## 2 About the Bachelor of Arts and Science (Undergraduate)

The B.A. & Sc. is an interdisciplinary degree intended for students who want to pursue simultaneously a program offered by Arts and one offered by Science. The B.A. & Sc. is intended for students with well-defined interdisciplinary interests, and is not meant as a "compromise" between a B.A. and a B.Sc. degree. If you are more interested in Arts, but would like to study some Science, you can do so within the B.A. degree. Similarly, if you are more interested in Science, but would like to study some Arts, you can do so within the B.Sc. degree.

**2.3 Science Office for Undergraduate Student Advising (SOUSA)**

The Science Office for Undergraduate Student Advising (SOUSA) provides ongoing advice and guidance on academic issues related to programs, degree requirements, registration, course change, withdrawal, deferred exams, supplemental exams, academic standing, inter- and intra-faculty transfer, year or term away, transfer credits, second programs, second degrees, and graduation.

Every student in the B.A. & Sc. degree is assigned an adviser in SOUSA. The adviser's name appears near the top of your Advising Transcript on Minerva. You can contact your adviser directly, or if you do not yet have a SOUSA adviser, email [adviser.science@mcgill.ca](mailto:adviser.science@mcgill.ca).

SOUSA advisers provide assistance with degree planning and are a valuable referral source. They are a good place to start if you are not sure where to address your question. They also offer help managing academic situations during periods of personal, financial, or medical problems, by working with you to identify various possibilities and strategies for making informed decisions.

Special requests can be made, in writing, to the Director of Advising Services, Science, who is responsible for students pursuing a B.A. & Sc.

The Committee on Student Standing (CSS) of the Faculty of Science will consider appeals of the Director of Advising Services' decisions. For information about CSS, see the Director of Advising Services' assistant.

For more information, refer to [www.mcgill.ca/science/student](http://www.mcgill.ca/science/student).

**4 Degree Requirements**

**Each student pursuing a B.A. & Sc. must be aware of the regulations as stated in this section of this publication and on the McGill and Science Office for Undergraduate Student Advising (SOUSA) websites.**

While departmental and Faculty advisers and staff are always available to give advice and guidance, the ultimate responsibility for completeness and correctness of course selection and registration, for compliance with, and completion of, program and degree requirements, and for the observance of regulations and deadlines *rests with you*. It is your responsibility to seek guidance from the SOUSA Office if in any doubt; misunderstanding or misapprehension will not be accepted as cause for dispensation from any regulation, deadline, program, or degree requirement.

To be eligible for a B.A. & Sc., you must fulfil all Faculty degree and program requirements as indicated below:

*section 4.1: Minimum Credit Requirement*

*section 4.2: Residency Requirement*

*Programs, Courses and University Regulations > University Regulations and Resources > Undergraduate > Student Records > : Grading and Grade Point Averages (GPA)*

*section 4.3: Time and Credit Limit for Completion of the Degree*

*section 4.6: Course Requirements*

#### **4.1 Minimum Credit Requirement**

You must complete the minimum credit requirement for the degree as specified in your letter of admission.

Students are normally admitted to a four-year degree requiring the completion of 120 credits, but advanced standing of up to 30 credits may be granted if you obtain satisfactory results in the Diploma of Collegial Studies, International Baccalaureate, French Baccalaureate, Advanced Levels, and Advanced Placement tests.

If you are readmitted after interrupting your studies for a period of five consecutive years or more, you may be required to complete a minimum of 60 credits and satisfy the requirements of a program. In this case, a new GPA will be calculated. The Director of Advising Services, Science, in consultation with the appropriate department, may approve a lower minimum for students who had completed 60 credits or more before interrupting their studies.

If you are readmitted after a period of absence, you are normally subject to the program and degree requirements in effect at the time of readmission.

#### **4.2 Residency Requirement**

To obtain a B.A. & Sc., you must satisfy the following residency requirements: a minimum of 60 credits of courses used to satisfy the B.A. & Sc. requirements must be taken and passed at McGill, exclusive of any courses completed as part of the math and science requirements of the B.A. & Sc. Freshman program. At least two-thirds of all departmental program requirements (Multi-track, Honours, Interfaculty) must normally be completed at McGill, not including courses completed in a prior McGill degree. Exceptionally, students in major concentrations or interfaculty or honours programs who pursue an approved Study Away or Exchange program may, with prior approval from both their department and the Director of Advising Services, Faculty of Science, be exempted from the two-thirds rule. In addition, some departments may require that their students complete specific components of their program at McGill.

#### **4.3 Time and Credit Limit for Completion of the Degree**

If you need 96 or fewer credits to complete your degree requirements, you are expected to complete your degree in no more than eight terms after your initial registration. If you are a student in the Freshman program, you become subject to these regulations one year after your initial registration. If you need or want to exceed this time limit, you must receive permission from the Director of Advising Services, Science, to continue your studies.

If you are registered in the B.A. & Sc., you are expected to complete the requirements of your program and your degree within 120 credits. You will receive credit for all courses (subject to degree regulations) taken up to and including the semester in which you obtain 120 credits. If you want to remain at McGill beyond that semester, you must also seek permission of the Director of Advising Services, Science. Permission for exceeding the time and/or credit limits will normally be granted only for valid academic reasons, such as a change of program (subject to departmental approval) and part-time status. If permission is granted, you will receive credit only for required and complementary courses necessary to complete program requirements.

#### **4.4 Bachelor of Arts and Science (B.A. & Sc.) - Freshman Program (30 credits)**

Students who need to complete 97-120 credits to fulfil their degree requirements are admitted to the Freshman Program. Students with specific career goals should consult an academic adviser about their choice of program within the B.A. & Sc. However, students intending to pursue further studies following the B.A. & Sc. should refer to the admissions requirements of particular programs for the appropriate prerequisite courses.

In particular, students should note the following:

- The minimum freshman science requirements in the B.A. & Sc. may not satisfy the introductory science requirements of all medical/dental schools.
- The Major Concentration in Psychology may not provide a sufficiently focused background for admission to many graduate programs in Psychology.
- The Major Concentration Chemistry is not certified by the Ordre des Chimistes du Québec. Students interested in pursuing a career in Chemistry in Quebec are advised to take an appropriate B.Sc. program in Chemistry.

For further details, refer to information about the B.A. & Sc. Freshman Program on the website at [http://www.mcgill.ca/science/sousa/new\\_students/](http://www.mcgill.ca/science/sousa/new_students/).

Similarly, students who have completed courses at other universities or colleges may receive exemptions and/or credits.

Advanced Placement Examination results with a score of 4 or 5 must be declared by the student at the time of initial registration at the University.

For more information about advanced standing, please consult: <http://www.mcgill.ca/students/transferecredit/>. Students must carefully select their mathematics and science Freshman courses so that they have all the required prerequisites for their intended departmental programs.

## 4.5 Departmental Programs

If you are pursuing a B.A. & Sc., other than those registered in the Freshman program, you are required to have an approved program (multi-track, honours, joint honours, interfaculty), and to select your courses in each term with a view to timely completion of your degree and program requirements. You must complete one of the program streams described below.

Previously the degree included a **required integrative course (BASC 201; 3 credits)**. However, as of January 2011 this is no longer the case, and the course is currently under review. Students must still select a **complementary integrative course (3 credits)** within or outside a student's programs selected from the list of complementary Integrative Courses (see [section 8.6: Integrative Courses](#)), plus electives (10–15 credits).

### 4.5.1 Multi-Track System

**Revision, August 2012. Start of revision.**

To recognize the diversity of student backgrounds and interests and the multiple routes to understanding provided by a modern university, the Faculties of Arts and of Science offer a 90-credit multi-track system that includes a major concentration in one faculty complemented by either a major concentration or two minors/minor concentrations (see NOTE below) in the other faculty and that may be completed in one of the following ways:

#### Options

- Arts Major Concentration (36 credits) + Science Major Concentration (36–38 credits) (see [section 8: Overview of Programs Offered](#) for a list of programs open to students in the B.A. & Sc.)
- Major Concentration in Arts or Science (36–38 credits) + two minors/minor concentrations in the other faculty (2 x 18 credits = 36 credits)

**NOTE:** Effective September 2013 the multi-track option to complete two minors or two minor concentrations will no longer be available. Only one multi-track option will remain.

**Revision, August 2012. End of revision.**

#### Regulations

- Programs offered by Computer Science, Mathematics and Statistics, and Psychology are considered Science programs for the purpose of the B.A. & Sc.
- Within both options, all concentrations must be in different academic units. Thus, you may take a Geography program either in Arts or in Science, but not in both.
- Students will include within the 36 or 18 credits of their major concentrations or minors or minor concentrations any university-level (200 or above) prerequisites to required courses within their programs.
- No course may fulfil the requirements for more than one program.

#### Definitions

- *Units:* academic departments or administrative equivalents
- *Programs:* lists of required and complementary courses (including university-level prerequisites for required courses) prepared and maintained by units.
- *Major Concentration:* a program of 36–38 credits taken from a unit's course offerings
- *Minor Concentration:* a program of 18 credits taken from a unit's course offerings. Expandable minor concentrations are those that can, on the completion of 18 additional approved credits, be expanded into a major concentration within the appropriate unit.

### 4.5.2 Honours Program

**Revision, August 2012. Start of revision.**

Honours programs demand a high degree of specialization, and require you to satisfy specific departmental and Faculty Honours requirements while maintaining good Academic Standing. They are designed to prepare you for graduate study. Students in the B.A. & Sc. who complete an approved honours program must also complete an approved minor concentration or a minor in the Faculties of Arts or of Science. You must complete at least 21 credits in the Faculty of Arts and at least 21 credits in the Faculty of Science as part of your honours program and your minor concentration or minor program. See [section 8.3: Honours Programs](#) for a list of available programs.

**Revision, August 2012. End of revision.**

To choose the Honours option, you must meet the GPA/CGPA requirements set out in *Programs, Courses and University Regulations > University Regulations and Resources > Undergraduate > Graduation > : Graduation Honours: Honours and First-Class Honours for Faculties of Arts and Science (including B.A. & Sc.)*.

#### 4.5.3 Joint Honours Program

If you want to study at the honours level in two disciplines, you can combine a joint honours program component from an Arts discipline with one from a Science discipline; see *section 8.4: Joint Honours Programs* for a list of available programs. Each joint honours component consists of a maximum of 36–38 required and complementary credits (not including program prerequisites). In cases where a minimum of 24 credits are in courses normally restricted to Honours students, the total of required and complementary credits may be as few as 30.

To choose the Joint Honours option, you must meet the GPA/CGPA requirements set out in *Programs, Courses and University Regulations > University Regulations and Resources > Undergraduate > Graduation > : Graduation Honours: Honours and First-Class Honours for Faculties of Arts and Science (including B.A. & Sc.)*.

#### 4.5.4 Interfaculty Program

**Revision, August 2012. Start of revision.**

An interfaculty program is an approved selection of courses constituting a concentration in an intellectually coherent and interfaculty field of studies. These courses must include approved selections from the Faculties of Arts and of Science and possibly other faculties. See *section 8.5: Interfaculty Programs* for a list of approved programs. Students in the B.A. & Sc. who complete an approved interfaculty program must also complete an approved minor concentration or a minor in the Faculties of Arts or of Science. You must complete at least 21 credits in the Faculty of Arts and at least 21 credits in the Faculty of Science as part of your interfaculty program and your minor concentration or minor program.

**Revision, August 2012. End of revision.**

## 4.6 Course Requirements

All required and complementary courses used to fulfil program requirements, including the Freshman program, must be completed with a grade of C or better. If you fail to obtain a satisfactory grade in a required course, you must either pass the supplemental examination in the course or do additional work for a supplemental grade, if these options are available, or repeat the course. Course substitution will be allowed only in special cases; students should consult their academic adviser.

Normally, you are permitted to repeat a failed course only once. (Failure is considered to be a grade of less than C or the administrative failures of J and KF.) If a required course is failed a second time, you must appeal to the Director of Advising Services, Science, for permission to take the course a third time. If permission is denied by the Director of Advising Services and/or by the Committee on Student Standing of the Faculty of Science, on appeal, you must withdraw from the program. If the failed course is a complementary course required by the program, you may choose to replace it with another appropriate complementary course. If you choose to substitute another complementary course for a complementary course in which a D was received, credit for the first course will still be given, but as an elective. If you repeat a required course in which a D was received, credit will be given only once.

Full details of the course requirements for all programs as well as the locations of departmental advisory offices, program directors, and telephone numbers for further information are available as follows:

For a list of all programs available to B.A. & Sc. students, see *section 8: Overview of Programs Offered*.

For a list of complementary integrative courses, see *section 8.6: Integrative Courses*.

#### 4.6.1 Course Overlap

You will not receive additional credit toward your degree for any course for which you have already received credit at McGill, CEGEP, at another university, or as a result of Advanced Placement, Advanced Level, International Baccalaureate, or French Baccalaureate exams. It is your responsibility to consult the Science Office for Undergraduate Student Advising (SOUA) or the department offering the course as to whether or not credit can be obtained and to be aware of exclusion clauses specified in the course description in this publication.

Please refer to the following website for specific information about Advanced Standing credits and McGill course exemptions:  
[www.mcgill.ca/students/transferecredit](http://www.mcgill.ca/students/transferecredit).

Sometimes two different departments offer the same course. Such courses are called "double-prefix" courses. When such courses are offered simultaneously, you should take the course offered by the department in which you are obtaining your degree. For example, in the case of double-prefix courses CHEM XYZ and PHYS XYZ, Chemistry students take CHEM XYZ and Physics students take PHYS XYZ. If different departments offer a double-prefix course in alternate years, you may take whichever course best fits your schedule.

Credit for computer science and statistics courses will be given with the stipulations specified under *Programs, Courses and University Regulations > Faculties & Schools > Faculty of Science > Undergraduate > Faculty Degree Requirements > Course Requirements > : Course Overlap*.

#### 4.6.2 Courses Outside the Faculties of Arts and of Science

The following regulations apply to students in the B.A. & Sc. who want to take courses outside the Faculties of Arts and of Science:

- Regardless of your minimum credit requirement towards your B.A. & Sc., you are allowed a maximum of 12 credits in ELECTIVE and/or COMPLEMENTARY courses taken in faculties other than the Faculties of Arts and of Science.
- Students in certain designated programs that include a number of REQUIRED and COMPLEMENTARY courses in other faculties are permitted a maximum of 30 credits outside the Faculties of Arts and of Science. These programs are the Interfaculty and Honours programs in Environment, the Minor concentration in Environment, the Interfaculty program in Sustainability, Science and Society, and the Major concentration in Geography (Urban Systems).
- Any courses taught at McGill University may be used toward the maximum allowed, except for courses taught by the School Continuing Studies, for which you receive credits only in Continuing Studies. Courses taught by the McGill Writing Centre are excluded from this rule and can count for credit in your degree (see the SOUSA website for a list of approved courses: [www.mcgill.ca/science/student/continuingstudents/basc/conted](http://www.mcgill.ca/science/student/continuingstudents/basc/conted)).
- For the purpose of this policy, courses taught in other faculties and specifically listed in *Programs, Courses and University Regulations > Faculties & Schools > Faculty of Arts > Undergraduate* or *Programs, Courses and University Regulations > Faculties & Schools > Faculty of Science > Undergraduate* are considered as courses taught in the Faculties of Arts and of Science.
- **The maximum number of credits allowed will be strictly enforced.**

#### 4.6.3 Distance Education Courses

- A maximum of 6 credits of courses taught through distance education may be used as electives toward the B.A. & Sc. degree at McGill.
- Courses taught through distance education from institutions other than McGill will be approved as transfer credits under the following conditions:
  - the course is given by a government-accredited, degree-granting institution acceptable to McGill;
  - the course counts for credit toward degrees granted at the institution giving the course;
  - prior approval for the course is obtained from the Science Office for Undergraduate Student Advising (SOUSA).
- The combined total of regular course credits and distance education course credits may not exceed the permitted maximum number of credits per term according to the regulations for the B.A. & Sc. (see *Programs, Courses and University Regulations > University Regulations and Resources > Undergraduate > Registration > : Course Load*).
- Courses taught through distance education may not be used to complete program requirements, except on an individual basis when serious, documented circumstances warrant it. In such cases, prior approval must be obtained from your program adviser and the Director of Advising Services, Science.

#### 4.6.4 Courses in English as a Second Language (ESL)

ESL courses are only open to students whose primary language is not English and who have studied for fewer than five years in English-language secondary institutions. As a student in the B.A. & Sc., you may take a maximum of 12 credits, including academic writing courses for non-anglophones, from the list of ESL courses published at [www.mcgill.ca/science/student/continuingstudents/basc/conted](http://www.mcgill.ca/science/student/continuingstudents/basc/conted).

#### 4.6.5 Registration for First-Year Seminars

Registration for First-Year Seminars is limited to students in their first year of study at McGill, i.e., newly admitted students in U0 or U1. These courses are designed to provide a closer interaction with professors and better working relations with peers than is available in large introductory courses. These seminars endeavour to teach the latest scholarly developments and expose participants to advanced research methods. Registration is on a first-come, first-served basis. The maximum number of students in any seminar is 25, although some are limited to even fewer than that.

You may take only one First-Year Seminar during your first year at McGill. If you register for more than one, you will be obliged to withdraw from all but one of them.

A list of First-Year Seminars is available in *Programs, Courses and University Regulations > Faculties & Schools > Faculty of Arts > Undergraduate > Faculty of Arts Degree Requirements > Course Requirements > : First-Year Seminar Courses* and *Programs, Courses and University Regulations > Faculties & Schools > Faculty of Science > Undergraduate > Faculty of Science Degree Requirements > Course Requirements > : Registration for First-Year Seminars*.

## 5 Advising

If you need 96 or fewer credits to complete your degree requirements, you must consult an academic adviser in your proposed department of study to obtain advice and approval of your course selection (please see *Departmental Programs*). To facilitate program planning, you must present your transcript(s) and letter of admission. If you have not fulfilled the B.A. & Sc. Freshman program requirements, you should also seek advice from an adviser in the Science Office for Undergraduate Student Advising (SOUSA). For a detailed description of advising and registration procedures, you should refer to *Programs, Courses and University Regulations > University Regulations and Resources > Undergraduate > : Undergraduate Advising*, to *Programs, Courses and University Regulations > University Regulations and Resources > Undergraduate > : Registration*, and to the website for newly admitted undergraduate students at [www.mcgill.ca/newstudents](http://www.mcgill.ca/newstudents), as well as to the information posted on the SOUSA website at [www.mcgill.ca/science/student](http://www.mcgill.ca/science/student), and the departmental websites.

If you need 97–120 credits to complete your degree requirements, you will normally be registered in a Freshman program until you complete your first year. You must consult an adviser in the Science Office for Undergraduate Student Advising (SOUSA) to obtain advice and approval of your course selection.

For a detailed description of advising and registration procedures, you should refer to the website for newly admitted undergraduate students at [www.mcgill.ca/newstudents](http://www.mcgill.ca/newstudents), and to the information on the SOUSA website, [www.mcgill.ca/science/student](http://www.mcgill.ca/science/student).

Advising for all returning students takes place in March for the upcoming academic year. For more information, you should refer to the SOUSA website, [www.mcgill.ca/science/student](http://www.mcgill.ca/science/student).

## 5.1 Choosing a B.A. & Sc. Program

The B.A. & Sc. is intended for students with well-defined interdisciplinary interests. There are several options for the main program, all of which specify 75–80 of the 90 credits, leaving only 10–15 credits for electives. Since there are relatively few electives, students entering a program in the B.A. & Sc. degree should have a clear idea of their objectives, goals, and intended areas of study, so that they can plan their curriculum carefully.

It should be noted that there also exists considerable flexibility within the B.A. (Faculty of Arts) and B.Sc. (Faculty of Science) programs. If you are more interested in Arts, but would like to study some Science, you can do so within the B.A. degree. Similarly, if you are more interested in Science, but would like to study some Arts, you can do so within the B.Sc. degree. For example, B.Sc. students may complete minor concentrations in Arts and vice versa.

There are four ways to complete programs in the B.A. & Sc. degree:

### Multi-Track System

The multi-track system is intended for students who want a program that includes significant components from both Arts and from Science.

#### Revision, August 2012. Start of revision.

You complete 36 credits of Arts, 36–38 credits of Science, and 3 credits of integrative courses. You can either combine an Arts major concentration with a Science major concentration (36–38 credits each) or you can select a major concentration from one faculty and two 18-credit minor concentrations\* from the other. Additional guidelines for the multi-track system can be found in [section 4.5: Departmental Programs](#). You will find the program descriptions for the major and minor concentrations in Science, which are unique to the B.A. & Sc. within this section of this publication.

\* Effective September 2013 the multi-track option to complete two minors or two minor concentrations will no longer be available. Only one multi-track option will remain.

#### Revision, August 2012. End of revision.

Descriptions of programs offered in Arts are located under *Programs, Courses and University Regulations > Faculties & Schools > Faculty of Arts > Undergraduate*.

### Interfaculty Programs

#### Revision, August 2012. Start of revision.

Interfaculty programs are interdisciplinary in nature. There are currently three such programs: Environment; Cognitive Science; and Sustainability, Science and Society. In these programs, you complete 54 credits of the Interfaculty program, a minor of 18 credits, and 3 credits of integrative courses. You must complete at least 21 credits in the Faculty of Arts and at least 21 credits in the Faculty of Science as part of your interfaculty program and your minor concentration or program.

#### Revision, August 2012. End of revision.

#### Environment

The growth of technology, globalization of economies, and rapid increases in population and per capita consumption have all had dramatic environmental impacts. The Faculty program in Environment for the Bachelor of Arts and Science is designed to provide students with a broad “Liberal Arts/Science” training. In combination with careful mentoring, this program offers a great degree of flexibility, allowing students to develop the skills and knowledge base required to face the myriad of environmental problems that currently need to be addressed. Further information about Environment programs and academic advising can be found at [www.mcgill.ca/mse](http://www.mcgill.ca/mse).

#### Cognitive Science

The Interfaculty program in Cognitive Science offered within the B.A. & Sc. degree is the only major program currently offered at McGill for students interested in this discipline. The requirements encourage you to choose courses in two of the five subject areas in Cognitive Science (Computer Science, Linguistics, Neuroscience, Philosophy, Psychology) as the focus of your program. In addition, if you are interested in research in this field, you may include up to 12 credits of research courses within your program. Further information can be found at [www.mcgill.ca/cogsci](http://www.mcgill.ca/cogsci).

#### Sustainability, Science and Society

Food security, access to clean water, poverty, climate change, biodiversity loss, sustainable energy production—a long list of challenges face human societies in the 21st century. In the face of these multiple challenges, the grand imperative of the 21st century is Sustainable Well-being—in other words, how can we provide for a world population that could stabilize at 9–10 billion, while also maintaining the Earth’s life support systems. Find out more about this interdisciplinary program at [www.geog.mcgill.ca/SSS/index.html](http://www.geog.mcgill.ca/SSS/index.html).

### Joint Honours

The Joint Honours option is similar to the multi-track system except that you complete two joint honours components, one in Arts and one in Science. Currently, the choice of Science component is restricted to either Math or Psychology. However, there is a great range of choices for the Arts component.

To choose the Joint Honours option, you must meet the GPA/CGPA requirements set out in *Programs, Courses and University Regulations > University Regulations and Resources > Undergraduate > Graduation > : Graduation Honours: Honours and First-Class Honours for Faculties of Arts and Science (including B.A. & Sc.)*.

### Honours

#### Revision, August 2012. Start of revision.

There are three B.A. & Sc. Honours programs. The Honours programs in Environment; Cognitive Science; and Sustainability, Science and Society are similar to their relevant Interfaculty programs, but each has additional GPA requirements and an additional 6-credit required research course. If you are completing an honours program, you must also complete a minor concentration or program, and 3 credits of integrative courses. You must complete at least 21 credits in the Faculty of Arts and at least 21 credits in the Faculty of Science as part of your honours program and your minor concentration or program.

#### Revision, August 2012. End of revision.

To choose the Honours option, you must meet the GPA/CGPA requirements set out in *Programs, Courses and University Regulations > University Regulations and Resources > Undergraduate > Graduation > : Graduation Honours: Honours and First-Class Honours for Faculties of Arts and Science (including B.A. & Sc.)*.

## 5.2 Preparation for Graduate School

Any choice of undergraduate degree and program constrains options for graduate school. The B.A. & Sc. provides good preparation for graduate degrees in integrated disciplines such as Cognitive or Environmental Science as well as in the new Sustainability, Science and Society program. Depending on the Arts or Science specific program you want to enter in graduate school, the B.A. & Sc. may or may not be adequate preparation. If you intend to pursue an Arts or Science specific program at the graduate level, you should consult academic advisers in that discipline at McGill and at universities where you intend to apply in order to find out whether the B.A. & Sc. will prepare you adequately. If you are considering continuing on in a specific Science graduate program, you should examine the difference between the preparation provided by the 36-credit major concentrations in the B.A. & Sc. program versus the significantly more specialized major and honours programs offered in the B.Sc. programs.

## 6 Freshman Interest Groups

Freshman Interest Groups (FIGs) are groups of approximately 15 UO students in the B.Sc. or B.A. & Sc., led by a professor in the Faculty of Science or Faculty of Medicine and an upper-year undergraduate student. They meet once every two weeks in the Fall semester to discuss a wide range of topics, such as science in the news, program choices, undergraduate research opportunities, or just aspects of life in Montreal. The purpose of a FIG is to ease the transition to McGill and Montreal and to provide you an opportunity to interact with a professor and with other UO students in a small group. FIGs carry no credit and there is no charge. For more information and to see how to register, refer to [www.mcgill.ca/science/student/fig](http://www.mcgill.ca/science/student/fig).

---

## 7 Examinations

You should see *Programs, Courses and University Regulations > University Regulations and Resources > Undergraduate > : Examinations: General Information* for information about final examinations and deferred examinations.

The exam schedules are posted on the McGill website, [www.mcgill.ca/students/exams](http://www.mcgill.ca/students/exams), normally one month after the start of classes for the tentative Examination Schedule, and two months after the start of classes for the final Examination Schedule.

Students are warned not to make travel arrangements to leave Montreal prior to the scheduled end of any examination period.

## 8.1 Minor Concentrations or Minors

### 8.1.1 Faculty of Arts

The Arts minor concentrations available to B.A. & Sc. students are listed here. Since the B.A. & Sc. degree requires a certain number of credits in the Arts and in the Sciences, there are special requirements for B.A. & Sc. students. To be counted as an Arts minor or minor concentration, the program must include at least 15 credits of Arts courses. Similarly, to be counted as a Science minor or minor concentration, the program must include at least 15 credits of Science courses.

For example, a student completing the 18-credit African Studies Minor Concentration in Arts must complete at least 15 of those credits in Arts courses and at most 3 credits in Science courses. As another example, a student completing a 24-credit Science Minor in Interdisciplinary Life Sciences must complete at least 15 credits in Science courses and at most 9 credits in Arts courses.

### 8.3 Honours Programs

#### Revision, August 2012. Start of revision.

There are three Honours programs available to B.A. & Sc. students:

- The Honours Interfaculty Program in Sustainability, Science and Society is described in detail in [section 9.45: Sustainability, Science and Society](#).
- The Honours Program in Cognitive Science is described in detail in [section 9.13: Cognitive Science](#).
- The Honours Program in Environment is described in detail in [section 9.20: Environment](#).

Students interested in an Honours degree should also consider the Joint Honours programs; see [section 8.4: Joint Honours Programs](#).

#### Revision, August 2012. End of revision.

### 8.4 Joint Honours Programs

Joint Honours programs in the B.A. & Sc. are created by combining a Joint Honours program component from an Arts discipline with one from a Science discipline. Students must register for both Joint Honours program components. Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

### 9.13.2 About Cognitive Science

Cognitive Science is the multidisciplinary study of cognition in humans and machines. The goal is to understand the principles of intelligence and thought with the hope that this will lead to a better understanding of the mind and of learning, and to the development of intelligent devices that constructively extend human abilities.

An Interfaculty Program in Cognitive Science (54 credits) is offered by the following departments:

Computer Science (COMP) (Science)  
 Linguistics (LING) (Arts)  
 Philosophy (PHIL) (Arts)  
 Psychology (PSYC) (Science)

#### Cognitive Science Committee Members:

Brendan Gillon (*Linguistics*)  
 Stephen McAdams (*Music*)  
 Doina Precup (*Computer Science*)  
 David Ragsdale (*Neuroscience*)  
 Debra Titone (*Psychology*)

**Please note:** New students are required to attend an information session held at the end of August. Please consult the cognitive science website in early August for the date and location.

### 9.13.3 Bachelor of Arts and Science (B.A. & Sc.) - Honours Cognitive Science (60 credits)

The Honours Cognitive Science, which is restricted to students in the B.A. & Sc., is an extension of the Interfaculty program and offers students an opportunity to undertake a research project in close association with professors in their main Arts and Science focus areas. Prior to selecting the Honours program, students should meet with the Interdisciplinary Program Adviser and review the B.A. & Sc. academic requirements for Honours and First Class Honours, which can also be found under "University Regulations and Resources," "Graduation," and "Graduation Honours."

To receive an Honours degree, students are required to achieve a minimum overall program GPA of 3.3 at graduation, and attain a grade of B+ (3.3) or better in COGS 444. Students must complete both the 60-credit Honours program, plus an approved minor concentration or a minor in the Faculties of Arts or of Science.

Note: B.A. & Sc. students who take interfaculty programs, including the Honours in Cognitive Science, must take at least 30 credits in Arts and 30 in Science across their interfaculty program and their minor or minor concentration.

#### 9.19.4 Bachelor of Arts (B.A.) - Major Concentration English - Cultural Studies (36 credits)

The Cultural Studies option concentrates on analysis of forms of cultural expression and symbolic interaction, and of the various media through which these may be disseminated and transformed. Such study concerns symbolic form, aesthetically based forms of analysis, and the various modes of criticism and theory relevant to media which contain both verbal and non-verbal elements. The aim is above all to hone students' analytical and interpretive skills while introducing them to specific critical approaches to cultural studies. This is not a major in journalism or communications; and while many of our graduates go on to do creative work in a variety of media, instruction in film and video production is not part of the curriculum.

### Departmental Offerings

### 9.19.9 Bachelor of Arts (B.A.) - Joint Honours Component English - Literature (36 credits)

Students who wish to study at the Honours level in two Arts disciplines may apply to combine Joint Honours program components from two Arts disciplines. For a list of available Joint Honours programs, see "Overview of Programs Offered" and "Joint Honours Programs". Applications to do a Joint Honours program in English and another subject in the Faculty of Arts should be submitted once a minimum of 9 credits, and no more than 18 credits, have been completed in English. There are normally two possible application dates for Joint Honours in English: either by the end of January (by which time first-term courses are completed and the grades are available), or at the same time as the Honours application date, typically in mid-April. (Only students who will have completed more than 18 credits in English by the end of January may apply in the Fall.) Applications will be considered by the Department's Honours Committee on the basis of the student's program GPA, at a minimum of 3.50. The application form is available in the Department's General Office (Arts 155), and the specific submission requirements are described by that form.

The maintenance of a 3.50 program GPA is required for continuation in Joint Honours. Graduation with Joint Honours requires a minimum CGPA of 3.00, a minimum program GPA of 3.50, and a minimum mark of B+ on the Honours Essay. Graduation with First Class Joint Honours in English requires a minimum CGPA of 3.50, a minimum program GPA of 3.70, and a minimum mark of A on the Honours Essay.

Each academic year, there is a special adviser for Joint Honours students, and the receptionist in the General Office can provide their name and contact information. The Department's website <http://www.mcgill.ca/english/> provides additional information on the Joint Honours program and applications, and this website should also be consulted prior to contacting the Adviser.

#### Required Courses (6 credits)

ENGL 311	(3)	Poetics
ENGL 360	(3)	Literary Criticism

#### Complementary Courses (30 credits)

30 credits selected as described below.

In addition to the 6-credit requirement for Advanced Study described below, all Joint Honours students' programs of study shall include 6 credits of study at the 400 level or above. Students are encouraged to take courses at the 300 level and above.

Note on Topics Courses: The Department of English offers courses which change topic from academic year to academic year. Depending on the topic in a specific year, these courses may count toward different program requirements. At the time they register for a topics course, students should confirm with their program adviser the program requirement it fulfils for that academic year.

#### Advanced Study

6 credits of advanced study, in one of the following two forms A or B, in order of preference:

A) 6-credits of honours essay:

ENGL 491D1	(3)	Honours Essay
ENGL 491D2	(3)	Honours Essay

B) Two 3-credit 500-level courses selected in consultation with the student's adviser(s).

(In very rare cases, a third alternative may be approved at the discretion of the Joint Honours Adviser, but only when it is formally recommended for the joint subject according to the description of that Joint Honours program found in the Arts section of this publication. For example, Joint Honours with Anthropology allows the option of combining 3 credits of essay work with 3 credits in the joint subject to create a joint essay.)

### 9.20.2 Bachelor of Arts and Science (B.A. & Sc.) - Honours Environment (60 credits)

This program is open only to students in the B.A. & Sc. Interfaculty Program Environment.

To be eligible for Honours, students must satisfy the requirements set by their B.A. & Sc. degree.

In addition, students must satisfy the following:

1. Students apply for the Honours program in March of their U2 year. See the Program Adviser for details.
2. Applicants must have a minimum Program GPA (GPA of all required and complementary courses for the program in Environment taken at McGill) of 3.3 to enter the Honours program.
3. Students must earn a B grade (3.0) or higher for the Honours Research course (ENVR 495).
4. Students are required to achieve a minimum overall CGPA of 3.0 at graduation, and a minimum Program GPA of 3.3 to obtain Honours.
5. B.A. & Sc. students must complete at least 30 credits in the Faculty of Arts and at least 30 in the Faculty of Science as part of their Honours program and their Minor concentration or Minor program. For a list of available Minor concentrations or Minor programs, see "Overview of Programs Offered" and "Minor Concentrations or Minors."

Students in the B.A. & Sc. Honours programs complete the coursework (54 credits) for the Interfaculty Program in Environment as well as the Honours required courses (6 credits).

At the completion of your Honours research, you are expected to present your results at an Honours Symposium, and are required to submit a copy of your final report to the MSE Program Adviser.

#### Honours Required Courses (6 credits)

Note: You take either ENVR 495D1 and ENVR 495D2 (6 credits over consecutive terms) or ENVR 495N1 and ENVR 495N2 (6 credits over non-consecutive terms).

### 9.20.3 Bachelor of Arts and Science (B.A. & Sc.) - Interfaculty Program Environment (54 credits)

The growth of technology, globalization of economies, and rapid increases in population and per capita consumption have all had dramatic environmental impacts. The Interfaculty Program Environment for the Bachelor of Arts and Science is designed to provide students with a broad "Liberal Arts/Science" training. In combination with careful mentoring, this program offers a great degree of flexibility, allowing students to develop the skills and knowledge base required to face the myriad of environmental problems that currently need to be addressed.

#### Program Requirements

1. Students are required to take a maximum of 21 credits at the 200 level and a minimum of 12 credits at the 400 level or higher in this program. This includes required courses.
2. Students must complete at least 30 credits in the Faculty of Arts and at least 30 in the Faculty of Science as part of their interfaculty program and their minor or minor concentration. ENVR courses are considered courses in both Arts and Science, and so the credits are split between the two faculties for the purpose of this regulation.

Location Note: When planning your schedule and registering for courses, you should verify where each course is offered because courses for this program are taught on both McGill's Downtown campus and at the Macdonald campus in Sainte-Anne-de-Bellevue.

#### Required Courses (18 credits)

Location Note: Core required courses are taught at both McGill's Downtown campus and at the Macdonald campus in Sainte-Anne-de-Bellevue. You should register in Section 001 of an ENVR course that you plan to take on the Downtown campus, and in Section 051 of an ENVR course that you plan to take on the Macdonald campus.

Stream 3: Culture and Society

Stream 4: Environment and Agricultural Resources

**Stream 1: Economic Development and Living Standards**

Experience has shown that development requires economic growth and is shaped by the distribution of economic resources. At the same time, the globalized economy has created new opportunities and new challenges for sustained growth. Courses in this stream revolve around the factors contributing to sustained economic growth, the trade-offs associated with different ways of achieving it, and the distributional issues development inevitably raises. More generally, this stream is also concerned with understanding what "development" actually entails in different contexts.

Moreover, present developmental processes oftentimes cannot be adequately understood without considering history. Culture, in turn, is increasingly recognized within development studies as both a determinant and a constitutive element of development. In exploring all three, the courses in this stream provide important insight into the complex and varied relationship between social context and development.

The courses in this stream recognize both: some courses consider how the environment can be exploited to promote human well-being while others consider how the environment must be respected to render development sustainable. #### Stream 1: Economic Development and Living Standards

Experience has shown that development requires economic growth and is shaped by the distribution of economic resources. At the same time, the globalized economy has created new opportunities and new challenges for sustained growth. Courses in this stream revolve around the factors contributing to sustained economic growth, the trade-offs associated with different ways of achieving it, and the distributional issues development inevitably raises. More generally, this stream is also concerned with understanding what "development" actually entails in different contexts.

The courses in this stream focus on how the social structures, history, and culture of populations affect developmental processes. Associations, class, gender, religion, race, and ethnicity, for example, all shape development in multiple and diverse ways. Moreover, present developmental processes oftentimes cannot be adequately understood without considering history. Culture, in turn, is increasingly recognized within development studies as both a determinant and a constitutive element of development. In exploring all three, the courses in this stream provide important insight into the complex and varied relationship between social context and development.

Within development studies, the environment has long been recognized as a vital determinant of development. More recently, many scholars have changed their environmental focus to emphasize sustainability. The courses in this stream recognize both: some courses consider how the environment can be exploited to promote human well-being while others consider how the environment must be respected to render development sustainable. Together, they highlight the delicate balance that must be attained between humans and their environments to make possible sustainable livelihoods.

## 9.32 Mathematics and Statistics (MATH)

The Department of Mathematics and Statistics, the discipline, and specific courses are described under *Programs, Courses and University Regulations > Faculties & Schools > Faculty of Science > Undergraduate > Academic Programs (Faculty of Science) > : Mathematics and Statistics (MATH)*.

### 9.32.1 Bachelor of Arts (B.A.) - Minor Concentration Mathematics (18 credits)

The Minor Concentration Mathematics is offered in two versions: an expandable version, for students who wish to leave open the option of expanding the program into a Major Concentration Mathematics, and a non-expandable version for students who know on entry into the Minor that they do not wish to expand it into a major concentration.

The Minor Concentration Mathematics may be taken in conjunction with a major concentration in some other discipline under option A of the Multi-track System. Students planning on taking the Major Concentration Mathematics and the Minor Concentration Mathematics as part of Multi-track option C should select the Supplementary Minor Concentration in Mathematics in place of this Minor concentration.

Under option C, it is not possible to combine the Minor Concentration Mathematics and the Minor Concentration Statistics. Students wishing to do this should instead take the Major Concentration Mathematics under option B (two major concentrations) and select a large number of statistics complementaries.

For more information about the Multi-track System options please refer to the Faculty of Arts regulations under "Faculty Degree Requirements", "About Program Requirements", and "Departmental Programs".

No overlap is permitted with other programs.

#### Program Prerequisites

Students who have not completed the program prerequisite courses listed below or their equivalents will be required to make up any deficiencies in these courses over and above the 18 credits required for the program.

MATH 133	(3)	Linear Algebra and Geometry
MATH 140	(3)	Calculus 1
MATH 141	(4)	Calculus 2

#### Expandable Version: Required Courses (12 credits)

The Minor Concentration Statistics may be taken in conjunction with a major concentration in some other discipline under option A of the Multi-track System, or together with the Major Concentration Mathematics and a minor concentration (which must be in some other discipline than Mathematics) under option C.

Under option C, it is not possible to combine the Minor Concentration Statistics and the Minor Concentration Mathematics. Students wishing to do this should instead take the Major Concentration Mathematics under option B (two major concentrations) and select a large number of statistics complementaries.

For more information about the Multi-track System options please refer to the Faculty of Arts regulations under "Faculty Degree Requirements", "About Program Requirements", and "Departmental Programs".

No overlap is permitted with other programs.

### 9.36.3 Bachelor of Arts (B.A.) - Joint Honours Component Philosophy and Western Religions (36 credits)

NOTE: THE JOINT HONOURS COMPONENT IN PHILOSOPHY AND WESTERN RELIGIONS IS NOT AVAILABLE FOR THE 2012-2013 ACADEMIC YEAR.

Students who wish to study at the Honours level in two Arts disciplines may apply to combine Joint Honours program components from two Arts disciplines. For a list of available Joint Honours programs, see "Overview of Programs Offered" and "Joint Honours Programs". Prior to registering for each Joint Honours component, students should consult an adviser in each department for approval of their course selection.

The Joint Honours Component Philosophy and Western Religions was designed for students who wish (i) to explore the intertwined intellectual worlds of Judaism, Christianity, and Islam, and the interaction between philosophy and religion from Antiquity to the Enlightenment and (ii) to acquire the linguistic and conceptual tools allowing them to read source texts in the original languages, and to conduct research in the areas investigated by the interdisciplinary program. Students will benefit most from the Joint Honours if they combine it with a program in Philosophy, Islamic Studies, Jewish Studies, Religious Studies, or Classics. Students are also encouraged to complete a minor concentration in one of the languages relevant to the academic field.

According to Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

Students are strongly encouraged to consult an adviser each year to devise a suitable course combination.

## 9.37 Physics (PHYS)

The Department of Physics, the discipline, and specific courses are described under *Programs, Courses and University Regulations > Faculties & Schools > Faculty of Science > Undergraduate > Academic Programs (Faculty of Science) > : Physics (PHYS)*.

### 9.37.1 Bachelor of Science (B.Sc.) - Minor Physics (18 credits)

The 18-credit Minor permits no overlap with any other programs. It contains no Mathematics courses, although many of the courses in it have Math pre- or corequisites. It will, therefore, be particularly appropriate to students in Mathematics, but it is also available to any Science student with the appropriate mathematical background.

Students in certain programs (e.g., the Major Chemistry) will find that there are courses in the Minor that are already part of their program, or that they may not take for credit because of a substantial overlap of material with a course or courses in their program. After consultation with an adviser, such students may complete the Minor by substituting any other physics course(s) from the Major or Honours Physics programs.

The Major Concentration Physics, which is restricted to students in the B.A. & Sc. or B.Sc./B.Ed., is a planned sequence of courses designed to permit a degree of specialization in this discipline. This program is insufficient to prepare a student for professional or graduate work in physics; students interested in pursuing a career in physics are advised to take the appropriate B.Sc. program in physics.

**Required Courses\* (30 credits)**

### 9.38.10 Bachelor of Arts (B.A.) - Joint Honours Component Political Science (36 credits)

Students who wish to study at the Honours level in two Arts disciplines may apply to combine Joint Honours Program components from two Arts disciplines. For a list of available Joint Honours programs, see "Overview of Programs Offered" and "Joint Honours Programs".

Prior to registering for each Joint Honours component, students should consult an adviser in each department for approval of their course selection and their interdisciplinary research project (if applicable).

To enter, remain and graduate in Joint Honours, students must achieve/maintain a 3.3 average in their political science courses and more than half of the political science grades must be at the B+ level or higher. According to Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00 in general. In addition to meeting these Political Science requirements, students must meet the requirements set forth by the other department.

To be awarded First Class Joint Honours at graduation, in addition to the Faculty requirement of a 3.50 CGPA, students must achieve a 3.6 average in their political science courses and more than half of political science grades must be at the A- level or higher. All political science courses taken at McGill are counted in determining a student's standing. (The specific criteria are given in the brochure "Major and Honours Programs in Political Science", which may be found on the Department website <http://www.mcgill.ca/politicalscience/>.) To be awarded Joint Honours at graduation, students must be registered in the Joint Honours program in their final year. At graduation, students' Joint Honours standing will be determined by their overall record in the Joint Honours program. In addition to meeting these Political Science requirements, students must meet the requirements set forth by the other department.

Students may enter the Joint Honours program in U1.

**Required Course (3 credits)**

POLI 311 is required except for those students whose other Joint Honours component is either Economics or Sociology. These students may be authorized to take an equivalent social science methods course in Economics or Sociology. If so, they must take 3 credits in Political Theory. Refer to the Political Theory course list below for appropriate courses.

POLI 311 (3) Techniques of Empirical Research

**Complementary Courses (33 credits)**

33 credits of complementary courses selected with the following specifications.

No more than one-half (18 credits) of a student's political science credits may be in any one field (Canadian Politics, Comparative Politics (Developed Areas and Developing Areas), International Relations, Political Theory). However, if the field is Comparative Politics and if courses are taken in both Developed Areas and Developing Areas, the maximum is 21 credits. Refer to the lists below for course choices in each field.

One quarter (9 credits) of political science credits must be at the 400-level or above including one 500-level Honours Seminar or one 600-level Graduate Seminar. This one-quarter rule may be satisfied by taking a 500-level Honours Seminar and a 600-level Graduate Seminar. Refer to the lists below for course choices at the 400 and 500 levels in each field. Consult the Department website (<http://www.mcgill.ca/politicalscience/courses/graduate/>) for 600-level course choices.

No more than 15 credits of political science may be at the 200 level. Students may not take 200-level political science courses in their final year.

### 9.39.3 Bachelor of Arts (B.A.) - Joint Honours Component Psychology (36 credits)

Students who wish to study at the Honours level in two Arts disciplines may apply to combine Joint Honours program components from two Arts disciplines. For a list of available Joint Honours programs, see "Overview of Programs Offered" and "Joint Honours Programs".

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Students should note that awarding of the Joint Honours degree will depend on both cumulative grade point average and a minimum grade of B on PSYC 380D1/PSYC 380D2, PSYC 482. "First Class Honours" is awarded to students who obtain a minimum CGPA of 3.50 and a minimum grade of A- in the required honours courses (i.e. PSYC 380D1/D2, PSYC 482). "Honours" is awarded to students with a minimum CGPA of 3.00 and a minimum grade of B in the required honours courses.

In addition to the requirements of the Joint Honours Component Psychology, students must also complete all requirements of their other Joint Honours component.

Admission to the Joint Honours component is selective. Students with a cumulative grade point average of 3.00 or higher are eligible to apply; however, normally only students with a U1 GPA above 3.50 are admitted. Students must complete a minimum of 27 graded credits in two terms in their U1 year to be eligible to apply. Once in the Joint Honours component, students must obtain a GPA of 3.00 in the U2 year in order to continue in the program for U3. Students in the Joint Honours component are encouraged to complete a minimum of 27 graded credits per academic year. This is also the minimum number of credits required to be eligible for fellowships and awards.

Students may apply to the Joint Honours component upon completion of the U1 year. Eligible students must have completed the following Psychology courses: PSYC 204, PSYC 211, PSYC 212, PSYC 213 and PSYC 215. Students are advised to complete PSYC 305 in their U1 year.

Applications can be obtained from the Undergraduate Office of the Department of Psychology, Room N7/9A, Stewart Biological Sciences Building. The applications must be completed and returned to the Undergraduate Office by August 1 for September admission. Candidates will be informed of the Department's decision via email before classes begin in September.

#### Program Prerequisites

Students planning on entering the Joint Honours Component Psychology program are required to complete Introductory Psychology; a course in Human Biology is strongly recommended.

Students who have not previously completed Psychology 350-101 or 350-102 in CEGEP are required to register for PSYC 100 during their U1 year.

Bachelor of Arts students who have not completed one of Biology 101-301, 101-401, 101-911 or 101-921 in CEGEP should complete one of BIOL 115, BIOL 111 or BIOL 112 during their U1 year. Students who enter as Freshmen may take these courses in U0.

### Stream II - Indo-Tibetan Languages

Sanskrit is the language of classical Indian civilization and is recommended for students interested in gaining access to religious texts, philosophical works, academic treatises on all subjects, and poetry written in classical and medieval India.

Classical Tibetan is one of the main scriptural languages of Buddhism. Many texts originally composed in Sanskrit are only extant in their Tibetan translations, and a vast body of philosophical, devotional, poetic and academic works composed in Classical Tibetan is only accessible to one who has a firm grasp of the language.

Tamil is a language spoken by over 75,000,000 people around the world. It is an ancient South Indian language that, unlike Sanskrit, has a vital, living tradition. It has a classical literary canon and yet is also part of the everyday lives of millions of people.

18 credits chosen from among courses on Sanskrit, Tibetan, and Tamil.

### **9.45.3 Bachelor of Arts and Science (B.A. & Sc.) - Interfaculty Program in Sustainability, Science and Society (54 credits)**

The grand challenge of the 21st century is sustainable well-being; that is, to improve human well-being while maintaining the Earth's life-support systems. This B.A. & Sc. program provides the interdisciplinary and integrative knowledge and skills required to effectively understand and address this challenge in its multiple dimensions—scientific-technological, socio-economic, political-institutional, ethical, and human behavioural—and to chart a transition to sustainability. It is built upon three pillars: 1) Science and Technology, to provide an in-depth understanding of the underpinnings of the problems of concern along these dimensions; 2) Economics, Policy, and Governance, to understand how we can make the sustainability transition; and 3) Ethics, Equity, and Justice, to discuss why we need change, and the issues of equity and justice associated with taking action. This program is a partnership between Geography and the MSE and will be administered through Geography.

#### 9.45.4 Bachelor of Arts and Science (B.A. & Sc.) - Honours Interfaculty Program in Sustainability, Science and Society (60 credits)

**Revision, August 2012. Start of revision.**

##### NEW PROGRAM

The grand challenge of the 21st century is sustainable well-being; that is, to improve human well-being while maintaining the Earth's life-support systems. This B.A. & Sc. program provides the interdisciplinary and integrative knowledge and skills required to effectively understand and address this challenge in its multiple dimensions—scientific-technological, socio-economic, political-institutional, ethical, and human behavioural - and to chart a transition to sustainability. It is built upon three pillars: 1) Science and Technology, to provide an in-depth understanding of the underpinnings of the problems of concern along these dimensions; 2) Economics, Policy, and Governance, to understand how we can make the sustainability transition; and 3) Ethics, Equity, and Justice, to discuss why we need change, and the issues of equity and justice associated with taking action. This program is a partnership between Geography and the MSE and will be administered through Geography.

The Honours program allows students to pursue a research project with the supervision of a McGill University faculty member, leading to an honours thesis. Applicants must have a minimum program GPA (GPA of all required and complementary courses taken at McGill) of 3.3 to enter the Honours program. Students must earn a B grade (3.0) or higher for the Honours Research course (ENVR 495, 6 credits). Students are required to achieve a minimum overall CGPA of 3.0 at graduation, and a minimum Program GPA of 3.3 to obtain Honours. Honours students need to identify a supervisor, an honours project, and register in ENVR 495. Honours students are encouraged to participate in 500-level seminars with graduate students.

### 9.46.3 Bachelor of Arts (B.A.) - Joint Honours Component Women's Studies (36 credits)

Until further notice, registration in this Joint Honours Component in Women's Studies is not offered.

Students wishing to study at the Honours level in two disciplines can combine Joint Honours program components in any two Arts disciplines. For a list of available Joint Honours programs, see "Overview of Programs Offered" and "Joint Honours Programs".

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

The Joint Honours component in Women's Studies offers a degree of analysis and depth of contemporary and historical critical issues centered on women, gender, and/or feminism beyond that of the Major concentration. It culminates in the completion of an Honours thesis, supervised by a faculty member. Students secure the approval of a potential thesis adviser during the year before undertaking the thesis. Three credits are accorded to the thesis (graded by the thesis adviser), and 3 credits are accorded to work undertaken in the Colloquium which requires supplemental reading and writing assignments, training in research and thesis writing methods, presentation to the group of theses in progress, and response to the work of others.

Joint Honours students must maintain an annual GPA of 3.30 in all required and complementary courses that fulfil the requirements of a Joint Honours Component in Women's Studies, and a CGPA of 3.00.
