

Whitesell, Lloyd; B.A.(Minn.), M.A., Ph.D.(SUNY, Stony Brook); Associate Professor; History and Literature

SOUND RECORDING AREA

Bech, Soren; M.Sc., Ph.D.(Technical Univ. of Denmark); Adjunct Professor; Sound Recording; Senior Technology Specialist, Bang & Olufsen

Cook, Peter; B.Mus., M.Mus.(McG.); C.B.C.; Instructor; Sound Recording

De Francisco, Martha; Diplom-Tonmeister(Detmold); Associate Professor; Sound Recording

Epstein, Steven; Senior Executive Producer, Sony Classical; Instructor; Sound Recording

Martens, William; B.A.(Miami), Ph.D.(N'western); Associate Professor; Sound Recording Area Chair; Sound Recording

Massenburg, George; President and Owner, GML Inc.; Instructor; Sound Recording

Quesnel, René; B.Mus., M.Mus., Ph.D.(McG.); Assistant Professor; Sound Recording

Woszczyk, Wieslaw; M.A., Ph.D.(F. Chopin Academy of Music, Warsaw); Professor; Director, Recording Studio; Sound Recording (*James McGill Professor*)

ASSOCIATE MEMBERS

Jeremy Cooperstock, Dept. of Electrical and Computer Engineering

Vincent Hayward, Dept. of Electrical and Computer Engineering

Daniel Levitin, Dept. of Psychology

Robert Zatorre, Montreal Neurological Institute

DEPARTMENT OF PERFORMANCE

Chair — Roy, André; B.Mus.(Curtis); Assistant Professor

BRASS AREA

French Horn

Derome, Denys; L.Mus.(McG.); Montreal Symphony; Instructor

Gaudreault, Jean; LL.L.(Montr.), Graduate, Conservatoire de Musique de Québec; Montreal Symphony; Assistant Professor

Zirbel, John; B.Mus.(Wis.); Principal Horn, Montreal Symphony; Associate Professor

Trumpet

Carroll, Edward; B.Mus., M.Mus.(Juilliard)

DeVuyt, Russell; B.Mus.Ed.(Boston Cons.), M.M.(New England Cons.); Associate Principal, Montreal Symphony; Assistant Professor

Merkelo, Paul; B.Mus.(Eastman); Principal Trumpet, Montreal Symphony; Instructor

Trombone

Box, James; M.M.(S. Methodist), M.M.(Cleveland Inst. Music);

Principal Trombone, Montreal Symphony; Assistant Professor

Dix, Trevor; M.Mus.(McG.); Instructor

Lee, Vivian; Montreal Symphony; Instructor

Martin, David; Montreal Symphony; Instructor

Tuba/Euphonium

Cazes, Alain; Premier Prix(Conservatoire de Montréal); Assistant Professor; Brass Area Chair

Johnson, Sasha; Instructor; Associate Brass Area Chair

Miller, Dennis; Principal Tuba, Montreal Symphony; Assistant Professor

CHORAL AREA

Ingari, Robert; Assistant Professor; Choral Area Chair

Wachner, Julian; B.Mus., Mus.Doc.(Boston); Associate Professor; Principal Conductor, Opera McGill

EARLY MUSIC AREA

Beauséjour, Luc; Instructor; Harpsichord

Beghin, Tom; Diplome Supérieur(Louvain), M.A., D.M.A.(C'nell); Associate Professor; Fortepiano

Bergeron, Sylvain; B.Mus.(Laval); Instructor; Lute

Grew, John; L.T.C.L.(Lond.), B.Mus.(Mt. All.), M.Mus.(Mich.), D.D.(United Theological Coll.), LL.D.(Mt.All.); University

Organist; Professor; Organ Area Chair; Organ, Harpsichord; Early Music Area Co-Chair

Guimond, Claire; B.Mus.(McG.); Instructor; Baroque Flute

Jennejohn, Matthew; B.A.(Sask.), B.Mus.(Br. Col.); Instructor; Baroque Oboe

Kinslow, Valerie; B.A.(McG.); Assistant Professor; Early Music, Voice; Early Music Area Co-Chair

Kirk, Douglas; B.S., B.A.Mus. Hons.(Iowa), M.M.(Texas at Austin), Ph.D.(McG.); Instructor; Cornetto

Knox, Hank; B.Mus., M.Mus.(McG.); Associate Professor; Continuo, Harpsichord (*William Dawson Scholar*)

Lortie, Dominique; Instructor; Sackbut

Lussier, Mathieu; Instructor; Baroque Bassoon

MacMillan, Betsy; B.Mus.(W. Ont.), M.Mus.(McG.); Instructor; Viola da Gamba

Maute, Matthias; Instructor; Recorder

Michaud, Nathalie; B.A.(Ott.), Cert. of Interpretation(The Hague), M.A.(Montr.); Instructor; Recorder

Napper, Suzie; Instructor; Baroque Cello

Oldengarm, Jonathan; B.Mus.(W. Laur.); M.Mus., Artist Dip., D.Mus.(McG.); Instructor, Continuo

Plouffe, Hélène; Instructor; Baroque Viola; Baroque Violin

Rémillard, Chantal; B.Mus.(Montr.); Instructor; Baroque Violin

ENSEMBLES

Bouliane, Denys; B.Mus., M.Mus.(Laval), Graduate, Hochschule für Musik(Hamburg); Associate Professor; Contemporary Music Ensemble

Cazes, Alain; Premier Prix(Conservatoire de Montréal); Assistant Professor; Wind Symphony, Wind Orchestra

Di Lauro, Ron; B.Mus.(McG.); Instructor; Jazz Orchestra II

Foote, Gordon; B.Sc., M.A.(Minn.); Associate Professor; Jazz Orchestra I

Hauser, Alexis; Diplom(Konservatorium der Stadt, Wien);

Associate Professor; McGill Symphony Orchestra

Thériault, Madeleine; Instructor; Jazz Vocal Workshop

Kennedy, Donny; B.Mus., M.Mus.(McG.); Jazz Combo Coordinator

MacMillan, Betsy; B.Mus.(W. Ont.), M.Mus.(McG.); Instructor; Early Music Ensemble Coordinator

McNabney, Douglas; B.Mus.(Tor.), M.M.(U.Ont.), D.Mus.(Montr.); Associate Professor; Chamber Music Coordinator

JAZZ AREA

Luvana Di Francesco **Administrative Assistant**
Bruna Salhany **Administrative Affairs/Dean's Assistant**

11.1.3 History

The Faculty and the Colleges

During the 19th century several Theological Colleges in Montreal became affiliated with McGill. In 1912 they formed a Joint Board for the academic study of Theology, leaving each denominational College to provide its own professional training for Christian ministry. This relationship between the Colleges and the University led naturally to the creation in 1948

of a Faculty of Divinity, which assumed the academic functions of the Joint Board, now designated the Montreal School of Theology. In 1970 the name of the Faculty was changed to the Faculty of Religious Studies. This University Faculty now offers the Bachelor of Theology (B.Th.) degree and several graduate degree programs.

11.1.4 Facilities

The Faculty of Religious Studies is located in the handsome (William and Henry) Birks Building, erected in 1931, formerly known as Divinity Hall, at 3520 University Street. Besides the usual classrooms, offices and common rooms, this building accommodates the Birks Heritage Chapel and the Birks Reading Room.

11.1.5 Birks Lectures

An annual series was established in 1950 through the generosity of the late William M. Birks. The lectures are given by distinguished visitors, usually in late September or early October. The first lecturer was the Right Reverend Leslie Hunter. More recent lecturers have included Huston Smith, Northrop Frye, Wilfred Cantwell Smith, Gregory Baum, Robert McAfee Brown, Krister Stendahl, Charles Adams, Jon Levenson, David Little, Azim Nanji, Paul Griffiths, Bernadette J. Brooten, Harvey Cox and John S. Hawley.

11.1.6 Numata Visiting Professor in Buddhist Studies

In recognition of the strong Buddhist Studies program in the Faculty of Religious Studies, the Numata Foundation has given a 20-year grant to the Faculty to bring a visiting scholar in Buddhist Studies to McGill each year.

The Visiting Professor teaches two courses, one at the undergraduate level and one at the graduate level, gives a public lecture and is available to students for conferences and consultation. The first Numata Professor, in 1999-2000, was Dr. Mahinda Deegalle (Ph.D., Chicago), a Theravada Buddhist Sri Lankan monk. Subsequent visiting professors include Dr. John Pettitt, Professor Robert Morrison, Dr. Thupten Jinpa, Dr. Kate Crosby, Ven. Yifa, Dr. Robert Kritzer, Dr. Andrew Skilton and Dr. Joel Tatelman.

11.2 Degrees Offered by the Faculty

Bachelor of Arts (B.A.) in Religious Studies, [page 317](#)
Master of Divinity (M.Div.), [page 318](#)
Bachelor of Theology (B.Th.), [page 318](#)

11.3 Bachelor of Arts (B.A.) in Religious Studies

Honours Concentration, Major Concentration and Minor Concentration in Religious Studies are offered in cooperation with the Faculty of Arts. Religious Studies B.A. Honours, Major, and Minor students may take any of the courses described below except where otherwise indicated.

Admission is to the Faculty of Arts and all admission requirements and procedures, academic rules and regulations of that Faculty apply to students in these programs.

For general information on B.A. Honours, Major Concentrations and Minor Concentrations, consult the advisers. Check the Faculty's Website for a list of advisers. For specific course information, consult the instructor. Detailed descriptions of the Religious Studies programs for Arts students are found in the Arts section of the calendar in [section 5.12.45 "Religious Studies \(RELG\)"](#).

Students who are interested in the Bachelor of Theology (B.Th.) or Master of Divinity (M.Div.) programs should refer to the appropriate listing.

11.4 Master of Divinity (M.Div.)

Students who have completed a first degree prior to the B.Th. with a minimum CGPA of 2.7 are eligible to apply the B.Th. degree towards the Master of Divinity (M.Div.) degree conferred by the Theological Colleges. This degree requires, in addition to the B.Th. degree, successful involvement in integrative seminars during the two B.Th. years and a year of professional pastoral study beyond the B.Th. This is called the "In-Ministry Year" (IMY) and is offered by the three affiliated Theological Colleges under the auspices of the Montreal School of Theology.

Students from the affiliated colleges may be eligible for bursary assistance if they are properly registered candidates for the ministry. Information about church requirements and the professional year should be sought from the principals of the appropriate colleges.

One biblical language, usually Greek, is required by some of the colleges. Ministerial candidates should consult with the College advisers regarding biblical language requirements.

Prospective candidates for ordination with a B.A. Honours or Major in Religious Studies and a CGPA of 3.3 (B+) may apply for the S.T.M. degree, followed upon completion by the professional year (IMY).

Applicants for the M.Div. program must apply to the McGill B.Th. program as well as to one of the Theological Colleges. College application forms should be requested from one of the following:

- The Montreal School of Theology
(formerly the Joint Board of Theological Colleges)
- École théologique de Montréal (affiliés à l'Université McGill)
3473 University Street, Montreal, Quebec H3A 2A8
- Montreal Diocesan Theological College
3473 University Street, Montreal, Quebec H3A 2A8
- The Presbyterian College
3495 University Street, Montreal, Quebec H3A 2A8
- The United Theological College/Le séminaire Uni,
3521 University Street, Montreal, Quebec H3A 2A8

Prospective students should contact the Chair of the B.Th. Committee to discuss their qualifications, expectations and objectives. Appointments can be made by telephoning (514) 398-3995 or by visiting the B.Th. Program Coordinator, Room 113, Birks Building.

11.5 Bachelor of Theology (B.Th.)

The Bachelor of Theology (B.Th.) program is designed primarily for those who intend to qualify for the ordained ministry in a Christian denomination, although some students pursue the degree out of an interest in the academic study of theology for its own sake. Those studying for the ordained ministry pursue the B.Th. as part of the Master of Divinity (M.Div.) degrees (see above) offered by the three Theological Colleges affiliated with McGill: Montreal Diocesan Theological College (Anglican Church of Canada), the Presbyterian College (Presbyterian Church in Canada), and United Theological College (United Church of Canada).

The main goals of the program are:

- 1) to offer the academic disciplines of theology within a university setting and
- 2) to contribute to preparation for ministry in the contemporary world by giving special attention to:
 - a) the Canadian and North American contexts;
 - b) the Quebec context;
 - c) religious pluralism.

11.5.1 ATS Accreditation

The B.Th. program offered by McGill and the M.Div. program offered by the Theological Colleges are together fully accredited by the Association of Theological Schools in the U.S. and Canada (ATS).

11.5.2 Admission Requirements

The B.Th. program has three points of entry:

1. To enter the 120-credit degree program from outside Quebec, the applicant must hold a high school diploma, with a minimum average of 75%, or the equivalent. A maximum of 60 credits from another institution of higher learning can be considered for transfer into the 120-credit program.
2. To enter the 90-credit first-degree program, the applicant is expected to have completed the Diploma of Collegial Studies (DCS) of a Quebec CEGEP with a minimum average of cote R of 24, or the equivalent elsewhere. A maximum of 30 credits from another institution of higher learning can be considered for transfer into this program.
3. To enter the 60-credit program, the applicant must have completed a B.A. or other Bachelor's degree with a minimum CGPA of 2.7 (B-). No credits can be transferred from another institution of higher learning into the 60-credit program.

Any McGill student in good standing, with a minimum of 30 credits, may apply for transfer from their current degree program into a B.Th. program.

11.5.2.1 Mature Student Admissions Policy

Those who will be 23 years of age or older by September 1 of the year that they seek admission (or by January 1 for admission to the Winter Term) and who lack the academic qualifications normally required for entry into the B.Th. program may apply as mature students for admission to a qualifying year in the B.Th. program.

Admitted students enroll in a qualifying year (30 credits) of designated Religious Studies and Arts courses (determined by the Chair of the B.Th. Committee).

Those who, during the qualifying year, earn a CGPA of 2.5 to 2.9 (with no grade less than 60%) normally will be granted admission to the 120-credit B.Th. program. Credits completed during the qualifying year may be applied toward the 120 credit requirement.

Those who, during the qualifying year, earn a CGPA of at least 3.0 (having taken 30 credits, including at least two 300-level courses and with no grade less than 65%) normally will be granted admission to the 90-credit B.Th. program. Credits completed during the qualifying year may be applied toward the 90 credit requirement.

Students who, during the qualifying year, do not earn a minimum CGPA of 2.5 or who have grades less than 60%, may apply to retake courses, pending approval of the Chair of the B.Th. Committee.

11.5.3 Competence in English

Please note that for non-Canadian applicants whose mother tongue is not English, documented proof of competency in oral and written English by an appropriate examination is required. A Test of English as a Foreign Language (TOEFL) with a minimum score of 577 for the paper based version is required as is 90 for the new internet based composite score (IBT). Each individual component of reading, writing, listening, and speaking for IBT has a minimum score of 21. Permanent residents of Canada may be required to submit a TOEFL score as well. All official documents must be sent to the Faculty of Religious Studies address given below.

11.5.4 Applying to the B.Th. Program

All applications must be made on-line at the McGill University Website for prospective students: www.mcgill.ca/applying. The on-line application process should take about 20 minutes and a

credit card is required for payment of the application fee. Once completed, the on-line application form may be printed for your own records.

Note: Owing to McGill University's implementation of a comprehensive on-line application system, paper applications to the B.Th. Program can no longer be accepted. All applicants must apply on-line.

11.5.4.1 Required Documents

- Two letters of reference, at least one of which should be from an instructor in an academic institution previously attended.
- A personal statement, according to the directions in the application.
- Official transcript(s) of all previous post-secondary academic work.

A complete set of these required documents must be sent to the Faculty of Religious Studies (see address below).

If you are applying for admission to one of the Theological Colleges, another complete set of these required documents must also be sent to the College concerned.

Please note that your file will not be considered by the Admissions Committee until all the required documents have been received.

11.5.4.2 Mailing Address

Bachelor of Theology Program
McGill University
ARR Documentation Centre
688 Sherbrooke Street West
Montreal, QC H3A 3R1
Canada

11.5.5 Application Deadlines

Applicants to the B.Th. Program may be accepted into either the Fall, Winter, or Summer term. The on-line application deadline is **June 15 (May 1 for International students) for September admissions; November 1 for January admissions and March 1 for May admissions.** Please note that all required documents listed above must be received by the Faculty of Religious Studies prior to these deadlines in order for the applicant to be considered by the Admissions Committee.

11.5.6 Tuition Fees and Funding

Information concerning current tuition fees may be found at the following Website: www.mcgill.ca/student-accounts. Applicants for admission to one of the affiliated Colleges should contact the institution concerned for information regarding College-related fees.

11.5.7 Appeals Procedures

An unsuccessful applicant or a Faculty of Religious Studies Council member acting on behalf of the applicant who believes that not all factors having a bearing on the application have been fully considered has the right to request that the B.Th. Admissions and Awards Committee review the application.

If the findings of the review procedure uphold the initial decision of the B.Th. Admissions and Awards Committee, the applicant has the right to appeal in writing to the Dean. The Dean shall put the appeal before the B.Th. Appeals Committee, which shall consist of three full-time members of the Faculty of Religious Studies Council who are not at the same time members of the B.Th. Admissions and Awards Committee.

The decision of the B.Th. Appeals Committee may be appealed to the Vice-Principal (Academic).

11.5.8 Registration Procedures

Students register on-line at www.mcgill.ca/minerva-students. Minerva for students provides Web access to registration, class schedules, course descriptions, and address changes.

- Returning students must register via Minerva between March 22 and the first day of classes. After this period a late registration fee will be applied.
- New students accepted from CEGEP should register via Minerva between June 10 and September 2, 2008. All other new students should register via Minerva between July 31 and September 4, 2008. After September 4 a late registration fee will be applied.
- All B.Th. students should consult their adviser before registration.

11.5.9 Withdrawal Procedures

Withdrawal from and adding courses prior to the deadline listed in the Calendar (see above) must be done via Minerva. The permission of the adviser is required for all such changes in the initial registration. In case of withdrawal from the University prior to the published course withdrawal deadline, the student must withdraw from all courses via Minerva. In addition, students must contact the Chair of the B.Th. Committee and complete the necessary withdrawal form.

11.5.10 Graduation Requirements

- The B.Th. is either a 120-credit program (for those admitted from outside Quebec and without a prior Bachelor's degree), a 90-credit program (for those who were admitted on the basis of a Quebec D.C.S. or equivalent), or a 60-credit program (for those who were admitted on the basis of a recognized Bachelor's degree).
- Qualification for the degree shall include satisfactory standing (a grade of C or better) in all required courses and the complementary courses specified in year three, and the accumulation of sufficient acceptable credits to make a total of either 60, 90 or 120 credits. It should be noted that students who take the B.Th. program as part of the M.Div. program need to maintain a minimum CGPA of 2.5 to be eligible for the M.Div. degree.
- Normally, the program credits must be earned within five years from the date of entrance.

11.5.11 Course Selection

Candidates for the ministry from the three Theological Colleges associated with the Faculty must select their courses in consultation with their College advisers. The course selection form needs to be signed by the Chair of the B.Th. Committee.

Those seeking the degree and not sponsored by one of the three Colleges associated with the Faculty will need to clear their course selections with the chair of the B.Th. Committee.

In all cases this consultation should take place before registration.

11.5.12 Academic Standing and Course Loads

Satisfactory Standing

Students enter the University in satisfactory standing and remain in this standing unless their GPA (grade point average) or CGPA (cumulative grade point average) for any year drops below 2.00. The normal course load in any academic session is five courses per term (15 credits per term). A student with a high GPA (at least 3.00) may take more than the normal five courses per term.

Probationary Standing

A student is placed in probationary standing if the GPA/CGPA falls between 1.50 and 1.99. Probationary students **may take a maximum of 12 credits per term**, and must raise their CGPA to 2.00 within one academic session. Those who fail to do so will be placed in unsatisfactory standing.

A student in probationary standing may return to satisfactory standing at the end of the next academic session by obtaining either a GPA of at least 2.50 or both a GPA and a CGPA of 2.00

or greater unless the student was admitted on probationary standing. A student admitted on probationary standing must obtain a GPA of 2.50.

Students in probationary standing who obtain a GPA between 1.50 and 1.99 remain in probationary standing if they also have a CGPA of 2.00 or greater.

A student in probationary standing who fails to achieve the levels of performance specified above will be placed in unsatisfactory standing.

Unsatisfactory Standing

A GPA of less than 1.50 places a student in unsatisfactory standing.

A student in unsatisfactory standing will have to withdraw, or seek readmission as a probationary student with special permission from the B.Th. Committee and the Dean. A student who is readmitted on probationary standing may have additional restrictions or conditions to meet over and above those required of students referred to above under "Probationary Standing".

A student in unsatisfactory standing for the second time must withdraw permanently.

Incomplete Standing

A student whose record in any year shows a mark of K, K*, L, L*, or && will have no GPA or CGPA calculated for that year, and the record will show "Standing Incomplete". After completing the appropriate course requirements the GPA and CGPA will be calculated and the student's standing determined as described above.

Students whose standing is still "incomplete" at the time of registration for the next academic year must obtain a Letter of Permission to Register from the Chair of the B.Th. Committee.

11.5.13 Academic Achievement

Several designations are used to acknowledge the superior academic achievement of in-course and graduating students. These designations are awarded at the discretion of the Faculty:

Distinction: to designate graduating students, not in Honours, who have completed a minimum of 60 credits at McGill and achieved a CGPA of 3.30 - 3.49.

Great Distinction: to designate graduating students, not in Honours, who have completed a minimum of 60 credits at McGill and achieved a CGPA of 3.50 or better.

Honours: to designate graduating students who have completed a minimum of 60 credits at McGill and have fulfilled the Honours course requirements with a CGPA of 3.20, or 3.50 for First Class Honours.

Dean's Honour List: to designate *graduating* students with a CGPA of 3.50 or better. This designation applies in addition to those described in b) and c) above, except that it may not normally be awarded to more than 10% of the graduating class.

Dean's Honour List: to designate *in-course* students who have completed a minimum of 27 credits during regular session (14 credits for those registered for one term) and have attained a GPA placing them in the top 5%-10% of their class.

11.5.14 Evaluation

Competence in a course may be determined by examinations and/or essays, or by other means chosen by the instructor and approved by the Dean.

11.5.15 Bachelor of Theology Program Requirements

The course extends over three academic years of full-time studies for those admitted with a Diploma of Collegial Studies and two academic years for those admitted with a Bachelor's degree. The normal load consists of five 3-credit courses (15 credits) each term.

Students entering the B.Th. as a first degree program take 90 credits, beginning with the following courses:

Year 1 - Required Courses (9 credits)

RELG 204 (3) Judaism, Christianity and Islam
RELG 210 (3) Jesus of Nazareth
RELG 334 (3) The Christian Faith

Year 1 - Elective Courses (21 credits)

To be determined in consultation with the B.Th. program adviser.

Students entering the B.Th. as a second degree program take 60 credits, beginning with Year 2 courses:

Year 2 - Required Courses (24 credits)

RELG 302 (3) Old Testament Studies 1
RELG 303 (3) Literature of Ancient Israel 2
RELG 311 (3) New Testament Studies 1
RELG 312 (3) New Testament Studies 2
RELG 322 (3) The Church in History 1
RELG 323 (3) The Church in History 2
RELG 333 (3) Principles of Christian Theology 1
RELG 341 (3) Introduction: Philosophy of Religion

Year 2 - Complementary Courses (6 credits)

To be chosen from among the 300- or 400-level courses offered in the B.Th. or B.A. Religious Studies programs (or RELG 280D1/ RELG 280D2) in consultation with the B.Th. program adviser.

Year 3 - Required Courses (12 credits)

RELG 420* (3) Canadian Church History
RELG 434 (3) Principles of Christian Theology 2
RELG 470 (3) Theological Ethics
RELG 479 (3) Christianity in Global Perspective

* Exception permitted if recommended by College adviser.

Year 3 - Complementary Courses (18 credits)

One 3-credit course in a religious tradition other than Christianity, such as:*

RELG 252 (3) Hinduism and Buddhism
RELG 253 (3) Religions of East Asia
RELG 306 (3) Rabbinic Judaism
RELG 352 (3) Japanese Religions
RELG 354 (3) Chinese Religions

* Students who have previously taken a university-level course in world religions may replace this with another complementary course.

9 credits, one 3-credit course in each of the following areas:

Old Testament

RELG 407 (3) The Writings
RELG 408 (3) The Prophets

New Testament

RELG 411 (3) New Testament Exegesis
RELG 482 (3) Exegesis of Greek New Testament

Christian Theology

RELG 330 (3) Reformed Theology
RELG 336 (3) Contemporary Theological Issues
RELG 399 (3) Christian Spirituality
RELG 423 (3) Reformation Thought

6 credits, to be chosen from among the 300- or 400-level courses offered in the B.Th. or B.A. Religious Studies programs (or RELG 280D1/ RELG 280D2) in consultation with the B.Th. program adviser.

By permission of the B.Th. Committee, students may substitute courses for any of the required courses if they have already taken them or similar courses for credit elsewhere.

Permission is needed from the B.Th. Committee for courses selected from the curriculum of other departments of the University.

By permission of the Dean and the Chair of the B.Th. Committee, students may also enrol for courses at any university in the province of Quebec. See [section 3.3.5 "Quebec Inter-University](#)

Transfer Agreement (IUT)* in the General University Information section for details.

Professional and vocational courses (e.g., leading to ordination) are available through the In-Ministry Year (Master of Divinity (M.Div.)) upon the completion of the B.Th. degree.

11.5.16 B.Th. Honours

Students who have achieved a CGPA of 3.30 at the end of B.Th. 2 year may apply to the B.Th. Committee for permission to enter the Honours program. They will be required to complete RELG 494 and 495 in the B.Th. 3 year with a grade of B or better, to complete the degree with Honours.

11.6 Academic Staff

Emeritus Professors

Gregory B. Baum; B.A.(McM.), M.A.(Ohio St.), D.Th.(Fribourg)
Douglas J. Hall; B.A.(W. Ont.), M.Div., S.T.M., Th.D.(UTS, NY),
L.L.D.(Wat.), D.D.(Pres. Coll., Montr.), D.D.(Qu.)
Joseph C. McLelland; B.A.(McM.), M.A.(Tor.), B.D.(Knox, Tor.),
Ph.D.(Edin.), D.D.(Montr. Dio. Coll.; Knox, Tor.)

Post-Retirement

Robert C. Culley; B.D.(Knox, Tor.), M.A., Ph.D.(Tor.)
Frederik Wisse; Ing.(Utrecht), B.A., B.D.(Calvin, Mich.),
Ph.D.(Claremont)

Professors

Maurice Boutin; B.A., B.A., B.A.(Montr.), D.Th.(Munich)
(*J.W. McConnell Professor of Philosophy of Religion*)
W.J. Torrance Kirby; B.A.(KCMS), M.A., D.Phil.(Oxf.)
G.S. Oegema; B.A., Th.D.(Vrije: Amsterdam), M.A., Ph.D.
(Freie: Berlin), Dr. Theol. Habil(Tübingen)
Arvind Sharma; B.A.(Allahabad), M.A.(Syr.), M.T.S., Ph.D.(Harv.)
(*Henry Birks Professor of Comparative Religion*)
Katherine K. Young; B.A.(Vermont), M.A.(Chic.), Ph.D.(McG.)
(*James McGill Professor of Hinduism/Comparative Religion*)

Associate Professors

Ellen B. Aitken; A.B.(Harv.), M.Div.(University of the South),
Th.D.(Harv.) (*Associate Professor of Early Christian History and
Literature*)
Douglas B. Farrow; B.R.E.(Providence), M.Div.(Grace),
M.Th.(Regent), Ph.D.(Lond.)
Ian H. Henderson; B.A.(Manit.), B.D.(St. And.), M.A.(McM.)
D.Phil.(Oxf.)
G. Victor Hori; B.A.(York), M.A.(Tor.), Ph.D.(Stan.)
Patricia G. Kirkpatrick; B.A.(McG.), M.T.(Lond.), D.Phil.(Oxf.)

Assistant Professors

Lara Braitstein; B.A., M.A., Ph.D.(McG.) (*Assistant Professor of
Buddhism*)
Daniel Cere; B.A., M.A.(McG.), Ph.D. (C'dia)
Gaëlle Fiasse; B.A., M.A., Ph.D.(Louvain) (*Assistant Professor of
Ethics and Religious Ethics*) (*joint appointment with Department
of Philosophy*)
Devesh Soneji; B.A.(Manit.), Ph.D.(McG.) (*Assistant Professor of
Hinduism*)

Faculty Lecturer

Jim Kanaris; B.A.(C'dia), M.A., Ph.D.(McG.)

Numata Visiting Professor

Miriam Levering; Ph.D.(Harv.)

Associate Member

Leigh Turner; B.A.(Winn.), M.A.(Manit.), M.A., Ph.D.(S. Calif.)

Adjunct Professors

Philip Joudrey; B.A., M.Div.(Acad.), D.Min.(Andover Newton
Theological School)
T. Jinpa Langri; Dr. Div. B.A.(King's Coll., Lond.), Ph.D.(Camb.)
John M. Simons; B.A.(Bishop's), S.T.B.(Trin. Coll., Tor.),
Ph.D.(G'town) (PT)

John Vissers; B.A.(Tor.), M.Div.(Knox, Tor.), Th.M.(Prin.),
Th.D.(Knox, Tor.) (PT)

Course Lecturers (2007-2008)

Eric Bellavance; B.A., M.A., Ph.D.(UQAM)
Dean Brady; B.Th.(McG), Dip. Min.(Montreal Theological College),
M.A.(McG), Ph.D. Candidate(McG.)
Melissa Curley; B.A., M.A., Ph.D. Candidate(McG.)
Michel DiStefano; B.A.(Providence), M.A.(Trinity International, Ill.)
Manuel M. Jimbachian; BLitt(Oxf.), Ph.D.(Stras.)
Jeffrey Keiser; B.Sc.(Biola), M.A.(Harv.), Ph.D. Candidate(McG.)
David Koloszy; B.A., M.A.(Tor.), Ph.D. Candidate(McG.)
Sanjay Kumar; B.A.(Maharshi Dayanand), M.A.(Meerut),
M.Phil.(Delhi), Ph.D. Candidate(McG.)
Cory Labrecque; B.Sc., M.A., Ph.D. Candidate(McG.)
Lei Kuan Lai; B.A.(University of the West in Rosemead),
M.A.(Qu.), Ph.D. Candidate(McG.)
Nathan Loewen; B.Th.(Can. Mennonite), B.A.(Winn.), M.S.T.
(St. And.), S.T.M.(St. And.), Ph.D. Candidate(McG.)
Lucille Marr; B.A., M.A., Ph.D.(Wat.)
Elizabeth Morton; B.A.(Ott.), LLB (Vic. (BC)), M.T.S. (Vancouver
School of Theology), M.A.(Br. Col.), Ph.D. Candidate(McG.)
Rowshan Nemazee; B.A.(Trin. Coll., Vermont), M.A., Ph.D.(McG.)
Michelle Rebidoux; B.A.(York, Can.), M.A.(Br. Col.), Ph.D.(McG.)
R. Saraswati Sainath; BSc., M.A., M.Phil., Ph.D.(Madr.), Ph.D.
Candidate(McG.)
Manjit Singh; B.A., M.A.(Delhi)
Glenn Smith; B.A.(Mich.), M.A.(Ott.), D.Min.(Northern Baptist
Seminary, Ill.), D.Hon.(Union des universités privées d'Haïti)
Michael Storch; B.A.(Alta.), Ph.D.(McG.)
Philippe Turenne; B.A., Ph.D. Candidate(McG.)
Jason Zuidema; B.A.(Redeemer), M.T.S.(Calvin), Ph.D.(McG.)

12.1 The Faculty

12.1.1 Location

Dawson Hall
 853 Sherbrooke Street West
 Montreal, QC H3A 2T6
 Canada

Telephone: (514) 398-4210
 Faculty Website: www.mcgill.ca/science
 Student Affairs Office Website: www.mcgill.ca/artscisao

The Student Affairs Office and the Office of the Associate Dean (Student Affairs) of the Faculty of Science are located in Dawson Hall, Rooms 110 and 115. The Student Affairs Office serves students in the Faculties of Arts and of Science.

12.1.2 Faculty Administrative Officers

Martin Grant; B.Sc.(PEI), M.Sc., Ph.D.(Tor.) **Dean**

Laurie Hendren; B.Sc., M.Sc.(Qu.), Ph.D.(C'neil),
Associate Dean (Academic)

Henry Leighton; B.Sc., M.Sc.(McG.), Ph.D.(Alta.)
until May 31, 2008 **Associate Dean (Student Affairs)**

David H. Burns; B.Sc.(Puget Sound), Ph.D.(Wash.)
until May 31, 2008 **Associate Dean (Research and Graduate Education)**

Peter Grütter; Ph.D.(Basel) (*James McGill Professor*)
June 1, 2008 **Associate Dean (Research and Graduate Education)**

Josie D'Amico **Assistant to the Dean**

Nicole Allard; B.A.(W. Ont.), M.A.(Guelph), M.Ed.(McG.)
Chief Academic Adviser

12.1.3 Programs and Teaching in Science

The Faculty of Science is committed to providing outstanding teaching and research facilities. The Faculty draws on its involvement in cutting-edge research to ensure teaching excellence at the undergraduate level. Professors who are spearheading projects that are changing people's understanding of the world teach regularly at the undergraduate level. Also, research-based

independent study courses offer students the opportunity to contribute to their professors' work, rather than just learn about it.

In an effort to supplement classroom learning with real life experience, the Faculty of Science has increased opportunities for undergraduate students to participate in fieldwork. All B.Sc. programs can include an internship component. This is on top of the many undergraduate students the Faculty hires for Work-Study projects and other research programs. McGill Science students have an opportunity to get involved in the structuring of their own education.

The Faculty of Science offers programs leading to the degree of Bachelor of Science (B.Sc.). Admission is selective; fulfilment of the minimum requirements does not guarantee acceptance. Admission criteria are described in the *Undergraduate Admissions Guide*, found at www.mcgill.ca/applying/undergrad.

There are also two Diploma programs offered in Science. The "Diploma in Environment", in section 14.11, under the McGill School of Environment, is a 30-credit program available to holders of a B.Sc. or B.A. or equivalent. The Diploma in Meteorology, is a one-year program available to holders of a degree in Mathematics, Engineering, Physics and other appropriate disciplines who wish to qualify for a professional career in Meteorology. See section 12.13.3 "Atmospheric and Oceanic Sciences (ATOC)". All credits for these diplomas must be completed at McGill.

The Concurrent B.Sc. and B.Ed. program is designed to provide students with the opportunity to obtain both a B.Sc. and a B.Ed. after a minimum of 135 credits of study. For more information, see section 12.13.34 "Science or Mathematics for Teachers" and "Concurrent Bachelor of Science (Major or Major Concentration with a Minor for Teachers) and Bachelor of Education Secondary Program", in section 7.6.1.3, Faculty of Education.

In addition to the Major Program in Software Engineering offered in the Faculty of Science, there is also a Bachelor of Software Engineering program offered jointly with the Faculty of Engineering (refer to the "Department of Electrical and Computer Engineering", in section 8.5.4).

Finally, the Faculties of Arts and Science jointly offer the Bachelor of Arts and Science (B.A. & Sc.), which is described in section 6 "Bachelor of Arts and Science".

12.1.4 Student Affairs Office

The Student Affairs Office provides ongoing advice and guidance on programs, degree requirements, registration, course change, procedures for withdrawal, deferred exams, supplemental exams, rereads, academic standing, inter-faculty transfer, year or term away, transfer credits, second programs, second degrees, and graduation.

Students should consult with advisers in the Student Affairs Office (adviser.science@mcgill.ca) as well as departmental advisers. Faculty advisers offer help managing academic situations during periods of personal, financial or medical problems, by working with students to identify various possibilities and strategies for making informed decisions. If necessary, special requests can be made, in writing, to the Associate Dean (Student Affairs).

The Committee on Student Standing (CSS) will consider appeals of the Associate Dean's (Student Affairs) decisions. For information about CSS, see the Associate Dean's assistant.

12.2 Faculty Admission Requirements

For information about admission requirements for the B.Sc., please refer to the *Undergraduate Admissions Guide*, found at www.mcgill.ca/applying/undergrad.

For information about inter-faculty transfers, please refer to the General University Information and Regulations, "Inter-Faculty Transfer", in section 3.3.12, as well as the relevant information posted on the Student Affairs Office Website at www.mcgill.ca/artscisao, and in the Student Affairs Office.

12.3 Faculty Degree Requirements

Each student in the Faculty of Science must be aware of the Faculty Regulations as stated in this Calendar and on the McGill, Science, and ARTSCI Websites. While departmental and faculty advisers and staff are always available to give advice and guidance, the ultimate responsibility for completeness and correctness of course selection and registration, for compliance with, and completion of, program and degree requirements, and for the observance of regulations and deadlines *rests with the student*. It is the student's responsibility to seek guidance from the Student Affairs Office if in any doubt; misunderstanding or misapprehension will not be accepted as cause for dispensation from any regulation, deadline, program or degree requirement.

To be eligible for a B.Sc. degree, students must fulfill all Faculty and program requirements as indicated below:

"Minimum Credit Requirement", see section 12.3.1

"Residency", see section 12.3.2

"Cumulative Grade Point Average (CGPA)", see section 12.3.3

"Time and Credit Limit for the Completion of the Degree", see section 12.3.4

"Program Requirements", see section 12.3.5

"Course Requirements", see section 12.3.6

12.3.1 Minimum Credit Requirement

Each student's minimum credit requirement for the degree is determined at the time of acceptance and is specified in the letter of admission.

Students are normally admitted to a four-year degree requiring the completion of 120 credits.

12.3.1.1 Advanced Standing

Advanced standing of up to 30 credits may be granted to students who obtain satisfactory results in International Baccalaureate, French Baccalaureate, Advanced Levels, Advanced Placement tests, or the Diploma of Collegial Studies (DCS). Quebec students with a DCS in Science are granted 30 credits advanced standing and will have normally completed the equivalent of, and are therefore exempt from, the basic science courses in biology, chemistry, mathematics and physics. Students with satisfactory results in International Baccalaureate, French Baccalaureate, Advanced Levels, and Advanced Placement tests may be exempt from some or all of the basic science courses. Students will not be given additional credit towards their degree for any McGill course where the content overlaps substantially with any other course for which the student has already received credit, such as for advanced standings results.

AP Examination results with a score of 4 or 5 must be declared by the student at the time of initial registration at the university. For more information about advanced standing, please consult: www.mcgill.ca/student-records/transfercredits.

12.3.1.2 Equivalencies for Non-Basic Science Courses

Note that equivalencies for some non-basic science courses, such as CHEM 212 and 222 and PSYC 204, are granted on a per-CEGEP basis. In some cases a grade greater than the minimum passing grade may be required. For more information about equivalencies for non-basic Science courses, please consult: www.mcgill.ca/student-records/transfercredits/information.

If the CEGEP and/or course is not listed on this Website, students should refer to the Student Affairs Website and follow the instructions for advanced standing for students admitted to McGill from CEGEP: www.mcgill.ca/artscisao.

12.3.1.3 Readmission after Interruption of Studies for a Period of Five Consecutive Years or More

Students who are readmitted after interrupting their studies for a period of five consecutive years or more may be required to complete a minimum of 60 credits and satisfy the requirements of a program. In this case, a new CGPA will be calculated. The

Associate Dean (Student Affairs), in consultation with the appropriate department, may approve a lower minimum for students who had completed 60 credits or more before interrupting their studies.

Students who are readmitted after a period of absence are subject to the program and degree requirements in effect at the time of readmission. The Associate Dean (Student Affairs), in consultation with the department, may approve exemption from any new requirements.

12.3.2 Residency

To obtain a B.Sc. degree, students must satisfy the following residency requirements: a minimum of 60 credits of courses used to satisfy the B.Sc. degree requirements must be taken and passed at McGill, exclusive of any courses completed as part of the Science Freshman requirements defined below. At least two-thirds of all departmental program requirements (Honours, Major, Core Science Components, or Minor) must normally be completed at McGill. However, students in Honours, Major or Liberal programs who pursue an approved Study Away or Exchange program may, with departmental approval, be exempted from the two-thirds rule. In addition, some departments may require that their students complete specific components of their program at McGill.

The residency requirement for diplomas is 30 credits completed at McGill.

12.3.3 Cumulative Grade Point Average (CGPA)

Each candidate for the degree must achieve a minimum cumulative grade point average (CGPA) of 2.00.

12.3.4 Time and Credit Limit for the Completion of the Degree

Students who need 96 or fewer credits to complete their degree requirements are expected to complete their degree in no more than eight terms after their initial registration for the degree.

Students in the Freshman Program become subject to these regulations one year after their initial registration. Students who wish to exceed this time limit must seek permission of the Associate Dean (Student Affairs) of the Faculty of Science.

Students registered in the B.Sc. are expected to complete the requirements of their programs and their degree within 120 credits. Students will receive credit for all courses (subject to degree regulations) taken up to and including the semester in which they obtain 120 credits. Students who wish to remain at McGill beyond that semester must also seek permission of the Associate Dean (Student Affairs) Faculty of Science. Permission for exceeding the time and/or credit limits will normally be granted only for valid academic reasons, such as a change of program (subject to departmental approval) and part-time status. If permission is granted, students will receive credit only for required and complementary courses necessary to complete their program requirements.

12.3.5 Program Requirements

12.3.5.1 Science Freshman Program

Students who need 97-120 credits (four years) to complete their degree requirements must register in the Science Freshman Program, which is designed to provide the basic science foundation for a student's subsequent three-year Liberal, Major, or Honours program. For a detailed description of the Science Freshman Program, students should consult "[Science Freshman Program](#)", in section 12.13.1 and Arts and Science Freshman Student information available on the Student Affairs Website, www.mcgill.ca/artscisao.

Students who have completed the Diploma of Collegial Studies, Advanced Placement exams, Advanced Levels, the International Baccalaureate, the French Baccalaureate, or McGill placement examinations may receive exemption and/or credit for all or part of the basic science courses in biology, chemistry, mathematics and

physics. Similarly, students who have completed courses at other universities or colleges may receive exemptions and/or credits. Students should consult www.mcgill.ca/student-records/transferecredits for more information.

12.3.5.2 Liberal, Major, and Honours Programs

Science students who need 96 or fewer credits to complete their degree requirements are required to select their courses in each term with a view to timely completion of their degree and program requirements. Students must register in one of the following types of departmental programs leading to the degree of Bachelor of Science:

LIBERAL PROGRAMS

Liberal Programs provide students with the opportunity to study the core of one science discipline along with a breadth component from another area of science or from many other disciplines. These new Liberal Programs replace the Faculty Programs and provide a much broader range of options.

In a Liberal Program, students must complete a Core Science Component (CSC) (45-50 credits), plus a Breadth Component (at least 18 credits). The requirements for the Core Science Components are given in the departmental sections of [section 12.13 "Academic Programs"](#).

For the Breadth Component, students must complete one of the following:

- Minor Program (18-24 credits) - one of the programs listed in [section 12.11.6 "Minor Programs"](#).
- Arts Minor or Major Concentration (18 or 36 credits) - one of the programs listed in [section 12.11.10 "Faculty of Arts Major and Minor Concentration Programs Available to Science Students"](#).
- A Core Science Component in a second area (45-50 credits) - at least 24 credits must be distinct from the courses used to satisfy the primary Core Science Component.

MAJOR PROGRAMS

Major programs are more specialized than Liberal programs and are usually centred on a specific discipline or department. For prospective teachers, the Faculty also offers Major programs that can constitute the Science component of the Concurrent B.Sc. and B.Ed. Program. For more information about this joint degree, refer to [section 12.3.5.5 "Concurrent B.Sc. and B.Ed. Program"](#).

HONOURS PROGRAMS

Honours programs typically involve an even higher degree of specialization, often include supervised research, and require students to maintain a high academic standard. Although Honours programs are specially designed to prepare students for graduate studies, graduates of the other degree programs may also be admissible to many graduate schools. Students who intend to pursue graduate studies in their discipline should consult a departmental adviser regarding the appropriate selection of courses in their field.

12.3.5.3 Minor and Minor Concentration Programs

In addition to the above degree programs, students in the Faculty of Science may select a Minor or approved Minor Concentration program. These are coherent sequences of courses in a given discipline or interdisciplinary area that may be taken in addition to the courses required for the degree program.

Science Minors consist of up to 24 credits.

Arts Minor Concentrations consist of 18 credits.

A minimum of 18 new credits must be completed in the Minor or Minor Concentration.

For a list of ["Minor Programs"](#), see [section 12.11.6](#); for Minor Concentrations that are approved for Science students, see [section 12.11.10 "Faculty of Arts Major and Minor Concentration Programs Available to Science Students"](#).

12.3.5.4 Other Second Programs

In addition to a Major, or Honours program, students may pursue a second Major, or Honours program, or an Arts Major Concentration program. A minimum of 36 new credits must be completed in the second program.

12.3.5.5 Concurrent B.Sc. and B.Ed. Program

The Concurrent B.Sc. and B.Ed. Program described in [section 12.13.34 "Science or Mathematics for Teachers"](#) is designed to provide students with the opportunity to obtain both a B.Sc. and a B.Ed. after a minimum of 135 credits of study.

Science students who might want to enter the program should visit the B.Sc. and B.Ed. Website at www.mcgill.ca/arts/scisao or contact Prof. Dik Harris, e-mail: dik.harris@mcgill.ca.

12.3.5.6 Internship Year in Science (IYS)

All B.Sc. programs can include an internship component. For more details, students should refer to www.mcgill.ca/science/internships-field/internships.

12.3.5.7 McGill School of Environment

The Faculty of Science is one of the three faculties in partnership with the McGill School of Environment; see [section 14 "McGill School of Environment"](#).

12.3.6 Course Requirements

All required and complementary courses used to fulfill program requirements, including the basic science requirements, must be completed with a grade of C or better. Students who fail to obtain a satisfactory grade in a required course must either pass the supplemental examination in the course or do additional work for a supplemental grade, if these options are available, or repeat the course. Course substitution will be allowed only in special cases; students should consult their academic adviser.

Normally, students are permitted to repeat a failed course only once. (Failure is considered to be a grade of less than C or the administrative failures of J and KF.) If a required course is failed a second time, a student must appeal to the Associate Dean (Student Affairs) for permission to take the course a third time. If permission is denied by the Associate Dean and/or by the Committee on Student Standing, on appeal, the student must withdraw from the program. If the failed course is a complementary course required by the program, a student may choose to replace it with another appropriate complementary course. If a student chooses to substitute another complementary course for a complementary course in which a D was received, credit for the first course will still be given, but as an elective. If a student repeats a required course in which a D was received, credit will be given only once.

Full details of the course requirements for all programs offered are given in each unit's section together with the locations of departmental advisory offices, program directors, and telephone numbers should further information be required.

12.3.6.1 Course Overlap

Students will not receive additional credit towards their degree for any course that overlaps in content with a course for which the student has already received credit at McGill, at another university, at CEGEP, or for Advanced Placement, Advanced Level, International Baccalaureate, or French Baccalaureate results. It is the student's responsibility to consult the Student Affairs Office or the department offering the course as to whether or not credit can be obtained and to be aware of exclusion clauses specified in the course description in the Calendar. Please refer to the following Website for specific information about advanced standing credits and McGill course exemptions: www.mcgill.ca/student-records/transferecredits.

Sometimes the same course is offered by two different departments. Such courses are called "double-prefix" courses. When such courses are offered simultaneously, students should take the course offered by the department in which they are obtaining their degree. For example, in the case of double-prefix courses CHEM XYZ and PHYS XYZ, Chemistry students take CHEM XYZ and the Physics students take PHYS XYZ. If a double-prefix course is offered by different departments in alternate years, students may take whichever course best fits their schedule.

Credit for computer and statistics courses offered by faculties other than Science requires the permission of the Associate Dean

of Science (Student Affairs) and will be granted only under exceptional circumstances.

Credit for statistics courses will be given with the following stipulations:

- Credit will be given for ONLY ONE of the following introductory statistics courses: AEMA 310, BIOL 373, ECON 227D1/D2, ECON 257D1/D2, EPSC 215, GEOG 202, MATH 203, MGCR 271, PSYC 204, SOCI 350.
- Credit will be given for ONLY ONE of the following intermediate statistics courses: AEMA 411, ECON 227D1/D2, ECON 257D1/D2, GEOG 351, MATH 204, MGCR 272, PSYC 305, SOCI 461 with the exception that students may receive credit for both PSYC 305 and ECON 227D1/D2.
- Students who have already received credit for MATH 324 or MATH 357 will NOT receive credit for any of the following: AEMA 310, AEMA 411, BIOL 373, ECON 227D1/D2, ECON 257D1/D2, EPSC 215, GEOG 202, GEOG 351, MATH 203, MATH 204, MGCR 271, MGCR 272, PSYC 204, PSYC 305, SOCI 350.
- For 500-level statistics courses not listed above, students must consult a program adviser to ensure that no significant overlap exists. Where such overlap exists with a course for which the student has already received credit, credit for the 500-level course will not be allowed.
- Credit for statistics courses offered by faculties other than Arts and Science requires the permission of the Associate Dean of Science (Student Affairs), except for students in the B.Sc. Major in Environment, who may take required statistics courses in the Faculty of Agricultural and Environmental Sciences necessary to satisfy their program requirements.
- PSYC 204 may not be taken if a grade of 75% or better was received in an equivalent course completed at CEGEP.

12.3.6.2 Courses Outside the Faculties of Arts and Science

Students in the Faculty of Science should consult the statement of regulations for taking courses outside the Faculties of Arts and of Science. The regulations are posted in the Student Affairs Office and on the Student Affairs Website, www.mcgill.ca/artscisao. A list of approved/not approved courses in other faculties is posted with the regulations; students may take courses on the approved list and may not, under any circumstances, take courses on the not-approved list. Requests for permission to take courses that are not on either list should be addressed to the Associate Dean (Student Affairs).

The regulations are as follows:

- Courses in other faculties that are considered as taught by Science (e.g., BIOT, EXMD, and PHAR) are so designated in the Science section of the Calendar.
- Courses in Music are considered as outside the Faculties of Arts and of Science, except MUAR courses, which are considered as Arts courses.
- Courses in other faculties can be taken as elective courses or as part of a program as specified in the Calendar.
- Students may take only 6 credits per year, up to 18 credits in all, of courses outside the Faculties of Arts and of Science.
- Students must have the necessary prerequisites and permission of the instructor for such courses.
- Credit for courses in Education and Continuing Education requires the permission of the Associate Dean of Science (Student Affairs).
- Credit for computer and statistics courses offered by faculties other than Arts and Science requires the permission of the Associate Dean of Science (Student Affairs) and will be granted only under exceptional circumstances.
- Students who use Minerva to register for a course that exceeds the specified limitations or that is not approved will have the course flagged for no credit after the course change period.

- Credit will not be given for any “how to” courses offered by other faculties that are intended to provide students with only practical or professional training in specific applied areas. Examples include courses that teach the use of certain computer packages (databases, spreadsheets, etc.) or computer languages (SQL, COBOL, FORTRAN, etc.), machine shop or electronic shop courses, technical drawing courses, and professional practice courses.
- For students registered in the McGill School of Environment before September 2003: Students in the MSE may take as many courses outside the Faculties of Arts and of Science as are necessary to complete their program of study. They may also take up to 18 credits of approved courses outside the Faculties of Arts and of Science beyond the requirements of their MSE programs.
- For students who registered in the McGill School of Environment on or after September 2003: Students in the MSE may exceed the 18-credit limit for courses outside the Faculties of Arts and of Science, provided that all such courses are necessary to complete their program of study.
- Students in the Major in Software Engineering may take as many courses outside the Faculties of Arts and of Science as are necessary to complete their program of study. They may also take up to 18 credits of approved courses outside the Faculties of Arts and Science beyond the requirements of their major.
- Students in the B.Sc. Liberal Program taking a Major Concentration in Music may exceed the 18-credit limit for courses outside the Faculties of Arts and of Science, provided that all such courses are necessary to complete their program of study, up to a maximum of 36 Music credits.
- Students who registered in the Minor in Management before Sept. 2007 may take 21 credits of courses outside the Faculties of Arts and of Science.
- The 18-credit limit applies to students taking the Minor in Nutrition; equivalent courses in Science should be taken instead of courses in the Faculty of Agricultural and Environmental Sciences.

12.3.6.3 Correspondence, Distance Education or Web-based Courses

Science students may obtain transfer credit for correspondence, distance education or Web-based courses if they receive prior approval from the appropriate McGill department for the course content **and** prior approval from the Associate Dean of Science (Student Affairs) for the method of delivery and evaluation. Courses taught through distance education from institutions other than McGill will only be considered for transfer credits under the following conditions:

- The course is given by a government-accredited degree-granting institution acceptable to McGill;
- The course counts for credit towards degrees granted at the institution giving the course.

12.3.6.4 Courses Taken under the Satisfactory/Unsatisfactory Option

For more information, students should consult "[Courses Taken under the Satisfactory/Unsatisfactory \(S/U\) Option](#)", in [section 3.3.6](#).

12.3.6.5 Courses in English as a Second Language (ESL)

ESL courses are open to Science students under the regulations specified by the English and French Language Centre; see "[English as a Second Language \(ESLN\)](#)", in [section 5.12.18](#).

12.3.6.6 Course Credit Weight

The credit assigned to a particular course should reflect the amount of effort it demands of the student. Normally, one credit will represent three hours total work per week for one term — including a combination of lecture hours, other contact hours, such as

laboratory periods, tutorials, and problem periods, as well as personal study time.

12.4 Advising

Students who need 96 or fewer credits to complete their degree requirements must consult an academic adviser in their proposed department of study to obtain advice and approval of their course selection. Quebec students with a Diploma of Collegial Studies in Science have normally taken the equivalent of, and are therefore exempt from, the 100-level basic science courses in Biology, Chemistry, Mathematics, and Physics. Such students may also be exempt from some 200-level courses. Students with satisfactory results in International Baccalaureate, French Baccalaureate, Advanced Levels, and Advanced Placement tests may also be exempt from some or all of the Science Freshman courses. To facilitate program planning, they must present their transcripts and letters of admission. For a detailed description of advising and registration procedures, students should refer to "Registration", in [section 3.3](#) and "Advising and Support", in [section 4](#), to *Welcome to McGill*, which they receive upon acceptance from Enrolment Services, as well as to the information posted on the Student Affairs Website, www.mcgill.ca/artscisao, and to the departmental Websites.

Students who need 97-120 credits to complete their degree requirements will normally be registered in a Freshman Program until they complete their first year. They must consult an adviser in the Science Office for Undergraduate Student Advising to obtain advice and approval of their course selection. For a detailed description of advising and registration procedures, Freshman students should refer to *Welcome to McGill*, which they receive upon acceptance from Enrolment Services, as well as the information on the Student Affairs Website, www.mcgill.ca/artscisao.

Advising for all returning students takes place in March for the upcoming academic year. For more information, students should refer to the information on the Student Affairs Website, www.mcgill.ca/artscisao.

12.5 Registration

All students register by Minerva, McGill's Web-based registration system.

For detailed information about registration, students should refer to "Registration", in [section 3.3](#); *Welcome to McGill*; the Student Affairs Website, www.mcgill.ca/artscisao; and the Student Records Website, www.mcgill.ca/student-records.

Students who fall into unsatisfactory standing at the end of the academic year will have their registration cancelled. They may not re-register in the Faculty. However, students who can provide proof of exceptional extenuating circumstances that affected their academic performance may appeal to the Associate Dean of Science (Student Affairs) for readmission. For more information, students should [see section 3.3.13 "Readmission"](#).

Students who have an outstanding fee balance from a previous term or outstanding fines will not be permitted to register. In addition, students who have registered for the upcoming academic year, but subsequently take Summer courses without paying the fees, will have their registration cancelled. Registration on Minerva will be denied until these debts are paid in full. Students must pay all debts before the end of the registration period to be permitted to re-register. Students with financial problems should consult the Student Aid Office, Brown Student Services Building.

Students who decide not to return to McGill after initiating registration must withdraw from all of their courses on Minerva or inform the Student Affairs Office in writing. The deadline for withdrawal from the University is the same deadline as for a course withdrawal; [see section 3.3.8 "Regulations Concerning Course Withdrawal"](#) and [section 3.3.9 "Regulations Concerning University Withdrawal"](#). After the deadline, students may, under exceptional circumstances, be granted permission to withdraw from the

University. Such students should contact the Student Affairs Office for further information.

12.5.1 Program Registration

For detailed information about registering for programs, students should refer to *Welcome to McGill*; the Arts and Science Registration information on the Student Affairs Website, www.mcgill.ca/artscisao; or the Student Records Website, www.mcgill.ca/student-records.

See [section 12.11 "Lists of Programs Offered"](#) for a list of programs that can be taken by Science students.

12.5.2 Course Registration

All courses have limited enrolment. Subject to the course restrictions listed in this section and unless otherwise indicated, students in the Faculty of Science may register for and take for credit any course in the sections of the Calendar applicable to the Faculties of Arts and of Science.

Since the registration system is unable to verify whether or not Faculty regulations are respected, it is technically possible to register for courses that are closed to Science students. When students' records are manually verified, however, any "closed" courses will be flagged after the end of course change period as "not for credit towards the B.Sc." As a result, the students' expected date of graduation may be delayed.

Some courses may require special permission. Students should consult this Calendar and the Class Schedule at www.mcgill.ca/courses to determine whether permission is required of the instructor, the department, or the Faculty for any course they wish to take.

Students who believe they have valid reasons to take a course that is normally closed to Science students must obtain permission from the Associate Dean of Science (Student Affairs) before registering for the course. Only the Associate Dean or, on appeal, the Committee on Student Standing, can make exceptions to the Faculty rules.

12.5.2.1 Registration for First-Year Seminars

Registration for First-Year Seminars is limited to students in their first year of study at McGill, i.e., newly admitted students in U0 or U1. These courses are designed to provide a closer interaction with professors and better working relations with peers than is available in large introductory courses. These seminars endeavour to teach the latest scholarly developments and expose participants to advanced research methods. Registration is on a first-come, first-served basis. The maximum number of students in any seminar is 25, although some are limited to even fewer than that.

Students may take only one First-Year Seminar. Students who register for more than one will be obliged to withdraw from all but one of them. Please consult the departmental listings for course descriptions and availability.

CHEM 199 FYS: Why Chemistry?
 COMP 199 FYS: Excursions in Computer Science
 GEOG 199 FYS: Geo-Environments (not offered 2008/2009)
 PSYT 199 FYS: Mental Illness and the Brain

The First-Year Seminars offered by the Faculty of Arts are also open to Science students. For a complete listing, please consult Arts "[First-Year Seminars](#)", in [section 5.12.1](#).

12.5.2.2 Freshman Interest Groups

Freshman Interest Groups (FIGs) are groups of approximately 15 U0 students and U1 in their first semester, in the B.Sc. or B.A. & Sc., led by a professor in the Faculty of Science or Faculty of Medicine and an upper-year undergraduate student. They meet once every two weeks in the fall semester to discuss a wide range of topics, such as science in the news, program choices, undergraduate research opportunities, or just aspects of life in Montreal. The purpose of a FIG is to ease the transition to McGill and Montreal and to provide students an opportunity to interact with a professor and with other U0 students in a small group. FIGs carry no

credit and there is no charge. For more information and to see how to register refer to www.mcgill.ca/science/student/fig.

12.5.2.3 Registration in Multi-Term Courses

Students who select a multi-term course are making a commitment to that course for its entirety. Students **MUST** register in the same section in all terms of a multi-term course. Credit will be jeopardized if students deliberately register in different sections of a multi-term course. In exceptional cases, when circumstances are beyond the student's control, the Student Affairs Office may grant permission to change sections mid-way through a multi-term course. Students must make their request in writing to the Associate Dean (Student Affairs) citing their reason for the request. The request must also have the written support of the instructors of the sections involved and of the coordinator of the course (if applicable).

12.5.3 Apply to Graduate

For more information, see [section 3.9.1 "Apply to Graduate"](#).

12.6 Grading and Credit

During the first week of lectures, each instructor will provide students with a written course outline. This information should include, where appropriate:

- whether there will be a final examination in the course;
- how term work will affect the final mark in the course;
- how term work will be distributed through the term;
- whether there will be a supplemental examination in the course, and, if so, whether it will count for 100% of the supplemental grade or whether term work will be included in the supplemental grade (courses with formal final examinations *must* have supplementals);
- whether students with marks of D, F, J or U will have the option of submitting additional work, and, if so, how the supplemental mark will be calculated with the extra work.

12.6.1 Incomplete Grades

An instructor who believes that there is justification for a student to delay submitting term work may extend the deadline until after the end of the course. In this case, the instructor will submit a grade of K (incomplete), indicating the date by which the work is to be completed. The maximum extensions for the submission of grades to the Student Affairs Office are as follows:

- students graduating in June:

Fall, Winter, and multi-term courses	April 30
--------------------------------------	----------
- non-graduating students

Fall courses	April 30
Winter and multi-term courses	July 30
Summer courses	Nov. 30

Students' deadlines for submitting their work must be sufficiently in advance of these dates to ensure that the work can be graded and the mark submitted on time. It is important to note that instructors may impose earlier deadlines than those listed above.

If marks to clear Ks have not been submitted to the Student Affairs Office by the deadline specified above for non-graduating students, the K is automatically changed to a KF and counts as an F in the GPA.

Students with a grade of K who have serious extenuating circumstances may request an extension of the K deadline (KE) from the Associate Dean (Student Affairs). Please refer to "[Grading and Grade Point Averages \(GPA\)](#)", in [section 3.5.3](#) for more information about grading and credit.

12.7 Examinations

Students should refer to "[Examinations](#)", in [section 3.6](#), for information about final examinations and deferred examinations. Note that for the Faculty of Science, "[University Regulations Concerning Final Examinations](#)", in [section 3.6.2.1](#) applies to courses up to and including the 500 level.

The exam schedules are posted on the McGill Website, www.mcgill.ca, normally one month after the start of classes for the Tentative Exam Schedule, and two months after the start of classes for the Final Examination Schedule. Students should also refer to the Student Affairs Website for more information: www.mcgill.ca/artscisao.

Students are warned not to make travel arrangements to leave Montreal prior to the scheduled end of any examination period.

12.8 Supplemental Assessments

12.8.1 Supplemental Examinations

Students who wish to write supplemental examinations for certain courses must apply to the Student Affairs Office for permission. The following conditions apply:

- students must be in satisfactory or probationary standing;
- students must have received a final grade of D, F, J or U in the course;
- students must avail themselves of this privilege at the time of the next supplemental examination period;
- special permission is required if a student wishes to write supplementals totalling more than 8 credits;
- only one supplemental examination is allowed in a course;
- the supplemental result may count for 100% of the final grade or may include the same proportion of class work as did the original grade; the instructor will announce the arrangements to be used for the course by the end of the course change period;
- the format and content of the supplemental examination will not necessarily be the same as for the final examination, so students should consult the instructor;
- the supplemental result will not erase the grade originally obtained, which is used in calculating the GPA; both the original mark and the supplemental result will be calculated in the CGPA;
- in courses in which both a supplemental examination and additional work are available, the student may choose the additional work or the examination or both; where both are written, only one supplemental mark will be submitted, reflecting marks for both the supplemental examination and the additional work;
- additional credit will not be given for a supplemental exam where the original grade for the course was a D and the student already received credit for the course;
- supplemental examinations in courses outside the Faculty of Science are subject to the deadlines, rules and regulations of the relevant faculty;
- no supplemental examinations are available for students who fail to achieve satisfactory grades in deferred examinations.

For courses in the Faculties of Arts and of Science, the supplemental examination period for Fall courses is during the month of May; for Winter courses, and courses spanning Fall/ Winter, the supplemental examination period is during the last week of August.

Supplemental examination applications are available on Minerva, as of January 29, 2008. The deadline for submission of applications is March 1 for Fall courses and July 30 for Winter courses and courses spanning Fall/Winter. A non-refundable fee for each supplemental exam is payable at the time of application. Students

who register for a supplemental examination and subsequently find themselves unprepared for it should not write it; except for the loss of the registration fee, there is no penalty for not writing a supplemental examination. Students should consult the Student Affairs Office for further information.

12.8.2 Additional Work

Instructors of courses that include graded written term work may choose to provide the option of additional work to eligible students. The following conditions apply:

- if there is an option for additional work, it must be announced in the course outline at the beginning of the course;
- additional work involves revising one or more previously submitted papers or submitting new written work to replace the original work;
- students must be in satisfactory or probationary standing;
- students must have received a final grade of D, J, F, or U in the course;
- the weight of the additional work will be equal to the weight given the work revised or replaced when the original mark was submitted;
- the mark resulting from the revised or additional work will be recorded as a supplemental mark;
- the supplemental result will not erase the grade originally obtained, which is used in calculating the GPA; both the original mark and the supplemental mark will count in calculating the CGPA;
- in courses in which both a supplemental examination and additional work are available, the student may choose the additional work or the examination or both; where both are written, only one supplemental mark will be submitted, reflecting marks for both the supplemental examination and the additional work;
- additional work in courses outside the Faculty of Science is subject to the deadlines, rules, and regulations of the relevant faculty.

Additional work applications are available in the Student Affairs Office. The deadline for submission of applications is March 7 for Fall courses and July 30 for Winter courses and courses spanning Fall/Winter. A non-refundable fee is payable for each course at the time of application. Students should consult the Student Affairs Office for further information.

12.8.3 Reassessments and Rereads

In accordance with the Charter of Student Rights, and subject to the conditions stated therein, students have the right to consult any written submission for which they have received a mark, to discuss this submission with the examiner, and to obtain an impartial and competent review of any mark.

The Faculty of Science recognizes two types of impartial reviews: reassessments of coursework (i.e., of term papers, mid-terms, assignments, quizzes, etc.) and rereads of final examinations. In both cases, rather than re-correct the work and grade it as they would have done themselves, reviewers assess the **appropriateness** of the original grade based, for example, on the application of the grading key to the student's work. If a grade is deemed unfair, it is changed, whether the new grade is higher or lower than the original — i.e., the reviewer's grade takes precedence over the original grade.

A. Reassessment of Coursework

Reassessments of coursework are administered and conducted solely by the units involved according to procedures specified by the units and made available to staff and students. Requests for such reassessments must be made within 10 working days after the graded material has been made available for students to view it. Reassessments should normally be completed within 20 working days of the request.

B. Rereads of Final Examinations

Rereads of final examinations are administered by the Student Affairs Office, but conducted by the units involved. Students must apply in writing to the Student Affairs Office by March 31 for courses in the Fall term and by September 30 for courses in the Winter or Summer terms (these deadlines are strictly enforced and no requests for rereads will be accepted past them). Students are assessed a fee of \$35 for such rereads. It is strongly recommended, but not required, that students consult the instructor of the course before requesting a reread of a final examination.

Reassessments and rereads in courses not in the Faculty of Science are subject to the deadlines, rules, and regulations of the relevant faculty.

12.9 Academic Standing

Academic standing is based primarily on students' cumulative grade point average (CGPA), but may also be affected by their term grade point average (TGPA). Academic standing is assessed in January for the Fall term, in May for the Winter term, and in September for the Summer term. Academic standing in each term determines if students will be allowed to continue their studies in the next term and if any conditions will be attached to their registration.

Decisions about academic standing in the Fall term are based only on grades that are available in January. Grades for courses in which students have deferred examinations and Fall-term grades for courses that span the Fall and Winter terms do not affect academic standing for the Fall term, even though they will ultimately affect students' Fall TGPA. Therefore, academic standings for the Fall term that are designated as "interim" should be interpreted as advisory. Note that interim standings will not appear on external transcripts. Interim standing decisions are mentioned below only if the rules for them differ from those for regular standing decisions.

Satisfactory/Interim Satisfactory Standing

Students in satisfactory standing may continue in their program.

- New students are admitted to satisfactory standing.
- Students with a CGPA of 2.00 or greater are in satisfactory standing.

Probationary/Interim Probationary Standing

Students in probationary standing may continue in their program, but must carry a reduced load (maximum 14 credits per term) and raise their TGPA and CGPA to return to satisfactory standing (see above). They should see their departmental adviser to discuss their course selection, and their Faculty student adviser to discuss degree planning.

Students in interim probationary standing may continue in their program, but should evaluate their course load and reduce it as appropriate. They are strongly advised to consult a departmental adviser, before the withdrawal deadlines, about their course selection for the Winter term.

- Students who were previously in satisfactory standing will be placed in probationary standing if their CGPA falls between 1.50 and 1.99.
- Students who were previously in probationary standing will remain in probationary standing if their CGPA falls between 1.50 and 1.99 and their TGPA is 2.50 or higher, although the TGPA requirement will not apply to the Summer term.
- Students who were previously in interim unsatisfactory standing will be placed in probationary standing if their CGPA falls between 1.50 and 1.99 and their TGPA is 2.50 or higher.
- Students who were previously in unsatisfactory readmitted standing will be placed in probationary standing (for the Fall or Winter term) if their CGPA is less than 2.00, and if they satisfy relevant conditions specified in their letter of readmission.

Unsatisfactory Readmitted Standing

Students who were previously in unsatisfactory standing and who were readmitted to the Faculty by the Associate Dean (Student Affairs) or the Committee on Student Standing will have their standing changed to unsatisfactory readmitted standing. Their course load is specified in their letter of readmission, as are the conditions they must meet to be allowed to continue in their program. They should see their departmental adviser to discuss their course selection, and their Faculty student adviser to discuss degree planning.

Unsatisfactory/Interim Unsatisfactory Standing

Students in interim unsatisfactory standing may continue in their program, but should evaluate their course load and reduce it as appropriate. They are strongly advised to consult a departmental adviser, before the withdrawal deadlines, about their course selection for the Winter term, and their Faculty student adviser to discuss degree planning.

Students in unsatisfactory standing have failed to meet the minimum standards set by the Faculty. They may not continue in their program, and their registration will be cancelled.

Appeals for readmission by students in unsatisfactory standing should be addressed to the Associate Dean (Student Affairs) no later than July 15 for readmission to the Fall term and November 15 for the Winter term. Readmission will be considered only when proof of extenuating circumstances that affected academic performance can be provided (e.g., medical or other documentation). Students in unsatisfactory standing for the second time must withdraw permanently.

Normally, supplemental examinations are not permitted; however, students in unsatisfactory standing may appeal to the Associate Dean (Student Affairs) for permission to write a supplemental examination, clearly stating the reasons for special consideration and providing proof as appropriate.

- Students will be placed in unsatisfactory standing (Winter or Summer term) or interim unsatisfactory standing (Fall term) if their CGPA falls or remains below 1.50.
- Students who were previously in probationary, unsatisfactory readmitted, or interim unsatisfactory standing will be placed in unsatisfactory standing (Fall or Winter term) if their TGPA falls below 2.50 and their CGPA is below 2.00.
- Students who were previously in unsatisfactory standing and who were readmitted to the Faculty by the Associate Dean (Student Affairs) or the Committee on Student Standing and who have not at least satisfied the conditions to attain probationary standing that were specified in the letter of readmission will be placed in unsatisfactory standing.

Students in the Concurrent B.Sc. and B.Ed. Program who receive an F or J in any Education Field Experience course are placed in unsatisfactory standing. Although they may complete their term, they are required to withdraw from the Concurrent Program. However, they may apply to transfer to a conventional B.Sc. program as outlined in [section 12.13.34 "Science or Mathematics for Teachers"](#).

Incomplete Standings

- Standing awaits deferred examination.
- Must clear Ks, Ls or Supplemental.
- Standing Incomplete.

Students with incomplete standings in the Winter or Summer term may register for the Fall term, but their standing must be resolved by the end of the course-change period for that term. Students whose incomplete standing changes to satisfactory, probationary, or interim unsatisfactory standing may continue in the program. Students whose standing changes to unsatisfactory standing may not continue in their program, and their registration will be cancelled.

Students whose standing changes to unsatisfactory and who wish to ask for permission to continue in their program must make a request to the Associate Dean (Student Affairs) as soon as they are placed in unsatisfactory standing. Readmission will be

considered only when proof of extenuating circumstances that affected academic performance can be provided (e.g., medical or other documentation).

Students whose standing is still incomplete by the end of course change period should immediately consult with the Student Affairs Office.

At the end of the Winter term, students with a mark of K or L will be placed in the appropriate standing in June, if the outstanding mark in the course will not affect their standing. Otherwise, the standing decision will only be made once their incomplete marks have been cleared. For more information about incomplete grades, please refer to [section 12.6.1 "Incomplete Grades"](#).

12.10 Awards and Honorary Designations

12.10.1 Honours and First-Class Honours

Departments may recommend to the Faculty that graduating students registered in an Honours program be awarded *Honours* or *First-Class Honours* under the following conditions:

- students must complete all requirements imposed by the department;
- for *Honours*, the CGPA at graduation must be at least 3.00;
- for *First-Class Honours*, the CGPA at graduation must be at least 3.50;
- some departments may impose additional requirements, which must be met before students are recommended for *Honours* or *First-Class Honours*. These are found in the departmental descriptions of Honours programs.

Students in an Honours program whose CGPA is below 3.00 or who did not satisfy certain program requirements must consult their adviser to determine if they are eligible to graduate in a program other than Honours.

12.10.2 Distinction or Great Distinction

Students in Faculty, Liberal or Major programs may be awarded their degrees with *Distinction* or *Great Distinction* under the following conditions:

- students must have completed a minimum of 60 McGill credits towards the B.Sc. degree to be eligible;
- for *Distinction*, the CGPA at graduation must be 3.30 to 3.49;
- for *Great Distinction*, the CGPA at graduation must be 3.50 or greater;
- these designations may be withdrawn in the case of transfer students, if their CGPA in another faculty or at another university is not comparable to the CGPA earned in the Faculty of Science.

12.10.3 Dean's Honour List

The designation *Dean's Honour List* may be awarded to graduating students under the following conditions:

- students must have completed a minimum of 60 McGill credits towards the B.Sc. degree to be considered;
- students must be in the top 10% of the Faculty's graduating class of students; this calculation is based on the CGPA;
- this honorary designation may be withdrawn in the case of transfer students, if their CGPA in another faculty or at another university is not comparable to the CGPA earned in the Faculty of Science.

The designation *Dean's Honour List* may be awarded at the end of each academic year to continuing students under the following conditions:

- students must have completed at least 27 graded credits during the academic year to be considered;

- students must be among the top 10% of the Faculty. This calculation is based on the sessional GPA (a combined GPA for Fall and Winter terms).

12.10.4 Dean's Multidisciplinary Undergraduate Research List

The Dean's Multidisciplinary Undergraduate Research List recognizes students who have participated in substantial and broad undergraduate research. To be placed on the Dean's Multidisciplinary Undergraduate Research List at graduation time, a student must have completed at least 9 credits of research-based courses, taken for a letter grade, where qualifying courses are specified in the list of approved research courses (see www.mcgill.ca/science/ours/researchcourses). Furthermore, considering all qualifying research-based courses on the student's transcript at graduation time:

- at least one course, worth at least 3 credits, must be from a different unit than the other research-based courses; and
- every qualifying course must have been completed with a grade of C or above; and
- the average GPA over all qualifying courses must be 3.0 or above.

12.10.5 Medals and Prizes

Various medals, scholarships and prizes are open to continuing and graduating students. Full details of these are set out in the *Undergraduate Scholarships and Awards Calendar*, available in Enrolment Services or on the Web: www.mcgill.ca. No application is required except in the case of the Moyse Travelling Scholarships.

12.11 Lists of Programs Offered

12.11.1 Liberal Program - Core Science Components

Anatomy and Cell Biology, [page 337](#)
 Atmospheric Science, [page 339](#)
 Biochemistry, [page 342](#)
 Biology, [page 345](#)
 Chemistry: Biological Option, [page 351](#)
 Chemistry: General Option, [page 351](#)
 Chemistry: Physical Option, [page 351](#)
 Computer Science, [page 356](#)
 Earth and Planetary Science, [page 357](#)
 Geography, [page 362](#)
 Mathematics, [page 368](#)
 Microbiology and Immunology, [page 373](#)
 Physics, [page 379](#)
 Physiology, [page 383](#)
 Psychology, [page 387](#)
 Statistics, [page 368](#)

12.11.2 Major Programs

Anatomy and Cell Biology, [page 337](#)
 Atmospheric Science, [page 339](#)
 Atmospheric Science (Atmospheric Chemistry option), [page 340](#)
 Biochemistry, [page 342](#)
 Biology, [page 345](#)
 Chemistry, [page 351](#)
 Chemistry (Bio-organic option), [page 351](#)
 Chemistry (Atmosphere and Environment option), [page 351](#)
 Chemistry (Materials option), [page 351](#)
 Computer Science, [page 354](#)
 Computer Science (Computer Games option) [page 355 - new](#)
 Earth and Planetary Sciences, [page 358](#)

Earth System Science [page 359](#)
 Environment (Atmospheric Environment and Air Quality domain) – see McGill School of Environment, [page 439](#)
 Environment (Biodiversity and Conservation domain) – see McGill School of Environment, [page 430](#)
 Environment (Earth Sciences and Economics domain) – see McGill School of Environment, [page 440](#)
 Environment (Ecological Determinants of Health domain - Cellular) – see McGill School of Environment, [page 431](#)
 Environment (Ecological Determinants of Health domain - Population) – see McGill School of Environment, [page 432](#)
 Environment (Environmetrics domain) – see McGill School of Environment, [page 433](#)
 Environment (Food Production and Environment domain) – see McGill School of Environment, [page 434](#)
 Environment (Land Surface Processes and Environmental Change domain) – see McGill School of Environment, [page 435](#)
 Environment (Renewable Resource Management domain) – see McGill School of Environment, [page 436](#)
 Environment (Water Environments and Ecosystems domain - Biological) – see McGill School of Environment, [page 438](#)
 Environment (Water Environments and Ecosystems domain - Physical) – see McGill School of Environment, [page 438](#)
 Geography, [page 362](#)
 Mathematics, [page 368](#)
 Microbiology and Immunology – application required, see departmental section for information, [page 373](#)
 Neuroscience (subject to the approval of the Ministère de l'Éducation, du Loisir et du Sport), [page 375](#)
 Physics, [page 379](#)
 Physiology, [page 383](#)
 Psychology, [page 387](#)
 Software Engineering, [page 355](#)

12.11.3 Joint Major Programs

Atmospheric Science and Physics, [page 339](#)
 Mathematics and Computer Science – see Mathematics and Statistics, [page 369](#)
 Physics and Computer Science – see Physics, [page 380](#)
 Physics and Geophysics, [page 379](#)
 Physiology and Mathematics, [page 383](#)
 Physiology and Physics, [page 383](#)
 Statistics and Computer Science, [page 369](#)

12.11.4 Honours Programs

Anatomy and Cell Biology, [page 337](#)
 Applied Mathematics, [page 370](#)
 Atmospheric Science, [page 340](#)
 Atmospheric Science (Atmospheric Chemistry option), [page 340](#)
 Biochemistry, [page 343](#)
 Biology, [page 347](#)
 Chemistry, [page 350](#)
 Chemistry (Bio-organic option), [page 350](#)
 Chemistry (Atmosphere and Environment option), [page 350](#)
 Chemistry (Materials), [page 350](#)
 Computer Science, [page 356](#)
 Earth Sciences, [page 358](#)
 Environment, [page 441](#)
 Planetary Sciences, [page 358](#)
 Geography, [page 362](#)
 Immunology (Interdepartmental) – application required, see Faculty of Science section for Immunology, [page 363](#)
 Mathematics, [page 370](#)
 Microbiology and Immunology, [page 374](#)
 Physics, [page 380](#)
 Physiology, [page 384](#)
 Probability and Statistics, [page 371](#)
 Psychology, [page 387](#)

12.11.5 Joint Honours Programs

Mathematics and Computer Science – see Mathematics and Statistics, [page 371](#)
 Mathematics and Physics – see Physics, [page 381](#)
 Physics and Chemistry – see Physics, [page 381](#)
 Statistics and Computer Science, [page 371](#)

12.11.6 Minor Programs

Atmospheric Science, [page 338](#)
 Biology, [page 344](#)
 Biotechnology, [page 348](#)
 Chemical Engineering – see Chemistry, [page 352](#)
 Chemistry, [page 352](#)
 Cognitive Science, [page 352](#)
 Computational Molecular Biology – see Computer Science, [page 354](#)
 Computer Science, [page 354](#)
 Earth and Planetary Sciences, [page 357](#)
 Education for Science Students – see Science or Mathematics for Teachers, [page 389](#)
 Electrical Engineering – see Physics, [page 382](#)
 Environment – see McGill School of Environment, [page 424](#)
 Field Study – see Field Studies and Study Abroad, [page 445](#) - **new**
 Finance for Non-Management Students [see Desautels Faculty of Management], [page 269](#) – **new**
 General Science, [page 360](#) – **new**
 Geochemistry – see Earth and Planetary Sciences, [page 357](#)
 Geography, [page 361](#)
 Geographical Information Systems – see Geography, [page 361](#)
 Human Nutrition – see Faculty of Agricultural and Environmental Sciences section for School of Dietetics and Human Nutrition, [page 404](#)
 Interdisciplinary Life Sciences (Pending University Approval), [page 364](#) – **new**
 Kinesiology – see Faculty of Science section, [page 365](#)
 Management for Non-Management Students – [see Desautels Faculty of Management], [page 269](#)
 Marketing for Non-Management Students – [see Desautels Faculty of Management], [page 269](#)
 Mathematics, [page 367](#)
 Music Technology – application required, see Faculty of Science section for Music, [page 374](#)
 Neuroscience, [page 376](#)
 Operations Management for Non-Management Students – [see Desautels Faculty of Management], [page 270](#)
 Pharmacology, [page 377](#)
 Physics, [page 379](#)
 Psychology, [page 386](#)
 Statistics – see Mathematics and Statistics, [page 367](#)
 Technological Entrepreneurship for Science Students – application required, see Faculty of Science section, [page 391](#)

Notes:

1. The Minor in Chemical Engineering is only available to students in Chemistry.
2. The Minor in Electrical Engineering is only available to students in the Major program in Physics.
3. The Minor in General Science is only available to students in B.Sc. Liberal programs.

12.11.7 Concurrent B.Sc. and B.Ed. Program (Science or Mathematics for Teachers)

Major in Mathematics for Teachers – see Science or Mathematics for Teachers, [page 391](#)

Major Concentration in Biology with a Minor in Chemistry for Teachers – see Science or Mathematics for Teachers, [page 390](#)

Major Concentration in Biology with a Minor in Physics for Teachers – see Science or Mathematics for Teachers, [page 390](#)

Major Concentration in Chemistry with a Minor in Biology for Teachers – see Science or Mathematics for Teachers, [page 390](#)

Major Concentration in Chemistry with a Minor in Physics for Teachers – see Science or Mathematics for Teachers, [page 390](#)

Major Concentration in Physics with a Minor in Biology for Teachers – see Science or Mathematics for Teachers, [page 390](#)

Major Concentration in Physics with a Minor in Chemistry for Teachers – see Science or Mathematics for Teachers, [page 390](#)

12.11.8 Bachelor of Arts and Science

Please see the "Bachelor of Arts and Science", in section 6 of the Calendar, for details.

12.11.9 Internship Programs – Industrial Practicum (IP) and Internship Year in Science (IYS)

The Faculty of Science offers an internship program which features the Industrial Practicum (4 months) and the Internship Year in Science (8, 12, 16 months). Participating in an internship offers you the chance to apply theory to practice, to solidify your career goals, to gain some valuable experience and to earn money.

It will also give you the opportunity to enhance your degree: if you complete two IPs or participate in an IYS, the name of your program will change to include the word internship (e.g. Bachelor of Science - Internship Program - Biology).

To learn more about the Science Internship programs, visit www.mcgill.ca/science/internships-field/internships.

12.11.10 Faculty of Arts Major and Minor Concentration Programs Available to Science Students

For more information, please see the relevant departmental entries in the Faculty of Arts section.

Major Concentrations

African Studies, [page 87](#)
 Anthropology, [page 89](#)
 Art History, [page 92](#)
 Canadian Studies, [page 95](#)
 Classics, [page 98](#)
 East Asian Studies, [page 102](#)
 Economics, [page 106](#)
 English – Cultural Studies, [page 109](#)
 English – Drama and Theatre, [page 109](#)
 English – Literature, [page 109](#)
 Geography (Urban Systems), [page 116](#)
 German Language and Literature, [page 120](#)
 German Literature and Culture, [page 121](#)
 German Studies, Contemporary, [page 120](#)
 Hispanic Languages, [page 123](#)
 Hispanic Literature and Culture, [page 123](#)
 History, [page 125](#)
 Humanistic Studies, [page 127](#)
 International Development Studies, [page 128](#)
 Italian Civilization, [page 131](#)
 Italian Language and Literature, [page 131](#)
 Jewish Studies, [page 133](#)
 Langue et littérature françaises – Lettres, [page 114](#)
 Langue et littérature françaises – Lettres et traduction, [page 113](#)

Langue et littérature françaises – Linguistique du français, [page 114](#)
 Latin-American Studies, [page 136](#)
 Linguistics, [page 138](#)
 Middle East Studies, [page 142](#)
 Music, (available to students in B.Sc Liberal only) [page 143](#)
 North American Studies, [page 145](#)
 Philosophy, [page 147](#)
 Philosophy and Western Religions, [page 149](#)
 Political Science, [page 156](#)
 Québec Studies, [page 160](#)
 Russian, [page 167](#)
 Scriptures and Interpretation – see Religious Studies, [page 164](#)
 Sociology, [page 176](#)
 Women's Studies, [page 177](#)
 World Religions – see Religious Studies, [page 163](#)

Minor Concentrations

African Studies, [page 87](#)
 Anthropology, [page 88](#)
 Art History, [page 92](#)
 Canada/Québec — see Political Science, [page 154](#)
 Canadian Ethnic and Racial Studies, [page 94](#)
 Canadian Studies, [page 94](#)
 Catholic Studies, [page 97](#)
 Classics, [page 98](#)
 Comparative Politics – see Political Science, [page 154](#)
 East Asian Language and Literature, [page 100](#)
 East Asian Cultural Studies, [page 101](#)
 East Asian Studies, Advanced, [page 102](#)
 Economics, [page 105](#)
 English – Cultural Studies, [page 109](#)
 English – Literature, [page 108](#)
 English – Drama and Theatre, [page 109](#)
 Geographical Information Systems – see Geography, [page 116](#)
 Geography, [page 115](#)
 German Language, [page 119](#)
 German Literature, [page 119](#)
 German Literature and Culture in Translation, [page 119](#)
 Hispanic Languages, [page 122](#)
 Hispanic Literature and Culture, [page 123](#)
 History, [page 125](#)
 History and Philosophy of Science, [page 126](#)
 Humanistic Studies, [page 127](#)
 International Development Studies, [page 128](#)
 International Relations – see Political Science, [page 154](#)
 Islamic Studies, [page 130](#)
 Italian Language and Literature, [page 131](#)
 Italian Civilization, [page 131](#)
 Jewish Law, [page 132](#)
 Jewish Studies, [page 133](#)
 Langue et littérature françaises – Lettres, [page 113](#)
 Langue et littérature françaises – Lettres et traduction, [page 113](#)
 Langue et littérature françaises – Langue et traduction, [page 113](#)
 Langue et littérature françaises – Langue française, [page 113](#)
 Langue et littérature françaises – Théorie et critique littéraires, [page 114](#)
 Linguistics, [page 138](#)
 Middle East Studies, [page 141](#)
 Middle East Languages, [page 141](#)
 Music, [page 143](#)
 North American Studies, [page 145](#)
 Philosophy, [page 147](#)
 Philosophy and Western Religions, [page 149](#)
 Political Science, [page 153](#)
 Political Economy – see Political Science, [page 155](#)
 Political Theory – see Political Science, [page 155](#)
 Politics, Law and Society – see Political Science, [page 155](#)
 Québec Studies, [page 160](#)
 Russian – see Russian and Slavic Studies, [page 166](#)
 Russian Civilization – see Russian and Slavic Studies, [page 167](#)
 Scriptural Languages – see Religious Studies, [page 163](#)

Sexual Diversity Studies, [page 171](#)
 Social Studies of Medicine, [page 172](#)
 Sociology, [page 176](#)
 South Asia – see Political Science, [page 155](#)
 World Religions – see Religious Studies, [page 162](#)
 Women's Studies, [page 177](#)

12.12 Undergraduate Research Opportunities

Because McGill is a research-intensive university, research informs the curriculum. There are many opportunities for talented students to take part in research during their undergraduate studies, whether at McGill, in affiliated hospitals, at other universities, or in the field. Many of these are organized through formal courses or programs organized by the Faculty of Science or its departments, and are listed in the following sections; however, [see section 12.3.6 “Course Requirements”](#) for information about other opportunities.

The Office for Undergraduate Research in Science (OURS) coordinates several of the following programs, and can help students find out about other opportunities. Visit the OURS Website at www.mcgill.ca/science/ours to find out more.

12.12.1 Department Research Projects

Departments offer a variety of research-based courses which allow you to perform research under the supervision of a McGill researcher for academic credit. Depending on the unit, courses featuring undergraduate research may bear names such as: majors project, honours project, advanced lab, independent research, technical project, independent study, research project & seminar. For more information, see the course listings for Faculty of Science departments see [“Course Information, Regulations and Descriptions \(Appendix\)”](#) of the Calendar.

12.12.1.1 “396” Undergraduate Research Project Courses

“396” undergraduate research project courses are offered by most departments – ANAT 396, ATOC 396, BIOL 396, etc. They are elective courses, which can be taken outside your own department.

Students can consult a list of past projects and currently available projects on the Science Website at www.mcgill.ca/science/ours/396, or they can devise a new project in consultation with a McGill researcher and download the required paperwork.

12.12.1.2 Dean's Multidisciplinary Undergraduate Research List

Students interested in the Dean's Multidisciplinary Undergraduate Research list can refer to [section 12.10.4 “Dean's Multidisciplinary Undergraduate Research List”](#) for more information.

12.12.2 NSERC Undergraduate Student Research Awards

The Natural Sciences and Engineering Research Council of Canada Undergraduate Student Research Awards (NSERC USRA) in Universities program: this award supports 16 consecutive weeks of paid full-time research under the supervision of a professor who holds an NSERC grant. It is an excellent way to prepare for graduate studies or a future career in science. This program is offered at most universities across Canada, and a travel allowance from NSERC is available.

To apply, students must first identify a proposed supervisor who holds an NSERC grant. Students should apply at the university where they wish to hold the award. Applicants must be Canadian citizens or permanent residents of Canada. See www.mcgill.ca/science/ours/nserc for more information.

12.12.2.1 Related program: NSERC Industrial Undergraduate Student Research Awards

In cooperation with a company, students can also apply for an Industrial NSERC Award to provide salary support to gain industrially relevant experience. Students apply for these awards through one or more companies (not through McGill). For more information on forms, student eligibility, and company eligibility, please visit the NSERC Website www.nserc.ca and look for the Industrial Undergraduate Student Research Awards.

12.12.2.2 Related program: FRSQ Undergraduate Student Research Awards and McEntyre USRA

These programs are meant to stimulate interest for research in students registered in an undergraduate program in Health Sciences or other disciplines offering specialization in health sciences, including social sciences, natural sciences, and engineering. For more information see www.mcgill.ca/gps/fellowships/undergrad/frsq-usra.

12.12.3 Undergraduate Research Conference

Each fall, the Faculty of Science holds an Undergraduate Research Conference to celebrate the research accomplishments of our undergraduate students. The conference also includes a public lecture by a Nobel laureate or other luminary on a topic related to scientific discovery.

Students who wish to present their research posters should contact their departments in the preceding summer, since departments nominate participants for the conference.

Everyone is welcome to attend. This is an excellent opportunity to see what McGill undergraduates undertake as research projects.

The conference normally takes place on the Friday of Homecoming weekend.

For more details, please see www.mcgill.ca/science/ours/urc.

12.12.4 Industrial Practicum (IP) and Internship Year in Science (IYS)

These programs are open to all Science undergraduate students. An internship is a career-related, professionally supervised, paid work term and done during your undergraduate degree in a field related to your studies. Internships may have a basis in research. To be eligible to apply:

- You must be a full time undergraduate student in Science before and after the IP or the IYS is completed.
- You must have completed at least 27 credits and should have at least 12 credits remaining in your degree program.
- Your GPA must be 3.0 or higher.
- International students are eligible to apply to all IYS positions (unless otherwise indicated in the job posting) and to summer IPs (provided the student has an off-campus work permit).

For more information on IP and IYS, please see www.mcgill.ca/science/internships-field/internships.

12.12.5 Field study and study abroad

McGill's Field Study Semester programs (in Africa, Barbados, and Panama) are research-based, as are many shorter field courses offered by the Departments of Biology, Earth & Planetary Sciences, and Geography. See "Field Studies and Study Abroad Opportunities", section 15, www.mcgill.ca/science/internships-field/field for more information about these programs and courses.

12.12.6 Other opportunities

While the application process for the NSERC USRA and some other research awards may be highly competitive, individual departments and researchers offer many other research

opportunities. These may be paid or unpaid, for academic credit or not for credit. Some of these opportunities are formal programs and are listed on this page; however, many opportunities arise as a result of students talking with their professors. Students should feel free to do so.

In addition to opportunities available at McGill, there are several external opportunities at other institutions.

The Website of the Office for Undergraduate Research in Science has information on external opportunities as well as how to find opportunities at McGill or elsewhere. For more information, see www.mcgill.ca/science/ours/opportunities and www.mcgill.ca/science/ours/how.

12.13 Academic Programs

12.13.1 Science Freshman Program

Students who need 97-120 credits to complete their degree requirements will normally be registered in the Science Freshman Program until they complete their first year. They must consult an adviser in the Student Affairs Office to obtain advice and approval of their course selection. Full details are available on the Student Affairs Office Website at www.mcgill.ca/artscisao. Academic advising is also available by e-mail. The address is newstudentadvising.science@mcgill.ca.

B.SC. FRESHMAN PROGRAM REQUIREMENTS

Students normally complete 30 credits which must include at least 7 courses from the list of Approved Freshman Science courses, selected as follows:

General Math and Science Breadth (6 courses)

Six of the freshman courses must satisfy one of the following:

1. 2 courses from MATH and 4 courses from BIOL, CHEM or PHYS; or
2. 3 courses from MATH and 3 courses from BIOL, CHEM or PHYS.

Science Complementary (1 course)

One additional course from the list of Approved Freshman Science Courses.

Notes:

1. Students who have not studied all of Biology, Chemistry and Physics at the grade 12 level or equivalent are strongly advised to include at least one course in the missing discipline in their freshman program.
2. Many students will complete more than 7 courses from the Approved Freshman Science Courses list, particularly those who wish to leave several options open for their choice of major.
3. Students entering the Freshman Program should be aware of the department specific requirements when selecting their courses. Detailed advising information is available at www.mcgill.ca/artscisao/bsc/freshman.
4. The maximum number of courses per term, required, complementary and elective, is five.
5. Some medical and dental schools have specific freshman course requirements. Check the admission requirements of the school(s) to which you intend to apply.

List of approved Freshman Science Courses

ATOC 104 or	(3)	The Earth System
EPSC 104 or		
GEOG104		
BIOL 111	(3)	Principles: Organismal Biology
BIOL 112	(3)	Cell and Molecular Biology
CHEM 110	(4)	General Chemistry 1

- CHEM 115 (4) Accelerated General Chemistry: Giants in Science
 CHEM 120 (4) General Chemistry 2
 COMP 202 (3) Introduction to Computing 1
 MATH 133 (3) Vectors, Matrices and Geometry

First calculus course, one of:

- MATH 139 (4) Calculus
 or MATH 140 (3) Calculus 1
 or MATH 150 (4) Calculus A

Second calculus course, one of:

- MATH 141 (4) Calculus 2
 or MATH 151 (4) Calculus B

First physics course, one of:

- PHYS 101 (4) Introductory Physics - Mechanics
 or PHYS 131 (4) Mechanics and Waves

Second physics course, one of:

- PHYS 102 (4) Introductory Physics - Electromagnetism
 or PHYS 142 (4) Electromagnetism and Optics

- PSYC 100 (3) Introduction to Psychology

Electives

Students wishing to take elective courses may choose them from introductory courses offered by departments in the Faculties of Science or of Arts. A list of recommended courses is found at www.mcgill.ca/artscisao/bsc/freshman/approved. Certain courses offered by other faculties may also be taken, but some restrictions apply. Consult the Student Affairs Office Website at www.mcgill.ca/artscisao/bsc/course/outside for more information about taking courses from other faculties.

12.13.2 Anatomy and Cell Biology (ANAT)

Strathcona Anatomy and Dentistry Building
 3640 University Street, Room 1/48
 Montreal, QC H3A 2B2

Telephone: (514) 398-6335
 Website: www.mcgill.ca/anatomy

Chair — John J.M. Bergeron

Emeritus Professors

Yves Clermont; B.Sc.(Montr.), Ph.D.(McG.), F.R.C.S.
 Dennis G. Osmond; B.Sc., M.B., Ch.B., D.Sc.(Brist.), M.R.C.S.,
 L.R.C.P., F.R.S.C.
 H. Warshawsky; B.Sc.(Sir G.Wms), M.Sc., Ph.D.(McG.)

Professors

Philip Barker; B.Sc.(S. Fraser), Ph.D.(Alta.) (*joint appoint. with Neurology & Neurosurgery*)
 Alain Beaudet; M.Sc., Ph.D., M.D.(Montr.) (*joint appoint. with Neurology & Neurosurgery*)
 Gary C. Bennett; B.A., B.Sc.(Sir G. Wms.), M.Sc., Ph.D.(McG.)
 John J.M. Bergeron; B.Sc.(McG.), Ph.D., D.Phil.(Oxf.)
 James R. Brawer; B.S.(Tufts), Ph.D.(Harv.)
 Miguel Burnier; M.D., M.Sc., Ph.D.(Brazil) (*joint appoint. with Ophthalmology*)
 Louis Hermo; B.A.(Loyola), M.Sc., Ph.D.(McG.)
 Marc D. McKee; B.Sc., M.Sc., Ph.D.(McG.) (*joint appoint. with Dentistry*)
 Sandra C. Miller; B.Sc.(Sir G. Wms.), M.Sc., Ph.D.(McG.)
 Carlos R. Morales; DVM.(U.N., Argentina), Ph.D.(McG.)
 Barry I. Posner; M.D.(Manit.), F.R.C.P.(C) (*joint appoint. with Medicine*)
 Alfredo Ribeiro-da-Silva; M.D., Ph.D.(Oporto) (*joint appoint. with Pharmacology and Therapeutics*)
 Stefano Stifani; Ph.D.(Rome), Ph.D.(Alta.) (*joint appoint. with Neurology & Neurosurgery*)

Associate Professors

Chantal Autexier; B.Sc.(C'dia), Ph.D.(McG.)
 Orest W. Blaschuk; B.Sc.(Winn.), M.Sc.(Manit.), Ph.D.(Tor.) (*joint appoint. with Surgery*)

Eugene Daniels; M.Sc., Ph.D.(Manit.)
 Samuel David; Ph.D.(Manit.) (*joint appoint. with Neurology & Neurosurgery*)
 Elaine Davis; B.Sc., M.Sc.(W.Ont.), Ph.D.(McG.)
 Timothy Kennedy; B.Sc.(McM.), M.Phil, Ph.D.(Col.) (*joint appoint. with Neurology & Neurosurgery*)
 Michael F. Lalli; B.Sc., M.A.(Bowling Green), Ph.D.(McG.)
 Nathalie Lamarche-Vane; B.Sc., Ph.D.(Montr.)
 Peter McPherson; B.Sc.(Manit.), Ph.D.(Iowa) (*joint appoint. with Neurology & Neurosurgery*)
 John F. Presley; B.A., Ph.D.(Texas)
 Dieter Reinhardt; M.S.(Kaiserslautern), Ph.D.(Munich) (*joint appoint. with Dentistry*)
 Wayne Sossin; S.B.(MIT), Ph.D.(Stan.) (*joint appoint. with Neurology & Neurosurgery*)
 Hojatollah Vali; B.Sc., M.Sc., Ph.D.(Munich) (*joint appoint. with Earth and Planetary Sciences*)
 Dominique Walker; B.Sc., Ph.D.(Geneva) (*joint appoint. with Psychiatry*)

Assistant Professors

Fiona Bedford; B.Sc.(Birm.), Ph.D.(Lond.)
 Craig Mandato; B.Sc., Ph.D.(Wat.)
 Isabelle Rouiller; Ph.D.(UK)
 Gary E. Wild; B.Sc., Ph.D., M.D., C.M.(McG.) (*joint appoint. with Medicine*)

Associate Members

Albert Berghuis (*Biochemistry*)
 Colin Chalk (*Neurology & Neurosurgery*)
 Jean-François Cloutier (*Neurology & Neurosurgery*)
 Claudio Cuello (*Pharmacology & Therapeutics*)
 Giovanni DiBattista (*Medicine*)
 Alyson Fournier (*Neurology & Neurosurgery*)
 Janet Henderson (*Medicine*)
 Svetlana Komarova (*Dentistry*)
 Paul F. Lasko (*Biology*)
 Andrea Leblanc (*Neurology & Neurosurgery*)
 Peter Metrakos (*Department of Surgery*)
 Edward S. Ruthazer (*Neurology & Neurosurgery*)
 Philippe Seguela (*Neurology & Neurosurgery*)
 Peter Siegel (*Medicine & Biochemistry*)
 David Y. Thomas (*Biochemistry*)
 Jackie Vogel (*Biology*)
 Xiang-Jiao Yang (*Medicine*)

Adjunct Professors

Michel Cayouette; Ph.D. (Laval)
 Eric Chevet; M.Sc., Ph.D.(Paris)
 Mirosław Cygler; M.Sc., Ph.D.(Lodz, Poland)
 Daniel Cyr; B.Sc., M.Sc.(C'dia), Ph.D.(Manit.)
 Michel Desjardins; M.Sc., Ph.D.(Montr.)
 Jacques Drouin; B.Sc., D.Sc.(Laval)
 David Hipfner; B.Sc., Ph.D. (Qu.)
 Marko Horb; Ph.D.(SUNY)
 Sadayuki Inoue; M.Sc., Ph.D.(Hok. U.)
 Artur Kania; Ph.D.(Baylor)
 Bartha Knoppers; Ph.D.(France)
 Martin Latterich; B.Sc., Ph.D.(Durham)
 André Nantel; B.Sc., M.Sc.(Laval), Ph.D.(Chapel Hill)
 Maureen O'Conner-McCourt; Ph.D.(Alta.)
 Joachim Osterman; Ph.D.(U. Munchen, Germany)
 Alexei Pshezhetsky; Ph.D. (Russia)
 Joseph Schrag; M.Sc., Ph.D.(Ill.)
 Atilla Sik; M.Sc., Ph.D.(Hungary)
 Pierre Thibault; Ph.D.(Montr.)
 Jan Van Oostrum; M.A., M.Phil., Ph.D.(Columbia)

Faculty Lecturer:

Ayman Behiery; M.B., Ch.B(Cairo)

The Department of Anatomy and Cell Biology offers courses that deal with cell biology, histology, embryology, neuroanatomy, and gross anatomy. The Honours Program is designed as the first phase in the training of career cell and molecular biologists. The Major and Liberal programs offer decreasing levels of

specialization in Anatomy and Cell Biology but with a broader base in other biological sciences. These programs also form a sound background for graduate studies in Anatomy and Cell Biology, or for further professional training in schools of medicine, dentistry and other health sciences. A B.Sc. in Anatomy and Cell Biology provides an excellent preparation for technical and administrative positions in laboratories of universities, research institutions, hospitals and pharmaceutical and biotechnological industries.

The Department is equipped to perform cell fractionation, protein purification, recombinant DNA technology, micro-injection of molecules into single cells, cytochemical, immunocytochemical and fluorescent analysis and electron microscopy, proteomics and genomics. The Department has a well-equipped centre for electron microscopy as well as a centre for confocal and immunofluorescence.

Inquiries about programs should be directed to the Department of Anatomy and Cell Biology.

A Science Major Concentration in Biomedical Sciences is available to students pursuing the B.A. & Sc. degree. This Major Concentration is described in the Bachelor of Arts and Science section of the Calendar; see "**Biomedical Sciences**", in section 6.12.4 for details. **Note:** This program will be retired at the end of the 2008-09 academic year and no new students will be accepted as of June 2009.

LIBERAL PROGRAM: CORE SCIENCE COMPONENT IN ANATOMY AND CELL BIOLOGY (47-48 credits)

Required Courses (32 credits)

ANAT 212	(3)	Molecular Mechanisms of Cell Function
ANAT 214	(3)	Systemic Human Anatomy
ANAT 261	(4)	Introduction to Dynamic Histology
ANAT 262	(3)	Introductory Molecular and Cell Biology
BIOL 200	(3)	Molecular Biology
BIOL 202	(3)	Basic Genetics
CHEM 212*	(4)	Introductory Organic Chemistry 1
PHGY 209	(3)	Mammalian Physiology 1
PHGY 210	(3)	Mammalian Physiology 2
MATH 203*	(3)	Principles of Statistics 1
or PSYC 204(3)		Introduction to Psychological Statistics

* Students who have taken the equivalent of CHEM 212 in CEGEP (as defined at www.mcgill.ca/student-records/transferecredits) are exempt and must replace these credits with an elective course(s).

Complementary Courses (15-16 credits)

List A: 9 credits selected from:

ANAT 321	(3)	Circuitry of the Human Brain
ANAT 322	(3)	Neuroendocrinology
ANAT 365	(3)	Cellular Trafficking
ANAT 381	(3)	Basis of Embryology
NEUR 310	(3)	Cellular Neurobiology

List B: 6-7 credits selected from:

ANAT 321	(3)	Circuitry of the Human Brain
ANAT 322	(3)	Neuroendocrinology
ANAT 365	(3)	Cellular Trafficking
ANAT 381	(3)	Basis of Embryology
BIOL 300	(3)	Molecular Biology of the Gene
BIOL 301	(4)	Cell and Molecular Laboratory
BIOL 303	(3)	Developmental Biology
BIOL 306	(3)	Neurobiology
BIOL 314	(3)	Molecular Biology of Oncogenes
EXMD 504	(3)	Biology of Cancer
MIMM 314	(3)	Immunology
NEUR 310	(3)	Cellular Neurobiology
PATH 300	(3)	Human Disease
PHAR 300	(3)	Drug Action
PHAR 301	(3)	Drugs and Disease

MAJOR IN ANATOMY AND CELL BIOLOGY

(67 credits)

Required Courses (43 credits)

ANAT 212	(3)	Molecular Mechanisms of Cell Function
ANAT 214	(3)	Systemic Human Anatomy
ANAT 261	(4)	Introduction to Dynamic Histology (must be taken in U1)
ANAT 262	(3)	Introductory Molecular and Cell Biology
BIOL 200	(3)	Molecular Biology
BIOL 202	(3)	Basic Genetics
CHEM 212*	(4)	Introductory Organic Chemistry 1
CHEM 222*	(4)	Introductory Organic Chemistry 2
PHGY 209	(3)	Mammalian Physiology 1
PHGY 210	(3)	Mammalian Physiology 2
MATH 203*	(3)	Principles of Statistics 1
or PSYC 204(3)		Introduction to Psychological Statistics
or BIOL 373	(3)	Biometry
BIOL 301	(4)	Cell and Molecular Laboratory
MIMM 314	(3)	Immunology

* If the equivalents to these courses were passed in CEGEP (as defined at www.mcgill.ca/student-records/transferecredits) they are not required for the Anatomy and Cell Biology programs, and may not be re-taken at McGill. Students must take the equivalent number of credits in Elective Courses to satisfy the total credit requirement for their degree.

Complementary Courses (24 credits)

12 credits selected from:

ANAT 321	(3)	Circuitry of the Human Brain
ANAT 322	(3)	Neuroendocrinology
ANAT 365	(3)	Cellular Trafficking
ANAT 381	(3)	Basis of Embryology
ANAT 458	(3)	Membranes and Cellular Signaling
ANAT 541	(3)	Cell and Molecular Biology of Aging
NEUR 310	(3)	Cellular Neurobiology

12 credits of biologically oriented courses (BOC), among the courses listed below:

ANAT 322, ANAT 365, ANAT 381, ANAT 432, ANAT 458/BIOC 458, ANAT 541.
BIOC 311, BIOC 312, BIOC 450, BIOC 454, BIOC 455, BIOC 503.
BIOL 300, BIOL 301, BIOL 303, BIOL 306, BIOL 313, BIOL 314, BIOL 357, BIOL 370, BIOL 389, BIOL 468, BIOL 475, BIOL 516, BIOL 518, BIOL 520, BIOL 522, BIOL 524, BIOL 530, BIOL 531, BIOL 532, BIOL 544, BIOL 551, BIOL 572, BIOL 588.
BIOT 505.
EXMD 401, EXMD 502, EXMD 503, EXMD 504, EXMD 506, EXMD 507, EXMD 508, EXMD 509, EXMD 510, EXMD 512D1/ EXMD 512D2.
MIMM 314, MIMM 323, MIMM 324, MIMM 386D1/MIMM 386D2, MIMM 387, MIMM 413, MIMM 414, MIMM 465, MIMM 466, MIMM 509.
NUTR 307.
PATH 300.
PHAR 300, PHAR 301, PHAR 303, PHAR 562, PHAR 563. PHGY 311, PHGY 312, PHGY 313, PHGY 314, PHGY 451, PHGY 502, PHGY 508, PHGY 513, PHGY 515, PHGY 516, PHGY 517, PHGY 518, PHGY 552, PHGY 556.
PSYT 500.

HONOURS IN ANATOMY AND CELL BIOLOGY (73 credits)

Students should register at the Major level in U1 and, if accepted, may enter the Honours Program at the beginning of U2. To enter the program, the student must obtain a CGPA of at least 3.00 at the end of U1. For promotion to the U3 year of the Honours program, or for entry into the program at this level, the student must have a CGPA of at least 3.20 at the end of their U2 year. It is expected that at the beginning of the third year the students who wish to continue in the Honours Program will be those who feel that they are seriously interested in a career in Cell Biology. The

Honours Degree will be recommended after successful completion of the Program with a CGPA of at least 3.20.

Required Courses (52 credits)

all Major Program required courses, plus:
ANAT 432 (9) Honours Research Project

Complementary Courses (21 credits)

18 credits from:

ANAT 321 (3) Circuitry of the Human Brain
ANAT 322 (3) Neuroendocrinology
ANAT 365 (3) Cellular Trafficking
ANAT 381 (3) Basis of Embryology
ANAT 458 (3) Membranes and Cellular Signaling
ANAT 541 (3) Cell and Molecular Biology of Aging
NEUR 310 (3) Cellular Neurobiology

3 credits of biologically oriented courses (BOC), as defined in the Major Program.

12.13.3 Atmospheric and Oceanic Sciences (ATOC)

Chair — John R. Gyakum

Emeritus Professors

Roddy R. Rogers; B.S.(Texas), S.M.(MIT), Ph.D.(NYU)
Edward J. Stansbury; M.A., Ph.D.(Tor.)

Professors

Jacques F. Derome; M.Sc.(McG.), Ph.D.(Mich.), F.R.S.C.
John R. Gyakum; B.Sc.(Penn.), M.Sc., Ph.D.(MIT)
Henry G. Leighton; M.Sc.(McG.), Ph.D.(Alta.)
Charles A. Lin; B.Sc.(Br. Col.), Ph.D.(MIT)
Lawrence A. Mysak; B.Sc.(Alta.), M.Sc.(Adel.), A.M.,
Ph.D.(Harv.), F.R.S.C. (*Canada Steamship Lines Professor of Meteorology*)
Ronald E. Stewart; B.Sc.(Manit.), M.Sc., Ph.D.(Tor.)
Man Kong (Peter) Yau; S.B., S.M., Sc.D.(MIT)
Isztar I. Zawadzki; B.Sc.(Buenos Aires), M.Sc., Ph.D.(McG.),
F.R.S.C.

Associate Professors

Parisa Ariya; B.Sc., Ph.D. (York) (*William Dawson Scholar*) (*joint appoint. with Chemistry*)
Peter Bartello; M.Sc., Ph.D.(McG.) (*joint appoint. with Mathematics and Statistics*)
Frédéric Fabry; B.Sc., M.Sc., Ph.D.(McG.) (*joint appoint. with McGill School of Environment*)
David Straub; B.S., M.S.(SW Louisiana), Ph.D.(Wash.)

Assistant Professors

Michel Bourqui; B.Sc., M.Sc.(EPFL, Switzerland), Ph.D.(ETHZ, Switzerland) (*joint appoint. with Chemistry*)
Pavlos Kollias; B.Sc., M.Sc.(Athens), Ph.D.(Miami) (*Canada Research Chair*)
Bruno Tremblay; B.Sc.(McG.), M.Sc.(Carl.), Ph.D.(McG.)

Adjunct Professors

Gilbert Brunet, Pierre Gauthier, Hai Lin, Ayrton Zadra

The Department of Atmospheric and Oceanic Sciences offers, at the undergraduate level, a broad range of courses and degree programs in atmospheric science. At the postgraduate level, programs of study are offered in physical oceanography, air-sea interaction, and climate research as well as in different branches of atmospheric science. The study of atmospheric science is based largely on physics and applied mathematics. All required courses except those at the introductory level generally have prerequisites

or corequisites in physics, mathematics, and atmospheric science. One of the goals of the discipline is to develop the understanding necessary to improve our ability to predict the weather, but atmospheric science is more than weather forecasting.

Another important area of study focuses on the possible changes in global climate caused by the changing chemical composition of the atmosphere. The approach is always quantitative. Like other parts of physics, atmospheric science attempts to create theoretical models of its complex processes, as a means of analyzing the motion and composition of the air, its thermodynamic behaviour, and its interaction with radiation and with the solid or liquid surface beneath it.

From one viewpoint, the atmosphere may be studied as a large volume of gas by the methods of fluid mechanics: winds, circulation patterns, turbulence, and energy and momentum exchanges are the ideas employed in this approach. Alternatively, the atmosphere may be studied from the point of view of its detailed physics: how water condenses in the air, how cloud droplets make rain, how sunlight warms the ground and the ground warms the air above it by radiation and convection, and how the atmosphere and ocean interact to shape the weather and climate. A comprehensive understanding requires both viewpoints, and these are reflected in the curriculum.

The Department of Atmospheric and Oceanic Sciences offers four main programs in Atmospheric Science: Honours, Major, Minor, and a Joint Major in Atmospheric Science and Physics. The Honours program is meant for students with high standing. It is based on courses similar to those in the Major program, but provides the opportunity to take advanced optional courses. The Major program, although somewhat less intensive, satisfies the requirements for a professional career as a meteorologist, and like the Honours program equips the student to undertake postgraduate study in meteorology, atmospheric science, and related sciences (physical oceanography) at any of the leading universities. The Department also offers a special one-year Diploma program to B.Sc. or B.Eng. graduates.

A degree in Atmospheric Science can lead to a professional career in government service or private industry. The Meteorological Service of Canada has traditionally been the main employer of graduating students, but certain provincial governments and environmental consulting and engineering firms also employ graduates trained in atmospheric science. Positions in teaching and research are available to graduates with M.Sc. and Ph.D. degrees. Students interested in any of the undergraduate programs should consult the Undergraduate Adviser, Room 946, Burnside Hall.

Internship Year in Science (IYS)

IYS is a pre-graduate work experience program available to eligible students and normally taken between their U2 and U3 years. For more information, see "[Industrial Practicum \(IP\) and Internship Year in Science \(IYS\)](#)", in [section 12.12.4](#).

The following programs are also available with an internship component:

Major in Atmospheric Science
Honours in Atmospheric Science

A Science Major Concentration in Earth, Atmosphere and Ocean Sciences is available to students pursuing the B.A. & Sc. degree. This Major Concentration is described in the Bachelor of Arts and Science section of the Calendar; see "[Earth, Atmosphere and Ocean Sciences](#)", in [section 6.12.8](#) for details.

MINOR IN ATMOSPHERIC SCIENCE (18 credits)

The Minor may be taken in conjunction with any program in the Faculty of Science.

Required Courses (15 credits)

ATOC 214 (3) Introduction: Physics of the Atmosphere
ATOC 215 (3) Oceans, Weather and Climate
ATOC 219 (3) Introduction to Atmospheric Chemistry
or CHEM 219 (3) Introduction to Atmospheric Chemistry
ATOC 309 (3) Weather Radars and Satellites
ATOC 315 (3) Water in the Atmosphere

Complementary Course (3 credits)

- ATOC 412 (3) Atmospheric Dynamics
or ATOC 540 (3) Synoptic Meteorology 1

LIBERAL PROGRAM: CORE SCIENCE COMPONENT IN ATMOSPHERIC AND OCEANIC SCIENCES (46 credits)**Required Courses** (37 credits)

- ATOC 214 (3) Introduction: Physics of the Atmosphere
ATOC 215 (3) Oceans, Weather and Climate
ATOC 309 (3) Weather Radars and Satellites
ATOC 315 (3) Water in the Atmosphere
ATOC 412 (3) Atmospheric Dynamics
ATOC 540 (3) Synoptic Meteorology 1
ATOC 546 (1) Current Weather Discussion
MATH 222 (3) Calculus 3
MATH 223 (3) Linear Algebra
MATH 314 (3) Advanced Calculus
MATH 315 (3) Ordinary Differential Equations
PHYS 230 (3) Dynamics of Simple Systems
PHYS 232 (3) Heat and Waves

Complementary Courses (9 credits)

- ATOC 419 (3) Advances in Chemistry of Atmosphere
or CHEM 419 (3) Advances in Chemistry of Atmosphere
ATOC 530 (3) Climate Dynamics 1
ATOC 531 (3) Climate Dynamics 2
ATOC 541 (3) Synoptic Meteorology 2
COMP 208 (3) Computers in Engineering
MATH 203 (3) Principles of Statistics 1
MATH 319 (3) Introduction to Partial Differential Equations
PHYS 257 (3) Experimental Methods 1
PHYS 333 (3) Thermal and Statistical Physics
PHYS 340 (3) Majors Electricity and Magnetism

MAJOR IN ATMOSPHERIC SCIENCE (61 credits)**Required Courses** (46 credits)

- ATOC 214 (3) Introduction: Physics of the Atmosphere
ATOC 215 (3) Oceans, Weather and Climate
ATOC 309 (3) Weather Radars and Satellites
ATOC 315 (3) Water in the Atmosphere
ATOC 412 (3) Atmospheric Dynamics
ATOC 540 (3) Synoptic Meteorology 1
ATOC 541 (3) Synoptic Meteorology 2
ATOC 546 (1) Current Weather Discussion
COMP 208 (3) Computers in Engineering
MATH 222 (3) Calculus 3
MATH 223 (3) Linear Algebra
MATH 314 (3) Advanced Calculus
MATH 315 (3) Ordinary Differential Equations
PHYS 230 (3) Dynamics of Simple Systems
PHYS 232 (3) Heat and Waves
PHYS 257 (3) Experimental Methods 1

Complementary Courses (15 credits)

3-6 credits to satisfy a statistics requirement, usually:

- MATH 203 (3) Principles of Statistics 1
or MATH 323 (3) Probability
and MATH 324 (3) Statistics

3 credits selected from:

- PHYS 333 (3) Thermal and Statistical Physics
PHYS 340 (3) Majors Electricity and Magnetism

6-9 credits ordinarily selected from:

- ATOC 419 (3) Advances in Chemistry of Atmosphere
or CHEM 419 (3) Advances in Chemistry of Atmosphere
ATOC 515 (3) Turbulence in Atmosphere and Oceans
GEOG 322 (3) Environmental Hydrology
GEOG 372 (3) Running Water Environments
MATH 317 (3) Numerical Analysis
MATH 319 (3) Introduction to Partial Differential Equations

- MATH 423 (3) Regression and Analysis of Variance
PHYS 241 (3) Signal Processing
PHYS 331 (3) Topics in Classical Mechanics
PHYS 332 (3) Physics of Fluids
or MATH 555 (4) Fluid Dynamics
PHYS 340 (3) Majors Electricity and Magnetism
PHYS 342 (3) Majors Electromagnetic Waves

MAJOR PROGRAM IN ATMOSPHERIC SCIENCE: ATMOSPHERIC CHEMISTRY OPTION (61 credits)**Required Courses** (55 credits)

- ATOC 214 (3) Introduction: Physics of the Atmosphere
ATOC 215 (3) Oceans, Weather and Climate
ATOC 309 (3) Weather Radars and Satellites
ATOC 315 (3) Water in the Atmosphere
ATOC 412 (3) Atmospheric Dynamics
ATOC 419 (3) Advances in Chemistry of Atmosphere
or CHEM 419 (3) Advances in Chemistry of Atmosphere
ATOC 540 (3) Synoptic Meteorology 1
ATOC 541 (3) Synoptic Meteorology 2
ATOC 546 (1) Current Weather Discussion
CHEM 223 (2) Introductory Physical Chemistry 1
CHEM 243 (2) Introductory Physical Chemistry 2
CHEM 253*** (1) Introductory Physical Chemistry 1 Laboratory
CHEM 263*** (1) Introductory Physical Chemistry 2 Laboratory
COMP 208 (3) Computers in Engineering
MATH 222 (3) Calculus 3
MATH 223 (3) Linear Algebra
MATH 314 (3) Advanced Calculus
MATH 315 (3) Ordinary Differential Equations
PHYS 230 (3) Dynamics of Simple Systems
PHYS 232 (3) Heat and Waves
PHYS 257 (3) Experimental Methods 1

***Not offered in 2007-2008. Students entering in September 2007 will take CHEM 363 in U2 or U3 instead.

Complementary Courses (6 credits)

3 credits to satisfy a statistics requirement, usually:

- MATH 203 (3) Principles of Statistics 1
or MATH 324 (3) Statistics

3 credits selected from:

- ATOC 515 (3) Turbulence in Atmosphere and Oceans
CHEM 307 (3) Analytical Chemistry of Pollutants
CHEM 367 (3) Instrumental Analysis 1
CHEM 575 (3) Chemical Kinetics
EPSC 542 (3) Chemical Oceanography
MATH 317 (3) Numerical Analysis
MATH 319 (3) Introduction to Partial Differential Equations
MATH 423 (3) Regression and Analysis of Variance
PHYS 241 (3) Signal Processing
PHYS 331 (3) Topics in Classical Mechanics
PHYS 333 (3) Thermal and Statistical Physics
PHYS 340 (3) Majors Electricity and Magnetism
PHYS 342 (3) Majors Electromagnetic Waves

JOINT MAJOR IN ATMOSPHERIC SCIENCE AND PHYSICS (67 credits)

This Major provides a solid basis for postgraduate study in meteorology, atmospheric physics, or related fields, and the necessary preparation for embarking on a professional career as a meteorologist directly after the B.Sc.

The program is jointly administered by the Department of Physics and the Department of Atmospheric and Oceanic Sciences. Students should consult undergraduate advisers in both departments.

Required Courses (64 credits)

- ATOC 214 (3) Introduction: Physics of the Atmosphere
ATOC 215 (3) Oceans, Weather and Climate
ATOC 309 (3) Weather Radars and Satellites

- ATOC 315 (3) Water in the Atmosphere
- ATOC 412 (3) Atmospheric Dynamics
- ATOC 540 (3) Synoptic Meteorology 1
- ATOC 541 (3) Synoptic Meteorology 2
- ATOC 546 (1) Current Weather Discussion
- MATH 222 (3) Calculus 3
- MATH 223 (3) Linear Algebra
- MATH 314 (3) Advanced Calculus
- MATH 315 (3) Ordinary Differential Equations
- PHYS 230 (3) Dynamics of Simple Systems
- PHYS 232 (3) Heat and Waves
- PHYS 257 (3) Experimental Methods 1
- PHYS 258 (3) Experimental Methods 2
- PHYS 331 (3) Topics in Classical Mechanics
- PHYS 333 (3) Thermal and Statistical Physics
- PHYS 339 (3) Measurements Laboratory in General Physics
- PHYS 340 (3) Majors Electricity and Magnetism
- PHYS 342 (3) Majors Electromagnetic Waves
- PHYS 446 (3) Majors Quantum Physics

Complementary Course (3 credits)

- PHYS 434 (3) Optics
- or PHYS 439(3) Majors Laboratory in Modern Physics

HONOURS IN ATMOSPHERIC SCIENCE (70 credits)

Students can be admitted to the Honours program after completion of the U1 year of the Major in Atmospheric Science program with a minimum GPA of 3.30. Students having completed a U1 year in a different program with high standing may be admitted to the Honours program on the recommendation of the Department.

A minimum GPA of 3.30 in the Honours Program courses (taken as a whole) is required to remain in the program. A CGPA of 3.30 on the total program is also required to graduate with honours.

Required Courses (52 credits)

- ATOC 214 (3) Introduction: Physics of the Atmosphere
- ATOC 215 (3) Oceans, Weather and Climate
- ATOC 309 (3) Weather Radars and Satellites
- ATOC 315 (3) Water in the Atmosphere
- ATOC 480 (3) Honours Research Project
- ATOC 512 (3) Atmospheric and Oceanic Dynamics
- ATOC 530 (3) Climate Dynamics 1
- ATOC 540 (3) Synoptic Meteorology 1
- ATOC 546 (1) Current Weather Discussion
- COMP 208 (3) Computers in Engineering
- MATH 222 (3) Calculus 3
- MATH 223 (3) Linear Algebra
- MATH 314 (3) Advanced Calculus
- MATH 315 (3) Ordinary Differential Equations
- MATH 319 (3) Introduction to Partial Differential Equations
- PHYS 230 (3) Dynamics of Simple Systems
- PHYS 232 (3) Heat and Waves
- PHYS 257 (3) Experimental Methods 1

Complementary Courses (18 credits)

3-6 credits to satisfy a statistics requirement, usually:

- MATH 203 (3) Principles of Statistics 1
- or MATH 323 (3) Probability
- and MATH 324 (3) Statistics

3 credits selected from:

- PHYS 333 (3) Thermal and Statistical Physics
- PHYS 340 (3) Majors Electricity and Magnetism

3-6 credits ordinarily selected from:

- ATOC 419 (3) Advances in Chemistry of Atmosphere
- or CHEM 419
- ATOC 515 (3) Turbulence in Atmosphere and Oceans
- MATH 317 (3) Numerical Analysis
- PHYS 241 (3) Signal Processing
- PHYS 331 (3) Topics in Classical Mechanics
- PHYS 332 (3) Physics of Fluids

- or MATH 555 (4) Fluid Dynamics
- PHYS 340 (3) Majors Electricity and Magnetism
- PHYS 342 (3) Majors Electromagnetic Waves
- GEOG 322 (3) Environmental Hydrology
- GEOG 372 (3) Running Water Environments
- MATH 423 (3) Regression and Analysis of Variance

6 credits selected from:

- ATOC 513 (3) Waves and Stability
- ATOC 531 (3) Climate Dynamics 2
- ATOC 541 (3) Synoptic Meteorology 2

**HONOURS PROGRAM IN ATMOSPHERIC SCIENCE:
ATMOSPHERIC CHEMISTRY OPTION** (70 credits)

Required Courses (61 credits)

- ATOC 214 (3) Introduction: Physics of the Atmosphere
- ATOC 215 (3) Oceans, Weather and Climate
- ATOC 309 (3) Weather Radars and Satellites
- ATOC 315 (3) Water in the Atmosphere

- CHEM 367 (3) Instrumental Analysis 1
- CHEM 575 (3) Chemical Kinetics
- EPSC 542 (3) Chemical Oceanography
- MATH 317 (3) Numerical Analysis
- MATH 423 (3) Regression and Analysis of Variance
- PHYS 241 (3) Signal Processing
- PHYS 331 (3) Topics in Classical Mechanics
- PHYS 333 (3) Thermal and Statistical Physics
- PHYS 340 (3) Majors Electricity and Magnetism
- PHYS 342 (3) Majors Electromagnetic Waves

3 credits selected from:

- ATOC 513 (3) Waves and Stability
- ATOC 531 (3) Climate Dynamics 2
- ATOC 541 (3) Synoptic Meteorology 2

DIPLOMA IN METEOROLOGY (30 credits)

The Department offers an intensive, one-year program in theoretical and applied meteorology to B.Sc. or B.Eng. graduates of suitable standing in physics, applied mathematics or other appropriate disciplines, leading to a Diploma in Meteorology. The program is

designed for students with little or no previous background in meteorology who wish to direct their experience to atmospheric or environmental applications, or who need to fulfill academic prerequisites in meteorology to qualify for employment. For further information, consult the Administrative Officer, Burnside Hall, Room 946.

An exemption of up to 6 credits may be allowed for courses already taken. Students granted such exemptions are required to add complementary courses from an approved list to maintain a total credit count of 30 completed at McGill.

Required Courses (18 credits)

ATOC 512	(3)	Atmospheric & Oceanic Dynamics
ATOC 513	(3)	Waves and Stability
ATOC 530	(3)	Climate Dynamics 1
ATOC 531	(3)	Climate Dynamics 2
ATOC 540	(3)	Synoptic Meteorology 1
ATOC 541	(3)	Synoptic Meteorology 2

Complementary Courses (12 credits)

6 credits selected from:

ATOC 309	(3)	Weather Radars and Satellites
ATOC 315	(3)	Water in the Atmosphere
ATOC 419	(3)	Advances in Chemistry of Atmosphere or CHEM 419

6 credits ordinarily selected from:

ATOC 515	(3)	Turbulence in Atmosphere and Oceans
GEOG 522	(3)	Advanced Environmental Hydrology
MATH 317	(3)	Numerical Analysis
MATH 319	(3)	Introduction to Partial Differential Equations
PHYS 331	(3)	Topics in Classical Mechanics
PHYS 340	(3)	Majors Electricity and Magnetism
PHYS 342	(3)	Majors Electromagnetic Waves
PHYS 332	(3)	Physics of Fluids
or MATH 555	(4)	Fluid Dynamics

EARTH SYSTEM SCIENCE INTERDEPARTMENTAL MAJOR

This program is offered by the Departments of Atmospheric & Oceanic Sciences, Earth & Planetary Sciences and Geography.

Students in the Department of Atmospheric & Oceanic Sciences interested in this program should contact Professor Bruno Tremblay (bruno.tremblay@mcgill.ca). For more information, see section 12.13.11 "Earth System Science Interdepartmental Major (ESYS)".

O'Connor-McCourt (*B.R.I.*); Enrico Purisima (*B.R.I.*); Martine Raymond (*I.R.I.C. Montr.*); Sophie Roy (*Merck*); Alex Therien (*Merck*)

Biochemistry is the application of chemical, genetic, and biophysical approaches to the study of biological processes at the cellular and molecular level. Biochemists are interested in the dynamic events that occur in cells, for example, in mechanisms of brain function; cellular differentiation; energy utilization by animals and microorganisms and in the molecular basis of inheritance and disease. The biochemist seeks to determine how specific molecules such as proteins, nucleic acids, lipids, vitamins and hormones function in various cellular processes. Biochemists place particular emphasis on the regulation of reactions in living cells. The knowledge and methods developed by biochemists are applied in all fields of medicine, in agriculture and in many chemical and

health-related industries. Biochemistry is unique in providing basic theoretical training as well as basic practical laboratory training and research in both enzymology and genetic engineering, the two basic components in the rapidly expanding field of Biotechnology.

Three programs are offered by the Department of Biochemistry. The Honours and Major programs provide a sound background for students who wish to have a professional career in biochemistry and can lead to postgraduate studies and research careers in hospital, university or industrial laboratories. The Liberal program is less specialized, offering students opportunities to select courses in other fields of interest.

During the first year, each program provides basic training in organic, physical and analytical chemistry as well as in biology and physiology. The Honours and Major programs become more specialized in biochemistry during the following two years with additional work in chemistry and biology.

Students interested in pursuing an *ad hoc* Joint Major or Joint Honours degree between Biochemistry and a second discipline may consult with our Chief Adviser.

The increasing involvement of complex technology in modern society requires personnel trained in both chemistry and biology. With the advent of biotechnology, the combination of chemistry, molecular biology, enzymology and genetic engineering found in the biochemistry program provides the essential background and training in this area as well. The biochemist is in an advantageous position to fulfill this role and assume a wide variety of positions in industry and the health field. These include: research and development in the chemical and pharmaceutical industries; testing as well as research in government and hospital laboratories; management. Many graduates pursue higher degrees in research and attain academic positions in universities and colleges.

PRE-PROGRAM REQUIREMENTS

Entrance requirements for the Liberal, Major and Honours programs are: 3 credits in elementary biology, 6 credits in general chemistry, 3 credits in organic chemistry, 6 credits in calculus, 8 credits in physics.

Please note that although CHEM 212 is not part of the programs, it is required as a prerequisite for CHEM 222 and either CHEM 212 or CEGEP competency 00XV is required as a corequisite for BIOL 200.

ADVISER

New students interested in Biochemistry should call (514) 398-1898 for information regarding academic advising.

Returning Students must schedule an advising appointment directly with the academic adviser assigned to them in their first year in Biochemistry.

A Science Major Concentration in Biomedical Sciences is available to students pursuing the B.A. & Sc. degree. This Major Concentration is described in the Bachelor of Arts and Science section of the Calendar; see "[Biomedical Sciences](#)", in [section 6.12.4](#) for details. **Note:** This program will be retired at the end of the 2008-09 academic year and no new students will be accepted as of June 2009.

LIBERAL PROGRAM: CORE SCIENCE COMPONENT IN BIOCHEMISTRY (47 credits)

U1 Year (26 credits)

U1 Required Courses (20 credits)

BIOC 212	(3)	Molecular Mechanisms of Cell Function
BIOL 200	(3)	Molecular Biology
BIOL 202	(3)	Basic Genetics
CHEM 204	(3)	Physical Chemistry/Biological Sciences 1
CHEM 212*	(4)	Introductory Organic Chemistry 1
CHEM 222*	(4)	Introductory Organic Chemistry 2

*Students with CEGEP-level credit for CHEM 212 and/or CHEM 222 should replace these courses with elective courses.

U1 Complementary Courses** (6 credits)

6 credits selected from:

BIOL 205	(3)	Biology of Organisms
MIMM 211	(3)	Introductory Microbiology
PHGY 209	(3)	Mammalian Physiology 1
PHGY 210	(3)	Mammalian Physiology 2

U2 Year (18 credits)

U2 Required Courses (15 credits)

BIOC 300D1	(3)	Laboratory in Biochemistry
BIOC 300D2	(3)	Laboratory in Biochemistry
BIOC 311	(3)	Metabolic Biochemistry
BIOC 312	(3)	Biochemistry of Macromolecules
CHEM 302	(3)	Introductory Organic Chemistry 3

U2 Complementary Courses** (3 credits)

3 credits selected from:

BIOL 373	(3)	Biometry
COMP 202	(3)	Introduction to Computing 1
MATH 203	(3)	Principles of Statistics 1
MATH 222	(3)	Calculus 3
PSYC 204	(3)	Introduction to Psychological Statistics

**Complementary courses listed for U1 and U2 may be taken in later years if necessary to accommodate courses that must be taken in U1 or U2 as part of the breadth component of the program.

U3 Year (3 credits)

U3 Complementary Courses (3 credits)

3 credits selected from:

BIOC 450	(3)	Protein Structure and Function
BIOC 454	(3)	Nucleic Acids

MAJOR IN BIOCHEMISTRY (66 or 69 credits)

Students may transfer into the Major program at any time provided they have met all course requirements.

U1 Required Courses (19 credits)

BIOC 212	(3)	Molecular Mechanisms of Cell Function
BIOL 200	(3)	Molecular Biology
BIOL 202	(3)	Basic Genetics
CHEM 204	(3)	Physical Chemistry/Biological Sciences 1
CHEM 222	(4)	Introductory Organic Chemistry 2
CHEM 287	(2)	Introductory Analytical Chemistry
CHEM 297	(1)	Introductory Analytical Chemistry Laboratory

U1 Complementary Courses (9 credits)

6 credits, selected from:

BIOL 205	(3)	Biology of Organisms
MIMM 211	(3)	Introductory Microbiology
PHGY 209	(3)	Mammalian Physiology 1
PHGY 210	(3)	Mammalian Physiology 2

3 credits selected from:

BIOL 309	(3)	Mathematical Models in Biology
BIOL 373	(3)	Biometry
COMP 202	(3)	Introduction to Computing 1
MATH 203	(3)	Principles of Statistics 1
MATH 222	(3)	Calculus 3
PSYC 204	(3)	Introduction to Psychological Statistics

U2 Required Courses (23 credits)

all Faculty Program U2 Required Courses, plus:

ANAT 262	(3)	Introductory Molecular and Cell Biology
CHEM 214	(3)	Physical Chemistry/Biological Sciences 2
CHEM 362	(2)	Advanced Organic Chemistry Laboratory

U2 Complementary Courses (3 credits)

3 credits selected from:

BIOL 303	(3)	Developmental Biology
BIOL 313	(3)	Eukaryotic Cell Biology
CHEM 352	(3)	Structural Organic Chemistry

CHEM 382 (3) Organic Chemistry: Natural Products
MIMM 314 (3) Immunology

U3 Required Courses (6 credits)

BIOC 450 (3) Protein Structure and Function
BIOC 454 (3) Nucleic Acids

U3 Complementary Courses (6 or 9* credits)

at least 3 credits selected from:

BIOC 404 (3) Biophysical Chemistry
BIOC 455 (3) Neurochemistry
BIOC 458 (3) Membranes and Cellular Signalling
BIOC 460* (6) Advanced Lab in Biochemistry
BIOC 503 (3) Immunochemistry

the remainder, if any, to be selected from the following list:

BIOL 300 (3) Molecular Biology of the Gene
BIOL 303 (3) Developmental Biology
BIOL 304 (3) Evolution
BIOL 313 (3) Eukaryotic Cell Biology
BIOL 314 (3) Molecular Biology of Oncogenes
CHEM 352 (3) Structural Organic Chemistry
CHEM 382 (3) Organic Chemistry: Natural Products
CHEM 502 (3) Advanced Bio-organic Chemistry
CHEM 552 (3) Physical Organic Chemistry
CHEM 572 (3) Synthetic Organic Chemistry
EXMD 502 (3) Advanced Endocrinology 01
EXMD 503 (3) Advanced Endocrinology 02
MIMM 314 (3) Immunology
MIMM 324 (3) Fundamental Virology
PHAR 300 (3) Drug Action
PHAR 301 (3) Drugs and Disease
PHGY 311 (3) Channels, Synapses & Hormones
PHGY 312 (3) Respiratory, Renal, & Cardiovascular Physiology

* Students who are given special permission to take BIOC 460 are required to complete 9 credits of complementary courses in U3.

HONOURS IN BIOCHEMISTRY (75 credits)

Admission to the Honours program will not be granted until U2. Students who wish to enter the Honours program in U2 should follow the U1 Major program. Those who satisfactorily complete the U1 Major program with a GPA of at least 3.20 and a mark of B- or better in every required course are eligible for admission to the Honours program.

Students seeking admission to the Honours program must obtain permission from the Student Affairs Officer during the Add/Drop period in September of their second year.

Promotion to U3 year is based on satisfactory completion of U2 courses with a GPA of at least 3.20 and a B in every required course. In borderline cases, the marks received in BIOC 311 and BIOC 312 will be of particular importance for continuation in the U3 Honours year.

For graduation in the Honours program, students must complete a minimum of 90 credits, pass all required courses with no grade less than B, and achieve a CGPA of at least 3.20.

U1 Required Courses (19 credits)

as for the Major Program U1

U1 Complementary Courses (9 credits)

as for the Major Program U1

U2 Required Courses (23 credits)

as for the Major Program U2

U2 Complementary Courses (3 credits)

as for the Major Program U2

U3 Required Courses (15 credits)

BIOC 404 (3) Biophysical Chemistry
BIOC 450 (3) Protein Structure and Function
BIOC 454 (3) Nucleic Acids
BIOC 460 (6) Advanced Lab in Biochemistry

U3 Complementary Courses (6 credits)

at least 3 credits selected from:

BIOC 455 (3) Neurochemistry
BIOC 458 (3) Membranes and Cellular Signalling
BIOC 491 (6) Independent Research
BIOC 503 (3) Immunochemistry

the remainder, if any, to be selected from the following list:

BIOL 300 (3) Molecular Biology of the Gene
BIOL 303 (3) Developmental Biology
BIOL 304 (3) Evolution
BIOL 313 (3) Eukaryotic Cell Biology
BIOL 314 (3) Molecular Biology of Oncogenes
CHEM 352 (3) Structural Organic Chemistry
CHEM 382 (3) Organic Chemistry: Natural Products
CHEM 502 (3) Advanced Bio-organic Chemistry
CHEM 552 (3) Physical Organic Chemistry
CHEM 572 (3) Synthetic Organic Chemistry
EXMD 502 (3) Advanced Endocrinology 01
EXMD 503 (3) Advanced Endocrinology 02
MIMM 314 (3) Immunology
MIMM 324 (3) Fundamental Virology
PHAR 300 (3) Drug Action
PHAR 301 (3) Drugs and Disease
PHGY 311 (3) Channels, Synapses & Hormones
PHGY 312 (3) Respiratory, Renal, & Cardiovascular Physiology

"INTERDEPARTMENTAL HONOURS IN IMMUNOLOGY" (see section 12.13.17 "Immunology Interdepartmental Honours"); This program is offered by the Departments of Biochemistry, Microbiology and Immunology, and Physiology.

NRC Lab: Malcolm S. Whiteway
 STRI: Eldredge Bermingham, Rachel Collin, Edward Allen Herre, Haris Lessios, Mark Torchin
 U. of Montreal: Pierre Drapeau

Biology is the study of living things at the molecular, cellular and organismal levels. It deals with fundamental questions such as the origin and evolution of plants and animals, interactions between living organisms and their environment, mechanisms of embryonic development, structure and function of the living cell and its organelles, molecular basis of inheritance, biochemical and genetic basis of human diseases, and the operation of the brain and the nervous system. The study of biology also has vast practical applications. The knowledge, methods and concepts developed through research in the various fields of biology are applied extensively in agriculture, medicine, biotechnology, genetic engineering, environmental protection and wildlife management.

The Department of Biology offers a Liberal Program, a Major Program, an Honours Program, a Minor Program and a Minor Concentration in Science for Arts students. The details of these programs are given below.

The prerequisites for Biology programs include, in addition to the minimum requirements for admission to the Faculty of Science, an additional Biology, two courses in Physics, and one course in Organic Chemistry. Students who have a DEC in Science but lack these courses must take them as extra requirements. It is advisable to take the additional CEGEP Biology and the two physics courses in advance, if possible, to properly prepare for the Biology program at McGill.

The programs in Biology offer students an opportunity to specialize in more than one area of biology and provide them with a broad training in biology as compared to the more specialized programs in Biochemistry, Microbiology, Physiology and Anatomy. A B.Sc. degree in Biology, therefore, prepares students for a wide range of employment opportunities, including entry to professional schools in medicine, veterinary science, dentistry, agriculture, nursing, education and library science. It also provides solid background for those interested in careers related to environmental protection, wildlife management, biotechnology and genetic engineering. A B.Sc. degree in Biology can also lead to postgraduate studies and research careers in universities, research institutes, hospitals, and industrial or governmental laboratories.

The Department of Biology has well-equipped teaching and research laboratories and its academic staff members, research associates, postdoctoral fellows and graduate students carry out research in areas of molecular biology, human genetics, ecology, animal behaviour, developmental biology, bioinformatics, neurobiology, marine biology, plant biology, and evolution. Its teaching and research resources are extended by the Redpath Museum; the Montreal Children's, Jewish General, Montreal General, Royal Victoria and Shriners Hospitals; Macdonald Campus; Montreal Neurological Institute; and the Sheldon Biotechnology Centre. For courses taught in the field, the stations at the Gault Nature Reserve, the Morgan Arboretum, the Bellairs Research Institute in Barbados, the Huntsman Marine Science Centre in New Brunswick, and the Smithsonian Tropical Research Institute in Panama are used. In addition, field stations near Lake Memphremagog and at Schefferville in northern Quebec are available for research projects.

The Department of Biology Undergraduate Programs 2008-2009 booklet ("Blue Book") describes in detail the content of each course and the level at which it is given, the aims and methods used, lectures, references, grading procedures, etc. The "Blue Book" also contains more information on registration, counselling, committee structure and the research interests and facilities which are represented in the Department. It is available on the Web at www.biology.mcgill.ca/undergrad/bluebook.html.

Inquiries about undergraduate programs should be directed to the Student Affairs Office, in Room W4/8, Stewart Biological Sciences Building, telephone (514) 398-7045.

Two Major Concentrations in Biology as well as two Minor Concentrations in Biology (Organismal and Cell/Molecular Options) are available to students pursuing the B.A. & Sc. degree. These Major Concentrations are described in the Bachelor of Arts and Science section of the Calendar; see "Biology (BIOL)", in section 6.12.3 for details.

MINOR IN BIOLOGY (24-25 credits)

The Minor in Biology may be taken in conjunction with any primary program in the Faculty of Science (other than programs offered by the Department of Biology). Students are advised to consult the Undergraduate Adviser in Biology as early as possible (preferably during their first year), in order to plan their course selection.

Six credits of overlap are allowed between the Minor and the primary program.

Required Courses (15 credits)

BIOL 200	(3)	Molecular Biology
BIOL 201	(3)	Cell Biology and Metabolism
BIOL 202	(3)	Basic Genetics

BIOL 205 (3) Biology of Organisms
 BIOL 215 (3) Introduction to Ecology and Evolution

Complementary Courses (9-10 credits)

to include:

CHEM 212* (4) Introductory Organic Chemistry 1

Plus an additional two courses from the Biology Department's course offerings, at the 300 level or above.

* Students who have already taken CHEM 212 or its equivalent will choose another appropriate course, to be approved by the adviser.

LIBERAL PROGRAM: CORE SCIENCE COMPONENT IN BIOLOGY (46-47 credits)

Required Courses (19 credits)

BIOL 200 (3) Molecular Biology
 BIOL 201 (3) Cell Biology and Metabolism
 BIOL 202 (3) Basic Genetics
 BIOL 205 (3) Biology of Organisms
 BIOL 215 (3) Introduction to Ecology and Evolution
 CHEM 212* (4) Introductory Organic Chemistry 1

*If a student has already taken CHEM 212 or its equivalent, the four credits can be made up with a complementary.

Complementary Courses (27-28 credits)

3 or 4 credits selected from:

BIOL 206 (3) Methods in Biology of Organisms
 BIOL 301 (4) Cell and Molecular Laboratory

24 credits of Biology courses, 9 credits of which, in consultation with the program adviser, can be replaced with appropriate Science courses from other departments.

No more than 6 of the 24 credits can be taken at the 200 level.

MAJOR IN BIOLOGY (58-59 credits)

The Major requires 58 or 59 credits comprising 38 as specified below and 21 additional credits that are to be chosen by students in consultation with their adviser.

Students in the Major Program are permitted to take a maximum of 9 credits of research courses.

U1 Required Courses

(18 credits)

BIOL 200 (3) Molecular Biology
 BIOL 201 (3) Cell Biology and Metabolism
 BIOL 202 (3) Basic Genetics
 BIOL 205 (3) Biology of Organisms
 BIOL 206 (3) Methods in Biology of Organisms
 BIOL 215 (3) Introduction to Ecology and Evolution

U2 or U3 Required Courses (4 credits)

BIOL 301 (4) Cell and Molecular Laboratory

U1 Complementary Course (0-4 credits)

CHEM 212* (4) Introductory Organic Chemistry 1

U2 or U3 Complementary Courses (12 credits)

12 credits selected from:

BIOL 300 (3) Molecular Biology of the Gene
 BIOL 303 (3) Developmental Biology
 BIOL 304 (3) Evolution
 BIOL 306 (3) Neurobiology
 BIOL 308 (3) Ecological Dynamics

Other Complementary Courses (21-24 credits)

To be selected in consultation with the student's adviser. All courses must be at the 300 level or higher; they are to include any seven Biology courses of which at most three may be substituted, given the adviser's consent, with science courses offered by other departments. Unless required by the Major Program, prerequisites for these courses must be taken as electives.

* Students who have already taken CHEM 212 or its equivalent will choose another appropriate complementary course, to be approved by the adviser.

BIOLOGY CONCENTRATIONS

Note: The concentrations set out below are only guidelines for specialized training. *They do not constitute sets of requirements.*

Students interested in advanced studies in any biological discipline are strongly advised to develop their skills in computing as appropriate. As an aid to students wishing to specialize, the concentrations list key and other suggested courses by discipline.

Animal Behaviour Concentration

Understanding the diverse ways in which animals feed, mate, care for their offspring, avoid predators, select their habitats, communicate, and process information constitute the subject matter of behaviour. Several approaches are used to study these questions. Some focus on ecological consequences and determinants, some on physiological, genetic and developmental mechanisms, others on evolutionary origins.

Key courses:

BIOL 304, BIOL 305, BIOL 306, BIOL 307, BIOL 331 or BIOL 334D1/BIOL 334D2 or another field course with a significant behavioural component, BIOL 373, BIOL 507.

Other suggested courses:

BIOL 377, BIOL 466, BIOL 467, BIOL 468D1/BIOL 468D2, BIOL 469D1/BIOL 469D2

Since animal behaviour builds upon the fields of behaviour, ecology, and evolutionary biology, most courses from these fields will be relevant. Some courses that focus on a particular taxonomic group such as birds (Natural Resource Sciences WILD 420), amphibians and reptiles (BIOL 427) and marine mammals (BIOL 335) include a significant amount of behaviour.

Biological Diversity and Systematics

The study of biological diversity deals with the maintenance, emergence, and history of the inexhaustible variety of different kinds of organisms. It is deeply concerned with the particular characteristics of different organisms and therefore emphasizes the detailed study of particular groups and forms the basis of comparative biology. Our knowledge of diversity is organized through the study of systematics, which seeks to understand the history of life and the phylogenetic and genetic relationships of living things. Appreciation and knowledge of diversity and systematics are essential in ecology and evolutionary biology and underlie all work in resource utilization and conservation biology.

Key course:

BIOL 304, BIOL 305, BIOL 373

Other suggested courses:

BIOL 240, BIOL 324, BIOL 328, BIOL 329, BIOL 331 or BIOL 334D1/BIOL 334D2, BIOL 335, BIOL 350/ENTO 350, BIOL 352, BIOL 377, BIOL 427, BIOL 465, BIOL 466 or BIOL 467, BIOL 468D1/BIOL 468D2, BIOL 469D1/BIOL 469D2, BIOL 505, BIOL 540, BIOL 555D1/BIOL 555D2, BIOL 569, BIOL 571, BIOL 573, BIOL 594, REDM 400

Macdonald Campus:

PLNT 358; ENTO 440; WILD 212, WILD 307, WILD 313, WILD 350, WILD 420; WILD 424

Conservation Biology Concentration

Conservation Biology is the study and protection of biological diversity. It is a scientific discipline closely connecting ecology and evolutionary biology with applications in public processes working within a functional ecological context and deals with issues of how the wide variety of organisms and ecosystems can be maintained and prevented from declining. It considers population and habitat viability and complexity in the face of threats and perturbations. Cognizance of biological diversity, knowledge and expertise in both ecology and evolutionary biology, and appreciation for the political, social and economic contexts of the biodiversity crisis underlie all work in conservation biology.

Key courses:

BIOL 308, BIOL 373, BIOL 465 plus at least one of the following field courses: BIOL 328 or BIOL 329 or BIOL 331 or, BIOL 334D1/BIOL 334D2 or, BIOL 553

Other suggested courses:

BIOL 304, BIOL 305, BIOL 307, BIOL 324, BIOL 350, BIOL 355, BIOL 377, BIOL 413, BIOL 427, BIOL 434, BIOL 466, BIOL 467, BIOL 468D1/BIOL 468D2, BIOL 469D1/BIOL 469D2, BIOL 505, BIOL 510, BIOL 540, BIOL 590, BIOL 594; ECON 225, ECON 326; GEOG 350, GEOG 370, GEOG 380, REDM 400

Macdonald Campus: NRSC 437; PLNT 358; WILD 350, WILD 415, WILD 420, WILD 421

Evolutionary Biology Concentration

Evolutionary Biology is the study of processes that change organisms and their characteristics through time. Evolutionary biologists are concerned with adaptations of organisms and the process of natural selection.

Key courses:

BIOL 304, BIOL 305, BIOL 307, BIOL 324, BIOL 331, BIOL 352, BIOL 373, BIOL 377, BIOL 435, BIOL 466 or BIOL 467
BIOL 468D1/BIOL 468D2, BIOL 469D1/BIOL 469D2,
BIOL 555 D1/BIOL 555 D2, BIOL 569, BIOL 570, BIOL 571,
BIOL 572, BIOL 573, BIOL 594

Other suggested courses in Organismal Biology:

BIOL 240, BIOL 328, BIOL 335, BIOL 350/ENTO 350, BIOL 427

Macdonald Campus: PLNT 358, WILD 420

Genetics and Development: BIOL 300, BIOL 303

Ecology and Behaviour: BIOL 309, BIOL 329, BIOL 434

Experimental Plant Biology Concentration

Research interests span modern molecular genetics, plant physiology and biochemistry, plant ecology and genetics, plant morphogenesis, and the adaptation and evolution of plant form and function. Research is carried out in the field and in the Department's large, excellent controlled-environment facilities. The importance of adaptation to climate and the use of plants for food, chemicals, pharmaceuticals and materials underlie research using biotechnology and quantitative methods to improve cultivated plants and understand natural plant populations.

Key courses:

BIOL 300, BIOL 303, BIOL 305, BIOL 385

Other suggested courses:

BIOL 377, BIOL 465, BIOL 466 or BIOL 467,
BIOL 468D1/BIOL 468D2, BIOL 469D1/BIOL 469D2,
BIOL 555 D1/BIOL 555 D2

Human Genetics Concentration

The courses recommended for students interested in Human Genetics are designed to offer a broad perspective in this rapidly advancing area of biology. Genetics is covered at all levels of organization (the gene, the chromosome, the cell, the organism and the population), using pertinent examples from all species, but with special emphasis on humans.

Key courses:

BIOL 301, BIOL 370, BIOL 373, BIOL 416, BIOL 520, BIOL 568, BIOL 575

Other suggested courses:

BIOL 311; BIOL 314, BIOL 466, BIOL 467
BIOL 468D1/BIOL 468D2, BIOL 469D1/BIOL 469D2; CHEM 203 or CHEM 204 and CHEM 214, MIMM 314

Molecular Genetics and Development Concentration

The discoveries that have fuelled the ongoing biomedical and biotechnological revolution have arisen at the intersection of a number of fields of biological investigation, including molecular biology, genetics, cellular and developmental biology and biochemistry. A substantial and significant quantity of this research has been conducted upon model eukaryotic organisms, such as yeast, nematode, the fruit fly, and the mustard weed, *Arabidopsis*. In the molecular genetics and development concentration students

will obtain a comprehensive understanding of how the "model eukaryotes" have advanced our knowledge of the mechanisms responsible for cellular function and organismal development. Graduates from this concentration will be well prepared to pursue higher degrees in the fields of basic biology, biotechnology, and biomedicine or to assume a wide variety of positions in government, universities, and medical and industrial institutions.

Key courses:

BIOL 300, BIOL 301, BIOL 303, BIOL 373, BIOL 569; CHEM 203 or CHEM 204 combined with CHEM 214

Other suggested courses:

BIOL 313, BIOL 314, BIOL 416, BIOL 466, BIOL 467,
BIOL 468D1/BIOL 468D2, BIOL 469D1/BIOL 469D2, BIOL 518,
BIOL 520, BIOL 524, BIOL 544

Neurobiology Concentration

Nervous systems are perhaps the most complex entities in the natural world, being composed of up to trillions of interconnected cells that must operate in a coordinated manner to produce behaviour which can range from the mundane (e.g., regulation of heart rate) to the magnificent (e.g., musical composition). The neurobiology discipline is one of the fastest growing areas of modern biology, seeks to understand the evolution, development, and operation of nervous systems. The neurobiology concentration addresses these issues by examination of neural structure, function and development at levels of organization that range from the molecular to the organismal. As a result of exposure to a wide range of experimental and intellectual approaches, students receive a sound, broadly based education in biology.

Key courses:

BIOL 306, BIOL 373, BIOL 389, BIOL 507, BIOL 530, BIOL 531, BIOL 532, BIOL 588

Other suggested courses:

ANAT 321, ANAT 322; BIOC 455; BIOL 300, BIOL 303,
BIOL 466, BIOL 467, BIOL 468D1/BIOL 468D2,
BIOL 469D1/BIOL 469D2, BIOL 507; NEUR 310; PHAR 562;
PHGY 451, PHGY 556; PSYC 311, PSYC 318, PSYC 342,
PSYC 410, PSYC 470; PSYT 500

CONCENTRATIONS AVAILABLE WITHIN THE AREA OF ECOLOGY

Ecology is the study of the interactions between organisms and environment that affect distribution, abundance, and other characteristics of the organisms. A strong analytical and quantitative orientation is common to all areas of ecology, and thus students wishing to specialize in these areas are strongly encouraged to develop their background in statistical analysis, computing, and mathematical modelling. Many of the ecology courses feature a strong analytical component, and students will find that background preparation in this area is very useful, if not essential. Ecology depends heavily on field research, and thus BIOL 331 and/or other field courses should be considered as vital to all concentrations in this area.

Aquatic Ecology Concentration

This concentration is designed to introduce the principles of ecology as they pertain to aquatic ecosystems and aquatic biota. Since it is essential to know how knowledge is obtained, as well as what has been learned, one of the courses (limnology) involves field components that stress the techniques used to study aquatic ecology. In addition, the concentration includes a field course in ecology. There is also a variety of courses in aquatic disciplines offered in other departments that complement the aquatic ecology courses offered in Biology.

Key courses:

BIOL 305, BIOL 308, BIOL 331 or another field course, BIOL 373, BIOL 432, BIOL 441, BIOL 442, BIOL 465; COMP 202 or COMP 273

Other suggested courses:

BIOL 307, BIOL 329, BIOL 434, BIOL 540; GEOG 305,
GEOG 306, GEOG 308, GEOG 322,

Macdonald Campus:
NRSC 315

General and Applied Ecology Concentration

The concentration in general and applied ecology is designed to introduce the breadth of contemporary ecology, at the levels of the ecosystem, communities and populations, and at the level of the individual organism, with an accent on the application of this science to practical problems in environmental management, and the management of resources and pests. In addition to general courses dealing with general principles, there is a selection of courses dealing with particular groups of organisms. Since it is essential to know how knowledge is obtained, the concentration includes a field course in ecology.

Key courses:

BIOL 305, BIOL 308, BIOL 331 or BIOL 334,
BIOL 350/ENTO 350, BIOL 373; COMP 202 or COMP 273

Other suggested courses:

BIOL 307, BIOL 324, BIOL 328, BIOL 329, BIOL 427, BIOL 432,
BIOL 434, BIOL 441, BIOL 442, BIOL 465, BIOL 540, BIOL 571,
BIOL 590, BIOL 594; GEOG 302

Macdonald Campus: PLNT 451, PLNT 460

Marine Biology Concentration

This concentration is designed to offer students a broad introduction to marine biology and marine ecology, which will form the basis for graduate studies in the fields, or to employment in aquatic biology and oceanography.

Key courses:

BIOL 305, BIOL 308, BIOL 335, BIOL 373, BIOL 441, BIOL 442

Other suggested courses:

ATOC 220, ATOC 512, ATOC 550, ATOC 561; BIOL 329,
BIOL 331, BIOL 334D1/BIOL 334D2, BIOL 432, BIOL 434,
BIOL 465, BIOL 540, EPSC 542

For students intending to proceed to graduate work, one independent studies course (BIOL 466 or BIOL 467, BIOL 468D1/BIOL 468D2, BIOL 469D1/BIOL 469D2) is recommended. Because of the importance of numerical analyses in all fields of ecology, courses in Biometry (e.g. BIOL 373) and Computer Science (COMP 202 or COMP 273) are recommended.

HONOURS IN BIOLOGY (71-75 credits)

The Honours Program in Biology is designed expressly as a preparation for graduate studies and research, and provides students with an enriched training in biology and some research experience in a chosen area. Acceptance into the Honours Program at the end of U2 requires a CGPA of 3.50 and approval of a 9- or 12-credit Independent Studies proposal (see listing of BIOL 479 and BIOL 480 for details). For an Honours degree, a minimum CGPA of 3.50 in the U3 year and adherence to the program as outlined below are the additional requirements. The new 3.50 requirement applies only beginning with students entering McGill in the Fall of 2005.

U1 Required Courses (18 credits)
as for the Major program

U2 and U3 Required Courses (7 credits)

BIOL 301 (4) Cell and Molecular Laboratory
BIOL 373 (3) Biometry

U1 Complementary Course (0-4 credits)

CHEM 212* (4) Introductory Organic Chemistry 1

U2 and U3 Complementary Courses (30-33 credits)

12 credits selected from:

BIOL 300 (3) Molecular Biology of the Gene
BIOL 303 (3) Developmental Biology
BIOL 304 (3) Evolution
BIOL 306 (3) Neurobiology
BIOL 308 (3) Ecological Dynamics

18-21 credits in Biology at the 300 level or higher.

U3 Required Courses (4 credits)

BIOL 499D1 (2) Honours Seminar in Biology
BIOL 499D2 (2) Honours Seminar in Biology

U3 Complementary Courses (9 or 12 credits)

either:

BIOL 479D1 (4.5) Honours Research Project 1
BIOL 479D2 (4.5) Honours Research Project 1

or:

BIOL 480D1 (6) Honours Research Project 2
BIOL 480D2 (6) Honours Research Project 2

* Students who have already taken CHEM 212 or its equivalent will choose another appropriate complementary course, to be approved by the adviser.

PANAMA FIELD STUDY SEMESTER The program is a joint venture between McGill University and the Smithsonian Tropical Research Institute (STRI) in Panama. For more information, see [section 15.2.3 "Panama Field Study Semester"](#). You can also visit the following Website for details:
[0www.mcgill.ca/science/internships-field/field](http://www.mcgill.ca/science/internships-field/field).

AFRICAN FIELD STUDY SEMESTER

The Department of Geography, Faculty of Science, coordinates the 15-credit interdisciplinary African Field Study Semester, see [section 15.2.1 "African Field Study Semester"](#).

Also available is a "MINOR IN COMPUTATIONAL MOLECULAR BIOLOGY"; for more information, see [section 12.13.9 "Computer Science \(COMP\)"](#).

12.13.6 Biotechnology (BIOT)

Sheldon Biotechnology Centre
Lyman Duff Building

Telephone: (514) 398-3998

Program Supervisor

Professor Hugh P.J. Bennett; B.A.(York, UK), Ph.D.(Brunel)

Biotechnology, the science of understanding, selecting and promoting useful organisms and specific gene products for commercial and therapeutic purposes, is the success story of this generation. It demands a broad comprehension of biology and engineering as well as detailed knowledge of at least one basic subject such as molecular genetics, protein chemistry, microbiology, or chemical engineering.

The Minor in Biotechnology is offered by the Faculties of Engineering and of Science, and students combine the Minor with the regular departmental Major (or Honours or Faculty) program. The Minor emphasizes an area relevant to biotechnology which is complementary to the main program.

Students should identify their interest in the Biotechnology Minor to their departmental academic adviser and to the Program Supervisor of the Minor and, at the time of registration for the U2 year, should declare their intent to embark on the Minor. Before registering for the Minor, and with the agreement of the academic adviser, students must submit their course list to the Program Supervisor, who will certify that the student's complete program conforms to the requirements for the Minor. Students should ensure that they will have fulfilled the prerequisite requirements for the courses selected.

The BIOT course listed in the course section of this Calendar is considered as a course taught by the Faculty of Science.

GENERAL REGULATIONS

To obtain the Minor in Biotechnology students must:

- satisfy the requirements both for the departmental program and for the Minor.
- complete 24 credits, 18 of which must be exclusively for the Minor program.

c) obtain a grade of C or better in the courses presented for the Minor.

MINOR IN BIOTECHNOLOGY (24 credits)

PROGRAM FOR STUDENTS IN THE FACULTY OF SCIENCE*

Required Courses (15 credits)

BIOL 200	(3)	Molecular Biology
BIOL 201	(3)	Cell Biology and Metabolism
or BIOC 212	(3)	Molecular Mechanisms of Cell Function
BIOL 202	(3)	Basic Genetics
BIOT 505	(3)	Selected Topics in Biotechnology
MIMM 211	(3)	Introductory Microbiology

Complementary Courses (9 credits)

selected from courses outside the department of the main program, these may be taken from those listed as required courses for Engineering students. Alternatively, or in addition, courses may be taken from the lists below, in which case at least three courses must be taken from one area of concentration as grouped.

* As 18 credits must be applied exclusively to the Minor, approved substitutions must be made for any of the specified courses which are part of the student's main program.

Chemical Engineering

CHEE 200	(3)	Introduction to Chemical Engineering
CHEE 204	(3)	Chemical Manufacturing Processes
CHEE 474	(3)	Biochemical Engineering

Biomedicine

ANAT 541	Cell and Molecular Biology of Aging
EXMD 504	Biology of Cancer
PATH 300	Human Disease

Chemistry

CHEM 382	Organic Chemistry: Natural Products
CHEM 502	Advanced Bio-organic Chemistry
CHEM 552	Physical Organic Chemistry

Immunology

ANAT 261	Introduction to Dynamic Histology
BIOC 503	Immunochemistry
MIMM 314	Immunology
MIMM 414	Advanced Immunology
PHGY 513	Cellular Immunology

Management

ECON 208	Microeconomics Analysis and Applications
MGCR 211	Introduction to Financial Accounting
MGCR 341	Finance 1
MGCR 352	Marketing Management 1
MGCR 472	Operations Management

Microbiology

MIMM 323	Microbial Physiology
MIMM 324	Fundamental Virology
MIMM 413	Parasitology
MIMM 465	Bacterial Pathogenesis
MIMM 466	Viral Pathogenesis

Molecular Biology (Biology)

BIOL 300	Molecular Biology of the Gene
BIOL 314	Molecular Biology of Oncogenes
BIOL 520	Gene Activity in Development
BIOL 551	Molecular Biology: Cell Cycle
BIOL 524	Topics in Molecular Biology

Molecular Biology (Biochemistry)

BIOC 311	Metabolic Biochemistry
BIOC 312	Biochemistry of Macromolecules
BIOC 450	Protein Structure and Function
BIOC 454	Nucleic Acids
BIOC 455	Neurochemistry

Physiology

EXMD 401	Physiology and Biochemistry Endocrine Systems
EXMD 502	Advanced Endocrinology 01
EXMD 503	Advanced Endocrinology 02

PHAR 562	General Pharmacology 1
PHAR 563	General Pharmacology 2
PHGY 517	Artificial Internal Organs
PHGY 518	Artificial Cells

Plant Biology

BIOL 357	Plant Physiology
BIOL 526	Plants and Extreme Environments

Pollution

CHEE 471	Industrial Water Pollution Control
CIVE 225	Environmental Engineering
CIVE 430	Water Treatment and Pollution Control
CIVE 526	Solid Waste Management
CIVE 553	Stream Pollution and Control

General

MIME 310	Engineering Economy
----------	---------------------

PROGRAM FOR STUDENTS IN THE FACULTY OF ENGINEERING

Please see the "Biotechnology Minor", in section 8.6.3 for details.

12.13.7 Chemistry (CHEM)

Otto Maass Chemistry Building
801 Sherbrooke Street West
Montreal, QC H3A 2K6

Website: www.mcgill.ca/chemistry

Departmental Office: Room 322. Telephone: (514) 398-6999
Student Advisory Office: Room 304. Telephone: (514) 398-3653

Chair — R. Bruce Lennox

Emeritus Professors

Byung Chan Eu; B.Sc.(Seoul), Ph.D.(Brown)
Tak-Hang Chan; B.Sc.(Tor.), M.A., Ph.D.(Prin.), F.C.I.C., F.R.S.C.
(*Tomlinson Emeritus Professor of Chemistry*)
John F. Harrod; B.Sc., Ph.D.(Birm.)(*Tomlinson Emeritus Professor of Chemistry*)
Alan S. Hay; B.Sc., M.Sc.(Alta.), Ph.D.(Ill.), D.Sc.(Alta.), F.R.S., F.N.Y., Acad.Sci. (*Tomlinson Emeritus Professor of Chemistry*)
Robert H. Marchessault; B.Sc.(Loyola), Ph.D.(McG.), D.Sc. (C'dia), F.R.S.C. (*E.B. Eddy Professor of Industrial Chemistry*)
Mario Onyszczuk; B.Sc.(McG.), M.Sc.(W.Ont.), Ph.D.(McG.), Ph.D.(Cant.)
Donald Patterson; M.Sc.(McG.), Doc.(St-Etienne) (*Otto Maass Emeritus Professor of Chemistry*)
Arthur S. Perlin; M.Sc., Ph.D.(McG.), F.R.S.C. (*E.B. Eddy Emeritus Professor of Industrial Chemistry*)
William C. Purdy; B.A.(Amherst), Ph.D.(MIT), F.C.I.C. (*William C. Macdonald Emeritus Professor of Chemistry*)
Leon E. St-Pierre; B.Sc.(Alta.), Ph.D.(Notre Dame), F.C.I.C.
Michael A. Whitehead; B.Sc., Ph.D., D.Sc.(Lond.), F.C.I.C.

Professors

D. Scott Bohle; B.A.(Reed College), M.Phil., Ph.D.(Auck.) (*CRC Tier I Chair*)
David H. Burns; B.Sc.(Puget Sound), Ph.D.(Wash.)
Ian S. Butler; B.Sc., Ph.D.(Brist.), F.C.I.C., C.Sci., C.Chem., F.R.S.C.(U.K.)
Masad J. Damha; B.Sc., Ph.D.(McG.) (*James McGill Professor*)
Adi Eisenberg; B.S.(Worcester Polytech.), M.A., Ph.D.(Prin.), F.C.I.C. (*Otto Maass Professor of Chemistry*)
Derek G. Gray; B.Sc. (Belf.), M.Sc., Ph.D.(Manit.), F.C.I.C. (*NSERC Paprican Chair*)
David N. Harpp; A.B.(Middlebury), M.A.(Wesleyan), Ph.D.(N.Carolina), F.C.I.C. (*William C. Macdonald Professor of Chemistry*)
George Just; Ing.Chem.(ETH Zürich), Ph.D.(W.Ont.), F.C.I.C. (*William C. Macdonald Professor of Chemistry*)
R. Bruce Lennox; B.Sc., M.Sc., Ph.D.(Tor.) (*Tomlinson Professor of Chemistry*)

C.J. Li; B.Sc.(Zhengzhou), M.Sc.(C.A.S.), Ph.D.(McG.) (*CRC Tier I Chair*)
 David Ronis; B.Sc.(McG.), Ph.D.(MIT)
 Eric D. Salin; B.Sc.(Calif.), Ph.D.(Oreg.St.)
 Bryan C. Sanctuary; B.Sc., Ph.D.(Br. Col.)
 Theo G.M. van de Ven; Kand. Doc.(Utrecht), Ph.D.(McG.)
 (*NSERC Paprican Chair*)

Associate Professors

Mark P. Andrews; B.Sc., M.Sc., Ph.D.(Tor.)
 Bruce Arndtsen; B.A.(Car. College), Ph.D.(Stan.) (*William Dawson Scholar*)
 Parisa Ariya; B.Sc., Ph.D.(York) (*William Dawson Scholar*) (*joint appoint. with Atmospheric & Oceanic Sciences*)
 Christopher J. Barrett; B.Sc., M.Sc., Ph.D.(Qu.)
 William C. Galley; B.Sc.(McG.), Ph.D.(Calif.)
 James Gleason; B.Sc.(McG.), Ph.D.(Virg.)
 Ashok K. Kakkar; B.Sc.(Punjab), M.Sc.(H.P.U.), Ph.D.(Wat.)
 Joan F. Power; B.Sc., Ph.D.(C'dia)
 Linda Reven; B.A.(Car. Coll.), Ph.D.(Ill.)
 Hanadi Sleiman; B.Sc.(A.U.B.), Ph.D.(Stan.) (*William Dawson Scholar*)
 Paul Wiseman; B.Sc.(St. FX), Ph.D.(W. Ont.) (*joint appoint. with Physics*)

Assistant Professors

Karine Auclair; B.Sc.(UQAC), Ph.D.(Alta.)
 Michel Bourqui; B.Sc.(EPF Lausanne), Ph.D.(ETH Zürich) (*joint appoint. with Atmospheric & Oceanic*)
 Gonzalo Cosa; B.Sc. (Rio Cuarto), Ph.D.(Ott.)
 Patanjali Kambhampati; B.A.(Car. Coll.), Ph.D.(Texas)
 Anthony Mittermaier; B.Sc.(Guelph), Ph.D.(Tor.)
 Nicolas Moitessier; Ph.D.(Nancy)
 Audrey Moores; B.Sc., M.Sc., Ph.D.(École Poly., Palaiseau, Fr.)
 (*Fac. Sci. Tier II Chair*)
 Dmitrii Perepichka; B.S., M.Sc., Ph.D.(Ukraine)
 Bradley Siwick; B.A.Sc., M.Sc., Ph.D.(Tor.) (*joint appoint. with Physics*)

Faculty Lecturers

John Finkenbine; B.S.(Capital), Ph.D.(McG.)
 Grazyna Wilczek; M.Sc., Doctorate Chem. Sci.(Warsaw)

Associate Members

James A. Finch (*Mining & Metallurgical Engineering*)
 P. Grütter (*Physics*)
 Orval A. Mamer (*University Clinic*)

Adjunct Professors

Yvan Guindon; B.Sc., Ph.D.(Montr.), F.C.I.C., F.R.S.C.
 Christian Reber; B.Sc., Ph.D.(Berne)
 Ivor Wharf; B.Sc., Ph.D.(Lond.), A.R.C.S., D.I.C.
 C.T. Yim; B.Sc.(Fu-Dan), Ph.D.(McG.)
 Robert Zamboni; B.Sc., Ph.D.(McG.)

Office for Science and Society

The Office for Science and Society is dedicated to the promotion of critical thinking and the presentation of practical scientific information to the public, educators and students in an accurate and responsible fashion. The Office answers queries from the public as well as from the media, with a view towards establishing scientific accuracy. The Office also offers a variety of educational and interesting presentations on scientific topics and its members contribute to a number of courses under the umbrella of "The World of Chemistry".

Director

Joseph A. Schwarcz; B.Sc., Ph.D.(McG.)

Members

Ariel Fenster; L.Sc., D.E.A.(Paris), Ph.D.(McG.)
 David N. Harpp; A.B.(Middlebury), M.A.(Wesl.),
 Ph.D.(N.Carolina), F.C.I.C. (*William C. Macdonald Professor of Chemistry*)

Chemistry is both a pure science, offering a challenging intellectual pursuit, and an applied science whose technology is of fundamental importance to the economy and society. Modern chemists

seek an understanding of the structure and properties of atoms and molecules to predict and interpret the properties and transformations of matter and the energy changes that accompany those transformations. Many of the concepts of physics and mathematics are basic to chemistry, while chemistry is of fundamental importance to many other disciplines such as the biological and medical sciences, geology, metallurgy, etc.

A degree in chemistry leads to a wide variety of professional vocations. The large science-based industries (petroleum refining, plastics, pharmaceuticals, etc.) all employ chemists in research, development and quality control. Many federal and provincial departments and agencies employ chemists in research and testing laboratories. Such positions are expected to increase with the currently growing concern for the environment and for consumer protection. A background in chemistry is also useful as a basis for advanced study in other related fields, such as medicine and the biological sciences. For a business career, a B.Sc. in Chemistry can profitably be combined with a master's degree in Business Administration, or a study of law for work as a patent lawyer or forensic scientist.

Chemistry courses at the university level are traditionally divided into four areas of specialization: 1) organic chemistry, dealing with the compounds of carbon; 2) inorganic chemistry, concerned with the chemistry and compounds of elements other than carbon; 3) analytical chemistry, which deals with the identification of substances and the quantitative measurement of their compositions; and 4) physical chemistry, which treats the physical laws, kinetics, and energetics governing chemical reactions and molecular structure. Naturally, there is a great deal of overlap between these different areas, and the boundaries are becoming increasingly blurred. After a general course at the introductory level, courses in organic, inorganic, analytical and physical chemistry are offered throughout the university years. Since chemistry is an experimental science, laboratory classes accompany most undergraduate courses. In addition, courses are offered in polymer, theoretical, green, nano and biological chemistry to upper-year undergraduates.

There are two main programs in the Department of Chemistry, Honours and Major. The Honours program is intended primarily for students wishing to pursue graduate studies in chemistry. While the Major program is somewhat less specialized, it is still recognized as sufficient training for a career in chemistry. It can also lead to graduate studies although an additional qualifying year may be necessary. There are also a number of B.Sc. Liberal and other programs available. Interested students may inquire about these at the Student Advisory Office, Room 304, Otto Mass Chemistry Building, or see www.chemistry.mcgill.ca/advising/index.htm.

PRE-PROGRAM REQUIREMENTS

Students entering from the Freshman program must have included CHEM 110 and CHEM 120 or CHEM 115, BIOL 111 or BIOL 112, MATH 133, MATH 140/ MATH 141 or MATH 150/ MATH 151, PHYS 131/PHYS 142, or their equivalents in their Freshman year. Quebec students must have completed the DEC with appropriate science and mathematics courses. Note that students who have successfully completed MATH 150 and MATH 151 do not have to take MATH 222.

REQUIRED COURSES IN CHEMISTRY PROGRAMS

The required courses in Chemistry programs consist of 56 credits in chemistry, physics and mathematics, listed below. The courses marked with an asterisk (*) are omitted from the program of students who have successfully completed them at the CEGEP level but the Chemistry courses must be replaced by courses in that discipline if students wish to be eligible for admission to the Order des chemists du Québec. Students from outside Quebec or transfer students should consult the academic adviser. See www.chemistry.mcgill.ca/advising/inside/advisors.php.

A computer science course, either COMP 202 or COMP 208, is strongly recommended during U1 for students who have no previous introduction to computer *programming*. Students should contact their adviser on this matter. Completion of Mathematics

MATH 222 and MATH 315 during U1 is also strongly recommended. Physics PHYS 242 should be completed during U2.

Chemistry Majors and Honours Programs

Required Courses (53 credits)

CHEM 212*	(4)	Introductory Organic Chemistry 1
CHEM 222*	(4)	Introductory Organic Chemistry 2
CHEM 223	(2)	Introductory Physical Chemistry 1
CHEM 243	(2)	Introductory Physical Chemistry 2
CHEM 253	(1)	Introductory Physical Chemistry 1 Laboratory
CHEM 263	(1)	Introductory Physical Chemistry 2 Laboratory
CHEM 281	(3)	Inorganic Chemistry 1
CHEM 287	(2)	Introductory Analytical Chemistry
CHEM 297	(1)	Introductory Analytical Chemistry Laboratory
CHEM 302	(3)	Introductory Organic Chemistry 3
CHEM 345	(3)	Molecular Properties and Structure 1
CHEM 355	(3)	Molecular Properties and Structure 2
CHEM 365	(2)	Statistical Thermodynamics
CHEM 367	(3)	Instrumental Analysis 1
CHEM 377	(3)	Instrumental Analysis 2
CHEM 381	(3)	Inorganic Chemistry 2
CHEM 392	(3)	Integrated Inorganic/Organic Laboratory
CHEM 393	(2)	Physical Chemistry Laboratory 2
MATH 222**	(3)	Calculus 3
MATH 315	(3)	Ordinary Differential Equations
PHYS 242	(2)	Electricity and Magnetism

* denotes courses with CEGEP equivalents

** Students who have successfully completed MATH 150 and MATH 151 are not required to take MATH 222.

HONOURS IN CHEMISTRY (71 credits)

Required Courses (53 credits)

53 credits as listed in the table of "Chemistry Majors and Honours Programs, Required Courses"

Complementary Courses (18 credits)

6 credits of research*:

CHEM 470	(6)	Research Project 1
or CHEM 480	(3)	Research Project 2
and CHEM 490(3)		Research Project 3

and 12 credits of additional Chemistry courses:

6 credits of which must be at the 300 level or higher, and
6 credits of which must be at the 400 level or higher

* Students may take up to 12 Research Project credits but only 6 of these may be used to fulfill the program requirement.

Attainment of the Honours degree requires a CGPA of at least 3.00.

HONOURS WITH BIO-ORGANIC OPTION (75 credits)

Required Courses (57 credits)

51 credits, all courses specified in the table of "Chemistry Majors and Honours Programs, Required Courses" except PHYS 242 plus the following 6 credits:

BIOL 200	(3)	Molecular Biology
BIOL 201	(3)	Cell Biology and Metabolism

Complementary Courses (18 credits)

6 credits of research*:

CHEM 470	(6)	Research Project 1
or CHEM 480	(3)	Research Project 2
and CHEM 490(3)		Research Project 3

6 credits, two of:

BIOL 202	(3)	Basic Genetics
BIOL 301	(3)	Cell and Molecular Laboratory
CHEM 502	(3)	Advanced Bio-Organic Chemistry
MIMM 211	(3)	Introductory Microbiology
MIMM 314	(3)	Immunology
MIMM 323	(3)	Microbial Physiology
PHGY 201	(3)	Human Physiology: Control Systems
PHGY 202	(3)	Human Physiology: Body Functions
PHGY 209	(3)	Mammalian Physiology 1

PHGY 210 (3) Mammalian Physiology 2

and 6 credits of additional Chemistry courses at the 400 level or higher.

* Students may take up to 12 Research Project credits but only 6 of these may be used to fulfill the program requirement.

Attainment of the Honours degree requires a CGPA of at least 3.00.

HONOURS IN CHEMISTRY: ATMOSPHERE AND ENVIRONMENT OPTION (75 credits)

Required Courses (60 credits)

51 credits, all courses specified in the table of "Chemistry Majors and Honours Programs, Required Courses" except PHYS 242

plus the following 9 credits

CHEM 219	(3)	Introduction to Atmospheric Chemistry
CHEM 419	(3)	Advances in Chemistry of Atmosphere
CHEM 462	(3)	Green Chemistry

Complementary Courses (15 credits)

6 credits of research*:

CHEM 470	(6)	Research Project 1
or CHEM 480	(3)	Research Project 2
and CHEM 490(3)		Research Project 3

3 credits, one of:

ATOC 214	(3)	Introduction: Physics of the Atmosphere
CHEM 307	(3)	Analytical Chemistry of Pollutants
CHEM 352	(3)	Structural Organic Chemistry
MATH 317	(3)	Numerical Analysis

6 credits, two of:

ATOC 315	(3)	Water in the Atmosphere
ATOC 412	(3)	Atmospheric Dynamics
CHEM 567	(3)	Chemometrics: Data Analysis
CHEM 575	(3)	Chemical Kinetics
CHEM 597	(3)	Analytical Spectroscopy
EPSC 542	(3)	Chemical Oceanography

* Students may take up to 12 Research Project credits but only 6 of these may be used to fulfill the program requirement.

Attainment of the Honours degree requires a CGPA of at least 3.00.

HONOURS WITH MATERIALS OPTION (74 credits)

Required Courses (59 credits)

53 credits, all courses specified in the table of "Chemistry Majors and Honours Programs, Required Courses"

plus the following 6 credits:

CHEM 334	(3)	Advanced Materials
CHEM 455	(3)	Introductory Polymer Chemistry

Complementary Courses (15 credits)

6 credits of research*:

CHEM 470	(6)	Research Project 1
or CHEM 480	(3)	Research Project 2
and CHEM 490(3)		Research Project 3

6 credits, two of:

CHEM 531	(3)	Chemistry of Inorganic Materials
CHEM 534	(3)	Nanoscience and Nanotechnology
CHEM 543	(3)	Chemistry of Pulp and Paper
CHEM 571	(3)	Polymer Synthesis
CHEM 585	(3)	Colloid Chemistry

3 credits, one of:

CHEE 481	(3)	Polymer Engineering
MIME 260	(3)	Materials Science and Engineering
MRKT 360	(3)	Marketing of Technology

* Students may take up to 12 Research Project credits but only 6 of these may be used to fulfill the program requirement.

Attainment of the Honours degree requires a CGPA of at least 3.00.

JOINT HONOURS IN PHYSICS AND CHEMISTRY, see "**Physics (PHYS)**", section 12.13.29.

MAJOR IN CHEMISTRY (59 credits)

Required Courses (53 credits)

53 credits as listed in the table of "Chemistry Majors and Honours Programs, Required Courses"

Complementary Courses (6 credits)

6 credits of additional Chemistry courses at the 300 level or higher.

Attainment of the Major degree requires a CGPA of 2.00.

MAJOR WITH BIO-ORGANIC OPTION (63 credits)

Required Courses (60 credits)

51 credits, all courses specified in the table of "Chemistry Majors and Honours Programs, Required Courses" except PHYS 242 plus the following 9 credits:

BIOL 200	(3)	Molecular Biology
BIOL 201	(3)	Cell Biology and Metabolism
CHEM 502	(3)	Advanced Bio-Organic Chemistry

Complementary Course (3 credits)

one of:

BIOL 202	(3)	Basic Genetics
BIOL 301	(3)	Cell and Molecular Laboratory
MIMM 211	(3)	Introductory Microbiology
PHGY 201	(3)	Human Physiology: Control Systems
PHGY 202	(3)	Human Physiology: Body Functions
PHGY 209	(3)	Mammalian Physiology 1
PHGY 210	(3)	Mammalian Physiology 2

Attainment of the Major degree requires a CGPA of 2.00.

MAJOR IN CHEMISTRY: ATMOSPHERE AND ENVIRONMENT OPTION (63 credits)

Required Courses (54 credits)

51 credits, all courses specified in the table of "Chemistry Majors and Honours Programs, Required Courses" except PHYS 242

plus the following 3 credits:

CHEM 219	(3)	Introduction to Atmospheric Chemistry
----------	-----	---------------------------------------

Complementary Course (9 credits)

3 credits, one of:

CHEM 419	(3)	Advances in Chemistry of Atmosphere
CHEM 462	(3)	Green Chemistry

3 credits, one of:

ATOC 214	(3)	Introduction: Physics of the Atmosphere
CHEM 307	(3)	Analytical Chemistry of Pollutants
CHEM 352	(3)	Structural Organic Chemistry
MATH 317	(3)	Numerical Analysis

3 credits, one of:

ATOC 315	(3)	Water in the Atmosphere
ATOC 412	(3)	Atmospheric Dynamics
CHEM 567	(3)	Chemometrics: Data Analysis
CHEM 575	(3)	Chemical Kinetics
CHEM 597	(3)	Analytical Spectroscopy
EPSC 542	(3)	Chemical Oceanography

Attainment of the Major degree requires a CGPA of 2.00.

MAJOR WITH MATERIALS OPTION (62 credits)

Required Courses (59 credits)

53 credits, all courses specified in the table of "Chemistry Majors and Honours Programs, Required Courses"

plus the following 6 credits:

CHEM 334	(3)	Advanced Materials
CHEM 455	(3)	Introductory Polymer Chemistry

Complementary Course (3 credits)

one of:

CHEM 531	(3)	Chemistry of Inorganic Materials
CHEM 534	(3)	Nanoscience and Nanotechnology

CHEM 543	(3)	Chemistry of Pulp and Paper
CHEM 571	(3)	Polymer Synthesis
CHEM 585	(3)	Colloid Chemistry

Attainment of the Major degree requires a CGPA of 2.00.

LIBERAL PROGRAM: CORE SCIENCE COMPONENT IN CHEMISTRY: BIOLOGICAL OPTION (47 credits)

Required Basic Core Courses (26 credits)

CHEM 212*	(4)	Introductory Organic Chemistry 1
CHEM 222*	(4)	Introductory Organic Chemistry 2
CHEM 223	(2)	Introductory Physical Chemistry 1
CHEM 243	(2)	Introductory Physical Chemistry 2
CHEM 253	(1)	Introductory Physical Chemistry 1 Laboratory
CHEM 263	(1)	Introductory Physical Chemistry 2 Laboratory
CHEM 281	(3)	Inorganic Chemistry 1
CHEM 287	(2)	Introductory Analytical Chemistry
CHEM 297	(1)	Introductory Analytical Chemistry Laboratory
CHEM 381	(3)	Inorganic Chemistry 2
MATH 222**	(3)	Calculus 3

* denotes courses with CEGEP equivalents

** Students who have successfully completed MATH 150 and MATH 151 are not required to take MATH 222.

Biological Option Courses (21 credits)

BIOL 200	(3)	Molecular Biology
BIOL 201	(3)	Cell Biology and Metabolism
CHEM 302	(3)	Introductory Organic Chemistry 3
CHEM 352	(3)	Structural Organic Chemistry
CHEM 382	(3)	Organic Chemistry: Natural Products
CHEM 392	(3)	Integrated Inorganic/Organic Laboratory
CHEM 502	(3)	Advanced Bio-Organic Chemistry

LIBERAL PROGRAM: CORE SCIENCE COMPONENT IN CHEMISTRY: GENERAL OPTION (49 credits)

Required Basic Core Courses (26 credits)

CHEM 212*	(4)	Introductory Organic Chemistry 1
CHEM 222*	(4)	Introductory Organic Chemistry 2
CHEM 223	(2)	Introductory Physical Chemistry 1
CHEM 243	(2)	Introductory Physical Chemistry 2
CHEM 253	(1)	Introductory Physical Chemistry 1 Laboratory
CHEM 263	(1)	Introductory Physical Chemistry 2 Laboratory
CHEM 281	(3)	Inorganic Chemistry 1
CHEM 287	(2)	Introductory Analytical Chemistry
CHEM 297	(1)	Introductory Analytical Chemistry Laboratory
CHEM 381	(3)	Inorganic Chemistry 2
MATH 222**	(3)	Calculus 3

* denotes courses with CEGEP equivalents

** Students who have successfully completed MATH 150 and MATH 151 are not required to take MATH 222.

General Option Courses (20 credits)

CHEM 302	(3)	Introductory Organic Chemistry 3
CHEM 345	(3)	Molecular Properties and Structure 1
CHEM 367	(3)	Instrumental Analysis 1
CHEM 377	(3)	Instrumental Analysis 2
CHEM 392	(3)	Integrated Inorganic/Organic Laboratory
MATH 315	(3)	Ordinary Differential Equations
PHYS 242	(2)	Electricity and Magnetism

Complementary Courses (3 credits)

3 credits from:

CHEM 352	(3)	Structural Organic Chemistry
CHEM 355	(3)	Molecular Properties and Structure 2

LIBERAL PROGRAM: CORE SCIENCE COMPONENT IN CHEMISTRY: PHYSICAL OPTION (47 credits)

Required Basic Core Courses (26 credits)

CHEM 212*	(4)	Introductory Organic Chemistry 1
CHEM 222*	(4)	Introductory Organic Chemistry 2

CHEM 223	(2)	Introductory Physical Chemistry 1
CHEM 243	(2)	Introductory Physical Chemistry 2
CHEM 253	(1)	Introductory Physical Chemistry 1 Laboratory
CHEM 263	(1)	Introductory Physical Chemistry 2 Laboratory
CHEM 281	(3)	Inorganic Chemistry 1
CHEM 287	(2)	Introductory Analytical Chemistry
CHEM 297	(1)	Introductory Analytical Chemistry Laboratory
CHEM 381	(3)	Inorganic Chemistry 2
MATH 222**	(3)	Calculus 3

* denotes courses with CEGEP equivalents

** Students who have successfully completed MATH 150 and MATH 151 are not required to take MATH 222.

Physical Option Courses (21 credits)

CHEM 345	(3)	Molecular Properties and Structure 1
CHEM 355	(3)	Molecular Properties and Structure 2
CHEM 365	(2)	Statistical Thermodynamics
CHEM 393	(2)	Physical Chemistry Laboratory 2
COMP 208	(3)	Computers in Engineering
MATH 223	(3)	Linear Algebra
MATH 315	(3)	Ordinary Differential Equations
PHYS 242	(2)	Electricity and Magnetism

MINOR IN CHEMISTRY (18 credits)

Required Courses (18 credits)

CHEM 203	(3)	Survey of Physical Chemistry
CHEM 212*	(4)	Introductory Organic Chemistry 1
CHEM 222*	(4)	Introductory Organic Chemistry 2
CHEM 253	(1)	Introductory Physical Chemistry 1 Laboratory
CHEM 281	(3)	Inorganic Chemistry 1
CHEM 287	(2)	Introductory Analytical Chemistry
CHEM 297	(1)	Introductory Analytical Chemistry Laboratory

* asterisks denote courses with CEGEP equivalents

Substitutions for these by more advanced courses may be made at the discretion of the adviser.

MINOR IN CHEMICAL ENGINEERING (24 credits)

A Chemical Engineering Minor will be of interest to Chemistry students who wish to study the problems of process engineering and its related subjects. A student completing this Minor will be able to make the important link between molecular sciences and industrial processing. This Minor will not provide Professional Engineering accreditation.

Required Courses (7 credits)

CHEE 200	(4)	Introduction to Chemical Engineering
CHEE 204	(3)	Chemical Manufacturing Processes

Complementary Courses (17 credits)

at least one of:

CHEE 220	(3)	Chemical Engineering Thermodynamics
CHEE 314	(4)	Fluid Mechanics

with the remainder chosen from the following:

CHEE 230	(3)	Environmental Aspects of Technology
CHEE 315	(4)	Heat and Mass Transfer
CHEE 351	(3)	Separation Processes
CHEE 370	(3)	Elements of Biotechnology
CHEE 380	(3)	Materials Science
CHEE 392	(4)	Project Laboratory 1
and CHEE 393	(5)	Project Laboratory 2
CHEE 438	(3)	Engineering Principles in Pulp and Paper Processes
CHEE 452	(3)	Particulate Systems
CHEE 471	(3)	Industrial Water Pollution Control
CHEE 472	(3)	Industrial Air Pollution Control
CHEE 481	(3)	Polymer Engineering
CHEE 487	(3)	Chemical Processing: Electronics Industry
CHEE 494	(3)	Research Project and Seminar
or CHEE 495	(4)	Research Project and Seminar
MATH 314	(3)	Advanced Calculus

12.13.8 Cognitive Science

Ian Gold
Director, Program in Cognitive Science
3465 Peel Street, Room 401
E-mail: ian.gold@mcgill.ca
Telephone : (514) 398-3418

Cognitive Science Committee Members:

Brendan Gillon (Linguistics)
Marco Leyton (Neuroscience)
Stephen McAdams (Music)
Joelle Pineau (Computer Science)
Debra Titone (Psychology)

Website: www.cogsci.mcgill.ca

Cognitive Science is the multidisciplinary study of cognition in humans and machines. The goal is to understand the principles of intelligence with the hope that this will lead to better understanding of the mind and of learning, and to the development of intelligent devices that constructively extend human abilities.

The Minor in Cognitive Science is intended to supplement and support Major or Honours programs in Computer Science, Linguistics, Philosophy, or Psychology. Students wishing to enrol in this Minor must register with the Program Director.

MINOR IN COGNITIVE SCIENCE (27 credits)

Required Course (3 credits)

PSYC 532 (3) Cognitive Science

Complementary Courses (24 credits)

from outside of the student's home department, selected from the courses listed below.

Computer Science

COMP 424 (3) Topics: Artificial Intelligence 1
COMP 527 (3) Logic and Computation
COMP 558 (3) Fundamentals of Computer Vision

Educational Psychology

EDPE 555 (3) Applied Cognitive Science

Linguistics

LING 331 (3) Phonology 1
LING 355 (3) Language Acquisition 1
LING 370 (3) Introduction to Semantics
LING 371 (3) Syntax 1
LING 419 (3) Linguistic Theory 1
LING 440 (3) Morphology
LING 531 (3) Phonology 2
LING 555 (3) Language Acquisition 2
LING 571 (3) Syntax 2
LING 590 (3) Language Acquisition and Breakdown

Mathematics

MATH 318 (3) Mathematical Logic
MATH 328 (3) Computability and Mathematical Linguistics

Philosophy

PHIL 210 (3) Introduction to Deductive Logic 1
PHIL 304 (3) Chomsky
PHIL 306 (3) Philosophy of Mind
PHIL 310 (3) Intermediate Logic
PHIL 410 (3) Topics in Advanced Logic 1
PHIL 415 (3) Philosophy of Language
PHIL 419 (3) Epistemology
PHIL 506 (3) Seminar: Philosophy of Mind
PHIL 507 (3) Seminar: Cognitive Science

Psychology

PSYC 211 (3) Intro Behavioural Neuroscience
PSYC 212 (3) Perception
PSYC 213 (3) Cognition
PSYC 301 (3) Animal Learning & Theory
PSYC 308 (3) Behavioural Neuroscience 1

PSYC 311 (3) Human Cognition and the Brain
 PSYC 353 (3) Laboratory in Human Perception
 PSYC 410 (3) Special Topics in Neuropsychology
 PSYC 413 (3) Cognitive Development
 PSYC 470 (3) Memory and Brain

12.13.9 Computer Science (COMP)

McConnell Engineering Building, Room 318
 3480 University Street
 Montreal, QC H3A 2A7

Director — TBA

Emeritus Professors

Christopher Paige
 Godfried T. Toussaint

Professors

David M. Avis; B.Sc.(Wat.), Ph.D.(Stan.)
 Luc P. Devroye; M.S.(Louvain), Ph.D.(Texas) (*James McGill Professor*)
 Gregory Dudek; B.Sc.(Qu.), M.Sc., Ph.D.(Tor.)
 Laurie Hendren; B.Sc., M.Sc.(Qu.), Ph.D.(C'neil)
 Tim H. Merrett; B.Sc.(Qu.), D.Phil.(Oxf.)
 Prakash Panangaden; M.Sc.(IIT, Kanpur), M.S.(Chic.), Ph.D.(Wis.)
 Bruce Reed; B.Sc., Ph.D.(McG.) (*Canada Research Chair*) (*on leave 2008-09*)
 Kaleem Siddiqi; B.Sc.(Lafayette), M.Sc., Ph.D.(Brown) (*William Dawson Scholar*)
 Denis Thérien; B.Sc.(Montr.), M.Sc., Ph.D.(Wat.) (*James McGill Professor*)
 Sue Whitesides; M.S.E.E.(Stan.), Ph.D.(Wis.) (*on leave 2008-2009*)

Associate Professors

Xiao-Wen Chang; B.Sc., M.Sc.(Nanjing), Ph.D.(McG.)
 Claude Crépeau; B.Sc., M.Sc.(Montr.), Ph.D.(MIT)
 Nathan Friedman; B.A.(W.Ont.), Ph.D.(Tor.)
 Michael Trevor Hallett; B.Sc.(Qu.), Ph.D.(Vic. (BC))
 Bettina Kemme; B.Sc., M.Sc.(Erlangen-Nuremberg, Germany), Ph.D.(ETH, Zurich)
 Michael Langer; B.Sc.(McG.), M.Sc.(Tor.), Ph.D.(McG.)
 Doina Precup; B.Sc.(Cluj-Napoca), M.Sc., Ph.D.(Mass.) (*on leave 2008-2009*)
 Carl Tropper; B.Sc.(McG.), Ph.D.(Brooklyn Poly.) (*on leave 2008-09*)
 Hans Vangheluwe; B.Sc., M.Sc., D.Sc.(Ghent, Belgium)
 Clark Verbrugge; B.A.(Qu.), Ph.D.(McG.) (*on leave 2008-2009*)

Assistant Professors

Mathieu Blanchette; B.Sc., M.Sc.(Montr.), Ph.D.(Wash.)
 Patrick Hayden; B.Sc.(McG.), Ph.D.(Oxf.) (*Canada Research Chair*)
 Jörg Kienzle; Eng.Dip, Ph.D.(Swiss Fed. IT) (*on leave 2008-2009*)
 Paul Kry; B.Sc.(Wat.), M.Sc., Ph.D.(Br. Col.)
 Xue Liu; B.Sc.(Tsinghua), M.Sc.(Tsinghua), Ph.D.(Ill.)
 Muthucumar Maheswaran; B.Sc.(Peradeniya), M.Sc., Ph.D.(Purd.)
 Theodore J. Perkins; B.A.(Car.), M.Sc.(Wis.), Ph.D.(Mass.)
 Brigitte Pientka; B.Sc., M.Sc.(Darmstadt), Ph.D.(Carn. Mell.)
 Joëlle Pineau; B.Sc.(Wat.), M.Sc., Ph.D.(Carn. Mell.)
 Martin Robillard; B.Eng.(École Poly., Montr.), M.Sc., Ph.D.(Br. Col.)

Adrian Vetta; B.Sc., M.Sc.(LSE), Ph.D (MIT)

Faculty Lecturer

Joseph Vybihal; B.Sc., M.Sc.(McG.)

Associate Members

Daniel J. Levitin (*Psychology*), Thomas Richard Shultz (*Psychology*)

Adjunct Professors

Stefan Brands, Renato De Mori, Vincent Ferretti, Ioannis Rekleitis, Pascal Tesson

The study of computer science encompasses a broad range of areas from pure theory to hands-on applications including the analysis of algorithms, programming languages, compilers, databases, operating systems, robotics, computer vision, artificial intelligence and computational biology, graphics and computer networks.

The School of Computer Science (SOCS) currently offers eight undergraduate computing labs and two large open work areas consisting of workstations on the 3rd floor of the Lorne Trottier Building. In the McConnell Engineering Building, SOCS offers 13 laboratories dedicated to the following research areas: Advanced Networking, Artificial Intelligence, Computational Geometry, Computational Perception, Crypto and Quantum Information, Databases and Secondary Storage, Distributed Information Systems, Mobile Robotics and Vision, Modelling, Simulation and Design, Parallel and Distributed Simulation, Reasoning and Learning, Compilers, and Software Engineering.

The undergraduate teaching facilities consist of a network of over 250 Pentium IV, Pentium III and AMD class workstations equipped with 18" LCDs and running FreeBSD and GNU/Linux operating systems. The facility also includes seven Sun Enterprise servers, three Windows remote application servers, a central file server, backup server, mail server, and web server. Dialup Internet access is provided through the McGill Computing Centre.

The School of Computer Science offers:

- A major program in Computer Science through the Faculty of Science
- An honours program in Computer Science through the Faculty of Science
- A major program in Software Engineering through the Faculty of Science
- A joint major program in Statistics and Computer Science with the Department of Mathematics and Statistics through the Faculty of Science
- A joint honours program in Statistics and Computer Science with the Department of Mathematics and Statistics through the Faculty of Science
- A minor through the Faculty of Science and the Faculty of Engineering
- A joint major program in Mathematics and Computer Science with the Department of Mathematics and Statistics through the Faculty of Science (see [section 12.13.21 "Mathematics and Statistics \(MATH\)"](#))
- A joint honours program in Mathematics and Computer Science with the Department of Mathematics and Statistics through the Faculty of Science (see [section 12.13.21 "Mathematics and Statistics \(MATH\)"](#))
- A joint major with the Department of Physics through the Faculty of Science (see [section 12.13.29 "Physics \(PHYS\)"](#))
- A major concentration and a minor concentration through the Faculty of Arts
- A minor in Computational Molecular Biology
- Liberal Program: Core Science Component in Computer Science
- Special programs involving Computer Science are also available in the Faculties of Management, Engineering and Music.

Some graduate courses in Computer Science are available to suitably qualified senior undergraduates. The School also offers graduate research studies leading to M.Sc. and Ph.D. degrees.

For further details, consult the *Graduate and Postdoctoral Studies Calendar*.

The School's courses are available as electives to Engineering students. Engineering students interested in a Minor in Computer Science should consult "[Computer Science Courses and Minor Program](#)", in section 8.6.5 in the Faculty of Engineering section.

All students planning to enter *Computer Science programs* should make an appointment with an academic adviser through the School's Undergraduate Student Affairs Office.

Internship Opportunities

Students who want to get practical experience in industry before graduation are encouraged to participate in one of the following internship programs:

The Internship Year in Science (IYS) is an academic program offered for a duration of 8, 12, or 16 months. It will be reflected on your transcript and is included in your program name (Bachelor of Science - Internship Program).

The Industrial Practicum (IP) has a duration of 4 months and is usually carried out starting in May. It will appear as a 0-credit, pass/fail course on your transcript. If you complete two IPs, the name of your program will change to include the word internship.

For more information on these programs, consult "[Industrial Practicum \(IP\) and Internship Year in Science \(IYS\)](#)", in section 12.12.4 or www.mcgill.ca/science/internships-field/internships.

Research Opportunities

Several research opportunities are provided to interested students thorough the 396 project courses, as well as through NSERC undergraduate research assistantships in the School. Students who take 396 courses in more than one department can be eligible for the Dean's Multidisciplinary Undergraduate Research list. For more information, consult "[Dean's Multidisciplinary Undergraduate Research List](#)", in section 12.12.1.2.

Admissions

Students intending to pursue a Major in Computer Science or Software Engineering should have a reasonable mathematical background and should have completed MATH 140 (or MATH 150), MATH 141 (or MATH 151) and MATH 133, or their CEGEP equivalents. These three mathematics courses should have been completed with at least an average of B-. A background in computer science is not necessary as students may start their studies with the introductory course COMP 202. However, taking COMP 202 in the Freshman Year, or completing an equivalent course in CEGEP, would be an asset and allows students to take more advanced courses earlier in their program.

More information about the admission process and the programs is available at www.cs.mcgill.ca.

MINOR IN COMPUTATIONAL SCIENCE (24 credits)

The Computer Science Minor may be taken in conjunction with any program in the Faculties of Science and Engineering (with the exception of other programs in Computer Science). Students must obtain approval from the adviser of their main program. Students are strongly encouraged to talk to an adviser of the School of Computer Science before choosing the complementary courses. Approval must be given by the School for the particular selection of courses to be credited towards the Computer Science Minor. This should be done before registering for the final term of studies.

Students may receive credit towards their Computer Science Minor by taking certain approved courses outside the School of Computer Science. These courses must have a high computer science content. A student will not be permitted to receive more than six credits from such courses. These courses must be approved by the School of Computer Science in advance.

If a student's Major program requires Computer Science courses, up to six credits of Computer Science courses may be used to fulfill both Major and Minor requirements.

Required Courses (9 credits)

COMP 202* (3) Introduction to Computing 1
COMP 203 (3) Introduction to Computing 2
or COMP 250 (3) Introduction to Computer Science
COMP 206 (3) Introduction to Software Systems

* Students who have sufficient knowledge in a programming language do not need to take COMP 202, but it must be replaced with an additional computer science complementary course.

Complementary Courses (15 credits)

selected from:

COMP 251** (3) Data Structures and Algorithms
COMP 273 (3) Introduction to Computer Systems
MATH 222 (3) Calculus 3
MATH 240 (3) Discrete Structures 1

and computer science courses at the 300-level or above (except COMP 364, COMP 396, COMP 400, COMP 431).

** Note: COMP 251 is a prerequisite for many of the other complementary courses.

MINOR IN COMPUTATIONAL MOLECULAR BIOLOGY (24 credits)

Computational molecular biology is the sub-discipline of bioinformatics that is located at the intersection of computer science and molecular biology. The focus of this area is on techniques for managing and analyzing molecular sequence data. This program will provide undergraduate students in the biological sciences with the skills from computer science to solve computational problems arising in molecular biology and genomics and will provide students with the necessary skills to build software tools from these algorithms.

The Minor in Computational Molecular Biology is not open to students in Computer Science or Joint Computer Science programs.

Required Courses (24 credits)

COMP 202 (3) Introduction to Computing 1
COMP 203 (3) Introduction to Computing 2
COMP 251 (3) Data Structures and Algorithms
COMP 360 (3) Algorithm Design Techniques
COMP 462 (3) Computational Biology Methods
COMP 563 (3) Molecular Evolution Theory
COMP 564 (3) Computational Gene Regulation
MATH 240 (3) Discrete Structures 1

MAJOR IN COMPUTER SCIENCE (60-63 credits)

Students should talk to an academic adviser before choosing their complementary courses.

Required Courses (27-30 credits)

COMP 202* (3) Introduction to Computing 1
COMP 206 (3) Introduction to Software Systems
COMP 250 (3) Introduction to Computer Science
COMP 251 (3) Data Structures and Algorithms
COMP 273 (3) Introduction to Computer Systems
COMP 302 (3) Programming Languages and Paradigms
COMP 310 (3) Operating Systems
MATH 222 (3) Calculus 3
MATH 223 (3) Linear Algebra
MATH 240 (3) Discrete Structures 1

* Students who have sufficient knowledge in a programming language do not need to take COMP 202.

Complementary Courses (33 credits)

At least 6 credits selected from:

COMP 330 (3) Theoretical Aspects: Computer Science
COMP 350 (3) Numerical Computing
COMP 360 (3) Algorithm Design Techniques

At least 3 credits selected from:

COMP 303 (3) Software Development

COMP 304 (3) Object-oriented Design

3-9 credits selected from:

(Must include at least one of MATH 323 and MATH 340)

MATH 318 (3) Mathematical Logic

MATH 323 (3) Probability

MATH 324 (3) Statistics

MATH 340 (3) Discrete Structures 2

The remaining credits selected from computer science courses at the 300-level or above (except COMP 364, COMP 396, COMP 400, COMP 431) and ECSE 508.

Note: Students have to make sure that they have the appropriate pre-requisites when choosing upper level courses.

MAJOR IN COMPUTER SCIENCE: COMPUTER GAMES OPTION (62-69 credits)

This program is a specialization within Computer Science. It fulfills all the basic requirements of the Major in Computer Science. Complementary courses focus on topics that are important to understanding the technology behind computer games and to gaining experience in software development and design needed for computer game development.

Required Courses (41-44 credits)

COMP 202* (3) Introduction to Computing 1
 COMP 250 (3) Introduction to Computer Science
 COMP 251 (3) Data Structures and Algorithms
 COMP 206 (3) Introduction to Software Systems
 COMP 273 (3) Introduction to Computer Systems
 COMP 302 (3) Programming Languages and Paradigms
 COMP 308 (1) Computer Systems Lab
 COMP 310 (3) Operating Systems
 COMP 322 (1) Introduction to C++
 COMP 330 (3) Theoretical Aspects: Computer Science
 COMP 361 (3) Systems Development Project
 COMP 557 (3) Fundamentals of Computer Graphics
 MATH 222 (3) Calculus 3
 MATH 223 (3) Linear Algebra
 MATH 240 (3) Discrete Structures 1
 MATH 323 (3) Probability

* Students who have sufficient knowledge in a programming language do not need to take COMP 202.

Complementary Courses (21-25 credits)

3 credits selected from:

COMP 350 (3) Numerical Computing
 COMP 360 (3) Algorithm Design Techniques

6-8 credits selected from:

COMP 303 (3) Software Development
 COMP 304 (3) Object-oriented Design
 COMP 335 (3) Software Engineering Methods
 COMP 529 (4) Software Architecture
 COMP 533 (3) Object-Oriented Software Development

6 credits selected from:

COMP 409 (3) Concurrent Programming
 COMP 421 (3) Database Systems
 COMP 535 (3) Computer Networks 1
 or COMP 435 (3) Basics of Computer Networks

6-8 credits selected from:

COMP 424 (3) Topics: Artificial Intelligence 1
 COMP 507 (3) Computational Geometry
 COMP 521 (4) Modern Computer Games
 COMP 522 (4) Modelling and Simulation

MAJOR IN SOFTWARE ENGINEERING (69 credits)

Required Courses (60 credits)

COMP 202* (3) Introduction to Computing 1
 COMP 206 (3) Introduction to Software Systems
 COMP 250 (3) Introduction to Computer Science

COMP 251 (3) Data Structures and Algorithms
 COMP 273 (3) Introduction to Computer Systems
 COMP 302 (3) Programming Languages and Paradigms
 COMP 304 (3) Object-oriented Design
 COMP 310 (3) Operating Systems
 or ECSE 427 (3) Operating Systems
 COMP 330 (3) Theoretical Aspects: Computer Science
 COMP 360 (3) Algorithm Design Techniques
 COMP 361 (3) Systems Development Project
 ECSE 321 (3) Introduction to Software Engineering
 ECSE 428 (3) Software Engineering Practice
 ECSE 429 (3) Software Validation
 ECSE 495 (3) Software Engineering Design Project
 MATH 222 (3) Calculus 3
 MATH 223 (3) Linear Algebra
 MATH 240 (3) Discrete Structures 1
 MATH 323 (3) Probability
 MATH 324 (3) Statistics

* Students who have sufficient knowledge in a programming language do not need to take COMP 202.

Complementary Courses (9 credits)

selected from the following:

COMP 303 (3) Software Development
 COMP 308 (1) Computer Systems Lab
 COMP 321 (1) Programming Challenges
 COMP 322 (1) Introduction to C++
 COMP 335 (3) Software Engineering Methods
 COMP 350 (3) Numerical Computing
 COMP 409 (3) Concurrent Programming
 COMP 420 (3) Secondary Storage Algorithms and Data Structures
 COMP 421 (3) Database Systems
 COMP 424 (3) Topics: Artificial Intelligence 1
 COMP 435 (3) Basics of Computer Networks
 COMP 505 (3) Advanced Computer Architecture
 COMP 512 (4) Distributed Systems
 COMP 520 (4) Compiler Design
 COMP 521 (4) Modern Computer Games
 COMP 522 (4) Modelling and Simulation
 COMP 523 (3) Language-based Security
 COMP 525 (3) Formal Verification
 COMP 526 (3) Probabilistic Reasoning and AI
 COMP 529 (4) Software Architecture
 COMP 533 (3) Object-Oriented Software Development
 COMP 535 (3) Computer Networks 1
 COMP 537 (3) Internet Programming
 COMP 547 (4) Cryptography and Data Security
 COMP 558 (3) Fundamentals of Computer Vision
 COMP 560 (3) Graph Algorithms and Applications
 COMP 566 (3) Discrete Optimization 1
 COMP 575 (3) Fundamentals of Distributed Algorithms
 COMP 577 (3) Distributed Database Systems
 ECSE 200 (3) Fundamentals of Electrical Engineering
 ECSE 210 (3) Circuit Analysis
 ECSE 291 (2) Electrical Measurement Laboratory
 ECSE 303 (3) Signals and Systems 1
 ECSE 304 (3) Signals and Systems 2
 ECSE 322 (3) Computer Engineering
 ECSE 323 (5) Digital Systems Design
 ECSE 404 (3) Control Systems
 ECSE 411 (3) Communications Systems
 ECSE 420 (3) Parallel Computing
 ECSE 421 (3) Embedded Systems
 ECSE 422 (3) Fault Tolerant Computing
 ECSE 424 (3) Human-Computer Interaction
 ECSE 425 (3) Computer Organization and Architecture
 ECSE 426 (3) Microprocessor Systems
 ECSE 504 (3) Computer Control

ECSE 508	(3)	Multi-Agent Systems
ECSE 522	(3)	Asynchronous Circuits and Systems
ECSE 526	(3)	Artificial Intelligence
ECSE 529	(3)	Image Processing and Communication
ECSE 530	(3)	Logic Synthesis
ECSE 532	(3)	Computer Graphics
or COMP 557	(3)	Fundamentals of Computer Graphics
MATH 315	(3)	Ordinary Differential Equations
MATH 381	(3)	Complex Variables and Transforms

LIBERAL PROGRAM: CORE SCIENCE COMPONENT IN COMPUTER SCIENCE (45 credits)

Required Courses (21 credits)

*COMP 202	(3)	Introduction to Computing 1
COMP 206	(3)	Introduction to Software Systems
COMP 250	(3)	Introduction to Computer Science
COMP 251	(3)	Data Structures and Algorithms
COMP 273	(3)	Introduction to Computer Systems
MATH 222	(3)	Calculus 3
MATH 240	(3)	Discrete Structures 1

* Students who have sufficient knowledge in a programming language do not need to take COMP 202, but it must be replaced with an additional computer science complementary course.

Complementary Courses (24 credits)

3 - 6 credits from:

MATH 223	(3)	Linear Algebra
MATH 318	(3)	Mathematical Logic
MATH 323	(3)	Probability
MATH 324	(3)	Statistics
MATH 340	(3)	Discrete Structures 2

At least 3 credits from:

COMP 330	(3)	Theoretical Aspects: Computer Science
COMP 350	(3)	Numerical Computing
COMP 360	(3)	Algorithm Design Techniques

At least 3 credits from:

COMP 302	(3)	Programming Languages and Paradigms
COMP 303	(3)	Software Development

The remaining complementary courses should be selected from any COMP courses at the 300-level or above except COMP 364, COMP 396, COMP 400 and COMP 431.

Note: Advanced COMP courses have more pre-requisites than the required courses for this program. Students have to make sure that they have the appropriate pre-requisites when choosing upper level courses.

HONOURS IN COMPUTER SCIENCE (72-75 credits)

Honours students must maintain a CGPA of at least 3.00 during their studies and at graduation.

Required Courses (42-45 credits)

COMP 202*	(3)	Introduction to Computing 1
COMP 206	(3)	Introduction to Software Systems
COMP 250	(3)	Introduction to Computer Science
COMP 252	(3)	Algorithms and Data Structures
COMP 273	(3)	Introduction to Computer Systems
COMP 302	(3)	Programming Languages and Paradigms
COMP 310	(3)	Operating Systems
COMP 330	(3)	Theoretical Aspects: Computer Science
COMP 350	(3)	Numerical Computing
COMP 362	(3)	Honours Algorithm Design
COMP 400	(3)	Technical Project and Report
MATH 222	(3)	Calculus 3
MATH 223	(3)	Linear Algebra
MATH 240	(3)	Discrete Structures 1
MATH 340	(3)	Discrete Structures 2
or MATH 350	(3)	Graph Theory and Combinatorics

* Students who have sufficient knowledge in a programming language do not need to take COMP 202.

Complementary Courses (30 credits)

At least 3 credits selected from:

COMP 303	(3)	Software Development
COMP 304	(3)	Object-oriented Design

6 credits selected from:

MATH 318	(3)	Mathematical Logic
MATH 323	(3)	Probability
MATH 324	(3)	Statistics

The remaining credits selected from computer science courses at the 300-level or above (except COMP 364, COMP 396, COMP 400, COMP 431) and ECSE 508. At least 12 credits must be at the 500 level.

JOINT MAJOR IN MATHEMATICS AND COMPUTER SCIENCE under "**Mathematics and Statistics (MATH)**", in section 12.13.21.

JOINT HONOURS IN MATHEMATICS AND COMPUTER SCIENCE under "**Mathematics and Statistics (MATH)**", in section 12.13.21. Students must consult an Honours adviser in both Departments.

JOINT MAJOR IN STATISTICS AND COMPUTER SCIENCE under "**Mathematics and Statistics (MATH)**", in section 12.13.21.

JOINT HONOURS IN STATISTICS AND COMPUTER SCIENCE under "**Mathematics and Statistics (MATH)**", in section 12.13.21. Students must consult an Honours adviser in both Departments.

JOINT MAJOR IN PHYSICS AND COMPUTER SCIENCE under "**Physics (PHYS)**", in section 12.13.29.

MINOR IN COGNITIVE SCIENCE

Students following Major or Honours programs in Computer Science may want to consider the Minor in Cognitive Science.

12.13.10 Earth and Planetary Sciences (EPSC)

Chair — John Stix

Emeritus Professors

Jafar Arkani-Hamed; B.Eng.(Tehran), Ph.D.(MIT)
Wallace H. MacLean; B.Geol.Eng.(Colorado Sch. of Mines),
M.Sc.(Appl.), Ph.D.(McG.)
Eric W. Mountjoy; B.A.Sc.(Br. Col.), Ph.D.(Tor.) (*William E. Logan
Emeritus Professor of Geology*)
Colin W. Stearn; B.Sc.(McM.), M.Sc., Ph.D.(Yale), F.R.S.C.

Professors

Don R. Baker; A.B.(Chic.), Ph.D.(Penn. St.)
Don M. Francis; B.Sc.(McG.), M.Sc.(Br. Col.), Ph.D.(MIT)
(*Dawson Professor of Geology*)
Andrew J. Hynes; B.Sc.(Tor.), Ph.D.(Cant.) (*William E. Logan
Professor of Geology*)
Olivia G. Jensen; B.Sc., M.Sc., Ph.D.(Br. Col.)
Alfonso Mucci; B.Sc., M.Sc.(Montr.), Ph.D.(Miami)
A.E. (Willy) Williams-Jones; B.Sc., M.Sc.(Natal), Ph.D.(Qu.)

Associate Professors

Bruce Hart; B.A.(McM.), M.Sc.(UQ à Rimouski), Ph.D.(W. Ont.)
Jeanne Paquette; B.Sc., M.Sc.(McG.), Ph.D.(Stonybrook)
Michael Riedel; Vordipl.(Cl.-Zell.), Dipl.(Kiel), Ph.D.(Vic. (BC))
(*T.H. Clark Chair in Sedimentary and Petroleum Geology*)
John Stix; A.B.(Dart.), M.Sc., Ph.D.(Tor.)

Hojatollah Vali; B.Sc., M.Sc., Ph.D.(Munich) (*Director, Electron Microscopy Centre*)

Assistant Professors

Jeffrey McKenzie; B.Sc.(McG.), M.Sc., Ph.D.(Syr.)

Boswell Wing; A.B.(Harv.), M.A., Ph.D.(Johns H.) (*Canada Research Chair in Earth Systems Science (Geochemistry)*)

Faculty Lecturer

W. Minarik; B.A.(St. Olaf), M.Sc.(Wash.), Ph.D.(Rensselaer)

Adjunct Professors

M. Duchesne, H. Hofmann, H. Short, B. Sundby

Retired Professors

R. Hesse, R.F. Martin

The domain of Earth and Planetary Sciences includes the solid Earth and its hydrosphere and extends to the neighbouring terrestrial planets. It is a multidisciplinary field in which the principles of chemistry, physics, and mathematics are applied to the rich problems of the real world in order to understand how planets like the Earth work; in the past, the present, and the future.

Career opportunities are many and varied for graduates in the Earth and Planetary Sciences. There is presently a demand for graduates with expertise in many disciplines of the Earth Sciences. Our students are recruited for employment in the petroleum and mining industries, and in the environmental sector.

During the Summer months, undergraduate students are generally able to obtain employment from industry or government agencies, providing them with both financial benefits and first-hand geoscientific experience. Career opportunities in planetary science are present in universities and research organizations.

The Department has a full-time staff of 14 professors and one faculty lecturer. There are approximately 40 graduate and 35 undergraduate students. Classes are therefore small at all levels, resulting in an informal and friendly atmosphere throughout the Department in which most of the faculty and students interact on a first-name basis. Emphasis is placed equally on quality teaching and research providing undergraduate students with a rich and exciting environment in which to explore and learn.

The undergraduate curriculum is designed to provide both a rigorous foundation in the physical sciences and the flexibility to create an individualized program in preparation for careers in industry, teaching, or research. In addition to the Major and Honours undergraduate programs, the Department is part of the Earth System Science Inter-departmental program, and also offers a Joint Major in Physics and Geophysics which provides a rigorous mathematics and physics preparation and a geological background in the geosciences.

The Minor in Earth and Planetary Sciences offers students from other departments the opportunity to obtain exposure to the Earth Sciences, while the Minor in Geochemistry is oriented towards Chemistry Major students who want to see the application of chemistry to problems in Earth and Planetary Sciences.

Students interested in any of the programs should inquire at Room 238, Frank Dawson Adams Building, (514) 398-6767, or should consult the Undergraduate Director, Bruce Hart, Room 332, Frank Dawson Adams Building, (514) 398-3677, if they do not have an adviser.

A Science Major Concentration in Earth, Atmosphere and Ocean Sciences is available to students pursuing the B.A. & Sc. degree. This Major Concentration is described in the Bachelor of Arts and Science section of the Calendar; see "[Earth, Atmosphere and Ocean Sciences](#)", in [section 6.12.8](#) for details.

MINOR IN EARTH AND PLANETARY SCIENCES

(18 credits)

Required Courses (6 credits)

EPSC 210 (3) Introductory Mineralogy

EPSC 212 (3) Introductory Petrology

Complementary Courses (12 credits)

EPSC 201 (3) Understanding Planet Earth

or EPSC 233(3) Earth and Life History

9 credits selected from:

EPSC 203 (3) Structural Geology

EPSC 231 (3) Field School 1

EPSC 243 (3) Environmental Geology

EPSC 334 (3) Invertebrate Paleontology

EPSC 350 (3) Tectonics

EPSC 451 (3) Hydrothermal Mineral Deposits

EPSC 452 (3) Mineral Deposits

EPSC 542 (3) Chemical Oceanography

EPSC 561 (3) Ore-forming Processes 1

EPSC 562 (3) Ore-forming Processes 2

BIOL 352 (3) Vertebrate Evolution

Other Earth and Planetary Sciences courses may be substituted with permission.

MINOR IN GEOCHEMISTRY (24 credits)

Required Courses (9 credits)

EPSC 201 (3) Understanding Planet Earth

EPSC 210 (3) Introductory Mineralogy

EPSC 212 (3) Introductory Petrology

Complementary Courses (15 credits)

15 credits selected from:

EPSC 220 (3) Principles of Geochemistry

EPSC 243 (3) Environmental Geology

EPSC 501 (3) Crystal Chemistry

EPSC 519 (3) Isotope Geology

EPSC 542 (3) Chemical Oceanography

EPSC 545 (3) Low-Temperature Geochemistry

EPSC 561 (3) Ore-forming Processes 1

EPSC 562 (3) Ore-forming Processes 2

LIBERAL PROGRAM: CORE SCIENCE COMPONENT IN EARTH AND PLANETARY SCIENCES (45 credits)

Required Courses (21 credits)

EPSC 203 (3) Structural Geology

EPSC 210 (3) Introductory Mineralogy

EPSC 212 (3) Introductory Petrology

EPSC 220 (3) Principles of Geochemistry

EPSC 231 (3) Field School 1

EPSC 233 (3) Earth and Life History

EPSC 320 (3) Elementary Earth Physics

Complementary Courses (24 credits)

3 credits, one of:

EPSC 331 (3) Field School 2

EPSC 341 (3) Field School 3

plus 21 credits chosen from the following:

EPSC 312 (3) Spectroscopy of Minerals

EPSC 330 (3) Earthquakes and Earth Structure

EPSC 334 (3) Invertebrate Paleontology

EPSC 350 (3) Tectonics

EPSC 423 (3) Igneous Petrology

EPSC 425 (3) Sediments to Sequences

EPSC 435 (3) Geophysical Applications

EPSC 445 (3) Metamorphic Petrology

EPSC 451 (3) Hydrothermal Mineral Deposits

EPSC 452 (3) Mineral Deposits

EPSC 455 (3) Sedimentary Geology

EPSC 501 (3) Crystal Chemistry

EPSC 519 (3) Isotope Geology

EPSC 530 (3) Volcanology

EPSC 542 (3) Chemical Oceanography

EPSC 547 (3) High Temperature Geochemistry

EPSC 548 (3) Processes of Igneous Petrology

EPSC 549 (3) Hydrogeology

EPSC 550 (3) Selected Topics 1

EPSC 551 (3) Selected Topics 2

EPSC 552 (3) Selected Topics 3

EPSC 561	(3)	Ore-forming Processes 1
EPSC 562	(3)	Ore-forming Processes 2
EPSC 570	(3)	Cosmochemistry
EPSC 580	(3)	Aqueous Geochemistry
EPSC 590	(3)	Applied Geochemistry Seminar
ESYS 300	(3)	Investigating the Earth System
ESYS 301	(3)	Earth System Modelling
ESYS 500	(3)	Earth System Applications

Note: Courses at the 300 or higher level in other departments in the Faculties of Science and Engineering may also be used as complementary credits, with the permission of the Director of Undergraduate Studies.

MAJOR IN EARTH AND PLANETARY SCIENCES (66 credits)

Undergraduate Director: Bruce Hart, FD Adams 332,
(514) 398-3677

U1 Required Courses (27 credits)

EPSC 203	(3)	Structural Geology
EPSC 210	(3)	Introductory Mineralogy
EPSC 212	(3)	Introductory Petrology
EPSC 220	(3)	Principles of Geochemistry
EPSC 231	(3)	Field School 1
EPSC 233	(3)	Earth and Life History
EPSC 312	(3)	Spectroscopy of Minerals
MATH 222	(3)	Calculus 3
approved	(3)	statistics course

Note: Students who have not had the following course or its equivalent in CEGEP or the Freshman Program may be required to take MATH 133 Vectors, Matrices and Geometry.

U2 and/or U3 Required Courses (24 credits)

EPSC 320	(3)	Elementary Earth Physics
EPSC 334	(3)	Invertebrate Paleontology
EPSC 350	(3)	Tectonics
EPSC 423	(3)	Igneous Petrology
EPSC 445	(3)	Metamorphic Petrology
EPSC 452	(3)	Mineral Deposits
EPSC 455	(3)	Sedimentary Geology
EPSC 519	(3)	Isotope Geology

Complementary Courses (15 credits)

3 credits, one of:

EPSC 331	(3)	Field School 2
EPSC 341	(3)	Field School 3

plus 12 credits (4 courses) chosen from the following:

EPSC 330	(3)	Earthquakes and Earth Structure
EPSC 425	(3)	Sediments to Sequences
EPSC 435	(3)	Geophysical Applications
EPSC 451	(3)	Hydrothermal Mineral Deposits
EPSC 501	(3)	Crystal Chemistry
EPSC 530	(3)	Volcanology
EPSC 542	(3)	Chemical Oceanography
EPSC 547	(3)	High Temperature Geochemistry
EPSC 548	(3)	Processes of Igneous Petrology
EPSC 549	(3)	Hydrogeology
EPSC 550	(3)	Selected Topics 1
EPSC 551	(3)	Selected Topics 2
EPSC 552	(3)	Selected Topics 3
EPSC 561	(3)	Ore-forming Processes 1
EPSC 562	(3)	Ore-forming Processes 2
EPSC 570	(3)	Cosmochemistry
EPSC 580	(3)	Aqueous Geochemistry
EPSC 590	(3)	Applied Geochemistry Seminar

Note: Courses at the 300 or higher level in other departments in the Faculties of Science and Engineering may also be used as complementary credits, with the permission of the Director of Undergraduate Studies.

HONOURS IN EARTH SCIENCES (75 credits)
(CGPA \geq 3.20)

U1 Required Courses (27 credits)

EPSC 203	(3)	Structural Geology
EPSC 210	(3)	Introductory Mineralogy
EPSC 212	(3)	Introductory Petrology
EPSC 220	(3)	Principles of Geochemistry
EPSC 231	(3)	Field School 1
EPSC 233	(3)	Earth and Life History
EPSC 312	(3)	Spectroscopy of Minerals
MATH 222	(3)	Calculus 3
approved	(3)	statistics course

Note: Students who have not had the following course or its equivalent in CEGEP or the Freshman Program may be required to take MATH 133 Vectors, Matrices and Geometry.

U2 and/or U3 Required Courses (33 credits)

EPSC 320	(3)	Elementary Earth Physics
EPSC 350	(3)	Tectonics
EPSC 423	(3)	Igneous Petrology
EPSC 445	(3)	Metamorphic Petrology
EPSC 452	(3)	Mineral Deposits
EPSC 455	(3)	Sedimentary Geology
EPSC 480D1	(3)	Honours Research Project
EPSC 480D2	(3)	Honours Research Project
EPSC 519	(3)	Isotope Geology
MATH 314	(3)	Advanced Calculus
MATH 315	(3)	Ordinary Differential Equations

Complementary Courses (15 credits)

3 credits, one of:

EPSC 331	(3)	Field School 2
EPSC 341	(3)	Field School 3

plus 12 credits (4 courses) chosen from the following:

EPSC 330	(3)	Earthquakes and Earth Structure
EPSC 334	(3)	Invertebrate Paleontology
EPSC 425	(3)	Sediments to Sequences
EPSC 435	(3)	Geophysical Applications
EPSC 451	(3)	Hydrothermal Mineral Deposits
EPSC 501	(3)	Crystal Chemistry
EPSC 530	(3)	Volcanology
EPSC 542	(3)	Chemical Oceanography
EPSC 547	(3)	High Temperature Geochemistry
EPSC 548	(3)	Processes of Igneous Petrology
EPSC 549	(3)	Hydrogeology
EPSC 550	(3)	Selected Topics 1
EPSC 551	(3)	Selected Topics 2
EPSC 552	(3)	Selected Topics 3
EPSC 561	(3)	Ore-forming Processes 1
EPSC 562	(3)	Ore-forming Processes 2
EPSC 570	(3)	Cosmochemistry
EPSC 580	(3)	Aqueous Geochemistry
EPSC 590	(3)	Applied Geochemistry Seminar

Note: Courses at the 300 or higher level in other departments in the Faculties of Science and Engineering may also be used as complementary credits, with the permission of the Director of Undergraduate Studies.

HONOURS IN PLANETARY SCIENCES (81 credits)
CGPA \geq 3.20

U1 Required Courses (27 credits)

EPSC 203	(3)	Structural Geology
EPSC 210	(3)	Introductory Mineralogy
EPSC 212	(3)	Introductory Petrology
EPSC 220	(3)	Principles of Geochemistry
EPSC 231	(3)	Field School 1
EPSC 233	(3)	Earth and Life History
EPSC 312	(3)	Spectroscopy of Minerals
MATH 222	(3)	Calculus 3

MATH 223 (3) Linear Algebra

Note: Students who have not had the following course or its equivalent in CEGEP or the Freshman Program may be required to take MATH 133 Vectors, Matrices and Geometry.

U2 and/or U3 Required Courses (42 credits)

EPSC 320	(3)	Elementary Earth Physics
EPSC 330	(3)	Earthquakes and Earth Structure
EPSC 350	(3)	Tectonics
EPSC 423	(3)	Igneous Petrology
EPSC 480D1	(3)	Honours Research Project
EPSC 480D2	(3)	Honours Research Project
EPSC 510	(3)	Geodynamics and Geomagnetism
EPSC 519	(3)	Isotope Geology
EPSC 570	(3)	Cosmochemistry
MATH 314	(3)	Advanced Calculus
MATH 315	(3)	Ordinary Differential Equations
MATH 317	(3)	Numerical Analysis
MATH 319	(3)	Introduction to Partial Differential Equations
PHYS 340	(3)	Majors Electricity and Magnetism

Complementary Courses (12 credits)

3 credits, one of:

PHYS 251	(3)	Honours Classical Mechanics 1
PHYS 230	(3)	Dynamics of Simple Systems

plus 9 credits (3 courses) chosen from the following:

EPSC 334	(3)	Invertebrate Paleontology
EPSC 425	(3)	Sediments to Sequences
EPSC 435	(3)	Geophysical Applications
EPSC 451	(3)	Hydrothermal Mineral Deposits
EPSC 501	(3)	Crystal Chemistry
EPSC 530	(3)	Volcanology
EPSC 542	(3)	Chemical Oceanography
EPSC 547	(3)	High Temperature Geochemistry
EPSC 548	(3)	Processes of Igneous Petrology
EPSC 549	(3)	Hydrogeology
EPSC 550	(3)	Selected Topics 1
EPSC 551	(3)	Selected Topics 2
EPSC 552	(3)	Selected Topics 3
EPSC 561	(3)	Ore-forming Processes 1
EPSC 562	(3)	Ore-forming Processes 2
EPSC 570	(3)	Cosmochemistry
EPSC 580	(3)	Aqueous Geochemistry
EPSC 590	(3)	Applied Geochemistry Seminar

Note: Courses at the 300 or higher level in other departments in the Faculties of Science and Engineering may also be used as complementary credits, with the permission of the Director of Undergraduate Studies.

JOINT MAJOR IN PHYSICS AND GEOPHYSICS under "Physics (PHYS)", in section 12.13.29.**12.13.11 Earth System Science Interdepartmental Major (ESYS)**

Earth System Science (ESYS) views Earth as a single integrated system that provides a unifying context to examine the interrelationships between all components of the Earth system. The approach concentrates on the nature of linkages among the biological, chemical, human and physical subsystems of the Earth. ESS primarily involves studying the cycling of matter and energy through the atmosphere, biosphere, cryosphere, exosphere, and hydrosphere. ESS examines the dynamics and interrelationships among these processes at time scales that range from billions of years to days, and seeks to understand how these interrelationships have changed over time.

The ESS Major is offered jointly by the following departments:

- Atmospheric and Oceanic Sciences (ATOC)
- Earth and Planetary Sciences (EPSC)
- Geography (GEOG)

The individual departments, their disciplines, and specific courses offered by them are described in their respective entries in this Calendar.

Program Advisers:

Department of Atmospheric and Oceanic Sciences:
 Professor Bruno Tremblay
 Burnside Hall, Room 947
 E-mail: bruno.tremblay@mcgill.ca
 Telephone: (514) 398-4369

Department of Earth and Planetary Sciences:
 Professor Jeffrey McKenzie
 Frank Dawson Adams, Room 131C
 E-mail: mckenzie@eps.mcgill.ca
 Telephone: (514) 398-3833

Department of Geography:
 Professor Bernhard Lehner
 Burnside Hall, Room 612
 E-mail: bernhard.lehner@mcgill.ca
 Telephone: (514) 398-8794

MAJOR IN EARTH SYSTEM SCIENCE (57 credits)**Required Courses (36 credits)**

ATOC 214	(3)	Introduction: Physics of the Atmosphere
BIOL 215	(3)	Introduction to Ecology and Evolution
ENVR 200	(3)	The Global Environment
ENVR 201	(3)	Society and Environment
ESYS 200	(3)	Earth System Processes
GEOG 203	(3)	Environmental Systems
MATH 203	(3)	Principles of Statistics 1 (or equivalent course)
MATH 222	(3)	Calculus 3
ATOC 308	(3)	Principles of Remote Sensing or GEOG 308
ESYS 300	(3)	Investigating the Earth System
ESYS 301	(3)	Earth System Modelling
ESYS 500	(3)	Earth Systems Applications

Complementary Courses (21 credits)

3 credits, one of the following courses:

EPSC 210	(3)	Introductory Mineralogy
EPSC 220	(3)	Principles of Geochemistry

18 credits from the following course list, with at least 3 credits from each of subject codes ATOC, EPSC, and GEOG. At least 9 of the 18 credits must be at the 400 level or higher.

ATOC 215	(3)	Oceans, Weather and Climate
ATOC 309	(3)	Weather Radars and Satellites
ATOC 315	(3)	Water in the Atmosphere
ATOC 412	(3)	Atmospheric Dynamics
ATOC 419	(3)	Advances in Chemistry of Atmosphere
ATOC 512	(3)	Atmospheric and Oceanic Dynamics
ATOC 513	(3)	Waves and Stability
ATOC 530	(3)	Climate Dynamics 1
ATOC 531	(3)	Climate Dynamics 2
ATOC 540	(3)	Synoptic Meteorology 1
ATOC 541	(3)	Synoptic Meteorology 2
BIOL 308	(3)	Ecological Dynamics
BIOL 309	(3)	Mathematical Models in Biology
BIOL 432	(3)	Limnology
BIOL 441	(3)	Biological Oceanography
BIOL 465	(3)	Conservation Biology
BIOL 534	(3)	Theoretical Ecology
BIOL 540	(3)	Ecology of Species Invasions
BREE 319	(3)	Engineering Mathematics (<i>offered on Macdonald Campus</i>)
ECON 347	(3)	Economics of Climate Change
ECON 405	(3)	Natural Resource Economics
EPSC 212	(3)	Introductory Petrology
EPSC 312	(3)	Spectroscopy of Minerals
EPSC 320	(3)	Elementary Earth Physics
EPSC 330	(3)	Earthquakes & Earth Structure

EPSC 331	(3)	Field School 2
EPSC 334	(3)	Invertebrate Paleontology
EPSC 341	(3)	Field School 3
EPSC 350	(3)	Tectonics
EPSC 423	(3)	Igneous Petrology
EPSC 425	(3)	Sediments to Sequences
EPSC 445	(3)	Metamorphic Petrology
EPSC 451	(3)	Hydrothermal Mineral Deposits
EPSC 452	(3)	Mineral Deposits
EPSC 455	(3)	Sedimentary Geology
EPSC 519	(3)	Isotope Geology
EPSC 525	(3)	Subsurface Mapping
EPSC 530	(3)	Volcanology
EPSC 542	(3)	Chemical Oceanography
EPSC 549	(3)	Hydrogeology
EPSC 580	(3)	Aqueous Geochemistry
EPSC 590	(3)	Applied Geochemistry Seminar
GEOG 272	(3)	Earth's Changing Surface
GEOG 305	(3)	Soils and Environment
GEOG 306	(3)	Raster Geo-Information Science
GEOG 307	(3)	Socioeconomic Applications of GIS
GEOG 321	(3)	Climatic Environments
GEOG 322	(3)	Environmental Hydrology
GEOG 350	(3)	Ecological Biogeography
GEOG 351	(3)	Quantitative Methods
GEOG 372	(3)	Running Water Environments
GEOG 380	(3)	Adaptive Environmental Management
GEOG 495	(3)	Field Studies - Physical Geography
GEOG 499	(3)	Subarctic Field Studies
GEOG 505	(3)	Global Biogeochemistry
GEOG 506	(3)	Advanced Geographic Information Science
GEOG 522	(3)	Advanced Environmental Hydrology
GEOG 535	(3)	Remote Sensing and Interpretation
GEOG 536	(3)	Geocryology
GEOG 537	(3)	Advanced Fluvial Geomorphology
GEOG 550	(3)	Historical Ecology Techniques
MATH 314	(3)	Advanced Calculus
MATH 315	(3)	Ordinary Differential Equations
MATH 317	(3)	Numerical Analysis
MATH 319	(3)	Introduction to Partial Differential Equations
MATH 323	(3)	Probability
MATH 326	(3)	Nonlinear Dynamics and Chaos
MATH 423	(3)	Regression and Analysis of Variance
MATH 437	(3)	Mathematical Methods in Biology
MATH 447	(3)	Stochastic Processes
MATH 525	(3)	Sampling Theory and Applications
NRSC 540	(3)	Socio-Cultural Issues in Water
PHYS 331	(3)	Topics in Classical Mechanics
PHYS 332	(3)	Physics of Fluids
PHYS 340	(3)	Majors Electricity and Magnetism
PHYS 342	(3)	Majors Electromagnetic Waves

Note: Courses at the 300 level or higher in other departments in the Faculties of Science and Engineering may also be used as complementary credits, with the permission of an academic adviser. Please see the list posted on the Departmental webpage.

12.13.12 Environment

All courses given by the McGill School of Environment (Subject Code ENVR) are considered as courses taught by the Faculty of Science.

Science students who are interested in studying the environment should refer to the "[McGill School of Environment](#)", in [section 14](#), where they will find information concerning the Minor Program in Environment, the B.Sc. Major Program in Environment and the B.Sc. Honours Program in Environment.

12.13.13 Experimental Medicine (EXMD)

Lady Meredith House, Room 101

E-mail: experimental.medicine@mcgill.ca

Website: www.medicine.mcgill.ca/EXPMED/expmed1.html

Experimental Medicine is a division of the Department of Medicine. There are no B.Sc. programs in Experimental Medicine, but the EXMD courses listed in the Courses section of this Calendar are considered as courses taught by the Faculty of Science.

12.13.14 Field Study

For details about the Minor Program in Field Study, see "[Field Study Minor](#)", in [section 15.2.4](#).

12.13.15 General Science

Program Advisers —

Student Affairs Office (Arts and Science), Faculty of Science

Advisers:

Zelda Ghan (zelda.ghan@mcgill.ca)

Paul Oloff (paul.olioff@mcgill.ca)

Marieke Bosch Larose (marieke.bosch@mcgill.ca)

The Minor in General Science is restricted to students in the B.Sc. Liberal program and may be used for the breadth component in this option. Students should consult their program adviser for their core science component when selecting courses for this minor.

MINOR IN GENERAL SCIENCE (18 credits)

Complementary Courses (18 credits)

Courses are to be chosen according to the following guidelines:

All courses must be offered by the Faculty of Science and must be above the 200-level.

All courses must be different from the student's core science component courses.

Two options:

9 credits at the 300 level or above and at least 9 credits outside the student's core science component subject area

or

12 credits at the 300 level or above and at least 6 credits outside the student's core science component subject area

Note: None of the credits toward this program can be "General Interest" science courses (see the list below).

General Interest Science Courses at the 200-level or above

These courses cannot be used toward the General Science Minor.

Anatomy and Cell Biology

ANAT 205 Astrobiology

Atmospheric and Ocean Sciences

ATOC 210 Introduction to Atmospheric Science

ATOC 220 Introduction to Oceanic Sciences

ATOC 230 Climate and Climate Change

ATOC 240 Science of Storms

ATOC 250 Natural Disasters

Earth and Planetary Sciences

EPSC 200 The Terrestrial Planets

EPSC 201 Understanding Planet Earth

EPSC 205 Astrobiology

EPSC 221 General Geology (for Engineering students only)

EPSC 225 Properties of Minerals (for Engineering students only)

EPSC 250 Natural Disasters

Physics

PHYS 200 Space, Time & Matter (not open to students in a Physics program)

PHYS 202 Everyday Physics

PHYS 205	Our Evolving Universe (not open to students in a Physics program)
PHYS 206	The Milky Way Inside and Out (not open to students in a Physics program)
PHYS 224	Physics and Psychophysics of Music
PHYS 228	Energy and the Environment

All Undergraduate Research Project courses with the 396 course number.

ANAT 396	Undergraduate Research Project
ATOC 396	Undergraduate Research Project
BIOL 396	Undergraduate Research Project
CHEM 396	Undergraduate Research Project
COGS 396	Undergraduate Research Project
COMP 396	Undergraduate Research Project
EPSC 396	Undergraduate Research Project
ENVR 396	Undergraduate Research Project
GEOG 396	Undergraduate Research Project
MATH 396	Undergraduate Research Project
MIMM 396	Undergraduate Research Project
NSCI 396	Undergraduate Research Project
PHYS 396	Undergraduate Research Project
PHGY 396	Undergraduate Research Project
PSYC 396	Undergraduate Research Project
REDM 396	Undergraduate Research Project

12.13.16 Geography (GEOG)

Burnside Hall, Room 705
805 Sherbrooke Street West
Montreal, QC H3A 2K6

Telephone: (514) 398-4951 or 398-4111

Fax: (514) 398-7437

Website: www.geog.mcgill.ca

Chair — T.R. Moore

Emeritus Professor

B.J. Garnier; M.A.(Cantab.)

Professors

P.G. Brown; B.A.(Haver.), M.A., Ph.D.(Col.) (*joint appoint. with McGill School of Environment and Natural Resource Sciences*)

T.R. Moore; B.Sc.(Swansea), Ph.D.(Aberd.)

N.T. Roulet; B.Sc., M.Sc.(Trent), Ph.D.(McM.) (*James McGill Professor*)

G.W. Wenzel; M.A.(Manit.), Ph.D.(McG.) (*on leave 2008-09*)

Associate Professors

G.L. Chmura; B.S.(Mass.), M.S.(R.I.), Ph.D.(L.S.U.)

O.T. Coomes; B.Sc.(Vic. (BC)), M.A.(Tor.), Ph.D.(Wis.)

B. Forest; A.B. (Chic), M.A., Ph.D. (Calif.-LA)

M.F. Lapointe; B.Sc., M.Sc.(McG.), Ph.D.(Br. Col.)

T.C. Meredith; B.E.S.(Wat.), M.Sc., Dip.Cons.(Lond.), Ph.D.(Camb.) (*on leave Fall 2008*)

L. Müller-Wille; Dr.phil.(Münster)

W.H. Pollard; B.A., M.Sc.(Guelph), Ph.D.(Ott.) (*on leave 2008-09*)

N.A. Ross; B.A., M.A.(Qu.), Ph.D.(McM.) (*on leave until December 2008*)

R.E. Sieber; B.Sc.(Mich. St.), M.P.A.(W. Mich.), Ph.D.(Rutgers) (*joint appoint. with McGill School of Environment*)

I.B. Strachan; B.Sc.(Tor.), M.Sc., Ph.D.(Qu.) (*cross appoint. with Natural Resource Sciences*) (*on leave until December 2008*)

J. Unruh; B.A.(Kansas), M.S.(Wis.), Ph.D.(Ariz.)

Assistant Professors

L. Berrang Ford; B.Sc.(Guelph), M.Sc.(Oxf.), Ph.D.(Guelph)

S. Breau; B.A.(Moncton), M.A.(Laval), Ph.D.(UCLA)

B. Lehner; Dip. Hydrol.(Freiburg) Ph.D. (Frankfurt)

N. Oswin; B.A. Hons.(Tor.), M.A.(Dal.), Ph.D.(Br.Col.)

G. Peterson; B.A.Sc., M.Sc.(Wat.), Ph.D.(Flor.) (*joint appoint. with McGill School of Environment*)

N. Ramankutty; B.E.(P.S.G. Coll. of Tech.), M.S.(Ill.), Ph.D.(Wis.)

R. Sengupta; B.Sc.(Bombay), M.Sc.(IIT, Mumbai), M.S., Ph.D.(S.Illinois-Carbondale) (*joint appoint. with McGill School of Environment*)

S. Turner; B.Soc.Sci., M.Soc.Sc.(Waikato), Ph.D.(Hull)

The Department of Geography offers programs in both Arts and Science. All B.A. programs in Geography (including Urban Systems) can be found in the Faculty of Arts entry "Geography (GEOG)", in section 5.12.23.

Geography is a broad, holistic discipline - both a natural and a social science because it examines people and their environment and serves as a bridge between physical and cultural processes. Human Geography (a social science, thus B.A. programs) is concerned especially with the political, economic, social, and cultural processes and resource practices that create spatial patterns and that define particular places. Physical Geography (B.Sc. programs) integrates disciplines such as climatology, geomorphology, geology, biology, hydrology, ecology, soil science and even marine science. Whether considering greenhouse gas emissions, the spread of disease, or threats to biodiversity, in all cases, geographers are interested in where things happen, why, and with what consequences.

Our graduates go on to careers in environmental consulting, social agencies or non-governmental organizations. Skills in Geographic Information Science (GIS) are very marketable. Students are well prepared for graduate work in social sciences, urban planning and environmental studies at leading schools.

PREREQUISITES

There are no departmental prerequisites for entrance to the B.Sc. Geography programs. Students who have completed college or pre-university geography courses fully equivalent to those in the first year of university may, with an adviser's approval, substitute other courses as part of their program.

A Science Major Concentration in Geography - Physical Option is available to students pursuing the B.A. & Sc. degree. This Major Concentration is described in the Bachelor of Arts and Science section of the Calendar; see "[Geography \(GEOG\)](#)", [section 5.12.23 for details](#).

MINOR IN GEOGRAPHY (expandable into the B.Sc. Major in Geography) (18 credits)

The Minor in Geography is designed to provide students in the Faculty of Science with an overview of basic elements of geography at the introductory and advanced level.

This Minor permits no overlap with any other programs.

Required Courses (12 credits)

GEOG 203	(3)	Environmental Systems
GEOG 216	(3)	Geography of the World Economy
GEOG 217	(3)	The Canadian City
GEOG 302	(3)	Environmental Management 1

Complementary Courses (6 credits)

6 credits of Geography courses at the 300 and 400 level.

B.Sc. MINOR IN GEOGRAPHICAL INFORMATION SYSTEMS (18 credits)

The Minor in GIS is designed to provide students in the Faculty of Science who have an interest in GIS with a basic, but comprehensive, knowledge of concepts and methods relating to the analysis of geospatial data.

Required Courses (15 credits)

GEOG 201	(3)	Introductory Geo-Information Science
GEOG 306	(3)	Raster Geo-Information Science
GEOG 307	(3)	Socioeconomic Applications of GIS
GEOG 308	(3)	Principles of Remote Sensing
GEOG 506	(3)	Advanced Geographic Information Science

Complementary Course (3 credits)

one course to be chosen from:

ATOC 309	(3)	Weather Radars and Satellites
COMP 420	(3)	Secondary Storage Algorithms and Data Structures

- COMP 557* (3) Fundamentals of Computer Graphics
 GEOG 535 (3) Remote Sensing and Interpretation
 GEOG 551 (3) Environmental Decisions
 URBP 505 (3) Geographic Information Systems

*Note prerequisites

LIBERAL PROGRAM: CORE SCIENCE COMPONENT IN GEOGRAPHY (49 credits)

Required Courses (22 credits)

- GEOG 201 (3) Introductory Geo-Information Science
 GEOG 203 (3) Environmental Systems
 GEOG 216 (3) Geography of the World Economy
 GEOG 217 (3) The Canadian City
 GEOG 272 (3) Earth's Changing Surface
 GEOG 290 (1) Local Geographical Excursion
 (In 2008 reserve October 3 - 5)
 GEOG 302 (3) Environmental Management 1
 GEOG 351 (3) Quantitative Methods

Complementary Courses (27 credits)

One (3 credits) from the following statistics* courses:

- BIOL 373 (3) Biometry
 GEOG 202 (3) Statistics and Spatial Analysis
 MATH 203 (3) Principles of Statistics 1
 PSYC 204 (3) Introduction to Psychological Statistics
 SOCI 350 (3) Statistics in Social Research
